

HOVNANIAN ENTERPRISES INC
Form 10-Q
June 09, 2008
UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

FORM 10-Q

(Mark One)

Quarterly report pursuant to Section 13 or 15(d) of the
Securities Exchange Act of 1934

For quarterly period ended APRIL 30, 2008 or

Transition report pursuant to Section 13 or 15(d) of the
Securities Exchange Act of 1934

Commission file number 1-8551

Hovnanian Enterprises, Inc.

(Exact Name of Registrant as Specified in Its Charter)

Delaware
(State or Other Jurisdiction of
Incorporation or Organization)

22-1851059
(I.R.S. Employer
Identification No.)

110 West Front Street, P.O. Box 500, Red Bank, NJ 07701

(Address of Principal Executive Offices) (Zip Code)

732-747-7800

(Registrant's Telephone Number, Including Area Code)

Edgar Filing: HOVNANIAN ENTERPRISES INC - Form 10-Q

(Former Name, Former Address and Former Fiscal Year, if Changed Since Last Report)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes

No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act.

Large Accelerated Filer Accelerated Filer
Non-Accelerated Filer Smaller Reporting Company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date. 62,051,052 shares of Class A Common Stock and 14,644,227 shares of Class B Common Stock were outstanding as of June 4, 2008.

HOVNIANIAN ENTERPRISES, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS - UNAUDITED

1. The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. In the opinion of management, all adjustments for interim periods presented have been made, which include normal recurring accruals and deferrals necessary for a fair presentation of our consolidated financial position, results of operations, and changes in cash flows. The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates and these differences could have a significant impact on the financial statements. Results for interim periods are not necessarily indicative of the results which might be expected for a full year. The balance sheet at October 31, 2007 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements.

The Company s reportable segments consist of six Homebuilding segments (Northeast, Mid-Atlantic, Midwest, Southeast, Southwest and West) and the Financial Services segment (see Note 13).

Certain prior year amounts have been reclassified to conform to the current year presentation.

2. For the three and six months ended April 30, 2008, the Company s total stock-based compensation expense was \$3.8 million (\$3.5 million net of tax) and \$8.7 million (\$8.0 million net of tax), respectively. Included in this total stock-based compensation expense was expense for stock options of \$3.5 million (\$3.2 million net of tax) and \$7.0 million (\$6.4 million net of tax) for the three and six months ended April 30, 2008, respectively.

3. Interest costs incurred, expensed and capitalized were:

	Three Months Ended April 30, 2008		Six Months Ended April 30, 2008	
	2007	2007	2008	2007
	(Dollars in Thousands)		(Dollars in Thousands)	
Interest capitalized at beginning of period	\$171,430	\$120,054	\$155,642	\$102,849
Plus interest incurred (1)	41,206	53,501	86,122	98,798
Less cost of sales interest expensed (2)	34,572	28,756	63,160	55,628
Less other interest expensed	462	6,666	1,002	7,886
Interest capitalized at end of period (3)	\$177,602	\$138,133	\$177,602	\$138,133

(1) Data does not include interest incurred by our mortgage and finance subsidiaries.

(2) Represents interest on borrowings for construction, land and development costs, which are

charged to interest expense when homes are delivered.

(3) We have incurred significant inventory impairments in recent quarters, which are determined based

on total inventory including capitalized interest. However, the capitalized interest amounts above are shown gross before allocating any portion of the impairments to capitalized interest.

4. Accumulated depreciation at April 30, 2008 and October 31, 2007 amounted to \$65.0 million and \$57.4 million, respectively, for our homebuilding assets.

5. In accordance with Financial Accounting Standards No. 144 ("SFAS"), "Accounting for the Impairment of or Disposal of Long Lived Assets", we record impairment losses on inventories related to communities under development when events and circumstances indicate that they may be impaired and the undiscounted cash flows

Edgar Filing: HOVNANIAN ENTERPRISES INC - Form 10-Q

estimated to be generated by those assets are less than their related carrying amounts. As a result of a continued decline in sales pace, sales price and general market conditions, for the three months ended April 30, 2008 and 2007, we recorded inventory impairment of \$226.4 million and \$29.8 million, respectively, and \$300.2 million and \$76.3 million for the six months ended April 30, 2008 and 2007, respectively, both of which are presented in the Consolidated Statements of Operations and deducted from inventory.

As a result of the declining homebuilding market in some of our segments, we have decided to mothball (stop development) certain communities where we determine the current performance does not justify further investment at this time. When we decide to mothball a community, the inventory is reclassified from Sold and unsold homes and lots under development to Land and land options held for future development or sale. During the second quarter of fiscal 2008, we mothballed 11 communities. As of April 30, 2008, we have mothballed land in 28 communities. The book value associated with these 28 communities at April 30, 2008 was \$493.3 million, net of an impairment balance of \$131.1 million. We continually review communities to determine if mothballing is appropriate.

The following table represents inventory impairments by segment for the three and six months ended April 30, 2008 and 2007:

(Dollars in millions)	Three Months Ended April 30, 2008			Three Months Ended April 30, 2007		
		Dollar	Pre-		Dollar	Pre-
	Number of Communities	Amount of Impairment	Impairment Value(1)	Number of Communities	Amount of Impairment	Impairment Value(1)
Northeast	6	\$12.3	\$86.1	3	\$4.4	\$26.0

Southeast	12	11.4	43.5	2	7.5	66.6
Southwest	14	17.3	40.7	1	.3	.7
West	45	177.1	464.9	5	14.7	45.8
Total	83	\$226.4	\$668.1	14	\$29.8	\$149.7

(Dollars in millions)	Six Months Ended April 30, 2008			Six Months Ended April 30, 2007		
		Dollar	Pre-		Dollar	Pre-
	Number of Communities	Amount of Impairment	Impairment Value(1)	Number of Communities	Amount of Impairment	Impairment Value(1)
Northeast	6	\$14.8	\$105.8	4	\$5.8	\$35.2
Mid-Atlantic	10	11.6	51.6	-	-	-
Midwest	4	5.6	20.2	6	6.1	25.8
Southeast	15	17.8	71.8	2	49.4	135.1
Southwest	16	22.1	57.8	1	.3	.7
West	52	228.3	680.2	5	14.7	45.8
Total	103	\$300.2	\$987.4	18	\$76.3	\$242.6

(1) Represents carrying value in dollars, net of prior period impairments, if any, at the time of recording

this period's impairments.

Edgar Filing: HOVNANIAN ENTERPRISES INC - Form 10-Q

The Consolidated Statements of Operations line entitled "Homebuilding Inventory impairment loss and land option write-offs" also includes write-offs of capitalized approval, engineering and interest costs that we record when we redesign communities and/or abandon certain engineering costs and we do not exercise options in various locations because the communities' pro forma profitability does not produce adequate returns on investment commensurate with the risk.

The total aggregate write-offs were \$19.5 million and \$4.5 million for the three months ended April 30, 2008 and 2007, respectively, and \$35.8 million and \$7.5 million for the six months ended April 30, 2008 and 2007,

Edgar Filing: HOVNIAN ENTERPRISES INC - Form 10-Q

respectively. The write-offs of \$7.5 million in the six months ended April 30, 2007 were offset by \$8.0 million in recovered deposits that had been written off in the prior year as walk-away costs because, in certain instances where we walked away from option contracts in the fourth quarter of fiscal 2006, we took legal action to recover our deposits. In two of these cases, we were successful and received a portion of our deposit back in the first quarter of fiscal 2007.

The following table represents write-offs of such costs and the related number of lots by segment for the three and six months ended April 30, 2008 and 2007:

(Dollars in millions)	Three Months Ended				Six Months Ended			
	April 30, 2008		2007		April 30, 2008		2007

6. We provide a warranty accrual for repair costs under \$5,000 per occurrence to homes, community amenities, and land development infrastructure. We accrue for warranty costs as part of cost of sales at the time each home is closed and title and possession have been transferred to the homebuyer. In addition, we accrue for warranty costs over \$5,000 per occurrence as part of our general liability insurance deductible expensed as selling, general and administrative costs. For homes delivered in fiscal 2008, our deductible under our general liability insurance is \$20 million per occurrence with an aggregate \$20 million for liability claims and an aggregate \$21.5 million for construction defect claims. Additions and charges in the warranty reserve and general liability accrual for the three and six months ended April 30, 2008 and 2007 were as follows:

	Three Months Ended		Six Months Ended	
	April 30, 2008	2007	April 30, 2008	2007
Balance, beginning of period	\$120,855	\$91,670	\$120,653	\$93,516
Additions	20,507	21,597	34,807	35,598
Charges incurred	(17,796)	(22,536)	(31,894)	(38,383)
Balance, end of period	\$123,566	\$90,731	\$123,566	\$90,731

Warranty accruals are based upon historical experience. We engage a third party actuary that uses our historical warranty data to estimate our unpaid claims, claim adjustment expenses and incurred but not reported claims reserves for the risks that we are assuming under the general liability and workers compensation programs. The estimates include provisions for inflation, claims handling and legal fees.

Insurance claims paid by our insurance carriers were \$2.1 million and zero for the three months ended April 30, 2008 and 2007, respectively, and \$7.0 million and \$0.8 million for the six months ended April 30, 2008 and 2007, respectively, for prior year deliveries.

7. We are involved in litigation arising in the ordinary course of business, none of which is expected to have a material adverse effect on our financial position or results of operations and we are subject to extensive and complex

regulations that affect the development and home building, sales and customer financing processes, including zoning, density, building standards and mortgage financing. These regulations often provide broad discretion to the administering governmental authorities. This can delay or increase the cost of development or homebuilding.

We also are subject to a variety of local, state, federal and foreign laws and regulations concerning protection of health and the environment. The particular environmental laws which apply to any given community vary greatly according to the community site, the site's environmental conditions and the present and former uses of the site. These environmental laws may result in delays, may cause us to incur substantial compliance, remediation, and/or other costs, and can prohibit or severely restrict development and homebuilding activity in certain environmentally sensitive regions or areas.

In March 2005, we received two requests for information pursuant to Section 308 of the Clean Water Act from Region 3 of the Environmental Protection Agency (the "EPA"). These requests sought information concerning storm water discharge practices in connection with completed, ongoing and planned homebuilding projects by subsidiaries in the states and district that comprise EPA Region 3. We also received a notice of violations for one project in Pennsylvania and requests for sampling plan implementation in two projects in Pennsylvania. The amount requested by the EPA to settle the asserted violations at the one project was less than \$100,000. We provided the EPA with information in response to its requests. The Department of Justice (DOJ) subsequently also has become involved in the review of our storm water discharge practices and enforcement with respect to them. We have subsequently received a notification with respect to another development from the EPA alleging violations of storm water discharge practices and requesting related information. We cannot predict the outcome of the review of these practices or estimate the costs that may be involved in resolving the matter. To the extent that the EPA or the DOJ asserts violations of regulatory requirements and requests injunctive relief or penalties, we will defend and attempt to resolve such asserted violations.

It can be anticipated that increasingly stringent requirements will be imposed on developers and homebuilders in the future. Although we cannot predict the effect of these requirements, they could result in time-consuming and expensive compliance programs and in substantial expenditures, which could cause delays and increase our cost of operations. In addition, the continued effectiveness of permits already granted or approvals already obtained is dependent upon many factors, some of which are beyond our control, such as changes in policies, rules and regulations and their interpretations and application.

On September 26, 2006, a stockholder derivative action was filed in the Superior Court of New Jersey, Monmouth County, against certain of our current and former officers and directors, captioned as *Michael Crady v. Ara K. Hovnanian et al.*, Civil Action No. L-4380-06. An amended complaint was filed on January 11, 2007, and a second amended complaint, adding Judy Wolf as a derivative plaintiff, was served on December 10, 2007. The second amended complaint alleges, among other things, breach of fiduciary duty in connection with certain of our historical stock options grants and exercises by certain current and former officers and directors. The second amended complaint seeks an award of damages, disgorgement and/or rescission of certain stock options or any proceeds therefrom, equitable relief, an accounting of certain stock option grants, certain corporate governance changes and an award of fees and expenses. The parties have reached a settlement in principle with respect to all matters and have petitioned the court to approve the settlement. The terms of the settlement will have no material impact on the Company.

The Company, Chief Executive Officer and President Ara K. Hovnanian, Executive Vice President and Chief Financial Officer J. Larry Sorsby and a former Division Vice-President have been named as defendants in a purported class action. The original complaint was filed on September 14, 2007 in the United States District Court for the Central District of California, captioned *Herbert Mankofsky v. J. Larry Sorsby*, and named only Mr. Sorsby as a defendant. On January 31, 2008, the court appointed Herbert Mankofsky as Lead Plaintiff. On February 19, 2008, the action was transferred to the United States District Court for the District of New Jersey. On March 10, 2008, plaintiff filed an amended complaint, captioned *In re Hovnanian Enterprises, Inc. Securities Litigation*, alleging among other things, that the defendants made false and misleading statements regarding the Company's business and future prospects with respect to the Company's acquisition and operation of First Home Builders of Florida in violation of federal securities laws.

Edgar Filing: HOVNANIAN ENTERPRISES INC - Form 10-Q

The Company has been named as a defendant in a purported class action suit filed May 30, 2007 in the United States District Court for the Eastern District of Pennsylvania, *Mark W. Mellar et al v. Hovnanian Enterprises, Inc. et al*,

asserting that the Company's sales of homes along with the financing of home purchases and the provision of title insurance by affiliated companies violated the Real Estate Settlement Procedures Act. The Company's Motion to Dismiss the complaint was denied by the Court on March 4, 2008 without prejudice. The case has been placed on the inactive list by the Court pending the outcome of another case with similar allegations against unrelated defendants.

A subsidiary of the Company has been named as defendant in a purported class action suit filed May 30, 2007 in the United States District Court for the Middle District of Florida, *Randolph Sewell et al v. D'Allesandro & Woodyard et al*, alleging violations of the federal securities acts, among other allegations, in connection with the sale of some of the Company's subsidiary's homes in Fort Myers, Florida. The Company's subsidiary has filed a Motion to Dismiss the complaint.

On April 4, 2008, K. Hovnanian Enterprises, Inc. ("K. Hovnanian"), a wholly-owned subsidiary of the Company, initiated arbitration proceedings against GMAC Model Home Finance, LLC ("GMAC") to resolve a dispute arising under a Model Purchase, Construction Management and Rental Agreement dated October 4, 2001 (the "Agreement"). The Company is the guarantor of K. Hovnanian's obligations under the Agreement. On March 31, 2008, GMAC advised K. Hovnanian that it was terminating all model home leases and intended to take possession of all model homes at issue based on the claim that K. Hovnanian had defaulted under the Agreement. In its arbitration demand, K. Hovnanian disputes the existence of any default and claims that GMAC has materially breached the Agreement by failing to fund certain construction costs. On April 25, 2008, GMAC asserted counterclaims against K. Hovnanian and the Company alleging that K. Hovnanian defaulted and that all leases were terminated. The parties expect that a final hearing will take place in August 2008.

8. As of April 30, 2008 and October 31, 2007, we are obligated under various performance letters of credit amounting to \$219.3 million and \$306.4 million, respectively.

9. On May 16, 2008, we entered into Amendment No. 1 (the "Amendment") to the Seventh Amended and Restated Credit Agreement (as amended, the "Amended Credit Agreement"). On May 27, 2008, in conjunction with the consummation of the issuance of \$600 million of 11 1/2% Senior Secured Notes due 2013 (See Note 10), the Amendment became effective. The Amendment decreases the aggregate amount of commitments under the Seventh Amended and Restated Credit Agreement from \$900 million to \$300 million. The maturity date of the facility remains May 31, 2011. Until July 31, 2008, the full amount under the Amended Credit Agreement will be available for the issuance of letters of credit and up to \$25 million under the Amended Credit Agreement will be available for revolving loans. After July 31, 2008, availability under the Amended Credit Agreement will equal the lesser of \$300 million and the amount available pursuant to the borrowing base and the sub-limit for revolving loans will be increased to \$100 million. Borrowings under the Amended Credit Agreement will bear interest at a rate equal, at the Company's option, to (1) one, two, three or six month LIBOR, plus 4.50%, (2) a base rate equal to the greater of PNC Bank, National Association's prime rate and the federal funds effective rate plus 0.50%, plus 2.75% and (3) an index rate based on daily LIBOR, plus 4.625%. In addition to paying interest on outstanding principal under the revolving facility, the Company will be required to pay an unused fee equal to 0.55% per annum on the daily average unused portion of the revolving facility. The Company will also pay a letter of credit fee of 4.50% per annum on the average outstanding face amount of letters of credit issued under the revolving facility. Notwithstanding the foregoing, the interest rate and fees payable under the revolving facility may not be less than the applicable interest rates and fees that would have been payable pursuant to the revolving facility that was in effect prior to March 7, 2008, the date of the Seventh Amended and Restated Credit Agreement. Borrowings under the Amended Credit Agreement may be used for general corporate purposes and working capital. A portion of the proceeds of the issuance of \$600 million of 11 1/2% Senior Secured Notes due 2013 were used to repay the outstanding balance of \$325.0 million at May 27, 2008 under the Seventh Amended and Restated Credit Agreement. As of May 27, 2008, the aggregate face amount of outstanding letters of credit was \$217.8 million. As of April 30, 2008 and October 31, 2007, there was \$325.0 million and \$206.8 million drawn under the Seventh Amended and Restated Credit Agreement, excluding letters of credit totaling \$219.3 million and \$306.4 million, respectively. Under the Amended Credit Agreement borrowing base limits, as of April 30, 2008, we would have had an excess of \$99.6 million available, which is limited by the terms of the Amended Credit Agreement, as described above.

