NOTE 1 — SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation

As used in this report, the term “Company,” except as otherwise indicated by the context, means Lincoln Electric Holdings, Inc. and its wholly-owned and majority-owned subsidiaries for which it has a controlling interest.

The consolidated financial statements include the accounts of all legal entities in which the Company holds a controlling interest. The Company is also considered to have a controlling interest in a variable interest entity (“VIE”) if the Company determines it is the primary beneficiary of the VIE. Investments in legal entities in which the Company does not own a majority interest but has the ability to exercise significant influence over operating and financial policies are accounted for using the equity method.

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (“GAAP”) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, these unaudited consolidated financial statements do not include all of the information and notes required by GAAP for complete financial statements. However, in the opinion of management, these unaudited consolidated financial statements contain all the adjustments (consisting of normal recurring accruals) considered necessary to present fairly the financial position, results of operations and cash flows for the interim periods. Operating results for the six months ended June 30, 2017 are not necessarily indicative of the results to be expected for the year ending December 31, 2017.

The accompanying Consolidated Balance Sheet at December 31, 2016 has been derived from the audited financial statements at that date, but does not include all of the information and notes required by GAAP for complete financial statements. For further information, refer to the consolidated financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2016.

Certain reclassifications have been made to the prior year financial statements to conform to current year classifications.

Effective June 30, 2016, the Company concluded that it no longer met the accounting criteria for control over its Venezuelan subsidiary based on deteriorating conditions in Venezuela; therefore, the Company deconsolidated the financial statements of the Venezuelan subsidiary and began reporting the results under the cost method of accounting. As a result, beginning July 1, 2016, the Company no longer includes the results of the Venezuelan subsidiary in its consolidated financial statements. Under the cost method of accounting, if cash were to be received from the Venezuela entity in future periods from the sale of inventory, dividends or royalties, income would be recognized. The Company does not anticipate dividend or royalty payments being made in the foreseeable future and has no outstanding receivables or payables with the Venezuelan entity. The factors that led to the Company’s conclusion to deconsolidate at June 30, 2016 continued to exist through June 30, 2017. The Company expects these conditions to continue for the foreseeable future. Additionally, the Company has no remaining financial commitments to the Venezuelan subsidiary and therefore believes the exposure to future losses is not material.

The following section provides a description of new accounting pronouncements (“Accounting Standard Update” or “ASU”) issued by the Financial Accounting Standards Board (“FASB”) that are applicable to the Company.

New Accounting Pronouncements Adopted:

In March 2016, the FASB issued ASU No. 2016-09, “Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting.” ASU 2016-09 amends several aspects of the accounting for share-based payment transactions including the income tax consequences, classification of awards as either equity or liabilities and classification on the statement of cash flows. The Company adopted ASU 2016-09 effective January 1, 2017.

ASU 2016-09 requires prospective recognition of excess tax benefits and deficiencies resulting from stock-based compensation award vesting and exercises as a discrete income tax adjustment in the income statement. Previously, these amounts were recognized in Additional paid-in capital. Net excess tax benefits of \$2,875 and \$4,147 for the

three and six months ended June 30, 2017, respectively, were recognized as a reduction of income tax expense. Earnings per share increased by \$0.04 and \$0.06 per share for the three and six months ended June 30, 2017, respectively, as a result of this change. In addition, ASU 2016-09 requires excess tax benefits and deficiencies to be prospectively excluded from the assumed future proceeds in the calculation of diluted shares. This change results in an insignificant increase in diluted weighted average shares outstanding for the three and six months ended June 30, 2017.

Table of Contents

LINCOLN ELECTRIC HOLDINGS, INC.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Dollars in thousands, except per share amounts

ASU 2016-09 requires that excess tax benefits from stock-based compensation awards be reported as operating activities in the Consolidated Statements of Cash Flows. Previously, this activity was included in financing activities in the Consolidated Statement of Cash Flows. The Company has elected to apply this change on a retrospective basis. As a result, excess tax benefits of \$2,875 and \$4,147 are reported as Net cash provided by operating activities for the three and six months ended June 30, 2017, respectively, and \$1,165 and \$1,522 of excess tax benefits were reclassified from Net cash used by financing activities to Net cash provided by operating activities for the three and six months ended June 30, 2016, respectively.

ASU 2016-09 requires that employee taxes paid when an employer withholds shares for tax-withholding purposes be reported as financing activities in the Consolidated Statements of Cash Flows on a retrospective basis. Previously, this activity was included in operating activities. The impact of this change was immaterial to the Consolidated Statements of Cash Flows.

The Company has elected to continue to estimate the number of stock-based awards expected to vest, as permitted by ASU 2016-09, rather than electing to account for forfeitures as they occur.

