NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

Note 1. Basis of Presentation and Significant Accounting Policies

Basis of Presentation

The Company is an exempted Bermuda limited liability company whose principal businesses are conducted through its insurance subsidiaries and other affiliates. The Company's headquarters is located at 26 Reid Street, Hamilton, Bermuda HM 11, its principal executive office is located at 80 South Main Street, Hanover, New Hampshire 03755-2053 and its registered office is located at Clarendon House, 2 Church Street, Hamilton, Bermuda HM 11. The accompanying consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States ("GAAP") and include the accounts of White Mountains Insurance Group, Ltd. (the "Company" or the "Registrant"), its subsidiaries (collectively with the Company, "White Mountains") and other entities required to be consolidated under GAAP.

Consolidation Principles

Under GAAP, the Company is required to consolidate any entity in which it holds a controlling financial interest. A controlling financial interest is usually in the form of an investment representing the majority of the subsidiary's voting interests. However, a controlling financial interest may also arise from a financial interest in a variable interest entity ("VIE") through arrangements that do not involve ownership of voting interests. The Company consolidates a VIE if it determines that it is the primary beneficiary. The primary beneficiary is defined as the entity who holds a variable interest that gives it both the power to direct the VIE's activities that most significantly impact its economic performance and the obligation to absorb losses of, or the right to receive returns from, the VIE that could potentially be significant to the VIE.

Intercompany transactions have been eliminated in consolidation. Certain amounts in the prior period financial statements have been reclassified to conform to the current presentation. These interim financial statements include all adjustments considered necessary by management to fairly state the financial position, results of operations and cash flows of White Mountains. These interim financial statements may not be indicative of financial results for the full year and should be read in conjunction with the Company's 2017 Annual Report on Form 10-K.

Business Combinations

White Mountains accounts for purchases of businesses using the acquisition method, which requires the measurement of assets acquired, including goodwill and other intangible assets and liabilities assumed, including contingent liabilities, at their estimated fair values as of the acquisition date. The acquisition date fair values represent management's best estimates and are based upon established valuation techniques, reasonable assumptions and, where appropriate, valuations performed by independent third parties. In circumstances where additional information is required in order to determine the acquisition date fair value of balance sheet amounts, provisional amounts may be recorded as of the acquisition date and may be subject to subsequent adjustment throughout the measurement period, which is one year from the acquisition date. Measurement period adjustments are recognized in the period in which they are determined. The results of operations and cash flows of businesses acquired are included in the consolidated financial statements from the date of acquisition.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Reportable Segments

White Mountains has determined its reportable segments based on the nature of the underlying businesses, the manner in which the Company's subsidiaries and affiliates are organized and managed and the organization of the financial information provided to the chief operating decision maker to assess performance and make decisions regarding allocation of resources. White Mountains's reportable segments are HG Global/BAM, NSM, MediaAlpha and Other Operations. See Note 12 — "Segment Information".

7

The HG Global/BAM segment consists of HG Global Ltd. and its wholly-owned subsidiaries (“HG Global”) and the consolidated results of Build America Mutual Assurance Company (“BAM”) (collectively, “HG Global/BAM”). BAM is the first and only mutual municipal bond insurance company in the United States. By insuring the timely payment of principal and interest, BAM provides market access to, and lowers interest expense for, issuers of municipal bonds used to finance essential public purposes such as schools, utilities and transportation facilities. BAM is owned by and operated for the benefit of its members, the municipalities that purchase BAM’s insurance for their debt issuances. HG Global was established to fund the startup of BAM and, through its wholly-owned subsidiary, HG Re Ltd. (“HG Re”), to provide up to 15%-of-par, first loss reinsurance protection for policies underwritten by BAM. HG Global, together with its subsidiaries, provided the initial capitalization of BAM through the purchase of \$503.0 million of surplus notes issued by BAM (the “BAM Surplus Notes”). As of June 30, 2018, \$499.0 million of the surplus notes remain outstanding. As of June 30, 2018 and December 31, 2017, White Mountains owned 96.9% of HG Global’s preferred equity and 88.4% of its common equity. White Mountains does not have an ownership interest in BAM. However, White Mountains is required to consolidate BAM’s results in its financial statements because BAM is a VIE for which White Mountains is the primary beneficiary. BAM’s results are attributed to non-controlling interests.

The NSM segment consists of NSM Insurance HoldCo, LLC and its wholly-owned subsidiaries (collectively, “NSM”). NSM is a full service managing general agency and program administrator for specialty property and casualty insurance. NSM manages all aspects of the placement process on behalf of its carrier partners, including product development, marketing, underwriting and policy issuance. NSM specializes in niche sectors including collector cars, social services and behavioral health, specialty real estate, sports and fitness centers, and pet insurance. White Mountains acquired a 95% ownership share in NSM on May 11, 2018. See Note 2 - “Significant Transactions”.

The MediaAlpha segment consists of QL Holdings LLC and its wholly-owned subsidiary QuoteLab, LLC (collectively “MediaAlpha”). MediaAlpha is a leading marketing technology company that develops technology that enables the programmatic buying and selling of vertical-specific, performance-based media between advertisers (buyers of advertising inventory) and publishers (sellers of advertising inventory) through cost-per-click, cost-per-call and cost-per-lead pricing models. MediaAlpha’s media buying platform enables advertisers to create and automate data-driven bidding strategies designed to improve the efficiency and enhance overall performance of their marketing campaigns that target high-intent consumers at the time and place they are ready to purchase. MediaAlpha’s publisher platform is used by publishers to sell their vertical-specific, performance-based media to advertisers through transparent, programmatic, auction-based marketplaces. MediaAlpha works with 580 advertisers and 325 publishers across a number of insurance (auto, motorcycle, home, renter, health and life) and non-insurance (travel, education, personal finance and home services) verticals.

White Mountains’s Other Operations segment consists of the Company, its wholly-owned subsidiary, White Mountains Capital, Inc. (“WM Capital”), its wholly-owned investment management subsidiary, White Mountains Advisors LLC (“WM Advisors”), and its other intermediate holding companies, as well as certain consolidated and unconsolidated private capital and other investments. The consolidated private capital investments include Wobi Insurance Agency Ltd. (“Wobi”) and Removal Stars Ltd. (“Buzzmove”).

Discontinued Operations and Assets and Liabilities Held for Sale

On September 28, 2017, Intact Financial Corporation completed its acquisition of OneBeacon Insurance Group, Ltd. (“OneBeacon”) in an all-cash transaction for \$18.10 per share (the “OneBeacon Transaction”). On July 21, 2016, White Mountains completed its sale of Tranzact Holdings, LLC (“Tranzact”) to an affiliate of Clayton, Dubilier & Rice, LLC. On April 18, 2016, White Mountains completed its sale of Sirius International Insurance Group, Ltd. (“Sirius Group”) to CM International Pte. Ltd. and CM Bermuda Limited (collectively “CMI”), the Singapore-based investment arm of China Minsheng Investment Corp., Ltd. White Mountains has presented the results of OneBeacon, Tranzact and Sirius Group as discontinued operations in the statement of operations and comprehensive income and their assets and liabilities as held for sale in the balance sheet for all periods prior to the completion of each transaction.

White Mountains has classified its Guilford, Connecticut property, which consists of an office building and adjacent land, as held for sale as of June 30, 2018 and December 31, 2017. See Note 16 — “Held for Sale and Discontinued Operations”.

Derivatives

White Mountains holds from time to time derivative financial instruments for risk management purposes. White Mountains recognizes all derivatives as either assets or liabilities on the balance sheet measured at fair value. During the quarter ended June 30, 2018, White Mountains entered into an interest rate swap to hedge its exposure to the interest rate risk associated with the interest payments on NSM's variable rate debt. In order to qualify for hedge accounting, a derivative instrument must be both highly effective in offsetting the exposure to the hedged risk and designated as a hedge at inception. The swap meets both of these requirements and is being accounted for as a hedge. Changes in the fair value of the swap are recognized in other comprehensive income until changes in the interest rate on the debt cause an increase in the hedged cash flows. When the hedged cash flows increase, then the effective portion of the gains or losses arising from the change in the fair value of the swap are reclassified into earnings from other comprehensive income. The amounts reclassified are included in the same financial statement caption as the related interest expense, effectively fixing the debt interest at the fixed rate in the swap for the hedged portion of the interest cash flows. Any portion of the change in the fair value of a derivative instrument designated as a cash flow hedge that represents hedge ineffectiveness is recognized in current period pre-tax income. Hedge ineffectiveness is measured as the amount by which changes in the fair value of a derivative designated as a hedge exceed the change in the fair value of the related hedged cash flows. White Mountains formally evaluates and documents the relationship between derivatives used as hedges and the related hedged cash flows, including its risk-management objective and strategy for undertaking a hedging transaction. White Mountains formally assesses the effectiveness of the hedging transaction at both inception and on an ongoing basis. White Mountains also held certain foreign currency forward contracts which were held for risk management purposes, but not designated as hedges. These contracts are measured at fair value with the changes therein recognized through current period pre-tax income. See Note 7 — “Derivatives”.

Reinsurance Contracts Accounted for as Deposits

Reinsurance contracts that do not meet the risk transfer requirements necessary to be accounted for as reinsurance are accounted for using the deposit method under GAAP. BAM entered into a reinsurance contract agreement with Fidus Reinsurance Ltd. (“Fidus Re”) in 2018, which is accounted for using the deposit method. See Note 8 — “Municipal Bond Guarantee Insurance”. The nonrefundable consideration paid by BAM to Fidus Re is charged to financing expense within general and administrative expenses.

Significant Accounting Policies

Refer to the Company’s 2017 Annual Report on Form 10-K for a complete discussion regarding White Mountains’s significant accounting policies.

Recently Adopted Changes in Accounting Principles

Revenue Recognition

On January 1, 2018, White Mountains adopted ASU 2014-09, Revenue from Contracts with Customers (ASC 606), which modifies the guidance for revenue recognition. Under ASU 2014-09, revenue is recognized at an amount that reflects the consideration to which an entity expects to be entitled once it fulfills its performance obligations under the terms of its contract with the customer. The scope of the new guidance includes agent commissions and other non-insurance revenues. Adoption of ASU 2014-09 did not have any impact on White Mountains's financial statements.

Share-Based Compensation

On January 1, 2018, White Mountains adopted ASU 2017-09, Stock Compensation: Scope of Modification Accounting (ASC 718), which narrows the scope of transactions subject to modification accounting to changes in terms of an award that result in a change in the award’s fair value, vesting conditions or classification. Adoption of ASU 2017-09 did not have any impact on White Mountains’s financial statements.

On January 1, 2017, White Mountains adopted ASU 2016-09, Improvements to Employee Share-Based Payment Accounting (ASC 718) which simplifies certain aspects of the accounting for share-based compensation. The new

guidance provides an accounting policy election to account for forfeitures by either applying an assumption, as required under existing guidance, or by recognizing forfeitures when they actually occur. At adoption, White Mountains did not change its accounting policy for forfeitures, which is to apply an assumed forfeiture rate. The new guidance has also changed the threshold for partial cash settlement to settle statutory withholding requirements for equity classified awards, increasing the threshold up to the maximum statutory tax rate. As a result of adoption, White Mountains reported \$8.4 million and \$9.2 million of statutory withholding tax payments made in connection with the settlement of restricted shares as financing cash flows for the six months ended June 30, 2018 and 2017. Such payments were classified as operating cash flows prior to adoption.

In addition, the new guidance changed the treatment for excess tax benefits that arise from the difference between the deduction for tax purposes and the compensation costs recognized for financial reporting. Under the new guidance, a reporting entity recognizes excess tax benefits or expense in current period earnings, regardless of whether it is in a taxes payable position.

Business Combinations

On January 1, 2018, White Mountains adopted ASU 2017-01, Business Combinations: Clarifying the Definition of a Business (ASC 805), which clarifies the definition of a business and affects the determination of whether acquisitions or disposals are accounted for as assets or as a business. Under the new guidance, when substantially all of the fair value of the assets is concentrated in a single identifiable asset or group of similar assets, it is not a business. Adoption of ASU 2017-01 did not have any impact on White Mountains's financial statements.

Cash Flow Statement

On January 1, 2018, White Mountains adopted ASU 2016-15, Statement of Cash Flows: Classification of Certain Cash Receipts and Cash Payments (ASC 230), which addresses the classification and presentation of certain items, including debt prepayment and extinguishment costs, contingent consideration payments made after a business combination and distributions received from equity method investees, for which there was diversity in practice prior to the issuance of ASU 2016-15. Also on January 1, 2018, White Mountains adopted ASU 2016-18, Statement of Cash Flows: Restricted Cash (ASC 230), which modifies the guidance for the treatment of restricted cash amounts in the cash flow statement. The new guidance requires restricted cash to be included in the reconciliation of beginning and end-of-period amounts presented on the statement of cash flows and requires a description of the nature of the changes in restricted cash during the periods presented. Adoption of ASU 2016-15 and ASU 2016-18 did not have any impact on White Mountains's statement of cash flows.

Financial Instruments - Recognition and Measurement

On January 1, 2018, White Mountains adopted ASU 2016-01, Recognition and Measurement of Financial Assets and Financial Liabilities (ASC 825-10), which modifies the guidance for financial instruments, including investments in equity securities. Under the new guidance, all equity securities with readily determinable fair values are required to be measured at fair value with changes therein recognized through current period earnings. In addition, the new ASU requires a qualitative assessment for equity securities without readily determinable fair values to identify impairment, and for impaired equity securities to be measured at fair value. White Mountains measures its portfolio of investment securities at fair value with changes therein recognized through current period earnings and, accordingly, adoption of ASU 2016-01 did not have any impact on White Mountains's financial statements.

