TRANS LUX CORP
Form 10-Q
February 14, 2014
The issuer has filed a Prospectus on August 16, 2013 with the U.S. Securities and Exchanges Commission (SEC) for the resale of Common Stock. Before you invest in the issuer s common shares, you should read such Prospectus, and other documents the issuer has filed with the SEC for more complete information about the issuer and an investment in its common shares. You may get these documents for free by searching the SEC online database (EDGAR) at http://www.sec.gov.

UNITED STATES SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

[X] QUARTERLY REPORT PURSUANT TO SECTION 13 or 15(d)

OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2013

Commission file number 1-2257

TRANS-LUX CORPORATION
(Exact name of registrant as specified in its charter)

Delaware (State or other jurisdiction of incorporation or organization)	13-1394750 (I.R.S. Employer Identification No.)
950 Third Avenue, Suite 2804, New York, NY (Address of principal executive offices)	10022 (Zip code)

(203) 853-4321
(Registrant's telephone number, including area code)

Indicate by check mark whether the Registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes __X__ No __

Indicate by check mark whether the Registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the Registrant was required to file and post such files). Yes __X__ No _____

Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act. (check one)

Large accelerated filer ___ Accelerated filer ___ Non-accelerated filer ___ Smaller reporting company_X___

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes _____ No __X__

Indicate the number of shares outstanding of each of the issuer's classes of Common Stock, as of the latest practicable date.

Date	Class	Shares Outstanding
2/13/2014	Common Stock - $0.001 Par Value	1,045,440

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2013

(unaudited)

Note 1 Basis of Presentation

Financial information included herein is unaudited, however, such information reflects all adjustments (of a normal and recurring nature), which are, in the opinion of management, necessary for the fair presentation of the condensed consolidated financial statements for the interim periods. The results for the interim periods are not necessarily indicative of the results to be expected for the full year. The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with rule 10-01 of Regulation S-X promulgated by the Securities and Exchange Commission and therefore do not include all information and footnote disclosures required under accounting principles generally accepted in the United States of America. It is suggested that the September 30, 2013 condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2012. The Condensed Consolidated Balance Sheet at December 31, 2012 is derived from the December 31, 2012 audited financial statements.

There have been no material changes in our significant accounting policies during the nine months ended September 30, 2013 as compared to the significant accounting policies described in our Annual Report on Form 10-K for the year ended December 31, 2012. The Company has evaluated subsequent events through the filing date of this Form 10-Q and they are disclosed in Note 14 Subsequent Events.

Recent Accounting Pronouncements: In September 2011, the Financial Accounting Standards Board (FASB) issued ASU 2011-08, Intangibles - Goodwill and Other (Topic 350): Testing Goodwill Impairment (ASU 2011-08). ASU 2011-08 is intended to simplify goodwill impairment testing by permitting assessment of qualitative factors to determine whether events and circumstances lead to the conclusion that it is necessary to perform the traditional two-step impairment test. Under this update, we are not required to calculate the fair value of our reporting units unless we conclude that it is more-likely-than-not (likelihood of more than 50%) that the carrying value of our reporting units is greater than the fair value of such units based on our assessment of events and circumstances. This update is effective for fiscal years beginning after December 15, 2011, with early adoption permitted. We adopted the provisions of this update at the beginning of our 2012 fourth quarter, which has historically been the time at which we assessed the potential impairment of our goodwill and other indefinite lived intangible assets. The adoption of ASU 2011-08 did not have a material impact on the Company s condensed consolidated financial statements.

Reclassifications: Certain reclassifications of prior year amounts have been made to conform to the current year presentation.

Table of Contents

Note 2 - Going Concern

A fundamental principle of the preparation of financial statements in accordance with accounting principles generally accepted in the United States of America is the assumption that an entity will continue in existence as a going concern, which contemplates continuity of operations and the realization of assets and settlement of liabilities occurring in the ordinary course of business.This principle is applicable to all entities except for entities in liquidation or entities for which liquidation appears imminent. In accordance with this requirement, the Company has prepared its consolidated financial statements on a going concern basis.

Management cannot provide any assurance that the Company would have sufficient cash and liquid assets to fund normal operations. Further, the Company s obligations under its pension plan exceeded plan assets by $6.4 million at September 30, 2013 and the Company had $1.1 million due under its pension plan over the next 12 months. Additionally, if the Company is unable to cure the defaults on the Debentures and the Notes, the Debentures and the Notes could be called and be immediately due. If the Debentures and Notes are called, the Company would need to obtain new financing. There can be no assurance that the Company will be able to do so and, even if it obtains such financing, how the terms of such financing will affect the Company. If the debt is called and new financing cannot be arranged, it is unlikely that the Company will be able to continue as a going concern. The accompanying financial statements do not include any adjustments relating to the recoverability and classification of asset carrying amounts or the amounts and classification of liabilities that may result from the outcome of this uncertainty. See Note 8 - Long-Term Debt for further details.

Subsequent to September 30, 2013, the Company has made its regularly scheduled quarterly contributions totaling $436,000 to the Company s pension plan, which was paid in increments of $218,000 each on October 15, 2013 and January 15, 2014. The Company continues to consider further exchanges of the $1.1 million of remaining Notes and the $334,000 of remaining Debentures on the same terms as previously offered in our 2011 financial restructuring. The Company is seeking additional financing in order to provide enough cash to cover our remaining current fixed cash obligations as well as providing working capital. However, there can be no assurance as to the amounts, if any, the Company will receive in any such financing or the terms thereof. To the extent the Company issues additional equity securities, it could be dilutive to existing shareholders.

Table of Contents

Note 3 - Plan of Restructuring

In 2011, the Company s Board of Directors approved a comprehensive restructuring plan which included offers to the holders of the 8¼% Limited convertible senior subordinated notes due 2012 (the Notes) the right to receive $225, without accrued interest, plus 10 shares of the Company s Common Stock for each $1,000 Note exchanged and to the holders of the 9½% Subordinated debentures due 2012 (the Debentures) the right to receive $100, without accrued interest, for each $1,000 Debenture exchanged. The Debentures are subordinate to the claims of the holders of the Notes, among other senior claims. In November 2011, $9.0 million principal amount of the Notes and $718,000 principal amount of the Debentures were exchanged. The Company issued 80,800 shares of Common Stock in exchange for the Notes and the Company recorded a gain of $8.8 million on debt extinguishment of principal and accrued interest on the Notes and Debentures during the year ended December 31, 2011. The offer expired in 2011, but the Company continues to consider further exchanges of the Notes and Debentures on the same terms as previously offered. No Notes or Debentures have been exchanged in the nine months ended September 30, 2013. In the nine months ended September 30, 2012, the Company recorded gains of $56,000 and $4,000 on debt extinguishment of principal and accrued interest on an additional $57,000 principal amount of the Notes and $5,000 principal amount of the Debentures that were exchanged, respectively. Each of these Common Stock amounts has been adjusted for the reverse and forward stock splits, see Note 14 Subsequent Events.

As part of the restructuring plan, on November 14, 2011, the Company completed the sale of an aggregate of $8.3 million of securities (the Offering) consisting of (i) 416,500 shares of the Company s Series A Convertible Preferred Stock, par value $1.00 per share (the Preferred Stock), having a stated value of $20.00 per share, which converted into 833,000 shares of the Company s Common Stock, par value $0.001 per share, and (ii) 166,600 one-year warrants (the A Warrants). These securities were organized into units, and were issued at a purchase price of $20,000 per unit (the Units). Each Unit consisted of 1,000 shares of the Company s Preferred Stock, which converted into 2,000 shares of the Company s Common Stock, and 400 A Warrants. Each A Warrant entitled the holder to purchase one share of the Company s Common Stock and a three-year warrant (the B Warrants), at an exercise price of $5.00 per share. The expiration date of the A Warrants was subsequently extended until September 13, 2013. 5,400 A Warrants were exercised before the expiration, resulting in the issuance of 5,400 B Warrants. Each B Warrant entitles the holder to purchase one share of the Company s Common Stock at an exercise price of $12.50 per share. Each of these warrants for Common shares and their exercise prices have been adjusted for the reverse and forward stock splits, see Note 14 Subsequent Events.