New Accounting Pronouncements to be adopted:

In May 2014, the FASB issued ASU No. 2014-09, "Revenue from Contracts with Customers (Topic 606)." ASU 2014-09 requires an entity to recognize revenue in a manner that depicts the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The standard also specifies the accounting of some costs to obtain or fulfill a contract with a customer and expands the disclosure requirements around contracts with customers. In August 2015, the FASB issued ASU 2015-14, "Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date," which deferred the effective date of ASU 2014-09 to annual reporting periods beginning after December 15, 2017, and interim periods within those fiscal years. Early adoption is permitted as of annual reporting periods beginning after December 15, 2016. An entity can either adopt this amendment retrospectively to each prior reporting period presented or retrospectively with the cumulative effect of initially applying the update recognized at the date of initial application. To evaluate the impact of adopting this new guidance on the consolidated financial statements, the Company completed a scoping analysis of revenue streams against the requirements of the standard. In addition, the Company is in the process of completing its review of customer contracts, as well as identifying and implementing changes to processes and controls to meet the standard's reporting and disclosure requirements, in accordance with the Company's implementation plan. ASU 2014-09 will accelerate the timing of when certain transactions are recognized as revenue upon adoption of the guidance's control model. The Company is currently evaluating the impact of the adoption of ASU 2014-09.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

The Company is currently evaluating the impact on its financial statements of the following ASUs:

Standard	Description
ASU No. 2017-09, Compensation - Stock Compensation (Topic 718): Scope of Modification Accounting, issued May 2017.	ASU 2017-09 provides updated guidance about which changes to the terms and conditions of a share-based payment award require an entity to apply modification accounting. Under this ASU, an entity should account for the effects of an award modification unless the fair value, vesting conditions and equity or liability classification of the modified award are the same as the original award. The ASU is effective January 1, 2018, early adoption is permitted and the ASU should be applied prospectively.
ASU No. 2017-07, Compensation - Retirement Benefits (Topic 715): Improving the Presentation of Net Period Pension Cost and Net Periodic Postretirement Benefit Cost, issued March 2017.	ASU 2017-07 requires an entity to report the service cost component of the net periodic benefit cost in the same income statement line item as other employee compensation costs. The other components of the net periodic benefit cost are required to be presented in the income statement separately from the service cost component and outside of any subtotal of operating income. Additionally, only the service cost component will be eligible for capitalization in assets. The ASU is effective January 1, 2018, early adoption is permitted and the ASU should be applied retrospectively for the presentation of the service cost component and the other components of net periodic pension cost in the income statement and prospectively for the capitalization of the service cost component.
ASU No. 2017-04, Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment, issued January 2017.	ASU 2017-04 simplifies the subsequent measurement of goodwill by eliminating Step 2 from the goodwill impairment test. Under this ASU, an entity should perform the Step 1 annual, or interim, goodwill impairment test by comparing the fair value of a reporting unit with its carrying amount. If the carrying amount exceeds the fair value, an entity should recognize an impairment charge for the amount by which the carrying amount exceeds the reporting unit's fair value, not to exceed the total amount of goodwill allocated to that reporting unit. An entity still has the option to perform the qualitative assessment for a reporting unit to determine if the quantitative impairment test is necessary. The ASU is effective January 1, 2020, early adoption is permitted and the ASU should be applied prospectively.
ASU No. 2017-01, Business Combinations (Topic 805): Clarifying the Definition of a Business, issued January 2017.	ASU 2017-01 provides updated guidance for evaluating whether certain transactions should be accounted for as an acquisition (or disposal) of an asset or a business. The ASU is effective January 1, 2018, early adoption is permitted and the ASU should be applied prospectively.
ASU No. 2016-18, Statement of Cash Flows (Topic 230): Restricted Cash, issued November 2016.	ASU 2016-18 requires amounts generally described as restricted cash and restricted cash equivalents be included with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flows. The ASU is effective January 1, 2018, early adoption is permitted and the ASU should be applied retrospectively.
ASU No. 2016-16, Income Taxes (Topic 740): Intra-Entity Transfers of Assets Other Than Inventory, issued October 2016.	ASU 2016-16 requires an entity to recognize the income tax consequences of an intra-entity transfer of an asset other than inventory when the transfer occurs. The ASU is effective January 1, 2018, early adoption is permitted and the ASU should be applied using a modified retrospective approach, through a cumulative-effect adjustment directly to retained earnings, as of the beginning of the period of adoption.
ASU 2016-15, Statement of Cash Flows (Topic 230):	ASU 2016-15 reduces existing diversity in practice by addressing eight specific cash flow issues related to how certain cash receipts and cash payments are presented and

Classification of Certain Cash classified in the statement of cash flows. The ASU is effective January 1, 2018, early Receipts and Cash Payments, adoption is permitted and the ASU should be applied retrospectively (or prospectively issued August 2016. as of earliest date practicable).

ASU No. 2016-02, Leases disclosure of key information about leasing agreements. Entities are required to (Topic 842), issued February recognize and measure leases at the beginning of the earliest period presented using a 2016. modified retrospective approach. The ASU is effective January 1, 2019, early adoption is permitted and the ASU should be applied using either a modified retrospective or modified retrospective with practical expedients approach.