We and each of our subsidiaries are guarantors under the Amended Credit Agreement, except for K. Hovnanian Enterprises, Inc. ("K. Hovnanian"), the borrower, our financial services subsidiaries, joint ventures and certain of our title insurance subsidiaries. All obligations under

the Amended Credit Agreement, and the guarantees

Edgar Filing: HOVNANIAN ENTERPRISES INC - Form 10-Q

of those obligations, will be secured, subject to permitted liens and other exceptions, by a first-priority lien on substantially all of the assets owned by us, K. Hovnanian and the guarantors.

The Amended Credit Agreement has covenants that restrict, among other things, the ability of the Company and certain of its subsidiaries, including K. Hovnanian, to incur additional indebtedness, pay dividends on, and make distributions with respect to, common and preferred stock and repurchase capital stock, make other restricted payments, make investments, dispose of assets, incur liens, consolidate, merge, sell or otherwise transfer all or substantially all of its assets and enter into certain transactions with affiliates. The Amended Credit Agreement also contains a covenant that requires that as of the last day of each fiscal quarter either (1) the ratio of our adjusted operating cash flow to fixed charges exceed 1.50 to 1.00 or (2) our liquidity equals or exceeds \$100 million. However, the Amended Credit Agreement does not contain any other financial maintenance covenants. The Amended Credit Agreement contains events of default which would permit the lenders to accelerate the loans if not cured within applicable grace periods, including the failure to make timely payments under the Amended Credit Agreement or other material indebtedness, the failure to satisfy covenants, the failure of the documents granting security for the obligations under the Amended Credit Agreement to be in full force and effect and specified events of bankruptcy and insolvency. As of April 30, 2008, we were in compliance with the covenants under the Seventh Amended and Restated Credit Agreement and are currently in compliance with the covenants under the Amended Credit Agreement.

Our wholly-owned mortgage banking subsidiary originates mortgage loans, primarily from the sale of our homes. Such mortgage loans are sold in the secondary mortgage market with servicing released within a short period of time. Our secured master repurchase agreement with a group of banks is a short-term borrowing facility that provides up to \$161 million through December 26, 2008. Interest is payable monthly at LIBOR plus 1.10%. The loan is secured by the mortgages held for sale and is repaid when we sell the underlying mortgage loans to permanent investors. We also had a commercial paper facility which provided for up to \$200 million through April 25, 2008 with interest payable monthly at LIBOR plus 0.40%. On November 28, 2007 we paid the outstanding balance in full and terminated the commercial paper facility. We believe that we will be able to extend the master repurchase agreement beyond its expiration date, but there can be no assurance of such extension. As of April 30, 2008, the aggregate principal amount of all borrowings under the master repurchase agreement was \$123.1 million. The master repurchase agreement requires K. Hovnanian American Mortgage, LLC to satisfy and maintain specified financial ratios and other financial condition tests. As of April 30, 2008, we were in compliance with the covenants of the master repurchase agreement.

10. On May 27, 2008, K. Hovnanian issued \$600 million (\$594.4 million net of discount) of 11 1/2% Senior Secured Notes due 2013. The notes will be secured, subject to permitted liens and other exceptions, by a second-priority lien on substantially all of the assets owned by us, K. Hovnanian and the guarantors to the extent such assets secure obligations under the Amended Credit Agreement. The notes are redeemable in whole or in part at our option at 102% of principal commencing November 1, 2010, 101% of principal commencing May 1, 2011 and 100% of principal commencing May 1, 2012. In addition, we may redeem up to 35% of the aggregate principal amount of the notes before May 1, 2011 with the net cash proceeds from certain equity offerings at 111.50% of principal. A portion of the net proceeds of the issuance were used to repay the outstanding balance under the Seventh Amended and Restated Credit Agreement.

At April 30, 2008, we had \$1,515.0 million of outstanding senior notes (\$1,510.8 million, net of discount), \$100 million 8% Senior Notes due 2012, \$215 million 6 1/2% Senior Notes due 2014, \$150 million 6 3/8% Senior Notes due 2014, \$200 million 6 1/4% Senior Notes due 2015, \$300 million 6 1/4% Senior Notes due 2016, \$300 million 7 1/2% Senior Notes due 2016, and \$250 million 8 5/8% Senior Notes due 2017. At April 30, 2008, we had \$400.0 million of outstanding senior subordinated notes, comprised of \$150 million 8 7/8% Senior Subordinated Notes due 2012, \$150 million 7 3/4% Senior Subordinated Notes due 2013, and \$100 million 6% Senior Subordinated Notes due 2010.

We and each of our subsidiaries are guarantors of the senior secured, senior and senior subordinated notes, except for K. Hovnanian, the issuer of the notes, our financial services subsidiaries, joint ventures and certain of our title insurance subsidiaries. (See Note 18). The indentures governing the senior secured notes, senior notes and senior subordinated notes contain restrictive covenants that limit, among other things, the ability of Hovnanian and certain of its subsidiaries, including K. Hovnanian, the issuer of the senior secured notes, senior notes and senior

subordinated notes, to incur additional indebtedness, pay dividends and make distributions on common and preferred stock, repurchase senior and senior subordinated notes (with respect to the senior secured notes indenture), make other restricted payments, make investments, sell certain assets, incur liens, consolidate, merge, sell or otherwise dispose of all or substantially all of its assets and enter into certain transactions with affiliates. If our consolidated fixed charge coverage ratio, as defined in the indentures governing our senior secured notes, senior notes and senior subordinated notes is less than 2.0 to 1.0, we are restricted from making certain payments, including dividends, and from incurring indebtedness other than certain permitted indebtedness, refinancing indebtedness and non-recourse indebtedness. As a result of this restriction, we are currently restricted from paying dividends on our 7.625% Series A Preferred Stock and will continue to be restricted during the remainder of fiscal 2008. If current market trends continue or worsen, we anticipate that we will continue to be restricted from paying dividends into fiscal 2009. The restriction on making preferred dividend payments under our bond indentures will not affect our compliance with any of the covenants contained in the Amended Credit Agreement and will not permit the lenders under the Amended Credit Agreement to accelerate the loans. The indentures also contain events of default which would permit the holders of the senior secured notes, senior notes and senior subordinated notes to declare those notes to be immediately due and payable if not cured within applicable grace periods, including the failure to make timely payments on the notes or other material indebtedness, the failure to satisfy covenants and specified events of bankruptcy and insolvency and, with respect to the indenture governing the senior secured notes, the failure of the documents granting security for the senior secured notes to be in full force and effect and the failure of the liens on any material portion of the collateral securing the senior secured notes to be valid and perfected. As of April 30, 2008, we were in compliance with the covenants of the indentures governing our outstanding notes. Under the terms of the indentures, we have the right to make certain redemptions and depending on market conditions and covenant restrictions, may do so from time to time. We may also make open market purchases from time to time depending on market conditions and covenant restrictions.

11. Per Share Calculations - Basic earnings per common share is computed using the weighted average number of shares outstanding. Diluted earnings per common share is computed using the weighted average number of shares outstanding adjusted for the incremental shares attributed to non-vested stock and outstanding options to purchase common stock. However, for the three and six months ended April 30, 2008 and 2007, there were no incremental shares attributed to non-vested stock and outstanding options to purchase common stock because we had a net loss for the period, and any incremental shares would not be dilutive.

12. On July 12, 2005, we issued 5,600 shares of 7.625% Series A Preferred Stock, with a liquidation preference of \$25,000. Dividends on the Series A Preferred Stock are not cumulative and are paid at an annual rate of 7.625%. The Series A Preferred Stock is not convertible into the Company's common stock and is redeemable in whole or in part at our option at the liquidation preference of the shares beginning on the fifth anniversary of their issuance. The Series A Preferred Stock is traded as depositary shares, with each depositary share representing 1/1000th of a share of Series A Preferred Stock. The depositary shares are listed on the Nasdaq Global Market under the symbol HOVNP. In January and April 2007, we paid \$2.7 million of dividends on the Series A Preferred Stock. In January and April 2008, we did not make any dividend payments as a result of covenant restrictions in the indentures governing our Senior and Senior Subordinated Notes. (See Note 10)

13. Operating and Reporting Segments - SFAS 131, *Disclosures About Segments of an Enterprise and Related Information* ("SFAS 131"), defines operating segments as a component of an enterprise for which discrete financial information is available and is reviewed regularly by the chief operating decision-maker, or decision-making group, to evaluate performance and make operating decisions. The Company has identified its chief operating decision-maker as the Chief Executive Officer. Under the definition, we have more than 49 homebuilding operating segments, and therefore, in accordance with paragraph 24 of SFAS 131, it is impractical to provide segment disclosures for this many segments. As such, we have aggregated the homebuilding operating segments into six reportable segments.

The Company's operating segments are aggregated into reportable segments in accordance with SFAS 131, based primarily upon geographic proximity, similar regulatory environments, land acquisition characteristics and similar methods used to construct and sell homes. The Company's reportable segments consist of:

Homebuilding:

- (1) Northeast (New Jersey, New York, Pennsylvania)
- (2) Mid-Atlantic (Delaware, Maryland, Virginia, West Virginia, Washington D.C.)
- (3) Midwest (Illinois, Kentucky, Michigan, Minnesota, Ohio)
- (4) Southeast (Florida, Georgia, North Carolina, South Carolina)
- (5) Southwest (Arizona, Texas)
- (6) West (California)

Financial Services

Operations of the Company's Homebuilding segments primarily include the sale and construction of single-family attached and detached homes, attached townhomes and condominiums, mid-rise and high-rise condominiums, urban infill and active adult homes in planned residential developments. Operations of the Company's Financial Services segment include mortgage banking and title services to the homebuilding operations' customers. We do not retain or service mortgages that we originate but rather sell the mortgages and related servicing rights to investors.

Evaluation of segment performance is based primarily on operating earnings from continuing operations before provision for income taxes ((Loss) income before income taxes). (Loss) income before income taxes for the Homebuilding segments consist of revenues generated from the sales of homes and land, (loss) income from unconsolidated entities and management fees and other income, net, less the cost of homes and land sold, selling, general and administrative expenses and minority interest expense, net. Income before income taxes for the Financial Services segment consist of revenues generated from mortgage financing, title insurance and closing services, less the cost of such services and certain selling, general and administrative expenses incurred by the Financial Services segment.

Operational results of each segment are not necessarily indicative of the results that would have occurred had the segment been an independent, stand-alone entity during the periods presented.

Edgar Filing: HOVNIANIAN ENTERPRISES INC - Form 10-Q

Financial information relating to the Company's operations was as follows:

14. Variable Interest Entities - In January 2003, the Financial Accounting Standards Board (FASB) issued Interpretation No. 46, Consolidation of Variable Interest Entities (FIN 46). A Variable Interest Entity (VIE) is created when (i) the equity investment at risk is not sufficient to permit

the entity to finance its activities

without additional subordinated financial support from other parties or (ii) equity holders either (a) lack direct or indirect ability to make decisions about the entity, (b) are not obligated to absorb expected losses of the entity or (c) do not have the right to receive expected residual returns of the entity if they occur. If an entity is deemed to be a VIE pursuant to FIN 46, an enterprise that absorbs a majority of the expected losses of the VIE is considered the primary beneficiary and must consolidate the VIE.

Based on the provisions of FIN 46, we have concluded that whenever we option land or lots from an entity and pay a non-refundable deposit, a VIE is created under condition (ii) (b) and (c) of the previous paragraph. We are deemed to have provided subordinated financial support, which refers to variable interests that will absorb some or all of an entity's expected theoretical losses if they occur. For each VIE created with a significant nonrefundable option fee (we currently define significant as greater than \$100,000 because we have determined that in the aggregate the VIEs related to deposits of this size or less are not material), we compute expected losses and residual returns based on the probability of future cash flows as outlined in FIN 46. If we are deemed to be the primary beneficiary of the VIE, we consolidate it on our balance sheet. The fair value of the VIE's inventory is reported as Consolidated inventory not owned - variable interest entities.

Typically, the determining factor in whether or not we are the primary beneficiary is the deposit amount as a percentage of the total purchase price, because it determines the amount of the first risk of loss we take on the contract. The higher this percentage deposit, the more likely we are to be the primary beneficiary. Other important criteria that impact the outcome of the analysis, are the probability of getting the property through the approval process for residential homes, because this impacts the ultimate value of the property, as well as who is the responsible party (seller or buyer) for funding the approval process and development work that will take place prior to our decision to exercise the option.

Management believes FIN 46 was not clearly thought out for application in the homebuilding industry for land and lot options. Under FIN 46, we can have an option and put down a small deposit as a percentage of the purchase price and still have to consolidate the entity. Our exposure to loss as a result of our involvement with the VIE is only the deposit, not its total assets consolidated on our balance sheet. In certain cases, we will have to place inventory the VIE has optioned to other developers on our balance sheet. In addition, if the VIE has creditors, its debt will be placed on our balance sheet even though the creditors have no recourse against us. Based on these observations, we believe consolidating VIEs based on land and lot option deposits does not reflect the economic realities or risks of owning and developing land.

At April 30, 2008, all 16 VIEs we were required to consolidate were the result of our options to purchase land or lots from the selling entities. We paid cash or issued letters of credit deposits to these VIEs totaling \$11.8 million. Our option deposits represent our maximum exposure to loss. The fair value of the property owned by these VIEs was \$102.8 million. Since we do not own an equity interest in any of the unaffiliated VIEs that we must consolidate pursuant to FIN 46, we generally have little or no control or influence over the operations of these entities or their owners. When our requests for financial information are denied by the land sellers, certain assumptions about the assets and liabilities of such entities are required. In most cases, we determine the fair value of the assets of the consolidated entities based on the remaining contractual purchase price of the land or lots we are purchasing. In these cases, it is assumed that the entities have no debt obligations and the only asset recorded is the land or lots we have the option to buy with a related offset to minority interest for the assumed third party investment in the variable interest equity. At April 30, 2008, the balance reported in minority interest from inventory not owned was \$38.6 million. Creditors of these 16 VIEs have no recourse against us.

We will continue to control land and lots using options. Not all of our deposits are with VIEs. Including the deposits with the 16 VIEs described above, at April 30, 2008, we have total cash and letters of credit deposits amounting to approximately \$119.3 million to purchase land and lots with a total purchase price of \$1,595.0 billion. The maximum exposure to loss is limited to the deposits, although some deposits are refundable at our request or refundable if certain conditions are not met.

15. Investments in Unconsolidated Homebuilding and Land Development Joint Ventures - We enter into homebuilding and land development joint ventures from time to time as a means of accessing lot positions, expanding our market opportunities, establishing strategic alliances, managing our risk profile, leveraging our capital base, and enhancing returns on capital. Our homebuilding joint ventures are generally entered

into with third

Edgar Filing: HOVNANIAN ENTERPRISES INC - Form 10-Q

party investors to develop land and construct homes that are sold directly to third party homebuyers. Our land development joint ventures include those entered into with developers, other homebuilders, and financial investors to develop finished lots for sale to the joint venture members or other third parties. The tables set forth below summarize the combined financial information related to our unconsolidated homebuilding and land development joint ventures that are accounted for under the equity method.

		April 30, 2008	
	Homebuilding	Land Development	Total
Assets:			
Cash and cash equivalents	\$30,231	\$2,627	\$32,858

As of April 30, 2008 and October 31, 2007, we had advances outstanding of approximately \$23.7 million and \$23.4 million, respectively, to these unconsolidated joint ventures, which were included in the accounts payable and accrued liabilities balances in the table above. On our Hovnanian Enterprises, Inc. Condensed Consolidated Balance Sheets our Investments in and advances to unconsolidated joint ventures amounted to \$166.4 million and \$176.4 million at April 30, 2008 and October 31, 2007, respectively.

	For the Three Months Ended April 30, 2008

Loss from unconsolidated joint ventures is reflected as a separate line in the accompanying Condensed Consolidated Financial Statements and reflects our proportionate share of the loss of these unconsolidated homebuilding and land development joint ventures. The minor difference between our share of the loss from these unconsolidated joint ventures disclosed here compared to the Condensed Consolidated Statements of Operations is due to the reclass of the intercompany portion of management fee income from certain joint ventures and the deferral of income for lots purchased by us from certain joint ventures. Our ownership interests in the joint ventures vary but are generally less than or equal to 50%. In determining whether or not we must consolidate joint ventures where we are the manager of the joint venture, we consider the guidance in EITF 04-5 in assessing whether the other partners have specific rights to overcome the presumption of control by us as the manager of the joint venture. In most cases, the presumption is overcome because the joint venture agreements require that both partners agree on establishing the operating and capital decisions of the partnership, including budgets, in the ordinary course of business.

