REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the HII Administrative Committee and Participants of the
Huntington Ingalls Industries, Inc. Newport News Operations Savings (401(k)) Plan for Union Eligible Employees
Newport News, Virginia

We have audited the accompanying statements of net assets available for benefits of the Huntington Ingalls Industries, Inc. Newport News Operations Savings (401(k)) Plan for Union Eligible Employees (the "Plan") as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2012. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2012 and 2011, and the changes in net assets available for benefits for the year ended December 31, 2012, in conformity with accounting principles generally accepted in the United States of America. Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2012, is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This schedule is the responsibility of the Plan's management. Such schedule has been subjected to the auditing procedures applied in our audit of the basic 2012 financial statements and, in our opinion, is fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

NOTES TO FINANCIAL STATEMENTS
AS OF DECEMBER 31, 2012 AND 2011 AND FOR THE YEAR ENDED DECEMBER 31, 2012

1. DESCRIPTION OF THE PLAN

The following description of the Huntington Ingalls Industries, Inc. Newport News Operations Savings (401(k)) Plan for Union Eligible Employees (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General — The Plan was established by Newport News Shipbuilding and Dry Dock Company ("Newport News"), effective July 1, 1992, as a defined contribution 401(k) plan that provides for tax-deferred savings with both a defined contribution 401(k) plan and an employee stock ownership plan ("ESOP"). On March 31, 2011, Northrop Grumman Corporation completed its separation of its shipbuilding business into a separate company called Huntington Ingalls Industries, Inc. ("HII" or the "Company"). As part of this separation, HII became the Plan sponsor.

All United Steelworkers of America, Local No. 8888, the International Association of Firefighters Local I-45, and the International Union Security, Police, and Fire Professionals of America, Local 451 employees of the Company with at least 90 days of continuous service or 1,000 hours during a one-year period are eligible to participate in the Plan.

All of the Plan's investments are participant-directed. Both the savings and the ESOP features are reported within the Plan's financial statements. The Plan is administered by the HII Administrative Committee (the "Plan Administrator"). The trustee and record keeper for the Plan is Wells Fargo Bank, N.A. (the "Trustee"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Contributions — Plan participants may contribute between 1% and 30% of eligible compensation on a tax-deferred (pre-tax) basis through payroll withholdings. An active participant may change the percentage of his or her contributions at any time. The Company makes employer matching contributions to the Plan for participants covered under the terms of the Basic Labor Agreement between the Company and the United Steelworkers of America and its Local 8888, the International Union, Security, Police, and Fire Professionals of America and its Amalgamated Local No. 451, and the International Association of Fire Fighters and its Local I-45 (the "Basic Labor Agreement"). Such employer matching contributions are 100% of the first 2% of the participant's pre-tax contributions, 50% of the next 2% of the participant's pre-tax contributions, and 25% of the next 4% of the participant's pre-tax contributions. All Plan contributions are subject to the limitations prescribed by the Internal Revenue Code of 1986 (the "Code").

Certain employees hired or re-hired on or after January 1, 2010, who meet requirements, are eligible to receive an additional employer contribution known as a Retirement Account Contribution ("RAC"). RACs are calculated and credited for each payroll date.

The Company credits participants who meet eligibility requirements with a RAC each pay period in an amount determined as a percentage of eligible compensation for each pay period in accordance with the following table:

Participant's Age	Percentage of Compensation
Less than 35	3%
35–49	4%
50 or older	5%

Participant Accounts — Individual accounts are maintained for each Plan participant. Each participant’s account is credited with the participant’s contribution, any employer contributions, and an allocation of the Plan’s earnings, and charged with the participant’s withdrawals, an allocation of the Plan’s losses, and an allocation of administrative expenses borne by the Plan. Allocations are based on the participant’s account balance, as defined in the plan document. The benefit to which a participant is entitled is that which can be provided from the participant’s vested account.