Recently Issued Accounting Pronouncements

Premium Amortization on Callable Debt Securities

In March 2017, the FASB issued ASU 2017-08, Premium Amortization on Purchased Callable Debt Securities (ASC 310-20), which changes the amortization period for certain purchased callable debt securities. Under the new guidance, for investments in callable debt securities held at a premium, the premium will be amortized over the period to the earliest call date. The new guidance does not change the amortization period for callable debt securities held at a discount. ASU 2017-08 is not expected to have any impact on White Mountains's financial statements at adoption but may affect the amortization recognized in future periods.

Credit Losses

In June 2016, the FASB issued ASU 2016-13, Measurement of Credit Losses on Financial Instruments (ASC 326), which establishes new guidance for the recognition of credit losses for financial assets measured at amortized cost. The new ASU requires reporting entities to estimate the credit losses expected over the life of a credit exposure using historical information, current information and reasonable and supportable forecasts that affect the collectability of the financial asset. This differs from current GAAP, which delays recognition until it is probable a loss has been incurred.

The new guidance is expected to accelerate recognition of credit losses. The types of assets within the scope of the new guidance include premium receivables, reinsurance recoverables and loans. ASU 2016-13 is effective for annual periods beginning after January 1, 2020, including interim periods. White Mountains measures its portfolio of investment securities at fair value with changes therein recognized through current period earnings and, accordingly, does not expect adoption to have any effect on its financial statements.

Leases

In February 2016, the FASB issued ASU 2016-02, Leases (ASC 842). The new guidance requires lessees to recognize lease assets and liabilities on the balance sheet for both operating and financing leases, with the exception of leases with an original term of 12 months or less. Under existing guidance recognition of lease assets and liabilities is not required for operating leases. The lease assets and liabilities to be recognized are both measured initially based on the present value of the lease payments. Under the new guidance, a sale-leaseback transaction must meet the recognition criteria under ASC 606, Revenues, in order to be accounted for as sale. The new guidance is effective for White Mountains for years beginning after December 15, 2018, including interim periods therein. White Mountains is evaluating the expected impact of this guidance and available adoption methods.

Note 2. Significant Transactions

Acquisitions

NSM

On May 11, 2018, White Mountains closed its acquisition of 95% of NSM for cash consideration of \$274.2 million. The consideration is subject to a customary purchase price adjustment. White Mountains recognized total assets acquired related to NSM of \$494.1 million, including \$381.9 million of goodwill and other intangible assets, total liabilities assumed of \$205.7 million, and non-controlling interest of \$14.3 million reflecting acquisition date fair values. In connection with the acquisition, White Mountains incurred transaction costs of \$6.3 million, which were expensed in the second quarter of 2018.

On May 18, 2018, NSM acquired 100% of Fresh Insurance Services Group Limited (“Fresh Insurance”), an insurance broker that specializes in non-standard personal lines products, motor trade, van, and travel insurance in the United Kingdom, for an upfront cash purchase price of GBP 36.6 million (approximately \$49.6 million based on the spot rate at the date of acquisition). The purchase price is subject to adjustment based upon growth in EBITDA during two earnout periods, ending in February 2020 and February 2022. NSM has recorded a liability for contingent consideration of GBP 5.6 million (approximately \$7.5 million based on the spot rate at the date of acquisition). NSM recognized total assets acquired related to Fresh Insurance of \$69.9 million, including \$54.3 million of goodwill and other intangible assets, and total liabilities assumed of \$20.3 million, reflecting acquisition date fair values.

DavidShield

On January 24, 2018, White Mountains acquired 50% of DavidShield Life Insurance Agency (2000) Ltd. (“DavidShield”), its joint venture partner in PassportCard Limited (“PassportCard”). DavidShield is a managing general agency that is the leading provider of expatriate medical insurance in Israel and uses the same card-based delivery system as PassportCard. As part of the transaction, White Mountains restructured its equity stake in PassportCard so that White Mountains and its partner in DavidShield would each own 50% of both businesses. To facilitate the transaction, White Mountains provided financing to its partner in the form of a non-interest bearing loan that is secured by the partner’s equity in PassportCard and DavidShield. The gross purchase price for the 50% of DavidShield was \$41.8 million, or \$28.3 million net of the financing provided for the restructuring.

Kudu

On February 5, 2018, White Mountains entered into an agreement to fund up to \$127.5 million in Kudu Investment Management, LLC (“Kudu”), a capital provider to asset management and wealth management firms. Kudu specializes in providing capital solutions to asset managers and registered investment advisers, including generational ownership transfers, management buyouts, acquisition and growth finance, as well as liquidity for legacy partners. As of June 30, 2018, White Mountains has funded \$1.8 million in Kudu. White Mountains has determined that Kudu is a VIE, however White Mountains is not the primary beneficiary. White Mountains has elected to take the fair value option for its investment in Kudu.

MediaAlpha

On October 5, 2017, MediaAlpha acquired certain assets associated with the Health, Life and Medicare insurance business of Healthplans.com for an aggregate purchase price of \$28.0 million. The majority of assets acquired, which are included in other intangible assets, consist of customer relationships, a non-compete agreement from the seller and domain names. See Note 4 — “Goodwill and Other Intangibles Assets”.

On October 5, 2017, White Mountains acquired 131,579 newly-issued Class A common units of MediaAlpha for \$12.5 million. As of June 30, 2018 and December 31, 2017 White Mountains’s ownership share in MediaAlpha was 62.3% and 64.4%.

Dispositions

OneBeacon

On September 28, 2017, White Mountains received \$1.3 billion in cash proceeds from the OneBeacon Transaction and recorded a gain of \$554.6 million, net of transaction costs. As a result of the OneBeacon Transaction, OneBeacon's results have been reported as discontinued operations within White Mountains's GAAP financial statements. See Note 16 — "Held for Sale and Discontinued Operations".

Star & Shield

On March 7, 2017, White Mountains completed the sale of Star & Shield Services LLC, Star & Shield Risk Management LLC, and Star & Shield Claims Services LLC (collectively "Star & Shield") and its investment in Star & Shield Insurance Exchange ("SSIE") surplus notes to K2 Insurance Services, LLC. White Mountains did not recognize any gain or loss on the sale.

Note 3. Investments Securities

White Mountains's portfolio of investment securities held for general investment purposes consists of fixed maturity investments, short-term investments, common equity securities and other long-term investments, which are all classified as trading securities. Trading securities are reported at fair value as of the balance sheet date. Net realized and unrealized investment gains (losses) on trading securities are reported in pre-tax revenues.

White Mountains's fixed maturity investments are generally valued using industry standard pricing methodologies. Key inputs include benchmark yields, benchmark securities, reported trades, issuer spreads, bids, offers, credit ratings and prepayment speeds. Income on mortgage and asset-backed securities is recognized using an effective yield based on anticipated prepayments and the estimated economic life of the securities. When actual prepayments differ significantly from anticipated prepayments, the estimated economic life is recalculated and the remaining unamortized premium or discount is amortized prospectively over the remaining economic life.

Realized investment gains (losses) resulting from sales of investment securities are accounted for using the specific identification method. Premiums and discounts on all fixed maturity investments are amortized or accreted to income over the anticipated life of the investment. Short-term investments consist of interest-bearing money market funds and other securities, which at the time of purchase, mature or become available for use within one year. Short-term investments are carried at amortized or accreted cost, which approximated fair value as of June 30, 2018 and December 31, 2017.

Other long-term investments consist primarily of hedge funds, private equity funds and unconsolidated private capital investments.

Net Investment Income

White Mountains's net investment income is comprised primarily of interest income associated with White Mountains's fixed maturity investments and short-term investments and dividend income from its common equity securities and other long-term investments.

The following table presents pre-tax net investment income for the three and six months ended June 30, 2018 and 2017.

At June 30, 2018, no funds had been drawn on the surplus note facility.

Hedge Funds and Private Equity Funds

White Mountains invests in hedge funds and private equity funds, which are included in other long-term investments. The fair value of these investments is generally estimated using the NAV of the funds. As of June 30, 2018, White Mountains held investments in one hedge fund and twelve private equity funds. The largest investment in a single fund was \$58.5 million as of June 30, 2018 and \$54.9 million as of December 31, 2017.

The following table presents investments in hedge funds and private equity funds by investment objective and sector as of June 30, 2018 and December 31, 2017:

Total hedge funds and private equity funds included in other long-term investments	\$129.6	\$ 131.3	\$125.3	\$ 58.1

Redemption of investments in certain hedge funds is subject to restrictions including lock-up periods where no redemptions or withdrawals are allowed, restrictions on redemption frequency and advance notice periods for redemptions. Amounts requested for redemptions remain subject to market fluctuations until the redemption effective date, which generally falls at the end of the defined redemption period. As of June 30, 2018, White Mountains held one active hedge fund with a fair value of \$58.5 million. The hedge fund is subject to a lock-up period that expires on September 1, 2018, with a semi-annual restriction on redemption frequency thereafter and an advance notice period requirement of not less than 45 days.

Investments in private equity funds are generally subject to a lock-up period during which investors may not request a redemption. Distributions prior to the expected termination date of the fund may be limited to dividends or proceeds arising from the liquidation of the fund's underlying investments. In addition, certain private equity funds have the option to extend the lock-up period.

The following table presents investments in private equity funds that were subject to lock-up periods as of June 30, 2018:

Millions	1 – 3 years	3 – 5 years	5 – 10 years	>10 years	Total
Private equity funds — expected lock-up period remaining	\$9.0	\$5.8	\$42.7	\$13.6	\$71.1

Investors in private equity funds are generally subject to indemnification obligations outside of the capital commitment period and prior to the winding up of the fund. As of June 30, 2018 and December 31, 2017, White Mountains is not aware of any indemnification claims relating to its investments in private equity funds. Any future indemnification obligations would be disclosed separately as opposed to being included in the Unfunded Commitments balance.

Fair Value Measurements as of June 30, 2018

Fair value measurements are categorized into a hierarchy that distinguishes between inputs based on market data from independent sources (“observable inputs”) and a reporting entity’s internal assumptions based upon the best information available when external market data is limited or unavailable (“unobservable inputs”). Quoted prices in active markets for identical assets or liabilities have the highest priority (“Level 1”), followed by observable inputs other than quoted prices, including prices for similar but not identical assets or liabilities (“Level 2”) and unobservable inputs, including the reporting entity’s estimates of the assumptions that market participants would use, having the lowest priority (“Level 3”). As of June 30, 2018 and December 31, 2017, White Mountains used quoted market prices or other observable inputs to determine fair value for approximately 90% and 94% of the investment portfolio.

Fair Value Measurements by Level

The following tables present White Mountains's fair value measurements for investments as of June 30, 2018 and December 31, 2017 by level. The major security types were based on the legal form of the securities. White Mountains has disaggregated its fixed maturity investments based on the issuing entity type, which impacts credit quality, with debt securities issued by U.S. Government entities carrying minimal credit risk, while the credit and other risks associated with other issuers, such as corporations, foreign governments, municipalities or entities issuing mortgage and asset-backed securities vary depending on the nature of the issuing entity type. White Mountains further disaggregates debt securities issued by corporations and common equity securities by industry sector because investors often reference commonly used benchmarks and their subsectors to monitor risk and performance. Accordingly, White Mountains has further disaggregated these asset classes into subclasses based on the similar sectors and industry classifications it uses to evaluate investment risk and performance against commonly used benchmarks, such as the Bloomberg Barclays U.S. Intermediate Aggregate and S&P 500 indices.

⁽¹⁾ Represents publicly traded mortgage-backed securities which carry the full faith and credit guaranty of the U.S. Government (i.e., GNMA) or are guaranteed by a government sponsored entity (i.e., FNMA, FHLMC).

White Mountains considers sub-prime mortgage-backed securities as those that have underlying loan pools that exhibit weak credit characteristics, or those that are issued from dedicated sub-prime shelves or dedicated second-lien shelf registrations (i.e., White Mountains considers investments backed primarily by second-liens to be sub-prime risks regardless of credit scores or other metrics). As of June 30, 2018 White Mountains did not hold any mortgage-backed securities categorized as sub-prime.

White Mountains considers mortgage-backed securities as "non-prime" (also called "Alt A" or "A-") if they are backed by collateral that has overall credit quality between prime and sub-prime based on White Mountains's review of the

characteristics of their underlying mortgage loan pools, such as credit scores and financial ratios. As of June 30, 2018, White Mountains did not hold any mortgage-backed securities classified as non-prime.

Rollforward of Fair Value Measurements by Level

White Mountains uses quoted market prices where available as the inputs to estimate fair value for its investments in active markets. Such measurements are considered to be either Level 1 or Level 2 measurements, depending on whether the quoted market price inputs are for identical securities (Level 1) or similar securities (Level 2). Level 3 measurements for fixed maturity investments, common equity securities and other long-term investments as of June 30, 2018 and 2017 consist of securities for which the estimated fair value has not been determined based upon quoted market price inputs for identical or similar securities.

The following tables present the changes in White Mountains's fair value measurements by level for the six months ended June 30, 2018 and 2017:

Fair Value Measurements — Transfers Between Levels - Six-months ended June 30, 2018 and 2017

Transfers between levels are recorded using the fair value measurement as of the end of the quarterly period in which the event or change in circumstance giving rise to the transfer occurred.

During the first six months of 2018, there were no fixed maturity investments or other long-term investments classified as Level 3 measurements in the prior period that were transferred to Level 2 measurements.

During the first six months of 2017, one fixed maturity investment classified as a Level 3 measurement in the prior period was transferred to Level 2 measurement because quoted market prices for similar securities that were considered reliable and could be validated against an alternative source were available as of June 30, 2017. These measurements comprise “Transfers out” of Level 3 and “Transfers in” to Level 2 of \$11.1 million for the period ended June 30, 2017.

Significant Unobservable Inputs

The following tables present significant unobservable inputs used in estimating the fair value of investment securities, other than hedge funds and private equity funds, classified within Level 3 as of June 30, 2018 and December 31, 2017. The fair value of investments in hedge funds and private equity funds are generally estimated using the NAV of the funds.