R.F. Lafferty & Co., Inc. (the Placement Agent), a FINRA registered broker-dealer, was engaged as Placement Agent in connection with the Offering. The Placement Agent was paid fees based upon a maximum of an $8.0 million raise. Such fees consisted of a cash fee in the amount of $200,000, a one-year note for $200,000 at a 4.00% rate of interest and three-year warrants to purchase 24 Units (the Placement Agent Warrants). The A Warrants issuable upon exercise of the Placement Agent Warrants and the B Warrants issuable upon exercise of the A Warrants underlying the Placement Agent Warrants are substantially the same as the A Warrants and B Warrants sold in the Offering, except

that they have the following exercise periods: (i) the A Warrants issuable upon exercise of the Placement Agent Warrants shall be exercisable for a period of two years from the date of exercise of the Placement Agent Warrants; and (ii) the B Warrants issuable upon exercise of the A Warrants underlying the Placement Agent Warrants shall be exercisable for a period equal to the longer of three years from the Closing Date or one year from the date of exercise of the A Warrants underlying the Placement Agent Warrants. The Placement Agent Warrants are exercisable at a price of $12.50 per share, and the A Warrants and B Warrants issuable upon exercise of the Placement Agent Warrants will be exercisable at a price of $5.00 per share in the case of the A Warrants and $12.50 per share in the case of the B Warrants, on the same terms as provided in the A Warrants and B Warrants sold in the Offering. Each of these warrant exercise prices has been adjusted for the reverse and forward stock splits, see Note 14 Subsequent Events.

Table of Contents

The net proceeds of the Offering were used to fund the restructuring of the Company s outstanding debt, which included: (1) a cash settlement to holders of the Notes in the amount of $2.0 million; (2) a cash settlement to holders of the Debentures in the amount of $72,000; (3) payment of the Company s outstanding term loan with the senior lender in the amount of $321,000 and (4) payment of $1.0 million on the Company s outstanding revolving loan with the senior lender under the Credit Agreement. The net proceeds of the Offering remaining after payment to holders of the Notes, the Debentures and the senior lender were used for working capital and other general corporate purposes.

As of September 30, 2013, the investors have purchased 5,400 shares of our Common Stock by exercising 5,400 A Warrants and are entitled to purchase an additional 5,400 shares of our Common Stock if they exercise their B Warrants, all of which were issued in connection with the their investment in the Series A Convertible Preferred Stock, which does not include the 107,200 warrants held or obtainable by the Placement Agent and the subscriber in connection with the sale of $650,000 of 4.00% secured notes. See Note 7 Warrant Liabilities.

In the second quarter of 2010, the Company began its restructuring plan by reducing operating costs. The 2010 actions included the elimination of approximately 50 positions from our operations and the closing of our Stratford, Connecticut manufacturing facility. The 2010 results included a restructuring charge of $1.1 million consisting of employee severance pay, facility closing costs representing primarily lease termination and asset write-off costs, and other fees directly related to the restructuring plan. The 2011 actions included the elimination of approximately 30 additional positions. The 2011 results included an additional restructuring charge of $164,000 consisting of employee severance pay and other fees directly related to the restructuring plan. The 2012 actions included the elimination of approximately 8 additional positions. The 2012 results included an additional restructuring charge of $415,000 consisting of employee severance pay and other fees directly related to the restructuring plan. The 2013 actions included the elimination of approximately 18 additional positions. The 2013 results included an additional restructuring charge of $49,000 consisting of employee severance pay and other fees directly related to the restructuring plan. The costs associated with the restructuring are included in a separate line item, Restructuring costs, in the Condensed Consolidated Statements of Operations. We expect that the majority of these costs will be paid over the next 12 months.

The following table shows the amounts expensed and paid for restructuring costs that were incurred during the nine months ended September 30, 2013 and the remaining accrued balance of restructuring costs as of September 30, 2013 which is included in Accrued liabilities in the Condensed Consolidated Balance Sheets:

	Balance	Provision	Payments and	Balance

	December 31, 2012		Other Adjustments	September 30, 2013
Severance costs [1]	$ 181	$ 40	$ 178	$ 43
Other fees	24	9	33	-
	$ 205	$ 49	$ 211	$ 43

(1) Represents salaries for employees separated from the Company.

Table of Contents

The following table shows, by reportable segment, the restructuring costs incurred for the nine months ended September 30, 2013 and the remaining accrued balance of restructuring costs as of September 30, 2013:

	Balance December 31, 2012	Provision	Payments and Other Adjustments	Balance September 30, 2013
Digital display sales	$ 158	$ 1	$ 139	$ 20
Digital display lease and maintenance	47	48	72	23
	$ 205	$ 49	$ 211	$ 43

Note 4 Discontinued Operations

The Company has accounted for the Real Estate Division as discontinued operations and, accordingly, has restated all prior period information.

On February 26, 2013, the Company completed a short sale of its real estate rental property located in Santa Fe, New Mexico for a purchase price of $1.6 million since it did not relate to the core business of the Company. As of December 31, 2012, the assets had a book value of $734,000 and the Company had a $1.7 million mortgage on the property at a variable rate of interest of Prime, with a floor of 6.75%, which was the interest rate in effect at December 31, 2012, payable in monthly installments, which matured December 12, 2012. As a result of the sale, the mortgage was satisfied and a gain on the sale of assets of $1.1 million was recorded in the nine months ended September 30, 2013.

On April 4, 2012, the Company sold its land located in Silver City, New Mexico for a purchase price of $725,000. An asset impairment charge of $224,000 was recorded in 2011 and an additional loss on the sale of assets of $7,000 was recorded in the nine months ended September 30, 2012.

The assets and liabilities associated with these disposals and the related results of operations have been reclassified in the condensed consolidated financial statements as discontinued operations.

The following table presents the financial results of the discontinued operations for the three and nine months ended September 30, 2013 and 2012:

	Three months ended September 30		Nine months ended September 30

Table of Contents

There are no remaining assets or liabilities to be reported as discontinued operations as of September 30, 2013. The following is a detail of the assets and liabilities reported as discontinued operations and classified as assets and liabilities associated with discontinued operations in the Condensed Consolidated Balance Sheet as of December 31, 2012:

	December 31,	
In thousands	2012	
Prepaids and other assets	$	-
Property and equipment, net		734
Other assets		1
Total assets associated with discontinued operations	$	735
Current liabilities	$	1,764
Long-term liabilities		3
Total liabilities associated with discontinued operations	$	1,767

Note 5 Fair Value

The Company carries its money market funds and cash surrender value of life insurance related to its deferred compensation arrangements at fair value. The fair value of these instruments is determined using a three-tier fair value hierarchy. Based on this hierarchy, the Company determined the fair value of its money market funds using quoted market prices, a Level 1 or an observable input, and the cash surrender value of life insurance, a Level 2 based on observable inputs primarily from the counter party. The Company s money market funds and the cash surrender value of life insurance had carrying amounts of $3,000 and $55,000 at September 30, 2013, respectively, and $210,000 and $55,000 at December 31, 2012, respectively. The carrying amounts of cash equivalents, receivables and accounts payable approximate fair value due to the short maturities of these items. The fair value of the Company s Notes and Debentures, using observable inputs, was $247,000 and $33,000 at September 30, 2013 and December 31, 2012, respectively. The fair value of the Company s remaining long-term debt approximates its carrying value of $469,000 and $1.5 million at September 30, 2013 and December 31, 2012, respectively.

Note 6 Inventories

Inventories are stated at the lower of cost or market and consist of the following:

Raw materials	$ 1,614	$ 1,644
Work-in-progress	450	393
Finished goods	946	431
	$ 3,010	$ 2,468

Table of Contents

Note 7 Warrant Liabilities

As part of the Company s restructuring plan, see Note 3 Plan of Restructuring, the Company issued 166,600 one-year warrants (the A Warrants). The expiration date of the A Warrants was subsequently extended until September 13, 2013. Each A Warrant entitled the holder to purchase one share of the Company s Common Stock and a three-year warrant (the B Warrants), at an exercise price of $5.00 per share. 5,400 A Warrants were exercised before the expiration, resulting in the issuance of 5,400 B Warrants. Each B Warrant entitles the holder to purchase one share of the Company s Common Stock at an exercise price of $12.50 per share. Each of these warrants for Common shares and their exercise prices has been adjusted for the reverse and forward stock splits, see Note 14 Subsequent Events.

In connection with the Offering, the Company issued 48,000 three-year warrants to the Placement Agent (the Placement Agent Warrants). Upon the exercise of these Placement Agent Warrants, the Company will issue 9,600 A Warrants to the Placement Agent and upon the exercise of these A Warrants, the Company will issue 9,600 B Warrants to the Placement Agent. The aggregate number of Placement Agent Warrants, A Warrants and B Warrants to which the Placement Agent is entitled is 67,200. Each Placement Agent Warrant entitles the Placement Agent to purchase one share of the Company s Common Stock at an exercise price of $12.50 per share and a two-year A Warrant. Each A Warrant entitles the Placement Agent to purchase one share of the Company s Common Stock and a three-year B Warrant at an exercise price of $5.00 per share. Each B Warrant shall entitle the Placement Agent to purchase one share of the Company s Common Stock at an exercise price of $12.50 per share. Each of these warrants for Common shares and their exercise prices has been adjusted for the reverse and forward stock splits, see Note 14 Subsequent Events.

In connection with a private placement of $650,000 of 4.00% notes in 2011, the Company issued 40,000 five-year warrants to the subscriber. Each warrant entitles the subscriber to purchase one share of the Company s Common Stock at an exercise price of $2.50 per share. These warrants for Common shares and their exercise price have been adjusted for the reverse and forward stock splits, see Note 14 Subsequent Events.

