BIG 5 SPORTING GOODS CORPORATION

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(1) Description of Business

Big 5 Sporting Goods Corporation (the “Company”) is a leading sporting goods retailer in the western United States, operating 436 stores and an e-commerce platform as of September 30, 2018. The Company provides a full-line product offering in a traditional sporting goods store format that averages approximately 11,000 square feet. The Company’s product mix includes athletic shoes, apparel and accessories, as well as a broad selection of outdoor and athletic equipment for team sports, fitness, camping, hunting, fishing, tennis, golf, winter and summer recreation and roller sports. The Company is a holding company that operates as one reportable segment through Big 5 Corp., its 100%-owned subsidiary, and Big 5 Services Corp., which is a 100%-owned subsidiary of Big 5 Corp. Big 5 Services Corp. provides a centralized operation for the issuance and administration of gift cards.

The accompanying interim unaudited condensed consolidated financial statements (“Interim Financial Statements”) of the Company and its 100%-owned subsidiaries have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and are presented in accordance with the requirements of Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, these Interim Financial Statements do not include all of the information and notes required by GAAP for complete financial statements. These Interim Financial Statements should be read in conjunction with the consolidated financial statements and notes thereto for the fiscal year ended December 31, 2017 included in the Company’s Annual Report on Form 10-K. In the opinion of management, the Interim Financial Statements included herein contain all adjustments, including normal recurring adjustments, considered necessary to present fairly the Company’s financial position, the results of operations and cash flows for the periods presented.

The operating results and cash flows of the interim periods presented herein are not necessarily indicative of the results to be expected for any other interim period or the full year.

(2) Summary of Significant Accounting Policies

Consolidation

The accompanying Interim Financial Statements include the accounts of Big 5 Sporting Goods Corporation, Big 5 Corp. and Big 5 Services Corp. Intercompany balances and transactions have been eliminated in consolidation.

Reporting Period

The Company follows the concept of a 52-53 week fiscal year, which ends on the Sunday nearest December 31. Fiscal year 2018 is comprised of 52 weeks and ends on December 30, 2018. Fiscal year 2017 was comprised of 52 weeks and ended on December 31, 2017. The fiscal interim periods in fiscal 2018 and 2017 are each comprised of 13 weeks.

Recently Adopted Accounting Updates

In May 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2014-09, Revenue from Contracts with Customers (Topic 606), which was further clarified and amended in 2015 and 2016 and supersedes most preexisting revenue recognition guidance with a comprehensive new revenue recognition model. The core principle is that an entity recognizes revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The guidance also requires disclosures regarding the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. The Company adopted this standard on January 1, 2018 using the modified retrospective approach. Further disclosures relative to the adoption of this standard are provided in the Revenue Recognition policy section of this Note 2 to the Interim Financial Statements.

BIG 5 SPORTING GOODS CORPORATION

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(continued)

Recently Issued Accounting Updates

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842), which requires lessees to recognize on the balance sheet assets and liabilities for leases with lease terms of more than 12 months. Consistent with current GAAP, the recognition, measurement, and presentation of expenses and cash flows arising from a lease by a lessee will depend primarily on its classification as a finance or operating lease. However, unlike current GAAP—which requires only capital leases to be recognized on the balance sheet—the new ASU will require both types of leases to be recognized on the balance sheet. The ASU will take effect for public companies for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. This ASU can be applied at the beginning of the earliest period presented using the modified retrospective approach, which includes certain practical expedients that an entity may elect to apply, including an election to use certain transition relief. In July 2018, the FASB issued ASU No. 2018-10, Codification Improvements to Topic 842, Leases and ASU No. 2018-11, Leases (Topic 842): Targeted Improvements, which make improvements to Accounting Standards Codification (“ASC”) 842 and allow entities to not restate comparative periods in transition to ASC 842 and instead report the comparative periods under ASC 840. The Company plans to adopt this standard using the modified retrospective approach in the first quarter of fiscal 2019, coinciding with the standard’s effective date. While the Company is still evaluating this ASU and related updates, the Company has determined that the primary impact will be to recognize on the balance sheet material right-of-use assets and material lease obligations for all leases with lease terms greater than 12 months. The Company’s project team is finalizing the implementation of a new lease administration and accounting software. As part of this implementation, the project team is developing and mapping new and existing controls in the context of the Company’s control environment. In addition, the project team continues to evaluate the practical expedients offered and enhanced disclosures required in the ASU, as well as to identify arrangements that contain embedded leases, among other activities, to account for this standard upon adoption.

In August 2018, the FASB issued ASU No. 2018-13, Fair Value Measurements (Topic 820): Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement. This standard removes, modifies, and adds certain disclosure requirements for fair value measurements. This pronouncement is effective for fiscal years, and for interim periods within those fiscal years, beginning after December 15, 2019, with early adoption permitted. While the Company is currently in the process of evaluating the effects of this standard on its consolidated financial statements, the Company plans to adopt ASU No. 2018-13 in the first quarter of fiscal 2020, coinciding with the standard’s effective date, and expects the impact from this standard to be immaterial.

In August 2018, the FASB issued ASU No. 2018-15, Intangibles—Goodwill and Other—Internal-Use Software (Subtopic 350-40): Customer’s Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement That Is a Service Contract. This standard aligns the requirements for capitalizing implementation costs incurred in a hosting arrangement that is a service contract with the requirements for capitalizing implementation costs incurred to develop or obtain internal-use software (and hosting arrangements that include an internal-use software license). The Company’s accounting for the service element of a hosting arrangement that is a service contract is not affected by the proposed amendments and will continue to be expensed as incurred in accordance with existing guidance. This standard does not expand on existing disclosure requirements except to require a description of the nature of hosting arrangements that are service contracts. This standard is effective for fiscal years, and for interim periods within those fiscal years, beginning after December 15, 2019. Early adoption is permitted, including adoption in any interim period for which financial statements have not been issued. Entities can choose to adopt the new guidance prospectively or

retrospectively. Except for the updated disclosure requirements, the Company's current accounting for the service element of a hosting arrangement that is a service contract is consistent with the prescribed treatment in this standard. The Company plans to adopt ASU No. 2018-15 prospectively in the first quarter of fiscal 2020, coinciding with the standard's effective date, and expects the impact from this standard to be immaterial.

Other recently issued accounting updates are not expected to have a material impact on the Company's consolidated financial statements.

Use of Estimates

Management has made a number of estimates and assumptions relating to the reporting of assets, liabilities and stockholders' equity and the disclosure of contingent assets and liabilities as of the date of the Interim Financial Statements and reported amounts of revenue and expense during the reporting period to prepare these Interim Financial Statements in conformity with GAAP. Certain items subject to such estimates and assumptions include the carrying amount of merchandise inventories, and property and equipment; valuation allowances for receivables, sales returns and deferred income tax assets; estimates related to gift cards and returned merchandise credits (collectively, "stored-value cards") and the valuation of share-based compensation awards; and obligations related to litigation, self-insurance liabilities and employee benefits. Actual results could differ significantly from these estimates under different assumptions and conditions.

BIG 5 SPORTING GOODS CORPORATION

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(continued)

Revenue Recognition

On January 1, 2018, the Company adopted ASC 606, Revenue from Contracts with Customers, using the modified retrospective approach for all contracts not completed as of the date of adoption. Results for the reporting periods beginning on January 1, 2018 are presented under ASC 606, while prior period amounts are not adjusted and continue to be reported in accordance with accounting under ASC 605, Revenue Recognition. As a result of adopting ASC 606, the Company recorded an increase to retained earnings of \$0.6 million, net of tax, as of January 1, 2018, due to the cumulative effect related to the change in accounting for stored-value card breakage. In addition, the Company recorded estimated right-of-return merchandise cost of \$1.3 million related to estimated sales returns, with a corresponding increase to the sales return reserve recorded in accrued expenses; and revenues related to online sales were recognized upon shipment rather than delivery to the customer, with the cumulative effect related to this change determined to be immaterial.

The Company operates solely as a sporting goods retailer, which includes both retail stores and an e-commerce platform, that offers a broad range of products in the western United States and online. Generally, all revenues are recognized when control of the promised goods is transferred to customers, in an amount that reflects the consideration in exchange for those goods. Accordingly, the Company implicitly enters into a contract with customers to deliver merchandise inventory at the point of sale. Collectibility is reasonably assured since the Company only extends immaterial credit purchases to certain municipalities and local school districts.

As noted in the segment information in the notes to the consolidated financial statements of the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2017 and Note 1 to these Interim Financial Statements, the Company's business consists of one reportable segment. In accordance with ASC 606, the Company disaggregates net sales into the following major merchandise categories to depict the nature and amount of revenue and related cash flows:

	13 Weeks Ended		39 Weeks Ended	
	September 30,	October 1,	September 30,	October 1,
	2018	2017	2018	2017
	(In thousands)			
Hard goods	\$145,822	\$147,525	\$379,288	\$391,236
Athletic and sport apparel	45,111	44,425	146,147	151,503
Athletic and sport footwear	74,128	77,124	210,679	219,095
Other sales	1,290	1,397	4,366	4,912
Net sales	\$266,351	\$270,471	\$740,480	\$766,746

Substantially all of the Company's revenue is for single performance obligations for the following distinct items:

Retail store sales
E-commerce sales
Stored-value cards

For performance obligations related to retail store and e-commerce sales contracts, the Company typically transfers control, for retail stores, upon consummation of the sale when the product is paid for and taken by the customer and, for e-commerce sales, when the product is tendered for delivery to the common carrier. For performance obligations related to stored-value cards, the Company typically transfers control at a point in time upon redemption of the stored-value card through consummation of a future sales transaction.