Typically, our unconsolidated joint ventures obtain separate project specific mortgage financing for each venture. Generally, the amount of such financing is limited to no more than 50% of the joint venture's total assets, and such financing is obtained on a non-recourse basis. Other than guarantees limited only to completion of development, environmental indemnification and standard indemnification for fraud and misrepresentation including voluntary bankruptcy, we have no other guarantees associated with unconsolidated joint ventures. In some instances, the joint venture entity is considered a variable interest entity (VIE) under FIN 46 due to the returns being capped to the equity holders; however, in these instances, we are not the primary beneficiary, therefore we do not consolidate these entities.

16. Recent Accounting Pronouncements - The Company adopted the provisions of FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes (FIN 48), effective November 1, 2007. FIN 48 creates a single model to address accounting for uncertainty in tax positions and clarifies accounting for income taxes by prescribing a minimum recognition threshold a tax position is required to meet before being recognized in the financial statements. FIN 48 also provides guidance on de-recognition, measurement, classification, interest and penalties, accounting in interim periods, disclosures, and transactions.

The November 1, 2007 adoption of FIN 48 resulted in a \$8.7 million increase in income tax liabilities and a corresponding charge to beginning retained earnings. As of the date of adoption, we had \$25.3 million of unrecognized tax benefits, including \$3.3 million of accrued interest and penalties, all of which, if recognized, would affect the effective tax rate. We recognize interest and penalties related to income taxes in income tax expense. Such amounts totaled \$0.4 and \$0.1 million of income tax expense for the three and six months ended April 30, 2008.

On November 29, 2006, the FASB ratified EITF Issue No. 06-8, "Applicability of the Assessment of a Buyer's Continuing Investment Under FASB Statement No. 66, Accounting for Sales of Real Estate, for Sales of Condominiums." EITF 06-8 states that the adequacy of the buyer's continuing investment under SFAS 66 should be assessed in determining whether to recognize profit under the percentage-of-completion method on the sale of individual units in a condominium project. This consensus could require that additional deposits be collected by developers of condominium projects that wish to recognize profit during the construction period under the percentage-of-completion method. EITF 06-8 is effective for fiscal years beginning after March 15, 2007. Implementation of EITF No. 06-8 did not have a material impact on our consolidated financial position, results of operations or cash flows.

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities Including an amendment of FASB Statement No. 115" ("SFAS 159"). The statement permits entities to choose to measure certain financial assets and liabilities at fair value. Unrealized gains and losses on items for which the fair value option has been elected are reported in earnings. SFAS 159 is effective as of the beginning of an entity's fiscal year that begins after November 15, 2007 and interim periods within those fiscal years. We are currently evaluating the impact, if any, that SFAS 159 may have on our consolidated financial position, results of operations or cash flows.

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements" ("SFAS 157"), which defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. SFAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. Earlier application is encouraged provided that the reporting entity has not yet issued financial statements for the fiscal year including financial statements for an interim period within that fiscal year. We are currently evaluating the impact, if any, that SFAS 157 may have on our consolidated financial position, results of operations or cash flows.

In November 2007, the Securities and Exchange Commission issued Staff Accounting Bulletin (SAB) No. 109, "Written Loan Commitments Recorded at Fair Value Through Earnings." SAB No. 109, which revises and rescinds portions of SAB No. 105, "Application of Accounting Principles to Loan Commitments," and which specifically states that the expected net future cash flows related to the associated servicing of a loan should be included in the measurements of all written loan commitments that are accounted for at fair value through earnings. The

Edgar Filing: HOVNANIAN ENTERPRISES INC - Form 10-Q

provisions of SAB No. 109 are applicable to written loan commitments issued or modified in fiscal quarters beginning after December 15, 2007. The adoption of SAB No. 109 did not have a material impact on our consolidated financial position, results of operations or cash flows.

In December 2007, the FASB issued SFAS No. 160, *Non-controlling Interests in Consolidated Financial Statements* an amendment of ARB No. 51 (SFAS 160). The statement clarifies the accounting for non-controlling interests and establishes accounting and reporting standards for the non-controlling interest in a subsidiary, including classification as a component of equity. SFAS No. 160 is effective for fiscal years beginning on or after December 15, 2008, and earlier adoption is prohibited. We are currently evaluating the impact, if any, that SFAS 160 may have on our consolidated financial position, results of operations or cash flows.

In December 2007, the FASB issued SFAS No. 141 (revised 2007), *Business Combinations* (SFAS 141(R)). The statement replaces SFAS No. 141, *Business Combinations* , and provides revised guidance for recognizing and measuring identifiable assets and goodwill acquired, liabilities assumed, and any non-controlling interest in the acquiree. It also provides disclosure requirements to enable users of the financial statements to evaluate the nature and financial effects of the business combination. SFAS No. 141(R) is effective for fiscal years beginning on or after December 15, 2008, and is to be applied prospectively. We are currently evaluating the impact, if any, that SFAS 141(R) may have on our consolidated financial positions, results of operations or cash flows.

In March 2008, the FASB issued SFAS No. 161, *Disclosures About Derivative Instruments and Hedging Activities* an amendment of FASB Statement No. 133 (SFAS 161). SFAS 161 expands the disclosure requirements in SFAS 133, *Accounting for Derivative Instruments and Hedging Activities*, regarding an entity's derivative instruments and hedging activities. SFAS 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008. We are currently evaluating the impact, if any, SFAS 161 may have on our consolidated financial positions, results of operations or cash flows.

17. *Intangible Assets* The intangible assets recorded on our balance sheet are goodwill, which has an indefinite life, and definite life intangibles, including tradenames, architectural designs, distribution processes, and contractual agreements resulting from our acquisitions. We no longer amortize goodwill, but instead assess it periodically for impairment. We performed such assessments utilizing a fair value approach as of October 31, 2007. We also assess definite life intangibles for impairment whenever events or changes indicate that their carrying amount may not be recoverable. An intangible impairment is recorded when events and circumstances indicate the undiscounted future cash flows generated from the business unit with the intangible asset are less than the net assets of the business unit. The impairment loss is the lesser of the difference between the net assets of the business unit and the discounted future cash flows generated from the applicable business unit, which approximates fair value and the intangible asset balance. The estimates used in the determination of the estimated cash flows and fair value of a business unit are based on factors known to us at the time such estimates are made and our expectations of future operations and economic conditions. Should the estimates or expectations used in determining estimated cash flows or fair value decrease or differ from current estimates in the future, we may be required to recognize additional impairments. However, we only have \$3.0 million remaining in intangible assets and \$32.7 million remaining in goodwill so any future impairments are limited to these balances. Any intangible impairment charge is included in Intangible amortization on the Condensed Consolidated Statements of Operations. We are amortizing the remaining definite life intangibles over their expected useful lives, ranging from one to four years.

18. Hovnanian Enterprises, Inc., the parent company (the "Parent"), is the issuer of publicly traded common stock and preferred stock. One of its wholly owned subsidiaries, K. Hovnanian Enterprises, Inc. (the *Subsidiary Issuer*), acts as a finance entity that as of April 30, 2008 had issued and outstanding \$400.0 million of Senior Subordinated Notes, \$1,515.0 million face value of Senior Notes, and \$325.0 million drawn under the Seventh Amended and Restated Credit Agreement. On May 27, 2008, the Subsidiary Issuer issued \$600 million of 11 1/2% Senior Secured Notes due 2013 and the Amendment to the Seventh Amended and Restated Credit Agreement became effective (see Notes 9 and 10). The Senior Secured Notes, Senior Subordinated Notes, Senior Notes, and the current and former revolving Credit Agreement are fully and unconditionally guaranteed by the Parent.

In addition to the Parent, each of the wholly owned subsidiaries of the Parent other than the Subsidiary Issuer (collectively, the *Guarantor Subsidiaries*), with the exception of our financial service subsidiaries and joint ventures (collectively, the *Non-guarantor Subsidiaries*), have guaranteed fully and unconditionally, on a joint and

several basis, the obligations of the Subsidiary Issuer to pay principal and interest under the Senior Secured Notes, Senior Notes, Senior Subordinated Notes, and the Amended Credit Agreement.

In lieu of providing separate audited financial statements for the Guarantor Subsidiaries we have included the accompanying condensed consolidating financial statements. Management does not believe that separate financial statements of the Guarantor Subsidiaries are material to investors. Therefore, separate financial statements and other disclosures concerning the Guarantor Subsidiaries are not presented.

The following condensed consolidating financial statements present the results of operations, financial position, and cash flows of (i) the Parent, (ii) the Subsidiary Issuer, (iii) the Guarantor Subsidiaries, (iv) the Non-guarantor Subsidiaries, and (v) the eliminations to arrive at the information for Hovnanian Enterprises, Inc. on a consolidated basis.

19. Subsequent Events - On May 14, 2008, we issued 14,000,000 shares of our Class A Common Stock for net proceeds of \$125.9 million.

On May 27, 2008, we issued \$600 million of 11 1/2% Senior Secured Notes, and the Amendment to the Seventh Amended and Restated Credit Agreement reducing the aggregate amount of commitments from \$900 million to \$300 million became effective. See Notes 9 and 10 to the Condensed Consolidated Financial Statements for further information.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

During the second half of our fiscal year ended October 31, 2006 and continuing through the first half of 2008, the U.S. housing market was impacted by a lack of consumer confidence, increasing home foreclosure rates and large supplies of resale and new home inventories. The result has been weakened demand for new homes, slower sales, higher than normal cancellation rates, and increased price discounts and other sales incentives to attract homebuyers. Additionally, the availability of certain mortgage financing products became more constrained starting in February 2007 when the mortgage industry began to more closely scrutinize sub-prime, Alt-A, and other non-prime mortgage products. The combination of these homebuilding industry and related mortgage financing developments resulted in significant decreases in our gross margins during fiscal 2007 and the first and second quarters of fiscal 2008 compared with the same periods in the prior years. Additionally, we incurred total land-related charges of \$457.8 million and \$336.0 million for the year ended October 31, 2007 and the six months ended April 30, 2008, respectively. These charges resulted from the write-off of deposit and pre-acquisition costs of \$126.0 million and \$35.8 million, respectively, related to land we no longer plan to pursue and impairments on owned inventory of \$331.8 million and \$300.2 million, respectively, for the fiscal year ended October 31, 2007 and the six months ended April 30, 2008. Of the impairments on owned inventory for the six months ended April 30, 2008, 76.0% came from our West segment, which has continued to deteriorate more than our other segments. Segment level detail for inventory impairments and option write-offs is included in Note 5 to the Condensed Consolidated Financial Statements. In addition to land related charges, the continued weakening of the market resulted in impairments of our intangible assets of \$135.2 million during fiscal 2007, the majority of which related to intangibles in our Southeast segment. There have been no additional intangible asset impairments recorded in fiscal 2008.

We have exposure to additional impairments of our inventories, which, as of April 30, 2008, have a book value of \$2.9 billion, net of \$480.2 million of impairments recorded on 95 of our open for sale and/or under development communities, and \$79.1 million of impairments recorded on 8 of our communities in planning. We also have \$236.7 million invested in 27,191 lots under option, including cash and letters of credit deposits of \$119.2 million as of April 30, 2008. We will record a write-off for the amounts associated with an option if we determine it is probable we will not exercise it. As of April 30, 2008, we have total investments in, and advances to, unconsolidated joint ventures of \$166.4 million. Each of our joint ventures assesses its inventory and other long-lived assets for impairment in accordance with U.S. GAAP, which has resulted in reductions in our investment in joint ventures of \$50.1 million from our second half of fiscal 2006 through April 30, 2008. We still have exposure to future write-downs of our investment in unconsolidated joint ventures, if conditions continue to deteriorate in the markets that our joint ventures operate. With respect to goodwill and intangibles, there is a lesser risk of further exposure to impairments because we only have a total balance of \$32.7 million of goodwill, and \$3.0 million of definite life intangibles as of April 30, 2008.

We continue to operate our business with the expectation that difficult market conditions will continue to impact us for at least the near term. We have adjusted our approach to land acquisition and construction practices and continue to shorten our land pipeline, reduce production volumes, and balance home price and profitability with sales pace. We are delaying planned land purchases and renegotiating land prices and have significantly reduced our total number of controlled lots owned and under option. Additionally, we are significantly reducing the number of speculative homes put into production. While we will continue to purchase select land positions where it makes strategic and economic sense to do so, we currently anticipate minimal investment in new land parcels in the second

half of fiscal 2008. We have also closely evaluated and made reductions in selling, general and administrative expenses, including corporate general and administrative expenses, due in large part to a 49% reduction head count from our peak in June 2006. Given the persistence of these difficult market conditions, improving the efficiency of our selling, general and administrative expenses will continue to be a significant area of focus. We believe that these measures will help to strengthen our market position and allow us to take advantage of opportunities that will develop in the future.

CRITICAL ACCOUNTING POLICIES

Management believes that the following critical accounting policies affect its more significant judgments and estimates used in the preparation of its consolidated financial statements:

Business Combinations When we make an acquisition of another company, we use the purchase method of accounting in accordance with the Statement of Financial Accounting Standards (SFAS) No. 141 Business Combinations. Under SFAS 141, we record as our cost the estimated fair value of the acquired assets less liabilities assumed. Any difference between the cost of an acquired company and the sum of the fair values of tangible and intangible assets less liabilities is recorded as goodwill. The reported income of an acquired company includes the operations of the acquired company from the date of acquisition.

Income Recognition from Home and Land Sales We are primarily engaged in the development, construction, marketing and sale of residential single-family and multi-family homes where the planned construction cycle is less than 12 months. For these homes, in accordance with SFAS No. 66, Accounting for Sales of Real Estate (SFAS 66), revenue is recognized when title is conveyed to the buyer, adequate initial and continuing investments have been received and there is no continued involvement. In situations where the buyer's financing is originated by our mortgage subsidiary and the buyer has not made an adequate initial or continuing investment as prescribed by SFAS 66, the profit on such sales is deferred until the sale of the related mortgage loan to a third-party investor has been completed.

Additionally, in certain markets, we sell lots to customers, transferring title, collecting proceeds, and entering into contracts to build homes on these lots. In these cases, we do not recognize the revenue from the lot sale until we deliver the completed home and have no continued involvement related to that home. The cash received on the lot is recorded as a component of inventory until the revenue is recognized.

Income Recognition from High-Rise/Mid-Rise Projects We are developing several high-rise/mid-rise buildings that will take more than 12 months to complete. If these buildings qualify, revenues and costs are recognized using the percentage of completion method of accounting in accordance with SFAS 66. Under the percentage of completion method, revenues and costs are to be recognized when construction is beyond the preliminary stage, the buyer is committed to the extent of having a sufficient initial and continuing investment that the buyer cannot require to be refunded except for non-delivery of the home, sufficient homes in the building have been sold to ensure that the property will not be converted to rental property, the sales prices are collectible and the aggregate sales proceeds and the total cost of the building can be reasonably estimated. We currently do not have any buildings that meet these criteria, therefore the revenues from delivering homes in high-rise/mid-rise buildings are recognized when title is conveyed to the buyer, adequate cash payment has been received and there is no continued involvement with respect to that home.

Income Recognition from Mortgage Loans Our Financial Services segment originates mortgages, primarily for our homebuilding customers. We use mandatory mortgage-backed securities (MBS) forward commitments and investor commitments to hedge our mortgage-related interest rate exposure on agency and government loans. These instruments involve, to varying degrees, elements of credit and interest rate risk. Credit risk associated with MBS forward commitments and loan sales transactions is managed by limiting our counterparties to investment banks,

Edgar Filing: HOVNANIAN ENTERPRISES INC - Form 10-Q

federally regulated bank affiliates and other investors meeting our credit standards. Our risk, in the event of default by the purchaser, is the difference between the contract price and fair value of the MBS forward commitments. In an effort to reduce our exposure to the marketability and disposal of non-agency and non-governmental loans, including Alt-A (FICO scores above 680 and depending on credit criteria) and sub-prime loans (FICO scores above 580 and depending on credit criteria), we require our Financial Services segment to either presell or broker all of these loans, on an individual loan basis as soon as they are committed to by

the customer. However, because of the recent tightening by mortgage lenders our origination of Alt-A and sub-prime loans has declined to only 15.1% and 0.5%, respectively, of the total loans we originated in the first half of 2008, as compared to 27.6% and 6.2%, respectively, for the same period last year. In addition, of the \$136.3 million of mortgage loans held for sale as of April 30, 2008 only \$3.1 million were Alt-A loans and none were sub-prime loans. The Alt-A and sub-prime loans have been replaced by Federal Housing Administration (FHA) loans. For the six months ended April 30, 2008 and 2007, FHA loans represented 24.2% and 7.0%, respectively, of our total loans. Profits and losses relating to the sale of mortgage loans are recognized when legal control passes to the buyer of the mortgage and the sales price is collected.

Interest Income Recognition for Mortgage Loans Receivable and Recognition of Related Deferred Fees and Costs - Interest income is recognized as earned for each mortgage loan during the period from the loan closing date to the sale date when legal control passes to the buyer and the sale price is collected. All fees related to the origination of mortgage loans and direct loan origination costs are deferred and recorded as either (a) an adjustment to the related mortgage loans upon the closing of a loan or (b) recognized as a deferred asset or deferred revenue while the loan is in process. These fees and costs include loan origination fees, loan discount, and salaries and wages. Such deferred fees and costs relating to the closed loans are recognized over the life of the loans as an adjustment of yield or taken into operations upon sale of the loan to a permanent investor.