Note 4. Goodwill and Other Intangible Assets

White Mountains has recognized goodwill and other intangible assets at the acquisition date fair values in connection with its purchases of subsidiaries.

During the quarter ended June 30, 2018, White Mountains completed its acquisition of NSM, recognizing \$381.9 million of goodwill and other intangible assets, and its acquisition of Fresh Insurance, recognizing \$54.3 million of goodwill and other intangible assets, reflecting acquisition date fair values. The relative fair values of goodwill and of the other intangible assets recognized in connection with the acquisitions of NSM and Fresh Insurance had not yet been determined at June 30, 2018.

The following table presents the change in goodwill and other intangible assets:

MediaAlpha Bank Facility, carrying value	19.8		23.8	
Total debt	\$169.6		\$ 23.8	

⁽¹⁾ Effective rate considers the effect of the debt issuance costs.

WTM Bank Facility

On August 14, 2013, the Company entered into a revolving credit facility with a syndicate of lenders administered by Wells Fargo Bank, N.A., which had a total commitment of \$425.0 million and a maturity date of August 14, 2018 (the "WTM Bank Facility"). White Mountains terminated the WTM Bank Facility on May 8, 2018.

NSM Bank Facility

On May 11, 2018, NSM entered into a secured credit facility (the "NSM Bank Facility") with Ares Capital Corporation in order to refinance NSM's debt and to fund the acquisition of Fresh Insurance. The NSM Bank Facility is comprised of a term loan of \$100.0 million, a delayed-draw term loan of \$51.0 million to fund the Fresh Insurance acquisition and a revolving credit loan commitment of \$10.0 million, under which NSM initially borrowed \$2.0 million. The term loans under the NSM Bank Facility mature on May 11, 2024, and the revolving loan under the NSM Bank Facility matures on May 11, 2023. During the three months ended June 30, 2018, NSM repaid the \$2.0 million revolving loan under the NSM Bank Facility. As of June 30, 2018, \$151.0 million of term loans were outstanding and no revolving loans were outstanding under the NSM Bank Facility.

Interest on the NSM Bank Facility accrues at a floating interest rate equal to the three month LIBOR or the Prime Rate, as published by the Wall Street Journal plus, in each case, an applicable margin. The margin over LIBOR may vary between 4.25% and 4.75%, and the margin over the Prime Rate may vary between 3.25% and 3.75%, in each case, depending on the consolidated total leverage ratio of the borrower.

On June 15, 2018, NSM entered into an interest rate swap agreement to hedge its exposure to interest rate risk on its variable rate term loans. Under the terms of the swap agreement, NSM pays a fixed rate of 2.97% and receives a variable rate, which is reset monthly, based on then-current LIBOR. The variable rate received by NSM under the swap agreement was 2.07% at June 30, 2018. As of June 30, 2018, NSM's blended interest rate on the outstanding term loan principal amount of \$151.0 million was 6.84%, and 7.47% after consideration of the interest rate swap. See Note 7 — "Derivatives — NSM Interest Rate Swap".

The NSM Bank Facility is secured by all property of the loan parties and contains various affirmative, negative and financial covenants that White Mountains considers to be customary for such borrowings, including a maximum consolidated leverage ratio covenant.

MediaAlpha Bank Facility

On May 12, 2017, MediaAlpha entered into a secured credit facility (the "MediaAlpha Bank Facility") with Western Alliance Bank, which had a total commitment of \$20.0 million and had a maturity date of May 12, 2020. On October

5, 2017, MediaAlpha refinanced the MediaAlpha Bank Facility in order to fund the acquisition of certain assets associated with the Health, Life and Medicare insurance business of Healthplans.com. The total commitment of the MediaAlpha Bank Facility was increased to \$28.4 million and has a maturity date of October 6, 2020. The MediaAlpha Bank Facility consists of a \$18.4 million term loan facility, which has an outstanding balance of \$15.9 million as of June 30, 2018, and a revolving loan facility for \$10.0 million, which has an outstanding balance of \$4.0 million as of June 30, 2018.

The MediaAlpha Bank Facility carries a variable interest rate that is based on the Prime Rate, as published by the Wall Street Journal, plus a spread of 1.5% on the term loan facility and 0.25% on the revolving credit facility as of June 30, 2018.

During the three and six months ended June 30, 2018, MediaAlpha repaid \$0.7 million and \$2.0 million on the term loan and \$1.0 million and \$2.0 million on the revolving loan under the MediaAlpha Bank Facility.

The MediaAlpha Bank Facility is secured by intellectual property and the common stock of MediaAlpha's subsidiaries, and contains various affirmative, negative and financial covenants that White Mountains considers to be customary for such borrowings, including a fixed charge coverage ratio and an asset coverage ratio covenant.

Other

On December 12, 2016, in connection with the acquisition of a wholly-owned subsidiary, NSM assumed a secured term loan facility with Ageas Insurance Limited, which has a maturity date of May 11, 2024. As of June 30, 2018, the secured term loan facility has an outstanding balance of \$2.3 million.

Compliance

At June 30, 2018, White Mountains was in compliance with the covenants under all of its debt instruments.

Note 6. Income Taxes

The Company and its Bermuda domiciled subsidiaries are not subject to Bermuda income tax under current Bermuda law. If there is a change in the law to impose tax, the Company and its Bermuda domiciled subsidiaries would be exempt from such tax until March 31, 2035, pursuant to the Bermuda Exempted Undertakings Tax Protection Act of 1966. The Company has subsidiaries and branches that operate in various other jurisdictions around the world that are subject to tax in the jurisdictions in which they operate. The jurisdictions in which the Company's subsidiaries and branches are subject to tax are Barbados, Gibraltar, Ireland, Israel, Luxembourg, the United Kingdom and the United States.

White Mountains's income tax expense related to pre-tax loss from continuing operations for the three and six months ended June 30, 2018 represented an effective tax rate of (20.2)% and (4.1)%. The effective tax rate was different from the current U.S. statutory rate of 21%, primarily due to a full valuation allowance on most of the net deferred tax assets at U.S. operations, withholding taxes and a tax benefit recorded at BAM. For BAM, member surplus contributions ("MSC") and the related taxes thereon are recorded directly to non-controlling interest equity, while the valuation allowance on such taxes is recorded through the income statement. For the three and six months ended June 30, 2018, BAM recorded a tax benefit of \$1.6 million and \$2.2 million associated with the valuation allowance on taxes related to MSC that is included in the effective tax rate.

White Mountains's income tax benefit related to pre-tax loss from continuing operations for the three and six months ended June 30, 2017 represented an effective tax rate of 45.5% and 22.4%. The effective tax rate was different from the 2017 U.S. statutory rate of 35%, primarily due to a full valuation allowance on all net deferred tax assets at U.S. operations, pre-tax loss from continuing operations being near break-even and a tax benefit recorded at BAM. For BAM, MSC and the related taxes thereon are recorded directly to non-controlling interest equity, while the valuation allowance on such taxes is recorded through the income statement. For the three and six months ended June 30, 2017, BAM recorded a tax benefit of \$2.1 million and \$4.8 million associated with the valuation allowance on taxes related to MSC that is included in the effective tax rate.

In arriving at the effective tax rate for the three and six months ended June 30, 2018 and 2017, White Mountains forecasted all income and expense items including the change in unrealized investment gains (losses) and realized investment gains (losses) for the years ending December 31, 2018 and 2017.

White Mountains records a valuation allowance against deferred tax assets if it becomes more likely than not that all or a portion of a deferred tax asset will not be realized. Changes in valuation allowances from period to period are included in income tax expense in the period of change. In determining whether or not a valuation allowance, or change therein, is warranted, White Mountains considers factors such as prior earnings history, expected future earnings, carryback and carryforward periods and strategies that if executed would result in the realization of a deferred tax asset.

With few exceptions, White Mountains is no longer subject to U.S. federal, state, or non-U.S. income tax examinations by tax authorities for years before 2013.

Note 7. Derivatives

NSM Interest Rate Swap

On May 11, 2018, NSM entered into the NSM Bank Facility. Interest on the NSM Bank Facility accrues at a floating interest rate equal to the three month LIBOR or the Prime Rate, as published by the Wall Street Journal plus, in each case, an applicable margin. The margin over LIBOR may vary between 4.25% and 4.75%, and the margin over the Prime Rate may vary between 3.25% and 3.75%, in each case, depending on the consolidated total leverage ratio of the borrower.

On June 15, 2018, NSM entered into an interest rate swap agreement to hedge its exposure to interest rate risk on its variable rate term loans. Under the terms of the swap agreement, NSM pays a fixed rate of 2.97% and receives a variable rate, which is reset monthly, based on then-current LIBOR. The variable rate received by NSM under the swap agreement was 2.07% at June 30, 2018. Over the term of the swap, the notional amount decreases in accordance with the principal repayments NSM expects to make on its term loans. As of June 30, 2018, NSM's blended interest rate on the outstanding term loan principal amount of \$151.0 million was 6.84%, and 7.47% after consideration of the interest rate swap. NSM's obligations under the swap are secured by the same collateral securing the NSM Bank Facility on a pari passu basis. NSM does not currently hold any collateral deposits from or provide any collateral deposits to the swap counterparty.

NSM evaluated the effectiveness of the swap to hedge its interest rate risk associated with its variable rate debt and concluded at the swap inception date that the swap was highly effective in hedging that risk. NSM will evaluate the effectiveness of the hedging relationship on an ongoing basis.

For the three and six months ended June 30, 2018, NSM recognized net interest expense of \$0.1 million for the periodic net settlement payment on the swap. As of June 30, 2018, the estimated fair value of the swap and the accrual of the periodic net settlement payment recorded in other liabilities was \$1.2 million. There was no ineffectiveness in the hedge for the three and six months ended June 30, 2018. Accordingly, the full amount of the change in the fair value of the swap of \$1.1 million was recorded in other comprehensive income.

Foreign Currency Forward Contracts

White Mountains's investment portfolio includes investments denominated in Japanese Yen, Euros, GBP and other foreign currencies. White Mountains previously entered into foreign currency forward contracts to manage its foreign currency exposure related to these investments. In the first quarter of 2018, in conjunction with the liquidation of the GBP investment grade corporate bond mandate, White Mountains closed the associated foreign currency forward contract. White Mountains no longer has any open foreign currency forward contracts. As of December 31, 2017, White Mountains held \$206.3 million total gross notional value of a foreign currency forward contract with a carrying value of \$(3.7) million.

The derivative (losses) gains recognized in net realized and unrealized investment gains (losses) for the six months ended June 30, 2018 were \$(3.5) million. The derivative (losses) gains recognized in net realized and unrealized investment gains (losses) for the three and six months ended June 30, 2017 were \$(10.2) million and \$(13.0) million.

Note 8. Municipal Bond Guarantee Insurance

In 2012, HG Global was capitalized with \$594.5 million from White Mountains and \$14.5 million from non-controlling interests to fund BAM, a newly formed mutual municipal bond insurer. As of June 30, 2018, White Mountains owned 96.9% of HG Global's preferred equity and 88.4% of its common equity. HG Global, together with its subsidiaries, provided the initial capitalization of BAM through the purchase of \$503.0 million of BAM Surplus Notes. At inception, BAM and HG Re also entered into a first loss reinsurance treaty ("FLRT"). HG Re provides first loss reinsurance protection up to 15% of par outstanding on each municipal bond insured by BAM. In return, BAM cedes 60% of the risk premium charged for insuring the municipal bond, net of a ceding commission. During 2017, HG Global and BAM made certain changes to the ceding commission arrangements under the FLRT. These changes serve to accelerate growth in BAM's statutory capital but do not impact the net risk premium ceded from BAM to HG Re. HG Re's obligations to BAM are collateralized in trusts, and there is an aggregate loss limit that is equal to the total assets in the collateral trusts at any point in time.

The interest rate on the BAM Surplus Notes for the five years ending December 31, 2018 is a variable rate equal to the one-year U.S. treasury rate plus 300 basis points, set annually, which is 4.60% for 2018 and was 3.78% for 2017. Prior to the end of 2018, BAM has the option to extend the variable rate period for an additional three years. At the end of the variable rate period, the interest rate will be fixed at the higher of the then current variable rate or 8.0%. No payment of interest or principal on the BAM Surplus Notes may be made without the approval of the New York State Department of Financial Services ("NYDFS"). BAM has stated its intention to seek regulatory approval to pay interest and principal on its surplus notes only to the extent that its remaining qualified statutory capital and other capital resources continue to support its outstanding obligations, business plan and its AA stable rating from S&P. BAM repaid \$4.0 million of the BAM Surplus Notes and \$1.0 million of the related accrued interest during the year ended December 31, 2017. There were no repayments for the three and six months ended June 30, 2018.

In order to further support BAM's long-term capital position and business prospects, in 2017 HG Global agreed to contribute the \$203.0 million of Series A BAM Surplus Notes ("Series A Notes") into the supplemental collateral trust (the "Supplemental Trust") at HG Re. The Supplemental Trust already held the \$300.0 million of Series B BAM Surplus Notes ("Series B Notes"). Assets held in the Supplemental Trust serve to collateralize HG Re's obligations to BAM under the FLRT. HG Global and BAM also changed the payment terms of the Series B Notes, so that payments will reduce principal and accrued interest on a pro rata basis, consistent with the payment terms on the Series A Notes. The terms of the Series B Notes had previously stipulated that payments would first reduce interest owed, then reduce principal owed once all accrued interest had been paid. The Supplemental Trust target balance is equal to approximately \$603.0 million. As the BAM Surplus Notes are repaid over time, the BAM Surplus Notes will be replaced in the Supplemental Trust by cash and fixed income securities. The collateral trust balances must be at target levels before capital can be distributed out of the Supplemental Trust. In connection with the contribution, the Series A Notes were merged with the Series B Notes.

