Table of Contents

References to a particular year are to Stage Stores, Inc.'s fiscal year, which is the 52- or 53-week period ending on the Saturday closest to January 31st of the following calendar year. For example, a reference to "2012" is a reference to the fiscal year ended February 2, 2013 and a reference to "2013" is a reference to the fiscal year ending February 1, 2014. 2012 was a 53-week year and 2013 is a 52-week year.

Stage Stores, Inc.

Notes to Condensed Consolidated Financial Statements

(Unaudited)

1. Basis of Presentation

The accompanying Condensed Consolidated Financial Statements (Unaudited) of Stage Stores, Inc. and subsidiaries ("Stage Stores" or the "Company") have been prepared in accordance with Rule 10-01 of Regulation S-X and do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America ("GAAP" or "U.S. GAAP") for complete financial statements. Those adjustments that are, in the opinion of management, necessary for a fair presentation of the results of the interim periods have been made. The results of operations for such interim periods are not necessarily indicative of the results of operations for a full year. The Condensed Consolidated Financial Statements (Unaudited) should be read in conjunction with the Audited Consolidated Financial Statements and notes thereto filed with Stage Stores' Annual Report on Form 10-K for the year ended February 2, 2013. References to a particular year are to Stage Stores' fiscal year, which is the 52- or 53-week period ending on the Saturday closest to January 31st of the following calendar year. For example, a reference to "2012" is a reference to the fiscal year ended February 2, 2013 and a reference to "2013" is a reference to the fiscal year ending February 1, 2014. References to "current year first quarter" pertain to the thirteen weeks ended May 4, 2013, and references to "prior year first quarter" pertain to the thirteen weeks ended April 28, 2012.

Stage Stores is a Houston, Texas-based retailer, which operates both department stores and off-price stores. Its department stores, which operate under the Bealls, Goody's, Palais Royal, Peebles and Stage nameplates, offer moderately priced, nationally recognized brand name and private label apparel, accessories, cosmetics and footwear for the entire family. Its off-price stores, which are called Steele's, offer brand name family apparel, accessories, footwear and home décor at significant savings to department store prices. The Company also has an eCommerce website. As of May 4, 2013, the Company operated 872 stores located in 40 states. The Company also offers its merchandise direct-to-consumer through its eCommerce website and Send program. The eCommerce website features similar merchandise to that found in the Company's stores as well as merchandise which is available only on-line. The Send program allows customers to have merchandise shipped directly to their homes from another store if their size or color is not available in a local store.

Vendor allowances: The Company receives consideration from its merchandise vendors in the form of allowances and reimbursements. Given the promotional nature of the Company's business, the allowances are generally intended to offset the Company's costs of handling, promoting, advertising and selling the vendors' products in its stores. Vendor allowances related to the purchase of inventory are recorded as a reduction to the cost of inventory until sold. Vendor allowances are recognized as a reduction of cost of goods sold or the related selling expense when the purpose for which the vendor funds were intended to be used has been fulfilled and amounts have been authorized by vendors. As part of the South Hill merchandising consolidation, the Company changed the method of collecting advertising allowances from its vendors resulting in only a small portion of these allowances to be considered a reimbursement for specific, incremental, identifiable costs incurred to sell vendor's products. Accordingly, most advertising allowances will now be recorded as a reduction to the cost of merchandise purchases beginning in fiscal 2013.

Recent Accounting Standards. In February 2013, the FASB issued ASU No. 2013-02, which amends ASC Topic 220, Comprehensive Income and requires that entities present information about reclassification adjustments from accumulated other comprehensive income in their interim and annual financial statements. The standard requires that entities present either on the face of the income statement or as a separate note to the financial statements, the effect of significant amounts reclassified from each component of accumulated other comprehensive income. If a component is not required to be reclassified to net income in its entirety, entities are required to cross reference to the related footnote for additional information. For public companies, the standard is effective for fiscal years and interim periods

beginning after December 15, 2012. The adoption of this guidance requires changes solely in presentation, and therefore does not have a significant impact on the Company's condensed consolidated financial statements.

7

Table of Contents

In July 2012, the FASB issued ASU No. 2012-02, Intangibles - Goodwill and Other, which amends the guidance in ASC 350-30 on testing indefinite-lived intangible assets for impairment. The revised guidance permits an entity first to assess qualitative factors to determine whether it is more likely than not that an indefinite-lived intangible asset is impaired as a basis for determining whether it is necessary to perform the quantitative impairment test. The ASU is effective for impairment tests performed for fiscal years beginning after September 15, 2012. The Company will adopt this ASU for its 2013 impairment testing. The Company does not expect the adoption of this ASU to have a material impact, if any, on the Company's consolidated financial condition, results of operations or cash flows.

2. South Hill Consolidation

On February 11, 2013, the Company announced its plans to consolidate its South Hill operations into its corporate headquarters (the "South Hill Consolidation"). This action was the culmination of an initiative that the Company began in 2012. The reasons for the South Hill Consolidation are as follows: (i) to have department store functions and processes entirely together in one location, (ii) to strengthen collaboration, teamwork and communications, while streamlining operations, enhancing overall operational efficiency and reducing costs, and (iii) to create consistency in merchandising, marketing and eCommerce. The South Hill Consolidation and subsequent office closure is expected to be completed by the middle of 2013.