Inventories - Inventories consist of land, land development, home construction costs, capitalized interest and construction overhead and are stated at cost, net of impairment losses, if any. Construction costs are accumulated during the period of construction and charged to cost of sales under specific identification methods. Land, land development, and common facility costs are allocated based on buildable acres to product types within each community, then charged to cost of sales equally based upon the number of homes to be constructed in each product type.

The recoverability of inventories and other long-lived assets are assessed in accordance with the provisions of Statement of Financial Accounting Standards No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets (SFAS 144). SFAS 144 requires long-lived assets, including inventories, held for development to be evaluated for impairment based on undiscounted future cash flows of the assets at the lowest level for which there are identifiable cash flows. As such, we evaluate inventories for impairment at the individual community level, the lowest level of discrete cash flows that we measure.

We evaluate inventories of communities under development for impairment when indicators of potential impairment are present. Indicators of impairment include, but are not limited to, decreases in local housing market values, decreases in gross margins or sales absorption rates, decreases in net sales prices (base sales price net of sales incentives), or actual or projected operating or cash flow losses. The assessment of communities for indication of impairment is performed quarterly, primarily by completing detailed budgets for all of our communities, and identifying those communities with a projected operating loss for any projected fiscal year or for the entire projected community life. For those communities with projected losses, we estimate remaining undiscounted future cash flows and compare those to the carrying value of the community, to determine if the carrying value of the asset is recoverable.

The projected operating profits, losses or cash flows of each community can be significantly impacted by our estimates of the following:

- future base selling prices;
- future home sales incentives;
- future home construction and land development costs; and
- future sales absorption pace and cancellation rates.

These estimates are dependent upon specific market conditions for each community. While we consider available information to determine what we believe to be our best estimates as of the end of a quarterly reporting period, these estimates are subject to change in future reporting periods as facts and circumstances change. Local market-specific conditions that may impact our estimates for a community include:

Edgar Filing: HOVNANIAN ENTERPRISES INC - Form 10-Q

the intensity of competition within a market, including publicly available home sales prices and home sales incentives offered by our competitors;

the current sales absorption pace for both our communities and competitor communities;

community specific attributes, such as location, availability of lots in the market, desirability and uniqueness of our community, and the size and style of homes currently being offered;

potential for alternative product offerings to respond to local market conditions;

changes by management in the sales strategy of the community; and

current local market economic and demographic conditions and related trends and forecasts.

These and other local market-specific conditions that may be present are considered by management in preparing projection assumptions for each community. The sales objectives can differ between our communities, even within a given market. For example, facts and circumstances in a given community may lead us to price our homes with the objective of yielding a higher sales absorption pace, while facts and circumstances in another community may lead us to price our homes to minimize deterioration in our gross margins, although it may result in a slower sales absorption pace. In addition, the key assumptions included in our estimate of future undiscounted cash flows may be interrelated. For example, a decrease in estimated base sales price or an increase in homes sales incentives may result in a corresponding increase in sales absorption pace. Additionally, a decrease in the average sales price of homes to be sold and closed in future reporting periods for one community that has not been generating what management believes to be an adequate sales absorption pace may impact the estimated cash flow assumptions of a nearby community. Changes in our key assumptions, including estimated construction and development costs, absorption pace, and selling strategies could materially impact future cash flow and fair value estimates. Due to the number of possible scenarios that would result from various changes in these factors, we do not believe it is possible to develop a sensitivity analysis with a level of precision that would be meaningful to an investor.

If the undiscounted cash flows are more than the carrying value of the community, then the carrying amount is recoverable and no impairment adjustment is required. However, if the undiscounted cash flows are less than the carrying amount, then the community is deemed impaired and is written-down to its fair value. We determine the estimated fair value of each community by determining the present value of the estimated future cash flows at a discount rate of approximately 15%. The estimated future cash flow assumptions are the same for both our recoverability and fair value assessments. Should the estimates or expectations used in determining estimated cash flows or fair value decrease or differ from current estimates in the future, we may be required to recognize additional impairments related to current and future communities. The impairment of a community is allocated to each lot on a straight line basis.

Inventories held for sale, which are land parcels where we have decided not to build homes, are a very small portion of our total inventories, and are reported at the lower of carrying amount or fair value less costs to sell. In determining whether land held for sale is impaired, management considers, among other things, prices for land in recent comparable sale transactions, market analysis studies, which include the estimated price a willing buyer would pay for the land (other than in a forced liquidation sale) and recent bona fide offers received from outside third parties.

From time to time, we write-off deposits, and approval, engineering and capitalized interest costs when we decide not to exercise options to buy land in various locations, or we redesign communities and/or abandon certain engineering costs. In deciding not to exercise a land option, we take into consideration changes in market conditions, the timing of required land takedowns, the willingness of land sellers to modify terms of the land option contract (including timing of land takedowns), the availability and best use of our capital, among other factors. The write-off is recorded in the period it is deemed probable that the optioned property will not be acquired. In certain instances, we have been able to recover deposits and other preacquisition costs which were previously written off. These recoveries are generally not significant in comparison to the total costs written off.

The impairment of communities under development and inventories held for sale, and the charge for land option write-offs are reflected on the Consolidated Statement of Operations in a separate line entitled Homebuilding Inventory impairment loss and land option write-offs. See also Note 5 to the Condensed Consolidated Financial Statements for inventory impairment and write-off amounts by segment.

Insurance Deductible Reserves For homes delivered in fiscal 2008 and 2007, our deductible is \$20 million per occurrence with an aggregate \$20 million for liability claims and an aggregate \$21.5 million for

construction defect claims under our general liability insurance. Our worker's compensation insurance deductible is \$0.5 million per occurrence in fiscal 2008 and fiscal 2007. Reserves have been established based upon actuarial analysis of estimated losses for fiscal 2008 and fiscal 2007. We engage a third party actuary that uses our historical warranty data to estimate our unpaid claims, claim adjustment expenses and incurred but not reported claims reserves for the risks that we are assuming under the general liability and workers compensation programs. The estimates include provisions for inflation, claims handling and legal fees. These estimates are subject to a high degree of variability due to uncertainties such as trends in construction defect claims relative to our markets and the types of products we build, claim settlement patterns, insurance industry practices and legal interpretations, among others. Because of the high degree of judgment required in determining these estimated liability amounts, actual future costs could differ significantly from our currently estimated amounts.

Interest - In accordance with SFAS 34 Capitalization of Interest Cost, interest incurred is first capitalized to properties under development during the land development and home construction period and expensed along with the associated cost of sales as the related inventories are sold. Interest in excess of interest capitalized or interest incurred on borrowings directly related to properties not under development is expensed immediately in Other interest.

Land Options - Costs are capitalized when incurred and either included as part of the purchase price when the land is acquired or charged to operations when we determine we will not exercise the option. In accordance with Financial Accounting Standards Board (FASB) Interpretation No. 46R (FIN 46R) Consolidation of Variable Interest Entities, an interpretation of Accounting Research Bulletin No. 51, SFAS No. 49 Accounting for Product Financing Arrangements (SFAS 49), SFAS No. 98 Accounting for Leases (SFAS 98), and Emerging Issues Task Force (EITF) No. 97-10 The Effects of Lessee Involvement in Asset Construction (EITF 97-10), we record on the Condensed Consolidated Balance Sheets specific performance options, options with variable interest entities, and other options under Consolidated inventory not owned with the offset to Liabilities from inventory not owned and Minority interest from inventory not owned.

Unconsolidated Homebuilding and Land Development Joint Ventures - Investments in unconsolidated homebuilding and land development joint ventures are accounted for under the equity method of accounting. Under the equity method, we recognize our proportionate share of earnings and losses earned by the joint venture upon the delivery of lots or homes to third parties. Our ownership interest in joint ventures varies but is generally less than or equal to 50%. In determining whether or not we must consolidate joint ventures where we are the managing member of the joint venture, we consider the guidance in EITF 04-5 in assessing whether the other partners have specific rights to overcome the presumption of control by us as the manager of the joint venture. In most cases, the presumption is overcome because the joint venture agreements require that both partners agree on establishing the operating and capital decisions of the partnership, including budgets, in the ordinary course of business.

Intangible Assets - The intangible assets recorded on our balance sheet are goodwill, which has an indefinite life, and definite life intangibles, including trade names, architectural designs, distribution processes, and contractual agreements resulting from our acquisitions. We no longer amortize goodwill, but instead assess it periodically for impairment. We performed such assessments utilizing a fair value approach as of October 31, 2007. We also assess definite life intangibles for impairment whenever events or changes indicate that their carrying amount may not be recoverable. An intangible impairment is recorded when events and circumstances indicate the undiscounted future cash flows generated from the business unit with the intangible asset are less than the net assets of the business unit. The impairment loss is the lesser of the difference between the net assets of the business unit and the discounted future cash flows generated from the applicable business unit, which approximates fair value and the intangible asset balance. The estimates used in the determination of the estimated cash flows and fair value of a business unit are based on factors known to us at the time such estimates are made and our expectations of future operations and economic conditions. Should the estimates or expectations used in determining estimated cash flows or fair value decrease or differ from current estimates in the future, we may be required to recognize additional impairments. However, we only have \$3.0 million remaining in intangible assets and \$32.7 million remaining in goodwill so any future impairments are limited to these balances. Any intangible impairment charge is included in Intangible amortization on the Condensed Consolidated Statements of Operations. We are amortizing the remaining definite life intangibles over their expected useful lives, ranging from one to four years.

Post Development Completion and Warranty Costs - In those instances where a development is substantially completed and sold and we have additional construction work to be incurred, an estimated liability is provided to cover the cost of such work. In addition, we accrue warranty costs as part of cost of sales for repair costs under \$5,000 per occurrence to homes, community amenities and land development infrastructure. In addition, we accrue for warranty costs over \$5,000 per occurrence as part of our general liability insurance deductible expensed as selling, general and administrative costs. As previously stated, the deductible for our general liability insurance for homes delivered in fiscal 2008 and 2007 is \$20 million per occurrence with an aggregate \$20 million for liability claims, and an aggregate \$21.5 million for construction defect claims. Both of these liabilities are recorded in Accounts payable and other liabilities in the Condensed Consolidated Balance Sheets.

Deferred Income Taxes - Deferred income taxes or income tax benefits are provided for temporary differences between amounts recorded for financial reporting and for income tax purposes. If, for some reason, the combination of future years income (or loss) combined with the reversal of the timing differences results in a loss, such losses can be carried back to prior years or carried forward to future years to recover the deferred tax assets. In accordance with SFAS No. 109, "Accounting for Income Taxes" ("SFAS 109"), we evaluate our deferred tax assets quarterly to determine if valuation allowances are required. SFAS 109 requires that companies assess whether valuation allowances should be established based on the consideration of all available evidence using a "more likely than not" standard. See Total Taxes below under Results of Operations for further discussion of the valuation allowances.

Recent Accounting Pronouncements

See Note 16 to the Condensed Consolidated Financial Statements included elsewhere in this Form 10-Q.

CAPITAL RESOURCES AND LIQUIDITY

Our operations consist primarily of residential housing development and sales in the Northeast (New Jersey, New York, Pennsylvania), the Midwest (Ohio, Illinois, Kentucky, Michigan, Minnesota), the Mid-Atlantic (Delaware, Maryland, Virginia, West Virginia, Washington D. C.), the Southeast (Florida, Georgia, North Carolina, South Carolina), the Southwest (Arizona, Texas), and the West (California). In addition, we provide financial services to our homebuilding customers.

Our cash uses during the six months ended April 30, 2008 were for operating expenses, construction, income taxes, and interest. We provided for our cash requirements from housing and land sales, the revolving credit facility, financial service revenues, and other revenues. We believe that these sources of cash are sufficient to finance our working capital requirements and other needs because for the remaining two fiscal quarters of 2008, we expect to generate positive cash flow from operations as we limit investments in new communities and delay further investment in current communities reducing our inventory as we continue to build and deliver homes from our current communities. We expect this positive cash flow from operations to continue through 2009. Thus we believe that our sources of cash are sufficient to finance our needs, despite an 18% decline in total revenues in the first half of 2008 compared to the same period for the prior year, and a reduction in the availability under our revolving credit facility. We may also enter into land sale agreements or joint ventures to generate cash from our existing balance sheet. These expectations are based on our most recent budget process completed in April 2008, which assumes current sales prices and sales absorption paces continue through 2008 and most of 2009 and the issuances of equity and Senior Secured Notes described below.

Edgar Filing: HOVNANIAN ENTERPRISES INC - Form 10-Q

On May 27, 2008, we issued \$600 million of 11 1/2% Senior Secured Notes and the Amendment to the Seventh Amended and Restated Credit Agreement, which reduced the aggregate amount of commitments from \$900 million to \$300 million, became effective. Until July 31, 2008, the full amount under the Amended Credit Agreement will be available for the issuance of letters of credit and up to \$25 million under the Amended Credit Agreement will be available for revolving loans. After July 31, 2008, availability under the Amended Credit Agreement will equal the lesser of \$300 million and the amount available pursuant to the borrowing base and the sub-limit for revolving loans will be increased to \$100 million. The Amended Credit Agreement eliminated all but one of the financial maintenance covenants, which requires that as of the last day of each fiscal quarter either (1) the ratio of our adjusted operating cash flow to fixed charges exceed 1.50 to 1.00 or (2) our liquidity equals or exceeds \$100 million. After giving effect to this issuance of Notes and the proceeds of \$126 million from the recent equity

issuance and the use of proceeds from these issuances, we would have had approximately \$500 million in homebuilding cash at April 30, 2008. Consistent with prior years cash flow cycles where we have generated the majority of our positive cash flow in the latter half of the year (for 2007 we had negative operating cash flow through the first six months of \$236 million, but in the second half of 2007 we had positive cash flow of \$298 million), we expect that we will generate positive cash flow from operations over the remainder of the fiscal year, resulting in excess of \$800 million in homebuilding cash at October 31, 2008; and therefore, we believe we will be in compliance with this new covenant for the foreseeable future.

Our net (loss) income historically does not approximate cash flow from operating activities. The difference between net (loss) income and cash flow from operating activities is primarily caused by changes in inventory levels together with changes in receivables, prepaid and other assets, interest and other accrued liabilities, deferred income taxes, accounts payable, mortgage loans and liabilities, and non-cash charges relating to depreciation, amortization of computer software costs, amortization of definite life intangibles, stock compensation awards and impairment losses. When we are expanding our operations, which was the case in fiscal 2006, inventory levels, prepaids and other assets increase causing cash flow from operating activities to decrease. Certain liabilities also increase as operations expand and partially offset the negative effect on cash flow from operations caused by the increase in inventory levels, prepaids and other assets. Similarly, as our mortgage operations expand, net income from these operations increase, but for cash flow purposes are offset by the net change in mortgage assets and liabilities. The opposite is true as our investment in new land purchases and development of new communities decrease, which is what we expect to happen in fiscal 2008 and 2009. Therefore, we expect to generate cash flows from operations in those years, increasing our liquidity and decreasing our dependency on availability under the Amended Credit Agreement.

On July 3, 2001, our Board of Directors authorized a stock repurchase program to purchase up to 4 million shares of Class A Common Stock. As of April 30, 2008, 3.4 million shares of Class A Common Stock have been purchased under this program, (See Part II, Item 2 for information on equity purchases). On March 5, 2004, our Board of Directors authorized a 2-for-1 stock split in the form of a 100% stock dividend. All share information reflects this stock dividend.

On July 12, 2005, we issued 5,600 shares of 7.625% Series A Preferred Stock, with a liquidation preference of \$25,000. Dividends on the Series A Preferred Stock are not cumulative and are paid at an annual rate of 7.625%. The Series A Preferred Stock is not convertible into the Company's common stock and is redeemable in whole or in part at our option at the liquidation preference of the shares beginning on the fifth anniversary of their issuance. The Series A Preferred Stock is traded as depositary shares, with each depositary share representing 1/1000th of a share of Series A Preferred Stock. The depositary shares are listed on the Nasdaq Global Market under the symbol HOVNP. In January and April 2007, we paid \$2.7 million of dividends on the Series A Preferred Stock. In January and April 2008, we did not make any dividend payments as a result of covenant restrictions in the indentures governing our Senior and Senior Subordinated Notes discussed below.