Vesting — Plan participants are immediately vested in their own contributions (including any investment earnings thereon). Employer matching contributions become 100% vested upon the earlier of the participant’s attainment of two years of credited service as defined in the Plan document or normal retirement age (age 62). Full vesting of employer matching contributions also occurs upon termination of employment due to death, total disability or a “reduction in force” as defined in the Basic Labor Agreement.

Plan participants will be fully vested in their RAC, plus earnings thereon, upon the completion of three years of vesting service.

Forfeited Accounts — Forfeitures of nonvested Company contributions plus earnings thereon may be used to reduce subsequent Company contributions. At December 31, 2012 and 2011, forfeited accounts totaled approximately \$19,000 and \$33,000, respectively.

Investment Options — Upon enrollment in the Plan, participants may direct their contributions in 1% increments to any of the 21 investment options described in the plan document. Participants may change their investment options on a daily basis.

Notes Receivable from Participants — Participants may borrow from their accounts a minimum of \$500 up to a maximum of 50% of their vested account balance or \$50,000, whichever is less. A participant may not have more than one outstanding loan at any given time. The maximum loan period is four and a half years. Loans are secured by the assignment of the participant’s vested interest in the Plan, and bear interest at a rate of prime plus 1%. Repayments are made through payroll deductions (for active employees) or other forms of payment (for former employees or employees on a leave of absence). As of December 31, 2012, participant loans have maturities through 2017 at interest rates ranging from 4.25% to 10.5%.

Payment of Benefits — Distributions are generally made in a single lump sum payment as soon as practicable following termination of service, including layoff. However, a terminated participant under the age of 62 whose vested account balance exceeds \$1,000 must consent to the distribution of his or her account balance prior to the date the participant attains age 62. Interests in the Company common stock fund are distributed in accordance with the ESOP plan provisions.

Withdrawals — A participant may withdraw all or a portion of his or her vested account balance, net of any loan balances, for any reason after reaching age 59^{1/2}, or prior to reaching age 59^{1/2} in the case of hardship (as described in the Plan document), and such withdrawals are subject to tax withholdings as appropriate.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The accompanying financial statements are prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties — The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, credit, U.S. and foreign government and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities may occur in the near term and such changes could materially affect the amounts reported in the financial statements.

Investment Valuation and Income Recognition — The Plan's investments are stated at fair value as determined by the Trustee pursuant to a trustee agreement as directed and overseen by the HII Investment Committee (the "Investment Committee"). The shares of registered investment company funds are valued at quoted market prices that represent the net asset values ("NAV") of shares held by the Plan at year end. Investments in the collective trust funds are valued based on the redemption price of units owned by the Plan, which is based on the current fair value of the funds' underlying assets. Securities traded on a national securities exchange, including investments in common stock, are valued at their quoted market prices at the end of the Plan year.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Brokerage commissions, transfer taxes and other charges and expenses incurred in connection with the purchase, sale or other disposition of a security are added to the cost of the security or deducted from the proceeds of the sale or other disposition thereof, as appropriate. Taxes, if any, on the assets of the funds, or on any gain resulting from the sale or the disposition of such assets, or on the earnings of the funds, are apportioned among the participants whose interests in the Plan are affected.

Notes Receivable from Participants — Notes receivable from participants are measured at their unpaid principal balances plus accrued interest. Delinquent loans are reclassified as distributions based upon the terms of the Plan document.

Expenses — Administrative expenses of the Plan may be paid either by the Plan or the Plan's sponsor as provided in the Plan document.

Payment of Benefits — Benefit payments to participants are recorded upon distribution.

New Accounting Standards Update — The following accounting standards update was initially adopted in the 2012 financial statements.