The transaction price for each contract is the stated price on the product, reduced by any stated discounts at that point in time. The Company does not engage in sales of products that attach a future material right which could result in a separate performance obligation for the purchase of goods in the future at a material discount. The implicit point-of-sale contract with the customer, as reflected in the transaction receipt, states the final terms of the sale, including the description, quantity, and price of each product purchased. Payment for the Company's contracts is due in full upon delivery. The customer agrees to a stated price implicit in the contract.

BIG 5 SPORTING GOODS CORPORATION

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(continued)

The transaction price relative to sales subject to a right of return reflects the amount of estimated consideration to which the Company expects to be entitled. This amount of variable consideration included in the transaction price, and measurement of net sales, is included in net sales only to the extent that it is probable that there will be no significant reversal in a future period. Actual amounts of consideration ultimately received may differ from the Company's estimates. There were no material adjustments to the Company's previous estimates. The allowance for sales returns is estimated based upon historical experience and a provision for estimated returns is recorded as a reduction in sales in the relevant period. The estimated right-of-return merchandise cost related to the sales returns is recorded as prepaid expense in the Company's interim unaudited condensed consolidated balance sheet as of September 30, 2018. If actual results in the future vary from the Company's estimates, the Company adjusts these estimates, which would affect net sales and earnings in the period such variances become known.

The Company has elected to apply the practical expedient, relative to e-commerce sales, which allows an entity to account for shipping and handling as fulfillment activities, and not a separate performance obligation. Accordingly, the Company recognizes revenue for only one performance obligation, the sale of the product, at shipping point (when the customer gains control). Revenue associated with e-commerce sales is not material.

Contract liabilities are recognized primarily for stored-value card sales. Cash received from the sale of stored-value cards is recorded as a contract liability in accrued expenses, and the Company recognizes revenue upon the customer's redemption of the stored-value card. Stored-value card breakage is recognized as revenue in proportion to the pattern of customer redemptions by applying a historical breakage rate of five percent. The Company does not sell or provide stored-value cards that carry expiration dates.

The Company recognized approximately \$1.6 million and \$5.5 million in stored-value card redemption revenue for the 13 and 39 weeks ended September 30, 2018, respectively, and \$1.6 million and \$5.6 million for the 13 and 39 weeks ended October 1, 2017, respectively. The Company also recognized approximately \$83,000 and \$289,000 in stored-value card breakage revenue for the 13 and 39 weeks ended September 30, 2018, respectively, compared to approximately \$111,000 and \$334,000 in stored-value card breakage revenue for the 13 and 39 weeks ended October 1, 2017, respectively. The Company had outstanding stored-value card liabilities of \$5.5 million and \$7.4 million as of September 30, 2018 and December 31, 2017, respectively, which are included in accrued expenses. Stored-value card redemption and breakage revenue for the 13 and 39 weeks ended September 30, 2018 and stored-value card liability as of September 30, 2018 reported under ASC 606 were not materially different from amounts that would have been reported under the previous revenue guidance of ASC 605. The Company will continue to monitor future quarters for materiality. Based upon historical experience, stored-value cards are predominantly redeemed in the first two years following their issuance date.

The Company recorded, as prepaid expense, estimated right-of-return merchandise cost of \$0.9 million related to estimated sales returns and recorded, as accrued expense, an allowance for sales returns reserve of \$1.6 million as of September 30, 2018 under ASC 606, which would have been reported as a net liability of \$0.7 million with no estimated right-of-return merchandise cost recorded as of September 30, 2018 under ASC 605.

Share-Based Compensation

The Company accounts for share-based compensation in accordance with ASC 718, Compensation—Stock Compensation. The Company recognizes compensation expense on a straight-line basis over the requisite service period using the fair-value method for share option awards, nonvested share awards and nonvested share unit awards granted with service-only conditions. See Note 10 to the Interim Financial Statements for a further discussion on share-based compensation.

Valuation of Merchandise Inventories, Net

The Company's merchandise inventories are made up of finished goods and are valued at the lower of cost or net realizable value using the weighted-average cost method, which approximates the first-in, first-out ("FIFO") method. Average cost includes the direct purchase price of merchandise inventory, net of certain vendor allowances and cash discounts, in-bound freight-related expense and allocated overhead expense associated with the Company's distribution center.

Management regularly reviews inventories and records valuation reserves for damaged and defective merchandise, merchandise items with slow-moving or obsolescence exposure and merchandise that has a carrying value that exceeds net realizable value. Because of its merchandise mix, the Company has not historically experienced significant occurrences of obsolescence.

BIG 5 SPORTING GOODS CORPORATION

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(continued)

Inventory shrinkage is accrued as a percentage of merchandise sales based on historical inventory shrinkage trends. The Company performs physical inventories of its stores at least once per year and cycle counts inventories at its distribution center throughout the year. The reserve for inventory shrinkage primarily represents an estimate for inventory shrinkage for each store since the last physical inventory date through the reporting date.

These reserves are estimates, which could vary significantly, either favorably or unfavorably, from actual results if future economic conditions, consumer demand and competitive environments differ from expectations.

Valuation of Long-Lived Assets

The Company reviews long-lived assets for recoverability whenever events or changes in circumstances indicate that the carrying amount of an asset may be impaired.

Long-lived assets are reviewed for recoverability at the lowest level in which there are identifiable cash flows ("asset group"), usually at the store level. Each store typically requires net investments of approximately \$0.5 million in long-lived assets to be held and used, subject to recoverability testing. The carrying amount of an asset group is not considered recoverable if it exceeds the sum of the undiscounted cash flows expected to result from the use and eventual disposition of the asset group. If the asset group is determined not to be recoverable, then an impairment charge will be recognized in the amount by which the carrying amount of the asset group exceeds its fair value, determined using discounted cash flow valuation techniques, as defined in ASC 360, Property, Plant, and Equipment.

The Company determines the sum of the undiscounted cash flows expected to result from the asset group by projecting future revenue, gross margin and operating expense for each store under evaluation for impairment. The estimates of future cash flows involve management judgment and are based upon assumptions about expected future operating performance. Assumptions used in these forecasts are consistent with internal planning, and include assumptions about sales growth rates, gross margins and operating expense in relation to the current economic environment and future expectations, competitive factors in the various markets and inflation. The actual cash flows could differ from management's estimates due to changes in business conditions, operating performance and economic conditions.

The Company recognized no impairment charges in the first nine months of fiscal 2018 or 2017.

Leases and Deferred Rent

The Company accounts for its leases under the provisions of ASC 840, Leases.

The Company evaluates and classifies its leases as either operating or capital leases for financial reporting purposes. Operating lease commitments consist principally of leases for the Company's retail store facilities, distribution center, corporate office, IT systems hardware and distribution center delivery tractors. Capital lease obligations consist principally of leases for some of the Company's IT systems hardware.

Certain of the leases for the Company's retail store facilities provide for payments based on future sales volumes at the leased location, which are not measurable at the inception of the lease. These contingent rents are expensed as they

accrue.

Deferred rent represents the difference between rent paid and the amounts expensed for operating leases. Certain leases have scheduled rent increases, and certain leases include an initial period of free or reduced rent as an inducement to enter into the lease agreement (“rent holidays”). The Company recognizes rent expense for rent increases and rent holidays on a straight-line basis over the term of the underlying leases, without regard to when rent payments are made. The calculation of straight-line rent begins on the possession date and extends through the “reasonably assured” lease term as defined in ASC 840 and may exceed the initial non-cancelable lease term.

Landlord allowances for tenant improvements, or lease incentives, are recorded as deferred rent and amortized on a straight-line basis over the “reasonably assured” lease term as a component of rent expense.

The Company evaluates its leases relative to asset retirement obligations, and determined these amounts to be immaterial.

BIG 5 SPORTING GOODS CORPORATION

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(continued)

(3) Fair Value Measurements

The carrying values of cash, accounts receivable, accounts payable and accrued expenses approximate the fair values of these instruments due to their short-term nature. The carrying amount for borrowings under the revolving credit facility approximates fair value because of the variable market interest rate charged to the Company for these borrowings. When the Company recognizes impairment on certain of its underperforming stores, the carrying values of these stores' assets are reduced to their estimated fair values.

(4) Accrued Expenses

The major components of accrued expenses are as follows:

	September 30,	December 31,
	2018	2017
	(In thousands)	
Payroll and related expense	\$ 20,961	\$ 23,670
Occupancy expense	11,462	10,005
Sales tax	7,581	9,674
Other	21,471	24,877
Accrued expenses	\$ 61,475	\$ 68,226

(5) Long-Term Debt

On October 18, 2010, the Company, Big 5 Corp. and Big 5 Services Corp. entered into a credit agreement with Wells Fargo Bank, National Association ("Wells Fargo"), as administrative agent, and a syndicate of other lenders, which was amended on October 31, 2011 and December 19, 2013 (as so amended, the "Credit Agreement"). On September 29, 2017, the parties amended certain provisions of the Credit Agreement (such amendment, the "Third Amendment"), as further discussed below. The amendment represented a modification and resulted in the payment and capitalization of \$0.2 million in deferred financing fees.