NOTE 2 — EARNINGS PER SHARE

The following table sets forth the computation of basic and diluted earnings per share:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2017	2016	2017	2016
Numerator:				
Net income	\$61,352	\$31,317	\$117,196	\$84,955
Denominator (shares in 000's):				
Basic weighted average shares outstanding	65,811	68,181	65,750	68,883
Effect of dilutive securities - Stock options and awards	932	709	916	686
Diluted weighted average shares outstanding	66,743	68,890	66,666	69,569
Basic earnings per share	\$0.93	\$0.46	\$1.78	\$1.23
Diluted earnings per share	\$0.92	\$0.45	\$1.76	\$1.22

For the three months ended June 30, 2017 and 2016, common shares subject to equity-based awards of 179,178 and 810,200, respectively, were excluded from the computation of diluted earnings per share because the effect of their exercise would be anti-dilutive. For the six months ended June 30, 2017 and 2016, common shares subject to equity-based awards of 133,748 and 750,209, respectively, were excluded from the computation of diluted earnings per share because the effect of their exercise would be anti-dilutive.

NOTE 3 — ACQUISITIONS

During May 2016, the Company acquired Vizient Manufacturing Solutions ("Vizient"). Vizient, based in Bettendorf, Iowa, is a robotic integrator specializing in custom engineered tooling and automated arc welding systems for general and heavy fabrication applications. The acquisition assisted in diversifying end-market exposure and broadening global growth opportunities. Pro forma information related to this acquisition has not been presented because the impact on the Company's Consolidated Statements of Income is not material. Vizient is included in the Company's consolidated financial statements as of the date of acquisition.

On April 27, 2017, the Company entered into a definitive agreement with Air Liquide to acquire its Air Liquide Welding subsidiary (the "proposed acquisition"). Upon completion of the proposed acquisition, the complementary business would enhance the Company's global specialty consumables portfolio and extend its channel reach for equipment systems and the Harris Product Group's solutions in Europe. The combination would also offer European customers more comprehensive welding and cutting solutions, greater technical application expertise and improved service levels.

The definitive agreement reflects an approximately \$131 million purchase price for the Air Liquide Welding business, including the assumption of net debt and working capital adjustments. The Company has obtained all required regulatory approvals and met other closing conditions. The proposed acquisition is expected to close on July 31, 2017. For the three and six months ended June 30, 2017, the Company has incurred \$4.5 million and \$8.1 million, respectively, of transaction and integration costs related to the proposed acquisition.

NOTE 4 — SEGMENT INFORMATION

The Company's business units are aligned into three operating segments. The operating segments consist of Americas Welding, International Welding and The Harris Products Group. The Americas Welding segment includes welding operations in North and South America. The International Welding segment includes welding operations in Europe, Africa, Asia and Australia. The Harris Products Group includes the Company's global cutting, soldering and brazing businesses as well as its retail business in the United States.

Segment performance is measured and resources are allocated based on a number of factors, the primary profit measure being adjusted earnings before interest and income taxes ("Adjusted EBIT"). EBIT is defined as Operating

income plus Equity earnings in affiliates and Other income. EBIT is adjusted for special items as determined by management such as the impact of rationalization activities, certain asset impairment charges and gains or losses on disposals of assets.

NOTE 6 — INVENTORY

Inventories in the Consolidated Balance Sheet is comprised of the following components:

	June 30, 2017	December 31, 2016
Raw materials	\$83,480	\$ 76,811
Work-in-process	54,319	40,556
Finished goods	151,836	138,039
Total	\$289,635	\$ 255,406

The valuation of last-in, first-out ("LIFO") method inventories is made at the end of each year based on inventory levels and costs at that time. Accordingly, interim LIFO calculations are based on management's estimates of expected year-end inventory levels and costs. Actual year-end costs and inventory levels may differ from interim LIFO inventory valuations. The excess of current cost over LIFO cost was \$64,988 at June 30, 2017 and \$61,329 at December 31, 2016.

NOTE 7 — ACCRUED EMPLOYEE BONUS

Other current liabilities at June 30, 2017 and 2016 include accruals for year-end bonuses and related payroll taxes of \$52,267 and \$48,506, respectively, related to the Company's employees worldwide. The payment of bonuses is discretionary and subject to approval by the Board of Directors. A majority of annual bonuses are paid in December, resulting in an increasing bonus accrual during the Company's fiscal year.

NOTE 8 — CONTINGENCIES

The Company, like other manufacturers, is subject from time to time to a variety of civil and administrative proceedings arising in the ordinary course of business. Such claims and litigation include, without limitation, product liability claims, regulatory claims and health, safety and environmental claims, some of which relate to cases alleging asbestos induced illnesses. The claimants in the asbestos cases seek compensatory and punitive damages, in most cases for unspecified amounts. The Company believes it has meritorious defenses to these claims and intends to contest such suits vigorously.

