**NOTE 1 – HISTORY AND ORGANIZATION**

Giggles N' Hugs, Inc. (“GIGL Inc.” or the “Company”) was originally organized on September 17, 2004 under the laws of the State of Nevada, as Teacher’s Pet, Inc. GIGL Inc. was organized to sell teaching supplies and learning tools. On August 20, 2010, GIGL Inc. filed an amendment to its articles of incorporation to change its name to Giggles N’ Hugs, Inc. The Company is authorized to issue 1,125,000,000 shares of its \$0.001 par value common stock.

On December 30, 2011, GIGL Inc. completed the acquisition of all the issued and outstanding shares of GNH, Inc. (“GNH”), a Nevada corporation, pursuant to a Stock Exchange Agreement (the “SEA”). Under the SEA, GIGL Inc. issued 18,289,716 shares of its common stock in exchange for a 100% interest in GNH. Additionally under the SEA, the former officer, director and shareholders of GIGL Inc. agreed to cancel a total of 47,607,500 shares of its common stock.

For accounting purposes, the acquisition of GNH by GIGL Inc. has been recorded as a reverse merger of a public company (the “Merger”), with the exception that no goodwill is generated, and followed up with a recapitalization of GNH based on the factors demonstrating that GNH represents the accounting acquirer. As part of closing of the Merger between GNH and GIGL Inc., GNH obtained 100% of the restaurant operations of Giggles N’ Hugs in Westfield Mall in Century City, California. The restaurant operations of Giggles N’ Hugs in Westfield Mall in Century City, California was originally formed April 30, 2010 and opened for operation December 3, 2010. Consequently, the historical financial information in the accompanying consolidated financial statements is that of GNH and the restaurant operations of Giggles N’ Hugs located in Century City, California. As a result of the Merger, GIGL Inc. now owns all of the assets, liabilities and operations of a kid friendly restaurant named Giggles N’ Hugs in Westfield Mall in Century City, California. Additionally, GIGL Inc. obtained ownership to all intellectual property rights for Giggles N’ Hugs facilities in the future.

On December 30, 2011, the transactions were completed and resulted in a change in control of the Company. Pursuant to the terms of the Agreement, the Company accepted the resignation of its prior officer and director, Tracie Hadama, and appointed Mr. Joey Parsi as President, Chief Executive Officer, Treasurer, and Secretary of the Company.

Edgar Filing: Giggles N' Hugs, Inc. - Form 10-Q

The Company adopted a 52/53 week fiscal year ending on the Sunday closest to December 31<sup>st</sup> for financial reporting purposes. The election for fiscal year was made with the 8-K filing in October 2013. Fiscal year 2014 consists of a year ending December 28, 2014. Fiscal year 2015 will consist of year ending December 27, 2015.

**NOTE 3 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Principles of consolidation

At September 27, 2015, the condensed consolidated financial statements include the accounts of Giggles N' Hugs, Inc., GNH CC, Inc. for restaurant operations of Giggles N' Hugs in Westfield Mall in Century City, California, GNH Topanga, Inc. for restaurant operations in Westfield Topanga Shopping Center in Woodland Hills, California, and Glendale Giggles N' Hugs, Inc. for restaurant operations in Glendale Galleria in Glendale, California. At September 28, 2014, condensed consolidated financial statements include the accounts of Giggles N' Hugs, Inc. GNH CC, Inc. for restaurant operations of Giggles N' Hugs in Westfield Mall in Century City, California, GNH Topanga, Inc. for restaurant operations in Westfield Topanga Shopping Center in Woodland Hills, California. All significant

intercompany balances and transactions have been eliminated. Giggles N' Hugs, Inc., GNH, Inc., GNH Topanga, Inc., and Glendale Giggles N' Hugs, Inc. will be collectively referred herein to as the "Company".

#### Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ significantly from those estimates.

#### Cash and cash equivalents

For the purpose of the statements of cash flows, all highly liquid investments with an original maturity of three months or less are considered to be cash equivalents. The carrying value of these investments approximates fair value.

Inventories

Inventories are stated at the lower of cost or market on a first-in, first-out basis and consist of restaurant food and other supplies.