In May 2011, the Financial Accounting Standards Board issued guidance clarifying how to measure and disclose fair value. This guidance (ASU 2011-04, Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs) amends the application of the "highest and best use" concept to be used only in the measurement of fair value of nonfinancial assets, clarifies that the measurement of the fair value of equity-classified financial instruments should be

performed from the perspective of a market participant who holds the instrument as an asset, clarifies that an entity that manages a group of financial assets and liabilities on the basis of its net risk exposure can measure those financial instruments on the basis of its net exposure to those risks, and clarifies when premiums and discounts should be taken into account when measuring fair value. The fair value disclosure requirements also were amended to require the categorization by level for items that are only required to be disclosed at fair value and information about transfers between Level 1 and Level 2. In addition, the ASU provides guidance on measuring the fair value of financial instruments managed within a portfolio and the application of premiums and discounts on fair value measurements. The ASU requires additional disclosure for Level 3 measurements regarding the sensitivity of fair value to changes in unobservable inputs and any interrelationships between those inputs. The amendments to ASC 820, Fair Value Measurement, included in ASU 2011-04, were effective prospectively for interim and annual periods beginning after December 15, 2011. The adoption of ASU 2011-04 did not have a material effect on the Plan's financial statements and related disclosures.

3. INVESTMENTS

The Plan's investments that represent 5% or more of the Plan's net assets available for benefits as of December 31, 2012 and 2011 are as follows (\$ in thousands):

	2012	2011
Wells Fargo Stable Return Fund	\$62,683	\$—
Fidelity Capital Appreciation	23,826	—
Wells Fargo S&P 500 Index Fund	16,684	—
Wells Fargo U.S. Aggregate Bond Index Fund	13,635	—
Invesco Van Kampen Equity and Income Fund	—	16,260
Dodge & Cox Stock Fund	—	9,056
Wells Fargo Advantage Enhanced Stock Market Fund	—	14,272
Wells Fargo Advantage U.S. Treasury Plus Money Market Fund	—	54,872
Fidelity U.S. Bond Index Fund	—	12,293

The net appreciation in fair value of investments (including investments bought and sold, as well as held during the year) for the year ended December 31, 2012, is as follows (\$ in thousands):

Registered investment company funds	\$8,925
Collective trust funds	2,394
Northrop Grumman Fund	172
Huntington Ingalls Industries Fund	568
Net appreciation in fair value of investments	\$12,059

4. FAIR VALUE MEASUREMENTS

Accounting Standards Codification 820, Fair Value Measurement, clarifies the definition of fair value, prescribes methods for measuring fair value, establishes a fair value hierarchy based on the inputs used to measure fair value and expands disclosures about the use of fair value measurements.

The valuation techniques utilized are based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect internal market assumptions. These two types of inputs create the following fair value hierarchy:

Level 1 — Quoted prices for identical instruments in active markets. Level 1 investments of the Plan primarily include registered investment company funds based on pricing, frequency of trading and other market considerations.

Level 2 — Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable. Level 2 investments of the Plan primarily include collective trust funds based on the use of net asset valuations derived by investment managers, domestic equity securities based on model-derived valuations, and common stock valued at their quoted market prices. There are no unfunded commitments for these securities and there are no participant or Plan-level redemption restrictions.

Level 3 — Significant inputs to the valuation model are unobservable. There were no Level 3 investments in the Plan as of December 31, 2012 and 2011.

There were no transfers of investments between Level 1 and Level 2 during the year ended December 31, 2012.

Edgar Filing: HUNTINGTON INGALLS INDUSTRIES, INC. - Form 11-K

The following tables set forth by level the fair value hierarchy of the investments held by the Plan as of December 31, 2012 and 2011 (\$ in thousands):

	December 31, 2012		Total
	Level 1	Level 2	
Registered investment company funds:			
Equity	\$45,274	\$—	\$45,274
Fixed income	6,642	—	6,642
Total	51,916	—	51,916
Collective trust funds:			
Equity	—	16,730	16,730
Asset allocation	—	25,727	25,727
Fixed income	—	13,635	13,635
Stable value fund	—	62,683	62,683
Total	—	118,775	118,775
Huntington Ingalls Industries Fund	—	2,746	2,746
Total	\$51,916	\$121,521	\$173,437
	December 31, 2011		Total
	Level 1	Level 2	
Registered investment company funds:			
Equity	\$36,780	\$—	\$36,780
Balanced	16,260	—	16,260
Total	53,040	—	53,040
Collective trust funds:			
Equity	—	14,272	14,272
Money market	—	54,872	54,872
Fixed income	—	18,354	18,354
Total	—	87,498	87,498