The foregoing warrants include a potential adjustment of the strike price if the Company sells or grants any option or warrant at a price per share less than the strike price of the warrants. Therefore, the warrants are not considered indexed to the Company s Common Stock and are accounted for on a liability basis. The Company recorded non-cash gains of $296,000 and $960,000 for the three and nine months ended September 30, 2013, respectively, and non-cash gains of $1.4 million and $3.3 million for the three and nine months ended September 30, 2012, respectively, related to changes in the fair market value of the warrants issued in the Offering, to the Placement Agent and to the subscriber in connection with the $650,000 of 4.00% secured notes, which is included in Change in warrant liabilities in the Condensed Consolidated Statements of Operations.

10

Table of Contents

On June 11, 2013, the Company entered into a Master Agreement for Sale and Assignment of Leases with AXIS Capital, Inc. (the Agreement) and financed the future receivables relating to certain lease contracts. In connection with the Agreement, the Company issued warrants to purchase 7,200 shares of the Company s Common Stock, par value $0.001, to AXIS Capital, Inc. at an exercise price of $12.50 per share. The issuance of the warrants was completed in accordance with the exemption provided by Section 4(2) of the Securities Act of 1933, as amended. These warrants do not include a potential adjustment of the strike price if the Company sells or grants any options or warrants at a price per share less than the strike price of the warrants, so they are considered indexed to the Company s Common Stock and were accounted for as equity. Each of these warrants for Common shares and their exercise prices has been adjusted for the reverse and forward stock splits, see Note 14 Subsequent Events.

In November 2012, the Board of Directors approved the issuance to two board members, George W. Schiele and Salvatore J. Zizza, of warrants to purchase 20,000 shares of Common Stock at an exercise price of $12.50 per share. In April 2013, the Board of Directors approved the issuance to one board member, Jean Firstenberg, of warrants to purchase 2,000 shares of Common Stock at an exercise price of $12.50 per share. Each of these warrant issuances was approved by shareholders at the Company s 2013 Annual Meeting of Shareholders and was issued subsequent to September 30, 2013. Each of these warrants for Common shares and their exercise prices has been adjusted for the reverse and forward stock splits, see Note 14 Subsequent Events.

Note 8 Long-Term Debt

As of September 30, 2013, the Company had $1.1 million of 8¼% Limited convertible senior subordinated notes due 2012 (the Notes) which are no longer convertible into common shares and which matured as of March 1, 2012; interest was payable semi-annually. As part of the Company s restructuring plan, the Company offered the holders of the Notes the right to receive $225, without accrued interest, plus 10 shares (adjusted for the reverse and forward stock splits, see Note 14 Subsequent Events) of the Company s Common Stock for each $1,000 Note exchanged. The offer expired on October 31, 2011, but the Company continues to consider further exchanges of the Notes on the same terms as previously offered. $9.0 million of the original $10.1 million of principal amount of the Notes have been exchanged, leaving $1.1 million outstanding. Based on the payment schedule prior to the offer to exchange, the Company had not remitted the March 1, 2010 and 2011 and September 1, 2010 and 2011 semi-annual interest payments of $418,000 each and the March 1, 2012 semi-annual interest and principal payment of $1.4 million to the trustee. The non-payments constituted an event of default under the Indenture governing the Notes. The trustee, by notice to the Company, or the holders of 25% of the principal amount of the Notes outstanding, by notice to the Company and the trustee, may declare the outstanding principal plus interest due and payable immediately. During the continuation of any event which, with notice or lapse of time or both, would constitute a default under any agreement under which Senior Indebtedness is issued, if the effect of such default is to cause or permit the holder of Senior Indebtedness to become due prior to its stated maturity, no payment of principal, premium or interest shall be made on the Notes unless and until such default shall have been remedied, if written notice of such default has been given to

the trustee by the Company or the holder of Senior Indebtedness. If the holder of Senior Indebtedness accelerates the due date at any time, then no payment may be made until the default is cured or waived. The Notes are subordinate to all Senior Indebtedness of the Company.

Table of Contents

As of September 30, 2013, the Company had $334,000 of 9½% Subordinated debentures due 2012 (the Debentures) which matured on December 1, 2012; interest was payable semi-annually. As part of the Company s restructuring plan, the Company offered the holders of the Debentures the right to receive $100, without accrued interest, for each $1,000 Debenture exchanged. The offer expired on October 31, 2011, but the Company continues to consider further exchanges of the Debentures on the same terms as previously offered. $723,000 of the original $1.1 million principal amount of the Debentures have been exchanged, leaving $334,000 outstanding. Based on the payment schedule prior to the offer to exchange, the Company had not remitted the December 1, 2009, 2010 and 2011 sinking fund payments of $106,000 each, the June 1, 2010, 2011 and 2012 and the December 1, 2010 and 2011 semi-annual interest payments of $50,000 each and the December 1, 2012 semi-annual interest and principal payment of $790,000 to the trustee. The non-payments constituted an event of default under the Indenture governing the Debentures. The trustee, by notice to the Company, or the holders of 25% of the principal amount of the Debentures outstanding, by notice to the Company and the trustee, may declare the outstanding principal plus interest due and payable immediately. During the continuation of any event which, with notice or lapse of time or both, would constitute a default under any agreement under which Senior Indebtedness is issued, if the effect of such default is to cause or permit the holder of Senior Indebtedness to become due prior to its stated maturity, no payment (including any required sinking fund payments) of principal, premium or interest shall be made on the Debentures unless and until such default shall have been remedied, if written notice of such default has been given to the trustee by the Company or the holder of Senior Indebtedness. The Debentures are subordinate to all Senior Indebtedness of the Company.

The Company had a bank Credit Agreement, as amended, which provided for a revolving loan of up to $599,000, based on eligible accounts receivable, at a variable rate of interest of Prime plus 2.00%, which was due to mature on June 30, 2013. On June 11, 2013, the Company paid off the balance on the revolving loan and the Credit Agreement has been satisfied in full and the liens held by the senior lender on the collateral in connection therewith have been terminated. The amounts outstanding under the Credit Agreement were collateralized by all of the Digital display assets.

As of September 30, 2013, the Company had a $469,000 mortgage on its facility located in Des Moines, Iowa at a fixed rate of interest of 6.50% payable in monthly installments, which matures March 1, 2015 and requires a compensating balance of $200,000.

Subsequent to September 30, 2013, the Company executed a promissory note (the Note) in favor of Carlisle Investments, Inc. (Carlisle), pursuant to which Carlisle loaned $1,000,000 to the Company in order to provide the Company with temporary financing (the Loan). Mr. Marco Elser, a director of the Company, exercises voting and dispositive power as investment manager of Carlisle. In connection with the Loan, the Company has granted to Carlisle a first-priority (excluding the liens held by the Pension Benefit Guaranty Corporation, which are senior to the liens and security interest granted in connection with the Loan) continuing security interest in and lien upon all assets of the Company (excluding those assets subject to the security interest granted to Axis Capital, Inc. by the Company pursuant to that certain Master Agreement for Sale and Assignment of Leases dated as of June 6, 2013), in accordance with the terms of a security agreement entered into between the parties and dated as of December 2, 2013. The Note

bears interest at the rate of ten percent per annum and has a maturity date of June 1, 2014, with a bullet payment of all principal and accrued interest due at such time; provided, however, that the parties may agree in writing to convert or exchange all or any part of the Note into a long term investment by Carlisle in Trans-Lux (a Conversion Transaction). In the event the parties engage in a Conversion Transaction (of which there can be no assurance), all amounts due under the Note will be payable (or not, as the case may be) in accordance with the terms of the documentation executed by the parties in connection with such Conversion Transaction, if any. On December 4, 2013, net proceeds in the amount of $1,000,000 were received from Carlisle. The funds were used for working capital purposes.

Table of Contents

Note 9 Pension Plan

As of December 31, 2003, the benefit service under the pension plan had been frozen and, accordingly, there is no service cost. As of April 30, 2009, the compensation increments had been frozen and, accordingly, no additional benefits are being accrued under the plan.

The following table presents the components of net periodic pension cost:

	Three months ended September 30,		Nine months ended September 30,	
In thousands	2013	2012	2013	2012
Interest cost	$ 111	$ 130	$ 371	$ 390
Expected return on plan assets	(154)	(109)	(374)	(329)
Amortization of net actuarial loss	151	121	393	363
Net periodic pension cost	$ 108	$ 142	$ 390	$ 424

As of September 30, 2013, the Company recorded a current pension liability of $1.4 million, which is included in Accrued liabilities in the Condensed Consolidated Balance Sheets, and a long-term pension liability of $4.9 million, which is included in Deferred pension liability and other in the Condensed Consolidated Balance Sheets. The minimum required contribution for 2013 is expected to be $1.4 million.