On May 16, 2008, we entered into Amendment No. 1 (the Amendment) to the Seventh Amended and Restated Credit Agreement (as amended, the Amended Credit Agreement). On May 27, 2008, in conjunction with the consummation of the issuance of \$600 million of 11 1/2% Senior Secured Notes due 2013 (See Note 10), the Amendment became effective. The Amendment decreases the aggregate amount of commitments under the Seventh Amended and Restated Credit Agreement from \$900 million to \$300 million. The maturity date of the facility remains May 31, 2011. Until July 31, 2008, the full amount under the Amended Credit Agreement will be available for the issuance of letters of credit and up to \$25 million under the Amended Credit Agreement will be available for revolving loans. After July 31, 2008, availability under the Amended Credit Agreement will equal the lesser of \$300 million and the amount available pursuant to the borrowing base and the sub-limit for revolving loans will be increased to \$100 million. Borrowings under the Amended Credit Agreement will bear interest at a rate equal, at the Company's option, to (1) one, two, three or six month LIBOR, plus 4.50%, (2) a base rate equal to the greater of PNC Bank, National Association's prime rate and the federal funds effective rate plus 0.50%, plus 2.75% and (3) an index rate based on daily LIBOR, plus 4.625%. In addition to paying interest on outstanding principal under the revolving facility, the Company will be required to pay an unused fee equal to 0.55% per annum on the daily average unused portion of the revolving facility. The Company will also pay a letter of credit fee of 4.50% per annum on the average outstanding face amount of letters of credit issued under the revolving facility. Notwithstanding the foregoing, the interest rate and fees payable under the revolving facility may not be less than the applicable interest rates and fees that would have been payable pursuant to the revolving facility that was in

Edgar Filing: HOVNIANIAN ENTERPRISES INC - Form 10-Q

effect prior to March 7, 2008, the date of the Seventh Amended and Restated Credit Agreement. Borrowings under the Amended Credit Agreement may be used for general corporate purposes and working capital. A portion of the proceeds of the issuance of 11 1/2% Senior Secured Notes due 2013 were used to repay the outstanding balance of \$325.0 million at May 27, 2008 under the Seventh Amended and Restated Credit Agreement. As of May 27, 2008, the aggregate face amount of outstanding letters of credit was \$217.8 million. As of April 30, 2008 and October 31, 2007, there was \$325.0 million and \$206.8 million drawn under the Seventh Amended and Restated Credit Agreement, excluding letters of credit totaling \$219.3 million and \$306.4 million, respectively. Under the Amended Credit Agreement borrowing base limits, as of April 30, 2008, we would have had an excess of \$99.6 million available, which is limited by the terms of the Amended Credit Agreement, as described above.

We and each of our subsidiaries are guarantors under the Amended Credit Agreement, except for K. Hovnanian Enterprises, Inc. (K. Hovnanian), the borrower, our financial services subsidiaries, joint ventures and certain of our title insurance subsidiaries. All obligations under the Amended Credit Agreement, and the guarantees of those obligations, will be secured, subject to permitted liens and other exceptions, by a first-priority lien on substantially all of the assets owned by us, K. Hovnanian and the guarantors.

The Amended Credit Agreement has covenants that restrict, among other things, the ability of the Company and certain of its subsidiaries, including K. Hovnanian, to incur additional indebtedness, pay dividends on, and make distributions with respect to, common and preferred stock and repurchase capital stock, make other restricted payments, make investments, dispose of assets, incur liens, consolidate, merge, sell or otherwise transfer all or substantially all of its assets and enter into certain transactions with affiliates. The Amended Credit Agreement also contains a covenant that requires that as of the last day of each fiscal quarter either (1) the ratio of our adjusted operating cash flow to fixed charges exceed 1.50 to 1.00 or (2) our liquidity equal or exceed \$100 million. However, the Amended Credit Agreement does not contain any other financial maintenance covenants. The Amended Credit Agreement contains events of default which would permit the lenders to accelerate the loans if not cured within applicable grace periods, including the failure to make timely payments under the Amended Credit Agreement or other material indebtedness, the failure to satisfy covenants, the failure of the documents granting security for the obligations under the Amended Credit Agreement to be in full force and effect and specified events of bankruptcy and insolvency. As of April 30, 2008, we were in compliance with the covenants under the Seventh Amended and Restated Credit Agreement and are currently in compliance with the covenants under the Amended Credit Agreement.

Our wholly-owned mortgage banking subsidiary originates mortgage loans, primarily from the sale of our homes. Such mortgage loans are sold in the secondary mortgage market with servicing released within a short period of time. Our secured Master Repurchase Agreement with a group of banks is a short-term borrowing facility that provides up to \$161 million through December 26, 2008. Interest is payable monthly at LIBOR plus 1.10%. The loan is secured by the mortgages held for sale and is repaid when we sell the underlying mortgage loans to permanent investors. We also had a commercial paper facility which provided for up to \$200 million through April 25, 2008 with interest payable monthly at LIBOR plus 0.40%. On November 28, 2007 we paid the outstanding balance in full and terminated the commercial paper facility. We believe that we will be able to extend the Master Repurchase Agreement beyond its expiration date, but there can be no assurance of such extension. As of April 30, 2008, the aggregate principal amount of all borrowings under the master repurchase agreement was \$123.1 million. The Master Repurchase Agreement requires K. Hovnanian American Mortgage, LLC to satisfy and maintain specified financial ratios and other financial condition tests. As of April 30, 2008, we were in compliance with the covenants of the Master Repurchase Agreement.

On May 27, 2008, K. Hovnanian issued \$600 million (\$594.4 million net of discount) of 11 1/2% Senior Secured Notes due 2013. The notes will be secured, subject to permitted liens and other exceptions, by a second-priority lien on substantially all of the assets owned by us, K. Hovnanian and the guarantors to the extent such assets secure obligations under the Amended Credit Agreement. The notes are redeemable in whole or in part at our option at 102% of principal commencing November 1, 2010, 101% of principal commencing May 1, 2011 and 100% of principal commencing May 1, 2012. In addition, we may redeem up to 35% of the aggregate principal amount of the notes before May 1, 2011 with the net cash proceeds from certain equity offerings at 111.50% of principal. A portion of the net proceeds of the issuance were used to repay the outstanding balance under the Seventh Amended and Restated Credit Agreement.

At April 30, 2008, we had \$1,515.0 million of outstanding senior notes (\$1,510.8 million, net of discount), \$100 million 8% Senior Notes due 2012, \$215 million 6 1/2% Senior Notes due 2014, \$150 million 6 3/8% Senior Notes due 2014, \$200 million 6 1/4% Senior Notes due 2015, \$300 million 6 1/4% Senior Notes due 2016, \$300 million 7 1/2% Senior Notes due 2016, and \$250 million 8 5/8% Senior Notes due 2017. At April 30, 2008, we had \$400.0 million of outstanding senior subordinated notes, comprised of \$150 million 8 7/8% Senior Subordinated Notes due 2012, \$150 million 7 3/4% Senior Subordinated Notes due 2013, and \$100 million 6% Senior Subordinated Notes due 2010.

We and each of our subsidiaries are guarantors of the senior secured, senior and senior subordinated notes, except for K. Hovnanian, the issuer of the notes, our financial services subsidiaries, joint ventures and certain of our title insurance subsidiaries. (See Note 18). The indentures governing the senior secured notes, senior notes and senior subordinated notes contain restrictive covenants that limit, among other things, the ability of Hovnanian and certain of its subsidiaries, including K. Hovnanian, the issuer of the senior secured notes, senior notes and senior subordinated notes, to incur additional indebtedness, pay dividends and make distributions on common and preferred stock, repurchase senior and senior subordinated notes (with respect to the senior secured notes indenture), make other restricted payments, make investments, sell certain assets, incur liens, consolidate, merge, sell or otherwise dispose of all or substantially all of its assets and enter into certain transactions with affiliates. If our consolidated fixed charge coverage ratio, as defined in the indentures governing our senior secured notes, senior notes and senior subordinated notes is less than 2.0 to 1.0, we are restricted from making certain payments, including dividends, and from incurring indebtedness other than certain permitted indebtedness, refinancing indebtedness and non-recourse indebtedness. As a result of this restriction, we are currently restricted from paying dividends on our 7.625% Series A Preferred Stock and will continue to be restricted during the remainder of fiscal 2008. If current market trends continue or worsen, we anticipate that we will continue to be restricted from paying dividends into fiscal 2009. The restriction on making preferred dividend payments under our bond indentures will not affect our compliance with any of the covenants contained in the Amended Credit Agreement and will not permit the lenders under the Amended Credit Agreement to accelerate the loans. The indentures also contain events of default which would permit the holders of the senior secured notes, senior notes and senior subordinated notes to declare those notes to be immediately due and payable if not cured within applicable grace periods, including the failure to make timely payments on the notes or other material indebtedness, the failure to satisfy covenants and specified events of bankruptcy and insolvency and, with respect to the indenture governing the senior secured notes, the failure of the documents granting security for the senior secured notes to be in full force and effect and the failure of the liens on any material portion of the collateral securing the senior secured notes to be valid and perfected. As of April 30, 2008, we were in compliance with the covenants of the indentures governing our outstanding notes. Under the terms of the indentures, we have the right to make certain redemptions and depending on market conditions and covenant restrictions, may do so from time to time. We may also make open market purchases from time to time depending on market conditions and covenant restrictions.

Total inventory decreased \$574.2 million during the six months ended April 30, 2008 of which \$226.4 million was attributed to impairments. This decrease excluded the decrease in consolidated inventory not owned of \$53.3 million consisting of specific performance options, options with variable interest entities, and other options that were added to our balance sheet in accordance with SFAS 49, SFAS 98, and EITF 97-10, and variable interest entities in accordance with FIN 46R. See Notes to Condensed Consolidated Financial Statements Note 14 for additional information on FIN 46R. Specific performance inventory decreased \$4.5 million for the six months ended April 30, 2008. This was due to the fact that some of the lots previously recorded as a future obligation were taken down during the first six months of 2008. Other options inventory decreased \$11.6 million for this period. Other options consist of our GMAC model program and structured lot option agreements. GMAC model home inventory decreased \$10.3 million as a result of our decision to remove homes from the program, primarily in the Mid-Atlantic. Structured lot option inventory decreased \$1.3 million during the six months ended April 30, 2008. This decrease was primarily due to the decision to walk away from a deal in the Northeast and the purchase of some lots under structured options in the Southwest. This decrease was offset by additional inventory recorded for a transaction in the Northeast during the first quarter of fiscal 2008. Total inventory decreased in the Mid-Atlantic \$76.6 million, the Southeast \$64.4 million, the Midwest \$13.6 million, the Southwest \$52.8 million, the West \$314.8 million, and the Northeast \$52.0 million. The decreases were primarily the result of deliveries in existing communities and inventory impairments incurred during the first and second quarters of fiscal 2008. Substantially all homes under construction or completed and included in inventory at April 30, 2008 are expected to be closed

during the next twelve months. Most inventory completed or under development is partially financed through our line of credit, preferred stock and senior and senior subordinated indebtedness.

Despite the decrease in total inventory, our inventory representing Land and land options held for future development or sale on the Condensed Consolidated Balance Sheets increased by \$178.5 million compared to October 31, 2007. The increase is due to Sold and unsold home and lots under development inventory being reclassified to Land and land options held for future development or sale inventory when we decide to mothball (stop development) a community. We mothball communities when we determine the current performance does not justify further investment at this time. That is, we believe we will generate higher returns if we avoid spending money to improve land today and save the raw land until such times as the markets improve. During the second quarter of fiscal 2008, we mothballed 11 communities. As of April 30, 2008, we have mothballed land in 28 communities. The book value associated with these 28 communities at April 30, 2008 was \$493.3 million, net of an impairment balance of \$131.1 million. We continually review communities to determine if mothballing is appropriate.

We usually option property for development prior to acquisition. By optioning property, we are only subject to the loss of the cost of the option and predevelopment costs if we choose not to exercise the option. As a result, our commitment for major land acquisitions is reduced. Inventory impairment loss and land option write-offs, which include inventory that has been written-off or written-down, increased \$260.2 million for the six months ended April 30, 2008, compared to the same period in the prior year. During the second quarter of fiscal 2008, we incurred \$226.4 million in write-downs primarily attributable to significant impairments taken as a result of continued deterioration in our California operations in the West, as well as smaller impairments in our other segments. In addition, we recorded land option write-offs in the amount of \$19.5 million.

Edgar Filing: HOVNANIAN ENTERPRISES INC - Form 10-Q

(1) Active communities are open for sale communities with 10 or more home sites available.

Edgar Filing: HOVNANIAN ENTERPRISES INC - Form 10-Q

The following table summarizes our started unsold homes and models. The decrease in total started unsold homes compared to the prior year end is primarily due to a continued focused effort to sell inventoried homes during the first six months of fiscal 2008. In some instances, this required additional incentives to be given to homebuyers on completed unsold homes. The decrease in models is directly due to the decrease of 52 active communities from 431 at October 31, 2007 to 379 at April 30, 2008.

	April 30, 2008			October 31, 2007		
	Started Unsold Homes	Models	Total	Started Unsold Homes	Models	Total

Total	1,503	382	1,885	2,390	432	2,822

Investments in and advances to unconsolidated joint ventures decreased \$10.0 million during the six months ended April 30, 2008. This decrease is due to distributions received from the joint ventures and losses incurred by the joint ventures primarily from inventory impairments and land option and walk away costs during the six months ended April 30, 2008, offset by increases resulting from income from joint ventures not distributed and additional investment in joint ventures. As of April 30, 2008, we have investments in ten homebuilding joint ventures and nine land development joint ventures. Other than guarantees limited only to completion of development, environmental indemnification and standard indemnification for fraud and misrepresentation including voluntary bankruptcy, we have no other guarantees associated with unconsolidated joint ventures.

Receivables, deposits, and notes increased \$3.8 million to \$113.6 million at April 30, 2008. The increase is primarily due to an increase in receivables for home closings as a result of cash in transit from various title companies at the end of the respective periods. This increase was offset by decreases primarily due to the receipts of cash from insurance carriers related to outstanding warranty claims, as well as the return of deposits on land option transactions we terminated in fiscal 2007.

Prepaid expenses and other assets were as follows:

	April 30, 2008	October 31, 2007	Dollar Change
Prepaid insurance	\$9,481	\$6,769	\$2,712
Prepaid project costs	100,897	110,439	(9,542)
Senior residential rental properties	7,524	7,694	(170)
Other prepaids	25,776	20,995	4,781
Other assets	13,208	28,135	(14,927)
Total	\$156,886	\$174,032	\$(17,146)

Edgar Filing: HOVNANIAN ENTERPRISES INC - Form 10-Q

Prepaid insurance increased due to a payment of a full year of certain liability insurance premium costs during the first quarter of fiscal 2008. These costs are amortized over the life of the associated insurance policy.

Edgar Filing: HOVNIANIAN ENTERPRISES INC - Form 10-Q

Prepaid project costs decreased for the homes delivered and have not been replenished, as we have reduced the number of active selling communities given the current homebuilding environment. Prepaid project costs consist of community specific expenditures that are used over the life of the community. Such prepaids are expensed as homes are delivered. Other prepaids increased as a result of bank fees paid in connection with the entering into the Seventh Amended and Restated Credit Agreement in March 2008, which normally would be amortized over the loan period, however, because we amended and reduced the aggregate commitment of the facility effective May 27, 2008, we will expense a significant portion of these bank fees in the third quarter of fiscal 2008. Other assets decreased because there were significant distributions in the first quarter from our executive deferred compensation plan.

At April 30, 2008 and October 31, 2007, we had \$32.7 million of goodwill. This amount resulted from Company acquisitions prior to fiscal 2002.

Definite life intangibles decreased \$1.2 million to \$3.0 million at April 30, 2008, as a result of amortization during the six months.

Financial Services - Mortgage loans held for sale consist of residential mortgages receivable of which \$136.3 million and \$182.6 million at April 30, 2008 and October 31, 2007, respectively, are being temporarily warehoused and awaiting sale in the secondary mortgage market. We may incur risk with respect to mortgages that are delinquent, but only to the extent the losses are not covered by mortgage insurance or resale value of the house. Historically, we have incurred minimal credit losses. The decrease in the receivable from October 31, 2007 is directly related to a decrease in the volume of loans financed at April 30, 2008.

Income taxes receivable increased \$28.8 million in the six months ended April 30, 2008 as a result of temporary differences between book and tax related to the inventory and intangible impairment charges taken, partially offset by an increase in the deferred tax asset valuation allowance of \$141.8 million. The recoverability of the tax asset is limited to the use of loss carrybacks to 2005 and 2006 and existing deferred tax liabilities.

Accounts payable and other liabilities are as follows:

	April 30, 2008	October 31, 2007	Dollar Change
Accounts payable	\$165,146	\$170,091	\$(4,945)
Reserves	131,466	131,790	(324)
Accrued expenses	56,610	97,753	(41,143)
Accrued compensation	23,588	53,767	(30,179)
Other liabilities	36,926	62,021	(25,095)
Total	\$413,736	\$515,422	\$(101,686)

The decrease in accounts payable was primarily due to a decrease in our accrual for inventory received but not yet invoiced. The decrease in accrued expenses is primarily due to payments made for land options that were terminated and accrued in the fourth quarter of fiscal 2007. The decrease in accrued compensation was primarily due to the significant distributions in the first quarter from our executive deferred compensation plan as well as lower bonus accruals at April 30, 2008 compared to October 31, 2007. The decrease in other liabilities is primarily related to accrued costs paid when a significant number of homes in our Fort Myers operations closed during the first quarter of fiscal 2008. Also contributing to the decrease was a decrease in deferred revenue for homes financed through our wholly-owned mortgage subsidiary, whereby a less than 5% deposit was obtained on the home sale.

