SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

Quarterly report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the quarterly period ended March 31, 2013

Commission file number 000-54863

EATON CORPORATION plc

(Exact name of registrant as specified in its charter)

Ireland

98-1059235

(State or other jurisdiction of incorporation or
organization)

(IRS Employer Identification Number)

70 Sir John Rogerson's Quay, Dublin 2, Ireland

-

(Address of principal executive offices)

(Zip Code)

+1 (440) 523-5000

(Registrant's telephone number, including area code)

Not applicable

(Former name, former address and former fiscal year if
changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

(Do not check if a smaller
reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

There were 473.1 million Ordinary Shares outstanding as of March 31, 2013.

EATON CORPORATION plc

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Amounts are in millions unless indicated otherwise (per share data assume dilution).

Note 1. BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements of Eaton Corporation plc (Eaton or Company) have been prepared in accordance with generally accepted accounting principles for interim financial information, the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. However, in the opinion of management, all adjustments (consisting of normal recurring accruals) have been made that are necessary for a fair presentation of the condensed consolidated financial statements for the interim periods. This Form 10-Q should be read in conjunction with the consolidated financial statements and related notes included in Eaton's 2012 Form 10-K. The interim period results are not necessarily indicative of the results to be expected for the full year. Management has evaluated subsequent events through the date this Form 10-Q was filed with the Securities Exchange Commission.

During the first quarter of 2013, Eaton re-segmented certain reportable operating segments due to a reorganization of the Company's businesses. The new reportable business segments include Electrical Products and Electrical Systems and Services (which include legacy Eaton and legacy Cooper electrical businesses), and Vehicle (which includes truck and automotive drivetrain and powertrain systems businesses). See Note 13 for additional information related to these segments.

Certain prior year amounts have been reclassified to conform to the current year presentation.

Note 2. ACQUISITIONS AND SALE OF BUSINESSES

In 2012, Eaton acquired businesses in separate transactions. The Consolidated Statements of Income include the results of these businesses from the dates of the transactions. These transactions and the related annual sales prior to acquisition are summarized below:

Acquired businesses	Date of transaction	Business segment	Annual sales
Cooper Industries plc (Cooper) A diversified global manufacturer of electrical products and systems, with brands including Bussmann electrical and electronic fuses; Crouse-Hinds and CEAG explosion-proof electrical equipment; Halo and Metalux lighting fixtures; and Kyle and McGraw-Edison power systems products.	November 30, 2012	Electrical Products; Electrical Systems and Services	\$5,409 for 2011
Rolec Comercial e Industrial S.A. A Chilean manufacturer of integrated power assemblies and low- and medium-voltage switchgear, and a provider of engineering services serving mining and other heavy industrial applications in Chile and Peru.	September 28, 2012	Electrical Systems and Services	\$85 for the 12 months ended September 30, 2012
Jeil Hydraulics Co., Ltd. A Korean manufacturer of track drive motors, swing drive motors, main control valves and remote control valves for the construction equipment market.	July 6, 2012	Hydraulics	\$189 for 2011
Polimer Kaucuk Sanayi ve Pazarlama A.S. A Turkish manufacturer of hydraulic and industrial hose for construction, mining, agriculture, oil and gas, manufacturing, food and beverage, and chemicals markets. This business sells its products	June 1, 2012	Hydraulics	\$335 for 2011

under the SEL brand name.

Gycom Electrical Low-Voltage Power Distribution, Control and Automation

A Swedish electrical low-voltage power distribution, control and automation components business.

Table of Contents

Cooper Industries plc

On November 30, 2012, Eaton Corporation acquired Cooper for a purchase price of \$13,192. The acquisition of Cooper has been accounted for using the acquisition method of accounting which requires, among other things, the assets acquired and liabilities assumed be recognized at their respective fair values as of the acquisition date. For accounting purposes, Eaton has been treated as the acquirer in the transaction. Acquisition accounting is dependent upon certain valuations and other studies that have yet to commence or progress to a stage where there is sufficient information for a definitive measurement. The process for estimating the fair values of identifiable intangible assets and certain tangible assets and assumed liabilities requires the use of judgment in determining the appropriate assumptions and estimates.

The entire purchase price allocation for Cooper is preliminary. As the Company finalizes the fair value of assets acquired and liabilities assumed, additional purchase price adjustments will be recorded during the measurement period in 2013. Fair value estimates are based on a complex series of judgments about future events and uncertainties and rely heavily on estimates and assumptions. The judgments used to determine the estimated fair value assigned to each class of assets acquired and liabilities assumed, as well as asset lives, can materially impact the Company's results of operations. The finalization of the purchase accounting assessment will result in changes in the valuation of assets acquired and liabilities assumed and may have a material impact on the Company's results of operations and financial position. See Note 2 in the 2012 Form 10-K for additional information related to the acquisition of Cooper.

Sale of Apex Tool Group, LLC

In July 2010, Cooper formed a joint venture, named Apex Tool Group, LLC (Apex), with Danaher Corporation (Danaher). Apex was formed by combining Cooper's tools business with certain tools businesses from Danaher's Tools and Components segment. Cooper and Danaher each owned a 50% interest in the joint venture, had equal representation on its board of directors and had a 50% voting interest in the joint venture.

On October 10, 2012, Cooper and Danaher announced they had entered into a definitive agreement to sell Apex to Bain Capital for approximately \$1.6 billion subject to post-closing adjustments. On February 1, 2013, the sale of Apex was completed.

