Item 2.06. Material Impairments.

On April 19, 2013, Covanta Holding Corporation ("Covanta" or the "Company"), received notification that it was not selected as the preferred bidder for the Merseyside Recycling and Waste Authority's ("MRWA") waste procurement. This is a triggering event under generally accepted accounting principles that requires the Company to evaluate the recoverability of its capitalized development costs related to its United Kingdom development efforts. It is probable that as a result of this evaluation, the Company will be required to record a non-cash impairment charge in the second quarter ended June 30, 2013.

As of March 31, 2013, Covanta had approximately \$51 million of capitalized costs related to development efforts on projects primarily in the United Kingdom. Among such projects is one project located at Ince Park, Cheshire, England ("Ince Project"). The MRWA waste procurement would have accounted for a significant portion of the capacity at the Ince Project.

At the time of the filing of this Form 8-K, the Company is unable in good faith to make a determination of an estimate of the non-cash impairment charge. The Company expects to file an amended Current Report on Form 8-K under this Item 2.06 after it determines the impairment estimate.