Edgar Filing: HOVNANIAN ENTERPRISES INC - Form 10-Q

Customer deposits decreased \$16.4 million to \$48.8 million at April 30, 2008. The decrease is primarily due to the reduction in the number of homes in backlog from 5,938 at October 31, 2007 to 3,577 at April 30, 2008.

Mortgage warehouse line of credit under our secured master repurchase agreement decreased \$48.0 million to \$123.1 million at April 30, 2008. The decrease is directly correlated to the decrease in mortgage loans held for sale from October 31, 2007 to April 30, 2008.

Edgar Filing: HOVNIANIAN ENTERPRISES INC - Form 10-Q

RESULTS OF OPERATIONS FOR THE THREE AND SIX MONTHS ENDED APRIL 30, 2008 COMPARED TO THE THREE AND SIX MONTHS ENDED APRIL 30, 2007

Total revenues:

Compared to the same prior period, revenues decreased as follows:

	Three Months Ended		Dollar Change	Percentage Change
	April 30, 2008 (Dollars In Thousands)	April 30, 2007

Homebuilding:

Compared to the same prior period, homebuilding revenues decreased \$302.3 million, or 29%, during the three months ended April 30, 2008 and decreased \$386.4 million or 18% during the six months ended April 30, 2008. Many of our communities have experienced further price declines during the six months ended April 30, 2008, resulting in an average price per home of \$303,000 and \$296,000 for the three and six months ended April 30, 2008, respectively, compared to \$335,900 and \$341,900 for the same periods of the prior year. This is primarily due to deteriorating housing market conditions, as well as the mix of communities that are delivering homes. For example, for the six months ended April 30, 2008, 25% of the deliveries came from our Fort Myers operations compared to 10% for the same period of the prior year. This trend is not expected to continue as the majority of the Fort Myers backlog has now been delivered. Housing revenues are recorded at the time when title

Edgar Filing: HOVNANIAN ENTERPRISES INC - Form 10-Q

is conveyed to the buyer, adequate cash payment has been received and there is no continued involvement. Land sales are ancillary to our homebuilding operations and are expected to continue in the future but may significantly fluctuate up or down. For further details on land sales and other revenues, see section titled "Land Sales and Other Revenues" below.

Edgar Filing: HOVNANIAN ENTERPRISES INC - Form 10-Q

Information on homes delivered by market area is set forth below:

(1) Net contracts are defined as new contracts during the period for the purchase of homes, less cancellations

of prior contracts.

Our reported level of sales contracts (net of cancellations) has been impacted by a slowdown in the pace in most of the Company's segments and an increase in our cancellation rates over the past two years, due to weakening market conditions. The cancellation rate represents the number of cancelled contracts in the quarter divided by the number of gross sales contracts executed in the quarter. For comparison, the following are historical cancellation rates, excluding unconsolidated joint ventures.

Edgar Filing: HOVNANIAN ENTERPRISES INC - Form 10-Q

<u>Quarter</u>	<u>2008</u>	<u>2007</u>	<u>2006</u>	<u>2005</u>	<u>2004</u>
First	38%	36%	30%	27%	23%
Second	29%	32%	32%	21%	19%
Third		35%	33%	24%	20%
Fourth		40%	35%	25%	24%

Another common and meaningful way to analyze our cancellation trends is to compare the number of contract cancellations as a percentage of beginning backlog. For comparison, the following table provides this historical comparison, excluding unconsolidated joint ventures:

<u>Quarter</u>	<u>2008</u>	<u>2007</u>	<u>2006</u>	<u>2005</u>	<u>2004</u>
First	16%	17%	11%	15%	14%
Second	24%	19%	15%	17%	18%
Third		18%	14%	15%	13%
Fourth		26%	16%	12%	15%

Most cancellations occur within the legal rescission period, which varies by state but is generally less than two weeks. Cancellations also occur as a result of buyer failure to qualify for a mortgage, which generally occurs during the first few weeks after signing. However, in recent quarters we have experienced a higher than normal number of cancellations later in the construction process. These cancellations are related primarily to falling prices, sometimes due to new discounts offered by us and other builders, leading the buyer to lose confidence in the contract price, and due to tighter mortgage underwriting criteria leading to some customer's inability to be approved for a mortgage loan. In some cases, the buyer will walk away from a significant nonrefundable deposit that we recognize as other revenues. We expect that cancellation rates will return to a more normal level at some point as prices stabilize, but it is difficult to predict when this will occur, and the timing will vary by market. A failure to return to a more normal level would continue to negatively impact our results of operations.

Edgar Filing: HOVNANIAN ENTERPRISES INC - Form 10-Q

Cost of sales includes expenses for consolidated housing and land and lot sales, including impairment loss and land option write-offs (defined as land charges in the schedules below). A breakout of such expenses for housing sales and housing gross margin is set forth below:

	Three Months Ended		Six Months Ended	
	April 30, 2008	2007	April 30, 2008	2007
Sale of homes	\$755,684	\$1,058,014	\$1,807,502	\$2,193,930
Cost of sales, excluding interest	704,613	885,783	1,686,181	1,817,266
Homebuilding gross margin, before cost of sales interest expense and land charges	51,071	172,231	121,321	376,664
Cost of sales interest expense, excluding land sales interest expense	33,103	28,578	61,066	55,394
Homebuilding gross margin, after cost of sales interest expense, before land charges	17,968	143,653	60,255	321,270
Land charges	245,860	34,353	336,028	75,827
Homebuilding gross margin, after cost of sales interest expense and land charges	\$(227,892)	\$109,300	\$(275,773)	\$245,443
Gross margin percentage, before cost of sales interest expense and land charges	6.8%	16.3%	6.7%	17.2%
Gross margin percentage, after cost of sales interest expense, before land charges	2.4%	13.6%	3.3%	14.6%
Gross margin percentage, after cost of sales interest expense and land charges	(30.2)%	10.3%	(15.3)%	11.2%

Edgar Filing: HOVNANIAN ENTERPRISES INC - Form 10-Q

Cost of sales expenses as a percentage of home sales revenues are presented below:

	Three Months Ended		Six Months Ended	
	April 30, 2008	2007	April 30, 2008	2007
Sale of homes	100.0%	100.0%	100.0%	100.0%
Cost of sales, excluding interest:				
Housing, land & development costs	81.1%	73.4%	82.9%	72.3%
Commissions	2.9%	2.7%	2.6%	2.8%
Financing concessions	1.9%	1.5%	1.4%	1.4%
Overheads	7.3%	6.1%	6.4%	6.3%
Total cost of sales, before interest				
expense and land charges	93.2%	83.7%	93.3%	82.8%
Gross margin percentage, before cost of sales interest expense and land charges	6.8%	16.3%	6.7%	17.2%
Cost of sales interest	4.4%	2.7%	3.4%	2.6%
Gross margin percentage, after cost of sales interest expense and before land charges	2.4%	13.6%	3.3%	14.6%

We sell a variety of home types in various communities, each yielding a different gross margin. As a result, depending on the mix of communities delivering homes, consolidated gross margin may fluctuate up or down. Total homebuilding gross margins, before interest expense and land impairment and option write off charges decreased to 6.8% during the three months ended April 30, 2008 compared to 16.3% for the same period last year and decreased to 6.7% during the six months ended April 30, 2008 compared to 17.2% for the same period last year. Continued declines in percentages in the first and second quarter of 2008 from 10.9% in the fourth quarter of 2007, are primarily the result of decreased sales prices and increased buyer concessions, as well as a significant impact from the large number of deliveries in our Fort Myers operations in the first half of 2008 at gross margins of 2.7%. Excluding the Fort Myers deliveries, gross margin percentage would have been 7.7% for the six months. The declining pace of sales in our markets in 2007 and 2008 has led to intense competition in many of our specific community locations. In order to maintain a reasonable pace of absorption, we have increased incentives, reduced lot location premiums, as well as lowered some base prices, all of which have impacted our margins significantly. In addition, homes for which contracts have been cancelled have typically been resold at a lower price, resulting in a further decline in margins. As discussed in Homebuilding Operations by Segment below, certain of our segments experienced increases in average selling prices for the three and six months ended April 30, 2008 compared to 2007. It should be noted however, that these increases are primarily the result of geographic and community mix of our deliveries, rather than an ability to increase home prices.

Homebuilding selling, general and administrative expenses as a percentage of homebuilding revenues increased to 12.8% for the three months ended April 30, 2008, compared to 12.6% for the three months ended April 30, 2007 and decreased to 10.7% for the six months ended April 30, 2008, compared to 12.1% for the six months ended April 30, 2007. Such expenses decreased \$40.0 million for the three months ended April 30, 2008 and decreased \$72.0 million for the six months ended April 30, 2008 compared to the same period last year as we have reduced these costs through headcount reduction and other cost saving measures.

Land Sales and Other Revenues:

Land sales and other revenues consist primarily of land and lot sales. A breakout of land and lot sales is set forth below:

	Three Months Ended		Six Months Ended	
	April 30, 2008	2007	April 30, 2008	2007
Land and lot sales	\$3,740	\$31,695	\$26,493	\$35,294
Cost of sales, excluding interest	2,232	18,027	24,228	20,519
Land and lot sales gross margin, excluding interest	1,508	13,668	2,265	14,775
Land sales interest expense	1,469	178	2,094	234
Land and lot sales gross margin, including interest	\$39	\$13,490	\$171	\$14,541

Land sales are ancillary to our residential homebuilding operations and are expected to continue in the future but may significantly fluctuate up or down. Profits from land sales in the three and six months of the year were significantly less than the three and six months of 2007, and for the full fiscal year 2008, we expect pre-tax profit from land sales to be lower than they were in fiscal 2007. Although we budget land sales, they are often dependent upon receiving approvals and entitlements, the timing of which can be uncertain. As a result, projecting the amount and timing of land sales is difficult.

Other Revenues include income from contract cancellations, where the deposit has been forfeited due to contract terms, interest income, cash discounts and miscellaneous one-time receipts.

Northeast - Homebuilding revenues decreased 9.8% and 12.6% for the three and six months ended April 30, 2008, respectively, compared to the same period of the prior year. The decrease is primarily due to a 15.2% and 23.9% decrease in homes delivered offset by a 6.9% and 8.3% increase in average selling price for the three and six months ended April 30, 2008, respectively, as the mix of communities delivered in 2008 was different than 2007. Income before income taxes decreased \$19.7 million to a loss of \$24.8 million and decreased \$47.7 million to a loss of \$36.3 million for the three and six months ended April 30, 2008, respectively. This was mainly due to a significant reduction in gross margin percentage before interest expense as the markets in this segment have become much more competitive and \$19.5 million of inventory impairment losses and land option write-offs recorded in the first and second quarters of fiscal 2008.

Mid-Atlantic - Homebuilding revenues decreased 37.8% and 40.4% for the three and six months ended April 30, 2008, respectively, compared to the same period of the prior year primarily due to a 16.2% and 27.3% decrease in homes delivered and a 15.3% and 13.2% decrease in average selling price for the three and six months ended April 30, 2008, respectively, due to increased incentives and the different mix of communities delivered in 2008 than 2007. Income before income taxes decreased \$52.2 million to a loss of \$20.8 million and decreased \$101.6 million to a loss of \$43.8 million for the three and six months ended April 30, 2008, respectively, with \$12.6 million and \$27.4 million of the decrease due to inventory impairment losses and land option write-offs for the three and six months, respectively. The segment also had a significant reduction in gross margin percentage before interest expense as the markets in this segment have become much more competitive.

Midwest - Homebuilding revenues increased 32.0% and 27.6% for the three and six months ended April 30, 2008, respectively, compared to the same period of the prior year primarily due to a 29.1% and 18.5% increase in homes delivered and a 2.7% and 7.1% increase in average selling price for the three and six months ended April 30, 2008, respectively. The increases in homes delivered and average selling prices were the result of organic growth in this segment in Cleveland, Illinois and Minnesota, as these operations were started or acquired since 2004. The segment loss before income taxes decreased \$3.6 million to a loss of \$8.3 million and increased \$0.2 million to a loss of \$22.7 million for the three and six months ended April 30, 2008, respectively. Despite the increased revenues for both periods in fiscal 2008, which help improve operating performance, inventory impairments and land option write-offs of \$5.6 million taken during fiscal 2008 partially offset the benefits from the increased revenues.

Southeast - Homebuilding revenues decreased 47.2% for the three months ended April 30, 2008, but increased 17.3% for the six months ended April 30, 2008, compared to the same periods of the prior year. The increase in the six months is primarily due to a 31.2% increase in homes delivered offset by a 10.0% decrease in average selling price in the first half of fiscal 2008. The primary reason for the increase in deliveries is due to the 1,540 deliveries from our Fort Myers operations. Loss before income taxes increased \$12.5 million to \$27.1 million for the three months and decreased \$69.2 million to \$33.0 million for the six months ended April 30, 2008, respectively. The increased loss for the three months ended April 30, 2008 compared to the same period of the prior year was primarily due to \$18.2 million in inventory impairments and land option write-offs taken in the second quarter of fiscal 2008, compared to \$7.8 million in the second quarter of fiscal 2007. The decreased loss for the six months ended April 30, 2008, compared to the same period of the prior year, is primarily due to \$25.0 million in inventory impairments and land option write-offs for the six months ended April 30, 2008, compared to \$49.8 million for the six months ended April 30, 2007, as well as \$51.5 million of intangible impairments taken in the first half of fiscal 2007, compared to zero for the same period of fiscal 2008.

Southwest - Homebuilding revenues decreased 26.4% and 17.3% for the three and six months ended April 30, 2008, respectively, compared to the same period of the prior year primarily due to a 25.5% and 19.2% decrease in homes delivered and a 3.6% decrease and 1.2% increase in average selling price for the three and six months ended April 30, 2008, respectively, as the mix of communities delivered in 2008 was different than 2007. Income before income taxes decreased \$28.6 million to a loss of \$18.9 million for the three months and decreased \$42.0 million to a loss of \$25.6 million for the six months ended April 30, 2008, respectively. This was mainly due to a reduction in gross margin percentage before interest expense and \$26.6 million in inventory impairment losses and land option write-offs in the first and second quarter of 2008.

Edgar Filing: HOVNANIAN ENTERPRISES INC - Form 10-Q

West - Homebuilding revenues decreased 38.5% and 39.0% for the three and six months ended April 30, 2008, respectively, compared to the same period of the prior year primarily due to a 8.7% and 11.6% decrease in homes delivered and a 32.1% and 30.8% decrease in average selling price for the three and six months ended April 30,

2008, respectively. The decrease in deliveries was the result of the more competitive and slowing housing market in California during 2007 and continuing through the first and second quarters of fiscal 2008. This reduced revenue was further compounded by a significant reduction in gross margin percentage before interest expense and \$232.0 million in inventory impairment losses and land option write-offs in the first and second quarter of 2008. As a result of the above, loss before income taxes increased \$185.3 million to a loss of \$222.2 million for the three months and increased \$272.6 million to a loss before income taxes of \$310.2 million for the six months ended April 30, 2008, respectively.

Financial Services

Financial services consist primarily of originating mortgages from our homebuyers and selling such mortgages in the secondary market, and title insurance activities. For the three and six months ended April 30, 2008, financial services provided a \$4.1 million and a \$7.2 million profit before income taxes, compared to a profit of \$6.3 million and \$14.7 million for the same periods in 2007, respectively. The decrease in pretax profit for the three and six months ended April 30, 2008 is due to decreased mortgage settlements, a decrease in the average price of settlements, partially offset by a reduction in costs.

Corporate General and Administrative

Corporate general and administrative expenses represent the operations at our headquarters in Red Bank, New Jersey. These expenses include our executive offices, information services, human resources, corporate accounting, training, treasury, process redesign, internal audit, construction services, and administration of insurance, quality, and safety. As a percentage of total revenues, such expenses increased to 2.7% for the three months ended April 30, 2008 from 1.8% for the prior year's three months and increased to 2.3% million for the six months ended April 30, 2008 from 1.9% for the prior year's six months. The increases are primarily the result of increased office facility costs and higher bonus accruals in 2008 as a result of new bonus structures based on net debt reduction.

Other Interest

Other interest decreased \$6.2 million and \$6.9 million for the three and six months ended April 30, 2008, compared to the three and six months ended April 30, 2007. In 2007, this interest included interest on completed homes in our Fort Myers operations, but those homes have now been delivered thus resulting in the decrease in other interest.

Other Operations

Other operations consist primarily of miscellaneous residential housing operations expenses, senior rental residential property operations, earnout payments from homebuilding company acquisitions, minority interest relating to consolidated joint ventures, and corporate owned life insurance. Other operations increased to \$1.1 million and decreased to \$1.9 million for the three and six months ended April 30, 2008, compared to \$0.8 and \$2.3 million for the three and six months ended April 30, 2007.

Intangible Amortization

We are amortizing our definite life intangibles over their expected useful life, ranging from one to four years. Intangible amortization decreased \$6.4 million and \$67.0 million for the three and six months ended April 30, 2008, when compared to the same period last year. This decrease was primarily the result of the write-off of intangible assets for the Fort Myers operations in the Southeast during the first quarter of 2007 and reduced intangible amortization in 2008 as a result of extensive write-offs during the fourth quarter of 2007.