Note 3. ACQUISITION INTEGRATION CHARGES AND RESTRUCTURING CHARGES

Eaton incurs integration charges and transaction costs related to acquired businesses. A summary of these charges follows:

	Three months ended March 31	
	2013	2012
Acquisition integration charges		
Electrical Products	\$3	\$—
Electrical Systems and Services	5	2
Hydraulics	12	1
Total business segments	20	3
Corporate integration charges	6	—
Total acquisition integration charges	\$26	\$3
Transaction costs		
Corporate transaction costs	\$5	\$—
Total transaction costs	\$5	\$—
Total acquisition integration charges and transaction costs before income taxes	\$31	\$3
Total after income taxes	\$22	\$2
Per ordinary share - diluted	\$0.05	\$0.01

Table of Contents

Business segment integration charges for the first quarter of 2013 were related primarily to Cooper, Polimer Kaucuk Sanayi ve Pazarlama, Jeil Hydraulics and Rolec Comercial e Industrial S.A. Business segment integration charges for the first quarter of 2012 were related primarily to ACTOM Low Voltage, E. Begerow GmbH & Co. KG, Tuthill Coupling Group and Internormen Technology Group. These charges were included in Cost of products sold or Selling and administrative expense, as appropriate. In Business Segment Information the charges reduced Operating profit of the related business segment.

Corporate integration charges in 2013 were related to the acquisition of Cooper. These charges were included in Selling and administrative expense. In Business Segment Information the charges were included in Other corporate expense-net.

Acquisition-related transaction costs, such as investment banking, legal, and other professional fees are not included as a component of consideration transferred in an acquisition but are expensed as incurred. Acquisition related transaction costs in 2013 were related to the acquisition of Cooper. These charges were included in Selling and administrative expense, Interest expense-net and Other corporate expense-net, as appropriate. In Business Segment Information the charges were included in Interest expense-net and Other corporate expense-net.

See Note 2 for additional information about business acquisitions.

Restructuring Charges

During the fourth quarter of 2012, Eaton undertook restructuring activities to improve the efficiency of certain businesses. These actions resulted in a charge in 2012 of \$50, comprised of severance costs totaling \$34 and other non-cash expenses totaling \$16. These charges were included in Cost of products sold or Selling and administrative expense, as appropriate. In Business Segment Information, the charges reduced Operating profit of the related business segment. See Note 13 for additional information about business segments. As of March 31, 2013, the liability related to these restructuring actions totaled \$32 and is expected to be paid out during the second quarter of 2013.

Note 4. GOODWILL

A summary of goodwill follows:

	March 31, 2013	December 31, 2012
Electrical Products	\$6,163	\$6,212
Electrical Systems and Services	5,338	5,378
Hydraulics	1,380	1,404
Aerospace	1,038	1,045
Vehicle	356	357
Total goodwill	\$14,275	\$14,396

The decrease in goodwill in 2013 was related to the impact of currency translation.

Note 5. DEBT

On November 30, 2012, the closing date of the acquisition of Cooper, Eaton borrowed \$1,669 on a \$6.75 billion, 364-day bridge facility (the Facility) which was obtained on May 21, 2012. The Facility was obtained to finance a portion of the cash paid to acquire Cooper and was available in a single draw on the closing date of the acquisition. On February 1, 2013, Eaton repaid the outstanding balance on the Facility.

Note 6. RETIREMENT BENEFITS PLANS

The components of retirement benefits expense follow:

	Three months ended March 31					
	United States		Non-United States		Other postretirement	
	pension benefit expense		pension benefit expense		benefits expense	
	2013	2012	2013	2012	2013	2012
Service cost	\$32	\$29	\$15	\$12	\$5	\$4
Interest cost	37	34	20	19	9	9
Expected return on plan assets	(57)	(45)	(21)	(19)	(2)	(1)
Amortization	33	29	7	4	3	4
	45	47	21	16	15	16
Settlement loss	6	4	—	2	—	—
Total expense	\$51	\$51	\$21	\$18	\$15	\$16

Note 7. LEGAL CONTINGENCIES

Eaton is subject to a broad range of claims, administrative and legal proceedings such as lawsuits that relate to contractual allegations, tax audits, patent infringement, personal injuries (including asbestos claims), antitrust matters and employment-related matters. Although it is not possible to predict with certainty the outcome or cost of these matters, the Company believes they will not have a material adverse effect on the consolidated financial statements. In December 2010, a Brazilian court held that a judgment obtained by a Brazilian company, Raysul, against another Brazilian company, Saturnia, which was sold by Eaton in 2006, could be enforced against Eaton Ltda. This judgment is based on an alleged violation of an agency agreement between Raysul and Saturnia. At March 31, 2013, the Company has a total accrual of 91 Brazilian Reais related to this matter (\$45 based on current exchange rates), comprised of 60 Brazilian Reais recognized in the fourth quarter of 2010 (\$30 based on current exchange rates) with an additional 31 Brazilian Reais recognized through March 31, 2013 (\$15 based on current exchange rates). In 2010, Eaton filed motions for clarification with the Brazilian court of appeals which were denied on April 6, 2011. Eaton Holding and Eaton Ltda. filed appeals on various issues to the Superior Court of Justice in Brasilia. In April 2013, the Superior Court of Justice ruled in favor of Raysul. The Company expects that any sum it may be required to pay in connection with this matter will not exceed the amount of the recorded liability.