The pension plan asset information included below is presented at fair value. ASC 820 establishes a framework for measuring fair value and required disclosures about assets and liabilities measured at fair value.The fair values of these assets are determined using a three-tier fair value hierarchy. Based on this hierarchy, the Company determined the fair value of its mutual stock funds using quoted market prices, a Level 1 or an observable input, and the guaranteed investment contracts and equity and index funds, a Level 2 based on observable inputs and quoted prices in markets that are not active. The Company does not have any Level 3 pension assets, in which such valuation would be based on unobservable measurements and management s estimates.

The following table presents the pension plan assets by level within the fair value hierarchy as of September 30, 2013:

In thousands	Level 1	Level 2	Level 3	Total
Guaranteed investment contracts	$ -	$ 2,156	$ -	$ 2,156
Mutual stock funds	1,241	-	-	1,241
Equity and index funds	-	3,348	-	3,348
Total pension plan assets	$ 1,241	$ 5,504	$ -	$ 6,745

13

Table of Contents

In March 2010, 2011 and 2013, the Company submitted to the Internal Revenue Service requests for waivers of the minimum funding standards for its defined benefit plan for the 2009, 2010 and 2012 plan years. The waiver requests were submitted as a result of the economic climate and the business hardship that the Company experienced. The waivers for the 2009 and 2010 plan years have been approved and granted subject to certain conditions, and have deferred payment of $285,000 and $559,000 of the minimum funding standard for the 2009 and 2010 plan years, respectively. The March 2013 waiver request would defer $871,000 of the minimum funding standard for the 2012 plan year. This waiver has been approved, but has not yet been granted. If this waiver is not granted, the Pension Benefit Guaranty Corporation and the Internal Revenue Service have various enforcement remedies that can be implemented to protect the participant s benefits, such as termination of the plan or a requirement that the Company make the unpaid contributions. In 2012, the Company made $559,000 of contributions to the plan. In 2013, the Company made the minimum required contributions to the plan of $669,000. At this time, the Company is expecting to make its required contributions for the 2013 plan year and as of September 30, 2013 has already made $436,000 of contributions for the 2013 plan year. Subsequent to September 30, 2013, the Company has made its regularly scheduled quarterly contributions totaling $436,000 to the Company s pension plan, which was paid in increments of $218,000 each on October 15, 2013 and January 15, 2014. As of September 30, 2013, the Pension Benefit Guaranty Corporation has placed a lien on the Company s assets in respect of amounts owed under the plan.

Note 10 Share-Based Compensation

The Company accounts for all share-based payments to employees and board members, including grants of employee stock options, at fair value and expenses the benefit in the Condensed Consolidated Statements of Operations over the service period (generally the vesting period). The fair value of each stock option granted is estimated on the date of grant using the Black-Scholes pricing valuation model, which requires various assumptions including estimating stock price volatility, expected life of the stock option, risk free interest rate and forfeiture rate.

The Company did not issue any stock options during the nine months ended September 30, 2013 and 2012. There are no unrecognized compensation costs related to unvested stock options granted under the Company s stock option plans.

The following table summarizes the activity of the Company's stock options for the nine months ended September 30, 2013 (adjusted for the reverse and forward stock splits, see Note 14 Subsequent Events):

	Weighted	Weighted	Aggregate

	Options	Average Exercise Price ($)	Average Remaining Contractual Term (Yrs)	Intrinsic Value ($)
Outstanding at beginning of year	260	139.25		
Granted	-	-		
Exercised	-	-		
Terminated	200	175.00		
Outstanding at end of period	60	19.58	2.1	
Vested and expected to vest at end of period	60	19.58	2.1	-
Exercisable at end of period	60	19.58	2.1	-

Table of Contents

Note 11 Income (Loss) Per Common Share

Basic income (loss) per common share is computed by dividing net income (loss) by the weighted average number of common shares outstanding for the period. Diluted income (loss) per common share is computed by dividing net income (loss) by the weighted average number of common shares outstanding, adjusted for shares that would be assumed outstanding after warrants and stock options vested under the treasury stock method. At September 30, 2013, outstanding warrants convertible into 119,800 shares of Common Stock were excluded from the calculation of diluted income (loss) per share because their impact would have been anti-dilutive. At September 30, 2013 and 2012, there were outstanding stock options to purchase 60 and 280 shares of Common Stock, respectively, which were excluded from the calculation of diluted income (loss) per share because their impact would have been anti-dilutive. Each of these warrants and stock options for Common shares has been adjusted for the reverse and forward stock splits, see Note 14 Subsequent Events.

Note 12 Legal Proceedings and Claims

The Company is subject to legal proceedings and claims which arise in the ordinary course of its business and/or which are covered by insurance. The Company has accrued reserves individually and in the aggregate. Our former outside legal counsel has brought a claim against us for $593,000, which we have included in Accrued liabilities on the Consolidated Balance Sheets. Should actual litigation results differ from the Company s estimates, revisions to increase or decrease the accrued reserves may be required.

Note 13 Business Segment Data

Operating segments are based on the Company s business components about which separate financial information is available and are evaluated regularly by the Company s chief operating decision maker in deciding how to allocate resources and in assessing performance of the business.

The Company evaluates segment performance and allocates resources based upon operating income. The Company s operations are managed in two reportable business segments: Digital display sales and Digital display lease and maintenance. Both design and produce large-scale, multi-color, real-time digital displays and LED lighting, which

has a line of energy-saving lighting solutions that provide facilities and public infrastructure with green lighting solutions that emit less heat, save energy and enable creative designs. Both operating segments are conducted on a global basis, primarily through operations in the United States. The Company also has operations in Canada. The Digital display sales segment sells equipment and the Digital display lease and maintenance segment leases and maintains equipment. Corporate general and administrative items relate to costs that are not directly identifiable with a segment. There are no intersegment sales.

Table of Contents

Foreign revenues represent less than 10% of the Company s revenues for 2013 and 2012. The foreign operation does not manufacture its own equipment; the domestic operation provides the equipment that the foreign operation leases or sells. The foreign operation operates similarly to the domestic operation and has similar profit margins. Foreign assets are immaterial.

Information about the Company s continuing operations in its two business segments for the three and nine months ended September 30, 2013 and 2012 is as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
In thousands	2013	2012	2013	2012
Revenues:				
Digital display sales	$ 4,607	$ 4,250	$ 10,345	$ 13,101
Digital display lease and maintenance	1,597	1,671	4,742	5,261
Total revenues	$ 6,204	$ 5,921	$ 15,087	$ 18,362
Operating (loss) income:				
Digital display sales	$ (51)	$ (67)	$ (1,828)	$ (1,577)
Digital display lease and maintenance	430	88	773	456
Corporate general and administrative expenses	(665)	(1,064)	(1,498)	(2,575)
Total operating loss	(286)	(1,043)	(2,553)	(3,696)
Interest expense, net	(1)	(90)	(84)	(184)
Other income	167	-	167	-
Loss on sale of receivables	-	-	(348)	-
Gain on debt extinguishment	-	-	-	60
Change in warrant liabilities	296	1,379	960	3,276
Income loss from continuing operations before income taxes	176	246	(1,858)	(544)
Income tax expense	(8)	(7)	(24)	(21)
Income loss from continuing operations	$ 168	$ 239	$ (1,882)	$ (565)

Note 14 - Subsequent Events

As approved by shareholders at the Company s Annual Meeting on October 2, 2013, the Company enacted a 1,000:1 reverse stock split followed immediately by a 1:40 forward stock split effective October 29, 2013. As a result, on October 29, 2013, every 1,000 outstanding shares of Common Stock were exchanged into 1 share of Common Stock. Any shareholders who owned fractional shares of Common Stock after the reverse stock split were cashed out at the closing market price of $0.29 on October 25, 2013. At the conclusion of the forward stock split, every 1 outstanding share of Common Stock was exchanged into 40 shares of Common Stock. Unless otherwise indicated, all share information in this Form 10-Q has been adjusted for the reverse and forward stock splits.

In December 2013, the Company issued 5,813 shares (adjusted for the reverse and forward stock splits, see Note 14 Subsequent Events) of Restricted Stock and cash of $11,282 to certain current and former board members in lieu of cash as payment for board fees of $83,940 that were owed as of the October 2, 2013 Annual Meeting.

Subsequent to September 30, 2013, the Company executed a promissory note (the Note) in favor of Carlisle Investments, Inc. (Carlisle), pursuant to which Carlisle loaned $1,000,000 to the Company in order to provide the Company with temporary financing (the Loan). Mr. Marco Elser, a director of the Company, exercises voting and dispositive power as investment manager of Carlisle.