As of June 30, 2018 and December 31, 2017, the collateral trusts held assets of \$735.6 million and \$715.1 million, which both included \$499.0 million of BAM Surplus Notes. As of June 30, 2018 and December 31, 2017, HG Global has accrued \$137.5 million and \$126.0 million of interest receivable on the BAM Surplus Notes.

The following table presents a schedule of BAM's insured obligations:

In April 2018, BAM entered into a collateralized financial guarantee excess of loss reinsurance agreement with Fidus Re, a special purpose insurer. The agreement has a term of twelve years, but is callable by BAM after five years, and covers all policies written prior to December 31, 2017, excluding non-investment grade bonds and surety policies. Under the agreement, BAM retains the first \$165.0 million of aggregate losses, before giving effect to HG's reinsurance coverage, on the ceded business. Losses above BAM's \$165.0 million retention will be split pro rata between BAM and Fidus Re, with BAM retaining 10% and Fidus Re assuming the remaining 90% of the losses under the agreement. The losses covered under the agreement may not exceed the principal and interest amount of the underlying bond guarantee during the risk period. The aggregate loss limit under the agreement is \$276.1 million. Because the agreement does not meet the risk transfer requirements necessary to be accounted for as reinsurance, the agreement is accounted for using deposit accounting and any related financing expenses are recorded in general and administrative expenses.

Note 9. Earnings Per Share

White Mountains calculates earnings per share using the two-class method, which allocates earnings between common shares and unvested restricted common shares. Both classes of shares participate equally in dividends and earnings on a per share basis. Basic earnings per share amounts are based on the weighted average number of common shares outstanding adjusted for unvested restricted common shares.

The following table presents the Company's computation of earnings per share from continuing operations for the three months ended June 30, 2018 and 2017. See Note 16 — "Held for Sale and Discontinued Operations".

Note 10. Employee Share-Based Incentive Compensation Plans

White Mountains's Long-Term Incentive Plan (the "WTM Incentive Plan") provides for grants of various types of share-based and non share-based incentive awards to key employees of White Mountains. As of June 30, 2018, White Mountains's share-based compensation incentive awards consist of performance shares and restricted shares.

Performance Shares

Performance shares are conditional grants of a specified maximum number of common shares or an equivalent amount of cash. Awards generally vest at the end of a three-year period, are subject to the attainment of pre-specified performance goals, and are valued based on the market value of common shares at the time awards are approved for payment.

The following table presents the performance share activity for the three and six months ended June 30, 2018 and 2017 for performance shares granted under the WTM Incentive Plan:

	Three Months Ended June 30,				Six Months Ended June 30,

⁽¹⁾ WTM performance share payments in 2018 for the 2015-2017 performance cycle, which were paid in March 2018, ranged from 145% to 147% of target. WTM performance share payments in 2017 for the 2014-2016 performance cycle, which were paid in March 2017, ranged from 34% to 76% of target.

⁽²⁾ Amounts include changes in assumed forfeitures, as required under GAAP.

⁽³⁾ Outstanding performance share awards as of June 30, 2017 excludes 2,195 performance share awards granted to employees of Sirius Group.

For performance shares earned in the 2015-2017 and 2014-2016 performance cycles, all performance shares earned were settled in cash. If all the outstanding WTM performance shares had vested on June 30, 2018, the total additional compensation cost to be recognized would have been \$23.4 million, based on accrual factors (common share price and payout assumptions) at June 30, 2018.

The following table presents performance shares outstanding and accrued expense for performance shares awarded under the WTM Incentive Plan at June 30, 2018 for each performance cycle:

⁽¹⁾ Restricted share awards outstanding as of June 30, 2017 includes 2,195 restricted shares issued to employees of Sirius Group, which was accounted for as discontinued operations.

During the first quarter of 2018, White Mountains issued 13,450 restricted shares that vest on January 1, 2021, 290 restricted shares that vest on January 1, 2020 and 365 restricted shares that vest on January 1, 2019. During the second quarter of 2017, White Mountains issued 550 restricted shares that vest on January 1, 2020, 250 restricted shares that vest on January 1, 2019 and 250 restricted shares that vest on January 1, 2018. During the first quarter of 2017, White Mountains issued 16,735 restricted shares that vest on January 1, 2020. The unamortized issue date fair value at June 30, 2018 is expected to be recognized ratably over the remaining vesting periods.

Non-Qualified Options

As of January 20, 2017, the 125,000 Non-Qualified options issued to the Company's former Chairman and CEO were exercised. During the first quarter of 2017, 40,000 Non-Qualified Options, with an intrinsic value of \$4.4 million, were exercised in exchange for 5,142 common shares with an equal total market value. The intrinsic value represents the difference between the market price of the Company's common shares at the date of exercise and the fixed strike price of \$742 per common share. The Non-Qualified Options were fully amortized as of 2011.

MediaAlpha Class B Unit Awards

MediaAlpha has issued Class B unit awards to certain employees. The units entitle the award recipient to participate in distributions from MediaAlpha, subject to a cumulative distribution threshold, which is a performance condition, and a service period. The grant date fair value of the awards is determined when it is deemed probable that the distribution threshold will be met. The service period ranges from 36 months to 48 months. For the three and six months ended June 30, 2018, MediaAlpha recognized \$0.3 million and \$6.7 million of compensation expense for the vested portion of the awards for which achievement of the performance award is now probable, and \$0.3 million of unearned compensation expense for unvested awards, which will be recognized over the remaining service periods of the awards.

Note 11. Non-controlling Interests

Non-controlling interests consist of the ownership interests of non-controlling shareholders in consolidated entities and are presented separately on the balance sheet.

The following table presents the balance of non-controlling interests included in White Mountains's total equity and the related percentage of each consolidated entity's total equity owned by non-controlling shareholders as of June 30, 2018 and December 31, 2017:

Note 12. Segment Information

White Mountains has determined that its reportable segments are HG Global/BAM, NSM, MediaAlpha and Other Operations. White Mountains has made its segment determination based on consideration of the following criteria: (i) the nature of the business activities of each of the Company's subsidiaries and affiliates; (ii) the manner in which the Company's subsidiaries and affiliates are organized; (iii) the existence of primary managers responsible for specific subsidiaries and affiliates; and (iv) the organization of information provided to the chief operating decision makers and the Board of Directors.

Significant intercompany transactions among White Mountains's segments have been eliminated herein. The following table presents the financial information for White Mountains's segments:

Note 13. Investments in Unconsolidated Entities

White Mountains's investments in unconsolidated entities are included within other long-term investments and consist of investments in common equity securities or similar instruments, which give White Mountains the ability to exert significant influence over the investee's operating and financial policies ("equity method eligible unconsolidated entities"). Such investments may be accounted for under either the equity method or, alternatively, White Mountains may elect to account for them under the fair value option.

The following table presents the carrying values of investments in equity method eligible unconsolidated entities recorded within other long-term investments:

Millions	June 30, 2018	December 31, 2017
Equity method eligible private equity securities, at fair value	\$82.7	\$ 58.0

(1) At June 30, 2018, White Mountains's ownership interest in PassportCard comprised a 25% direct ownership interest and a 25% indirect interest through DavidShield. At December 31, 2017, White Mountains's ownership interest was a 50% direct ownership interest. See Note 2 — “Significant Transactions”.

Note 14. Fair Value of Financial Instruments

White Mountains accounts for all its financial instruments at fair value with the exception of the NSM Bank Facility and the MediaAlpha Bank Facility, which are recorded as debt at face value less unamortized original issue discount. The following table presents the fair value and carrying value of this financial instrument as of June 30, 2018 and December 31, 2017:

Millions	June 30, 2018		December 31, 2017	
	Fair Value	Carrying Value	Fair Value	Carrying Value
NSM Bank Facility	\$150.6	\$147.5	\$—	\$—
MediaAlpha Bank Facility	\$20.0	\$19.8	\$23.9	\$23.8

The fair value estimate for the MediaAlpha Bank Facility has been determined based on a discounted cash flows approach and is considered to be a Level 3 measurement.

Note 15. Contingencies

Legal Contingencies

White Mountains is subject to litigation and arbitration in the normal course of business. White Mountains considers the requirements of ASC 450 when evaluating its exposure to litigation and arbitration. ASC 450 requires that accruals be established for litigation and arbitration if it is probable that a loss has been incurred and it can be reasonably estimated. ASC 450 also requires that litigation and arbitration be disclosed if it is probable that a loss has been incurred or if there is a reasonable possibility that a loss may have been incurred. White Mountains does not have any current litigation that may have a material adverse effect on White Mountains's financial condition, results of operations or cash flows.

The following description presents significant legal contingencies, ongoing non-claims related litigation or arbitration as of June 30, 2018:

Sirius Group Tax Contingencies

A subsidiary of Sirius Group, which was sold by White Mountains in 2016, has been denied interest deductions by the Swedish Tax Authority ("STA") for tax years 2013-2016. The Swedish subsidiary has filed an appeal in the Swedish Administrative Court for tax year 2013 and will preserve its right to contest the STA's decision for later years if needed. White Mountains believes that Sirius Group's Swedish subsidiary will prevail in the court proceedings. However, if the ultimate decision in the Swedish courts is unfavorable, White Mountains would be required to indemnify Sirius Group for the tax effect of the interest deductions, which is approximately \$17.3 million.

NSM Contingent Liabilities

In connection with White Mountains's acquisition of NSM, White Mountains and NSM entered into an agreement with AIG to facilitate a sale of NSM's U.S. collector car renewal rights owned by AIG to a third party by December 31, 2019. Under the terms of the agreement, if White Mountains and NSM are unable to facilitate a sale by December 31, 2019, AIG has the right to require NSM to purchase the renewal rights for \$82.5 million. The Company has guaranteed NSM's obligations under the agreement with AIG. The manner in which these obligations are ultimately discharged depends on a number of factors, including the market value of the renewal rights, the number of potential buyers and the current and prospective environment for U.S. collector car insurance. White Mountains believes that the estimated fair value of the renewal rights is greater than \$82.5 million and, accordingly, no accrual of a liability is necessary at June 30, 2018.

Note 16. Held for Sale and Discontinued Operations

OneBeacon

On September 28, 2017, Intact Financial Corporation completed its acquisition of OneBeacon in an all-cash transaction for \$18.10 per share. White Mountains received total proceeds of \$1.3 billion and recorded a gain of \$554.6 million, net of transaction costs. During the three and six months ended June 30, 2017, net income from discontinued operations related to OneBeacon was \$3.4 million and \$35.7 million.

Tranzact

On July 21, 2016, White Mountains completed its sale of Tranzact to Clayton, Dubilier & Rice, LLC. During the six months ended June 30, 2017, White Mountains recorded a \$1.0 million reduction to the gain from sale of Tranzact in discontinued operations as a result of 2016 state tax payments.

Sirius Group

On April 18, 2016, White Mountains completed the sale of Sirius Group to CMI. During the six months ended June 30, 2018, White Mountains recorded a \$0.1 million gain from the sale of Sirius Group as a result of a change to the valuation of the accrued incentive compensation payable to Sirius Group employees. During the three and six months ended June 30, 2017, White Mountains recorded a \$0.6 million reduction to the gain from sale of Sirius Group as a result of a change to the valuation of the accrued incentive compensation payable to Sirius Group employees.

Other

As of December 31, 2017, White Mountains has classified its Guilford, Connecticut property, which consists of an office building and adjacent land, as held for sale. The property has been measured at its estimated fair value net of costs of disposal, of \$3.3 million as of June 30, 2018 and December 31, 2017.

Net Income (Loss) from Discontinued Operations

For the six months ended June 30, 2018, the \$0.1 million gain recorded within discontinued operations relates to Sirius Group. The following table presents the results of operations, including related income taxes, associated with the business classified as discontinued operations for the three and six months ended June 30, 2017. For the three and six months ended June 30, 2017, the amounts presented relate to OneBeacon and Tranzact. The results of discontinued operations from Sirius Group and Tranzact up to the closing date of the transaction inured to White Mountains. Given the fixed price nature of the OneBeacon Transaction, OneBeacon's results were economically transferred to the buyer at signing.

Earnings Per Share from Discontinued Operations

White Mountains calculates earnings per share using the two-class method, which allocates earnings between common and unvested restricted common shares. Both classes of shares participate equally in earnings on a per share basis. Basic earnings per share amounts are based on the weighted average number of common shares outstanding adjusted for unvested restricted common shares. Diluted earnings per share amounts are also impacted by the net effect of potentially dilutive common shares outstanding.

The following table presents the Company's computation of earnings per share for discontinued operations for the three and six months ended June 30, 2018 and 2017:

⁽¹⁾ Restricted shares issued by White Mountains contain dividend participation features, and therefore, are considered participating securities.

⁽²⁾ Net earnings attributable to White Mountains's common shareholders, net of restricted share amounts, is equal to undistributed earnings for the three and six months ended June 30, 2018 and 2017.

⁽³⁾ Restricted common shares outstanding vest either in equal annual installments or upon a stated date. See Note 10 — "Employee Share-Based Incentive Compensation Plans".

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion contains "forward-looking statements". White Mountains intends statements that are not historical in nature, which are hereby identified as forward-looking statements, to be covered by the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. White Mountains cannot promise that its expectations in such forward-looking statements will turn out to be correct. White Mountains's actual results could be materially different from and worse than its expectations. See "FORWARD-LOOKING STATEMENTS" for specific important factors that could cause actual results to differ materially from those contained in forward-looking statements.

The following discussion also includes four non-GAAP financial measures (i) adjusted book value per share, (ii) gross written premiums and member surplus contributions ("MSC") from new business (iii) adjusted capital, and (iv) adjusted earnings before interest, taxes, depreciation and amortization, and non-cash equity-based compensation expense ("Adjusted EBITDA"), that have been reconciled from their most comparable GAAP financial measures on page 61. White Mountains believes these measures to be useful in evaluating White Mountains's financial performance and condition.