On October 5, 2006, ZF Meritor LLC and Meritor Transmission Corporation (collectively, Meritor) filed an action against Eaton in the United States District Court for Delaware. The action sought damages, which would be trebled under United States antitrust laws, as well as injunctive relief and costs. The suit alleged that Eaton engaged in anti-competitive conduct against Meritor in the sale of heavy-duty truck transmissions in North America. Following a four week trial on liability only, on October 8, 2009, the jury returned a verdict in favor of Meritor. Eaton firmly believes that it competes fairly and honestly for business in the marketplace, and that at no time did it act in an anti-competitive manner. During an earlier stage in the case, the judge concluded that damage estimates contained in a report filed by Meritor were not based on reliable data and the report was specifically excluded from the case. On November 3, 2009, Eaton filed a motion for judgment as a matter of law and to set aside the verdict. That motion was denied on March 10, 2011. On March 14, 2011, Eaton filed a motion for entry of final judgment of liability, zero damages and no injunctive relief. That motion was denied on June 9, 2011. On August 19, 2011, the Court entered final judgment of liability but awarded zero damages to plaintiffs. The Court also entered an injunction prohibiting Eaton from offering rebates or other incentives based on purchasing targets but stayed the injunction pending appeal. Eaton appealed the liability finding and the injunction to the Third Circuit Court of Appeals. Meritor cross-appealed the finding of zero damages. On September 28, 2012, the Court of Appeals affirmed the District Court's denial of Eaton's motion for judgment as a matter of law, and let stand the jury verdict in favor of Meritor. The Third Circuit also ruled that the plaintiffs' damages report was properly excluded, but reversed the judgment of zero damages and ordered that the District Court must allow plaintiffs a limited opportunity to amend the damages report, which may be re-considered for reliability and admissibility. Injunctive relief also was vacated. An estimate of any potential loss related to this action cannot be made at this time.

Table of Contents

Note 8. INCOME TAXES

The effective income tax rate for the first quarter of 2013 was 5.0% compared to 15.6% for the first quarter of 2012. The lower effective tax rate in the first quarter of 2013 was primarily attributable to recording in the first quarter of 2013 the entire U.S. research and experimentation credit for 2012 as a result of a legislative change that occurred in January 2013, the effects of the Cooper transaction and integration, and enhanced utilization of foreign tax credits in the U.S.

At the end of the fourth quarter of 2011, the IRS issued a Statutory Notice of Deficiency (Notice) for Eaton's 2005 and 2006 tax years. The Notice proposes assessments of \$75 in additional taxes plus \$52 in penalties related primarily to transfer pricing adjustments for products manufactured in the Company's facilities in Puerto Rico and the Dominican Republic and sold to affiliated companies located in the U.S., net of agreed credits and deductions. The Company has set its transfer prices for products sold between these affiliates at the same prices that the Company sells such products to third parties. The Notice was issued despite the IRS having previously recognized the validity of the Company's transfer pricing methodology by entering into two successive binding Advance Pricing Agreements (APAs) that approved and, in fact, required the application of the Company's transfer pricing methodology for the ten year period of 2001 through 2010. For the years 2001 through 2004, the IRS had previously accepted the transfer pricing methodology related to these APAs after a comprehensive review conducted in two separate audit cycles. On December 16, 2011, immediately prior to the Notice being issued, the IRS sent a letter stating that it was canceling the APAs.

The Company firmly believes that the proposed assessments are without merit. The Company also believes that it was in full compliance with the terms of the two APAs, and that the IRS's unilateral attempt to retroactively cancel these two binding contracts is also without merit, and represents a breach of the two contracts. On February 29, 2012, the Company filed a Petition with the U.S Tax Court in which it asserted that the transfer pricing established in the two APA contracts meets the arms-length standard set by the U.S. income tax laws, and accordingly, that the two APA contracts should be enforced in accordance with their terms. On June 11, 2012, the Company filed a motion for partial summary judgment with the U.S. Tax Court, asking the U.S. Tax Court to find that the APAs are binding contracts and that the IRS has the burden of proving that it is entitled to cancel the APAs. On October 22, 2012, a hearing on the partial summary judgment motion was held at the U.S. Tax Court. A decision on the motion is pending. The Company believes that the ultimate resolution of this matter will not have a material adverse impact on its consolidated financial statements.

Note 9. EQUITY

The changes in Shareholders' equity follow:

	Eaton shareholders' equity	Noncontrolling interests	Total equity
Balance at December 31, 2012	\$15,086	\$42	\$15,128
Net income	378	2	380
Other comprehensive loss	(160)) —	(160)
Cash dividends paid and accrued	(199)) (1) (200)
Issuance of shares under equity-based compensation plans-net	62	—	62
Balance at March 31, 2013	\$15,167	\$43	\$15,210

Table of Contents

The changes in Accumulated other comprehensive loss follow:

	Currency translation and related hedging instruments	Pensions and other postretirement benefits	Cash flow hedges	Total
Balance at December 31, 2012	\$(393)	\$(1,599)	\$2	\$(1,990)
Other comprehensive (loss) income before reclassifications	(206)	21	(6)	(191)
Amounts reclassified from Accumulated other comprehensive (loss) income	—	32	(1)	31
Net current-period other comprehensive (loss) income	(206)	53	(7)	(160)
Balance at March 31, 2013	\$(599)	\$(1,546)	\$(5)	\$(2,150)

The reclassifications out of Accumulated other comprehensive loss follow:

	Three months ended March 31, 2013	Consolidated Statements of Income classification

¹ These components of Accumulated other comprehensive loss are included in the computation of net periodic pension cost. See Note 6 for additional information about defined benefit pension items.

Table of Contents

Net Income per Ordinary Share

A summary of the calculation of net income per ordinary share attributable to shareholders follows:

(Shares in millions)	Three months ended	
	March 31	
	2013	2012
Net income attributable to Eaton ordinary shareholders	\$378	\$311
Weighted-average number of ordinary shares outstanding-diluted	475.1	339.8
Less dilutive effect of equity-based compensation	3.2	4.4
Weighted-average number of ordinary shares outstanding-basic	471.9	335.4
Net income per ordinary share		
Diluted	\$0.79	\$0.91
Basic	0.80	0.93

For the first quarter of 2013 and 2012, 0.1 million and 0.9 million stock options, respectively, were excluded from the calculation of diluted net income per ordinary share because the exercise price of the options exceeded the average market price of the ordinary shares during the period and their effect, accordingly, would have been antidilutive.