The Credit Agreement provides for a revolving credit facility (the "Credit Facility") with an aggregate committed availability of up to \$140.0 million, which amount may be increased at the Company's option up to a maximum of \$165.0 million. The Company may also request additional increases in aggregate availability, up to a maximum of \$200.0 million, in which case the existing lenders under the Credit Agreement will have the option to increase their commitments to accommodate the requested increase. If such existing lenders do not exercise that option, the

Company may (with the consent of Wells Fargo, not to be unreasonably withheld) seek other lenders willing to provide such commitments. The Third Amendment includes a provision which permits the Company to elect to reduce the aggregate committed availability under the Credit Agreement to \$100.0 million for a three-month period each calendar year. Prior to the Third Amendment, the Credit Facility included a \$50.0 million sublimit for issuances of letters of credit. The Third Amendment reduced the letter of credit sublimit to \$25.0 million. The Credit Facility includes a \$20.0 million sublimit for swingline loans.

The Company may borrow under the Credit Facility from time to time, provided the amounts outstanding will not exceed the lesser of the then aggregate availability (as discussed above) and the Borrowing Base (such lesser amount being referred to as the "Loan Cap"). The "Borrowing Base" generally is comprised of the sum, at the time of calculation, of (a) 90.00% of eligible credit card receivables; plus (b) the cost of eligible inventory (other than eligible in-transit inventory), net of inventory reserves, multiplied by 90.00% of the appraised net orderly liquidation value of eligible inventory (expressed as a percentage of the cost of eligible inventory); plus (c) the lesser of (i) the cost of eligible in-transit inventory, net of inventory reserves, multiplied by 90.00% of the appraised net orderly liquidation value of eligible in-transit inventory (expressed as a percentage of the cost of eligible in-transit inventory), or (ii) \$10.0 million, minus (d) certain reserves established by Wells Fargo in its role as the Administrative Agent in its reasonable discretion.

BIG 5 SPORTING GOODS CORPORATION

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(continued)

Generally, the Company may designate specific borrowings under the Credit Facility as either base rate loans or LIBO rate loans. The applicable interest rate on the Company's borrowings is a function of the daily average, over the preceding fiscal quarter, of the excess of the Loan Cap over amounts borrowed (such amount being referred to as the "Average Daily Availability"). Prior to the Third Amendment, those loans designated as LIBO rate loans bore interest at a rate equal to the then applicable LIBO rate plus an applicable margin as shown in the table below. Those loans designated as base rate loans bore interest at a rate equal to the applicable margin for base rate loans (as shown below) plus the highest of (a) the Federal funds rate, as in effect from time to time, plus one-half of one percent (0.50%), (b) the LIBO rate, as adjusted to account for statutory reserves, plus one percent (1.00%), or (c) the rate of interest in effect for such day as publicly announced from time to time by Wells Fargo as its "prime rate." Prior to the Third Amendment, the applicable margin for all loans under the existing Credit Agreement was as set forth below as a function of Average Daily Availability for the preceding fiscal quarter.

		LIBO Rate	Base Rate
Level	Average Daily Availability	Applicable Margin	Applicable Margin
I	Greater than or equal to \$100,000,000	1.25%	0.25%
II	Less than \$100,000,000 but greater than or equal to \$40,000,000	1.50%	0.50%
III	Less than \$40,000,000	1.75%	0.75%

Prior to the Third Amendment, the commitment fee assessed on the unused portion of the Credit Facility was 0.25% per annum.

After giving effect to the Third Amendment, those loans designated as LIBO rate loans bear interest at a rate equal to the applicable adjusted LIBO rate plus an applicable margin as shown in the table below. Those loans designated as base rate loans bear interest at a rate equal to the applicable margin for base rate loans (as shown below) plus the highest of (a) the Federal funds rate, as in effect from time to time, plus one-half of one percent (0.50%), (b) the LIBO rate, plus one percentage point (1.00%), or (c) the rate of interest in effect for such day as announced from time to time within Wells Fargo as its "prime rate." The applicable margin for all loans are a function of Average Daily Availability for the preceding fiscal quarter as set forth below.

		LIBO Rate	Base Rate
Level	Average Daily Availability	Applicable Margin	Applicable Margin
I	Greater than or equal to \$70,000,000	1.25%	0.25%

II	Less than \$70,000,000	1.375%	0.50%
----	------------------------	--------	-------

After giving effect to the Third Amendment, the commitment fee assessed on the unused portion of the Credit Facility is 0.20% per annum.

Obligations under the Credit Facility are secured by a general lien and perfected security interest in substantially all of the Company's assets. The Credit Agreement contains covenants that require the Company to maintain a fixed charge coverage ratio of not less than 1.0:1.0 in certain circumstances, and limit the ability to, among other things, incur liens, incur additional indebtedness, transfer or dispose of assets, change the nature of the business, guarantee obligations, pay dividends or make other distributions or repurchase stock, and make advances, loans or investments. The Company may declare or pay cash dividends or repurchase stock only if, among other things, no default or event of default then exists or would arise from such dividend or repurchase of stock and, after giving effect to such dividend or repurchase, certain availability and/or fixed charge coverage ratio requirements are satisfied. The Credit Agreement contains customary events of default, including, without limitation, failure to pay when due principal amounts with respect to the Credit Facility, failure to pay any interest or other amounts under the Credit Facility for five days after becoming due, failure to comply with certain agreements or covenants contained in the Credit Agreement, failure to satisfy certain judgments against the Company, failure to pay when due (or any other default which does or may lead to the acceleration of) certain other material indebtedness in principal amount in excess of \$5.0 million, and certain insolvency and bankruptcy events.

The Third Amendment extended the maturity date of the Credit Agreement from December 19, 2018 to September 29, 2022. As of September 30, 2018, the Company had long-term revolving credit borrowings of \$83.5 million and letter of credit commitments of \$0.4 million outstanding, compared with borrowings of \$45.0 million and letter of credit commitments of \$0.5 million as of December 31, 2017. Total remaining borrowing availability, after subtracting letters of credit, was \$56.1 million and \$94.5 million as of September 30, 2018 and December 31, 2017, respectively.

BIG 5 SPORTING GOODS CORPORATION

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(continued)

(6)Income Taxes

Under the asset and liability method prescribed under ASC 740, Income Taxes, the Company recognizes deferred tax assets and liabilities for the future tax consequences attributable to differences between financial statement carrying amounts of assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be realized or settled. The effect of a change in tax rates on deferred tax assets and liabilities is recognized in income in the period that includes the enactment date. The realizability of deferred tax assets is assessed throughout the year and a valuation allowance is recorded if necessary to reduce net deferred tax assets to the amount more likely than not to be realized. As of September 30, 2018 and December 31, 2017, the Company had a valuation allowance for deferred income tax assets of \$0.9 million related to unused California Enterprise Zone Tax Credits, which the Company will no longer be able to carry forward beyond 2024 as a result of California's termination of this program.

The Company files a consolidated federal income tax return and files tax returns in various state and local jurisdictions. The statutes of limitations for consolidated federal income tax returns are open for fiscal years 2015 and after, and state and local income tax returns are open for fiscal years 2013 and after.

The provision for income taxes for the 39 weeks ended September 30, 2018 reflects the write-off of deferred tax assets of \$0.2 million related to share-based compensation.

As of September 30, 2018 and December 31, 2017, the Company had no unrecognized tax benefits including those that, if recognized, would affect the Company's effective income tax rate over the next 12 months. The Company's policy is to recognize interest accrued related to unrecognized tax benefits in interest expense and penalties in operating expense. As of September 30, 2018 and December 31, 2017, the Company had no accrued interest or penalties.

(7)Earnings Per Share

The Company calculates earnings per share in accordance with ASC 260, Earnings Per Share, which requires a dual presentation of basic and diluted earnings per share. Basic earnings per share is calculated by dividing net income by the weighted-average shares of common stock outstanding, reduced by shares repurchased and held in treasury, during the period. Diluted earnings per share represents basic earnings per share adjusted to include the dilutive effect of outstanding share option awards, nonvested share awards and nonvested share unit awards.

The following table sets forth the computation of basic and diluted earnings per common share:

13 Weeks Ended		39 Weeks Ended	
September	October	September	October
30,	1,	30,	1,

Edgar Filing: BIG 5 SPORTING GOODS Corp - Form 10-Q

	2018	2017	2018	2017
	(In thousands, except per share data)			
Net income	\$3,115	\$5,950	\$1,558	\$14,054
Weighted-average shares of common stock outstanding:				
Basic	20,990	21,324	20,972	21,584
Dilutive effect of common stock equivalents arising				
from share option, nonvested share and nonvested				
share unit awards	10	31	49	168
Diluted	21,000	21,355	21,021	21,752
Basic earnings per share	\$0.15	\$0.28	\$0.07	\$0.65
Diluted earnings per share	\$0.15	\$0.28	\$0.07	\$0.65
Antidilutive share option awards excluded				
from diluted calculation	316	64	268	90
Antidilutive nonvested share and nonvested share unit				
awards excluded from diluted calculation	466	381	239	135

BIG 5 SPORTING GOODS CORPORATION

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(continued)

The computation of diluted earnings per share for the 13 and 39 weeks ended September 30, 2018 and October 1, 2017 excludes share option awards that were outstanding and antidilutive (i.e., including such share option awards would result in higher earnings per share), since the exercise prices of these share option awards exceeded the average market price of the Company's common shares. Additionally, the computation of diluted earnings per share for the periods presented excludes nonvested share awards and nonvested share unit awards that were outstanding and antidilutive, since the grant date fair values of these nonvested share awards and nonvested share unit awards exceeded the average market price of the Company's common shares.