The Company accrues its best estimate of the probable costs, after a review of the facts with management and counsel and taking into account past experience. If an unfavorable outcome is determined to be reasonably possible but not probable and the amount of loss can be reasonably estimated, or if an unfavorable outcome is determined to be probable and the amount of loss cannot be reasonably estimated, disclosure would be provided for material claims or litigation. Many of the current cases are in differing procedural stages and information on the circumstances of each claimant, which forms the basis for judgments as to the validity or ultimate disposition of such actions, varies greatly. Therefore, in many situations a range of possible losses cannot be made. Reserves are adjusted as facts and circumstances change and related management assessments of the underlying merits and the likelihood of outcomes change. Moreover, reserves only cover identified and/or asserted claims. Future claims could, therefore, give rise to increases to such reserves.

Based on the Company's historical experience in litigating product liability claims, including a significant number of dismissals, summary judgments and defense verdicts in many cases and immaterial settlement amounts, as well as the Company's current assessment of the underlying merits of the claims and applicable insurance, the Company believes resolution of these claims and proceedings, individually or in the aggregate, will not have a material effect on the Company's consolidated financial statements.

NOTE 10 — DEBT

Revolving Credit Agreement

The Company has a line of credit totaling \$400,000 through the Amended and Restated Credit Agreement (the "Credit Agreement"). The Credit Agreement has a five-year term and may be increased, subject to certain conditions, by an additional amount up to \$100,000. The interest rate on borrowings is based on either the London Inter-Bank Offered Rate ("LIBOR") or the prime rate, plus a spread based on the Company's leverage ratio, at the Company's election. The Company amended and restated the Credit Agreement on June 30, 2017, extending the maturity of the line of credit to June 30, 2022. The Credit Agreement contains customary affirmative, negative and financial covenants for credit facilities of this type, including limitations on the Company and its subsidiaries with respect to liens, investments, distributions, mergers and acquisitions, dispositions of assets, transactions with affiliates and a fixed charges coverage ratio and total leverage ratio. As of June 30, 2017, the Company was in compliance with all of its covenants and had no outstanding borrowings under the Credit Agreement.

Senior Unsecured Notes

On April 1, 2015, the Company entered into a Note Purchase Agreement pursuant to which it issued senior unsecured notes (the "2015 Notes") in the aggregate principal amount of \$350,000 through a private placement. The proceeds were used for general corporate purposes. The 2015 Notes, as shown in the table below, have original maturities ranging from 10 to 30 years with a weighted average effective interest rate of 3.5%, excluding accretion of original issuance costs, and an initial average tenure of 19 years. Interest is payable semi-annually. The 2015 Notes contain certain affirmative and negative covenants. As of June 30, 2017, the Company was in compliance with all of its debt covenants relating to the 2015 Notes.

The maturity and interest rates of the 2015 Notes are as follows:

	Amount	Maturity Date	Interest Rate
Series A	\$100,000	August 20, 2025	3.15 %
Series B	100,000	August 20, 2030	3.35 %
Series C	50,000	April 1, 2035	3.61 %
Series D	100,000	April 1, 2045	4.02 %

On October 20, 2016, the Company entered into a Note Purchase Agreement pursuant to which it issued senior unsecured notes (the "2016 Notes") in the aggregate principal amount of \$350,000 through a private placement. The proceeds are being used for general corporate purposes. The 2016 Notes, as shown in the table below, have original maturities ranging from 12 to 25 years with a weighted average effective interest rate of 3.1%, excluding accretion of original issuance costs, and an initial average tenure of 18 years. Interest is payable semi-annually. The 2016 Notes contain certain affirmative and negative covenants. As of June 30, 2017, the Company was in compliance with all of its debt covenants relating to the 2016 Notes.

Series B 100,000	October 20, 2033	3.03 %
Series C 100,000	October 20, 2037	3.27 %
Series D 50,000	October 20, 2041	3.52 %

The Company's total weighted average effective interest rate and weighted average initial tenure, inclusive of the 2015 Notes and 2016 Notes, is 3.3% and 18 years, respectively.

NOTE 11 — RETIREMENT AND POSTRETIREMENT BENEFIT PLANS

The components of total pension cost were as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2017	2016	2017	2016
Service cost	\$735	\$4,439	\$1,469	\$8,869
Interest cost	5,542	6,018	11,074	12,029
Expected return on plan assets	(8,626)	(8,894)	(17,241)	(17,758)
Amortization of prior service cost	4	(99)	8	(198)
Amortization of net loss ⁽¹⁾	1,011	3,648	2,011	6,314

Multi-employer plans	224	193	417	395
Defined contribution plans	5,804	2,192	12,568	4,161
Total pension cost ⁽²⁾	\$4,694	\$7,497	\$10,306	\$13,812

(1) The amortization of net loss includes a \$959 charge resulting from the deconsolidation of the Venezuelan subsidiary during the three and six months ended June 30, 2016.

(2) The decrease for the three and six months ended June 30, 2017 as compared to the prior year periods reflect lower service cost and lower amortization of net losses related to the defined benefit plan freeze effective December 31, 2016, partially offset by higher defined contribution plan expense related to the Company's amended U.S. defined contribution plan that was effective January 1, 2017.