RESULTS OF OPERATIONS FOR THE THREE AND SIX MONTHS ENDED JUNE 30, 2018 AND 2017

Overview

White Mountains is engaged in the business of making opportunistic and value-oriented acquisitions of businesses and assets in the insurance, financial services and related sectors, operating these businesses and assets through our subsidiaries and, if and when attractive exit valuations become available, disposing of these businesses and assets. White Mountains ended the second quarter of 2018 with book value per share of \$924 and adjusted book value per share of \$912. Book value per share and adjusted book value per share both increased 1% in the second quarter of 2018. Book value per share decreased 1% and adjusted book value per share was near break-even in the first six months of 2018, including dividends.

On May 11, 2018, White Mountains acquired 95% of NSM Insurance HoldCo, LLC, a specialty insurance managing general agency and program administrator, and its wholly-owned subsidiaries (collectively, "NSM"). White Mountains paid \$274 million of cash consideration, subject to a customary purchase price adjustment, for its equity interest in NSM. Subsequently, on May 18, 2018, NSM acquired 100% of Fresh Insurance Services Group Limited ("Fresh Insurance"), an insurance broker that specializes in non-standard personal lines, motor trade, van, and travel insurance in the United Kingdom. NSM paid GBP 37 million (approximately \$50 million based on the spot rate at the date of acquisition) of upfront cash consideration for its equity interest in Fresh Insurance.

During the second quarter of 2018, White Mountains repurchased and retired 575,068 of its common shares for \$505 million at an average price per share of \$878, or approximately 95% of White Mountains's June 30, 2018 book value per share and approximately 96% of White Mountains's June 30, 2018 adjusted book value per share.

Gross written premiums and MSC in the HG Global/BAM segment totaled \$29 million and \$40 million in the second quarter and first six months of 2018, compared to \$20 million and \$48 million in the second quarter and first six months of 2017. BAM insured municipal bonds with par value of \$3.1 billion and \$4.4 billion in the second quarter and first six months of 2018, compared to \$2.7 billion and \$5.1 billion in the second quarter and first six months of 2017. Total pricing, which is gross written premiums and MSC adjusted to include the present value of future installment MSC not yet collected and to exclude the impact of gross written premium adjustments on existing policies, weighted by the par value of municipal bonds insured, was 101 and 100 basis points in the second quarter and first six months of 2018, compared to 79 and 98 basis points in the second quarter and first six months of 2017. BAM's total claims paying resources were \$827 million at June 30, 2018, compared to \$708 million at December 31, 2017 and \$676 million at June 30, 2017. The increase in claims paying resources was primarily driven by the \$100 million reinsurance agreement BAM entered into with Fidus Reinsurance Ltd. ("Fidus Re"), in the second quarter of 2018.

MediaAlpha reported pre-tax income of \$5 million and \$4 million in the second quarter and first six months of 2018, compared to pre-tax loss of \$2 million and \$3 million in the second quarter and first six months of 2017. MediaAlpha's adjusted EBITDA was \$8 million and \$17 million in the second quarter and first six months of 2018, compared to \$1 million and \$3 million in the second quarter and first six months of 2017. MediaAlpha reported revenues of \$72 million and \$144 million in the second quarter and first six months of 2018, compared to \$31 million and \$63 million in the second quarter and first six months of 2017. The increases in pre-tax income, adjusted EBITDA and revenues for both periods were primarily driven by growth in the P&C vertical and the Health, Medicare and Life vertical, which includes the impact of the acquisition of assets from Healthplans.com in the fourth quarter of 2017.

The pre-tax total return on invested assets was 0.7% and -0.3% in the second quarter and first six months of 2018 compared to 1.4% and 2.9% in the second quarter and first six months of 2017.

White Mountains's fixed income portfolio returned 0.3% and -0.4% in the second quarter and first six months of 2018, and 1.1% and 2.1% in the second quarter and first six months of 2017, outperforming the longer duration Bloomberg Barclays U.S. Intermediate Aggregate Index returns for the comparable periods, as the short duration positioning of the fixed income portfolio helped mitigate the impact of higher interest rates in each period.

White Mountains's portfolio of common equity securities returned 2.1% and 1.2% in the second quarter and first six months of 2018, underperforming the S&P 500 Index return of 3.4% and 2.6%, primarily due to underperformance in White Mountains's international common stock positions. White Mountains's portfolio of common equity securities returned 4.2% and 9.6% in the second quarter and first six months of 2017, outperforming the S&P 500 Index return of 3.1% and 9.3%, as White Mountains's third party investment managers each outperformed their respective benchmarks.

White Mountains's other long-term investments portfolio returned 0.1% and -2.7% in the second quarter and first six months of 2018. The results for the second quarter of 2018 were primarily attributable to gains from a hedge fund, partially offset by losses from private equity funds, while the results for the first six months of 2018 were primarily attributable to losses from foreign currency forward contracts, which were closed during the first quarter, and unconsolidated private capital investments. White Mountains's other long-term investments portfolio returned -1.4% and -0.5% for the second quarter and first six months of 2017. The results for the second quarter of 2017 were primarily attributable to losses from foreign currency forward contracts, while the results for the first six months of 2017 were primarily attributable to unconsolidated private capital investments and foreign currency forward contracts, as well as unfavorable mark-to-market adjustments to the OneBeacon surplus notes.

Adjusted Book Value Per Share

During the second quarter of 2017, White Mountains changed its calculation of adjusted book value per share (i) to include a discount for the time value of money arising from the expected timing of cash payments of principal and interest on the BAM Surplus Notes and (ii) to add back the unearned premium reserve, net of deferred acquisition costs, at HG Global. See NON-GAAP FINANCIAL MEASURES on page 61.

The following table presents White Mountains's book value per share and reconciles it to adjusted book value per share, a non-GAAP measure.

I. Summary of Operations By Segment

White Mountains conducts its operations through four segments: (1) HG Global/BAM, (2) NSM, (3) MediaAlpha and (4) Other Operations. A discussion of White Mountains's consolidated investment operations is included after the discussion of operations by segment. White Mountains's segment information is presented in Note 12 — "Segment Information" to the Consolidated Financial Statements.

HG Global/BAM Results—Three Months Ended June 30, 2018 versus Three Months Ended June 30, 2017

BAM reports on a statutory accounting basis to the NYDFS and does not report stand-alone GAAP financial results. BAM is owned by its members, the municipalities that purchase BAM's insurance for their debt issuances. BAM charges an insurance premium on each municipal bond insurance policy it writes. A portion of the premium is MSC and the remainder is risk premium. In the event of a municipal bond refunding, the MSC from the original issuance can be reutilized, in effect serving as a credit against the total insurance premium on the refunding of the municipal bond. Issuers of debt insured by BAM are members of BAM so long as any of their BAM-insured debt is outstanding, and as members they have certain interests in BAM, including the right to vote for BAM's directors and to receive dividends in the future, if declared.

Gross written premiums and MSC in the HG Global/BAM segment were \$29 million during the second quarter of 2018, compared to \$20 million during the second quarter of 2017. BAM's insured volume in the second quarter of 2017 was negatively impacted by the rating uncertainty that occurred following S&P placing BAM on credit watch negative on June 6, 2017 and initiating a detailed review of BAM's financial strength rating. On June 26, 2017, S&P concluded its review and affirmed BAM's "AA/Stable" financial strength rating.

BAM insured \$3.1 billion of municipal bonds, \$2.8 billion of which were in the primary market, during the second quarter of 2018, compared to \$2.7 billion of municipal bonds, \$2.6 billion of which were in the primary market, during the second quarter of 2017. Total pricing, which is gross written premiums and MSC adjusted to include the present value of future installment MSC not yet collected and to exclude the impact of gross written premium adjustments on existing policies, weighted by the par value of municipal bonds insured, was 101 basis points in the second quarter of 2018, up from 79 basis points in the second quarter of 2017. Pricing in the primary market decreased to 64 basis points in the second quarter of 2018 compared to 69 basis points in the second quarter of 2017.

The following table presents the gross par value of primary and secondary market policies issued, the gross written premiums plus MSC and total pricing for the three months ended June 30, 2018 and 2017:

HG Global reported GAAP pre-tax income of \$8 million in the second quarter of 2018, compared to \$7 million in the second quarter of 2017. Results during the second quarter of 2018 include \$6 million of interest income on the BAM Surplus Notes, compared to \$5 million of interest income during the second quarter of 2017.

BAM is a mutual insurance company that is owned by its members. BAM's results are consolidated into White Mountains's GAAP financial statements and attributed to non-controlling interests. White Mountains reported \$17 million of GAAP pre-tax loss from BAM in the second quarter of 2018, compared to \$12 million in the second quarter of 2017. The increase in pre-tax loss was primarily due to lower investment returns in the second quarter of 2018.

Results for the second quarter of 2018 include \$6 million of interest expense on the BAM Surplus Notes and \$13 million of general and administrative expenses, compared to \$5 million of interest expense and \$10 million of general and administrative expenses in the first quarter of 2017. The increase in general and administrative expenses was primarily due to financing expense from the reinsurance agreement with Fidus Re, which is accounted for using the deposit method under GAAP.

HG Global/BAM Results—Six Months Ended June 30, 2018 versus Six Months Ended June 30, 2017

Gross written premiums and MSC in the HG Global/BAM segment were \$40 million during the first six months of 2018, compared to \$48 million during the first six months of 2017, which decreased primarily due to a market wide decrease in new issuance volume during the first quarter of 2018, as the uncertainty over tax reform caused many issuers to pull forward planned 2018 issuance volume into 2017. Under tax laws effective in 2018, interest income received by investors on new bonds that are issued to refinance existing municipal bonds and are issued more than 90 days before the refinanced municipal bond is scheduled to be redeemed (“advance refundings”) are now treated as taxable income to the investor.

BAM insured \$4.4 billion of municipal bonds, \$3.9 billion of which were in the primary market, during the first six months of 2018, compared to \$5.1 billion of municipal bonds, \$4.6 billion of which were in the primary market, during the first six months of 2017. Total pricing, which is gross written premiums and MSC adjusted to include the present value of future installment MSC not yet collected and to exclude the impact of gross written premium adjustments on existing policies, weighted by the par value of municipal bonds insured, was 100 basis points in the first six months of 2018, up from 98 basis points in the first six months of 2017. Pricing in the primary market increased to 66 basis points in the first six months of 2018 compared to 65 basis points in the first six months of 2017.

The following table presents the gross par value of primary and secondary market policies issued, the gross written premiums plus MSC and total pricing for the six months ended June 30, 2018 and 2017:

HG Global reported GAAP pre-tax income of \$12 million in the first six months of 2018, compared to \$13 million in the first six months of 2017. The decrease in pre-tax income was primarily due to lower investment returns in the first six months of 2018. Results for the first six months of 2018 include \$12 million of interest income on the BAM Surplus Notes, compared to \$10 million of interest income in the first six months of 2017.

BAM is a mutual insurance company that is owned by its members. BAM's results are consolidated into White Mountains's GAAP financial statements and attributed to non-controlling interests. White Mountains reported \$36 million of GAAP pre-tax loss from BAM in the first six months of 2018, compared to \$24 million in the first six months of 2017. The increase in pre-tax loss was primarily due to lower investment returns in the first six months of 2018. Results for the first six months of 2018 include \$12 million of interest expense on the BAM Surplus Notes and \$25 million of general and administrative expenses, compared to \$10 million of interest expense and \$20 million of general and administrative expenses in the first six months of 2017. The increase in general and administrative expenses was primarily due to financing expense from the reinsurance agreement with Fidus Re, which is accounted for using the deposit method under GAAP.

Claims Paying Resources

BAM's "claims paying resources" represent the capital and other financial resources BAM has available to pay claims and, as such, is a key indication of BAM's financial strength. BAM's claims paying resources include BAM's qualified statutory capital, including MSC, net unearned premiums, contingency reserves, present value of future installment premiums and MSC, the first loss reinsurance protection provided by HG Re, which is collateralized and held in trusts, and the reinsurance protection provided by Fidus Re, which is collateralized and held in trust.

As of June 30, 2018, BAM's claims paying resources increased to \$827 million from \$708 million as of December 31, 2017. The increase was primarily driven by the \$100 million reinsurance agreement with Fidus Re. In April 2018, BAM expanded its claims paying resources by \$100 million through a collateralized reinsurance agreement with Fidus Re, a special-purpose insurer created solely to provide collateralized reinsurance protection to BAM.

The following table presents BAM's total claims paying resources as of June 30, 2018 and December 31, 2017:

As of June 30, 2017, BAM's claims paying resources increased to \$676 million from \$644 million as of December 31, 2016. The increase was primarily driven by a \$20 million increase in the HG Re collateral trusts and \$17 million of MSC, partially offset by BAM's statutory net loss for the six months ended June 30, 2017 of \$12 million.

The following table presents BAM's total claims paying resources as of June 30, 2017 and December 31, 2016:

NSM

On May 11, 2018, White Mountains acquired 95% of NSM, an insurance managing general agency and program administrator. White Mountains paid \$274 million of cash consideration, subject to a customary purchase price adjustment, for its equity interest in NSM. Subsequently, on May 18, 2018, NSM acquired 100% of Fresh Insurance, an insurance broker that specializes in non-standard personal lines, motor trade, van, and travel insurance in the United Kingdom. NSM paid GBP 37 million (approximately \$50 million based on the spot rate at the date of acquisition) of upfront cash consideration for its equity interest in Fresh Insurance. The purchase price is subject to adjustment based upon growth in EBITDA during two earnout periods ending in February 2020 and February 2022. NSM has recorded a liability for contingent consideration of GBP 6 million (approximately \$8 million based on the spot rate at the date of acquisition). NSM reported revenues of \$24 million and pre-tax income of \$3 million for the period from May 11, 2018 through June 30, 2018.