Note 10. FAIR VALUE MEASUREMENTS

Fair value is measured based on an exit price, representing the amount that would be received to sell an asset or paid to satisfy a liability in an orderly transaction between market participants. Fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering such assumptions, a fair value hierarchy is established, which categorizes the inputs used in measuring fair value as follows: (Level 1) observable inputs such as quoted prices in active markets; (Level 2) inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and (Level 3) unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

A summary of financial instruments recognized at fair value, and the fair value measurements used, follows:

	Total	Quoted prices in active markets for identical assets (Level 1)	Other observable inputs (Level 2)	Unobservable inputs (Level 3)
March 31, 2013				
Cash	\$639	\$639	\$—	\$—
Short-term investments	397	397	—	—
Net derivative contracts	73	—	73	—
Long-term debt converted to floating interest rates by	79	—	79	—
interest rate swaps - net				
December 31, 2012				
Cash	\$577	\$577	\$—	\$—
Short-term investments	527	527	—	—
Net derivative contracts	83	—	83	—
Long-term debt converted to floating interest rates by	87	—	87	—
interest rate swaps - net				

Eaton values its financial instruments using an industry standard market approach, in which prices and other relevant information is generated by market transactions involving identical or comparable assets or liabilities. No financial instruments were recognized using unobservable inputs.

12

Table of Contents

Other Fair Value Measurements

Long-term debt and the current portion of long-term debt had a carrying value of \$10,042 and fair value of \$10,647 at March 31, 2013 compared to \$10,076 and \$10,793, respectively, at December 31, 2012. The fair value of Eaton's debt instruments was estimated using prevailing market interest rates on debt with similar creditworthiness, terms and maturities.

Note 11. DERIVATIVE FINANCIAL INSTRUMENTS AND HEDGING ACTIVITIES

In the normal course of business, Eaton is exposed to certain risks related to fluctuations in interest rates, currency exchange rates and commodity prices. The Company uses various derivative and non-derivative financial instruments, primarily interest rate swaps, currency forward exchange contracts, currency swaps and, to a lesser extent, commodity contracts, to manage risks from these market fluctuations. The instruments used by Eaton are straightforward, non-leveraged instruments. The counterparties to these instruments are financial institutions with strong credit ratings. Eaton maintains control over the size of positions entered into with any one counterparty and regularly monitors the credit rating of these institutions. Such instruments are not purchased and sold for trading purposes.

Derivative financial instruments are accounted for at fair value and recognized as assets or liabilities in the Condensed Consolidated Balance Sheets. Accounting for the gain or loss resulting from the change in the fair value of the derivative financial instrument depends on whether it has been designated, and is effective, as part of a hedging relationship and, if so, as to the nature of the hedging activity. Eaton formally documents all relationships between derivative financial instruments accounted for as designated hedges and the hedged item, as well as its risk-management objective and strategy for undertaking the hedge transaction. This process includes linking derivative financial instruments to a recognized asset or liability, specific firm commitment, forecasted transaction, or net investment in a foreign operation. These financial instruments can be designated as:

- Hedges of the change in the fair value of a recognized fixed-rate asset or liability, or the firm commitment to acquire such an asset or liability (a fair value hedge); for these hedges, the gain or loss from the derivative financial instrument, as well as the offsetting loss or gain on the hedged item attributable to the hedged risk, are recognized in income during the period of change in fair value.

Hedges of the variable cash flows of a recognized variable-rate asset or liability, or the forecasted acquisition of such an asset or liability (a cash flow hedge); for these hedges, the effective portion of the gain or loss from the derivative financial instrument is recognized in Accumulated other comprehensive income (loss) and reclassified to income in the same period when the gain or loss on the hedged item is included in income.

Hedges of the currency exposure related to a net investment in a foreign operation (a net investment hedge); for these hedges, the effective portion of the gain or loss from the derivative financial instrument is recognized in Accumulated other comprehensive income (loss) and reclassified to income in the same period when the gain or loss related to the net investment in the foreign operation is included in income.

The gain or loss from a derivative financial instrument designated as a hedge that is effective is classified in the same line of the Consolidated Statements of Income as the offsetting loss or gain on the hedged item. The change in fair value of a derivative financial instrument that is not effective as a hedge is immediately recognized in income.

For derivatives that are not designated as a hedge, any gain or loss is immediately recognized in income. The majority of derivatives used in this manner relate to risks resulting from assets or liabilities denominated in a currency and certain commodity contracts that arise in the normal course of business. Gains and losses associated with commodity hedge contracts are classified in Cost of products sold.

Eaton uses certain of its debt denominated in various currencies to hedge portions of its net investments in foreign operations against currency exposure (net investment hedges). Debt denominated in various currencies and designated as non-derivative net investment hedging instruments was \$106 and \$116 at March 31, 2013 and December 31, 2012, respectively.

Table of Contents

Derivative Financial Statement Impacts

The fair value of derivative financial instruments recognized in the Condensed Consolidated Balance Sheets follows:

	Notional amount	Other current assets	Other long-term assets	Other current liabilities	Other long-term liabilities	Type of hedge	Term
March 31, 2013							
Derivatives designated as hedges							
Fixed-to-floating interest rate swaps	\$ 1,540	\$ 3	\$ 76	\$—	\$—	Fair value	3 months to 21 years
Floating-to-fixed interest rate swaps	300	—	—	—	2	Cash flow	1 year
Currency exchange contracts	388	3	—	8	—	Cash flow	12 to 36 months
Commodity contracts	7	—	—	—	—	Cash flow	12 months
Total		\$ 6	\$ 76	\$ 8	\$ 2		
Derivatives not designated as hedges							
Currency exchange contracts	\$ 4,417	\$ 39		\$ 38			12 months
Commodity contracts	8	—		—			12 months
Total		\$ 39		\$ 38			
December 31, 2012							
Derivatives designated as hedges							
Fixed-to-floating interest rate swaps	\$ 1,290	\$ 2	\$ 85	\$—	\$—	Fair value	6 months to 21 years
Floating-to-fixed interest rate swaps	300	—	—	—	2	Cash flow	1 year
Currency exchange contracts	451	9	—	4	—	Cash flow	12 to 36 months
Commodity contracts	17	—	—	—	—	Cash flow	12 months
Total		\$ 11	\$ 85	\$ 4	\$ 2		
Derivatives not designated as hedges							
Currency exchange contracts	\$ 4,997	\$ 23		\$ 31			12 months
Commodity contracts	19	1		—			12 months
Total		\$ 24		\$ 31			