(8) Related Party Transaction

In the third quarter of fiscal 2017, the Company recorded approximately \$0.1 million related to the net recovery of short-swing profits under Section 16(b) of the Securities Exchange Act of 1934, as amended. The Company recognized these related party proceeds, net of \$0.2 million of related legal fees and taxes, as an increase to additional paid-in capital in the accompanying interim unaudited condensed consolidated balance sheet as of October 1, 2017, as well as cash proceeds of approximately \$0.3 million as cash provided by financing activities in the accompanying interim unaudited condensed consolidated statement of cash flows for the 39 weeks ended October 1, 2017.

(9) Commitments and Contingencies

As disclosed in previous filings, in November 2017 the Company entered into an amendment to a lease for a parcel of land with an existing building adjacent to its corporate headquarters location, including a parking lot currently used by the Company (the "premises"), concurrently with entering into a purchase and sale agreement. Pursuant to the purchase and sale agreement, the Company had the right to purchase the premises for \$4.5 million. The purchase and sale agreement's due diligence period expired on March 2, 2018, and in connection therewith, the Company paid an escrow deposit of \$300,000 applied towards the purchase price of the property. The closing of the sale was scheduled to occur on or before November 27, 2018, subject to seller's right to elect an earlier closing date. On October 11, 2018, the Company completed the purchase of the premises for \$4.5 million and terminated the lease concurrently therewith.

The Company is involved in various claims and legal actions arising in the ordinary course of business. In the opinion of management, the ultimate disposition of these matters is not expected to have a material adverse effect on the Company's results of operations or financial condition.

(10) Share-based Compensation

At its discretion, the Company grants share option awards, nonvested share awards and nonvested share unit awards to certain employees, as defined by ASC 718, Compensation—Stock Compensation, under the Company’s 2007 Equity and Performance Incentive Plan, as amended and restated in April 2011 and April 2016 (the “Amended 2007 Plan”), and accounts for its share-based compensation in accordance with ASC 718. The Company recognized \$0.5 million and \$1.7 million in share-based compensation expense for the 13 and 39 weeks ended September 30, 2018, respectively, compared to \$0.6 million and \$1.8 million in share-based compensation expense recognized for the 13 and 39 weeks ended October 1, 2017, respectively.

Share Option Awards

Share option awards granted by the Company generally vest and become exercisable in four equal annual installments of 25% per year with a maximum life of ten years. The exercise price of share option awards is equal to the quoted market price of the Company’s common stock on the date of grant. In the first nine months of fiscal 2018, the Company granted 254,900 share option awards with a weighted-average grant-date fair value of \$1.23 per option. No share option awards were granted in the first nine months of fiscal 2017.

BIG 5 SPORTING GOODS CORPORATION

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(continued)

A summary of the status of the Company's share option awards is presented below:

		Weighted- Average Exercise Price	Weighted- Average Remaining Life (In Years)	Aggregate Intrinsic Value
	Shares	Price	(In Years)	Value
Outstanding at December 31, 2017	144,293	\$ 10.11		
Granted	254,900	6.22		
Exercised	(6,564)	4.82		
Forfeited or Expired	(25,819)	9.50		
Outstanding at September 30, 2018	366,810	\$ 7.55	7.33	\$ 14,185
Exercisable at September 30, 2018	112,535	\$ 10.37	2.68	\$ 14,185
Vested and Expected to Vest at September 30, 2018	359,164	\$ 7.58	7.29	\$ 14,185

The aggregate intrinsic value in the preceding table represents the total pretax intrinsic value, based upon the Company's most recent closing stock price of \$5.10 as of September 30, 2018, which would have been received by the option holders had all option holders exercised their option awards as of that date.

The total intrinsic value of share option awards exercised for the 39 weeks ended September 30, 2018 and October 1, 2017 was approximately \$10,000 and \$79,000, respectively. The total cash received from employees as a result of employee share option award exercises for the 39 weeks ended September 30, 2018 and October 1, 2017 was approximately \$31,000 and \$67,000, respectively. The actual tax benefit realized for the tax deduction from share option award exercises of share-based compensation awards in the 39 weeks ended September 30, 2018 and October 1, 2017 totaled \$3,000 and \$31,000, respectively.

The fair value of each share option award on the date of grant is estimated using the Black-Scholes method based on the following weighted-average assumptions:

39 Weeks Ended	
September 30,	October 1,
2018	2017

Risk-free interest rate	2.6 %	—
	5.1	
Expected term	years	—
Expected volatility	48.0 %	—
Expected dividend yield	9.5 %	—

The risk-free interest rate is based on the U.S. Treasury yield curve in effect at the time of grant for periods corresponding with the expected term of the option award; the expected term represents the weighted-average period of time that option awards granted are expected to be outstanding giving consideration to vesting schedules and historical participant exercise behavior; the expected volatility is based upon historical volatility of the Company's common stock; and the expected dividend yield is based upon the Company's current dividend rate.

As of September 30, 2018, there was \$0.3 million of total unrecognized compensation expense related to nonvested share option awards granted. That expense is expected to be recognized over a weighted-average period of 3.4 years.

Nonvested Share Awards and Nonvested Share Unit Awards

Nonvested share awards and nonvested share unit awards granted by the Company vest for employees from the date of grant in four equal annual installments of 25% per year. Nonvested share awards and nonvested share unit awards granted by the Company to non-employee directors for their service as directors, as defined by ASC 718, vest 100% on the earlier of (a) the date of the Company's next annual stockholders meeting following the grant date or (b) the first anniversary of the grant date.

BIG 5 SPORTING GOODS CORPORATION

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(continued)

Nonvested share awards are delivered to the recipient upon their vesting. With respect to nonvested share unit awards, vested shares, including any dividend reinvestments, will be delivered to the recipient on the tenth business day of January following the year in which the recipient's service to the Company is terminated. The total fair value of nonvested share awards which vested during the first nine months of fiscal 2018 and 2017 was \$1.0 million and \$2.0 million, respectively. The total fair value of nonvested share unit awards which vested during the first nine months of fiscal 2018 and 2017 was \$0.3 million and \$0.3 million, respectively.

The Company granted 213,062 and 191,000 nonvested share awards in the first nine months of fiscal 2018 and 2017, respectively. The weighted-average grant-date fair value per share of the Company's nonvested share awards granted in the first nine months of fiscal 2018 and 2017 was \$6.99 and \$14.88, respectively.

A summary of the status of the Company's nonvested share awards is presented below:

	Shares	Weighted-Average Grant-Date Fair Value
Balance at December 31, 2017	377,035	\$ 13.61
Granted	213,062	6.99
Vested	(144,205)	13.66
Forfeited	(7,420)	11.42
Balance at September 30, 2018	438,472	\$ 10.42

To satisfy employee minimum statutory tax withholding requirements for nonvested share awards that vest, the Company withholds and retires a portion of the vesting common shares, unless an employee elects to pay cash. In the first nine months of fiscal 2018, the Company withheld 53,343 common shares with a total value of \$0.4 million. This amount is presented as a cash outflow from financing activities in the accompanying interim unaudited condensed consolidated statement of cash flows.

The Company granted 34,884 and 21,000 nonvested share unit awards in the first nine months of fiscal 2018 and 2017, respectively. The weighted-average grant-date fair value of the Company's nonvested share unit awards granted in the first nine months of fiscal 2018 and 2017 was \$8.60 and \$13.90, respectively.

A summary of the status of the Company's nonvested share unit awards is presented below:

Units Weighted-

		Average Grant-	Date Fair Value
Balance at December 31, 2017	23,250		\$ 12.82
Granted	34,884		8.60
Vested	(23,250)		13.71
Forfeited	(8,721)		8.60
Balance at September 30, 2018	26,163		\$ 7.81

As of September 30, 2018, there was \$3.5 million and \$0.2 million of total unrecognized compensation expense related to nonvested share awards and nonvested share unit awards, respectively. That expense is expected to be recognized over a weighted-average period of 2.5 years and 0.7 years for nonvested share awards and nonvested share unit awards, respectively.

(11) Subsequent Event

On October 11, 2018, the Company completed the purchase of a previously-leased parcel of land located adjacent to its corporate headquarters, which includes a parking lot currently used by the Company and an existing building, for \$4.5 million.

In the fourth quarter of fiscal 2018, the Company's Board of Directors declared a quarterly cash dividend of \$0.05 per share of outstanding common stock, which will be paid on December 14, 2018 to stockholders of record as of November 30, 2018.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Stockholders and the Board of Directors of
Big 5 Sporting Goods Corporation
El Segundo, California

Results of Review of Interim Financial Information

We have reviewed the accompanying condensed consolidated balance sheet of Big 5 Sporting Goods Corporation and subsidiaries (the “Company”) as of September 30, 2018, the related condensed consolidated statements of operations for the 13 and 39 weeks ended September 30, 2018 and October 1, 2017, and of stockholders’ equity and cash flows for the 39 weeks ended September 30, 2018 and October 1, 2017, and the related notes (collectively referred to as the “interim financial information”). Based on our reviews, we are not aware of any material modifications that should be made to the accompanying interim financial information for it to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated balance sheet of the Company as of December 31, 2017, and the related consolidated statements of operations, stockholders’ equity, and cash flows for the year then ended (not presented herein); and in our report dated February 28, 2018, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of December 31, 2017, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

Basis for Review Results

This interim financial information is the responsibility of the Company's management. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our reviews in accordance with standards of the PCAOB. A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the PCAOB, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of the Big 5 Sporting Goods Corporation ("we," "our," "us") financial condition and results of operations includes information with respect to our plans and strategies for our business and should be read in conjunction with our interim unaudited condensed consolidated financial statements and related notes ("Interim Financial Statements") included herein and our consolidated financial statements, related notes, Risk Factors and Management's Discussion and Analysis of Financial Condition and Results of Operations contained in our Annual Report on Form 10-K for the fiscal year ended December 31, 2017.