NOTE 12 — INCOME TAXES

The Company recognized \$44,687 of tax expense on pretax income of \$161,866, resulting in an effective income tax rate of 27.6% for the six months ended June 30, 2017. The effective income tax rate was 28.6% for the six months ended June 30, 2016. The 2017 effective tax rate was lower than the Company's statutory rate primarily due to the utilization of U.S. tax credits and deductions, excess tax benefits resulting from exercising of stock-based compensation awards and income earned in lower tax rate jurisdictions. The 2016 effective tax rate was lower than the Company's statutory rate primarily due to the utilization of U.S. tax credits, income earned in lower tax rate jurisdictions and the reversal of an income tax valuation allowance as a result of a legal entity change.

As of June 30, 2017, the Company had \$14,821 of unrecognized tax benefits. If recognized, approximately \$11,123 would be reflected as a component of income tax expense.

The Company files income tax returns in the U.S. and various state, local and foreign jurisdictions. With few exceptions, the Company is no longer subject to U.S. federal, state and local or non-U.S. income tax examinations by tax authorities for years before 2012. The Company is currently subject to U.S., various state and non-U.S. income tax audits.

Unrecognized tax benefits are reviewed on an ongoing basis and are adjusted for changing facts and circumstances, including progress of tax audits and closing of statutes of limitations. Based on information currently available, management believes that additional audit activity could be completed and/or statutes of limitations may close relating to existing unrecognized tax

benefits. It is reasonably possible there could be a reduction of \$1,135 in previously unrecognized tax benefits by the end of the second quarter 2018.

NOTE 13 — DERIVATIVES

The Company uses derivative instruments to manage exposures to currency exchange rates, interest rates and commodity prices arising in the normal course of business. Both at inception and on an ongoing basis, the derivative instruments that qualify for hedge accounting are assessed as to their effectiveness, when applicable. Hedge ineffectiveness was immaterial in the six months ended June 30, 2017 and 2016.

The Company is subject to the credit risk of the counterparties to derivative instruments. Counterparties include a number of major banks and financial institutions. None of the concentrations of risk with any individual counterparty was considered significant at June 30, 2017. The Company does not expect any counterparties to fail to meet their obligations.

Cash Flow Hedges

Certain foreign currency forward contracts were qualified and designated as cash flow hedges. The dollar equivalent gross notional amount of these short-term contracts was \$27,521 at June 30, 2017 and \$36,385 at December 31, 2016.

Fair Value Hedges

Certain interest rate swap agreements were qualified and designated as fair value hedges. At June 30, 2017, the Company had interest rate swap agreements outstanding that effectively convert notional amounts of \$100,000 of debt from a fixed interest rate to a variable interest rate based on three-month LIBOR plus a spread of between 0.6% and 1.8%. The variable rates reset every three months, at which time payment or receipt of interest will be settled.

Net Investment Hedges

From time to time, the Company executes foreign currency forward contracts that qualify and are designated as net investment hedges. No such contracts were outstanding at June 30, 2017 and December 31, 2016.

Derivatives Not Designated as Hedging Instruments

The Company has certain foreign exchange forward contracts that are not designated as hedges. These derivatives are held as economic hedges of certain balance sheet exposures. The dollar equivalent gross notional amount of these contracts was \$280,812 at June 30, 2017 and \$261,168 at December 31, 2016.

Total liabilities	\$ 56,561	\$	— \$ 33,135	\$ 23,426

The Company's derivative contracts are valued at fair value using the market approach. The Company measures the fair value of foreign exchange contracts and interest rate swap agreements using Level 2 inputs based on observable spot and forward rates in active markets. During the six months ended June 30, 2017, there were no transfers between Levels 1, 2 or 3.

The Company measures the fair value of marketable securities using Level 2 inputs based on quoted market prices for similar assets in active markets and are included in Other current assets in the accompanying Condensed Consolidated Balance Sheets.

In connection with acquisitions, the Company recorded contingent considerations fair valued at \$9,186 as of June 30, 2017. Under the contingent consideration agreements, the amounts to be paid are based upon actual financial results of the acquired entity for specified future periods. The fair value of the contingent considerations are a Level 3 valuation and fair valued using either a probability weighted discounted cash flow analysis or an option pricing model.

In connection with an acquisition, the Company obtained a controlling financial interest in the acquired entity and at the same time entered into a forward contract to obtain the remaining financial interest in the entity over a three-year period. The final payment associated with the forward contract was paid by the Company in the second quarter of 2017.

The deferred compensation liability is the Company's obligation under its executive deferred compensation plan. The Company measures the fair value of the liability using the market values of the participants' underlying investment fund elections.