Property and equipment

The Company records all property and equipment at cost less accumulated depreciation. Improvements are capitalized while repairs and maintenance costs are expensed as incurred. Depreciation is calculated using the straight-line method over the estimated useful life of the assets or the lease term, whichever is shorter. Leasehold improvements include the cost of the Company's internal development and construction department. Depreciation periods are as follows:

Leasehold improvements	10 years
Restaurant fixtures and equipment	10 years
Computer software and equipment	3 to 5 years

Leases

The Company currently leases its restaurant locations. The Company evaluates each lease to determine its appropriate classification as an operating or capital lease for financial reporting purposes.

Minimum base rent for the Company's operating leases, which generally have escalating rentals over the term of the lease, is recorded on a straight-line basis over the lease term. The initial rent term includes the build-out, or rent holiday period, for the Company's leases, where no rent payments are typically due under the terms of the lease. Deferred rent expense, which is based on a percentage of revenue, is also recorded to the extent it exceeds minimum base rent per the lease agreement.

The Company disburses cash for leasehold improvements and furniture, fixtures and equipment to build out and equip its leased premises. The Company also expends cash for structural additions that it makes to leased premises of which \$590,000 was reimbursed to Century City, \$489,770 was reimbursed to Topanga, and \$475,000 was reimbursed to Glendale by their landlords as construction contributions pursuant to agreed-upon terms in the lease agreements. Landlord construction contributions usually take the form of up-front cash. Depending on the specifics of the leased space and the lease agreement, amounts paid for structural components are recorded during the construction period as leasehold improvements or the landlord construction contributions are recorded as an incentive from lessor.

**NOTE 3 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

Impairment of long-lived assets

The Company assesses potential impairment of our long-lived assets whenever events or changes in circumstances indicate that the carrying value of the assets or asset group may not be recoverable. Factors considered include, but are not limited to, significant underperformance relative to historical or projected future operating results; significant changes in the manner of use of the acquired assets or the strategy for the overall business; and significant negative industry or economic trends. The Company regularly reviews the restaurant if it is cash flow negative for the previous four quarters to determine if impairment testing is warranted. At any given time, the Company may monitor its operations, and impairment charges could be triggered in the future if the restaurant performance does not improve.

The Company has identified leasehold improvements as the primary asset because it is the most significant component of our restaurant assets, it is the principal asset from which the Company derives cash flow generating capacity and has the longest remaining useful life. The recoverability is assessed in most cases by comparing the carrying value of the assets to the undiscounted cash flows expected to be generated by these assets. Impairment losses are measured as the amount by which the carrying values of the assets exceed their fair values.

At September 27, 2015 and September 28, 2014, we did not record an impairment charge against the carrying value of the restaurants located in Century City, Topanga, and Glendale, California.

Stock-based compensation

The Company records stock based compensation in accordance with the guidance in ASC Topic 505 and 718 which requires the Company to recognize expenses related to the fair value of its employee stock option awards. This eliminates accounting for share-based compensation transactions using the intrinsic value and requires instead that such transactions be accounted for using a fair-value-based method. The Company recognizes the cost of all share-based awards on a graded vesting basis over the vesting period of the award.

The Company accounts for equity instruments issued in exchange for the receipt of goods or services from other than employees in accordance with FASB ASC 718-10 and the conclusions reached by the FASB ASC 505-50. Costs are measured at the estimated fair market value of the consideration received or the estimated fair value of the equity instruments issued, whichever is more reliably measurable. The value of equity instruments issued for consideration other than employee services is determined on the earliest of a performance commitment or completion of performance by the provider of goods or services as defined by FASB ASC 505-50.

**NOTE 3 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

Loss per common share

Net loss per share is provided in accordance with ASC Subtopic 260-10. We present basic loss per share (“EPS”) and diluted EPS on the face of statements of operations. Basic EPS is computed by dividing reported losses by the weighted average shares outstanding. Except where the result would be anti-dilutive to income from continuing operations, diluted earnings per share has been computed assuming the conversion of the convertible long-term debt and the elimination of the related interest expense, and the exercise of stock warrants. Loss per common share has been computed using the weighted average number of common shares outstanding during the year.

Fair value of financial instruments

The carrying amounts reflected in the balance sheets for cash, accounts payable and accrued expenses approximate the respective fair values due to the short maturities of these items. The Company does not hold any investments that are available-for-sale.

As required by the Fair Value Measurements and Disclosures Topic of the FASB ASC, fair value is measured based on a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows: (Level 1) observable inputs such as quoted prices in active markets; (Level 2) inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and (Level 3) unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

The three levels of the fair value hierarchy are described below:

Edgar Filing: Giggles N' Hugs, Inc. - Form 10-Q

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2: Quoted prices in markets that are not active, or inputs that are observable, either directly or indirectly, for substantially the full term of the asset or liability; and

Level 3: Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (supported by little or no market activity).