Our fiscal year ends on the Sunday nearest December 31. Fiscal 2018 includes 52 weeks and ends on December 30, 2018. Fiscal 2017 included 52 weeks and ended on December 31, 2017. The fiscal interim periods in fiscal 2018 and 2017 are each comprised of 13 weeks.

Overview

We are a leading sporting goods retailer in the western United States, operating 436 stores and an e-commerce platform under the name "Big 5 Sporting Goods" as of September 30, 2018. We provide a full-line product offering in a traditional sporting goods store format that averages approximately 11,000 square feet. Our product mix includes athletic shoes, apparel and accessories, as well as a broad selection of outdoor and athletic equipment for team sports, fitness, camping, hunting, fishing, tennis, golf, winter and summer recreation and roller sports.

Throughout our history, we have emphasized controlled growth. The following table summarizes our store count for the periods presented:

	13 Weeks Ended October September 30, 2018		39 Weeks Ended October September 30, 2018	
	2018	2017	2018	2017
Beginning stores	435	433	435	432
New stores opened	1	—	3	2
Relocated stores opened	—	—	—	1
Stores closed	—	(1)	(1)	(2)
Relocated stores closed	—	—	(1)	(1)
Ending stores	436	432	436	432

For fiscal 2018, we anticipate opening four new stores and closing two stores.

Executive Summary

Our net income of \$3.1 million for the third quarter of fiscal 2018 decreased compared to net income of \$6.0 million for the third quarter of fiscal 2017 primarily due to the unfavorable impact of lower net sales and higher distribution and occupancy expense. Same store sales decreased 2.0% for the 13 weeks ended September 30, 2018, versus the comparable 13-week period in the prior year. This decrease in same store sales compares to a 2.7% decrease in same store sales for the third quarter of fiscal 2017.

Net sales for the third quarter of fiscal 2018 decreased 1.5% to \$266.4 million compared to \$270.5 million for the third quarter of fiscal 2017. The decrease in net sales was primarily attributable to a decrease in same store sales and a reduction in sales from closed stores, partially offset by added sales from new stores opened since July 2, 2017.

Same store sales for our major merchandise categories of footwear and hardgoods declined, partially offset by an increase in same store sales for our apparel category.

Gross profit for the third quarter of fiscal 2018 represented 31.0% of net sales, compared with 32.4% in the third quarter of the prior year. The decrease in gross profit margin resulted mainly from higher distribution and store occupancy expense as a percentage of net sales, as well as lower merchandise margins.

Selling and administrative expense for the third quarter of fiscal 2018 increased 0.4% to \$77.7 million, or 29.2% of net sales, compared to \$77.4 million, or 28.6% of net sales, for the third quarter of fiscal 2017. The increase in selling and administrative expense was primarily attributable to higher employee labor and benefit-related expense, partially offset by lower print advertising expense.

Net income for the third quarter of fiscal 2018 was \$3.1 million, or \$0.15 per diluted share, compared to net income of \$6.0 million, or \$0.28 per diluted share, for the third quarter of fiscal 2017. The lower earnings were driven primarily by lower net sales and higher distribution and store occupancy expense.

Operating cash flow for the first nine months of fiscal 2018 was a negative \$8.1 million compared to operating cash flow in the first nine months of fiscal 2017 of a negative \$5.6 million, due primarily to decreased net income, partially offset by reduced funding of merchandise inventory, smaller reductions in accrued expense largely related to income taxes and reductions in prepaid expense largely related to the timing of rent payments.

Capital expenditures for the first nine months of fiscal 2018 decreased to \$8.4 million from \$11.4 million for the first nine months of fiscal 2017.

The borrowings under our revolving credit facility were \$83.5 million as of September 30, 2018, compared with \$46.4 million as of October 1, 2017 and \$45.0 million as of December 31, 2017.

We paid cash dividends in the first nine months of fiscal 2018 of \$9.6 million, or \$0.45 per share, compared with \$9.8 million, or \$0.45 per share, in the first nine months of fiscal 2017.

Results of Operations

The results of the interim periods are not necessarily indicative of results for the entire fiscal year.

13 Weeks Ended September 30, 2018 Compared to 13 Weeks Ended October 1, 2017

The following table sets forth selected items from our interim unaudited condensed consolidated statements of operations by dollar and as a percentage of our net sales for the periods indicated:

	13 Weeks Ended			
	September 30,		October 1, 2017	
	2018			
	(Dollars in thousands)			
Net sales	\$266,351	100.0 %	\$270,471	100.0 %
Cost of sales ⁽¹⁾	183,852	69.0	182,923	67.6
Gross profit	82,499	31.0	87,548	32.4
Selling and administrative expense ⁽²⁾	77,680	29.2	77,358	28.6
Operating income	4,819	1.8	10,190	3.8
Interest expense	860	0.3	447	0.2
Income before income taxes	3,959	1.5	9,743	3.6
Income taxes	844	0.3	3,793	1.4
Net income	\$3,115	1.2 %	\$5,950	2.2 %

⁽¹⁾Cost of sales includes the cost of merchandise, net of discounts or allowances earned, freight, inventory reserves, buying, distribution center expense, including depreciation and amortization, and store occupancy expense. Store occupancy expense includes rent, amortization of leasehold improvements, common area maintenance, property taxes and insurance.

⁽²⁾Selling and administrative expense includes store-related expense, other than store occupancy expense, as well as advertising, depreciation and amortization, expense associated with operating our corporate headquarters and impairment charges, if any.

Net Sales. Net sales decreased by \$4.1 million, or 1.5%, to \$266.4 million in the third quarter of fiscal 2018 from \$270.5 million in the third quarter last year. The change in net sales reflected the following:

Same store sales decreased by \$5.4 million, or 2.0%, for the 13 weeks ended September 30, 2018, versus the comparable 13-week period in the prior year. This decrease in same store sales compares to a 2.7% decrease in same store sales for the third quarter of fiscal 2017. Same store sales in the third quarter of fiscal 2018 in our major merchandise categories of footwear and hardgoods declined, partially offset by an increase in same store sales for our apparel category. Hardgoods were negatively impacted primarily by lower demand for firearms and related products.

Same store sales for a period consist of sales for stores that operated throughout the period and the full corresponding prior-year period. Same store sales comparisons exclude sales from stores closed during the comparable periods. Beginning in fiscal 2018, we included sales from e-commerce in the same store sales calculation for both the current period and comparable prior year period. Sales from e-commerce in the third quarter of fiscal 2018 and 2017 were not material and had an insignificant effect on the percentage change in same store sales for the periods reported.

• Added sales from new stores opened since July 2, 2017 were partially offset by a reduction in sales from closed stores.

• We experienced decreased customer transactions and a higher average sale per transaction in the third quarter of fiscal 2018 compared to the same period last year.

Net and same store sales comparisons year over year reflected the favorable impact of a calendar shift of the July 4th holiday one day further into the third quarter this year.

Gross Profit. Gross profit decreased by \$5.0 million, or 5.7%, to \$82.5 million, or 31.0% of net sales, in the 13 weeks ended September 30, 2018, from \$87.5 million, or 32.4% of net sales, in the 13 weeks ended October 1, 2017. The change in gross profit was primarily attributable to the following:

Net sales decreased by \$4.1 million, or 1.5%, compared with the third quarter of last year.

Distribution expense, including costs capitalized into inventory, increased by \$1.7 million, or an unfavorable 73 basis points, in the third quarter of fiscal 2018 compared to the prior year. The increase reflected decreased costs capitalized into inventory and higher freight costs.

Store occupancy expense increased by \$0.8 million, or an unfavorable 42 basis points, year over year in the third quarter of fiscal 2018 due primarily to lease renewals for existing stores.

Merchandise margins, which exclude buying, occupancy and distribution expense, decreased by an unfavorable 10 basis points compared with the third quarter of last year when merchandise margins increased by a favorable 51 basis points. This decrease primarily reflected increased promotional activities, due in part to the calendar shift of the July 4th holiday.

Selling and Administrative Expense. Selling and administrative expense increased by \$0.3 million to \$77.7 million, or 29.2% of net sales, in the 13 weeks ended September 30, 2018 from \$77.4 million, or 28.6% of net sales, in the third quarter last year. The change in selling and administrative expense was primarily attributable to the following:

Store-related expense, excluding occupancy, increased by \$2.0 million due primarily to increased employee labor and benefit-related expense. Our labor expense continues to reflect the incremental impact of legislated minimum wage rate increases primarily in California, where over fifty percent of our stores are located. In April 2016, California passed legislation to enact additional state-wide minimum wage rate increases from \$10.00 to \$15.00 per hour to be implemented in annual increments through fiscal 2022, with annual increases of \$0.50 per hour effective in fiscal 2017 and fiscal 2018, and annual increases of \$1.00 per hour effective in fiscal 2019 through fiscal 2022. Additionally, certain other jurisdictions within California, including Los Angeles and San Francisco, are implementing their own scheduled increases, the most recent of which occurred on July 1, 2018. We estimate that the impact of the California state-wide minimum wage rate increase of \$0.50 per hour effective in January 2018, combined with the impact of the additional minimum wage rate increases in certain other jurisdictions within California on July 1, 2018, caused our labor expense to increase by approximately \$0.4 million for the third quarter of fiscal 2018.