The currency exchange contracts shown in the table above as derivatives not designated as hedges are primarily contracts entered into to manage currency volatility or exposure on intercompany sales and loans. While Eaton does not elect hedge accounting treatment for these derivatives, Eaton targets managing 100% of the intercompany balance sheet exposure to minimize the effect of currency volatility related to the movement of goods and services in the normal course of its operations. This activity represents the great majority of these currency exchange contracts.

Table of Contents

Amounts recognized in Accumulated other comprehensive income (loss) follow:

	Three months ended March 31 2013		2012		
	Gain (loss) recognized in Accumulated other comprehensive income (loss)	Gain (loss) reclassified from Accumulated other comprehensive income (loss)	Gain (loss) recognized in Accumulated other comprehensive income (loss)	Gain (loss) reclassified from Accumulated other comprehensive income (loss)	
Derivatives designated as cash flow hedges					
Floating-to-fixed interest rate swaps	\$—	\$—	\$(1) \$—	
Currency exchange contracts	(9) 1	9	(2)
Commodity contracts	—	—	4	(2)
Total	\$(9) \$1	\$12	\$(4)

Gains and losses reclassified from Accumulated other comprehensive income (loss) to the Consolidated Statements of Income were recognized in Cost of products sold.

Amounts recognized in net income follow:

	Three months ended March 31		
	2013	2012	
Derivatives designated as fair value hedges			
Fixed-to-floating interest rate swaps	\$(8) \$(10)
Related long-term debt converted to floating interest rates by interest rate swaps	8	10	
	\$—	\$—	

Gains and losses described above were recognized in Interest expense-net.

Note 12. INVENTORY

The components of inventory follow:

	March 31, 2013	December 31, 2012	
Raw materials	\$972	\$922	
Work-in-process	417	426	
Finished goods	1,125	1,134	
Inventory at FIFO	2,514	2,482	
Excess of FIFO over LIFO cost	(120) (133)
Total inventory	\$2,394	\$2,349	

Note 13. BUSINESS SEGMENT INFORMATION

Operating segments are defined as components of an enterprise about which separate financial information is available that is evaluated on a regular basis by the chief operating decision maker, or decision making group, in deciding how to allocate resources to an individual segment and in assessing performance.

During the first quarter of 2013, Eaton re-segmented certain reportable operating segments due to a reorganization of the Company's businesses. The new reportable business segments include Electrical Products and Electrical Systems and Services (which include legacy Eaton and legacy Cooper electrical businesses), and Vehicle (which includes truck and automotive drivetrain and powertrain systems businesses).

Table of Contents

Electrical Products consists of electrical components, industrial controls, residential products, single phase power quality, emergency lighting, fire detection, wiring devices, structural support systems, circuit protection, and lighting products.

Electrical Systems and Services consists of power distribution and assemblies, three phase power quality, hazardous duty electrical equipment, intrinsically safe explosion-proof instrumentation, utility power distribution, power reliability equipment, and services.

For the reportable segments that were re-segmented, previously reported segment financial information has been updated for all periods reported in 2012 and 2011. The re-segmentation did not impact previously reported consolidated results of operations. Business Segment Information includes the results of acquisitions from the dates of the transactions. See Note 2 for additional information related to business acquisitions.

	Three months ended March 31		
	2013	2012	
Net sales			
Electrical Products	\$1,660	\$886	
Electrical Systems and Services	1,521	852	
Hydraulics	756	735	
Aerospace	434	430	
Vehicle	939	1,057	
Total net sales	\$5,310	\$3,960	
Segment operating profit			
Electrical Products	\$241	\$139	
Electrical Systems and Services	210	76	
Hydraulics	78	109	
Aerospace	62	60	
Vehicle	132	160	
Total segment operating profit	723	544

Income before income taxes	400	368	
Income tax expense	20	57	
Net income	380	311	
Less net income for noncontrolling interests	(2) —	
Net income attributable to Eaton ordinary shareholders	\$378	\$311	
Business segment operating profit was reduced by acquisition integration charges as follows:			
	Three months ended March 31		
	2013	2012	
Electrical Products	\$3	\$—	
Electrical Systems and Services	5	2	
Hydraulics	12	1	
Total	\$20	\$3	

Table of Contents

Corporate acquisition integration charges, related to the acquisition of Cooper, totaled \$6 in 2013 and are included above in Other corporate expense-net. Acquisition-related transaction costs, such as investment banking, legal and other professional fees, are included above in Interest expense-net and Other corporate expense-net. In 2013, these charges totaled \$5 and were related to the acquisition of Cooper. There were no significant Corporate acquisition-related transaction costs in the three months ended March 31, 2012. See Note 3 for additional information about acquisition integration charges and transaction costs.

For additional information regarding Eaton's business segments, see Note 14 to the Consolidated Financial Statements contained in the 2012 Form 10-K.

2. OPERATIONS.

Amounts are in millions of dollars or shares unless indicated otherwise (per share data assume dilution).