Table of Contents

In connection with the Loan, the Company has granted to Carlisle a first-priority (excluding the liens held by the Pension Benefit Guaranty Corporation, which are senior to the liens and security interest granted in connection with the Loan) continuing security interest in and lien upon all assets of the Company (excluding those assets subject to the security interest granted to Axis Capital, Inc. by the Company pursuant to that certain Master Agreement for Sale and Assignment of Leases dated as of June 6, 2013), in accordance with the terms of a security agreement entered into between the parties and dated as of December 2, 2013. The Note bears interest at the rate of ten percent per annum and has a maturity date of June 1, 2014, with a bullet payment of all principal and accrued interest due at such time; *provided, however,* that the parties may agree in writing to convert or exchange all or any part of the Note into a long term investment by Carlisle in Trans-Lux (a Conversion Transaction). In the event the parties engage in a Conversion Transaction (of which there can be no assurance), all amounts due under the Note will be payable (or not, as the case may be) in accordance with the terms of the documentation executed by the parties in connection with such Conversion Transaction, if any. On December 4, 2013, net proceeds in the amount of $1,000,000 were received from Carlisle. The funds were used for working capital purposes.

Item 2. Management s Discussion and Analysis of Financial Condition and Results of Operations

Overview

Trans-Lux is a leading supplier of LED technology for high resolution video displays and lighting applications. The essential elements of these systems are the real-time, programmable digital displays and lighting fixtures that we design, manufacture, distribute and service. Designed to meet the digital signage solutions for any size venue s indoor and outdoor needs, these displays are used primarily in applications for the financial, banking, gaming, corporate, advertising, transportation, entertainment and sports markets. The Company s LED lighting fixtures offer energy-saving lighting solutions that feature a comprehensive offering of the latest LED lighting technologies that provide facilities and public infrastructure with green lighting solutions that emit less heat, save energy and enable creative designs. The Company operates in two reportable segments: Digital display sales and Digital display lease and maintenance.

The Digital display sales segment includes worldwide revenues and related expenses from the sales of both indoor and outdoor digital display signage and LED lighting solutions. This segment includes the financial, government/private, gaming, scoreboards and outdoor advertising markets. The Digital display lease and maintenance segment includes worldwide revenues and related expenses from the lease and maintenance of both indoor and outdoor digital display signage. This segment includes the lease and maintenance of digital display signage across all markets.

Table of Contents

Going Concern

In light of the unprecedented instability in the financial markets and the severe slowdown in the overall economy, we do not have adequate liquidity, including access to the debt and equity capital markets, to operate our business in the manner in which we have historically operated. As a result, our short-term business focus has been to preserve our liquidity position. Unless we are successful in obtaining additional liquidity, we believe that we will not have sufficient cash and liquid assets to fund normal operations for the next 12 months. In addition, the Company s obligations under its pension plan exceeded plan assets by $6.4 million at December 31, 2012 and the Company has a significant amount due to their pension plan due over the next 12 months. In addition, the Company has not made the December 1, 2009, 2010 and 2011 required sinking fund payments on its 9 1/2% Subordinated debentures due 2012 (the "Debentures") and the June 1, 2010, 2011 and 2012 as well as its December 1, 2010, 2011 and 2012 interest payments totaling $301,200. In addition, the Company did not make the March 1, 2010, 2011 and 2012 as well as its September 1, 2010 and 2011 interest payments totaling $2.1 million on its 8 1/4% Limited convertible senior subordinated notes due 2012 (the "Notes"). As a result, if the Company is unable to (i) obtain additional liquidity for working capital, (ii) make the required minimum funding contributions to the pension plan (iii) make the required sinking fund payments on the Debentures or (iv) make the required principal and interest payments on the Notes and the Debentures, there would be a significant adverse impact on the financial position and operating results of the Company.

Moreover, because of the uncertainty surrounding our ability to obtain additional liquidity and the potential of the noteholders and/or trustees to give notice to the Company of a default on either the Debentures or the Notes, our independent registered public accounting firm issued an opinion on our consolidated financial statements that states that the consolidated financial statements were prepared assuming we will continue as a going concern, however the opinion further states that the uncertainty regarding the ability to make the required principal and interest payments on the Notes and the Debentures, in addition to the significant amount due to the Company s pension plan over the next 12 months, raises substantial doubt about our ability to continue as a going concern. See Note 2 to the Consolidated Financial Statements - Going Concern.

Results of Operations

Nine Months Ended September 30, 2013 Compared to Nine Months Ended September 30, 2012

Total revenues for the nine months ended September 30, 2013 decreased $3.3 million or 17.8% to $15.1 million from $18.4 million for the nine months ended September 30, 2012, primarily due to a decrease in Digital display sales.

Digital display sales revenues decreased $2.8 million or 21.0%, primarily in the LED lighting and catalog scoreboard markets.

Digital display lease and maintenance revenues decreased $519,000 or 9.9%, primarily due to the continued expected revenue decline in the older outdoor display equipment rental and maintenance bases acquired in the early 1990s. The global recession has negatively impacted the lease and maintenance revenues as well.The financial services market continues to be negatively impacted by the current investment climate resulting in consolidation within that industry and the wider use of flat-panel screens for smaller applications.

Table of Contents

Total operating loss for the nine months ended September 30, 2013 decreased $1.1 million to $2.6 million from $3.7 million for the nine months ended September 30, 2012, principally due to a decrease in general and administrative expenses, offset by the decrease in revenues.

Digital display sales operating loss increased $251,000 or 15.9%, primarily as a result the decrease in revenues, offset by a decrease in general and administrative expenses. The cost of Digital display sales decreased $2.4 million or 23.6%, primarily due to the decrease in revenues. The cost of Digital display sales represented 75.2% of related revenues in 2013 compared to 77.7% in 2012. Digital display sales general and administrative expenses decreased $107,000 or 2.4%, primarily due to a reduction of consultant marketing expenses.

Digital display lease and maintenance operating income increased $317,000 or 69.5%, primarily due to a decrease in general and administrative expenses and a decrease in the cost of Digital display lease and maintenance, offset by the decrease in revenues. The cost of Digital display lease and maintenance decreased $729,000 or 16.3%, primarily due to a $331,000 decrease in depreciation expense and a $398,000 decrease in field service costs to maintain the displays. The cost of Digital display lease and maintenance revenues represented 78.8% of related revenues in 2013 compared to 84.9% in 2012. The cost of Digital display lease and maintenance includes field service expenses, plant repair costs, maintenance and depreciation. Digital display lease and maintenance general and administrative expenses decreased $107,000, primarily due to a decrease in bad debt expense.

Corporate general and administrative expenses decreased $1.1 million or 41.8%, primarily due to an $130,000 gain on Canadian currency exchange in 2013 compared to a loss of $131,000 on Canadian currency exchange in 2012, as well as decreases in payroll and benefits, consulting and restructuring expenses due to the Company s cost reduction initiatives.

Net interest expense decreased $86,000 or 46.7%, primarily due to the reduction in long-term debt and a decrease in amortization of prepaid financing costs.

The loss on sale of receivables is attributable to the sale and assignment of certain leases to AXIS Capital, Inc.

The gain on debt extinguishment in 2012 is attributable to exchanges of the 8¼% Notes and 9½% Debentures. See Note 8 to the condensed consolidated financial statements Long-Term Debt.

The change in warrant liabilities is attributable to the expiration of the A Warrants and the change in the fair market value of the warrants issued in connection with the restructuring plan. See Note 7 to the condensed consolidated financial statements Warrant Liabilities.

The effective tax rate for the nine months ended September 30, 2013 and 2012 was 2.9% and 2.9%, respectively. Both the 2013 and 2012 tax rates are being affected by the valuation allowance on the Company s deferred tax assets as a result of reporting pre-tax losses. The income tax expense relates to the Company s Canadian subsidiary.

Table of Contents

Three Months Ended September 30, 2013 Compared to Three Months Ended September 30, 2012

Total revenues for the three months ended September 30, 2013 increased $283,000 or 4.8% to $6.2 million from $5.9 million for the three months ended September 30, 2012, primarily due to an increase in sales in the LED lighting market.

Digital display sales revenues increased $357,000 or 8.4%, primarily in the LED lighting market.

Digital display lease and maintenance revenues decreased $74,000 or 4.4%, primarily due to the continued expected revenue decline in the older outdoor display equipment rental and maintenance bases acquired in the early 1990s. The global recession has negatively impacted the lease and maintenance revenues as well. The financial services market continues to be negatively impacted by the current investment climate resulting in consolidation within that industry and the wider use of flat-panel screens for smaller applications.

Total operating loss for the three months ended September 30, 2013 decreased $757,000 to $286,000 from $1.0 million for the three months ended September 30, 2012, principally due to the increase in revenues and a decrease in general and administrative expenses.

Digital display sales operating loss decreased $16,000 or 23.9%, primarily as a result of the increase in revenues, offset by an increase in general and administrative expenses. The cost of Digital display sales increased $55,000 or 1.7%, primarily due to the increase in revenues. The cost of Digital display sales represented 69.9% of related revenues in 2013 compared to 74.5% in 2012. Digital display sales general and administrative expenses increased $286,000 or 24.8%, primarily due to an increase in payroll and benefits.