Total expenses in the current year first quarter associated with the South Hill Consolidation were \$6.9 million (\$4.3 million net of tax) of which \$2.0 million remained unpaid as of May 4, 2013. The costs, which were primarily for severance and transitional payroll and related benefits, recruiting and relocation costs, and visual presentation supplies and other, were recorded in selling, general and administrative expenses in the Condensed Consolidated Statement of Operations and Comprehensive Loss. The Company incurred and paid \$2.7 million in the prior year primarily for transitional payroll and benefits, recruiting and relocation costs, and property and equipment impairment and expects to incur additional expenses of approximately \$1.0 million in 2013 related to the South Hill Consolidation.

Merchandise cost of sales for the current year first quarter also includes approximately \$2.8 million related to the South Hill Consolidation due to increased inventory markdowns and advertising allowances deferred in inventory.

3. Stock-Based Compensation

As approved by the Company's shareholders, the Company established the Amended and Restated 2001 Equity Incentive Plan (the "2001 Equity Incentive Plan") and the Second Amended and Restated 2008 Equity Incentive Plan (the "2008 Equity Incentive Plan" and collectively with the 2001 Equity Incentive Plan, the "Equity Incentive Plans") to reward, retain and attract key personnel. The Equity Incentive Plans provide for grants of nonqualified or incentive stock options, stock appreciation rights ("SARs"), performance shares or units, stock units and stock grants. To fund the 2001 and 2008 Equity Incentive Plans, 12,375,000 and 4,550,000 shares of the Company's common stock were reserved for issuance upon exercise of awards, respectively.

The following table summarizes stock-based compensation expense by type of grant for the thirteen weeks ended May 4, 2013 and April 28, 2012 (in thousands):

	Thirteen Weeks Ended	
	May 4, 2013	April 28, 2012
Stock options and SARs	\$330	\$867
Non-vested stock	1,051	628
Performance shares	598	(170)
Total compensation expense	1,979	1,325

Related tax benefit	(744)	(498)
	\$1,235	\$827

8

Table of Contents

As of May 4, 2013, the Company had unrecognized compensation cost of \$23.4 million related to stock-based compensation awards granted. That cost is expected to be recognized over a weighted average period of 2.8 years.

Stock Options and SARs

The Company historically granted shares of stock options and SARs to its employees and members of management. The right to exercise stock options and SARs generally vests over four years from the date of grant, with 25% vesting at the end of each of the first four years following the date of grant. Stock options and SARs are settled by issuance of common stock. Stock options issued prior to January 29, 2005 will generally expire, if not exercised, within ten years from the date of the grant, while stock options and SARs granted after that date generally expire, if not exercised, within seven years from the date of grant. No SARs were granted during the thirteen weeks ended May 4, 2013 or April 28, 2012.

The following table summarizes information about stock options and SARs outstanding under the Equity Incentive Plans as of May 4, 2013 and changes during the thirteen weeks ended May 4, 2013:

	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (years)	Aggregate Intrinsic Value (in thousands)
Outstanding at February 2, 2013	1,877,415	\$ 16.69		
Exercised	(544,473)	17.13		
Forfeited	(37,835)	17.16		
Outstanding at May 4, 2013	1,295,107	\$ 16.49	3.2	\$ 14,348
Vested or expected to vest at May 4, 2013	1,221,212	\$ 16.45	3.1	\$ 13,585
Exercisable at May 4, 2013	925,632	\$ 16.19	2.6	\$ 10,533

The following table summarizes information about non-vested stock option awards and SARs outstanding as of May 4, 2013 and changes during the thirteen weeks ended May 4, 2013:

Stock Options/SARs	Number of Shares	Weighted Average Grant Date Fair Value
Non-vested at February 2, 2013	790,164	\$ 7.31
Vested	(383,139)	6.63
Forfeited	(37,550)	7.94
Non-vested at May 4, 2013	369,475	7.94

The aggregate intrinsic value of stock options and SARs, defined as the amount by which the market price of the underlying stock on the date of exercise exceeds the exercise price of the award, exercised during the thirteen weeks

ended May 4, 2013 and April 28, 2012 was \$5.2 million and \$1.0 million, respectively.

Non-vested Stock

The Company grants shares of non-vested stock to its employees, members of management and independent directors. The non-vested stock converts one for one to common stock at the end of the vesting period at no cost to the recipient to whom it is awarded. The vesting period of the non-vested stock ranges from one to four years from the date of grant.

Table of Contents

The following table summarizes information about non-vested stock granted by the Company as of May 4, 2013 and changes during the thirteen weeks ended May 4, 2013:

Non-vested Stock	Number of Shares	Weighted Average Grant Date Fair Value
Outstanding at February 2, 2013	642,409	\$ 16.21
Granted	255,120	25.79
Vested	(117,787)	15.98
Forfeited	(25,400)	16.18
Outstanding at May 4, 2013	754,342	\$ 19.49

The aggregate intrinsic value of non-vested stock that vested during the current year was \$3.2 million. The payment of the employees' tax liability for a portion of the vested shares was satisfied by withholding shares with a fair value equal to the tax liability. As a result, the actual number of shares issued was 78,871.

Performance Shares

The Company grants performance shares to members of senior management, at no cost to the recipient, as a means of rewarding them for the Company's long-term performance based on shareholder return performance measures. The actual number of shares that could be issued ranges from zero to a maximum of two times the number of granted shares outstanding as reflected in the table below. The actual number of shares issued is determined by the Company's shareholder return performance relative to a specific group of companies over a three-year performance cycle.