**NOTE 3 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

Revenue recognition

Our revenues consist of sales from our restaurant operations and sales of memberships entitling members unlimited access to our play areas for the duration of their membership. As a general principle, revenue is recognized when the following criteria are met: (i) persuasive evidence of an arrangement exists; (ii) delivery has occurred and services have been rendered; (iii) the price to the buyer is fixed or determinable; and (iv) collectability is reasonably assured.

With respect to memberships, access to our play area extends throughout the term of membership. The vast majority of memberships sold are for one-month terms. Revenue is recognized on a straight-line basis over the membership period. Century City, Topanga, and Glendale receive payments from its customers at the start of the subscription period and each restaurant records deferred revenue for the unearned portion of the subscription period.

Revenues from restaurant sales are recognized when payment is tendered at the point of sale. Revenues are presented net of sales taxes. The obligation is included in other accrued expenses until the taxes are remitted to the appropriate taxing authorities.

We recognize a liability upon the sale of our gift cards and recognize revenue when these gift cards are redeemed in our restaurants.

For party rental agreements, we rely upon a signed contract between us and the customer as the persuasive evidence of a sales arrangement. Party rental deposits are recorded as deferred revenue upon receipt and recognized as revenue when the service has been rendered.

Additionally, revenues are recognized net of any discounts, returns, allowances and sales incentives, including coupon redemptions and complimentary meals.

#### Convertible debentures

Beneficial Conversion Feature - If the conversion features of conventional convertible debt provides for a rate of conversion that is below market value, this feature is characterized as a beneficial conversion feature (“BCF”). A BCF is recorded by the Company as a debt discount pursuant to ASC Topic 470-20 “Debt with Conversion and Other Options.” In those circumstances, the convertible debt is recorded net of the discount related to the BCF and the Company amortizes the discount to interest expense over the life of the debt using the effective interest method.

#### Debt modification

ASC 470-50 provides the accounting for a modification or exchange of a debt instrument between the same debtor and creditor. An exchange of debt instruments with different terms but with the same creditor has the same economic effect of modifying the terms of an existing debt instrument and thus is in the scope of ASC 470-50.

When the debtor and creditor agree to modify existing debt or exchange old debt for new debt, they have, in effect, renegotiated the old debt by changing its cash flows. While the modification or exchange of debt does not meet the conditions specified in ASC 405-20 for extinguishment accounting, substantial changes in the cash flows are viewed to represent extinguishments of the old debt and the creation of new debt, resulting in recognition of gain or loss by the debtor.

#### Recent pronouncements

The Company has evaluated the recent accounting pronouncements through September 2015 and believes that none of them will have a material effect on the Company’s financial position, results of operations or cash flows.

**NOTE 4 – GOING CONCERN**

The accompanying condensed consolidated financial statements have been prepared in conformity with generally accepted accounting principles in the United States of America, which contemplate continuation of the Company as a going concern. The Company has recently sustained operating losses and has an accumulated deficit of \$8,373,592 at September 27, 2015. In addition, the Company has negative working capital of \$820,536 at September 27, 2015.

These factors raise substantial doubt about the ability of the Company to continue as a going concern. In this regard, management is proposing to raise any necessary additional funds not provided by operations through loans or through sales of their common stock. There is no assurance that the Company will be successful in raising this additional capital or in achieving profitable operations. The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or amounts and classification of liabilities that might result from this uncertainty.

**NOTE 14 – STOCK OPTIONS AND WARRANTS (CONTINUED)**

The weighted-average fair value of stock options granted to employees during the period ended September 27, 2015 and September 28, 2014 and the weighted-average significant assumptions used to determine those fair values, using a Black-Scholes-Merton (“Black-Scholes”) option pricing model are as follows:

	<b>September 27, 2015</b>	<b>September 28, 2014</b>		
Significant assumptions (weighted-average):				
Risk-free interest rate at grant date	1.53%~2.04 %	0.78	%	
Expected stock price volatility	331%~335 %	139	%	
Expected dividend payout	-	-		
Expected option life (in years)	7.00	4.59		
Expected forfeiture rate	-	-	%	%
Fair value per share of options granted	\$ 0.27~0.32	\$ 3.96		

The expected life of awards granted represents the period of time that they are expected to be outstanding. The Company has no historical experience with which to establish a basis for determining an expected life of these awards. Therefore, the Company only gave consideration to the contractual terms and did not consider the vesting schedules, exercise patterns and pre-vesting and post-vesting forfeitures significant to the expected life of the option award.