MediaAlpha Results—Three Months Ended June 30, 2018 versus Three Months Ended June 30, 2017

MediaAlpha reported GAAP pre-tax income of \$5 million and adjusted EBITDA of \$8 million in the second quarter of 2018, compared to GAAP pre-tax loss of \$2 million and adjusted EBITDA of \$1 million in the second quarter of 2017. MediaAlpha reported revenues of \$72 million in the second quarter of 2018, compared to \$31 million in second quarter of 2017. The increase in GAAP pre-tax income, adjusted EBITDA and revenues were primarily driven by growth in MediaAlpha's P&C verticals, driven by increased volume from key strategic publishers and improving demand from advertisers, and growth in the Health, Medicare and Life vertical, driven by strong contributions from assets acquired from Healthplans.com in the fourth quarter of 2017. Revenues from MediaAlpha's P&C verticals were

\$42 million in the second quarter of 2018, compared to \$19 million in the second quarter of 2017, while revenues from the Health, Medicare and Life vertical were \$20 million in the second quarter of 2018 compared to \$8 million in the second quarter of 2017. MediaAlpha's cost of sales is comprised primarily of revenue share based payments to partners, which are correlated to and vary with revenue volume. Cost of sales were \$60 million in the second quarter of 2018, compared to \$26 million in the second quarter of 2017. MediaAlpha's general and administrative expenses were \$5 million in the second quarter of 2018, compared to \$4 million in the second quarter of 2017.

MediaAlpha Results—Six Months Ended June 30, 2018 versus Six Months Ended June 30, 2017

MediaAlpha reported GAAP pre-tax income of \$4 million and adjusted EBITDA of \$17 million in the first six months of 2018, compared to GAAP pre-tax loss of \$3 million and adjusted EBITDA of \$3 million in the first six months of 2017. MediaAlpha reported revenues of \$142 million in the first six months of 2018, compared to \$63 million in first six months of 2017. The increase in GAAP pre-tax income, adjusted EBITDA and revenues were primarily driven by growth in MediaAlpha's P&C verticals and Health, Medicare and Life vertical. Revenues from MediaAlpha's P&C verticals were \$82 million in the first six months of 2018, compared to \$40 million in the first six months of 2017, while revenues from the Health, Medicare and Life vertical were \$42 million in the first six months of 2018, compared to \$17 million in the first six months of 2017.

Cost of sales were \$117 million in the first six months of 2018, compared to \$54 million in the first six months of 2017. MediaAlpha's general and administrative expenses were \$16 million in the first six months of 2018, compared to \$7 million in the first six months of 2017. The increase was primarily driven by the recognition of non-cash equity-based compensation expense of \$7 million in the first six months of 2018.

Other Operations

The following table presents a summary of White Mountains's financial results from its Other Operations segment for the three and six months ended June 30, 2018 and 2017:

Other Operations Results—Three Months Ended June 30, 2018 versus Three Months Ended June 30, 2017

White Mountains's Other Operations segment reported pre-tax loss of \$11 million in the second quarter of 2018, compared to pre-tax income of \$4 million in the second quarter of 2017. The change was driven primarily by lower investment returns in the second quarter of 2018, partially offset by a reduction in general and administrative expenses. White Mountains's Other Operations segment reported \$13 million of net realized and unrealized investment gains in the second quarter of 2018, compared to \$33 million of net realized and unrealized investment gains in the second quarter of 2017. White Mountains's Other Operations segment reported \$8 million of net investment income in the second quarter of 2018 compared to \$12 million of net investment income in the second quarter of 2017. The decrease in net investment income was primarily due to a smaller fixed maturity asset base. See Summary of Investment Results on page 51. General and administrative expenses were \$31 million in the second quarter of 2018, which included \$6 million of transaction costs related to the acquisition of NSM, compared to \$41 million in the second quarter of 2017, which included higher incentive compensation costs, primarily in connection with the sale of

OneBeacon and severance related to former company executives.

Other Operations Results—Six Months Ended June 30, 2018 versus Six Months Ended June 30, 2017

White Mountains's Other Operations segment reported pre-tax loss of \$62 million in the first six months of 2018, compared to pre-tax income of \$7 million in the first six months of 2017. The change was driven primarily by lower investment returns in the first six months of 2018, partially offset by a reduction in general and administrative expenses. White Mountains's Other Operations segment reported \$33 million of net realized and unrealized investment losses in the first six months of 2018, compared to \$68 million of net realized and unrealized investment gains in the first six months of 2017. White Mountains's Other Operations segment reported \$24 million of net investment income in the first six months of 2018, compared to \$22 million of net investment income in the first six months of 2017. See Summary of Investment Results on page 51. General and administrative expenses were \$53 million in the first six months of 2018, which included \$6 million of transaction costs related to the acquisition of NSM, compared to \$86 million in the first six months of 2017, which included higher incentive compensation costs, primarily in connection with the sale of OneBeacon and severance related to former company executives.

II. Summary of Investment Results

White Mountains's total investment results include continuing operations and discontinued operations. OneBeacon's investment results are included in discontinued operations for the first six months of 2017. For purposes of discussing rates of return, all percentages are presented gross of management fees and trading expenses in order to produce a better comparison to benchmark returns, while all dollar amounts are presented net of management fees and trading expenses.

The following table presents the pre-tax investment returns for White Mountains's consolidated portfolio, including the returns from discontinued operations, for the three and six months ended June 30, 2018 and 2017:

Gross Investment Returns and Benchmark Returns⁽¹⁾

	Three Months Ended		Six Months Ended

⁽¹⁾ For the 2018 periods, investment returns are calculated using a daily weighted average of investments held. For periods prior to 2018, investment returns are calculated using a quarterly weighted average of investments held.

Investment Returns—Three and Six Months Ended June 30, 2018 versus Three and Six Months Ended June 30, 2017
White Mountains's pre-tax total return on invested assets was 0.7% and -0.3% for the second quarter and first six months of 2018 compared to 1.4% and 2.9% for the second quarter and first six months of 2017. The returns for the second quarter of 2018 were driven primarily by White Mountains' exposure to ETFs, as the rebound in U.S. equity markets in the second quarter more than offset losses from international common equity securities. The returns for the first six months of 2018 were driven primarily by losses on the fixed maturity portfolio due to rising interest rates over the period. The returns for the second quarter and first six months of 2017 were driven primarily by strong common equity securities returns.

Fixed Income Results

White Mountains currently maintains a high quality, short-duration fixed income portfolio. As of June 30, 2018, the fixed income portfolio duration, including short-term investments, was 3.3 years compared to 3.4 years as of December 31, 2017 and 3.1 years as of June 30, 2017.

White Mountains's fixed income portfolio returned 0.3% and -0.4% for the second quarter and first six months of 2018, outperforming the Bloomberg Barclays U.S. Intermediate Aggregate Index return of 0.1% and -1.0%. White Mountains's fixed income portfolio returned 1.1% and 2.1% for the second quarter and first six months of 2017, outperforming the Bloomberg Barclays U.S. Intermediate Aggregate Index return of 0.9% and 1.6%. The short duration positioning of White Mountains's fixed income portfolio mitigated the adverse impact on returns of rising interest rates more effectively than the longer duration Bloomberg Barclays U.S. Intermediate Aggregate Index, which led to the outperformance in all periods presented.

In the fourth quarter of 2017, White Mountains established a U.S. investment grade corporate bond portfolio with Principal Global Investors, LLC ("Principal"), a third party manager. As of June 30, 2018, the fair value of the Principal investment grade corporate bond investments was \$239 million and the duration of the Principal investment grade corporate bond portfolio was approximately 4.4 years.

In the fourth quarter of 2016, White Mountains established a medium duration GBP investment grade corporate bond mandate with Legal & General Investment Management, Ltd. ("LGIM"), a third-party manager. White Mountains also entered into a foreign currency forward contract, which was recorded in other long-term investments, to manage its GBP foreign currency exposure relating to this mandate. In the first quarter of 2018, White Mountains liquidated the LGIM portfolio and closed the associated foreign currency forward contract.

In the third quarter of 2016, White Mountains established a relatively concentrated portfolio of high-yield fixed maturity investments managed by Principal. The portfolio was invested in issuers of U.S. dollar denominated publicly traded and 144A debt securities issued by corporations with generally at least one rating between "B-" and "BB+" inclusive by S&P or similar ratings from other rating agencies. As of June 30, 2018, the fair value of the Principal high-yield fixed maturity investments was \$96 million. In July 2018, White Mountains liquidated the Principal high-yield fixed maturity portfolio and reinvested the bulk of the proceeds into U.S. government securities.

Common Equity Securities and Other Long-Term Investments Results

White Mountains maintains a portfolio of common equity securities and other long-term investments. White Mountains's management believes that prudent levels of investments in common equity securities and other long-term investments are likely to enhance long-term after-tax total returns.

White Mountains's portfolio of common equity securities and other long-term investments returned 1.7% and 0.4% for the second quarter and first six months of 2018. White Mountains's portfolio of common equity securities and other long-term investments returned 2.5% and 6.3% for the second quarter and first six months of 2017. White Mountains's portfolio of common equity securities and other long-term investments represented approximately 45%, 32% and 26% of total invested assets as of June 30, 2018, December 31, 2017 and June 30, 2017. The increase in this percentage is primarily attributable to management's decision to add equity exposure over the period and a decline in the investment asset base due to the OneBeacon Transaction and share repurchase activity.

White Mountains's portfolio of common equity securities primarily consists of passive ETFs and publicly-traded common equity securities that are actively managed by third party managers. White Mountains's portfolio of common equity securities returned 2.1% and 1.2% for the second quarter and first six months of 2018, underperforming the S&P 500 Index return of 3.4% and 2.6%. White Mountains's portfolio of common equity securities returned 4.2% and 9.6% for the second quarter and first six months of 2017, outperforming the S&P 500 Index return of 3.1% and 9.3%. White Mountains's portfolio of ETFs seeks to provide investment results that, before expenses, generally correspond to the performance of broad market indices. As of June 30, 2018 and December 31, 2017, White Mountains had approximately \$622 million and \$570 million invested in ETFs. In the second quarter and first six months of 2018 and 2017, the ETFs essentially earned the effective index return, before expenses, over the period in which White Mountains was invested in these funds.

White Mountains's third party common equity manager relationships (the "actively managed common equity portfolios") have been with Silchester International Investors ("Silchester"), who invests in value-oriented non-U.S. equity securities

through a unit trust, and Lateef Investment Management, a growth at a reasonable price adviser managing a highly concentrated portfolio of mid-cap and large-cap growth companies. During the first quarter of 2017, White Mountains established a new third-party manager relationship with Lazard Asset Management (“Lazard”), to manage a Pan-European equity portfolio, of which the majority of the securities are denominated in Euros. In September 2017, White Mountains terminated its relationship with Lazard in order to concentrate its non-U.S. equity exposure in small to mid-cap international equities through other third-party managers. During the third quarter of 2017 and prior to terminating Lazard, White Mountains established a new third-party manager relationship with Highclere International Investors (“Highclere”), who invests in small to mid-cap equity securities listed in markets outside of the United States and Canada through a unit trust.

White Mountains's actively managed common equity portfolios returned -0.6% and -0.9% for the second quarter and first six months of 2018, underperforming the S&P 500 Index return of 3.4% and 2.6% for the comparable periods. The underperformance for both periods was primarily attributable to the non-U.S. third party managers. White Mountains's actively managed common equity portfolios returned 6.4% and 13.7% for the second quarter and first six months 2017, outperforming the S&P 500 Index return of 3.1% and 9.3% for the comparable periods. The outperformance for both periods was primarily attributable to each third party manager outperforming their respective benchmarks.

White Mountains entered into foreign currency forward contracts, which were recorded in other long-term investments, to manage its foreign currency exposure relating to the common equity portfolio managed by Lazard and a portion of the common equity portfolios managed by Silchester and Highclere. These foreign currency forward contracts were closed as of December 31, 2017.

White Mountains maintains a portfolio of other long-term investments that primarily consists of hedge funds, private equity funds and unconsolidated private capital investments. As of June 30, 2018, approximately 51% of these other long-term investments were in one long-short hedge fund and ten private equity funds, with a general emphasis on narrow, sector-focused funds.

White Mountains's other long-term investments portfolio returned 0.1% and -2.7% for the second quarter and first six months of 2018. The results for the second quarter of 2018 were primarily attributable to gains from the hedge fund, partially offset by losses from private equity funds. The results for the first six months of 2018 were primarily attributable to losses from the foreign currency forward contract closed during the first quarter and from unconsolidated private capital investments. White Mountains's other long-term investments portfolio returned -1.4% and -0.5% for the second quarter and first six months of 2017. The results for the second quarter of 2017 were primarily attributable to losses from foreign currency forward contracts while the results for the first six months of 2017 were primarily attributable to unconsolidated private capital investments and foreign currency forward contracts as well as unfavorable mark-to-market adjustments to the OneBeacon surplus notes.

Foreign Currency Exposure

As of June 30, 2018, White Mountains had gross foreign currency exposure on approximately \$278 million of net assets primarily relating to common equity securities managed by Silchester and Highclere, NSM's foreign operations including the acquisition of Fresh Insurance and various other consolidated and unconsolidated private capital investments.

White Mountains may enter into foreign currency forward contracts to mitigate its foreign currency exposure on certain invested assets. In the fourth quarter of 2017, White Mountains closed the foreign currency forward contracts associated with the investment assets managed by Silchester and Highclere. In the first quarter of 2018, in conjunction with the liquidation of the GBP investment grade corporate bond mandate managed by LGIM, White Mountains closed the associated foreign currency forward contract.