Compensation expense, which is recorded ratably over the vesting period, is based on the fair value at grant date and the anticipated number of shares of the Company's common stock, which is determined on a Monte Carlo probability model. Grant recipients do not have any shareholder rights until the granted shares have been issued.

The following table summarizes information about the performance shares that remain outstanding as of May 4, 2013:

Period Granted	Target Shares Outstanding at February 2, 2013	Target Shares Granted During Current Year	Target Shares Vested During Current Year	Target Shares Forfeited During Current Year	Target Shares Outstanding at May 4, 2013	Weighted Average Grant Date Fair Value Per Share
2011	39,800	-	(1,150)	(3,850)	34,800	25.00
2012	238,100	-	(3,300)	(10,000)	224,800	18.04
2013	-	158,400	-	-	158,400	33.81
Total	277,900	158,400	(4,450)	(13,850)	418,000	

During the current year, 104,490 shares, with an aggregate intrinsic value of \$2.7 million, vested related to the 2010 performance share grant. The payment of the recipients' tax liability of approximately \$0.9 million for vested shares was satisfied by withholding shares with a fair value equal to the tax liability. As a result, the actual number of shares issued was 75,176.

Table of Contents

4. Debt Obligations

Debt obligations as of May 4, 2013 and February 2, 2013 consist of the following (in thousands):

	May 4, 2013	February 2, 2013
Revolving Credit Facility	\$60,650	\$6,000
Finance lease obligations	6,149	6,329
Total debt obligations	66,799	12,329
Less: Current portion of debt obligations	772	744
Long-term debt obligations	\$66,027	\$11,585

The Company has a \$250.0 million senior secured revolving credit facility that matures on June 30, 2016 (the "Amended and Restated Credit Agreement" or "Revolving Credit Facility"). The Revolving Credit Facility includes an uncommitted accordion feature to increase the size of the facility to \$350.0 million. Borrowings under the Revolving Credit Facility are limited to the availability under a borrowing base that is determined principally on eligible inventory as defined by the Revolving Credit Facility agreement. The daily interest rates under the Revolving Credit Facility are determined by a prime rate or LIBOR plus an applicable margin, as set forth in the Revolving Credit Facility agreement. Inventory and cash and cash equivalents are pledged as collateral under the Revolving Credit Facility. The Revolving Credit Facility is used by the Company to provide financing for working capital, capital expenditures and other general corporate purposes, as well as to support its outstanding letters of credit requirements. For the thirteen weeks ended May 4, 2013, the weighted average interest rate on outstanding borrowings and the average daily borrowings under the Revolving Credit Facility were 2.17% and \$13.0 million, respectively.

The Company also issues letters of credit under the Revolving Credit Facility to support certain merchandise purchases and to collateralize retained risks and deductibles under various insurance programs. At May 4, 2013, the Company had outstanding letters of credit totaling approximately \$3.5 million. These letters of credit expire within twelve months of issuance. Excess borrowing availability under the Revolving Credit Facility at May 4, 2013, net of letters of credit outstanding and outstanding borrowings, was \$185.8 million.

The Revolving Credit Facility contains covenants which, among other things, restrict, based on required levels of excess availability, (i) the amount of additional debt or capital lease obligations, (ii) the payment of dividends and repurchase of common stock under certain circumstances and (iii) related party transactions. The Revolving Credit Facility also contains a fixed charge coverage ratio covenant in the event excess availability is below a defined threshold or an event of default has occurred. At May 4, 2013, the Company was in compliance with all of the debt covenants of the Revolving Credit Facility and expects to remain in compliance during fiscal year 2013.

Table of Contents

5. Earnings per Share

Basic earnings per share is computed using the weighted average number of common shares outstanding during the measurement period. Diluted earnings per share is computed using the weighted average number of common shares as well as all potentially dilutive common share equivalents outstanding during the measurement period. For the thirteen weeks ended May 4, 2013 and April 28, 2012, 457,722 and 216,366 shares, respectively, attributable to stock options, SARs and non-vested stock grants would have been considered dilutive securities but were excluded from the calculation of diluted earnings per share because the effect was anti-dilutive due to the net loss for the reported periods.

Under Accounting Standards Codification ("ASC") 260-10, Earnings Per Share, non-vested stock grants that contain non-forfeitable rights to dividends or dividend equivalents are considered participating securities and are included in the calculation of basic and diluted earnings per share pursuant to the two-class method. The two-class method determines earnings per share for each class of common stock and participating securities according to dividends or dividend equivalents and their respective participation rights in undistributed earnings. Earnings per share has been calculated under the two-class method for the thirteen weeks ended May 4, 2013 and April 28, 2012.

The following tables show the computation of basic and diluted earnings per share for the thirteen weeks ended May 4, 2013 and April 28, 2012 (in thousands, except per share amounts):

	Thirteen Weeks Ended	
	May 4, 2013	April 28, 2012
Basic EPS:		
Net loss	\$(6,856)	\$(418)
Less: Allocation of earnings to participating securities	-	-
Net loss allocated to common shares	(6,856)	(418)
Basic weighted average shares outstanding	32,306	30,536
Basic EPS	\$(0.21)	\$(0.01)

	Thirteen Weeks Ended	
	May 4, 2013	April 28, 2012
Diluted EPS:		
Net loss	\$(6,856)	\$(418)
Less: Allocation of earnings to participating securities	-	-
Net loss allocated to common shares	(6,856)	(418)
Basic weighted average shares outstanding	32,306	30,536
Add: Dilutive effect of stock awards	-	-
Diluted weighted average shares outstanding	32,306	30,536
Diluted EPS	\$(0.21)	\$(0.01)

