Consolidated Ratio of Earnings to Fixed Charges

The information contained in the Prospectus under the caption "Consolidated Ratio of Earnings to Fixed Charges" is hereby amended in its entirety, as follows:

| <u>Year Ended December 31,</u> |             |             |             |             | <u>Nine Months</u> |

| <u>2004</u>                    | <u>2005</u> | <u>2006</u> | <u>2007</u> | <u>2008</u> | <u>Ended</u>       |
|                                |             |             |             |             | <u>September</u>   |
|                                |             |             |             |             | <u>30, 2009</u>    |
| 1.82                           | 1.66        | 1.63        | 1.56        | 1.24        | 0.88               |

For purposes of computing the consolidated ratio of earnings to fixed charges, earnings consist of net earnings adjusted for the provision for income taxes, noncontrolling interests, discontinued operations and undistributed earnings of equity investees.

Fixed charges consist of interest and discount on all indebtedness and one-third of rentals, which we believe is a reasonable approximation of the interest factor of such rentals.

As set forth above, GE Capitals ratio of earnings to fixed charges declined to 0.88:1 in the first nine months of 2009 due to lower pre-tax earnings which were primarily driven by higher provisions for losses on financing receivables in connection with the challenging economic environment. As of September 30, 2009, the amount of earnings needed to achieve a one-to-one ratio of earnings to fixed charges was \$1.689 million.