Loss From Unconsolidated Joint Ventures

Loss from unconsolidated joint ventures consists of our share of losses from joint ventures. The loss increased \$1.2 million and \$8.2 million to a loss of \$3.4 million and \$8.4 million for the three and six months ended April 30, 2008 when compared to the same periods last year. The increased losses in 2008 are primarily related to our share of the losses from inventory impairments and land-option and walk-away costs from our joint venture with affiliates of Blackstone Real Estate Advisors. Our share of unconsolidated joint venture intangible and land-related charges were \$5.1 million and \$0.3 million for the three months ended April 30, 2008 and 2007, respectively, and \$9.2 million and \$0.3 million for the six months ended April 30, 2008 and 2007, respectively.

Total Taxes

Total taxes as a percentage of the loss before taxes was .8% and 7.9% for the three and six months ended April 30, 2008. The rate was significantly below the statutory tax rate because we recorded an additional \$120.6 million charge to our deferred tax asset valuation allowance in the quarter as discussed further below. For the remainder of the year, we do not expect to record any additional tax benefits.

Deferred federal and state income tax assets primarily represent the deferred tax benefits arising from temporary differences between book and tax income which will be recognized in future years as an offset against future taxable income. If, for some reason, the combination of future years income (or loss) combined with the reversal of the timing differences results in a loss, such losses can be carried back to prior years or carried forward to future years to recover the deferred tax assets. In accordance with SFAS No. 109, "Accounting for Income Taxes" ("SFAS 109"), we evaluate our deferred tax assets quarterly to determine if valuation allowances are required. SFAS 109 requires that companies assess whether valuation allowances should be established based on the consideration of all available evidence using a "more likely than not" standard. Given the continued downturn in the homebuilding industry during 2007 and the first half of 2008, resulting in additional inventory and intangible impairments, we are now in a three year cumulative loss position. According to SFAS 109, a three year cumulative loss is significant negative evidence in considering whether deferred tax assets are realizable, and also precludes relying on projections of future taxable income to support the recovery of deferred tax assets. Therefore, during the fourth quarter of 2007, we recorded an additional valuation allowance of \$215.7 million against our deferred tax assets. Our valuation allowance increased \$120.6 million and \$141.8 million during the three and six months ended April 30, 2008 from \$265.9 million at October 31, 2007 to \$407.7 million at April 30, 2008. Our deferred tax assets, for which there is no valuation allowance, relate to amounts that can be realized through future reversals of existing taxable temporary differences or through carrybacks to the 2005 and 2006 years.

Inflation

Inflation has a long-term effect, because increasing costs of land, materials, and labor result in increasing sale prices of our homes. In general, these price increases have been commensurate with the general rate of inflation in our housing markets and have not had a significant adverse effect on the sale of our homes. A significant risk faced by the housing industry generally is that rising house construction costs, including land and interest costs, will substantially outpace increases in the income of potential purchasers. Recently in the more highly regulated markets that have seen significant home price appreciation, customer affordability has become a concern. Our broad product array insulates us to some extent, but customer affordability of our homes is something we monitor closely.

Edgar Filing: HOVNANIAN ENTERPRISES INC - Form 10-Q

Inflation has a lesser short-term effect, because we generally negotiate fixed price contracts with many, but not all, of our subcontractors and material suppliers for the construction of our homes. These prices usually are applicable for a specified number of residential buildings or for a time period of between three to twelve months. Construction costs for residential buildings represent approximately 62% of our homebuilding cost of sales.

Safe Harbor Statement

All statements in this Form 10-Q that are not historical facts should be considered as Forward-Looking Statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements involve known and unknown risks, uncertainties and other factors that may cause actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Although we believe that our plans, intentions and expectations reflected in, or suggested by, such forward-looking statements are reasonable, we can give no assurance that such plans, intentions, or expectations will be achieved. Such risks, uncertainties and other factors include, but are not limited to:

- . Changes in general and local economic and business conditions;
- . Adverse weather conditions and natural disasters;
- . Changes in market conditions and seasonality of the Company's business;
- . Changes in home prices and sales activity in the markets where the Company builds homes;
- . Government regulation, including regulations concerning development of land, the home building, sales and customer financing processes, and the environment;
- . Fluctuations in interest rates and the availability of mortgage financing;
- . Shortages in, and price fluctuations of, raw materials and labor;
- . The availability and cost of suitable land and improved lots;
- . Levels of competition;
- . Availability of financing to the Company;
- . Utility shortages and outages or rate fluctuations; and
- . Levels of indebtedness and restrictions on the Company's operations and activities imposed by the agreements governing the Company's outstanding indebtedness;
- . Operations through joint ventures with third parties;
- . Product liability litigation and warranty claims;
- . Successful identification and integration of acquisitions;
- . Significant influence of the Company's controlling stockholders; and
- . Geopolitical risks, terrorist acts and other acts of war.

Certain risks, uncertainties, and other factors are described in detail in Part I, Item 1 Business in our Form 10-K for the year ended October 31, 2007 and Part II, Item 1A Risk Factors in this Form 10-Q for the quarter ended April 30, 2008. Except as otherwise required by applicable securities laws, we undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, changed circumstances or any other reason after the date of this Form 10-Q.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

A primary market risk facing us is interest rate risk on our long-term debt. In connection with our mortgage operations, mortgage loans held for sale and the associated mortgage warehouse line of credit under our secured master repurchase agreement are subject to interest rate risk; however, such obligations reprice frequently and are short-term in duration. In addition, we hedge the interest rate risk on mortgage loans by obtaining forward commitments from private investors. Accordingly, the risk from mortgage loans is not material. We do not use financial instruments to hedge interest rate risk except with respect to mortgage loans. We are also subject to foreign currency risk but this risk is not material. The following table sets forth as of April 30, 2008, our long term debt obligations principal cash flows by scheduled maturity, weighted average interest rates and estimated fair market value (FMV).

Edgar Filing: HOVNANIAN ENTERPRISES INC - Form 10-Q

As of April 30, 2008

Expected Maturity Date

	2008	2009	2010	2011	2012	Thereafter(2)	Total	FMV at April 30, 2008
	(Dollars in Thousands)							
Long term debt(1):								
Fixed rate	\$4,871	\$773	\$100,826	\$884	\$250,946	\$1,584,189	\$1,942,488	\$1,394,638
Weighted average interest rate	5.31%	6.72%	6.01%	6.76%	8.52%	7.06%	7.19%	

(1) Does not include the mortgage warehouse line of credit made under our secured master repurchase agreement.

(2) On May 27, 2008, we issued \$600 million of 11 1/2% Senior Secured Notes due 2013.

In addition, we have reassessed the market risk for our variable rate debt, which at April 30, 2008 was, under the terms of the Seventh Amended and Restated Credit Agreement prior to the May 2008 amendment, based on (1) a margin ranging from 0.25% to 1.50% per annum depending on our Adjusted Leverage Ratio (as defined in the Seventh Amended and Restated Credit Agreement) plus a base rate determined by reference to the higher of (a) PNC Bank, National Association's prime rate and (b) the federal funds rate plus 1/2%, (2) a margin ranging from 2.00% to 3.50% per annum, depending on our Adjusted Leverage Ratio, plus a LIBOR-based rate for a one, two, three, or six month interest period as selected by us or (3) a margin ranging from 2.125% to 3.625% per annum, based on our Adjusted Leverage Ratio, plus an index rate determined by reference to a LIBOR-based rate for one month. We believe that a 1% increase in this rate would have resulted in an approximate \$1.3 million increase in interest expense for the six months ended April 30, 2008, assuming an average of \$265.9 million of variable rate debt outstanding from November 1, 2007 to April 30, 2008. We have also reassessed the market risk for our variable debt at April 30, 2008 under the terms of the May 2008 Amended Credit Agreement, under which interest is based to (1) one, two, three or six month LIBOR, plus 4.50%, (2) a base rate equal to the greater of PNC Bank, National Association's prime rate and the federal funds effective rate plus 0.50%, plus 2.75% and (3) an index rate based on daily LIBOR, plus 4.625%. We believe that a 1% increase in this rate would have resulted in an approximate \$1.3 million increase in interest expense for the six months ended April 30, 2008, assuming an average of \$265.9 million of variable rate debt outstanding from November 1, 2007 to April 30, 2008.

Item 4. CONTROLS AND PROCEDURES

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Company's reports under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to the Company's management, including its chief executive officer and chief financial officer, as appropriate, to allow timely decisions regarding required disclosures. Any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. The Company's management, with the participation of the Company's chief executive officer and chief financial officer, has evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures as of April 30, 2008. Based upon that evaluation and subject to the foregoing, the Company's chief executive officer and chief financial officer concluded that the design and operation of the Company's disclosure controls and procedures as of April 30, 2008 are effective to accomplish their objectives.

In addition, there was no change in the Company's internal control over financial reporting that occurred during the quarter ended April 30, 2008 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. Other Information

Item 1. Legal Proceedings

Information with respect to legal proceedings is incorporated into this Part II, Item 1 from Note 7 to the Condensed Consolidated Financial Statements in Part I, Item I.

Item 1A. Risk Factors

The risk factors in our Form 10-K for the year ended October 31, 2007 have been updated and are included herein in their entirety.

The homebuilding industry is significantly affected by changes in general and local economic conditions, real estate markets and weather conditions, which could affect our ability to build homes at prices our customers are willing or able to pay, could reduce profits that may not be recaptured and could result in cancellation of sales contracts.

The homebuilding industry is cyclical, has from time to time experienced significant difficulties and is significantly affected by changes in general and local economic conditions such as:

employment levels and job growth;

availability of financing for home buyers;

interest rates;

foreclosure rates;

inflation;

adverse changes in tax laws;

consumer confidence;

housing demand; and

population growth.

Weather conditions and natural disasters such as hurricanes, tornadoes, earthquakes, floods and fires can harm the local homebuilding business. Our business in Florida was adversely affected in late 2005 and into 2006 due to the impact of Hurricane Wilma on materials and labor availability and pricing.

The difficulties described above could cause us to take longer and incur more costs to build our homes. We may not be able to recapture increased costs by raising prices in many cases because we fix our prices up to twelve months in advance of delivery by signing home sales contracts. In addition, some home buyers may cancel or not honor their home sales contracts altogether.

The homebuilding industry is undergoing a significant and sustained downturn which has, and could continue to, materially and adversely affect our business, liquidity and results of operations.

The homebuilding industry is now experiencing a significant and sustained downturn. An industry-wide softening of demand for new homes has resulted from a lack of consumer confidence, decreased housing affordability, decreased availability of mortgage financing, and large supplies of resale and new home inventories. In addition, an oversupply of alternatives to new homes, such as rental properties and resale homes, has depressed prices and reduced margins for the sale of new homes. Industry conditions had a material adverse effect on our business and results of operations during fiscal year 2007 and are continuing to materially adversely affect our business and results of operations in fiscal 2008. For example, we are continuing to experience slower sales, reductions in our margins and higher cancellations which impact most of our markets. Further, we substantially increased our inventory in recent years, which required significant cash outlays and which has increased our price and margin exposure as we continue to work through this inventory. Continuation of this downturn would continue to have a material adverse effect on our business, liquidity and results of operations.

Leverage places burdens on our ability to comply with the terms of our indebtedness, may restrict our ability to operate, may prevent us from fulfilling our obligations and may adversely affect our financial condition.

We have a significant amount of debt. On a pro forma basis after giving effect to the May 27, 2008 issuance of \$600 million of 11 1/2% Senior Secured Notes due 2013 and the application of the proceeds there from and the effectiveness of the Amended Credit Agreement:

our debt, as of April 30, 2008, including the debt of the subsidiaries that guarantee our debt, would have been \$2,542.5 million;

As of May 27, 2008, the aggregate outstanding face amount of letters of credit under our Amended Credit Agreement were approximately \$217.8 million and we had no outstanding revolving loans; and

our debt service payments for the 12-month period ended April 30, 2008, which include interest incurred and mandatory principal payments on our corporate debt under the terms of our indentures (but which do not include principal and interest on non-recourse secured debt and debt of our financial subsidiaries), would have been approximately \$360.0 million (\$140.3 million of which relates to principal payments on our 10 1/2% Senior Notes due 2007).

In addition, we had substantial contractual commitments and contingent obligations, including \$710.3 million of performance bonds as of April 30, 2008. See Management's Discussion of Financial Condition and Results of Operations Contractual Obligations in our Annual Report on Form 10-K for the year ended October 31, 2007.

Our significant amount of debt could have important consequences. For example, it could:

limit our ability to obtain future financing for working capital, capital expenditures, acquisitions, debt service requirements or other requirements;

require us to dedicate a substantial portion of our cash flow from operations to the payment of our debt and reduce our ability to use our cash flow for other purposes;

limit our flexibility in planning for, or reacting to, changes in our business;

place us at a competitive disadvantage because we have more debt than some of our competitors; and

make us more vulnerable to downturns in our business and general economic conditions.

Our ability to meet our debt service and other obligations will depend upon our future performance. We are engaged in businesses that are substantially affected by changes in economic cycles. Our revenues and earnings vary with the level of general economic activity in the markets we serve. Our businesses are also affected by customer sentiment and financial, political, business and other factors, many of which are beyond our control. The factors that affect our ability to generate cash can also affect our ability to raise additional funds for these purposes through the sale of equity securities, the refinancing of debt, or the sale of assets. Changes in prevailing interest rates may affect our ability to meet our debt service obligations, because borrowings under our Amended Credit Agreement bear interest at floating rates. A higher interest rate on our debt

service obligations could result in lower earnings.

Our business may not generate sufficient cash flow from operations and borrowings may not be available to us under our Amended Credit Agreement in an amount sufficient to enable us to pay our indebtedness or to fund our other liquidity needs. Under the Amended Credit Agreement, the amount available for revolving loans is limited to \$25 million until July 31, 2008 and to \$100 million thereafter, with the remaining amounts available for the issuance of letters of credit. We may need to refinance all or a portion of our debt on or before maturity, which we may not be able to do on favorable terms or at all.

Restrictive covenants in our debt instruments may restrict our ability to operate and if our financial performance worsens, we may not be able to maintain compliance with the financial covenants of our debt instruments.

The indentures governing our outstanding debt securities and our Amended Credit Agreement impose restrictions on our operations and activities. The most significant restrictions relate to debt incurrence, sales of assets, cash distributions, including paying dividends on common and preferred stock, capital stock repurchases, and investments by us and certain of our subsidiaries. The covenants in our Amended Credit Agreement also include a

borrowing base covenant and a covenant requiring either a minimum operating cash flow coverage ratio or minimum liquidity as of the last day of each fiscal quarter but do not contain any other financial covenants. Our level of home deliveries, amount of impairments and other financial performance factors have negatively impacted the borrowing base and financial covenants under the Seventh Amended and Restated Revolving Credit Agreement and there can be no assurance that we will not violate the financial or other covenants under our debt instruments in the future or that the amount available under our revolving credit line would not be reduced.

In addition, as a result of the restrictions in our indentures, which would require our fixed charge coverage ratio to be at least 2.0 to 1.0, we are currently restricted from paying dividends on our Series A Preferred Stock and will continue to be restricted during the remainder of fiscal 2008. If current market trends continue or worsen, we anticipate that we will continue to be restricted from paying dividends into fiscal 2009.

If we fail to comply with any of the restrictions or covenants of our debt instruments, and are unable to amend the instrument or obtain a waiver, or make timely payments on this debt and other material indebtedness, we could be precluded from incurring additional borrowings under our Amended Credit Agreement and the trustees or the banks, as appropriate, could cause our debt to become due and payable prior to maturity. In such a situation, there can be no assurance that we would be able to obtain alternative financing. In addition, if we are in default of these agreements, we may be prohibited from drawing additional funds under the Amended Credit Agreement, which could impair our ability to maintain sufficient working capital. Either situation could have a material adverse effect on the solvency of the Company.

The terms of our debt instruments allow us to incur additional indebtedness.

Under the terms of our indebtedness under our indentures and under the Amended Credit Agreement, we have the ability, subject to our debt covenants, to incur additional amounts of debt. The incurrence of additional indebtedness could magnify the risks described above. In addition, certain obligations such as standby letters of credit and performance bonds issued in the ordinary course of business are not considered indebtedness under our indentures (and may be secured) and are therefore not subject to limits in our debt covenants.

We could be adversely affected by a negative change in our credit rating.

Our ability to access capital on favorable terms is a key factor in continuing to grow our business and operations in a profitable manner. Recently, Moody's and S&P have lowered our credit ratings, which may make it more difficult and costly for us to access capital. A further downgrade by any of the principal credit agencies may exacerbate these difficulties.

Our business is seasonal in nature and our quarterly operating results can fluctuate.

Our quarterly operating results generally fluctuate by season. Historically, a large percentage of our agreements of sale have been entered into in the winter and spring. The construction of a customer's home typically begins after signing the agreement of sale and can take 12 months or more to complete. Weather-related problems, typically in the late winter and early spring, can delay starts or closings and increase costs and thus reduce profitability. In addition, delays in opening communities could have an adverse impact on our sales and revenues. Due to these factors, our quarterly operating results may continue to fluctuate.

Our success depends on the availability of suitable undeveloped land and improved lots at acceptable prices.