The following table illustrates the number of stock options and SARs that were outstanding, but not included in the computation of diluted earnings per share because the exercise price of the stock options and SARs was greater than the average market price of the Company's common shares (in thousands):

	Thirteen Weeks Ended MayApril 4, 28, 2012	2012
Number of anti-dilutive stock options and SARs outstanding	1	2,649

Table of Contents

6. Stockholders' Equity

On April 8, 2013, the Company announced that its Board of Directors ("the Board") approved a 25% increase in the Company's quarterly cash dividend rate to \$0.125 cents per share from the previous quarterly rate of \$0.10 cents per share. The new quarterly rate of \$0.125 cents per share is applicable to dividends declared by the Board beginning May 23, 2013. In the current year, the Company has paid cash dividends totaling \$3.3 million. On May 23, 2013, the Company's Board of Directors (the "Board") declared a quarterly cash dividend of \$0.125 per share of common stock, payable on June 19, 2013 to shareholders of record at the close of business on June 4, 2013.

On March 7, 2011, the Company's Board approved a Stock Repurchase Program (the "2011 Stock Repurchase Program") which authorized the Company to repurchase (i) up to \$200 million of its outstanding common stock plus (ii) such additional amounts of its outstanding common stock using proceeds from the exercise of stock options as well as the tax benefits that accrue to the Company from the exercise of stock options, SARs and other equity grants. The 2011 Stock Repurchase Program will expire when the Company has repurchased the \$200 million portion, unless terminated earlier by the Company's Board. Purchases of shares of common stock may be made from time to time, either on the open market or through privately negotiated transactions and are financed by either (i) the Company's existing cash, cash flow and other liquidity sources, as appropriate, or (ii) proceeds related to the exercise of equity grants. On June 11, 2012, the Company announced that its Board has chosen not to spend additional capital under the 2011 Stock Repurchase Program at this time.

7. Retirement Plan

The Company sponsors a frozen defined benefit plan. The components of pension cost for each period are as follows (in thousands):

	Thirteen Weeks Ended	
	May 4, 2013	April 28, 2012
Employer service cost	\$90	\$-
Interest cost	430	473
Expected return on plan assets	(559)	(563)
Net loss amortization	153	103
Net periodic pension cost	\$114	\$13

The Company's funding policy is to make contributions to maintain the minimum funding requirements for its pension obligations in accordance with the Employee Retirement Income Security Act. The Company may elect to contribute additional amounts to maintain a level of funding to minimize the Pension Benefit Guaranty Corporation premium costs or to cover the short-term liquidity needs of the plan in order to maintain current invested positions. No contributions were made by the Company in the current year first quarter.

Table of Contents

8. Fair Value Measurements

The Company recognizes or discloses the fair value of its financial and non-financial assets and liabilities on a recurring and non-recurring basis. Fair value is defined as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities which are required to be recorded at fair value, the Company assumes the highest and best use of the asset by market participants in which the Company would transact and the market-based risk measurements or assumptions that market participants would use in pricing the asset or liability.

The Company applies the following fair value hierarchy, which prioritizes the inputs used to measure fair value into three levels, and bases the categorization within the hierarchy upon the lowest level of input that is available and significant to the fair value measurement:

Level 1 - Quoted prices in active markets for identical assets or liabilities.

Level 2 - Observable inputs other than quoted prices in active markets for identical assets and liabilities, quoted prices for identical or similar assets or liabilities in inactive markets, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Inputs that are both unobservable and significant to the overall fair value measurement reflect the Company's estimates of assumptions that market participants would use in pricing the asset or liability.

Table of Contents

The following tables present the Company's financial assets and liabilities measured at fair value on a recurring basis in the Condensed Consolidated Balance Sheets (Unaudited) (in thousands):

	May 4, 2013			
	Balance	Quoted Prices in Active Markets for Identical Instruments (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Other assets:				
Securities held in grantor trust for deferred compensation plans (1)(2)	\$21,294	\$ 21,294	\$ -	\$ -
Accrued expenses and other current liabilities:				
Deferred non-employee director equity compensation plan liability (2)	\$311	\$ 311	\$ -	\$ -

	February 2, 2013			
	Balance	Quoted Prices in Active Markets for Identical Instruments (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Other assets:				
Securities held in grantor trust for deferred compensation plans (1)(2)	\$18,498	\$ 18,498	\$ -	\$ -
Accrued expenses and other current liabilities:				
Deferred non-employee director equity compensation plan liability (2)	\$253	\$ 253	\$ -	\$ -

(1) The Company has recorded in other long-term liabilities amounts related to these assets for the amount due to participants corresponding in value to the securities held in the grantor trust.

(2) Using the market approach, the fair values of these items represent quoted market prices multiplied by the quantities held. Net gains and losses related to the changes in fair value in the assets and liabilities under the various deferred compensation plans are recorded in selling, general and administrative expenses and were nil for the thirteen weeks ended May 4, 2013 and for the fiscal year ended February 2, 2013.

Table of Contents

Certain long-lived assets are measured at fair value on a nonrecurring basis in the Condensed Consolidated Balance Sheets. When the Company determines a long-lived asset is impaired, the carrying value of the asset is reduced to its fair value and the impairment charge is recorded within cost of sales and related buying, occupancy and distribution expense in the Condensed Consolidated Statements of Operations and Comprehensive Income. There were no significant impairments of long-lived assets for the thirteen weeks ended May 4, 2013 and April 28, 2012, respectively.