Huntington Ingalls Industries Fund	—	1,286	1,286
Total	\$53,040	\$92,606	\$145,646

5. INTEREST IN STABLE RETURN FUND

The Stable Return Fund (the "Fund") is a collective trust fund sponsored by the Trustee. Participants ordinarily may direct either the withdrawal or transfer of all or a portion of their investment at contract value. The contract value is generally equal to the principal amounts invested in the underlying investments, plus interest accrued at a crediting rate established under the contract, less any adjustments for withdrawals (as specified in the wrapper agreement). The Fund invests in assets, typically fixed income securities or bond funds, and enters into "wrapper" contracts issued by third parties. A wrapper contract is an agreement by another party, such as a bank or insurance company, to make payments to the Fund in certain circumstances. Wrapper contracts are designed to allow a stable value portfolio to maintain a constant NAV and protect a portfolio in extreme circumstances. Under the terms of the wrapper contract, the realized and unrealized gains and losses on the underlying investments are, in effect, amortized over the duration of the underlying investments through adjustments to the future contract interest crediting rate (which is the rate earned by participants in the trust for the underlying investments). The wrapper contract provides that the adjustments to the crediting rate will not result in a future interest crediting rate that is less than zero. This ensures that participants' principal and accrued interest will be protected.

Because changes in market interest rates affect the yield to maturity and the market value of the underlying investments, they can have a material impact on the wrapper contract's interest crediting rate. In addition, participant withdrawals and transfers from the trust are paid at contract value but funded through the market value liquidation of the underlying investments, which also impacts the interest crediting rate. The resulting difference between the market value of the underlying investments relative to the wrapper contract value is presented on the trust's Statement of Assets. If the adjustment from fair value to contract value is positive for a given contract, this indicates that the wrapper contract is greater than the market value of the underlying investments. The embedded market value losses will be amortized in the future through a lower interest crediting rate than would otherwise be the case. If the adjustment from fair value to contract value is negative, this indicates that the wrapper contract value is less than the market value of the underlying investments. The amortization of the embedded market value gains will cause the future interest crediting rate to be higher than it otherwise would have been.

In certain circumstances, the amount withdrawn from the wrapper contract would be payable at fair value rather than at contract value. These events include termination of the Plan, a material adverse change to the provisions of the Plan, the employer elects to withdraw from a wrapper contract in order to switch to a different investment provider, or the terms of a successor plan (in the event of the spin-off or sale of a division) do not meet the wrapper contract issuer's underwriting criteria for issuance of a clone wrapper contract.

Average yields for the year ended December 31, 2012 are as follows:

Based on actual earnings	0.94	%
Based on interest credited to participants	1.95	%

6. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Plan investments include shares of the Company. At December 31, 2012 and 2011, the Plan held 245,066 and 154,220 shares of the Huntington Ingalls Industries Fund with a fair value of \$2,746,000 and \$1,286,000, respectively.

At December 31, 2011, the Plan held 254,483 shares of the Northrop Grumman Fund with a fair value of \$3,822,000. The Northrop Grumman Fund was liquidated on March 30, 2012.

Plan investments also included shares of registered investment company funds and collective trust funds managed by the Trustee and, therefore, these transactions also qualify as party-in-interest transactions. Fees paid by the Plan for investment services were included as a reduction of the return earned on each fund. In Plan management's opinion, fees paid during the year for services rendered by parties-in-interest were based upon customary and reasonable rates for such services.

7. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and applicable collective bargaining agreements. In the event of the Plan's termination, the interests of all participants in their accounts would become 100% vested.

8. FEDERAL INCOME TAX STATUS

The Plan obtained its latest determination letter dated May 16, 2001, in which the Internal Revenue Service ("IRS") determined that the Plan terms at the time of the determination letter application were in compliance with applicable sections of the Code and, therefore, the related trust is exempt from taxation. Management believes that the Plan and related trust are currently designed and operated in compliance with the applicable requirements of the Code and will make any changes necessary to maintain such favorable terms. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.
