Report of Independent Registered Public Accounting Firm

The Trustees
PGT Savings Plan

Opinion on the Financial Statements

We have audited the accompanying statements of net assets available for benefits (modified cash basis) of the PGT Savings Plan (the Plan) as of December 31, 2017 and 2016, and the related statements of changes in net assets available for benefits (modified cash basis) for the years then ended, and the related notes (collectively referred to as the financial statements). In our opinion, the financial statements present fairly, in all material respects, the net assets available for benefits (modified cash basis) of the Plan as of December 31, 2017 and 2016, and the changes in net assets available for benefits (modified cash basis) for the years then ended, in conformity with the modified cash basis of accounting described in Note 2.

Basis for Opinion

These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on the Plan's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Plan in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Basis of Accounting

We draw attention to Note 2 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Supplemental Information

The schedule (modified cash basis) of assets (held at end of year) as of or for the year ended December 31, 2017 (referred to as the supplemental information) has been subjected to audit procedures performed in conjunction with the audit of the Plan's financial statements. The supplemental information is the responsibility of the Plan's management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information, we evaluated whether the supplemental information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental information is fairly stated, in all material respects, in relation to the financial statements as a whole.

/s/ Mayer Hoffman McCann P.C.

We have served as the Plan's auditor since 2009.

PGT Savings Plan
Notes to Financial Statements (Modified Cash Basis)
December 31, 2017 and 2016

1. Plan Description

The following description of the PGT Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution Plan covering all eligible employees of PGT Industries, Inc., CGI Windows & Doors, Inc., and WinDoor, Inc. (the "Companies," "Employer" or "Plan Sponsor"), wholly-owned subsidiaries of PGT Innovations, Inc. ("PGT"). The Plan became effective on October 1, 1982, and was amended and restated through the adoption of a non-standardized prototype adoption agreement effective January 1, 2009. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 "ERISA", as amended.

Eligibility

Employees participating in the Plan prior to the Plan's restatement remain eligible to participate. All other employees are eligible to participate in the Plan as of the first day of the next month following the employee's completion of three months of service as defined in the Plan document.

Contributions

The Plan includes a 401(k) provision, which allows qualified employees to make contributions (through payroll deductions) to the Plan, thereby deferring taxation on the portion of their earnings contributed to the Plan. Employees can defer up to 80% of their compensation subject to Internal Revenue Code ("IRC") limitations. Employees who have attained age 50 before the end of the Plan year may also make additional catch up contributions, subject to IRC limitations.

For each Plan year, the Company may contribute to the Plan, on behalf of each eligible participant, a matching contribution equal to a percentage of the eligible participant's elective deferrals made. The Plan Sponsor shall determine the amount, if any, of the matching contribution. The Company's matching contributions are at the Company's discretion. For the Plan year ended December 31, 2017, the Company made matching contributions totaling $2,012,624. These contributions included $352,670 made in April 2017, representing the Company's matching contribution relating to the fourth quarter of 2016 at an employer matching rate of two percent, and $1,659,954 made during the remainder of 2017, representing the Company's matching contributions relating to the first, second and third quarters of 2017 at an employer matching rate of two percent for the first quarter of 2017 and three percent for the second and third quarters of 2017, funded during the second through fourth quarters of the year ended December 31, 2017. The Company matching contribution relating to the fourth quarter of 2017 totaled $622,645, representing a three percent employer matching rate, and was funded in the first quarter of the year ended December 31, 2018.

For the Plan year ended December 31, 2016, the Company made matching contributions of $1,483,767, representing a three percent employer match for the first three quarters of the year ended December 31, 2016, funded in the second through fourth quarters of the year ended December 31, 2016.

The Company, by action of its Board of Directors, may make a discretionary profit sharing contribution. Profit sharing contributions are allocated to all participating employees who have been credited with at least 1,000 hours of service in the Plan year, based on the ratio that the participant's compensation bears to the total compensation of all eligible participants for the Plan year. No profit sharing contributions were made during 2017 and 2016.