COMPANY OVERVIEW

Eaton Corporation plc (Eaton or Company) is a diversified power management company providing energy-efficient solutions that help its customers effectively manage electrical, hydraulic and mechanical power. With 2012 net sales of \$16.3 billion, the Company is a global technology leader in electrical products, systems and services for power quality, distribution and control, power transmission, lighting and wiring products; hydraulics components, systems and services for industrial and mobile equipment; aerospace fuel, hydraulics and pneumatic systems for commercial and military use; and truck and automotive drivetrain and powertrain systems for performance, fuel economy and safety. Eaton has approximately 103,000 employees in over 50 countries, and sells products to customers in more than 175 countries.

In 2012, Eaton acquired certain businesses that affect comparability on a year over year basis, the most substantial of which was Cooper Industries plc (Cooper). Cooper was acquired November 30, 2012 for a purchase price of \$13,192. See Note 2 in the 2012 Form 10-K for additional information on the acquisition of Cooper. The Consolidated Statements of Income include the results of these businesses from the dates of the transactions or formation. For a complete list of business acquisitions impacting the comparative periods, see Note 2 to the Condensed Consolidated Financial Statements.

The acquisition of Cooper has significantly transformed Eaton's mix of businesses. As a result, during the first quarter of 2013, Eaton re-segmented certain reportable operating segments due to a reorganization of the Company's businesses. The new reportable business segments include Electrical Products and Electrical Systems and Services (which include legacy Eaton and legacy Cooper electrical businesses), and Vehicle (which includes truck and automotive drivetrain and powertrain systems businesses). For those reportable segments that were re-segmented, previously reported segment financial information has been updated for all periods reported in 2012 and 2011. For additional information regarding the re-segmentation, see Note 13 to the Condensed Consolidated Financial Statements. The re-segmentation did not impact previously reported consolidated results of operations. For additional information regarding Eaton's business segments, see Note 14 to the Consolidated Financial Statements contained in the 2012 Form 10-K.

Summary of Results of Operations

A summary of Eaton's Net sales, Net income attributable to Eaton ordinary shareholders, and Net income per ordinary share-diluted follows:

	Three months ended	
	March 31	
	2013	2012
Net sales	\$5,310	\$3,960
Net income attributable to Eaton ordinary shareholders	378	311
Net income per ordinary share-diluted	\$0.79	\$0.91

RESULTS OF OPERATIONS

The following discussion of Consolidated Financial Results and Business Segment Results of Operations includes certain non-GAAP financial measures. These financial measures include operating earnings, operating earnings per ordinary share, and operating profit before acquisition integration charges for each business segment, as well as corporate expense, each of which excludes amounts that differ from the most directly comparable measure calculated in accordance with generally accepted accounting principles (GAAP). A reconciliation of each of these financial measures to the most directly comparable GAAP measure is included in the table below and in the discussion of the operating results of each business segment. Management believes that these financial measures are useful to investors because they exclude transactions of an unusual nature, allowing investors to more easily compare Eaton's financial

performance period to period. Management uses this information in monitoring and evaluating the on-going performance of Eaton and each business segment. For additional information on acquisition integration charges, see Note 3 to the Condensed Consolidated Financial Statements.

Table of Contents

Consolidated Financial Results

	Three months ended		Increase (decrease)	
	March 31 2013	2012		
Net sales	\$5,310	\$3,960	34	%
Gross profit	1,575	1,206	31	%
Percent of net sales	29.7	% 30.5	%	
Income before income taxes	400	368	9	%
Net income	\$380	\$311	22	%
Less net income for noncontrolling interests	(2) —		
Net income attributable to Eaton ordinary shareholders	378	311	22	%
Excluding acquisition integration charges and transaction costs (after-tax)	22	2		
Operating earnings	\$400	\$313	28	%
Net income per ordinary share-diluted	\$0.79	\$0.91	(13)%
Excluding per share impact of acquisition integration charges and transaction costs (after-tax)	0.05	0.01		
Operating earnings per ordinary share	\$0.84	\$0.92	(9)%

Net Sales

Net sales in the first quarter of 2013 increased 34% compared to the first quarter of 2012. The sales increase was due to an increase of 40% from acquisition of businesses partially offset by a decrease of 5% in core sales and a decrease of 1% from the impact of currency translation. The decrease in core sales in the first quarter of 2013 was primarily due to lower demand as a result of continued subdued economic growth in Europe and reduced demand in certain Vehicle markets in the U.S.

Gross Profit

Gross profit increased 31% in the first quarter of 2013 compared to the first quarter of 2012. Gross profit margin decreased 0.8 percentage points from 30.5% in the first quarter of 2012 to 29.7% in the first quarter of 2013 largely due to the impact from reduced volumes in certain markets.

Income Taxes

The effective income tax rate for the first quarter of 2013 was 5.0% compared to 15.6% for the first quarter of 2012. The lower effective tax rate in the first quarter of 2013 was primarily attributable to recording in the first quarter of 2013 the entire U.S. research and experimentation credit for 2012 as a result of a legislative change that occurred in January 2013, the effects of the Cooper transaction and integration, and enhanced utilization of foreign tax credits in the U.S.

Net Income

Net income attributable to Eaton ordinary shareholders of \$378 in the first quarter of 2013 increased 22% compared to Net income attributable to Eaton ordinary shareholders of \$311 in the first quarter of 2012. The increase in Net income attributable to Eaton ordinary shareholders in the first quarter of 2013 was primarily due to higher sales volumes resulting from the acquisition of businesses, the most substantial of which was Cooper, and a lower effective tax rate. Net income per ordinary share of \$0.79 in the first quarter of 2013 decreased 13% from Net income per ordinary share of \$0.91 in the first quarter of 2012. The decrease in Net income per ordinary share in the first quarter of 2013 reflects the impact of the shares issued in the acquisition of Cooper and purchase price accounting charges resulting from the transaction.

Table of Contents

Business Segment Results of Operations

The following is a discussion of Net sales, operating profit and operating margin by business segment, which includes a discussion of operating profit and operating profit margin before acquisition integration charges. For additional information related to acquired businesses and acquisition integration charges, see Note 2 and Note 3 to the Condensed Consolidated Financial Statements, respectively.

