Item 2.02 Results of Operations and Financial Condition.

Included below is a release of financial information mailed to stockholders on March 16, 2007. It reflects the financial condition, in a condensed format, for Kansas City Life Insurance Company as of December 31, 2006, and was previously included in the Company's year end Form 10-K report filed on March 1, 2007.

Message from the President, CEO and Chairman of the Board

Kansas City Life's 2006 results reflect solid earnings and continued financial strength. Net income increased 2% to \$36.9 million for the year, and earnings per share improved to \$3.11 from \$3.03 in 2005. The growth in earnings primarily stemmed from reduced benefit costs and improved net investment income. Net income and earnings per share for the fourth quarter were \$10.1 million and \$0.86, respectively.

The Company continues to emphasize the growth of its individual life insurance business. Kansas City Life's commitment to growing this business has resulted in improved recruiting of new general agents and agents in its Individual Insurance Segment. In addition to growing sales through the Company's traditional general agency distribution system, Kansas City Life was pleased to begin a new relationship in 2006 with American Republic Insurance Company. These agents are now afforded the opportunity to provide Kansas City Life products to their clients. Kansas City Life believes that life insurance is unequalled as a means of providing protection and is dedicated to promoting the sale of life insurance at a reasonable cost to meet the needs of individuals and their families.

Renewal premiums increased 1% for the year, but new premiums declined primarily due to lower sales of immediate annuities. Renewal deposits declined due to lower receipts of fixed deferred and variable annuities, while new universal life and variable universal life deposits grew 1% and 7%, respectively, in 2006.

The Company benefited from lower investment expenses and \$5.6 million in net realized investment gains for the year. In spite of slightly higher interest rates during 2006, the investment environment remains challenging. However, the Company continues to benefit from a diversified mix of high-quality investments.

Total benefit costs declined by \$5.9 million or 2% in 2006 versus the prior year. This improvement was net of a \$6.2 million or 5% increase in death benefits paid. Partially offsetting the increase in death benefits was the favorable impact of reinsurance from insurers with whom the Company cedes mortality risk. Interest credited to policyholder account balances declined which also helped lower total benefit costs.

The Company has recorded steady earnings in recent years and added significantly to its capital position. Based upon the Company's good earnings experience and strong balance sheet, the Board of Directors recognized the opportunity to reward shareholders at a meeting on January 29, 2007, as two dividends were declared. Consistent with recent quarters, a dividend of \$0.27 per share was declared. In addition, the Board of Directors declared a special dividend of \$2.00 per share. Both dividends were paid on February 13, 2007 to shareholders of record as of February 8, 2007.

The Company has long been committed to providing present and future financial security to its policyholders and shareholders. The Company has maintained this position in a highly competitive industry for 111 years through superior relationships, an array of competitive products, solid earnings and a strong capital position. Kansas City Life provides Security Assured, a commitment and a promise that has been developed, honed and guarded over the years. This promise is the basis for both the Company's rich tradition and commitment to growth and success in the future. Kansas City Life looks forward to the continued opportunity to serve you in 2007.

See accompanying Notes to Consolidated Financial Statements.

Notes

Comprehensive income (loss) was \$6.6 million and (\$3.1) million for the fourth quarter of 2006 and 2005; and \$20.2 million and \$1.5 million for the twelve months ended December 31, 2006 and 2005, respectively. This varies from net income largely due to unrealized gains or losses on investments and changes in pension liability.

Income per common share is based upon the weighted average number of shares outstanding during the year, 11,883,830 shares (2005 - 11,923,831).

These financial statements should be read in conjunction with the Company's Form 10-K. Please refer to the Company's Form 10-K as filed with the U.S. Securities and Exchange Commission at www.kclife.com.

Certain amounts in prior years have been reclassified to conform with the current year presentation.