The following table presents the approximate fair value of White Mountains's foreign denominated assets as of June 30, 2018:

Currency ⁽¹⁾	Fair Value	% of Common Shareholders' Equity
\$ in millions		
GBP	\$97.1	3.3 %
JPY	60.6	2.1
EUR	51.3	1.8
All other	68.9	2.3
Total	\$277.9	9.5 %

⁽¹⁾ Includes net assets of NSM's foreign operations, Wobi and Buzzmove.

Income Taxes

The Company and its Bermuda domiciled subsidiaries are not subject to Bermuda income tax under current Bermuda law. If there is a change in the law to impose tax, the Company and its Bermuda domiciled subsidiaries would be exempt from such tax until March 31, 2035, pursuant to the Bermuda Exempted Undertakings Tax Protection Act of 1966. The Company has subsidiaries and branches that operate in various other jurisdictions around the world that are subject to tax in the jurisdictions in which they operate. The jurisdictions in which the Company's subsidiaries and branches are subject to tax are Barbados, Gibraltar, Ireland, Israel, Luxembourg, the United Kingdom and the United States.

White Mountains's income tax expense related to pre-tax loss from continuing operations for the three and six months ended June 30, 2018 represented an effective tax rate of (20.2)% and (4.1)%. The effective tax rate was different from the current U.S. statutory rate of 21%, primarily due to a full valuation allowance on most of the net deferred tax assets at U.S. operations, withholding taxes and a tax benefit recorded at BAM. For BAM, MSC and the related taxes thereon are recorded directly to non-controlling interest equity, while the valuation allowance on such taxes is recorded through the income statement. For both the three and six months ended June 30, 2018, BAM recorded a tax benefit of \$2 million associated with the valuation allowance on taxes related to MSC that is included in the effective tax rate. See Note 6 — "Income Taxes".

White Mountains's income tax benefit related to pre-tax loss from continuing operations for the three and six months ended June 30, 2017 represented an effective tax rate of 45.5% and 22.4%. The effective tax rate was different from the 2017 U.S. statutory rate of 35%, primarily due to a full valuation allowance on all net deferred tax assets at U.S. operations, pre-tax loss from continuing operations being near break-even and a tax benefit recorded at BAM. For BAM, MSC and the related taxes thereon are recorded directly to non-controlling interest equity, while the valuation allowance on such taxes is recorded through the income statement. For the three and six months ended June 30, 2017, BAM recorded a tax benefit of \$2 million and \$5 million associated with the valuation allowance on taxes related to MSC that is included in the effective tax rate. See Note 6 — "Income Taxes".

Discontinued Operations

OneBeacon

On September 28, 2017, White Mountains received \$1.3 billion in cash proceeds from the OneBeacon Transaction and recorded a gain of \$555 million, net of transaction costs. As a result of the OneBeacon Transaction, OneBeacon's results have been reported as discontinued operations within White Mountains's GAAP financial statements. In the second quarter and six months ended of 2017, White Mountains reported net income of \$3 million and \$36 million from OneBeacon in discontinued operations. See Note 16 — "Held for Sale and Discontinued Operations".

LIQUIDITY AND CAPITAL RESOURCES

Operating Cash and Short-term Investments

Holding Company Level. The primary sources of cash for the Company and certain of its intermediate holding companies are expected to be distributions and tax sharing payments received from its operating subsidiaries, capital raising activities, net investment income, proceeds from sales, repayments and maturities of investments and, from time to time, proceeds from sales of operating subsidiaries. The primary uses of cash are expected to be repurchases of the Company's common shares, payments on and repurchases/retirements of its debt obligations, dividend payments to holders of the Company's common shares, distributions to non-controlling interest holders of consolidated subsidiaries, purchases of investments, payments to tax authorities, contributions to operating subsidiaries, operating expenses and, from time to time, purchases of operating subsidiaries.

Operating Subsidiary Level. The primary sources of cash for White Mountains's reinsurance and other operating subsidiaries are expected to be premium and fee collections, net investment income, proceeds from sales, repayments and maturities of investments, contributions from holding companies, capital raising activities and, from time to time, proceeds from sales of operating subsidiaries. The primary uses of cash are expected to be loss payments, policy acquisition and other underwriting costs, cost of sales, purchases of investments, payments on and repurchases/retirements of its debt obligations, distributions and tax sharing payments made to holding companies, distributions to non-controlling interest holders, operating expenses and, from time to time, purchases of operating subsidiaries.

Both internal and external forces influence White Mountains's financial condition, results of operations and cash flows. Premium and fee levels, loss payments, cost of sales and investment returns may be impacted by changing rates of inflation and other economic conditions. Some time may lapse between the occurrence of an insured loss, the reporting of the loss to White Mountains and the settlement of the liability for that loss. The exact timing of the payment of losses and benefits cannot be predicted with certainty. White Mountains's reinsurance subsidiary maintains a portfolio of invested assets with varying maturities and a substantial amount of cash and short-term investments to provide adequate liquidity for the payment of losses.

Management believes that White Mountains's cash balances, cash flows from operations and routine sales and maturities of investments are adequate to meet expected cash requirements for the foreseeable future on both a holding company and subsidiary level.

Dividend Capacity

Following is a description of the dividend capacity of White Mountains's reinsurance and other operating subsidiaries:

HG Global/BAM

At June 30, 2018, HG Global had \$619 million face value of preferred shares outstanding, of which White Mountains owned 96.9%. Holders of the HG Global preferred shares receive cumulative dividends at a fixed annual rate of 6.0% on a quarterly basis, when and if declared by HG Global. HG Global did not declare or pay any preferred dividends in the first six months of 2018. As of June 30, 2018, HG Global has accrued \$261 million of dividends payable to holders of its preferred shares, \$253 million of which is payable to White Mountains and eliminated in consolidation. HG Re is a Special Purpose Insurer subject to regulation and supervision by the BMA, but does not require regulatory approval to pay dividends. However, HG Re's dividend capacity is limited to amounts held outside of the collateral trusts pursuant to the FLRT with BAM. As of June 30, 2018, HG Re had statutory capital and surplus of \$685 million, \$736 million of assets held in the collateral trusts pursuant to the FLRT with BAM and less than \$1 million of cash and investments held outside the collateral trusts.

BAM repaid \$4.0 million of the BAM Surplus Notes and \$1.0 million of the related accrued interest during the year ended December 31, 2017. There were no repayments during the six months ended June 30, 2018.

NSM

During the period from White Mountains's acquisition of NSM through June 30, 2018, NSM did not pay any dividends to its shareholders. As of June 30, 2018, NSM had \$73 million of cash, of which \$57 million is held in fiduciary trust accounts.

MediaAlpha

During the six months ended June 30, 2018, MediaAlpha paid \$8 million of dividends to its shareholders. White Mountains received \$5 million of these dividends. As of June 30, 2018, MediaAlpha had \$15 million of cash.

Other Operations

During the first quarter of 2018, White Mountains paid a \$4 million common share dividend. As of June 30, 2018, the Company and its intermediate holding companies had \$728 million of net unrestricted cash, short-term investments and fixed maturity investments, \$911 million of common equity securities and \$66 million of other long-term investments included in its Other Operations segment.

Financing

The following table presents White Mountains's capital structure as of June 30, 2018 and December 31, 2017:

⁽¹⁾ Amount reflects White Mountains's preferred share ownership in HG Global of 96.9%.

Management believes that White Mountains has the flexibility and capacity to obtain funds externally through debt or equity financing on both a short-term and long-term basis. However, White Mountains can provide no assurance that, if needed, it would be able to obtain additional debt or equity financing on satisfactory terms, if at all.

It is possible that, in the future, one or more of the rating agencies may lower White Mountains's existing ratings. If one or more of its ratings were lowered, White Mountains could incur higher borrowing costs on future borrowings and its ability to access the capital markets could be impacted.

White Mountains had an unsecured revolving credit facility with a syndicate of lenders administered by Wells Fargo Bank, N.A., which had a total commitment of \$425 million and a maturity date of August 14, 2018. White Mountains terminated the WTM Bank Facility on May 8, 2018 in conjunction with the tender offer completed on May 11, 2018. See Share Repurchases on page 58.

On May 11, 2018, NSM entered into a secured credit facility (the “NSM Bank Facility”) with Ares Capital Corporation in order to refinance NSM’s debt and to fund the acquisition of Fresh Insurance. The NSM Bank Facility is comprised of a term loan of \$100.0 million, a delayed-draw term loan of \$51.0 million to fund the Fresh Insurance acquisition and a revolving credit loan commitment of \$10.0 million, under which NSM initially borrowed \$2.0 million. The term loans under the NSM Bank Facility mature on May 11, 2024, and the revolving loan under the NSM Bank Facility matures on May 11, 2023. During the three months ended June 30, 2018, NSM repaid the \$2.0 million revolving loan under the NSM Bank Facility. As of June 30, 2018, \$151.0 million of term loans were outstanding and no revolving loans were outstanding under the NSM Bank Facility.

Interest on the NSM Bank Facility accrues at a floating interest rate equal to the three month LIBOR or the Prime Rate, as published by the Wall Street Journal plus, in each case, an applicable margin. The margin over LIBOR may vary between 4.25% and 4.75%, and the margin over the Prime Rate may vary between 3.25% and 3.75%, in each case, depending on the consolidated total leverage ratio of the borrower.

On June 15, 2018, NSM entered into an interest rate swap agreement to hedge its exposure to interest rate risk on its variable rate term loans. Under the terms of the swap agreement, NSM pays a fixed rate of 2.97% and receives a variable rate, which is reset monthly, based on then-current LIBOR. The variable rate received by NSM under the swap agreement was 2.07% at June 30, 2018. As of June 30, 2018, NSM’s blended interest rate on the outstanding term loan principal amount of \$151.0 million was 6.84%, and 7.47% after consideration of the interest rate swap. See Note 7 — “Derivatives — NSM Interest Rate Swap”.

The NSM Bank Facility is secured by all property of the loan parties and contains various affirmative, negative and financial covenants that White Mountains considers to be customary for such borrowings, including a maximum consolidated leverage ratio covenant.

On May 12, 2017, MediaAlpha entered into a secured credit facility (the “MediaAlpha Bank Facility”) with Western Alliance Bank, which had a total commitment of \$20 million and a maturity date of May 12, 2020. On October 5, 2017, MediaAlpha refinanced the MediaAlpha Bank Facility in order to fund the acquisition of certain assets associated with the Health, Life and Medicare insurance business of Healthplans.com. The total commitment of the MediaAlpha Bank Facility was increased to \$28 million and the maturity date was extended to October 6, 2020. The MediaAlpha Bank Facility consists of an \$18 million term loan facility, which has an outstanding balance of \$16 million as of June 30, 2018, and a revolving loan facility for \$10 million, which has an outstanding balance of \$4 million as of June 30, 2018. During the six months ended June 30, 2018, MediaAlpha repaid \$2.0 million on the term loan and \$2.0 million on the revolving loan under the MediaAlpha Bank Facility.

The MediaAlpha Bank Facility is secured by intellectual property and the common stock of MediaAlpha’s subsidiaries, and contains various affirmative, negative and financial covenants that White Mountains considers to be customary for such borrowings, including a maximum leverage ratio covenant.

Covenant Compliance

As of June 30, 2018, White Mountains was in compliance with all of the covenants under all of its debt instruments.

Share Repurchases

White Mountains's board of directors has authorized the Company to repurchase its common shares from time to time, subject to market conditions. The repurchase authorizations do not have a stated expiration date. As of June 30, 2018, White Mountains may repurchase an additional 643,130 shares under these board authorizations. In addition, from time to time White Mountains has also repurchased its common shares through tender offers that were separately approved by its board of directors. On May 11, 2018, White Mountains completed a "modified Dutch auction" tender offer, through which it repurchased 575,068 of its common shares at a purchase price of \$875 per share for a total cost of approximately \$505 million, including expenses. Shares repurchased under this tender offer did not impact the remaining number of shares authorized for repurchase. This activity left White Mountains with \$1.3 billion of undeployed capital as of June 30, 2018.

The following table presents common shares repurchased by the Company through the first 7 months of 2018 and 2017, as well as the average price per share as a percent of adjusted book value per share. For the 2017 periods, the average price per share as a percent of adjusted book value per share including the estimated gain from the sale of OneBeacon is presented.

⁽¹⁾ Average price per share is expressed as a percentage of White Mountains's adjusted book value per share as of March 31, 2018 for the first quarter of 2018 and June 30, 2018 for all other 2018 periods presented and as of March 31, 2017 for the first quarter of 2017 and June 30, 2017 for all other 2017 periods presented. For the the 2017 periods, adjusted book value per share includes estimated gain from the sale of OneBeacon.

⁽²⁾ Includes 9,965 and 10,883 common shares repurchased by the Company during the first seven months of 2018 and 2017 to satisfy employee income tax withholding pursuant to employee benefit plans. Shares repurchased pursuant to employee benefit plans do not reduce the board authorization referred to above.

Cash Flows

Detailed information concerning White Mountains's cash flows during the three months ended June 30, 2018 and 2017 follows:

Cash flows from continuing operations for the six months ended June 30, 2018 and June 30, 2017

Net cash used in continuing operations was \$26 million in the first six months of 2018 compared to \$66 million in the first six months of 2017. Cash used from continuing operations decreased in the first six months of 2018 compared to the first six months of 2017, primarily due to \$28 million in employee retirement payments paid in the first six months of 2017 relative to 2018, which was partially offset by increased long-term incentive payments in 2018. White Mountains made long-term incentive payments totaling \$28 million and \$21 million during the first six months of 2018 and 2017. White Mountains does not believe these trends will have a meaningful impact on its future liquidity or its ability to meet its future cash requirements.

Cash flows from investing and financing activities for the six months ended June 30, 2018

Financing and Other Capital Activities

During the first six months of 2018, the Company declared and paid a \$4 million cash dividend to its common shareholders.

