ASM manufactures and markets spray tips, guns, poles and other accessories for the professional painter. ASM had sales of approximately \$11 million in 2000.

Item 2.

GRACO INC. AND SUBSIDIARIES MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of Operations

Net sales and earnings in the first quarter decreased from last year. The impact of reduced sales on net earnings was mitigated by a reduction of expenses. The increase in product development expense was more than offset by reductions in other operating expenses.

The following table sets forth items from the Company's Consolidated Statements of Earnings as percentages of net sales:

	Thirteen Weeks Ended	
	March 30, 2001	March 31, 2000
	-----	-----
Net Sales	100.0%	100.0%
Cost of products sold	49.8	49.2
Product development	5.7	4.1
Selling, marketing and distribution	18.8	19.5
General and administrative	7.0	7.0
	-----	-----
Operating Profit	18.7	20.2
Interest expense	0.4	1.0
Other (income) expense, net	0.2	0.4

Edgar Filing: GRACO INC - Form 10-Q/A

	-----	-----
Earnings Before Income Taxes	18.1	18.8
Income taxes	6.1	6.5
	-----	-----
Net Earnings	12.0%	12.3%
	=====	=====

Net Sales

Net sales in the first quarter of 2001 were down 10 percent from first quarter 2000. Economic conditions in North America led to reduced demand and lower sales in the Industrial / Automotive segment (down 16 percent) and the Contractor Equipment segment (down 8 percent). Lubrication Equipment segment sales (up 12 percent) were helped by new products launched last September and large sales to several key customers. Within the Contractor Equipment segment, sales in the home center channel were \$9.3 million, up 3 percent from the first quarter of 2000. The Company began selling through the home center channel in January 2000, and most of the sales in the first quarter of 2000 were initial stocking orders.

Geographically, sales in the Americas decreased 13 percent. In Europe, sales measured in local currencies increased 2 percent, but decreased 4 percent after unfavorable currency translation. Asia Pacific sales were 3 percent lower than last year, but would have increased 4 percent if translated at consistent exchange rates. Fluctuations in exchange rates adversely impacted consolidated net sales for the quarter by approximately \$2 million.

Gross Profit

Gross profit as a percentage of net sales was 50.2 percent compared to 50.8 percent last year. Gross profit as a percentage of net sales would have decreased only .2 percentage points if sales and cost of products sold were translated at consistent exchange rates.

Operating Expenses

Product development expense increased 25 percent from the first quarter of 2000, as several new products approached launch dates. Other operating expenses decreased commensurate with reduced sales levels. Selling, marketing and distribution expense decreased 13 percent and decreased as a percentage of sales to 18.8 percent from 19.5 percent. First quarter 2000 included significant spending related to the introduction of new products and entry into the home center channel. General and administrative expenses were down 11 percent due to controls placed on spending, including restrictions on discretionary items, and the impact of reduced sales on incentive bonus provisions.

Interest Expense and Other Income (Expense)

Interest expense decreased due to reduced debt levels.

Liquidity and Capital Resources

The Company generated \$11.1 million of cash flow from operating activities in the first three months of 2000, compared to \$8.8 million for the same period last year. Significant uses of cash in 2001 included the acquisition of ASM Company, Inc. and the construction in progress of expanded manufacturing,

Edgar Filing: GRACO INC - Form 10-Q/A

warehouse and office facilities in Minneapolis. In 2000, the Company utilized cash flow to retire \$15.3 million of common stock. The Company plans to expand its Sioux Falls, South Dakota manufacturing facilities to accommodate the move of ASM operations from its current location in California. The Company had unused lines of credit available at March 30, 2001 totaling \$90 million. The available credit facilities and internally generated funds provide the Company with the financial flexibility to meet liquidity needs.

Outlook

The Company remains cautious about its outlook for 2001, as the North American economy has slowed down considerably from the levels of a year ago. Nonetheless, management remains confident that the Company will continue to post good results in light of the circumstances. Management expects to generate incremental revenues and profits by aggressively implementing growth strategies of developing new products, expanding distribution, entering new markets and pursuing strategic acquisitions.

SAFE HARBOR CAUTIONARY STATEMENT

The information in this 10-Q contains "forward-looking statements" about the Company's expectations of the future, which are subject to certain risk factors that could cause actual results to differ materially from those expectations. These factors include economic conditions in the United States and other major world economies, currency exchange fluctuations and additional factors identified in Exhibit 99 to the Company's Report on Form 10-K for fiscal year 2000.