The fair value of Cash and cash equivalents, Accounts receivable, Short-term debt excluding the current portion of long-term debt and Trade accounts payable approximated book value due to the short-term nature of these instruments at both June 30, 2017 and December 31, 2016. The fair value of long-term debt at June 30, 2017 and December 31, 2016, including the current portion, was approximately \$679,367 and \$669,209, respectively, which was determined using available market information and methodologies requiring judgment. The carrying value of this debt at such dates was \$704,837 and \$703,835, respectively. Since considerable judgment is required in interpreting market information, the fair value of the debt is not necessarily the amount that could be realized in a current market exchange.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Dollars in thousands, except per share amounts)

This Management's Discussion and Analysis of Financial Condition and Results of Operations should be read together with the Company's unaudited consolidated financial statements and other financial information included elsewhere in this Quarterly Report on Form 10-Q.

General

The Company is the world's largest designer and manufacturer of arc welding and cutting products, manufacturing a broad line of arc welding equipment, consumable welding products and other welding and cutting products. Welding products include arc welding power sources, CNC and plasma cutters, wire feeding systems, robotic welding packages, integrated automation systems, fume extraction equipment, consumable electrodes, fluxes and welding accessories and specialty welding consumables and fabrication. The Company's product offering also includes oxy-fuel cutting systems and regulators and torches used in oxy-fuel welding, cutting and brazing. In addition, the Company has a leading global position in the brazing and soldering alloys market.

The Company's products are sold in both domestic and international markets. In the Americas, products are sold principally through industrial distributors, retailers and directly to users of welding products. Outside of the Americas, the Company has an international sales organization comprised of Company employees and agents who sell products from the Company's various manufacturing sites to distributors and product users.

The Company's business units are aligned into three operating segments. The operating segments consist of Americas Welding, International Welding and The Harris Products Group. The Americas Welding segment includes welding operations in North and South America. The International Welding segment includes welding operations in Europe, Africa, Asia and Australia. The Harris Products Group includes the Company's global cutting, soldering and brazing businesses as well as its retail business in the United States.

Effective June 30, 2016, the Company concluded that it no longer met the accounting criteria for control over its Venezuelan subsidiary based on deteriorating conditions in Venezuela; therefore, the Company deconsolidated the financial statements of the Venezuelan subsidiary and began reporting the results under the cost method of accounting. As a result, beginning July 1, 2016, the Company no longer includes the results of the Venezuelan subsidiary in its consolidated financial statements.

Net sales increased in the three and six months ended June 30, 2017 primarily as a result of improved volume due to higher demand and increased product pricing. Net sales for the three and six months ended June 30, 2016 include \$5,833 and \$10,813, respectively, in sales from the Company's Venezuelan operations. The increase in net sales from acquisitions in both periods was driven by an acquired company within Americas Welding.

Gross Profit:

Gross profit for the three and six months ended June 30, 2017 increased, as a percent of sales, compared to the prior year due to higher volumes. The three and six months ended June 30, 2017 includes a last-in, first-out ("LIFO") charge of \$1,977 and \$3,659, respectively, as compared with a LIFO charge of \$2,022 in the three and six months ended June 30, 2016.

Selling, General & Administrative ("SG&A") Expenses:

SG&A expenses increased for the three and six months ended June 30, 2017 as compared to June 30, 2016 due to higher compensation costs, as well as transaction and integration costs related to the Air Liquide Welding proposed acquisition, partially offset by lower legal professional fees.

Loss on Deconsolidation of Venezuelan Subsidiary:

In the three and six months ended June 30, 2016, the Company recorded a loss of \$34,348, \$33,251 after-tax, related to the deconsolidation of its Venezuelan subsidiary. See Note 1 to the consolidated financial statements for additional information.

Equity Earnings in Affiliates:

Equity earnings in affiliates has remained relatively flat in the comparable periods.

Interest Expense:

The increase for both the three and six months ended June 30, 2017 as compared to June 30, 2016 was due to interest accrued on higher borrowings in 2017.

Table of Contents

Income Taxes:

The effective income tax rate is lower for the three and six months ended June 30, 2017 as compared to June 30, 2016 primarily due to the 2017 change in the reporting of excess tax benefits resulting from the exercise of stock based compensation awards. In 2016, the effective income tax was higher due to the impact of the deconsolidation of the Company's Venezuelan subsidiary, partially offset by the reversal of an income tax valuation allowance as a result of a legal entity change.

Net Income:

Net income for three and six months ended June 30, 2017 increased as compared to the prior year period primarily due to higher volumes and improved margins, offset by higher SG&A costs and higher interest expense. Net income for the three and six months ended June 30, 2016 includes a loss related to the deconsolidation of the Company's Venezuelan subsidiary partially offset by the reversal of an income tax valuation allowance as a result of a legal entity change.

Adjusted Earnings Before Interest and Income Taxes:

Segment performance is measured and resources are allocated based on a number of factors, the primary profit measure being Adjusted EBIT. EBIT is defined as Operating income plus Equity earnings in affiliates and Other income. EBIT is adjusted for special items as determined by management such as the impact of rationalization activities, certain asset impairment charges and gains or losses on disposals of assets.

