Report of Independent Registered Public Accounting Firm

To the Board of Directors of SLM Corporation,  
the Retirement Committee, and the Trustees of Sallie Mae 401(k) Savings Plan

We have audited the accompanying statements of net assets available for benefits of Sallie Mae 401(k) Savings Plan (the "Plan") as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2013 and 2012, and the changes in net assets available for benefits for the year ended December 31, 2013, in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2013 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Sallie Mae 401(k) Savings Plan  
Notes to Financial Statements  
December 31, 2013

## 1. Plan Description

### General

The Sallie Mae 401(k) Savings Plan (the “Plan”) is a defined contribution plan established for the benefit of eligible employees electing to participate in the Plan (the “Participants”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). The following description of the Plan provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan’s provisions.

The Plan covers substantially all employees of SLM Corporation (the “Company”) and its subsidiaries. Eligible employees may participate in the Plan after one month of service.

Fidelity Management Trust Company (“Fidelity”) is the Plan Trustee. An affiliate of Fidelity, Fidelity Investments Institutional Operations Company, Inc. (“FIIOC”), serves as recordkeeper.

### Contributions and vesting

Participants are eligible to contribute from 1 to 75 percent of their eligible compensation to the Plan, in increments of whole percentages, up to the Internal Revenue Service (“IRS”) maximum of \$17,500 for 2013. The Plan allows participants who will attain age 50 in the current Plan year to make catch-up contributions into the Plan up to the IRS maximum of \$5,500 for 2013. Participants may also contribute amounts into the Plan rolled over from qualified employer plans in which they had previously participated. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company makes a matching contribution after six months of service. This matching contribution is 100 percent on the first three percent of a Participant’s contributions and 50 percent on the next two percent of a Participant’s contributions. These matching contributions and related earnings vest immediately. The Company also makes a contribution in an amount equal to one percent of eligible compensation to each eligible employee after one month of service, which vests after one year of service. Employees subject to the Service Contract Act regulations may be eligible to receive fully vested employer contributions based on the service contract fringe benefit differential rate compared with the Company cost of benefits they have elected. Participants also direct the investments of Company contributions.

Participants forfeit their right to Company contributions that are unvested at the time of their termination of service. During 2013, Company contributions were reduced by \$831,883 from previously forfeited non-vested accounts. Unused forfeitures at December 31, 2013 and 2012 totaled \$6,820 and \$5,052, respectively, which will be used to offset future Company contributions.

The Plan also allows the Company to make a discretionary profit sharing contribution, whereby the Company determines the amount of net profits, if any, to contribute to the Plan. The Company did not make any profit sharing contributions for the year ended December 31, 2013.

### Notes receivable from Participants

Participants may generally borrow up to 50 percent of their vested benefit to a maximum of \$50,000. Participants may have no more than two loans outstanding at any time. The term of a loan will be three or five years, at the election of the Participant, except for a loan to purchase the Participant’s principal residence, which can be repaid over 20 years. Loans are secured by the Participant’s account balance, bear interest at the prime rate established monthly by the Federal Reserve, and are repaid biweekly through automatic payroll deductions. In addition, Participants may repay all or a portion (in \$500 increments) of such loans at any time. Loans allowable under the Plan Document, collateralized by Participant account balances, are due in varying installments through 2033, with interest rates ranging from 3.25% to 9.50%.

Sallie Mae 401(k) Savings Plan  
Notes to Financial Statements  
December 31, 2013

Investment elections

The Plan offers a variety of investment options, including various registered investment companies and a unitized employer stock fund. In addition, Participants have the option to make contributions to a self-directed brokerage account. Under the self-directed brokerage account, Participants may direct investments in any security or other investments offered by Fidelity, regardless of whether they are included as investment options offered by the Plan. The one percent Company contribution will be made to the default investment, if a Participant does not make an investment election. The default fund is the Fidelity Freedom Fund, based on the Participant's date of birth and year in which the Participant attains age 65.

Participant accounts

Each Participant's account is credited with the Participant's and the Company's contributions and their portion of the Plan's earnings (losses). Plan earnings (losses) are allocated based on the Participant's designated investments of their account balances, as defined. The benefit to which a Participant is entitled is the benefit that can be provided from the Participant's vested account.

Payment of benefits

Participants may withdraw funds from their account upon retirement, disability, separation from employment, attainment of age 59-1/2, and certain other times as specified in the Plan document. Distributions shall be made in a lump sum in cash, in the Company's common stock, or a combination thereof, reduced by the outstanding balance of any loans not repaid by the Participant.

Administrative expenses

Participants pay fees relating to such Participant's loans and withdrawals. Additionally, Participants may pay for commissions associated with common stock purchases and sales and short term transaction fees in certain funds when Participants trade in and out of the funds within the time restriction specified for such funds. Participant costs, including investment management fees charged by the respective funds, are charged directly to the Participant's account and are reflected in the statement of changes in net assets available for benefits. The Company bears the remaining cost of Plan administration.

Plan administration

The Retirement Committee administers the Plan. The Investment Advisory Committee, a subcommittee of the Retirement Committee, is responsible for development of Plan investment policies and guidelines. Officers of the Company or its subsidiaries presently serve as Retirement Committee members. The administrative functions of the Plan are primarily performed by the Company or its subsidiaries. The Plan did not pay the Company, its subsidiaries or the Retirement Committee for their services.

