- Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Item 8.01. Other Events

OGE Energy Corp. (the “Company”) is the parent company of Oklahoma Gas and Electric Company (“OG&E”), a regulated electric utility with approximately 773,000 customers in Oklahoma and western Arkansas, and Enogex LLC and its subsidiaries, a midstream natural gas pipeline business with principal operations in Oklahoma.

On September 29, 2009, the Company issued a press release announcing that OG&E has reached agreements totaling 280 megawatts (“MW”) with developers who will build two new wind farms in northwestern Oklahoma as part of a plan under which OG&E will more than triple its current wind power capacity by the end of 2010. The construction of the new wind farms is contingent upon Oklahoma Corporation Commission approval of the agreements negotiated by OG&E. The agreements result from a competitive bid process conducted by OG&E earlier this year. CPV Keenan submitted a proposal based on a 150 MW wind farm in Woodward County and Edison Mission Energy a 130 MW facility in Dewey County near Taloga. The agreements with CPV Keenan and Edison Mission Energy are both 20-year power-purchase agreements, under which the developers will build, own and operate the wind generating facilities and OG&E will purchase their electric output. OG&E received more than 50 responses from a variety of developers and sites after it issued its request for proposals from wind power developers. Negotiations continue with Chermac Energy, the third bidder on OG&E’s short list announced in June, for an additional 150 MW of wind energy from Texas County. OG&E also expects to solicit additional proposals from wind developers in the next several months with a goal of adding more wind generation in 2011 or 2012. A copy of the Company’s press release announcing these agreements is attached as Exhibit 99.01 and incorporated herein by reference.

Item 9.01. Financial Statements and Exhibits

(d) Exhibits

Exhibit Number	Description
99.01	Press release dated September 29, 2009, announcing OG&E reaches agreements for new wind farm developments.