The following table presents Adjusted EBIT by segment for the three months ended June 30, 2017:

	Three Months Ended		Increase (Decrease)

Non-GAAP Financial Measures

The Company reviews Adjusted operating income, Adjusted net income, Adjusted diluted earnings per share and Return on invested capital, all non-GAAP financial measures, in assessing and evaluating the Company's underlying operating performance. These non-GAAP financial measures exclude the impact of special items on the Company's reported financial results. Non-GAAP financial measures should be read in conjunction with the generally accepted accounting principles in the United States ("GAAP") financial measures, as non-GAAP measures are a supplement to, and not a replacement for, GAAP financial measures.

The following table presents a reconciliation of Operating income, Net income and Diluted earnings per share as reported to Adjusted operating income, Adjusted net income and Adjusted earnings per share:

(2) Three and six months ended June 30, 2016 include the reversal of an income tax valuation allowance as a result of a legal entity change.

(3) Three and six months ended June 30, 2017 include costs related to the proposed Air Liquide Welding acquisition as discussed in Note 3 to the consolidated financial statements.

Liquidity and Capital Resources

The Company's cash flow from operations can be cyclical. Operational cash flow is a key driver of liquidity, providing cash and access to capital markets. In assessing liquidity, the Company reviews working capital measurements to define areas for improvement. Management anticipates the Company will be able to satisfy cash requirements for its ongoing businesses for the foreseeable future primarily with cash generated by operations, existing cash balances, borrowings under its existing credit facilities and raising debt in capital markets.

The Company continues to expand globally and periodically looks at transactions that would involve significant investments. The Company can fund its global expansion plans with operational cash flow, but a significant acquisition may require access to capital markets, in particular, the long-term debt market, as well as the syndicated bank loan market. The Company's financing strategy is to fund itself at the lowest after-tax cost of funding. Where possible, the Company utilizes operational cash flows and raises capital in the most efficient market, usually the United States, and then lends funds to the specific subsidiary that requires funding. If additional acquisitions providing appropriate financial benefits become available, additional expenditures may be made.

Table of Contents

The following table reflects changes in key cash flow measures:

	Six Months Ended June 30,		
	2017	2016	\$ Change
Cash provided by operating activities ⁽¹⁾	\$151,687	\$126,879	24,808
Cash used by investing activities ⁽²⁾	(91,973)	(95,950)	3,977
Capital expenditures	(28,131)	(24,779)	(3,352)
Acquisition of businesses, net of cash acquired	—	(71,567)	71,567
Purchase of marketable securities, net of proceeds	(64,944)	—	(64,944)
Cash used by financing activities ⁽³⁾	(55,767)	(100,839)	45,072
(Payments on) proceeds from short-term borrowings, net	(192)	159,460	(159,652)
Purchase of shares for treasury	(7,748)	(202,933)	195,185
Cash dividends paid to shareholders	(46,016)	(44,647)	(1,369)
Increase (decrease) in Cash and cash equivalents ⁽⁴⁾	16,556	(67,164)	

(1) Cash provided by operating activities increased for the six months ended June 30, 2017, compared with the six months ended June 30, 2016. The increase was primarily due to contributions to the U.S. defined benefit plans in the prior year and improved company performance.

(2) Cash used by investing activities decreased for the six months ended June 30, 2017, compared with the six months ended June 30, 2016. The decrease was predominantly due to cash used in the acquisition of a business in 2016 as discussed in Note 3 to the consolidated financial statements, offset by the purchase of marketable securities in 2017.

The Company currently anticipates capital expenditures of \$65,000 to \$75,000 in 2017. Anticipated capital expenditures include investments for capital maintenance to improve operational effectiveness. Management critically evaluates all proposed capital expenditures and expects each project to increase efficiency, reduce costs, promote business growth or improve the overall safety and environmental conditions of the Company's facilities.

(3) Cash used by financing activities decreased in the six months ended June 30, 2017, compared with the six months ended June 30, 2016. The decrease was due to lower purchases of common shares for treasury, partially offset by higher proceeds from short-term borrowings in 2016.

(4) Cash and cash equivalents increased 4.4%, or \$16,556, to \$395,735 during the six months ended June 30, 2017, from \$379,179 as of December 31, 2016. This increase was predominantly due to cash provided by operating activities offset by the purchase of marketable securities and cash dividends paid to shareholders. The increase in Cash and cash equivalents during the six months ended June 30, 2017 compares to a decrease of 22.1% during the six months ended June 30, 2016. The decrease in 2016 was primarily due to cash used in the acquisition of a business as discussed within Note 3 to the consolidated financial statements and the purchase of common shares for treasury, partially offset by proceeds from short-term borrowings. At June 30, 2017, \$308,227 of Cash and cash equivalents was held by international subsidiaries and may be subject to U.S. income taxes and foreign withholding taxes if repatriated to the U.S.

The Company's total debt remained consistent as compared to December 31, 2016. Total debt to total invested capital decreased to 45.3% at June 30, 2017 from 49.8% at December 31, 2016.