Vesting

Participants immediately vest in their contributions and fund earnings or losses. Participants fully vest in the Company's contributions after five years of service.

Notes Receivable from Participants

The aggregate amount of any loan to a participant may be, at a minimum, $1,000 and may not exceed the lesser of $50,000 or 50% of the participant's vested balance in the Plan. Loan terms range from one to five years, except in the case that the loan is used for the purchase of a participant's principal residence, in which case the repayment period may extend to no more than 15 years. The loans are secured by the balance in the participant's account and bear interest at rates commensurate to regional bank rates for similar loans. Principal and interest are paid ratably through weekly payroll deductions. Loans to terminated participants and loans in default are treated as distributions to the participant. Loan policy limits the number of outstanding loans at any point in time to no more than two.

Benefits

For Employer matching and profit sharing contributions and earnings thereon, participants are vested ratably over five years of service, being fully vested upon completion of five years of service. Upon retirement, death, or disability, participants or their beneficiaries are vested 100% in all contributions and earnings. Participants are fully vested in their contributions and earnings thereon at all times. Retirement benefits are paid to the participant in a single, lump-sum payment. Hardship withdrawals by Plan participants may be made upon written request to and approval by the Plan administrator.

Investments

T. Rowe Price is the trustee of the Plan. T. Rowe Price invests Plan contributions and holds the assets of the Plan. Contributions may be invested in various diverse funds available to the participants of the Plan. Participant accounts are credited with their contributions allocated among the funds as requested. Employer contributions, if any, are invested based on the participant's allocation directions.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of: (a) the Company's contributions; and (b) Plan investment results. Allocations are based on participant contributions, individual fund earnings or account balances, as defined. Forfeited, non-vested balances are used to reduce Employer contributions or pay qualified Plan expenses. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's account.

Forfeited non-vested accounts in the years ended December 31, 2017 and 2016 totaled $181,289 and $158,838, respectively. Forfeitures used to reduce employer contributions in the years ended December 31, 2017 and 2016 totaled $217,277 and $165,617, respectively.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right to amend or discontinue the Plan at any time subject to the provisions of ERISA. Upon termination of the Plan, each participant becomes fully vested in the value of his or her account.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements have been prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than U.S. generally accepted accounting principles. The preparation of financial statements on the modified cash basis requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets, additions to net assets, deductions from net assets and liabilities and disclosures of contingent liabilities, if any. Actual results could differ from those estimates and assumptions. Contributions are recorded when received, investment income is recorded as it is collected, and benefit payments and expenses are recorded when paid.

As described in ASC 820-10, Fair Value Measurements and Disclosures and Accounting Standards Update ("ASU") 2009-12 Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent) Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans (the "FSP"), investment contracts held by a defined contribution Plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution Plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common collective trust (CCT), the T. Rowe Price Stable Value Fund (the "Fund"). As required by the FSP, the statements of net assets available for benefits present the fair value of the investment in this CCT. The accompanying statements of changes in net assets available for Plan benefits are prepared on a contract value which is a representation of fair value.

Reclassifications

Certain amounts in the prior year have been reclassified to conform to the current year's presentation.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. The shares of mutual funds are valued at quoted market prices, which represent the net asset values of shares held by the Plan at year-end. PGT common stock is valued at market price on the last day of the Plan year. The fair value of the participation units in common collective trusts is based on quoted redemption values on the last business day of the Plan's year-end. Participant loans are valued at their unpaid balances, which approximate fair value. Purchases and sales of securities are reflected on a trade-date basis. Interest income is recorded as received. Dividend income is recorded as of the ex-dividend date.

Administrative Expenses

Except for an annual fee charged by T. Rowe Price that is paid by the Plan, administrative expenses of the Plan are generally absorbed by the Plan Sponsor.

3. Income Tax Status

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements. However, the Plan is subject to income tax examinations for the tax years 2013 and all subsequent years.