## 2. Summary of Significant Accounting Policies

Basis of accounting

The Plan maintains its accounting records on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Fair value measurements

The Financial Accounting Standards Board's ("FASB") Accounting Standards Codification Topic 820, Fair Value Measurements and Disclosures ("ASC 820") defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC 820 specifies a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. Classification is based on the lowest level of input that is significant to the fair value of the instrument. The three levels are as follows:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. The types of financial instruments included in level 1 are highly liquid instruments with quoted prices.

Sallie Mae 401(k) Savings Plan  
Notes to Financial Statements  
December 31, 2013

Level 2 - Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Pricing inputs significant to the valuation are unobservable. Inputs are developed based on the best information available; however, significant judgment is required by management in developing the inputs.

The related disclosures are in note 4.

Investment valuation and income recognition

Investments held by the Plan at December 31, 2013 and 2012 consist of various registered investment companies, a unitized employer stock fund, and a self-directed brokerage option. Common stock, securities and brokerage account investments traded on national securities exchanges are carried at market value based on the closing price on the last business day of the year. The fair value of registered investment companies is determined based on quoted market prices, which represents the net asset value for shares held at year-end. The unit value of the Sallie Mae Stock Fund is based on the closing price of the Company's stock and the value of the money market component on the last business day of the Plan year. The Company's stock is listed and traded on the NASDAQ Global Select Market. Investments traded in the over-the-counter market and listed securities for which no sale was reported on that date are valued at the average of the last reported bid and asked prices.

The information in note 4 presents the net appreciation in the fair value of investments, which consists of realized gains or losses and unrealized appreciation or depreciation on those investments. Dividend income is recorded on the ex-dividend date. Interest earned on investments is recorded on the accrual basis. Purchases and sales of securities are recorded on the trade date.

Notes receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a Participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Contributions

Contributions made by employees electing to participate in the Plan under salary reduction agreements and Company contributions are recorded when payable into the Plan.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Such estimates include those regarding fair value. Actual results could differ significantly from those estimates.

Risks and uncertainties

The Plan provides for various investment options. Such investments are subject to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term, including a decrease in value, and that such changes could materially affect Participants' account balances and the amounts reported in the statement of net assets available for benefits.

Sallie Mae 401(k) Savings Plan  
Notes to Financial Statements  
December 31, 2013

Benefit payments

Benefits are recorded when paid.

Subsequent events

Subsequent events have been evaluated through the report date of these financial statements.

### 3. Investments

The individual investments representing five percent or more of the fair value of net assets available for benefits at December 31, 2013 and 2012 are reflected in the table below.

| Fund Name                                   | 2013         | 2012         |
|---|--------------|--------------|
| Fidelity Retirement Government Money Market | \$43,412,738 | \$44,116,975 |
| Spartan 500 Index                           | 59,431,083   | 46,211,548   |
| Fidelity Contrafund                         | 55,819,092   | 42,850,182   |
| Pimco Total Return Institutional            | *            | 28,719,451   |
| Fidelity Freedom 2030                       | 31,919,329   | 26,659,150   |
| Fidelity Balanced K                         | 29,250,571   | 24,104,921   |
| AllianzGI NFJ International Value Inst      | 32,770,780   | 27,894,443   |
| Loomis SM CP Grth IS                        | 27,876,594   | *            |

\*Investment represents less than five percent of net assets available for benefits as of December 31, 2013 or 2012.

During 2013, the Sallie Mae Stock Fund was reclassified to level 2 as of December 31, 2012.

The net investment income for the year ended December 31, 2013 is summarized as follows:

|   |               |
|---|---------------|
| Dividends and interest                                    | \$ 21,683,265 |
| Net appreciation in fair value of investments related to: |               |
| Registered investment companies                           | 63,927,337    |

| Self-directed brokerage account | 1,333,083    |
|                                 | \$95,926,426 |

Sallie Mae 401(k) Savings Plan  
Notes to Financial Statements  
December 31, 2013

5. Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, Participants would become 100 percent vested in their Company contributions.

6. Related Party Transactions and Party-In-Interest Transactions

Certain Plan investments are shares of registered investment companies or amounts of the Sallie Mae Stock Fund managed by Fidelity. Fidelity is the trustee as defined by the Plan and therefore these transactions qualify as party-in-interest transactions. Fees paid by the Plan for administrative services were \$137,609 for the year ended December 31, 2013. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment.

Additionally, the Plan has investments in the Sallie Mae Stock Fund comprised principally of SLM Corporation common stock. At December 31, 2013 and 2012, the Plan held 1,171,398 units and 1,371,225 units, respectively, valued at \$23,600,450 and \$18,121,172, respectively. During 2013, 374,895 units in the amount of \$6,443,825 were purchased and 574,721 units in the amount of \$9,947,036 were sold related to the Sallie Mae Stock Fund. Such transactions qualify as party-in-interest transactions, as SLM Corporation is the Plan's sponsor.

7. Income Tax Status

The IRS has determined and informed the Plan by letter dated March 18, 1999, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (the "IRC"). Although the Plan has been amended since the date of the letter, the Plan administrator believes that the Plan and related trust are operating in accordance with the IRC and are qualified under Section 401(a) of the IRC. Accordingly, no provision for income taxes has been made.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

8. Subsequent Event

On April 30, 2014, the Company completed its plan to separate into two distinct publicly-traded entities—an education loan management, servicing and asset recovery business, Navient Corporation ("Navient"), and a consumer banking business, SLM. In conjunction with the separation, a new defined contribution plan, Navient 401(k) Plan (the "Navient Plan"), was established for the benefit of the eligible employees of Navient. In May 2014, \$445,449,178 was transferred to the Navient Plan.