During the first six months of 2018, White Mountains repurchased and retired 585,033 of its common shares for \$513 million, which included 9,965 shares for \$8 million repurchased under employee benefit plans for statutory withholding tax payments.

During the first six months of 2018, BAM received \$15 million in MSC.

During the first six months of 2018, NSM borrowed \$51 million under the NSM Bank Facility to fund the Fresh Insurance acquisition.

During the first six months of 2018, NSM repaid \$2 million on the revolving loan under the NSM Bank Facility.

During the first six months of 2018, MediaAlpha paid \$8 million of dividends to its shareholders, of which \$5 million was paid to White Mountains.

During the first six months of 2018, MediaAlpha repaid \$2 million of the term loan and \$2 million of the revolving loan under the MediaAlpha Bank Facility.

During the first six months of 2018, Wobi borrowed 20 million Israeli New Shekels (“ILS”) (approximately \$6 million) from White Mountains under an internal credit facility.

Acquisitions and Dispositions

On January 24, 2018, White Mountains paid \$42 million in connection with the DavidShield transaction.

On May 11, 2018, White Mountains closed its previously announced acquisition of 95% of NSM for a purchase price of \$274 million.

On May 18, 2018, NSM acquired 100% of Fresh Insurance for an upfront purchase price of GBP 37 million (approximately \$50 million based on the spot rate at the date of acquisition).

Cash flows from investing and financing activities for the six months ended June 30, 2017

Financing and Other Capital Activities

During the first six months of 2017, the Company declared and paid a \$5 million cash dividend to its common shareholders.

During the first six months of 2017, White Mountains repurchased 10,833 of its common shares for \$9 million, all of which were repurchased under employee benefit plans for statutory withholding tax payments.

During the first six months of 2017, BAM received \$17 million in MSC.

During the first six months of 2017, MediaAlpha paid \$1.3 million of dividends, of which \$0.8 million was paid to White Mountains.

During the first six months of 2017, MediaAlpha borrowed \$11 million under the MediaAlpha Bank Facility and repaid \$13 million under a previous MediaAlpha Bank Facility.

During the first six months of 2017, Wobi borrowed ILS 26 million (approximately \$7 million) from White Mountains under an internal credit facility.

FAIR VALUE CONSIDERATIONS

General

White Mountains records certain assets and liabilities at fair value in its consolidated financial statements, with changes therein recognized in current period earnings. In addition, White Mountains discloses estimated fair value for certain liabilities measured at historical or amortized cost. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants (an exit price) at a particular measurement date. Fair value measurements are categorized into a hierarchy that distinguishes between inputs based on market data from independent sources (“observable inputs”) and a reporting entity’s internal assumptions based upon the best information available when external market data is limited or unavailable (“unobservable inputs”). Quoted prices in active markets for identical assets have the highest priority (“Level 1”), followed by observable inputs other than quoted prices including prices for similar but not identical assets or liabilities (“Level 2”), and unobservable inputs, including the reporting entity’s estimates of the assumptions that market participants would use, having the lowest priority (“Level 3”).

Assets and liabilities carried at fair value include substantially all of the investment portfolio, derivative instruments, both exchange traded and over the counter instruments, and reinsurance assumed liabilities associated with variable annuity benefit guarantees. Valuation of assets and liabilities measured at fair value require management to make estimates and apply judgment to matters that may carry a significant degree of uncertainty. In determining its estimates of fair value, White Mountains uses a variety of valuation approaches and inputs. Whenever possible, White Mountains estimates fair value using valuation methods that maximize the use of observable prices and other inputs. Where appropriate, assets and liabilities measured at fair value have been adjusted for the effect of counterparty credit risk.

Invested Assets

As of June 30, 2018, approximately 90% of the investment portfolio recorded at fair value was priced based upon quoted market prices or other observable inputs. Investments valued using Level 1 inputs include fixed maturity investments, primarily investments in U.S. Treasuries, short-term investments, which include U.S. Treasury Bills and common equity securities. Investments valued using Level 2 inputs include fixed maturity investments, which have been disaggregated into classes, including debt securities issued by corporations, mortgage and asset-backed securities, municipal obligations, and foreign government, agency and provincial obligations. Investments valued using Level 2 inputs also include certain passive exchange traded funds (“ETFs”) that track U.S. stock indices such as the S&P 500 but are traded on foreign exchanges, which management values using the fund manager’s published NAV to account for the difference in market close times. Fair value estimates for investments that trade infrequently and have few or no observable market prices are classified as Level 3 measurements. Investments valued using Level 3 fair value estimates are based upon unobservable inputs and include investments in certain fixed maturity investments, equity securities and other long-term investments where quoted market prices are unavailable or are not considered reasonable. Transfers between levels are based on investments held as of the beginning of the period.

White Mountains uses brokers and outside pricing services to assist in determining fair values. For investments in active markets, White Mountains uses the quoted market prices provided by outside pricing services to determine fair value. The outside pricing services White Mountains uses have indicated that they will only provide prices where observable inputs are available. In circumstances where quoted market prices are unavailable or are not considered reasonable, White Mountains estimates the fair value using industry standard pricing methodologies and observable inputs such as benchmark yields, reported trades, broker-dealer quotes, issuer spreads, benchmark securities, bids, offers, credit ratings, prepayment speeds, reference data including research publications and other relevant inputs. Given that many fixed maturity investments do not trade on a daily basis, the outside pricing services evaluate a wide range of fixed maturity investments by regularly drawing parallels from recent trades and quotes of comparable securities with similar features. The characteristics used to identify comparable fixed maturity investments vary by asset type and take into account market convention.

White Mountains's process to assess the reasonableness of the market prices obtained from the outside pricing sources covers substantially all of its fixed maturity investments and includes, but is not limited to, the evaluation of pricing methodologies and a review of the pricing services' quality control procedures on at least an annual basis, a comparison of its invested asset prices obtained from alternate independent pricing vendors on at least a semi-annual basis, monthly analytical reviews of certain prices and a review of the underlying assumptions utilized by the pricing services for select measurements on an ad hoc basis throughout the year. White Mountains also performs back-testing of selected sales activity to determine whether there are any significant differences between the market price used to value the security prior to sale and the actual sale price on an ad-hoc basis throughout the year. Prices provided by the pricing services that vary by more than 5% and \$1.0 million from the expected price based on these assessment procedures are considered outliers. Also considered outliers are prices that have not changed from period to period and prices that have trended unusually compared to market conditions. In circumstances where the results of White Mountains's review process does not appear to support the market price provided by the pricing services, White Mountains challenges the vendor provided price. If White Mountains cannot gain satisfactory evidence to support the challenged price, it relies upon its own pricing methodologies to estimate the fair value of the security in question. The valuation process described above is generally applicable to all of White Mountains's fixed maturity investments. For more detail on the techniques and inputs specific to asset classes within White Mountains's fixed maturity investments. See Note 3 — "Investment Securities."

Level 3 valuations are generated from techniques that use assumptions not observable in the market. These unobservable assumptions reflect White Mountains's assumptions that market participants would use in valuing the investment. Generally, certain securities may start out as Level 3 when they are originally issued but as observable inputs become available in the market, they may be reclassified to Level 2.

White Mountains employs a number of procedures to assess the reasonableness of the fair value measurements for its other long-term investments, including obtaining and reviewing periodic and audited annual financial statements of hedge funds and private equity funds and discussing each fund's pricing with the fund manager throughout the year. However, since the fund managers do not provide sufficient information to evaluate the pricing inputs and methods for each underlying investment, the inputs are considered to be unobservable. The fair value of White Mountains's investments in hedge funds and private equity funds has generally been determined using the fund manager's NAV.

NON-GAAP FINANCIAL MEASURES

This report includes four non-GAAP financial measures that have been reconciled with their most comparable GAAP financial measures.

Adjusted book value per share is a non-GAAP financial measure which is derived by adjusting (i) the GAAP book value per share numerator and (ii) the common shares outstanding denominator, as described below. Beginning in 2017, the GAAP book value per share numerator has been adjusted (i) to include a discount for the time value of money arising from the expected timing of cash payments of principal and interest on the BAM surplus notes and (ii) to add back the unearned premium reserve, net of deferred acquisition costs, at HG Global. Under GAAP, White Mountains is required to carry the BAM surplus notes, including accrued interest, at nominal value with no consideration for time value of money. Based on a debt service model that forecasts operating results for BAM through maturity of the surplus notes, the present value of the BAM surplus notes, including accrued interest, was estimated to be \$155 million, \$159 million, \$162 million and \$172 million less than the nominal GAAP carrying values as of June 30, 2018, March 31, 2018, December 31, 2017, and June 30, 2017, respectively. The value of HG Global's unearned premium reserve, net of deferred acquisition costs, was \$93 million, \$84 million, \$82 million and \$66 million as of June 30, 2018, March 31, 2018, December 31, 2017, and June 30, 2017, respectively. White Mountains believes these adjustments are useful to management and investors in analyzing the intrinsic value of HG Global, including the value of the surplus notes and the value of the in-force business at HG Re, HG Global's reinsurance subsidiary. The denominator used in the calculation of adjusted book value per share equals the number of common shares outstanding adjusted to exclude unearned restricted common shares, the compensation cost of which, at the date of calculation, has yet to be amortized. Restricted common shares are earned on a straight-line basis over their vesting periods. The reconciliation of GAAP book value per share to adjusted book value per share is included

on page 40.

Gross written premiums and MSC from new business is a non-GAAP financial measure, which is derived to adjust gross written premiums (i) to add MSC (ii) to include the present value of future installment MSC not yet collected and (iii) to exclude the impact of gross written premium adjustments related to policies closed in prior periods. White Mountains believes these adjustments are useful to investors in evaluating the pricing of new business closed during the period. The reconciliation of GAAP gross written premiums to gross written premiums and MSC from new business is included on page 45.

61

Adjusted EBITDA is defined as net income (loss) excluding interest expense on debt, income tax benefit (expense), depreciation and amortization, and non-cash equity-based compensation expense. White Mountains believes that this non-GAAP financial measure is useful to management and investors in analyzing MediaAlpha's economic performance without the effects of interest rates, levels of debt, effective tax rates, depreciation and amortization primarily resulting from purchase accounting, or non-cash equity-based compensation. In addition, White Mountains believes that investors use adjusted EBITDA as a supplemental measurement to evaluate the overall operating performance of companies within the same industry. The reconciliation of MediaAlpha's GAAP net income to adjusted EBITDA is included on page 49.

Total capital at White Mountains is comprised of White Mountains's common shareholders' equity, debt and non-controlling interests other than non-controlling interests attributable to mutuals and reciprocals. Total adjusted capital is a non-GAAP financial measure, which is derived by adjusting total capital (i) to include a discount for the time value of money arising from the expected timing of cash payments of principal and interest on the BAM Surplus Notes and (ii) to add back the unearned premium reserve, net of deferred acquisition costs, at HG Global. The reconciliation of total capital to total adjusted capital is included on page 56.

CRITICAL ACCOUNTING ESTIMATES

Refer to the Company's 2017 Annual Report on Form 10-K for a complete discussion regarding White Mountains's critical accounting estimates.

FORWARD-LOOKING STATEMENTS

This report may contain "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. All statements, other than statements of historical facts, included or referenced in this report which address activities, events or developments which White Mountains expects or anticipates will or may occur in the future are forward-looking statements. The words "will", "believe", "intend", "expect", "anticipate", "project", "estimate", "predict" and similar expressions are also intended to identify forward-looking statements. These forward-looking statements include, among others, statements with respect to White Mountains's:

- changes in adjusted book value per share or return on equity;
- business strategy;
- financial and operating targets or plans;
- incurred loss and loss adjustment expenses and the adequacy of its loss and loss adjustment expense reserves and related reinsurance;
- projections of revenues, income (or loss), earnings (or loss) per share, dividends, market share or other financial forecasts;
- expansion and growth of its business and operations; and
- future capital expenditures.

These statements are based on certain assumptions and analyses made by White Mountains in light of its experience and perception of historical trends, current conditions and expected future developments, as well as other factors believed to be appropriate in the circumstances. However, whether actual results and developments will conform with its expectations and predictions is subject to risks and uncertainties that could cause actual results to differ materially from expectations, including:

- the risks that are described from time to time in White Mountains's filings with the Securities and Exchange Commission, including but not limited to White Mountains's Annual Report on Form 10-K for the fiscal year ended December 31, 2017;
- business opportunities (or lack thereof) that may be presented to it and pursued;
-

actions taken by ratings agencies from time to time, such as financial strength or credit ratings downgrades or placing ratings on negative watch;

the continued availability of capital and financing;

general economic, market or business conditions;

competitive forces, including the conduct of other insurers;

changes in domestic or foreign laws or regulations, or their interpretation, applicable to White Mountains, its

competitors or its customers;

an economic downturn or other economic conditions adversely affecting its financial position; and

other factors, most of which are beyond White Mountains's control.

Consequently, all of the forward-looking statements made in this report are qualified by these cautionary statements, and there can be no assurance that the actual results or developments anticipated by White Mountains will be realized or, even if substantially realized, that they will have the expected consequences to, or effects on, White Mountains or its business or operations. White Mountains assumes no obligation to publicly update any such forward-looking statements, whether as a result of new information, future events or otherwise.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Refer to White Mountains’s 2017 Annual Report on Form 10-K and in particular Item 7A. - “Quantitative and Qualitative Disclosures About Market Risk”.

Item 4. Controls and Procedures.

The Principal Executive Officer (“PEO”) and the Principal Financial Officer (“PFO”) of White Mountains have evaluated the effectiveness of its disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) of the Exchange Act) as of the end of the period covered by this report. Based on that evaluation, the PEO and PFO have concluded that White Mountains’s disclosure controls and procedures are effective.

There were no significant changes with respect to the Company’s internal control over financial reporting or in other factors that materially affected, or are reasonably likely to materially affect, internal control over financial reporting during the quarter ended June 30, 2018.