Advertising expense decreased by \$1.2 million due mainly to lower newspaper advertising.

Administrative expense decreased by \$0.5 million, primarily attributable to reduced expense associated with various IT-related systems and services.

Interest Expense. Interest expense increased by \$0.4 million in the third quarter of fiscal 2018 compared to the third quarter of fiscal 2017. Interest expense reflects an increase in average debt levels of \$37.3 million to \$84.6 million in the third quarter of fiscal 2018 from \$47.3 million in the third quarter of fiscal 2017, as well as an increase in average interest rates of approximately 100 basis points to 3.6% in the third quarter of fiscal 2018 from 2.6% in the third quarter of fiscal 2017.

Income Taxes. The provision for income taxes decreased to \$0.8 million for the third quarter of fiscal 2018 from \$3.8 million for the third quarter of fiscal 2017, primarily reflecting lower pre-tax income in the third quarter of fiscal 2018 compared to the third quarter of fiscal 2017. Our effective tax rate was 21.3% for the third quarter of fiscal 2018 and 38.9% for the third quarter of fiscal 2017, primarily reflecting a reduction in the federal corporate income tax rate resulting from enactment of the Tax Cuts and Jobs Act in December 2017.

39 Weeks Ended September 30, 2018 Compared to 39 Weeks Ended October 1, 2017

The following table sets forth selected items from our interim unaudited condensed consolidated statements of operations by dollar and as a percentage of our net sales for the periods indicated:

	39 Weeks Ended			
	September 30,		October 1, 2017	
	2018			
	(Dollars in thousands)			
Net sales	\$ 740,480	100.0 %	\$ 766,746	100.0 %
Cost of sales ⁽¹⁾	509,984	68.9	516,268	67.3
Gross profit	230,496	31.1	250,478	32.7
Selling and administrative expense ⁽²⁾	225,824	30.5	226,190	29.5
Operating income	4,672	0.6	24,288	3.2
Interest expense	2,309	0.3	1,095	0.1
Income before income taxes	2,363	0.3	23,193	3.1
Income taxes	805	0.1	9,139	1.2
Net income	\$ 1,558	0.2 %	\$ 14,054	1.9 %

⁽¹⁾Cost of sales includes the cost of merchandise, net of discounts or allowances earned, freight, inventory reserves, buying, distribution center expense, including depreciation and amortization, and store occupancy expense. Store occupancy expense includes rent, amortization of leasehold improvements, common area maintenance, property taxes and insurance.

⁽²⁾Selling and administrative expense includes store-related expense, other than store occupancy expense, as well as advertising, depreciation and amortization, expense associated with operating our corporate headquarters and impairment charges, if any.

Net Sales. Net sales decreased by \$26.2 million, or 3.4%, to \$740.5 million in the first nine months of fiscal 2018 from \$766.7 million in the first nine months last year. The change in net sales reflected the following:

Same store sales decreased by \$29.0 million, or 3.9%, for the 39 weeks ended September 30, 2018, versus the comparable 39-week period in the prior year. This decrease in same store sales compares to a 1.7% increase in same store sales for the comparable 39-week period in the prior year. Same store sales in the first nine months of fiscal 2018 decreased in each of our major merchandise categories of hardgoods, apparel and footwear, and primarily reflected lower demand for winter-related products during the first quarter of fiscal 2018 resulting from unseasonably dry and warm weather conditions in most of our major markets compared to the first quarter of fiscal 2017, which experienced more favorable winter-weather conditions. Generally cooler spring and summer weather conditions across many of our markets during key holiday selling periods contributed to lower sales of warm weather products in the second and third quarter of fiscal 2018. Additionally, lower sales in our hardgoods category primarily reflected reduced demand for firearms and related products. Same store sales for a period consist of sales for stores that operated throughout the period and the full corresponding prior-year period. Same store sales comparisons exclude sales from stores closed during the comparable periods. Beginning in fiscal 2018, we included sales from e-commerce in the same store sales calculation for both the current period and comparable prior year period. Sales from e-commerce in the first nine months of fiscal 2018 and 2017 were not material and had an insignificant effect on the percentage change in same store sales for the periods reported.

• Added sales from new stores opened since January 1, 2017 were partially offset by a reduction in sales from closed stores.

• We experienced decreased customer transactions and a higher average sale per transaction in the first nine months of fiscal 2018 compared to the same period last year.

Gross Profit. Gross profit decreased by \$20.0 million, or 8.0%, to \$230.5 million, or 31.1% of net sales, in the 39 weeks ended September 30, 2018, from \$250.5 million, or 32.7% of net sales, in the 39 weeks ended October 1, 2017. The change in gross profit was primarily attributable to the following:

• Net sales decreased by \$26.2 million, or 3.4%, compared with the first nine months of last year.

• Distribution expense, including costs capitalized into inventory, increased by \$3.6 million, or an unfavorable 63 basis points, in the first nine months of fiscal 2018 compared to the prior year. The increase reflected decreased costs capitalized into inventory and higher expense primarily related to freight, as well as higher employee labor and benefit-related costs.

• Store occupancy expense increased by \$2.7 million, or an unfavorable 68 basis points, year over year in the first nine months of fiscal 2018 due primarily to lease renewals for existing stores, and higher expenses associated with the increase in store count.

Merchandise margins, which exclude buying, occupancy and distribution expense, decreased by an unfavorable 10 basis points compared with the first nine months of last year when merchandise margins increased by a favorable 103 basis points. This decrease primarily reflected increased promotional activities and a shift in our sales mix away from higher-margin winter products in the first quarter of fiscal 2018, resulting from unseasonably dry and warm winter weather conditions.

Selling and Administrative Expense. Selling and administrative expense decreased by \$0.4 million to \$225.8 million, or 30.5% of net sales, in the first nine months of fiscal 2018 from \$226.2 million, or 29.5% of net sales, in the first nine months last year. The change in selling and administrative expense was primarily attributable to the following:

- Advertising expense decreased by \$3.5 million due primarily to lower newspaper advertising, partially offset by increases to digital and other advertising expense.
- Store-related expense, excluding occupancy, increased by \$3.3 million due primarily to increased employee labor and benefit-related expense, reflecting higher employee medical costs. Our labor expense continues to reflect the incremental impact of legislated minimum wage rate increases primarily in California, where over fifty percent of our stores are located. In April 2016, California passed legislation to enact additional minimum wage rate increases from \$10.00 to \$15.00 per hour to be implemented in annual increments through fiscal 2022, with annual increases of \$0.50 per hour effective in fiscal 2017 and fiscal 2018, and annual increases of \$1.00 per hour effective in fiscal 2019 through fiscal 2022. Additionally, certain other jurisdictions within California, including Los Angeles and San Francisco, are implementing their own scheduled increases, the most recent of which occurred on July 1, 2018. We estimate that the impact of the California state-wide minimum wage rate increase of \$0.50 per hour effective in January 2018, combined with the impact of the additional minimum wage rate increases in certain other jurisdictions within California on July 1, 2018, caused our labor expense to increase by approximately \$1.0 million for the first nine months of fiscal 2018.

Interest Expense. Interest expense increased by \$1.2 million in the first nine months of fiscal 2018 compared to the first nine months of fiscal 2017. Interest expense reflects an increase in average debt levels of \$43.2 million to \$78.7 million in the first nine months of fiscal 2018 from \$35.5 million in the first nine months of fiscal 2017, as well as an increase in average interest rates of approximately 80 basis points to 3.3% in the first nine months of fiscal 2018 from 2.5% in the first nine months of fiscal 2017.

Income Taxes. The provision for income taxes decreased to \$0.8 million for the first nine months of fiscal 2018 from \$9.1 million for the first nine months of fiscal 2017, primarily reflecting lower pre-tax income in the first nine months of fiscal 2018 compared to the first nine months of fiscal 2017. Our effective tax rate was 34.1% for the first nine months of fiscal 2018 and 39.4% for the first nine months of fiscal 2017, primarily reflecting a reduction in the federal corporate income tax rate resulting from enactment of the Tax Cuts and Jobs Act in December 2017 and the write-off of \$0.2 million of deferred tax assets related to share-based compensation in the first nine months of fiscal 2018.

Liquidity and Capital Resources

Our principal liquidity requirements are for working capital, capital expenditures and cash dividends. We fund our liquidity requirements primarily through cash on hand, cash flows from operations and borrowings from our revolving credit facility.