Electrical Products

	Three months ended		Increase	
	March 31			
	2013	2012		
Net sales	\$1,660	\$886	87	%
Operating profit	241	139	73	%
Operating margin	14.5	% 15.7	%	
Acquisition integration charges	\$3	\$—		
Before acquisition integration charges				
Operating profit	\$244	\$139	76	%
Operating margin	14.7	% 15.7	%	

Net sales increased 87% in the first quarter of 2013 compared to the first quarter of 2012 primarily due to an increase of 92% from the acquisition of businesses, partially offset by a decrease in core sales of 4% and a decrease of 1% from the impact of currency translation. The decrease in core sales in the first quarter of 2013 reflects lower sales demand from continued weakness in Europe, mixed conditions in Asia Pacific, and modest strength in the U.S., Middle East, and Latin America.

Operating profit before acquisition integration charges in the first quarter of 2013 increased 76% from the first quarter of 2012 primarily due to the acquisition of businesses, as noted above. Operating margin before acquisition integration charges decreased 1.0 percentage point from 15.7% in the first quarter of 2012 to 14.7% in the first quarter of 2013. The decrease in operating margin in the first quarter of 2013 was primarily due to the changed mix of products in the segment as a result of the acquisitions and lower core sales.

Electrical Systems and Services

	Three months ended		Increase	
	March 31			
	2013	2012		
Net sales	\$1,521	\$852	79	%
Operating profit	210	76	176	%
Operating margin	13.8	% 8.9	%	
Acquisition integration charges	\$5	\$2		
Before acquisition integration charges				
Operating profit	\$215	\$78	176	%
Operating margin	14.1	% 9.2	%	

Net sales increased 79% in the first quarter of 2013 compared to the first quarter of 2012 due to an increase of 80% from the acquisition of businesses, partially offset by a decrease of 1% from the impact of currency translation. Core sales in the first quarter of 2013 were flat compared to the first quarter of 2012, reflecting continued strength in the U.S., Middle East, and Latin America, offset by weakness in Europe and mixed conditions in Asia Pacific.

Table of Contents

Operating profit before acquisition integration charges in the first quarter of 2013 increased 176% from the first quarter of 2012. Operating margin before acquisition integration charges increased 4.9 percentage points from 9.2% in the first quarter of 2012 to 14.1% in the first quarter of 2013. The increase in operating margin in the first quarter of 2013 was primarily due to the changed mix of products in the segment as a result of the acquisitions.

Hydraulics

	Three months ended		Increase (decrease)	
	March 31			
	2013	2012		
Net sales	\$756	\$735	3	%
Operating profit	78	109	(28)%
Operating margin	10.3	% 14.8	%	
Acquisition integration charges	\$12	\$1		

Before acquisition integration charges

Operating profit	\$90	\$110	(18)%
Operating margin	11.9	% 15.0	%	

Net sales in the first quarter of 2013 increased 3% compared to the first quarter of 2012 due to an increase of 13% from the acquisition of businesses, partially offset by a decrease in core sales of 9% and a decrease of 1% from the impact of currency translation. The decrease in core sales in the first quarter of 2013 primarily reflects lower demand in the mining and global construction equipment markets.

Operating profit before acquisition integration charges in the first quarter of 2013 decreased 18% from the first quarter of 2012. Operating margin before acquisition integration charges decreased 3.1 percentage points from 15.0% in the first quarter of 2012 to 11.9% in the first quarter of 2013. The decrease in operating margin in the first quarter of 2013 was primarily due to lower core sales volumes and product mix as noted above.

Aerospace

	Three months ended		Increase	
	March 31			
	2013	2012		
Net sales	\$434	\$430	1	%
Operating profit	62	60	3	%
Operating margin	14.3	% 14.0	%	

Net sales in the first quarter of 2013 increased 1% compared to the first quarter of 2012, due to an increase in core sales of 2%, partially offset by a 1% decrease from the impact of currency translation. The increase in core sales in the first quarter of 2013 was primarily due to higher sales in the commercial OEM market.

Operating profit in the first quarter of 2013 increased 3% from the first quarter of 2012. Operating margin increased 0.3 percentage points from 14.0% in the first quarter of 2012 to 14.3% in the first quarter of 2013.

Table of Contents

Vehicle

	Three months ended		Decrease	
	March 31			
	2013	2012		
Net sales	\$939	\$1,057	(11)%
Operating profit	132	160	(18)%
Operating margin	14.1	% 15.1	%	

Net sales decreased 11% in the first quarter of 2013 compared to the first quarter of 2012 due to a decrease in core sales of 8% and a decrease of 3% from the impact of currency translation. Core sales in the first quarter of 2013 were primarily impacted by lower sales volumes in the NAFTA Class 8 market and weakness in the light vehicle market in Europe, partially offset by higher sales in the Brazil truck markets.

Operating profit in the first quarter of 2013 decreased 18% from the first quarter of 2012. Operating margin decreased 1.0 percentage points from 15.1% in the first quarter of 2012 to 14.1% in the first quarter of 2013. The decrease in operating margin in the first quarter of 2013 was primarily due to lower core sales volumes.

Corporate Expense

	Three months ended		Increase	
	March 31			
	2013	2012	(decrease)	
Amortization of intangible assets	\$107	\$42	155	%
Interest expense-net	75	28	168	%
Pension and other postretirement benefits expense	38	41	(7)%
Inventory step-up adjustment	33	2	NM	
Other corporate expense-net	70	63	11	%
Total corporate expense	\$323	\$176	84	%

Total Corporate expense increased 84% in the first quarter of 2013 to \$323 from \$176 in the first quarter of 2012 primarily due to the acquisition of Cooper. The acquisition of Cooper resulted in an increase of 155% in Amortization of intangible assets, an increase of 168% in Interest expense-net, primarily related to financing activities in conjunction with the acquisition, and an Inventory step-up adjustment of \$33 in the first quarter of 2013 compared to \$2 in the first quarter of 2012.