Our success in developing land and in building and selling homes depends in part upon the continued availability of suitable undeveloped land and improved lots at acceptable prices. The availability of undeveloped land and improved lots for purchase at favorable prices depends on a number of factors outside of our control, including the risk of competitive over-bidding on land and lots and restrictive governmental regulation. Should suitable land opportunities become less available, the number of homes we may be able to build and sell would be reduced, which would reduce revenue and profits.

Raw material and labor shortages and price fluctuations could delay or increase the cost of home construction and adversely affect our operating results.

The homebuilding industry has from time to time experienced raw material and labor shortages. In particular, shortages and fluctuations in the price of lumber or in other important raw materials could result in delays in the start or completion of, or increase the cost of, developing one or more of our residential communities. In addition, we contract with subcontractors to construct our homes. Therefore, the timing and quality of our construction depends on the availability, skill and cost of our subcontractors. Delays or cost increases caused by shortages and price fluctuations could harm our operating results, the impact of which may be further affected depending on our ability to raise sales prices.

Changes in economic and market conditions could result in the sale of homes at a loss or holding land in inventory longer than planned, the cost of which can be significant.

Land inventory risk can be substantial for homebuilders. We must continuously seek and make acquisitions of land for expansion into new markets and for replacement and expansion of land inventory within our current markets. The market value of undeveloped land, buildable lots and housing inventories can fluctuate significantly as a result of changing economic and market conditions. In the event of significant changes in economic or market conditions, we may have to sell homes at a loss or hold land in inventory longer than planned. In the case of land options, we could choose not to exercise them, in which case we would write off the value of these options. Inventory carrying costs can be significant and can result in losses in a poorly performing project or market. For example, during 2007 and 2006 we decided not to exercise many option contracts and walked away from land option deposits and predevelopment costs, which resulted in land option write-offs of \$126.0 million and \$159.1 million, respectively. Also, in 2007 and 2006, as a result of the slowing market, we recorded inventory impairment losses on owned property of \$331.8 million and \$177.1 million, respectively. For the six months ended April 30, 2008, we recorded inventory impairment losses on owned property of \$300.2 million and we also recorded \$35.8 million of land option write-offs.

Home prices and sales activities in the California, New Jersey, Texas, North Carolina, Virginia, Maryland, Florida and Arizona markets have a large impact on our profitability because we conduct a significant portion of our business in these markets.

We presently conduct a significant portion of our business in the California, New Jersey, Texas, North Carolina, Virginia, Maryland, Florida and Arizona markets. Home prices and sales activities in these markets, and in most of the other markets in which we operate, have declined from time to time, particularly as a result of slow economic growth. In particular, California, Florida, New Jersey, Virginia and Maryland have continued to slow since the end of 2006. Furthermore, precarious economic and budget situations at the state government level may adversely affect the market for our homes in those affected areas. If home prices and sales activity decline in one or more of the markets in which we operate, our costs may not decline at all or at the same rate and profits may be reduced.

Because almost all of our customers require mortgage financing, increases in interest rates or the availability of mortgage financing could impair the affordability of our homes, lower demand for our products, limit our marketing effectiveness, and limit our ability to fully realize our backlog.

Virtually all of our customers finance their acquisitions through lenders providing mortgage financing. Increases in interest rates or decreases in availability of mortgage financing could lower demand for new homes because of the increased monthly mortgage costs to potential home

Edgar Filing: HOVNANIAN ENTERPRISES INC - Form 10-Q

buyers. Even if potential customers do not need financing, changes in interest rates and mortgage availability could make it harder for them to sell their existing homes to potential buyers who need financing. This could prevent or limit our ability to attract new customers as well as our ability to fully realize our backlog because our sales contracts generally include a financing contingency. Financing contingencies permit the customer to cancel his obligation in the event mortgage financing at prevailing interest rates, including financing arranged or provided by us, is unobtainable within the period specified in the contract. This contingency period is typically four to eight weeks following the date of execution.

Over the last several quarters, many lenders have significantly tightened their underwriting standards, and many subprime and other alternative mortgage products are no longer being made available in the marketplace. If these trends continue and mortgage loans continue to be difficult to obtain, the ability and willingness of prospective buyers to finance home purchases or to sell their existing homes will be adversely affected, which will adversely affect our operating results.

In addition, we believe that the availability of FNMA, FHLMC, FHA and VA mortgage financing is an important factor in marketing many of our homes. Any limitations or restrictions on the availability of those types of financing could reduce our sales.

We conduct certain of our operations through unconsolidated joint ventures with independent third parties in which we do not have a controlling interest. These investments involve risks and are highly illiquid.

We currently operate through a number of unconsolidated homebuilding and land development joint ventures with independent third parties in which we do not have a controlling interest. At April 30, 2008, we had invested an aggregate of \$166.4 million in these joint ventures, which had borrowings outstanding of approximately \$336.7 million. In addition, as part of our strategy, we intend to continue to evaluate additional joint venture opportunities.

These investments involve risks and are highly illiquid. There are a limited number of sources willing to provide acquisition, development and construction financing to land development and homebuilding joint ventures, and as the use of joint venture arrangements by us and our competitors increases and as market conditions become more challenging, it may be difficult or impossible to obtain financing for our joint ventures on commercially reasonable terms. In addition, we lack a controlling interest in these joint ventures and therefore are usually unable to require that our joint ventures sell assets or return invested capital, make additional capital contributions or take any other action without the vote of at least one of our venture partners. Therefore, absent partner agreement, we will be unable to liquidate our joint venture investments to generate cash.

Homebuilders are subject to a number of federal, local, state and foreign laws and regulations concerning the development of land, the home building, sales and customer financing processes and protection of the environment, which can cause us to incur delays and costs associated with compliance and which can prohibit or restrict our activity in some regions or areas.

We are subject to extensive and complex regulations that affect the development and home building, sales and customer financing processes, including zoning, density, building standards and mortgage financing. These regulations often provide broad discretion to the administering governmental authorities. This can delay or increase the cost of development or homebuilding. In addition, some state and local governments in markets where we operate have approved, and others may approve, slow growth or no growth initiatives that could negatively impact the availability of land and building opportunities within those areas. Approval of these initiatives could adversely affect our ability to build and sell homes in the affected markets and/or could require the satisfaction of additional administrative and regulatory requirements, which could result in slowing the progress or increasing the costs of our homebuilding operations in these markets. Any such delays or costs could have a negative effect on our future revenues and earnings.

We also are subject to a variety of local, state, federal and foreign laws and regulations concerning protection of health and the environment. The particular environmental laws which apply to any given community vary greatly according to the community site, the site's environmental conditions and the present and former uses of the site. These environmental laws may result in delays, may cause us to incur substantial compliance, remediation, and/or other costs, and can prohibit or severely restrict development and homebuilding activity in certain

environmentally sensitive regions or areas.

For example, during 2005, we received requests for information from the Environmental Protection Agency (the EPA) pursuant to provisions of the Clean Water Act. These requests sought information concerning storm water discharge practices in connection with completed, ongoing and planned homebuilding projects in the states and district that comprise EPA Region 3. We provided the EPA with information in response to its requests. The Department of Justice (DOJ) subsequently also has become involved in the review of our storm water discharge

practices and enforcement with respect to them. We have subsequently received a notification with respect to another development from the EPA alleging violations of storm water discharge practices and requesting related information. We cannot predict the outcome of the review of these practices or estimate the costs that may be involved in resolving the matter. To the extent that the EPA or the DOJ asserts violations of regulatory requirements and request injunctive relief or penalties, we will defend and attempt to resolve such asserted violations.

It can be anticipated that increasingly stringent requirements will be imposed on developers and homebuilders in the future. Although we cannot predict the effect of these requirements, they could result in time-consuming and expensive compliance programs and in substantial expenditures, which could cause delays and increase our cost of operations. In addition, the continued effectiveness of permits already granted or approvals already obtained is dependent upon many factors, some of which are beyond our control, such as changes in policies, rules and regulations and their interpretation and application.

Product liability litigation and warranty claims that arise in the ordinary course of business may be costly.

As a homebuilder, we are subject to construction defect and home warranty claims arising in the ordinary course of business. Such claims are common in the homebuilding industry and can be costly. In addition, the amount and scope of coverage offered by insurance companies is currently limited and this coverage may be further restricted and become more costly. If we are not able to obtain adequate insurance against such claims, we may experience losses that could hurt our financial results. Our financial results could also be adversely affected if we were to experience an unusually high number of claims or unusually severe claims.

We compete on several levels with homebuilders that may have greater sales and financial resources, which could hurt future earnings.

We compete not only for home buyers but also for desirable properties, financing, raw materials and skilled labor often within larger subdivisions designed, planned and developed by other homebuilders. Our competitors include other local, regional and national homebuilders, some of which have greater sales and financial resources.

The competitive conditions in the homebuilding industry together with current market conditions have, and could continue to, result in:

difficulty in acquiring suitable land at acceptable prices;

increased selling incentives;

lower sales; or

delays in construction.

Any of these problems could increase costs and/or lower profit margins.

We may have difficulty in obtaining the additional financing required to operate and develop our business.

Our operations require significant amounts of cash, and we may be required to seek additional capital, whether from sales of equity or borrowing additional money, for the future growth and development of our business. The terms or availability of additional capital is uncertain. Moreover, the indentures for our outstanding debt securities and our Amended Credit Agreement contain provisions that restrict the debt we may incur and the equity we may issue in the future. If we are not successful in obtaining sufficient capital, it could reduce our sales and may hinder our future growth and results of operations. In addition, pledging substantially all of our assets to support the Amended Credit Agreement and the Senior Secured Notes due 2013 may make it more difficult to raise additional financing in the future.

Our future growth may include additional acquisitions of companies that may not be successfully integrated and may not achieve expected benefits.

Acquisitions of companies have contributed to our growth and are a component of our growth strategy. In March 2005, we acquired Cambridge Homes and Town & Country Homes; in August 2005, we acquired Oster Homes and First Home Builders of Florida and in April 2006, we acquired Craftbuilt Homes. In the future, we may

acquire other businesses, some of which may be significant. As a result of acquisitions of companies, we may need to seek additional financing and integrate product lines, dispersed operations and distinct corporate cultures. These integration efforts may not succeed or may distract our management from operating our existing business. Additionally, we may not be able to enhance our earnings as a result of acquisitions. Our failure to successfully identify and manage future acquisitions could harm our operating results.

Our controlling stockholders are able to exercise significant influence over us.

Kevork S. Hovnanian, the Chairman of our Board of Directors, and Ara K. Hovnanian, our President and Chief Executive Officer, have voting control, through personal holdings and family-owned entities, of Class A and Class B common stock that enables them to cast approximately 71.6% of the votes that may be cast by the holders of our outstanding Class A and Class B common stock combined. Their combined stock ownership enables them to exert significant control over us, including power to control the election of our Board of Directors and to approve matters presented to our stockholders. This concentration of ownership may also make some transactions, including mergers or other changes in control, more difficult or impossible without their support. Also, because of their combined voting power, circumstances may occur in which their interests could be in conflict with the interests of other stakeholders.

Our net operating loss carryforwards could be substantially limited if we experience an ownership change as defined in the Internal Revenue Code.

Based on recent impairments and our current financial performance, we expect to generate net operating loss carryforwards for the year ending October 31, 2008, and possibly future years.

Section 382 of the Internal Revenue Code contains rules that limit the ability of a company that undergoes an ownership change, which is generally any change in ownership of more than 50% of its stock over a three-year period, to utilize its net operating loss carryforwards and certain built in losses recognized in years after the ownership change. These rules generally operate by focusing on ownership changes among stockholders owning directly or indirectly 5% or more of the stock of a company or any change in ownership arising from a new issuance of stock by the company.

If we undergo an ownership change for purposes of Section 382 as a result of future transactions involving our common stock, including purchases or sales of stock between 5% shareholders, our ability to use our net operating loss carryforwards and recognize certain built in losses would be subject to the limitations of Section 382. Depending on the resulting limitation, a significant portion of our net operating loss carryforwards could expire before we would be able to use them. Our inability to utilize our net operating loss carryforwards could have a negative impact on our financial position and results of operations.

Utility shortages and outages or rate fluctuations could have an adverse effect on our operations.

In prior years, the areas in which we operate in California have experienced power shortages, including periods without electrical power, as well as significant fluctuations in utility costs. We may incur additional costs and may not be able to complete construction on a timely basis if such power shortages/outages and utility rate fluctuations continue. Furthermore, power shortages and outages, such as the blackout that occurred in 2003 in the Northeast, and rate fluctuations may adversely affect the regional economies in which we operate, which may reduce demand for our

homes. Our operations may be adversely affected if further rate fluctuations and/or power shortages and outages occur in California, the Northeast or in our other markets.

Geopolitical risks and market disruption could adversely affect our operating results and financial condition.

Geopolitical events, such as the aftermath of the war with Iraq and the continuing involvement in Iraq, may have a substantial impact on the economy and the housing market. The terrorist attacks on the World Trade Center and the Pentagon on September 11, 2001 had an impact on our business and the occurrence of similar events in the future cannot be ruled out. The war and the continuing involvement in Iraq, terrorism and related geopolitical risks have created many economic and political uncertainties, some of which may have additional material adverse effects on the U.S. economy, and our customers and, in turn, our results of operations and financial condition.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On April 22, 2008, in transactions approved in accordance with Rule 16b-3 under the Securities Exchange Act of 1934, as amended, we (i) exchanged 72,418 shares of Class B Common Stock held by a member of the Hovnanian family for an equal number of shares of Class A Common Stock and (ii) immediately thereafter exchanged the 72,418 shares of Class B Common Stock received from the member of the Hovnanian family for an equal number of shares of Class A Common Stock held by Kevork S. Hovnanian. The aggregate Hovnanian family holdings of shares, both Class A Common Stock and Class B Common Stock, remain unchanged by such exchanges. The Class A Common Stock and Class B Common Stock were exchanged pursuant to Section 3(a)(9) of the Act.

Issuer Purchases of Equity Securities(1)

No shares of our 7.625% Series A Preferred Stock were purchased by or on behalf of Hovnanian Enterprises or any affiliated purchaser during the second quarter of fiscal 2008. The table below provides information with respect to purchases of shares of our Class A Common Stock and Class B Common Stock made by or on behalf of Hovnanian Enterprises or any affiliated purchaser during the second quarter of fiscal 2008.

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number	
			Of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares That May Yet Be Purchased Under The Plans or Programs
February 1, 2008 through February 29, 2008				612,668
March 1, 2008 through March 31, 2008				612,668
April 1, 2008 through April 30, 2008	72,418 (Class A) (2)			612,668
April 1, 2008 through April 30, 2008	72,418 (Class B) (2)			612,668

(1) In July 2001, our Board of Directors authorized a stock repurchase program to purchase up to 4 million shares of Class A Common Stock (adjusted for a 2 for 1 stock dividend on March 5, 2004).

(2) On April 22, 2008, in transactions approved in accordance with Rule 16b-3 under the Securities Exchange Act of 1934, as amended we (i) exchanged 72,418 shares of Class B Common Stock held

Edgar Filing: HOVNANIAN ENTERPRISES INC - Form 10-Q

by a member of the Hovnanian family for an equal number of shares of Class A Common Stock and (ii) immediately thereafter exchanged the 72,418 shares of Class B Common Stock received from the member of the Hovnanian family for an equal number of shares of Class A Common Stock held by Kevork S. Hovnanian. The aggregate Hovnanian family holdings of shares, both Class A Common Stock and Class B Common Stock, remain unchanged by such exchanges.

Item 4. Submission of Matters to a Vote of Security Holders

We held our annual stockholders meeting on March 31, 2008 at 10:30 a.m. at the offices of Simpson Thacher & Bartlett, 425 Lexington Avenue, New York, New York. The following matters were voted upon at the meeting:

Edgar Filing: HOVNIANIAN ENTERPRISES INC - Form 10-Q

- (1) Election of all Directors to hold office until the next Annual Meeting of Stockholders. There were no broker non-votes and abstentions were counted and had the same effect as a vote against the Director. The elected Directors were:

	Class A Votes For	Votes Withheld	Class B Votes For	Votes Withheld
K. Hovnanian	29,512,149	8,970,660	144,292,869	26,382
A. Hovnanian	29,552,401	8,930,408	144,292,869	26,382
R. Coutts	35,439,617	3,043,192	144,295,071	24,180
E. Kangas	35,400,190	3,082,619	144,295,071	24,180
J. Marengi	35,722,721	2,760,088	144,314,371	4,880
J. Robbins	35,716,206	2,766,603	144,314,371	4,880
J. Sorsby	29,317,494	9,165,315	144,292,969	26,282
S. Weinroth	33,482,904	4,999,905	144,294,571	24,680

- (2) Ratification of the selection of Ernst & Young, LLP as independent registered public accountants for the fiscal year ending October 31, 2008. There were no broker non-votes.

	Class A	Class B
Votes For	38,101,413	144,315,391
Votes Against	340,303	2,440
Abstain	41,092	1,420

- (3) Approval of the amended and restated Senior Executive Short-Term Incentive Plan.

	Class A	Class B
Votes For	23,271,469	144,263,576