Financial instruments not measured at fair value are cash and cash equivalents, payables and debt obligations. The Company believes that the Revolving Credit Facility approximates fair value since interest rates are adjusted to reflect current rates.

ITEM MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF 2. OPERATIONS

Forward Looking Statements

Certain statements in this Form 10-Q contain forward-looking statements that are subject to known and unknown risks, uncertainties and other factors which may cause actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by these forward-looking statements. Forward-looking statements reflect the Company's expectations regarding future events and operating performance and often contain words such as "believe," "expect," "may," "will," "should," "could," "anticipate," "plan" or similar words.

Forward-looking statements are based on various assumptions and factors that could cause actual results to differ materially from those in the forward looking statements. These factors include, but are not limited to, the ability of the Company and its subsidiaries to maintain normal trade terms with vendors, the ability of the Company and its subsidiaries to comply with the various covenant requirements contained in the Company's Revolving Credit Facility, the demand for apparel, and other factors. The demand for apparel and sales volume can be affected by significant changes in economic conditions, including an economic downturn, employment levels in the Company's markets, consumer confidence, energy and gasoline prices and other factors influencing discretionary consumer spending. Other factors affecting the demand for apparel and sales volume include unusual weather patterns, an increase in the level of competition in the Company's market areas, competitors' marketing strategies, changes in fashion trends, changes in the average cost of merchandise purchased for resale, availability of product on normal payment terms and the failure to achieve the expected results of the Company's merchandising and marketing plans as well as its store opening plans. The occurrence of any of these factors could have a material and adverse impact on the Company's business, financial condition, operating results, or liquidity. Most of these factors are difficult to predict accurately and are generally beyond the Company's control.

Readers should consider the risks and uncertainties described in the Company's Annual Report on Form 10-K for the year ended February 2, 2013 ("Form 10-K"). Readers should carefully review the Form 10-K in its entirety including, but not limited to, the Company's financial statements and the notes thereto and the risks and uncertainties described in Item 1A - "Risk Factors" of the Form 10-K. Forward-looking statements contained in this Form 10-Q are as of the date of this Form 10-Q. The Company does not undertake to update its forward-looking statements.

General

Stage Stores, Inc. (the "Company" or "Stage Stores") is a Houston, Texas-based retailer, which operates both department stores and off-price stores. Its department stores, which operate under the Bealls, Goody's, Palais Royal, Peebles and Stage nameplates, offer moderately priced, nationally recognized brand name and private label apparel,

accessories, cosmetics and footwear for the entire family. Its off-price stores, which are called Steele's, offer brand name family apparel, accessories, shoes and home décor at significant savings to department store prices. The Company also offers its merchandise direct-to-consumer through its eCommerce website and Send program. The eCommerce website features similar merchandise to that found in the Company's stores as well as merchandise which is available only on-line. The Send program allows customers to have merchandise shipped directly to their homes from another store if their size or color is not available in a local store.

Table of Contents

The Company's principal focus is on consumers in small and mid-sized markets which the Company believes are under-served and less competitive. In those small town markets where it operates a department store and an off-price store, the Company targets a different customer for each store and, therefore, believes that customer overlap between the two formats is minimal. At May 4, 2013, the Company operated 872 stores located in 40 states.

The Company made progress on a number of its key initiatives during the thirteen weeks ended May 4, 2013 (the "current year first quarter"). Chief among them was the consolidation of the Company's South Hill Operations (the "South Hill Consolidation"), announced on February 11, 2013, which remains on track for a midyear completion. In addition to projected annual savings of \$5 million, the South Hill Consolidation is expected to increase productivity, create synergies, strengthen collaboration, enhance the Company's purchasing power, provide for a consistent message to customers and accelerate sales growth. In addition, the Company opened 10 new department stores, added 2 new Clinique counters and started the roll-out of its new prototype fixture packages to the top 40 stores. The Company also moved forward on replatforming and enhancing its eCommerce website, which is expected to be completed in time for the holiday shopping period in the fourth quarter.

The financial information, discussion and analysis that follow should be read in conjunction with the Company's Consolidated Financial Statements as included in the Form 10-K.

Results of Operations

The following table sets forth the results of operations as a percentage of sales for the periods indicated:

	Thirteen Weeks Ended (1)	
	May 4, 2013	April 28, 2012
Net sales	100.0 %	100.0 %
Cost of sales and related buying, occupancy and distribution expenses	76.2	74.3
Gross profit	23.8	25.7
Selling, general and administrative expenses	26.3	25.4
Store opening costs	0.3	0.3
Interest expense, net	0.2	0.2
Loss before income tax	(2.9)	(0.2)
Income tax benefit	(1.1)	(0.1)
Net loss	(1.8) %	(0.1) %

(1) Percentages may not foot due to rounding.

