**Item 1.01 Entry into a Material Definitive Agreement**

On February 27, 2008, Forest Laboratories, Inc., a Delaware corporation ("Forest"), through its wholly-owned subsidiary, Forest Laboratories Holdings, Ltd., an Irish corporation, and Mylan Inc., a Pennsylvania corporation, formerly known as Mylan Laboratories Inc. ("Mylan"), entered into an amendment to the Nebivolol Development and Commercialization Agreement between them (the "Development Agreement"), dated as of January 6, 2006, as amended by letter agreements dated January 6, 2006 and January 11, 2006. The Development Agreement provides for the commercialization, development and distribution of Bystolic™, Mylan's novel beta blocker nebivolol, a selective beta 1- blocker with vasodilating properties for an indication of hypertension ("Bystolic").

Pursuant to the terms of the amendment, Forest will assume Mylan's commercial rights for Bystolic in the United States and Canada including the elimination of Mylan's option to co-promote such product. Forest will be responsible for all future Bystolic development expenses as well as all sales and marketing expenses.

Under the terms of the amendment, Forest will make a one-time cash milestone payment of \$370 million to Mylan. Beginning in the first quarter of 2011, Forest will amortize that payment over the remaining patent life of the product. Until the first quarter of 2011, Forest will continue to pay Mylan contractual royalties through calendar year 2010 after which Forest will pay an amount consistent with the royalty rates Forest generally pays with respect to its principal products for the supply of active pharmaceutical ingredient.

The summary of the amendment set forth above is qualified in its entirety by the amendment, which will be filed as an exhibit to Forest's annual report on Form 10-K for the fiscal year ending March 31, 2008.

A copy of the press release announcing Forest's entry into the amendment is attached to this Current Report as Exhibit 99 and is incorporated herein by reference.