In July 2017, the Company paid a cash dividend of \$0.35 per share, or \$23,068, to shareholders of record on July 14, 2017.

Working Capital Ratios

	June 30, December 31, June 30,		
	2017	2016	2016
Average operating working capital to net sales ⁽¹⁾	16.7 %	15.6 %	17.4 %

Return on Invested Capital

The Company reviews return on invested capital ("ROIC") in assessing and evaluating the Company's underlying operating performance. ROIC is a non-GAAP financial measure that the Company believes is a meaningful metric to investors in evaluating the Company's financial performance and may be different than the method used by other companies to calculate ROIC. ROIC is defined as rolling 12 months of Adjusted net income excluding tax-effected interest income and expense divided by invested capital. Invested capital is defined as total debt, which includes Short-term debt and Long-term debt, less current portions, plus Total equity. ROIC for the twelve months ended June 30, 2017 and 2016 were as follows:

	Twelve Months Ended June 30,	
	2017	2016
Net income	\$230,640	\$73,181
Rationalization and asset impairment charges, net of tax of \$1,437	—	17,281

Forward-looking Statements

The Company's expectations and beliefs concerning the future contained in this report are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements reflect management's current expectations and involve a number of risks and uncertainties. Forward-looking statements generally can be identified by the use of words such as "may," "will," "expect," "intend," "estimate," "anticipate," "believe," "forecast," "guidance," and other words of similar meaning. Actual results may differ materially from such statements due to a variety of factors that could adversely affect the Company's operating results. The factors include, but are not limited to: general economic and market conditions; the effectiveness of operating initiatives; completion of planned divestitures; interest rates; disruptions, uncertainty or volatility in the credit markets that may limit our access to capital; currency exchange rates and devaluations; adverse outcome of pending or potential litigation; actual costs of the Company's rationalization plans; possible acquisitions, including the Company's ability to successfully complete the Air Liquide Welding business acquisition; market risks and price fluctuations related to the purchase of commodities and energy; global regulatory complexity; and the possible effects of events beyond our control, such as political unrest, acts of terror and natural disasters, on the Company or its customers, suppliers and the economy in general. For additional discussion, see "Item 1A. Risk Factors" in the Company's Annual Report on Form 10-K for the year ended December 31, 2016.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes in the Company's exposure to market risk since December 31, 2016. See "Item 7A. Quantitative and Qualitative Disclosures About Market Risk" in the Company's Annual Report on Form 10-K for the year ended December 31, 2016.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

The Company carried out an evaluation under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on that evaluation, the Company's management, including the Chief Executive Officer and Chief Financial Officer, concluded that the Company's disclosure controls and procedures were effective as of June 30, 2017.

Changes in Internal Control Over Financial Reporting

There have been no changes in the Company's internal control over financial reporting during the quarter ended June 30, 2017 that materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The Company is subject, from time to time, to a variety of civil and administrative proceedings arising out of its normal operations, including, without limitation, product liability claims, regulatory claims and health, safety and environmental claims. Among such proceedings are the cases described below.

As of June 30, 2017, the Company was a co-defendant in cases alleging asbestos-induced illness involving claims by approximately 3,784 plaintiffs, which is a net decrease of 1,336 claims from those previously reported. In each instance, the Company is one of a large number of defendants. The asbestos claimants seek compensatory and punitive damages, in most cases for unspecified sums. Since January 1, 1995, the Company has been a co-defendant in other similar cases that have been resolved as follows: 54,518 of those claims were dismissed, 23 were tried to defense verdicts (one of which is on appeal), seven were tried to plaintiff verdicts (one of which was appealed by defendants and has been sent back to the trial court for a new trial), one was resolved by agreement for an immaterial amount and 771 were decided in favor of the Company following summary judgment motions.

ITEM 1A. RISK FACTORS

In addition to the other information set forth in this report and listed below, the reader should carefully consider the factors discussed in “Item 1A. Risk Factors” in the Company’s Annual Report on Form 10-K for the year ended December 31, 2016, which could materially affect the Company’s business, financial condition or future results.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Issuer purchases of its common shares during the second quarter of 2017 were as follows:

Period	Total Number of Shares Repurchased	Average Price Paid Per Share	Total Number of Shares Repurchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet be Purchased Under the Plans or Programs ⁽²⁾
April 1 - 30, 2017	72	⁽¹⁾ \$ 87.52	—	8,883,792
May 1 - 31, 2017	44,377	89.07	44,377	8,839,415
June 1 - 30, 2017	36,521	92.72	36,521	8,802,894
Total	80,970	90.71	80,898	

(1) The above share repurchases include the surrender of the Company's common shares in connection with the vesting of restricted awards.

(2) On April 20, 2016, the Company announced that the Board of Directors authorized a new share repurchase program, which increased the total number of the Company’s common shares authorized to be repurchased to 55 million shares. Total shares purchased through the share repurchase programs were 46.2 million shares at a total cost of \$1.6 billion for a weighted average cost of \$35.66 per share through June 30, 2017.