Table of Contents

Non-GAAP Financial Measures

The following supplemental information presents the results of operations for the first fiscal quarter of 2012 and 2013. Both periods are presented on a basis in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") and on a non-U.S. GAAP basis to show earnings with and without charges associated with the South Hill Consolidation and the former Chief Executive Officer's resignation. Management believes this supplemental financial information enhances an investor's understanding of the Company's financial performance as it excludes those items which impact comparability of operating trends. The non-U.S. GAAP financial information should not be considered in isolation or viewed as a substitute for net income, cash flow from operations or other measures of performance as defined by U.S. GAAP. Moreover, the inclusion of non-U.S. GAAP financial information as used herein is not necessarily comparable to other similarly titled measures of other companies due to the potential inconsistencies in the method of presentation and items considered. The following tables set forth the supplemental financial information and the reconciliation of U.S. GAAP disclosures to non-U.S. GAAP financial metrics (in thousands, except diluted earnings per share):

	Thirteen Weeks Ended	
	May 4, 2013	April 28, 2012
Net income (loss):		
On a U.S. GAAP basis	\$(6,856)	\$(418)
South Hill consolidation related charges, net of tax of \$3,616	6,062	-
Former Chief Executive Officer resignation related charges, net of tax of \$1,148	-	1,852
On a non-U.S. GAAP basis	\$(794)	\$1,434
Diluted earnings (loss) per share:		
On a U.S. GAAP basis	\$(0.21)	\$(0.01)
South Hill consolidation related charges	0.19	-
Former Chief Executive Officer resignation related charges	-	0.06
On a non-U.S. GAAP basis	\$(0.02)	\$0.05

Thirteen Weeks Ended May 4, 2013 Compared to Thirteen Weeks Ended April 28, 2012

Sales for the thirteen weeks ended May 4, 2013 increased 3.5% to \$378.6 million from \$365.7 million for the thirteen weeks ended April 28, 2012 (the "prior year first quarter"). The sales increase was primarily driven by the Company's new stores and an increase in eCommerce sales. Unseasonably cool weather in March and April negatively impacted sales in the current year first quarter compared to the prior year first quarter. Comparable store sales, which are sales in stores that are open for at least 14 full months prior to the reporting period, including eCommerce sales, increased 0.7% in the current year first quarter compared to a 2.5% increase in the prior year first quarter. Excluding eCommerce sales, comparable store sales were flat in the current year first quarter as compared to 2.1% in the prior year first quarter. The 0.7% increase in comparable store sales for the current year first quarter reflects a combination of a 3.9% increase in the number of transactions and a 2.0% increase in units per transaction, partially offset by a 5.2% decrease in average unit retail.

On a market population basis, utilizing a ten-mile radius from each store, the larger market stores outperformed the smaller markets. The Company's mid-sized (populations of 50,000 to 150,000) and large markets (populations greater

than 150,000) achieved comparable store sales increases of 2.0% and 2.5%, respectively, while the small market stores (populations less than 50,000) experienced a comparable store sales decrease of 0.6%. Geographically, the South Central, Mid Atlantic, Southwest and Northeast all outperformed the Company average.

On a merchandise category basis, home and gifts, accessories, men's and young men's, junior sportswear and cosmetics all outperformed the Company's comparable store sales gain. Categories disadvantaged by the cooler weather, such as shorts, sandals, capris, sundresses, tank tops and swimwear, had the weakest performance during the current year first quarter while those categories generally immune from weather, such as home and gifts, accessories and cosmetics, were the stronger performers. Home and gifts had double-digit increases as it benefitted from new product launches such as Keurig and Cuisinart. The increase in accessories was driven by the strength in

18

Table of Contents

handbags. The Company also continues to focus on growing its cosmetics line of business through the installation of Estee Lauder and Clinique counters and the introduction of new products.

The following is a summary of the changes in the components of the cost of sales rate between the current year first quarter and the prior year first quarter, expressed as a percent of sales:

	Increase	
	/	
	Decrease	
Merchandise cost of sales rate	2.0	%
Buying, occupancy and distribution expenses rate	(0.1)
Cost of sales rate	1.9	%

Gross profit for the current year first quarter was \$90.2 million, a decrease of 3.9% from \$93.8 million in the prior year first quarter. Gross profit, as a percent of sales, decreased to 23.8% in the current year first quarter from 25.7% in the prior year first quarter. As a result of the softness in sales in the current year first quarter, the Company aggressively managed inventory levels. The Company also accelerated the liquidation of clearance inventory closer to its natural selling window. These activities resulted in increased clearance sales during the current year first quarter compared to the prior year first quarter, which negatively impacted the gross margin rate. Merchandise cost of sales for the current year first quarter also includes approximately \$2.8 million related to the South Hill Consolidation due to increased inventory markdowns and advertising allowances in deferred inventory.

Selling, general and administrative ("SG&A") expenses in the current year first quarter increased \$6.9 million to \$99.6 million from \$92.7 million in the prior year first quarter. As a percent of sales, SG&A expenses increased to 26.3% in the current year first quarter from 25.4% in the prior year first quarter. The increase in SG&A expenses reflects charges of approximately \$6.9 million incurred in the current year first quarter related to the South Hill Consolidation. The prior year first quarter included \$3.0 million of charges associated with the resignation of the Company's former Chief Executive Officer. In addition, the increase in SG&A reflects incremental costs to operate 45 net additional stores as compared to the prior year first quarter and deleverage from increased store expenses and advertising. These higher costs were partially offset by higher credit income associated with the Company's private label credit card portfolio.

Store opening costs of \$1.0 million in the current year first quarter include costs related to the opening of 10 new department stores. During the prior year first quarter, the Company incurred \$0.9 million in store opening costs related to the opening of 15 new stores and the relocation of 2 stores. Store opening costs are expensed as incurred and include costs of stores opening in future quarters.