We estimate the volatility of our common stock based on the calculated historical volatility of similar entities in industry, in size and in financial leverage whose share prices are publicly available. We base the risk-free interest rate used in the Black-Scholes option valuation model on the implied yield currently available on U.S. Treasury zero-coupon issues with an equivalent remaining term equal to the expected life of the award. We have not paid any cash dividends on our common stock and do not anticipate paying any cash dividends in the foreseeable future. Consequently, we use an expected dividend yield of zero in the Black-Scholes option valuation model.

There were no options granted during the quarter ended September 27, 2015.

There were no stock-based compensation expenses in connection with options granted to employees recognized in the condensed consolidated statement of operations for the thirty-nine weeks ended September 27, 2015 and September 28, 2014.

*Cost of sales.* Costs related to food purchases, supplies and general restaurant operations totaled \$205,247 during the thirteen weeks ended September 27, 2015, compared to \$229,459 for the thirteen weeks ended September 28, 2014, representing a 10.6% decline. Any increase in costs for labor and certain commodities could adversely impact operations unless we pass any such price increases on to our guests.

*Labor.* Labor expenses for the thirteen weeks ended September 27, 2015 and September 28, 2014, were \$371,062, and \$334,261, respectively, reflecting an increase of 11.0%. There was a constant pressure for increased wages, and the percentage increase was also impacted the small reduction in sales.

*Occupancy Cost.* Occupancy costs for the thirteen weeks ended September 27, 2015 over the same period September 28, 2014 were \$229,047 and \$219,865 respectively, rising slight by \$9,182 (\$4.2%) due to scheduled increases in

lease contracts. Facility costs generally do not fluctuate much from period to period.

*Depreciation.* Depreciation for the thirteen weeks ended September 27, 2015 and September 28, 2014, were \$91,106 and \$89,019 respectively, representing a small increase of \$2,087 (2.3%). We depreciate and amortize purchases of our ongoing capital investments and the construction and leasehold improvements related to the development of our stores.

*Other Expenses.* Total other expenses, consisting of executive compensation, non-employee stock compensation, professional and consulting expenses, general and administrative expenses and finance and interest expenses showed a significant drop of \$461,384 (54.9%) for the thirteen weeks ended September 27, 2014 at \$379,280 versus the comparable period ended September 28, 2014 at \$840,964.

The principal reason for this sharp decline from 2014, was due to the reduced financing and interest charges of \$396,619 (96.6%) due to the conversion of convertible notes outstanding; lower professional and consulting fees of \$39,733 (35.8%), and a drop in general and administrative costs by \$58,064 (60.7%)

#### **Net Loss**

The net losses for the thirteen weeks ending September 27, 2015 and September 28, 2014 was \$426,489 and \$858,936 respectively, a decline of \$432,447 (50.3%) resulting primarily from the drop in financing and interests costs of \$396,619 (96.6%).

Notes to Costs and Operating Expenses table:

\* Not divisible by zero.

*Cost of sales.* Costs related to food purchases, supplies and general restaurant operations for the thirty-nine weeks ended September 27, 2015 and September 28, 2014, totaled \$631,603 and \$673,113, respectively. This decline of \$41,510, or 6.2% occurred even though sales rose for the like period. Food costs fluctuate regularly and any increase in costs of certain commodities could adversely impact our operations unless we pass any such price increases to our guests.

*Operating expenses.* Operating costs consist of labor, occupancy costs, other operating expenses and depreciation, which were \$2,780,002 and \$2,736,766 for the thirty-nine weeks ended September 27, 2015 and September 28, 2014 respectively. The slight increase of \$33,455 (1.2%) is mostly attributable to labor costs, with a partial offset by lower food costs.

*Labor.* Labor expenses for the thirty-nine weeks ended September 27, 2015 and September 28, 2014, were \$1,040,010 and \$969,526, respectively. Labor represents our primary variable cost such costs increased by \$70,484 (7.3%) in a year to year comparison.

*Depreciation.* The Depreciation expense for the thirty-nine weeks ended September 27, 2015, and September 28, 2014, were \$275,477 and \$260,171, respectively. The increase of \$15,306 (5.9%), reflects mostly the full amortization of leasehold improvements that were placed into service. It's expected that increased acquisitions should slow in the coming periods. We depreciate and amortize purchases of our ongoing capital investments and the construction and leasehold improvements related to the development of our stores.