Digital display lease and maintenance operating income increased $342,000 to $430,000 from $88,000 for the three months ended September 30, 2012, primarily as a result of a decrease in the cost of Digital display lease and maintenance and a decrease in general and administrative expenses, offset by the decrease in revenues. The cost of Digital display lease and maintenance decreased $285,000 or 18.9%, primarily due to a $112,000 decrease in depreciation expense and a $173,000 decrease in field service costs to maintain the displays. The cost of Digital display lease and maintenance revenues represented 76.7% of related revenues in 2013 compared to 90.4% in 2012. The cost of Digital display lease and maintenance includes field service expenses, plant repair costs, maintenance and

depreciation. Digital display lease and maintenance general and administrative expenses decreased $131,000, primarily due to a decrease in bad debt expense.

Corporate general and administrative expenses decreased $399,000 or 37.5%, primarily due to a $54,000 loss on Canadian currency exchange in 2013 compared to a loss of $109,000 on Canadian currency exchange in 2012, as well as a decrease in payroll and benefits, consulting and restructuring expenses.

Net interest expense decreased $89,000 or 98.9%, primarily due to the reduction in long-term debt and a decrease in amortization of prepaid financing costs.

Table of Contents

The change in warrant liabilities is attributable to the expiration of the A Warrants and the change in the fair market value of the warrants issued in connection with the restructuring plan. See Note 7 to the condensed consolidated financial statements   Warrant Liabilities.

The effective tax rate for the three months ended September 30, 2013 and 2012 was 4.6% and 3.5%, respectively. Both the 2013 and 2012 tax rates are being affected by the valuation allowance on the Company s deferred tax assets as a result of reporting pre-tax losses. The income tax expense relates to the Company s Canadian subsidiary.

Liquidity and Capital Resources

Current Liquidity

The Company has incurred significant recurring losses from continuing operations and has a significant working capital deficiency. The Company incurred a net loss from continuing operations of $1.9 million in the nine months ended September 30, 2013 and has a working capital deficiency of $5.6 million as of September 30, 2013. The 2013 results include a $960,000 gain for marking warrants to market value. See Note 7 to the Condensed Consolidated Financial Statements   Warrant Liabilities.

The Company is dependent on future operating performance in order to generate sufficient cash flows in order to continue to run its businesses. Future operating performance is dependent on general economic conditions, as well as financial, competitive and other factors beyond our control. As a result, we have experienced a decline in our sales and lease and maintenance bases. The cash flows of the Company are constrained, and in order to more effectively manage its cash resources in these challenging economic times, the Company has, from time to time, increased the timetable of its payment of some of its payables. There can be no assurance that we will meet our anticipated current and near term cash requirements. Management believes that its current cash resources and cash provided by continuing operations would not be sufficient to fund its anticipated current and near term cash requirements and is seeking additional financing in order to execute our operating plan. We cannot predict whether future financing, if any, will be in the form of equity, debt, or a combination of both. To the extent the Company issues additional equity securities, it could be dilutive to existing shareholders. We may not be able to obtain additional funds on a timely basis, on acceptable terms, or at all. The Company continually evaluates the need and availability of long-term capital in order to meet its cash requirements and fund potential new opportunities.

The Company used cash for operating activities of continuing operations of $660,000 for the nine months ended September 30, 2013 and generated cash from operating activities of continuing operations of $53,000 for the nine months ended September 30, 2012. The Company has implemented several initiatives to improve operational results and cash flows over future periods, including reducing head count, reorganizing its sales department, outsourcing its human resources department and expanding its sales and marketing efforts in the LED lighting market. The Company continues to explore ways to reduce operational and overhead costs. The Company periodically takes steps to reduce the cost to maintain the digital displays on lease and maintenance agreements.

Table of Contents

Cash and cash equivalents decreased $1.1 million in the nine months ended September 30, 2013. The decrease is primarily attributable to cash used in operating activities of continuing operations of $660,000, payments on the Revolving Credit facility of $1.0 million, investment in equipment manufactured for rental of $76,000 and investment in property and equipment of $198,000, offset by cash provided by proceeds from the receivables financing of $887,000. The current economic environment has increased the Company s trade receivables collection cycle, and its allowances for uncollectible accounts receivable, but collections continue to be favorable. Cash and cash equivalents decreased $256,000 in the nine months ended September 30, 2012. The decrease was primarily attributable to the investment in equipment for rental of $527,000, investment in property and equipment of $58,000, scheduled payments of long-term debt of $86,000 and the $650,000 pay down of the mortgage related to the Silver City land which was sold, offset by cash provided by operating activities of $53,000 and borrowings on the revolving credit facility of $500,000.

Under various agreements, the Company is obligated to make future cash payments in fixed amounts. These include payments under the Company s long-term debt agreements, employment and consulting agreement payments and rent payments required under operating lease agreements. The Company has both variable and fixed interest rate debt. Interest payments are projected based on actual interest payments incurred in 2013 until the underlying debts mature.

The following table summarizes the Company s fixed cash obligations as of September 30, 2013 for the remainder of 2013 and over the next four fiscal years:

In thousands	Remainder of 2013	2014	2015	2016	2017 and thereafter
Long-term debt, including interest	$ 22	$ 1,840	$ 400	$ -	$ -
Pension plan payments	218	1,108	784	571	396
Employment agreement obligations	69	275	34	-	-
Estimated warranty liability	33	100	75	55	46
Operating lease payments	48	144	54	41	-
Total	$ 390	$ 3,467	$ 1,347	$ 667	$ 442

Of these fixed cash obligations, the Company continues to consider further exchanges of the $1.8 million, including interest, of remaining Notes and Debentures on the same terms as previously offered in our 2011 financial restructuring for an aggregate amount of $280,000, as discussed in the Restructuring Plan and Preferred Stock Offering section below. Subsequent to September 30, 2013, the Company has made its regularly scheduled quarterly contributions totaling $436,000 to the Company s pension plan, which was paid in increments of $218,000 each on October 15, 2013 and January 15, 2014. The Company is seeking additional financing in order to provide enough cash

to cover our remaining current fixed cash obligations as well as providing working capital. However, there can be no assurance as to the amounts, if any, the Company will receive in any such financing or the terms thereof. To the extent the Company issues additional equity securities, it could be dilutive to existing shareholders.

Table of Contents

Receivables Financing

On June 11, 2013, the Company entered into a Master Agreement for Sale and Assignment of Leases with AXIS Capital, Inc. (the AXIS Agreement) and financed the future receivables relating to certain lease contracts. As a result of the transaction, the Company received net proceeds of $887,000. The funds were used to pay off the balance due on the Credit Agreement and to make a payment to the Company s pension plan. The Credit Agreement has been satisfied in full and the liens held by the senior lender on the collateral in connection therewith have been terminated. In connection with the AXIS Agreement, the Company issued warrants to purchase 7,200 shares of the Company s Common Stock, par value $0.001, to AXIS Capital, Inc. at an exercise price of $12.50 per share (adjusted for the reverse and forward stock splits, see Note 14 Subsequent Events). The issuance of the warrants was completed in accordance with the exemption provided by Section 4(2) of the Securities Act of 1933, as amended.

On July 12, 2013, the Company s subsidiary, Trans-Lux Midwest Corporation (Midwest), entered into a Purchase and Sale Agreement (the Agreement) with Prestige Capital Corporation (Prestige), in order to provide financing to the Company. Under the Agreement, Midwest will sell certain account receivables (the Accounts) to Prestige. Prestige will advance 75% of the face value of the Accounts to Midwest, up to a maximum advance of $2.5 million, with the remainder to be credited to Midwest upon final collection at a discount fee based on the number of days such Accounts remain outstanding. Under the Agreement, Midwest has granted to Prestige a continuing security interest in and lien upon all accounts and property of Midwest at any time in Prestige s possession. The Agreement is for a one year term, and thereafter automatically extends for successive one year periods unless cancelled by either party upon 60 days notice. The Agreement may also be terminated earlier by Prestige upon 60 days prior notice to Midwest, or by Prestige in the event of a breach of the Agreement or upon the insolvency of Midwest or the Company. Upon the termination of the Agreement in the event of a breach or insolvency event, all of Midwest s obligations to Prestige shall become immediately due and payable. In the event Midwest wishes to terminate the Agreement during the term of the Agreement, Midwest must pay an early termination fee equal to $7,500 per month for each month remaining under any applicable term, however, Prestige has agreed to waive such termination fee in the event Midwest terminates the Agreement at any time after the initial six months of the term of the Agreement. The Company has guaranteed Midwest s obligations under the Agreement pursuant to a Guaranty executed by the Company as of July 12, 2013. As of September 30, 2013, net proceeds of approximately $1.2 million were advanced from Prestige. Subsequent to September 30, 2013, additional net proceeds of approximately $236,000 were advanced from Prestige. The funds were used to make payments to the Company s Pension Plan and for working capital purposes.

