Item 7.01. Regulation FD Disclosure.

In accordance with General Instruction B.2. of Form 8-K, the following information shall not be deemed to be “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended. Olin disclaims any intention or obligation to update or revise this information.

Attached as Exhibit 99.1 and incorporated herein by reference is a copy of the Company’s press release dated September 17, 2008, announcing that it has lifted the force majeure declared on September 10, 2008 for product shipments from its St. Gabriel, LA facility. The Company announced that it expects to resume normal deliveries of caustic soda, chlorine and hydrogen from that facility immediately.

The press release also announces that the Company has declared a force majeure for caustic soda shipments from the SunBelt Chlor Alkali Partnership (“SunBelt”) plant located in McIntosh, Alabama until further notice. The force majeure was primarily declared due to the continuing effects of Hurricanes Gustav and Ike which caused SunBelt to temporarily shut down because it has no orders for chlorine due to a force majeure declaration by Oxy Vinyls, LP, SunBelt’s sole chlorine customer, and caused Union Pacific Railroad to declare an embargo on chlorine shipments to all areas between Dayton, Texas and Brownsville, Texas. The impacted Oxy Vinyls, LP facility is located in LaPorte, TX, which is within the area for which Union Pacific Railroad declared an embargo. Olin will strive to service the SunBelt caustic soda customers from its other facilities.