4. Investment Contracts
The Plan invests in the T. Rowe Price Stable Value Fund which is a CCT comprised primarily of fully benefit-responsive investment contracts, which include conventional, synthetic and separate account investment contracts issued by life insurance companies, banks and other financial institutions, designed to provide principal stability and a competitive yield. The CCT is valued at the net asset value of units of the T. Rowe Price Trust Company (T. Rowe Price) collective trust. The net asset value is used as a practical expedient to estimate fair value. The practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

5. Fair Value Measurements
Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. A three-tier fair value hierarchy is used to prioritize the inputs used in measuring fair value. The hierarchy gives the highest priority to unadjusted quoted market prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The three levels of the fair value hierarchy are as follows:
Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
Level 2: Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.
Level 3: Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

The following table sets forth information regarding the Plan's financial assets that are measured at fair value in accordance with ASC 820.

		Fair Value Measurements at Reporting Date Using:		
Description	December 31, 2017	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Mutual funds	$52,539,726	$52,539,726	$ -	$ -
Common stock	1,109,281	1,109,281	-	-
	53,649,007	$53,649,007	$ -	$ -
Investments measured at net asset value (1)	3,899,613			
Grand total	$57,548,620			

		Fair Value Measurements at Reporting Date Using:		
Description	December 31, 2016	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Mutual funds	$41,676,645	$41,676,645	$ -	$ -
Common stock	808,847	808,847	-	-
	42,485,492	$42,485,492	$ -	$ -
Investments measured at net asset value (1)	4,216,962			
Grand total	$46,702,454			

(1) Investments in our common collective trusts that are measured at net asset value per share equivalent are not classified in the fair value hierarchy. The fair value amounts presented are intended to reconcile the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The Plan currently has no nonfinancial assets or liabilities that are recognized or disclosed at fair value on a recurring basis. Changes in fair value of investments held at the end of the period are reported in net appreciation in fair value of investments in the accompanying statements of changes in net assets available for benefits. For the years ended December 31, 2017 and 2016, the net amount reported was appreciation of $6,389,660 and $1,421,199, respectively.

6. Party-in-Interest Transactions

In the years ended December 31, 2017 and 2016, certain Plan investments were funds managed by T. Rowe Price, a party-in-interest to the Plan.

The Plan held investments in the common stock of the parent of the Plan Sponsor with a fair value of $1,109,281 and $808,847, two percent or less of net assets available for benefits at December 31, 2017 and 2016, respectively.

The Plan had notes receivable from active plan participants of $2,923,306 and $2,471,685 at December 31, 2017 and 2016, respectively.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. Plan Mergers

On February 16, 2016, PGT Industries, Inc., the Plan Sponsor, acquired WinDoor, Inc., ("WinDoor"), the plan administrator of the WinDoor, Inc. 401(K) Plan (the "WinDoor Plan"). As part of the acquisition, the WinDoor Plan was merged into the Plan. On December 27, 2016, the WinDoor Plan converted all assets into interest-bearing cash in preparation for the transfer of its assets into the Plan. Subsequent to the WinDoor Plan's year ended December 31, 2016, on January 3, 2017, the WinDoor Plan was terminated, and all assets were transferred to the Plan. Total assets transferred from the WinDoor Plan into the Plan were $3,053,429.

On September 14, 2014, PGT Industries, Inc., the Plan Sponsor, acquired CGI Windows & Doors, Inc., the plan sponsor of the CGI Windows and Doors, Inc. 401(k) and Profit Sharing Plan (the "CGI Plan"), and became the sponsor of the CGI Plan. The PGT Industries, Inc. 401(k) Committee resolved to merge the CGI Plan into the Plan effective the close of business on April 1, 2016. Total assets transferred in from the CGI Plan were $2,043,462. Of this amount, $106,826 was disbursed in kind at April 1, 2016 and, therefore, was reflected in the Plan's investments held at fair value as of that date.

9. Subsequent Events

The plan sponsor evaluated subsequent events for recognition or disclosure in the financial statements through June 29, 2018, the day the financial statements were available to be issued.