Table of Contents

Other Long-Term Debt

The Company has a $469,000 mortgage on its facility located in Des Moines, Iowa at a fixed interest rate of 6.50% payable in monthly installments, which matures March 1, 2015.

The Company had a $1.7 million mortgage on its real estate rental property located in Santa Fe, New Mexico, which matured December 12, 2012. On February 26, 2013, the property was sold and the mortgage was satisfied.

Revolving Credit Facility

The Company had a bank Credit Agreement, as amended, which provided for a revolving loan of up to $599,000, based on eligible accounts receivable, at a variable rate of interest of Prime plus 2.00%, which was due to mature on June 30, 2013. On June 11, 2013, with the funds provided by the receivables financing agreement with AXIS Capital, Inc., the Company paid off the balance on the revolving loan and the Credit Agreement has been satisfied in full and the liens held by the senior lender on the collateral in connection therewith have been terminated. The amounts outstanding under the Credit Agreement were collateralized by all of the Digital display assets.

Restructuring Plan and Preferred Stock Offering

The Company has $1.1 million of 8¼% Limited convertible senior subordinated notes due 2012 (the Notes) which are no longer convertible into common shares and which matured as of March 1, 2012; interest was payable semi-annually. As part of the Company s restructuring plan, the Company offered the holders of the Notes the right to receive $225, without accrued interest, plus 10 shares (adjusted for the reverse and forward stock splits, see Note 14 Subsequent Events) of the Company s Common Stock for each $1,000 Note exchanged. The offer expired on October 31, 2011, but the Company continues to consider further exchanges of the Notes on the same terms as previously offered. $9.0 million of the original $10.1 million of principal amount of the Notes have been exchanged, leaving $1.1 million outstanding. Based on the payment schedule prior to the offer to exchange, the Company had not remitted the March 1, 2010 and 2011 and September 1, 2010 and 2011 semi-annual interest payments of $418,000 each and the March 1, 2012 semi-annual interest and principal payment of $1.4 million to the trustee. The non-payments constituted an event of default under the Indenture governing the Notes. The trustee, by notice to the Company, or the holders of 25% of the principal amount of the Notes outstanding, by notice to the Company and the

trustee, may declare the outstanding principal plus interest due and payable immediately. During the continuation of any event which, with notice or lapse of time or both, would constitute a default under any agreement under which Senior Indebtedness is issued, if the effect of such default is to cause or permit the holder of Senior Indebtedness to become due prior to its stated maturity, no payment of principal, premium or interest shall be made on the Notes unless and until such default shall have been remedied, if written notice of such default has been given to the trustee by the Company or the holder of Senior Indebtedness. If the holder of Senior Indebtedness accelerates the due date at any time, then no payment may be made until the default is cured or waived. Such actions could require the disposition of some or all of our assets, which could require us to curtail or cease operations. The Notes are subordinate to all Senior Indebtedness of the Company.

Table of Contents

The Company has $334,000 of 9½% Subordinated debentures due 2012 (the Debentures) which matured on December 1, 2012; interest was payable semi-annually. As part of the Company s restructuring plan, the Company offered the holders of the Debentures the right to receive $100, without accrued interest, for each $1,000 Debenture exchanged. The offer expired on October 31, 2011, but the Company continues to consider further exchanges of the Debentures on the same terms as previously offered. $723,000 of the original $1.1 million principal amount of the Debentures have been exchanged, leaving $334,000 outstanding. Based on the payment schedule prior to the offer to exchange, the Company had not remitted the December 1, 2009, 2010 and 2011 sinking fund payments of $106,000 each, the June 1, 2010, 2011 and 2012 and the December 1, 2010 and 2011 semi-annual interest payments of $50,000 each and the December 1, 2012 semi-annual interest and principal payment of $790,000 to the trustee. The non-payments constituted an event of default under the Indenture governing the Debentures. The trustee, by notice to the Company, or the holders of 25% of the principal amount of the Debentures outstanding, by notice to the Company and the trustee, may declare the outstanding principal plus interest due and payable immediately. During the continuation of any event which, with notice or lapse of time or both, would constitute a default under any agreement under which Senior Indebtedness is issued, if the effect of such default is to cause or permit the holder of Senior Indebtedness to become due prior to its stated maturity, no payment (including any required sinking fund payments) of principal, premium or interest shall be made on the Debentures unless and until such default shall have been remedied, if written notice of such default has been given to the trustee by the Company or the holder of Senior Indebtedness. Such actions could require the disposition of some or all of our assets, which could require us to curtail or cease operations. The Debentures are subordinate to the Notes and to all Senior Indebtedness of the Company.

The Company has implemented a comprehensive restructuring plan which included the offers to the holders of the Notes and Debentures noted above in 2011. The Company issued 89,760 shares (adjusted for the reverse and forward stock splits, see Note 14 Subsequent Events) of Common Stock in exchange for the Notes. The Company recorded gains of $60,000 in the nine months ended September 30, 2012 ($0.00 per share, basic and diluted) and $8.8 million ($3.21 per share, basic and diluted) in the year ended December 31, 2011 on debt extinguishment of principal and accrued interest on the Notes and Debentures that were exchanged.

As part of the restructuring plan, on November 14, 2011, the Company completed the sale of an aggregate of $8.3 million of securities consisting of (i) 416,500 shares of the Company s Series A Convertible Preferred Stock, par value $1.00 per share (the Preferred Stock), having a stated value of $20.00 per share, which converted into 833,000 shares of the Company s Common Stock, par value $0.001 per share, and (ii) 166,600 one-year warrants (the A Warrants). These securities were organized into units, and were issued at a purchase price of $20,000 per unit (the Units). Each Unit consisted of 1,000 shares of the Company s Preferred Stock, which converted into 2,000 shares of the Company s Common Stock, and 400 A Warrants. Each A Warrant entitled the holder to purchase one share of the Company s Common Stock and a three-year warrant (the B Warrants), at an exercise price of $5.00 per share. The expiration date of the A Warrants was subsequently extended until September 13, 2013. Each B Warrant entitles the holder to purchase one share of the Company s Common Stock at an exercise price of $12.50 per share. Each of these warrants for Common shares and their exercise prices have been adjusted for the reverse and forward stock splits, see Note 14 Subsequent Events.

25

Table of Contents

The net proceeds of the Offering in 2011 were used to fund the restructuring of the Company s outstanding debt, which included: (1) a cash settlement to holders of the Notes in the amount of $2.0 million; (2) a cash settlement to holders of the Debentures in the amount of $72,000; (3) payment of the balance of the Company s outstanding term loan with the senior lender in the amount of $321,000 and (4) payment of $1.0 million on the Company s outstanding revolving loan with the senior lender under the Credit Agreement. The net proceeds of the Offering remaining after payment to holders of the Notes and the Debentures and the senior lender were used for working capital and other general corporate purposes.

Pension Plan Contributions

In March 2010, 2011 and 2013, the Company submitted to the Internal Revenue Service requests for waivers of the minimum funding standards for its defined benefit plan for the 2009, 2010 and 2012 plan years. The waiver requests were submitted as a result of the economic climate and the business hardship that the Company experienced. The waivers for the 2009 and 2010 plan years have been approved and granted subject to certain conditions, and have deferred payment of $285,000 and $559,000 of the minimum funding standard for the 2009 and 2010 plan years, respectively. The March 2013 waiver request would defer $871,000 of the minimum funding standard for the 2012 plan year. This waiver has been approved, but has not yet been granted. If this waiver is not granted, the Pension Benefit Guaranty Corporation and the Internal Revenue Service have various enforcement remedies that can be implemented to protect the participant s benefits, such as termination of the plan or a requirement that the Company make the unpaid contributions. In 2012, the Company made $559,000 of contributions to the plan. In 2013, the Company made the minimum required contributions to the plan of $669,000. At this time, the Company is expecting to make its required contributions for the 2013 plan year and as of September 30, 2013 has already made $436,000 of contributions for the 2013 plan year. Subsequent to September 30, 2013, the Company has made its regularly scheduled quarterly contributions totaling $436,000 to the Company s pension plan, which was paid in increments of $218,000 each on October 15, 2013 and January 15, 2014. As of September 30, 2013, the Pension Benefit Guaranty Corporation has placed a lien on the Company s assets in respect of amounts owed under the plan.

Safe Harbor Statement under the Private Securities Litigation Reform Act of 1995

The Company may, from time to time, provide estimates as to future performance. These forward-looking statements will be estimates and may or may not be realized by the Company. The Company undertakes no duty to update such forward-looking statements. Many factors could cause actual results to differ from these forward-looking statements, including loss of market share through competition, introduction of competing products by others, pressure on prices from competition or purchasers of the Company s products, interest rate and foreign exchange fluctuations, terrorist acts and war.