As of September 30, 2018, we had \$5.0 million of cash compared with \$5.3 million as of October 1, 2017. Our cash flows from operating, investing and financing activities are summarized as follows:

	September 30,	October 1,
	2018	2017
	(In thousands)	
Net cash (used in) provided by:		
Operating activities	\$(8,059)	\$(5,551)
Investing activities	(8,448)	(11,374)
Financing activities	14,355	14,374
Net decrease in cash	\$(2,152)	\$(2,551)

Operating Activities. Operating cash flows for the first nine months of fiscal 2018 and 2017 were a negative \$8.1 million and a negative \$5.6 million, respectively. The decreased cash flow from operating activities for the first nine months of fiscal 2018 compared to the same period last year primarily reflects decreased net income, partially offset by reduced funding of merchandise inventory, smaller reductions in accrued expense largely related to income taxes and reductions in prepaid expense largely related to the timing of rent payments.

Investing Activities. Net cash used in investing activities for the first nine months of fiscal 2018 and 2017 was \$8.4 million and \$11.4 million, respectively. Capital expenditures, excluding non-cash acquisitions, represented all of the cash used in investing activities for each period. The decrease primarily reflects lower required investment in computer hardware, software and infrastructure improvements. Capital expenditures for both periods include store-related remodeling, distribution center investments, new store investments and computer hardware and software purchases.

Financing Activities. Financing cash flows for the first nine months of fiscal 2018 and 2017 were a positive \$14.4 million in each period, respectively. For both periods, net cash was provided primarily from increased borrowings under our revolving credit facility, partially offset by dividend payments and treasury stock purchases.

As of September 30, 2018, we had revolving credit borrowings of \$83.5 million and letter of credit commitments of \$0.4 million outstanding. These balances compare to revolving credit borrowings of \$45.0 million and letter of credit commitments of \$0.5 million outstanding as of December 31, 2017 and revolving credit borrowings of \$46.4 million and letter of credit commitments of \$0.5 million outstanding as of October 1, 2017. Our higher debt levels as of September 30, 2018 compared with October 1, 2017 largely reflect our higher merchandise inventory levels resulting from weak demand for winter-related products in the fourth quarter of fiscal 2017 and first quarter of fiscal 2018, as well as lower-than-anticipated sales in fiscal 2018.

In fiscal 2017 we paid quarterly cash dividends of \$0.15 per share of outstanding common stock, for an annual rate of \$0.60 per share. In the first three quarters of fiscal 2018 we paid a quarterly cash dividend of \$0.15 per share of outstanding common stock in each quarter. In the fourth quarter of fiscal 2018, our Board of Directors declared a quarterly cash dividend of \$0.05 per share of outstanding common stock, which will be paid on December 14, 2018 to stockholders of record as of November 30, 2018. This reduction of the dividend from the previous rate of \$0.15 per share reflects our intent to utilize our capital to maintain a healthy financial condition.

Pursuant to our current share repurchase program, in the first nine months of fiscal 2018, we repurchased 75,748 shares of common stock for \$0.4 million. In the first nine months of fiscal 2017, we repurchased 677,109 shares of common stock for \$6.9 million. Since the inception of our initial share repurchase program in May 2006 through September 30, 2018, we have repurchased a total of 3,528,972 shares for \$41.8 million.

Credit Agreement. On October 18, 2010, we entered into a credit agreement with Wells Fargo Bank, National Association (“Wells Fargo”), as administrative agent, and a syndicate of other lenders, which was amended on October 31, 2011 and December 19, 2013 (as so amended, the “Credit Agreement”). On September 29, 2017, the parties amended certain provisions of the Credit Agreement (such amendment, the “Third Amendment”), as further discussed below. The amendment represented a modification and resulted in the payment and capitalization of \$0.2 million in deferred financing fees.

The Credit Agreement provides for a revolving credit facility (the “Credit Facility”) with an aggregate committed availability of up to \$140.0 million, which amount may be increased at our option up to a maximum of \$165.0 million. We may also request additional increases in aggregate availability, up to a maximum of \$200.0 million, in which case the existing lenders under the Credit Agreement will have the option to increase their commitments to accommodate the requested increase. If such existing lenders do not exercise that option, we may (with the consent of Wells Fargo, not to be unreasonably withheld) seek other lenders willing to provide such commitments. The Third Amendment includes a provision which permits us to elect to reduce the aggregate committed availability under the Credit Agreement to \$100.0 million for a three-month period each calendar year. Prior to the Third Amendment, the Credit Facility included a \$50.0 million sublimit for issuances of letters of credit. The Third Amendment reduced the letter of credit sublimit to \$25.0 million. The Credit Facility includes a \$20.0 million sublimit for swingline loans.

We may borrow under the Credit Facility from time to time, provided the amounts outstanding will not exceed the lesser of the then aggregate availability (as discussed above) and the Borrowing Base (such lesser amount being referred to as the “Loan Cap”). The “Borrowing Base” generally is comprised of the sum, at the time of calculation, of (a) 90.00% of our eligible credit card receivables; plus (b) the cost of our eligible inventory (other than our eligible in-transit inventory), net of inventory reserves, multiplied by 90.00% of the appraised net orderly liquidation value of eligible inventory (expressed as a percentage of the cost of eligible inventory); plus (c) the lesser of (i) the cost of our eligible in-transit inventory, net of inventory reserves, multiplied by 90.00% of the appraised net orderly liquidation value of our eligible in-transit inventory (expressed as a percentage of the cost of eligible in-transit inventory), or (ii) \$10.0 million, minus (d) certain reserves established by Wells Fargo in its role as the Administrative Agent in its reasonable discretion.

Generally, we may designate specific borrowings under the Credit Facility as either base rate loans or LIBO rate loans. The applicable interest rate on our borrowings is a function of the daily average, over the preceding fiscal quarter, of the excess of the Loan Cap over amounts borrowed (such amount being referred to as the “Average Daily Availability”). Prior to the Third Amendment, those loans designated as LIBO rate loans bore interest at a rate equal to the then applicable LIBO rate plus an applicable margin as shown in the table below. Those loans designated as base rate loans bore interest at a rate equal to the applicable margin for base rate loans (as shown below) plus the highest of (a) the Federal funds rate, as in effect from time to time, plus one-half of one percent (0.50%), (b) the LIBO rate, as adjusted to account for statutory reserves, plus one percent (1.00%), or (c) the rate of interest in effect for such day as publicly announced from time to time by Wells Fargo as its “prime rate.” Prior to the Third Amendment, the applicable margin for all loans under the existing Credit Agreement was as set forth below as a function of Average Daily Availability for the preceding fiscal quarter.

		LIBO Rate	Base Rate
Level	Average Daily Availability	Applicable Margin	Applicable Margin
I	Greater than or equal to \$100,000,000	1.25%	0.25%
II	Less than \$100,000,000 but greater than or equal to \$40,000,000	1.50%	0.50%
III	Less than \$40,000,000	1.75%	0.75%

Prior to the Third Amendment, the commitment fee assessed on the unused portion of the Credit Facility was 0.25% per annum.

After giving effect to the Third Amendment, those loans designated as LIBO rate loans bear interest at a rate equal to the then applicable adjusted LIBO rate plus an applicable margin as shown in the table below. Those loans designated as base rate loans bear interest at a rate equal to the applicable margin for base rate loans (as shown below) plus the highest of (a) the Federal funds rate, as in effect from time to time, plus one-half of one percent (0.50%), (b) the LIBO rate, plus one percentage point (1.00%), or (c) the rate of interest in effect for such day as announced from time to time within Wells Fargo as its “prime rate.” The applicable margin for all loans are a function of Average Daily Availability for the preceding fiscal quarter as set forth below.

		LIBO Rate	Base Rate
Level	Average Daily Availability	Applicable Margin	Applicable Margin
I	Greater than or equal to \$70,000,000	1.25%	0.25%
II	Less than \$70,000,000	1.375%	0.50%

After giving effect to the Third Amendment, the commitment fee assessed on the unused portion of the Credit Facility is 0.20% per annum.

Obligations under the Credit Facility are secured by a general lien and perfected security interest in substantially all of our assets. Our Credit Agreement contains covenants that require us to maintain a fixed charge coverage ratio of not less than 1.0:1.0 in certain circumstances, and limit our ability to, among other things, incur liens, incur additional indebtedness, transfer or dispose of assets, change the nature of the business, guarantee obligations, pay dividends or make other distributions or repurchase stock, and make advances, loans or investments. We may declare or pay cash dividends or repurchase stock only if, among other things, no default or event of default then exists or would arise

from such dividend or repurchase of stock and, after giving effect to such dividend or repurchase, certain availability and/or fixed charge coverage ratio requirements are satisfied. The Credit Agreement contains customary events of default, including, without limitation, failure to pay when due principal amounts with respect to the Credit Facility, failure to pay any interest or other amounts under the Credit Facility for five days after becoming due, failure to comply with certain agreements or covenants contained in the Credit Agreement, failure to satisfy certain judgments against us, failure to pay when due (or any other default which does or may lead to the acceleration of) certain other material indebtedness in principal amount in excess of \$5.0 million, and certain insolvency and bankruptcy events.

The Third Amendment extended the maturity date of the Credit Agreement from December 19, 2018 to September 29, 2022. As of September 30, 2018, we had long-term revolving credit borrowings of \$83.5 million and letter of credit commitments of \$0.4 million outstanding, compared with borrowings of \$45.0 million and letter of credit commitments of \$0.5 million as of December 31, 2017. Total remaining borrowing availability under the Credit Agreement, after subtracting letters of credit, was \$56.1 million and \$94.5 million as of September 30, 2018 and December 31, 2017, respectively.

