Item 1.01 Entry into a Material Definitive Agreement.

On December 15, 2005, CTS Corporation entered into agreements to accelerate the vesting of certain unvested and “out-of-the money” stock options with exercise prices of \$14.02 and higher that were previously granted under an employee stock option plan. As a result, options to purchase approximately 70,000 shares of CTS Corporation common stock will become immediately exercisable on December 31, 2005. The vesting acceleration enables CTS to avoid recognizing approximately \$475,000 of pre-tax compensation expense associated with these options in its future income statements, upon adoption of FASB Statement No. 123R in January 2006. In order to prevent unintended personal benefits to option holders, restrictions will be imposed on any sale of any shares received from the exercise of an accelerated option prior to the original vesting date. Options held by non-employee directors were not included in the vesting acceleration. Options held by an executive officer of CTS Corporation were included in the vesting acceleration.

In addition, on December 15, 2005 the corporation entered into agreements to amend certain restricted stock unit agreements between the corporation and its executive officers and general managers. The amendments remove a provision allowing grantees to elect to pay tax liability associated with the vesting of an award in cash or to have an equivalent number of shares netted out from the distribution and to comply with Section 409A of the Internal Revenue Code of 1986, as amended.