Net interest expense was \$0.6 million in the current year first quarter compared to \$0.8 million in the prior year first quarter. Interest expense is primarily comprised of interest on borrowings under the Revolving Credit Facility (see "Liquidity and Capital Resources"), related letters of credit and commitment fees, amortization of debt issuance costs and interest on finance lease obligations.

The Company's effective tax rate for the current year first quarter was 37.4%, resulting in an estimated tax benefit of \$4.1 million. This compares to an effective tax rate of 38.3% and income tax benefit of \$0.3 million in the prior year first quarter.

As a result of the foregoing, the Company had a net loss of \$6.9 million for the current year first quarter as compared to a net loss of \$0.4 million for the prior year first quarter.

Seasonality and Inflation

Historically, the Company's business is seasonal and sales are traditionally lower during the first three quarters of the fiscal year (February through October) and higher during the last quarter of the fiscal year (November through January). The fourth quarter usually accounts for slightly more than 30% of the Company's annual sales, with the other quarters accounting for approximately 22% to 24% each. Working capital requirements fluctuate during the year and generally reach their highest levels during the third and fourth quarters. The Company does not expect

Table of Contents

inflation will have a material impact on its operations. However, there can be no assurance that the Company's business will not be affected by inflation in the future.

Liquidity and Capital Resources

The Company's liquidity is currently provided by (i) existing cash balances, (ii) operating cash flows, (iii) normal trade credit terms from the vendor and factor community and (iv) the Revolving Credit Facility. The Company's primary cash requirements are for capital expenditures related to new stores, store relocations and remodeling, and seasonal and new store inventory purchases.

Key components of the Company's cash flows for the current year and the prior year are summarized below (in thousands):

	Thirteen Weeks Ended	
	May 4, 2013	April 28, 2012
Net cash provided by (used in):		
Operating activities	\$(34,779)	\$13,066
Investing activities	(16,809)	(9,780)
Financing activities	60,249	(142)

Operating Activities

During the current year first quarter, the Company used \$34.8 million in cash from operating activities. Net loss, adjusted for non-cash expenses, provided cash of approximately \$10.1 million. Changes in operating assets and liabilities used net cash of approximately \$45.9 million, which included a \$38.7 million increase in merchandise inventories primarily due to planned investments in inventory and the seasonal build of inventories, and an increase in other assets of \$7.5 million. These increases were partially offset by an increase in accounts payable and other liabilities of \$0.4 million. Additionally, cash flows from operating activities included construction allowances from landlords of \$1.0 million, which funded a portion of the capital expenditures related to store leasehold improvements in new and relocated stores. The increase in cash used in operating activities compared to the prior year first quarter is reflective of the increase in incentive bonus paid, timing of rent payments and an increase in income taxes paid.

During the prior year first quarter, the Company generated \$13.1 million in cash from operating activities. Net loss, adjusted for non-cash expenses, provided cash of approximately \$15.6 million. Changes in operating assets and liabilities used net cash of approximately \$3.1 million, which included a \$50.1 million increase in merchandise inventories due to the seasonal build in inventories, partially offset by a decrease in other assets of \$11.1 million and an increase in accounts payable and other liabilities of \$35.9 million. Additionally, cash flows from operating activities included construction allowances from landlords of \$0.6 million, which funded a portion of the capital expenditures related to store leasehold improvements in new and relocated stores.

Investing Activities

Capital expenditures were \$16.8 million in the current year first quarter as compared to \$9.8 million in the prior year first quarter. For the current year, the Company opened 10 new department stores, as compared to 15 new stores and 2 relocated stores in the prior year first quarter. As noted above, the Company received construction allowances from

landlords of \$1.0 million in the current year first quarter to fund a portion of the capital expenditures related to store leasehold improvements in new and relocated stores, while \$0.6 million was received from landlords in the prior year first quarter. These funds have been recorded as a deferred rent credit in the balance sheet and will be recorded as an offset to rent expense over the lease term commencing with the date the allowances were earned.

Management currently estimates that capital expenditures in 2013, net of construction allowances to be received from landlords, will be approximately \$57 million. The expenditures will principally be for the opening of new stores, store expansions, relocations and remodels, new fixturing, new cosmetic counters and increased technology spend.

Table of Contents

Financing Activities

The Company has a \$250.0 million senior secured revolving credit facility that matures on June 30, 2016 (the "Amended and Restated Credit Agreement" or "Revolving Credit Facility"). The Revolving Credit Facility includes an uncommitted accordion feature to increase the size of the facility to \$350.0 million. Borrowings under the Revolving Credit Facility are limited to the availability under a borrowing base that is determined principally on eligible inventory as defined by the Revolving Credit Facility agreement. The daily interest rates under the Revolving Credit Facility are determined by a prime rate or LIBOR plus an applicable margin, as set forth in the Revolving Credit Facility agreement. Inventory and cash and cash equivalents are pledged as collateral under the Revolving Credit Facility. The Revolving Credit Facility is used by the Company to provide financing for working capital, capital expenditures and other general corporate purposes, as well as to support its outstanding letters of credit requirements. For the thirteen weeks ended May 4, 2013, the weighted average interest rate on outstanding borrowings and the average daily borrowings under the Revolving Credit Facility were 2.17% and \$13.0 million, respectively.

The Company also issues letters of credit under the Revolving Credit Facility to support certain merchandise purchases and to collateralize retained risks and deductibles under various insurance programs. At May 4, 2013, the Company had outstanding letters of credit totaling approximately \$3.5 million. These letters of credit expire within twelve months of issuance. Excess borrowing availability under the Revolving Credit Facility at May 4, 2013, net of letters of credit outstanding and outstanding borrowings, was \$185.8 million.

