NOTES TO FINANCIAL STATEMENTS

March 31, 2003

1. Basis of Presentation

The accompanying financial statements, which should be read in conjunction with the financial statements of Sutron Corporation ("the Company") included in the 2002 Annual Report filed on Form 10-KSB, are unaudited but have been prepared in the ordinary course of business for the purpose of providing information with respect to the interim period. The Company believes that all adjustments (none of which were other than normal recurring accruals) necessary for a fair presentation for such periods have been included.

2. Earnings Per Share

The Company has adopted Statement of Financial Accounting Standards ("SFAS") No. 128 which establishes standards for computing and presenting earnings per share (EPS) for entities with publicly held common stock. The standard requires presentation of two categories of earning per share, basic EPS and diluted EPS. Basic EPS excludes dilution and is computed by dividing income available to common stockholders by the weighted-average number of common shares outstanding for the year. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that then shared in the earnings of the Company.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of Operations

Net Revenues. The Company's revenues for the three months ended March 31, 2003 increased 73% to \$2,259,801 from \$1,302,528 in 2002. The increase is due to contract activity on two projects

Edgar Filing: SUTRON CORP - Form 10QSB

in India and one in Mexico and due to an interational shipment to Venezuela. Revenues from the projects in India and Mexico totalled approximately \$592,000 and the shipment to Venezuela totalled approximately \$360,000.

Bookings for the first quarter of 2003 were \$2,139,000 as compared to \$2,095,000 in the first quarter of 2002.

Gross Profit. Gross profit for 2003 increased to \$492,932 from \$451,688 in 2002. Gross margin as a percentage of revenues for 2003 decreased to 22% as compared to 35% in 2002. The decrease in the Company's gross margin as a percentage of sales is attributed to manufacturing overruns that the Company has experienced in the production of the SatLink-G312 satellite transmitter, increased warranty costs associated with the SatLink and inventory revaluation costs. Also the gross margins achieved on the two projects in India and the one in Mexico were not significant as these projects were all bid at reduced margins in order to capture the business.

Selling, General And Administrative. Selling, general and administrative expenses increased to \$650,895 in 2003 from \$562,338 in 2002, an increase of \$88,557 or 16%. The increase is primarily due to international agent commissions on the shipment to Venezuela.

Research And Development. Research and development expenses decreased to \$316,937 in 2003 from \$326,429 in 2002, a decrease of \$9,492. This decrease is due to a reduction in XConnect application development costs. XConnect is the Company's new systems software based on open systems.

Interest Expenses. Interest expenses decreased to \$4,288 in 2003 from \$11,497 in 2002.

The Company's backlog of orders at March 31, 2003 was \$2,689,000 as compared to \$2,338,000 as of March 31, 2002. The Company anticipates that 80% of its March backlog will be shipped in 2003.

Liquidity and Capital Resources

Cash and cash equivalentents decreased to \$88,579 at March 31, 2003, compared to \$401,740 at December 31, 2002.

The ratio of current assets to current liabilities was 2.4:1 as of March 31, 2003, compared to 3.5 as of December 31, 2002. Working capital decreased to \$2,982,258 at the end of the first quarter of fiscal 2003 compared to \$3,297,918 at the end of fiscal 2002.

The Company has a revolving credit facility of \$1,000,000 that expires on June 30, 2003 and will not be renewed with its current lender. The Company is currently in the process of evaluating several other financial institutions in order to obtain additional financing.

Management believes that its existing cash resources, cash flow from operations and short-term borrowings on the existing line of credit and anticipated future line of credit will provide adequate financial resources for supporting operations during fiscal 2003.