For additional information regarding the acquisition of Cooper, see Note 2 to the Consolidated Financial Statements contained in the 2012 Form 10-K.

Table of Contents

LIQUIDITY, CAPITAL RESOURCES AND CHANGES IN FINANCIAL CONDITION

Financial Condition and Liquidity

Eaton's objective is to finance its business through operating cash flow and an appropriate mix of equity and long-term and short-term debt. By diversifying its debt maturity structure, Eaton reduces liquidity risk. The Company maintains access to the commercial paper markets through credit facilities that support commercial paper borrowings. There were no borrowings outstanding under these revolving credit facilities at March 31, 2013. Over the course of a year, cash, short-term investments and short-term debt may fluctuate in order to manage global liquidity. Eaton believes it has the operating flexibility, cash flow, cash and short-term investment balances, and access to capital markets in excess of the liquidity necessary to meet future operating needs of the business.

Eaton was in compliance with each of its debt covenants as of March 31, 2013 and for all periods presented.

Undistributed Assets of Non-U.S. Subsidiaries

At March 31, 2013, approximately 86% of the Company's consolidated cash and short-term investments resided in non-U.S. locations. These funds are considered permanently reinvested to be used to expand operations either organically or through acquisitions outside the U.S. The largest growth areas that are expected to require capital are in developing markets. The Company's U.S. operations generate cash flow sufficient to satisfy U.S. operating requirements and service its debt. The Company does not intend to repatriate any significant amounts of cash to the U.S. in the foreseeable future.

Sources and Uses of Cash Flow

Operating Cash Flow

Net cash provided by operating activities was \$100 in the first three months of 2013, an increase of \$198 compared to a use of cash of \$98 in the first three months of 2012. Higher operating cash flow in the first three months of 2013 compared to the first three months of 2012 was due to lower contributions to defined benefits plans and higher net income, partially offset by higher working capital requirements due to the acquisition of Cooper.

Investing Cash Flow

Net cash provided by investing activities was \$773 in the first three months of 2013, an increase of \$632 compared to \$141 in the first three months of 2012. Investing cash flows in 2013 were primarily impacted by the proceeds from the sale of Apex Tool Group, LLC (Apex) totaling \$761, partially offset by a decrease in sales of short-term investments from \$262 in the first three months of 2012 to \$132 in the first three months of 2013. For additional information on the sale of Apex, see Note 2 to the Condensed Consolidated Financial Statements.

Financing Cash Flow

Net cash used in financing activities was \$810 in the first three months of 2013, an increase of \$741 compared to \$69 in the first three months of 2012. The increase was primarily due to repayments on the bridge facility totaling \$669 and cash dividends paid totaling \$194.

FORWARD-LOOKING STATEMENTS

This Form 10-Q Report contains forward-looking statements. These statements may discuss goals, intentions and expectations as to future trends, plans, events, results of operations or financial condition, or state other information relating to Eaton, based on current beliefs of management as well as assumptions made by, and information currently available to, management. Forward-looking statements generally will be accompanied by words such as “anticipate,” “believe,” “could,” “estimate,” “expect,” “forecast,” “guidance,” “intend,” “may,” “possible,” “potential,” “predict,” “project” words, phrases or expressions. These statements should be used with caution and are subject to various risks and uncertainties, many of which are outside Eaton’s control. The following factors could cause actual results to differ materially from those in the forward-looking statements: unanticipated changes in the markets for the Company’s business segments; unanticipated downturns in business relationships with customers or their purchases from us; the availability of credit to customers and suppliers; competitive pressures on sales and pricing; increases in the cost of material and other production costs, or unexpected costs that cannot be recouped in product pricing; the introduction of competing technologies; unexpected technical or marketing difficulties; unexpected claims, charges, litigation or dispute resolutions; strikes or other labor unrest; the impact of acquisitions and divestitures; unanticipated difficulties integrating acquisitions; new laws and governmental regulations; interest rate changes; tax rate changes or exposure to additional income tax liability; stock market and currency fluctuations; and unanticipated deterioration of economic and financial conditions in the United States and around the world. Eaton does not assume any obligation to update these forward-looking statements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

There have been no material changes in exposures to market risk since December 31, 2012.

ITEM 4. CONTROLS AND PROCEDURES.

Pursuant to Rule 13a-15 under the Securities Exchange Act of 1934 (the Exchange Act), an evaluation was performed, under the supervision and with the participation of Eaton’s management, including Alexander M. Cutler, Principal Executive Officer, and Richard H. Fearon, Principal Financial Officer, of the effectiveness of the design and operation of Eaton’s disclosure controls and procedures. Based on that evaluation, management concluded that Eaton’s disclosure controls and procedures were effective as of March 31, 2013.

Disclosure controls and procedures are designed to ensure that information required to be disclosed in Eaton’s reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in Eaton’s reports filed under the Exchange Act is accumulated and communicated to management, including Eaton’s Principal Executive Officer and Principal Financial Officer, to allow timely decisions regarding required disclosure.

There were no changes in Eaton’s internal control over financial reporting that materially affected, or is reasonably likely to materially affect, Eaton’s internal control over financial reporting.

PART II — OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

Information regarding the Company's current legal proceedings is presented in Note 7 and Note 8 of the Notes to the Condensed Consolidated Financial Statements.

ITEM 1A. RISK FACTORS.

“Item 1A. Risk Factors” in Eaton's 2012 Form 10-K includes a discussion of the Company's risk factors. There have been no material changes from the risk factors described in the 2012 Form 10-K.

ITEM 6. EXHIBITS.

Exhibits — See Exhibit Index attached.