The Revolving Credit Facility contains covenants which, among other things, restrict, based on required levels of excess availability, (i) the amount of additional debt or capital lease obligations, (ii) the payment of dividends and repurchase of common stock under certain circumstances and (iii) related party transactions. The Revolving Credit Facility also contains a fixed charge coverage ratio covenant in the event excess availability is below a defined threshold or an event of default has occurred. At May 4, 2013, the Company was in compliance with all of the debt covenants of the Revolving Credit Facility and expects to remain in compliance during fiscal year 2013.

On April 8, 2013, the Company announced that its Board of Directors ("the Board") approved a 25% increase in the Company's quarterly cash dividend rate to \$0.125 cents per share from the previous quarterly rate of \$0.10 cents per share. The new quarterly rate of \$0.125 cents per share is applicable to dividends declared by the Board beginning May 23, 2013. In the current year, the Company has paid cash dividends totaling \$3.3 million. On May 23, 2013, the Company's Board of Directors (the "Board") declared a quarterly cash dividend of \$0.125 per share of common stock, payable on June 19, 2013 to shareholders of record at the close of business on June 4, 2013.

On March 7, 2011, the Company's Board approved a Stock Repurchase Program (the "2011 Stock Repurchase Program") which authorized the Company to repurchase (i) up to \$200 million of its outstanding common stock plus (ii) such additional amounts of its outstanding common stock using proceeds from the exercise of stock options as well as the tax benefits that accrue to the Company from the exercise of stock options, SARs and other equity grants. The 2011 Stock Repurchase Program will expire when the Company has repurchased the \$200 million portion, unless terminated earlier by the Company's Board. Purchases of shares of common stock may be made from time to time, either on the open market or through privately negotiated transactions and are financed by either (i) the Company's existing cash, cash flow and other liquidity sources, as appropriate, or (ii) proceeds related to the exercise of equity grants. On June 11, 2012, the Company announced that its Board has chosen not to spend additional capital under the 2011 Stock Repurchase Program at this time.

While there can be no assurances, management believes that there should be sufficient liquidity to cover both the Company's short-term and long-term funding needs. The Company anticipates that it has adequate cash flows to cover its working capital needs, planned capital expenditures and debt service requirements for the remainder of 2013 and the foreseeable future.

Table of Contents

Recent Accounting Standards

Disclosure concerning recent accounting standards is incorporated by reference to Note 1 of the Company's Condensed Consolidated Financial Statements (Unaudited) contained in this Form 10-Q.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

None.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

As defined in Rule 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934 (the "Exchange Act"), the term "disclosure controls and procedures" means controls and other procedures of an issuer that are designed to ensure that information required to be disclosed by the issuer in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Exchange Act is accumulated and communicated to the issuer's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Management of the Company, with the participation of the Chief Executive Officer and Chief Financial Officer evaluated the effectiveness of the Company's disclosure controls and procedures and concluded that the Company's disclosure controls and procedures were effective as of May 4, 2013.

Internal Control Over Financial Reporting

As defined in Rule 13a-15(f) and 15d-15(f) of the Exchange Act, the term "internal control over financial reporting" means a process designed by, or under the supervision of, the issuer's principal executive and principal financial officers, or persons performing similar functions, and effected by the issuer's board of directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles and includes those policies and procedures that:

- (1) Pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the issuer;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the issuer are being made only in accordance with authorizations of management and directors of the issuer; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the issuer's assets that could have a material adverse effect on the financial statements.

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting for the Company. There were no changes in the Company's internal control over financial reporting during

the quarter ended May 4, 2013 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II – OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

During the current year first quarter ended May 4, 2013, the Company did not have any material legal proceedings brought against it, its subsidiaries or their properties.

ITEM 1A. RISK FACTORS

There have not been any material changes from the risk factors as previously disclosed in the Form 10-K.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

On March 7, 2011, the Company's Board approved a Stock Repurchase Program (the "2011 Stock Repurchase Program") which authorized the Company to repurchase (i) up to \$200 million of its outstanding common stock plus (ii) such additional amounts of its outstanding common stock using proceeds from the exercise of stock options as well as the tax benefits that accrue to the Company from the exercise of stock options, SARs and other equity grants. The 2011 Stock Repurchase Program will expire when the Company has repurchased the \$200 million portion, unless terminated earlier by the Company's Board. Purchases of shares of common stock may be made from time to time, either on the open market or through privately negotiated transactions and are financed by either (i) the Company's existing cash, cash flow and other liquidity sources, as appropriate, or (ii) proceeds related to the exercise of equity grants. On June 11, 2012, the Company announced that its Board has chosen not to spend additional capital under the 2011 Stock Repurchase Program at this time.

Financed by the Company's existing cash, cash flow and other liquidity sources, the Company has spent \$100.1 million since March 2011 to repurchase approximately 6.1 million shares of its common stock under the 2011 Stock Repurchase Program.

Using proceeds from the exercise of stock options as well as the tax benefits that accrue to the Company from the exercise of stock options, SARs and other equity grants, the Company has spent \$10.0 million since March 2011 to repurchase approximately 0.7 million shares of its common stock.

The table below sets forth information regarding the Company's repurchases of its common stock during the current year first quarter:

ISSUER PURCHASES OF EQUITY SECURITIES

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total	Approximate