*Other Expenses.* Other expenses consist of executive compensation, non-employee stock compensation, professional and consulting expenses, general and administrative expenses, financing and interest costs, and other gains and losses. These total costs amounted to \$1,088,900 and \$1,663,273 for the thirty-nine weeks ended September 27, 2015 and September 28, 2014, respectively. This steep decline of \$574,373 (34.5%) was mostly attributable to lower finance and interest costs of \$504,392 (93.2%) due to conversion of convertible debentures, an improvement in lower overall professional and consulting fees by \$263,751 (51.3%), and a decrease in general and administrative expenses of \$43,479 (30.1%). These improvements were partially offset by an increase in non-employee stock-based compensation of \$265,248 (149.7%). In addition, the Company realized a one-time gain from a debt modification of \$69,228.

The combined total of all cost and operating expense combined with other expenses for September 27, 2015 and September 28, 2014 were \$3,868,902 and \$4,400,039, respectively. This overall drop in costs of \$540,918 (12.3%) was essentially a result of the lower finance and interest costs from the elimination of the convertible debentures.

**LIQUIDITY AND CAPITAL RESOURCES**

For the thirty-nine weeks ended September 27, 2015, the Company had a positive cash flow of \$75,827 consisting of cash used for operating activities of \$414,084 and investing activities of \$8,968, which was offset by net cash provided from financing activities in the amount of \$498,879. To date, our operations, for the most part, have been funded through the issuance of stock and borrowings.

In the prior year, there was a net cash increase of \$36,508, which was a result of the cash provided by operating activities of \$877,211 and financing activities of \$1,033,492, but offset by cash used by investing activities consisting entirely of acquisition of fixed assets of \$119,773.

The following table sets forth a summary of our cash flows for the thirty-nine weeks ended September 27, 2015 and September 28, 2014:

	<b>For Thirty-Nine Weeks Ended September 27, 2015</b>	<b>For Thirty-Nine Weeks Ended September 28, 2014</b>

Net cash provided by (used in) investing activities	(89,968 )	(119,773 )
Net cash provided by (used in) financing activities	498,879	1,033,492

We expect to use our cash to invest in our core businesses, including new product innovations, advertising and marketing, as well as the construction and build-out of additional restaurant locations. Other than normal operating expenses, cash requirements for 2015 are expected to consist primarily of capital expenditures and additional investments in advertising and marketing efforts.

The Company is not required to provide a tabular disclosure of contractual obligations, as it is a smaller reporting company as defined under Rule 12b-2 of the Exchange Act.

### **Off-Balance Sheet Arrangements**

We did not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors.

Without sufficient cash flow from operations we will require additional cash resources, including the sale of equity or debt securities, to meet our planned capital expenditures and working capital requirements for the next 12 months. We will require additional cash resources due to changed business conditions to implement our strategy to successfully expand our operations. If our own financial resources and then-current cash-flows from operations are insufficient to satisfy our capital requirements, we may seek to sell additional equity or debt securities or obtain additional credit facilities. The sale of additional equity securities will result in dilution to our existing stockholders. The incurrence of indebtedness will result in increased debt service obligations and could require us to agree to operating and financial covenants that could restrict our operations or modify our plans to grow the business. Financing may not be available in amounts or on terms acceptable to us, if at all. Any failure by us to raise additional funds on terms favorable to us, or at all, will limit our ability to expand our business operations and could harm our overall business prospects.

### **Item 3. Quantitative and Qualitative Disclosure about Market Risk**

#### ***Evaluation of Disclosure Controls and Procedures***

Our Principal Executive Officer and Principal Financial Officer, Joey Parsi, has evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this Report. Based on his evaluation, he concluded that our disclosure controls and procedures are not designed at a reasonable assurance level and are not effective to provide reasonable assurance that information we are required to disclose in the reports that we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our principal executive officer and principal financial officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

***Changes in Internal Control Over Financial Reporting***

There were no changes in the Company's internal control over financial reporting that occurred during the period covered by this Report, that materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

***Limitations on Effectiveness of Controls and Procedures***

In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. In addition, the design of disclosure controls and procedures must reflect the fact that there are resource constraints and that management is required to apply its judgment in evaluating the benefits of possible controls and procedures relative to their costs.
