Edgar Filing: GENERAL MOTORS CORP - Form 8-K

ITEM 9. Forward Looking Information Relating to General Motors Corporation (GM) 2002 financial outlook.

Today, reviewing GM's third quarter 2001 results in a conference call with Wall Street securities analysts, the media and the general public, John Devine, Vice Chairman and Chief Financial Officer, and Bill Muir, Executive Vice President, Chief Financial Officer and Director of GMAC, gave guidance related to GM's 2002 financial outlook.

Mr. Devine stated that the value of the US hourly and salaried pension plan investments has declined 8% this year. A decrease in the value of these investments during the current year will not have any impact on 2001 earnings. However, it will affect earnings adversely in 2002. If at the end of 2001 the value of these investments has declined 5%, the earnings impact in 2002 would be a loss of approximately \$1.30 per share of GM \$1-2/3 par value common stock; if at the end of the year the value of these investments has declined 10%, the earnings impact in 2002 would be a loss of approximately \$1.80 per share of GM \$1-2/3 par value common stock. Mr. Devine added that GM does not expect to make any further cash contributions to the pension plans for several years.

Mr. Devine also stated that he expects GM to be profitable and have a positive cash flow in 2002.

Mr. Muir stated while GMAC expects to see a slight deterioration in earnings of approximately \$200 million in 2002, it will remain a strong contributor to GM's consolidated earnings.