Future Capital Requirements. We had cash on hand of \$5.0 million as of September 30, 2018. We expect capital expenditures for fiscal 2018, excluding non-cash acquisitions, to range from approximately \$15.0 million to \$17.0 million primarily to fund the opening of new stores, store-related remodeling, distribution center investments and computer hardware and software purchases. Included in the range above, and as more fully described in Note 11 to the Interim Financial Statements included in Part 1, Item 1, Financial Statements, of this Quarterly Report on Form 10-Q, in October 2018, we acquired for \$4.5 million a parcel of land that we previously leased. This parcel of land with an existing building is adjacent to our corporate headquarters location and includes a parking lot currently used by us. For fiscal 2018, we anticipate opening four new stores.

We currently pay quarterly dividends, subject to declaration by our Board of Directors. In the fourth quarter of fiscal 2018, our Board of Directors declared a quarterly cash dividend of \$0.05 per share of outstanding common stock, which will be paid on December 14, 2018 to stockholders of record as of November 30, 2018.

Periodically, we repurchase our common stock in the open market pursuant to programs approved by our Board of Directors. Our decision to repurchase our common stock may be influenced by a variety of factors, including, among other things, our alternative cash requirements, existing business conditions and the current market price of our stock. In the third quarter of fiscal 2016, our Board of Directors authorized a new share repurchase program for the purchase of up to \$25.0 million of our common stock. Under the current authorization, we may purchase shares from time to time in the open market or in privately negotiated transactions in compliance with the applicable rules and regulations of the Securities and Exchange Commission ("SEC"). However, the timing and amount of such purchases, if any, would be at the discretion of our management and Board of Directors, and would depend upon market conditions and other considerations. As of September 30, 2018, a total of \$15.3 million remained available for share repurchases under our current share repurchase program.

We believe we will be able to fund our cash requirements from cash on hand, operating cash flows and borrowings from our revolving credit facility, for at least the next 12 months. However, our ability to satisfy our cash requirements depends upon our future performance, which in turn is subject to general economic conditions and regional risks, as well as financial, competitive, business and other factors affecting our operations, including factors beyond our control.

Off-Balance Sheet Arrangements and Contractual Obligations. Our material off-balance sheet arrangements are operating lease obligations. We excluded these items from the balance sheet in accordance with accounting principles generally accepted in the United States of America.

Operating lease commitments consist principally of leases for our retail store facilities, distribution center and corporate office. These leases frequently include options which permit us to extend the terms beyond the initial fixed lease term. We intend to renegotiate most of these leases as they expire. Operating lease commitments also consist of IT systems hardware and distribution center delivery tractors.

Our material contractual obligations include operating lease commitments associated with our leased properties and other occupancy expense, capital lease obligations, borrowings under our Credit Facility and other liabilities.

Issued and outstanding letters of credit were \$0.4 million as of September 30, 2018, and were related to securing insurance program liabilities.

Included in the Liquidity and Capital Resources section of Part II, Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, of our Annual Report on Form 10-K for the fiscal year ended December 31, 2017, is a discussion of our future obligations and commitments as of December 31, 2017. In the first nine months of fiscal 2018, our revolving credit borrowings increased by \$38.5 million from the end of fiscal 2017.

Our higher debt levels in fiscal 2018 compared with the prior year largely reflect our lower-than-anticipated sales in fiscal 2018. We entered into new operating lease agreements in relation to our business operations during the first nine months of fiscal 2018. We do not believe that these operating leases or the changes to our revolving credit borrowings materially impact our contractual obligations or commitments presented as of December 31, 2017.

In the ordinary course of business, we enter into arrangements with vendors to purchase merchandise in advance of expected delivery. Because most of these purchase orders do not contain any termination payments or other penalties if cancelled, they are not included as outstanding contractual obligations.

Critical Accounting Estimates

As discussed in Part II, Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, of our Annual Report on Form 10-K for the fiscal year ended December 31, 2017, we consider our estimates on inventory valuation, long-lived assets and self-insurance liabilities to be the most critical in understanding the judgments that are involved in preparing our consolidated financial statements. There have been no significant changes to these estimates in the 39 weeks ended September 30, 2018.

Seasonality and Impact of Inflation

We experience seasonal fluctuations in our net sales and operating results. Seasonality in our net sales influences our buying patterns which directly impacts our merchandise and accounts payable levels and cash flows. We purchase merchandise for seasonal activities in advance of a season and supplement our merchandise assortment as necessary and when possible during the season. Our efforts to replenish products during a season are not always successful. In the fourth fiscal quarter, which includes the holiday selling season and the start of the winter selling season, we normally experience higher inventory purchase volumes and increased expense for staffing and advertising. If we miscalculate the consumer demand for our products generally or for our product mix in advance of a season, particularly the fourth quarter, our net sales can decline, which can harm our financial performance. A significant shortfall from expected net sales, particularly during the fourth quarter, can negatively impact our annual operating results.

In fiscal 2017, and during the first nine months of fiscal 2018, the impact of inflation was minimal. We have evolved our product mix to include more branded merchandise that we believe gives us added flexibility to adjust selling prices for purchase cost increases. If we are unable to adjust our selling prices for purchase cost increases that might occur, then our merchandise margins will decline, which will adversely impact our operating results. We do not believe that inflation had a material impact on our operating results for the reporting periods.

Recently Issued Accounting Updates

See Note 2 to the Interim Financial Statements included in Part I, Item 1, Financial Statements, of this Quarterly Report on Form 10-Q.

Forward-Looking Statements

This document includes certain "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements relate to, among other things, our financial condition, our results of operations, our growth strategy and the business of our company generally. In some cases, you can identify such statements by terminology such as "may," "could," "project," "estimate," "potential," "continue," "should," "expects," "anticipates," "believes," "intends" or other such terminology. These forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause our actual results in future periods to differ materially from forecasted results. These risks and uncertainties include, among other things, changes in the consumer spending environment, fluctuations in consumer holiday spending patterns, increased competition from e-commerce retailers, breach of data security or other unauthorized disclosure of sensitive personal or confidential information, the competitive environment in the sporting goods industry in general and in our specific market areas, inflation, product availability and growth opportunities, changes in the current market for (or regulation of) firearm-related products, disruption in product flow, seasonal fluctuations, weather conditions, changes in cost of goods, operating expense fluctuations, increases in labor and benefit-related expense, changes in laws or regulations, including those related to tariffs and duties, lower-than-expected profitability of our e-commerce platform or cannibalization of sales from our existing store base which could occur as a result of operating our e-commerce platform, litigation risks, stockholder

campaigns and proxy contests, risks related to our leveraged financial condition, changes in interest rates, credit availability, higher expense associated with sources of credit resulting from uncertainty in financial markets and economic conditions in general. Those and other risks and uncertainties are more fully described in Part II, Item 1A, Risk Factors, in this report and in Part I, Item 1A, Risk Factors, in our Annual Report on Form 10-K and other filings with the SEC. We caution that the risk factors set forth in these reports are not exclusive. In addition, we conduct our business in a highly competitive and rapidly changing environment. Accordingly, new risk factors may arise. It is not possible for management to predict all such risk factors, nor to assess the impact of all such risk factors on our business or the extent to which any individual risk factor, or combination of factors, may cause results to differ materially from those contained in any forward-looking statement. We undertake no obligation to revise or update any forward-looking statement that may be made from time to time by us or on our behalf.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are subject to risks resulting from interest rate fluctuations since interest on borrowings under our Credit Facility is based on variable rates. We enter into borrowings under our Credit Facility principally for working capital, capital expenditures and general corporate purposes. We routinely evaluate the best use of our cash on hand and manage financial statement exposure to interest rate fluctuations by managing our level of indebtedness and the interest base rate options on such indebtedness. We do not utilize derivative instruments and do not engage in foreign currency transactions or hedging activities to manage our interest rate risk. If the interest rate on our debt was to change 1.0% as compared to the rate as of September 30, 2018, our interest expense would change approximately \$0.8 million on an annual basis based on the outstanding balance of borrowings under our Credit Facility as of September 30, 2018.

Inflationary factors and changes in foreign currency rates can increase the purchase cost of our products. We have evolved our product mix to include more branded merchandise, which we believe gives us added flexibility to adjust selling prices for purchase cost increases. If we are unable to adjust our selling prices for purchase cost increases that might occur then our merchandise margins will decline, which will adversely impact our operating results. All of our stores are located in the United States, and all imported merchandise is purchased in U.S. dollars. We do not believe that inflation had a material impact on our operating results for the reporting periods.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We conducted an evaluation, under the supervision and with the participation of our Chief Executive Officer (“CEO”) and Chief Financial Officer (“CFO”), of the effectiveness of the design and operation of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”)) as of the end of the period covered by this report. Based on such evaluation, our CEO and CFO have concluded that, as of the end of such period, our disclosure controls and procedures are effective, at a reasonable assurance level, in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by us in the reports that we file or submit under the Exchange Act and are effective in ensuring that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our CEO and CFO, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

During the fiscal quarter ended September 30, 2018, no changes occurred with respect to our internal control over financial reporting that materially affected, or are reasonably likely to materially affect, internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

The Company is involved in various claims and legal actions arising in the ordinary course of business. In the opinion of management, the ultimate disposition of these matters is not expected to have a material adverse effect on the Company's results of operations or financial condition.

Item 1A. Risk Factors

There have been no material changes to the risk factors identified in Part I, Item 1A, Risk Factors, of the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2017.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Not applicable.

Item 3. Defaults Upon Senior Securities

Not applicable.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

Not applicable.
