  - £ Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))
-

ITEM 7.01. Regulation FD Disclosure.

Subsequent to its earnings release for the second quarter of 2012, HealthSouth Corporation (“HealthSouth” or the “Company”) assembled an Investor Reference Book, which is attached to this Current Report on Form 8-K as Exhibit 99.1. The Investor Reference Book addresses, among other things, an overview of the Company and its industry, a historical perspective of the Company, the Company's business outlook, the Company's financial and operational metrics and initiatives, and the Company's value proposition. The Investor Reference Book is available at <http://investor.healthsouth.com> by clicking on an available link.

On August 7-8, 2012, HealthSouth will be making informational presentations to current and potential investors, not related to any specific transaction, in Boston, Massachusetts. The Company will distribute to attendees a copy of the Investor Reference Book attached to this Current Report on Form 8-K as Exhibit 99.1.

The Company reiterates as of the date hereof its guidance for 2012, as previously reported in the press release furnished as an exhibit to the Current Report on Form 8-K dated July 26, 2012 and during the Company's earnings conference call held on July 27, 2012.

The Company uses “same store” comparisons to explain the changes in certain performance metrics and line items within its financial statements. Same store comparisons are calculated based on hospitals open throughout both the full current periods and throughout the full prior periods presented. These comparisons include the financial results of market consolidation transactions in existing markets, as it is difficult to determine, with precision, the incremental impact of these transactions on the Company's results of operations.

The information contained in this Item 7.01 is being furnished pursuant to Item 7.01 of Form 8-K, “Regulation FD Disclosure.” This information shall not be deemed “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), or incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly set forth by specific reference in such a filing.

Note Regarding Presentation of Non-GAAP Financial Measures

The financial data contained in the Investor Reference Book attached as Exhibit 99.1 includes non-GAAP financial measures, including the Company's leverage ratio and Adjusted EBITDA. The leverage ratio referenced therein is defined as the ratio of consolidated total debt to Adjusted EBITDA for the trailing four quarters. The Company believes its leverage ratio and Adjusted EBITDA are measures of its ability to service its debt and its ability to make capital expenditures. Additionally, the leverage ratio is a standard measurement used by investors to gauge the creditworthiness of an institution. The Company's credit agreement also includes a maximum leverage ratio financial covenant which allows the Company to deduct up to \$75 million of cash on hand from consolidated total debt. The Company reconciles Adjusted EBITDA to net income and to net cash provided by operating activities.

The Company uses Adjusted EBITDA on a consolidated basis as a liquidity measure. The Company believes this financial measure on a consolidated basis is important in analyzing its liquidity because it is the key component of certain material covenants contained within the Company's credit agreement, which is discussed in more detail in Note 8, Long-term Debt, to the consolidated financial statements included in its Annual Report on Form 10-K for the year ended December 31, 2011 (the “2011 Form 10-K”). These covenants are material terms of the credit agreement. Non-compliance with these financial covenants under the credit agreement—its interest coverage ratio and its leverage ratio—could result in the Company's lenders requiring the Company to immediately repay all amounts borrowed. If the Company anticipated a potential covenant violation, it would seek relief from its lenders, which would have some cost to the Company, and such relief might not be on terms favorable to those in the Company's existing credit agreement. In addition, if the Company cannot satisfy these financial covenants, it would be prohibited under the credit agreement from engaging in certain activities, such as incurring additional indebtedness, making certain payments, and acquiring and disposing of assets. Consequently, Adjusted EBITDA is critical to the Company's assessment of its liquidity.

In general terms, the credit agreement definition of Adjusted EBITDA, referred to as “Adjusted Consolidated EBITDA” there, allows the Company to add back to consolidated net income interest expense, income taxes, and depreciation and amortization and then add back to consolidated net income (1) all unusual or non-recurring items reducing consolidated net income (of which only up to \$10 million in a year may be cash expenditures), (2) costs and expenses related to refinancing transactions, (3) any losses from discontinued operations and closed locations, (4) costs and expenses, including legal fees and expert witness fees, incurred with respect to litigation associated with stockholder derivative litigation, including the matters related to Ernst & Young LLP and Richard M. Scruschy discussed in

Note 21, Settlements, and Note 22, Contingencies and Other Commitments, to the consolidated financial statements accompanying the 2011 Form 10-K and Note 8, Contingencies, to

---

the condensed consolidated financial statements included in Part I, Item 1, Financial Statements (Unaudited), of the Company's quarterly report on Form 10-Q for the quarterly period ended June 30, 2012 (the "June 2012 Form 10-Q"), and (5) share-based compensation expense. The Company also subtracts from consolidated net income all unusual or non-recurring items to the extent increasing consolidated net income.

Under the credit agreement, the Adjusted EBITDA calculation does not include adjustments for the following items: (1) net income attributable to noncontrolling interests, (2) gain or loss on disposal of assets, (3) professional fees unrelated to the stockholder derivative litigation, and (4) unusual or non-recurring cash expenditures in excess of \$10 million. These items may not be indicative of the Company's ongoing performance, so the Adjusted EBITDA calculation presented here includes adjustments for them.

Adjusted EBITDA is not a measure of financial performance under generally accepted accounting principles in the United States of America ("GAAP"), and the items excluded from Adjusted EBITDA are significant components in understanding and assessing financial performance. Therefore, Adjusted EBITDA should not be considered a substitute for net income or cash flows from operating, investing, or financing activities. Because Adjusted EBITDA is not a measurement determined in accordance with GAAP and is thus susceptible to varying calculations, Adjusted EBITDA, as presented, may not be comparable to other similarly titled measures of other companies. Revenues and expenses are measured in accordance with the policies and procedures described in Note 1, Summary of Significant Accounting Policies, to the consolidated financial statements accompanying the 2011 Form 10 K.

The Company also uses adjusted free cash flow as an analytical indicator to assess its performance. Management believes the presentation of adjusted free cash flow provides investors an efficient means by which they can evaluate the Company's capacity to reduce debt and pursue development activities. The calculation of adjusted free cash flow is included in the Investor Reference Book attached as Exhibit 99.1. This measure is not a defined measure of financial performance under GAAP and should not be considered as an alternative to net cash provided by operating activities.

The Company's definition of adjusted free cash flow is limited and does not represent residual cash flows available for discretionary spending. Because this measure is not determined in accordance with GAAP and is susceptible to varying calculations, it may not be comparable to other similarly titled measures presented by other companies. See the consolidated statements of cash flows included in the 2011 Form 10-K and the condensed consolidated statements of cash flows included in the June 2012 Form 10-Q for the GAAP measures of cash flows from operating, investing, and financing activities. A reconciliation of net cash provided by operating activities to adjusted free cash flow is included in the Investor Reference Book attached as Exhibit 99.1.

---

## Reconciliation of Net Cash Provided by Operating Activities to Adjusted EBITDA
