**ITEM 7.01. Regulation FD Disclosure.**

In May 2008, representatives of HealthSouth Corporation (the “Company”) will make presentations at healthcare industry investment banking conferences and marketing meetings using slides containing the information attached to this Current Report on Form 8-K as Exhibit 99. The presentation will address, among other things, the Company’s current focus on executing its strategic plan and growing earnings per share.

The information in this Current Report on Form 8-K, including the information set forth in Exhibit 99, shall not be deemed “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), nor shall it be incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly set forth by specific reference in such a filing.

**Note Regarding Presentation of Non-GAAP Financial Measures**

The financial data contained in the presentation includes non-GAAP financial measures, including “Adjusted Consolidated EBITDA.” The Company continues to believe Adjusted Consolidated EBITDA under its Credit Agreement is a measure of leverage capacity, its ability to service its debt, and its ability to make capital expenditures. However, as the Company continues to deleverage its balance sheet and the large, non-ordinary course charges related to the “sins of the past” are behind it, this measure will become less significant.

The Company uses Adjusted Consolidated EBITDA on a consolidated basis as a liquidity measure. The Company believes this financial measure on a consolidated basis is important in analyzing its liquidity because it is the key component of certain material covenants contained within the Company’s Credit Agreement, which is discussed in more detail in the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2007 (the “2007 Form 10-K”). These covenants are material terms of the Credit Agreement, and the Credit Agreement represents a substantial portion of the Company’s capitalization.

In general terms, the definition of Adjusted Consolidated EBITDA, per the Credit Agreement, allows the Company to add back to Adjusted Consolidated EBITDA all unusual non-cash items or non-recurring items. These items include, but may not be limited to, (1) amounts associated with government, class action, and related settlements, (2) fees, costs, and expenses related to the Company’s recapitalization transactions, (3) any losses from discontinued operations and closed locations, (4) charges in respect of professional fees for reconstruction and restatement of financial statements, including fees paid to outside professional firms for matters related to internal controls and legal fees for continued litigation defense and support matters discussed in Note 11, *Contingencies*, to the condensed consolidated financial statements accompanying our Form 10-Q for the quarterly period ended March 31, 2008, (5) compensation expenses recorded in accordance with FASB Statement No. 123(R), *Share-Based Payment*, (6) investment and other income (including interest income), and (7) fees associated with the Company’s divestiture activities.

However, Adjusted Consolidated EBITDA is not a measure of financial performance under generally accepted accounting principles in the United States of America (“GAAP”), and the items excluded from Adjusted Consolidated EBITDA are significant components in understanding and assessing financial performance. Therefore, Adjusted Consolidated EBITDA should not be considered a substitute for *Net income (loss)* or cash flows from operating, investing, or financing activities. The Company reconciles Adjusted Consolidated EBITDA to *Net income (loss)*, which reconciliation is set forth below and in the presentation, and to *Net cash provided by (used in) operating activities*, which reconciliation is set forth below. Because Adjusted Consolidated EBITDA is not a measurement determined in accordance with GAAP and is thus susceptible to varying calculations, Adjusted Consolidated EBITDA, as presented, may not be comparable to other similarly titled measures of other companies. Revenues and expenses are measured in accordance with the policies and procedures described in the 2007 Form 10-K.

The Company also uses operating earnings as an analytical indicator to assess its performance. The Company defines operating earnings as income before (1) loss on early extinguishment of debt, (2) interest expense and amortization of debt discounts and fees, (3) other income, (4) loss on interest rate swap, and (5) income tax expense. The calculation of operating earnings for the three months ended March 31, 2008 and 2007 is included in the slide presentation attached as Exhibit 99. Operating earnings is not a defined measure of financial performance under GAAP and should not be considered as an alternative to *Net income (loss)* as an operating performance measure. Because operating earnings is not a measure determined in accordance with GAAP and is susceptible to varying calculations, operating earnings, as presented, may not be

comparable to other similarly titled measures presented by other companies.