26

Table of Contents

Item 3. Quantitative and Qualitative Disclosures about Market Risk

The Company is subject to interest rate risk on its long-term debt. The Company manages its exposure to changes in interest rates by the use of variable and fixed interest rate debt. The fair value of the Company s fixed rate long-term debt is disclosed in Note 5 to the condensed consolidated financial statements Fair Value. At September 30, 2013, the Company did not have any variable interest rate debt. In addition, the Company is exposed to foreign currency exchange rate risk mainly as a result of its investment in its Canadian subsidiary. A 10% change in the Canadian dollar relative to the U.S. dollar would result in a currency exchange expense fluctuation of approximately $315,000, based on dealer quotes, considering current exchange rates. The Company does not enter into derivatives for trading or speculative purposes. At September 30, 2013, the Company did not hold any derivative financial instruments.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures. As required by Rule 13a-15 under the Securities Exchange Act of 1934, as of the end of the period covered by this report, we have carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer (our principal executive officer and principal financial officer), of the effectiveness of the design and operation of our disclosure controls and procedures. Our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission and that such information is accumulated and communicated to our management (including our Chief Executive Officer and Chief Financial Officer) to allow timely decisions regarding required disclosures. Based on such evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that these disclosure controls are effective as of September 30, 2013.

Changes in Internal Control over Financial Reporting. There has been no change in the Company s internal control over financial reporting that occurred in the quarter ended September 30, 2013 and that has materially affected, or is reasonably likely to materially affect, the Company s internal control over financial reporting.

Part II Other Information

Item 1. Legal Proceedings

The Company is subject to legal proceedings and claims which arise in the ordinary course of its business and/or which are covered by insurance. The Company has accrued reserves individually and in the aggregate. Our former outside legal counsel has brought a claim against us for $593,000, which we have included in Accrued liabilities on the Consolidated Balance Sheets. Should actual litigation results differ from the Company s estimates, revisions to increase or decrease the accrued reserves may be required.

Table of Contents

Item 1A. Risk Factors

The Company is subject to a number of risks including general business and financial risk factors. Any or all of such factors could have a material adverse effect on the business, financial condition or results of operations of the Company. You should carefully consider the risk factors identified in our Annual Report on Form 10-K for the year ended December 31, 2012. There have been no material changes to those previously disclosed risk factors.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults upon Senior Securities

As disclosed in Note 8 to the condensed consolidated financial statements Long-Term Debt, the Company has $1.1 million of 8¼% Limited convertible senior subordinated notes due 2012 (the Notes) which are no longer convertible into common shares; interest was payable semi-annually. As part of the Company s restructuring plan, the Company offered the holders of the Notes the right to receive $225, without accrued interest, plus 10 shares (adjusted for the reverse and forward stock splits, see Note 14 Subsequent Events) of the Company s Common Stock for each $1,000 Note exchanged. The offer expired on October 31, 2011, but the Company continues to consider further exchanges of the Notes on the same terms as previously offered. $9.0 million of the original $10.1 million of principal amount of the Notes have been exchanged, leaving $1.1 million outstanding. Based on the payment schedule prior to the offer to exchange, the Company had not remitted the March 1, 2010 and 2011 and September 1, 2010 and 2011 semi-annual interest payments of $417,800 each and the March 1, 2012 semi-annual interest and principal payment of $1.4 million to the trustee. The non-payments constitute an event of default under the Indenture governing the Notes and the trustee, by notice to the Company, or the holders of 25% of the principal amount of the Notes outstanding, by notice to the Company and the trustee, may declare the outstanding principal plus interest due and payable immediately. During the continuation of any event which, with notice or lapse of time or both, would constitute a default under any agreement under which Senior Indebtedness is issued, if the effect of such default is to cause or permit the holder of Senior Indebtedness to become due prior to its stated maturity, no payment (including any required sinking fund payments) of principal, premium or interest shall be made on the Notes unless and until such

default shall have been remedied, if written notice of such default has been given to the trustee by the Company or the holder of Senior Indebtedness. If the holder of Senior Indebtedness accelerates the due date at any time, then no payment may be made until the default is cured or waived. Such actions could require the disposition of some or all of our assets, which could require us to curtail or cease operations. The Notes are subordinate to all Senior Indebtedness of the Company. At September 30, 2013 and December 31, 2012, the total principal amount outstanding under the Notes is classified as Current portion of long-term debt in the Condensed Consolidated Balance Sheets.

Table of Contents

As disclosed in Note 8 to the condensed consolidated financial statements Long-Term Debt, the Company has $0.3 million of 9½% Subordinated debentures due 2012 (the Debentures) which were due in annual sinking fund payments of $105,700 beginning in 2009, which payments have not been remitted by the Company, with the remainder due in 2012; interest is payable semi-annually. As part of the Company s restructuring plan, the Company offered the holders of the Debentures the right to receive $100, without accrued interest, for each $1,000 Debenture exchanged. The offer expired on October 31, 2011, but the Company continues to consider further exchanges of the Debentures on the same terms as previously offered. $723,000 of the original $1.1 million principal amount of the Debentures have been exchanged, leaving $334,000 outstanding. Based on the payment schedule prior to the offer to exchange, the Company had not remitted the June 1, 2010, 2011 and 2012 and December 1, 2010 and 2011 semi-annual interest payments of $50,200 each and the December 1, 2012 semi-annual interest and principal payment of $790,000 to the trustee. The non-payments constitute an event of default under the Indenture governing the Debentures and the trustee, by notice to the Company, or the holders of 25% of the principal amount of the Debentures outstanding, by notice to the Company and the trustee, may declare the outstanding principal plus interest due and payable immediately. During the continuation of any event which, with notice or lapse of time or both, would constitute a default under any agreement under which Senior Indebtedness is issued, if the effect of such default is to cause, or permit the holder of Senior Indebtedness to become due prior to its stated maturity, no payment of principal, premium or interest shall be made on the Debentures unless and until such default shall have been remedied, if written notice of such default has been given to the trustee by the Company or the holder of Senior Indebtedness. Such actions could require the disposition of some or all of our assets, which could require us to curtail or cease operations.The Debentures are subordinate to the Notes and all Senior Indebtedness of the Company. At September 30, 2013 and December 31, 2012, the total principal amount outstanding under the Debentures is classified as Current portion of long-term debt in the Condensed Consolidated Balance Sheets.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

As approved by shareholders at the Company s Annual Meeting on October 2, 2013, the Company enacted a 1,000:1 reverse stock split followed immediately by a 1:40 forward stock split effective October 29, 2013. As a result, on October 29, 2013, every 1,000 outstanding shares of Common Stock were exchanged into 1 share of Common Stock. Any shareholders who owned fractional shares of Common Stock after the reverse stock split were cashed out at the closing market price of $0.29 on October 25, 2013. At the conclusion of the forward stock split, every 1

outstanding share of Common Stock was exchanged into 40 shares of Common Stock. Unless otherwise indicated, all share information in this Form 10-Q has not been adjusted for the reverse and forward stock splits.

Table of Contents

In December 2013, the Company issued 5,813 shares (adjusted for the reverse and forward stock splits, see Note 14 Subsequent Events) of Restricted Stock and cash of $11,282 to certain board members in lieu of cash as payment for board fees of $83,940 that were owed as of the October 2, 2013 Annual Meeting.

Subsequent to September 30, 2013, the Company executed a promissory note (the Note) in favor of Carlisle Investments, Inc. (Carlisle), pursuant to which Carlisle loaned $1,000,000 to the Company in order to provide the Company with temporary financing (the Loan). Mr. Marco Elser, a director of the Company, exercises voting and dispositive power as investment manager of Carlisle. In connection with the Loan, the Company has granted to Carlisle a first-priority (excluding the liens held by the Pension Benefit Guaranty Corporation, which are senior to the liens and security interest granted in connection with the Loan) continuing security interest in and lien upon all assets of the Company (excluding those assets subject to the security interest granted to Axis Capital, Inc. by the Company pursuant to that certain Master Agreement for Sale and Assignment of Leases dated as of June 6, 2013), in accordance with the terms of a security agreement entered into between the parties and dated as of December 2, 2013. The Note bears interest at the rate of ten percent per annum and has a maturity date of June 1, 2014, with a bullet payment of all principal and accrued interest due at such time; *provided, however,* that the parties may agree in writing to convert or exchange all or any part of the Note into a long term investment by Carlisle in Trans-Lux (a Conversion Transaction). In the event the parties engage in a Conversion Transaction (of which there can be no assurance), all amounts due under the Note will be payable (or not, as the case may be) in accordance with the terms of the documentation executed by the parties in connection with such Conversion Transaction, if any. On December 4, 2013, net proceeds in the amount of $1,000,000 were received from Carlisle. The funds were used for working capital purposes.
