# FIDELITY SOUTHERN CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS June 30, 2018 (UNAUDITED)

1. Basis of Presentation and Summary of Significant Accounting Policies

The accompanying unaudited consolidated financial statements include the accounts of Fidelity Southern Corporation ("FSC" or "Fidelity") and its wholly-owned subsidiaries. FSC owns 100% of Fidelity Bank (the "Bank") and LionMark Insurance Company, an insurance agency offering consumer credit related insurance products. FSC also owns three subsidiaries established to issue trust preferred securities, which are not consolidated for financial reporting purposes in accordance with current accounting guidance, as FSC is not the primary beneficiary. The "Company" or "our," as used herein, includes FSC and its consolidated subsidiaries, unless the context otherwise requires.

These unaudited consolidated financial statements have been prepared in conformity with U.S. generally accepted accounting principles ("GAAP") followed within the financial services industry for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information or notes required for complete financial statements.

In preparing the consolidated financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the balance sheet and revenues and expenses for the periods presented. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant changes in the near term relate to the determination of the allowance for loan losses; the calculations of, amortization of, and the potential impairment of capitalized servicing rights; the valuation of loans held-for-sale and certain derivatives; the valuation of real estate or other assets acquired in connection with foreclosures or in satisfaction of loans; estimates used for fair value acquisition accounting, goodwill impairment testing and valuation of deferred income taxes. In addition, the actual lives of certain amortizable assets and income items are estimates subject to change. The Company principally operates in one business segment, which is community banking.

In the opinion of management, all adjustments, consisting of normal and recurring items, considered necessary for a fair presentation of the consolidated financial statements for the interim periods have been included. All significant intercompany accounts and transactions have been eliminated in consolidation. Certain amounts reported in prior periods have been reclassified to conform to current year presentation. These reclassifications did not have a material effect on previously reported net income, shareholders' equity or cash flows.

Operating results for the six-month period ended June 30, 2018 are not necessarily indicative of the results that may be expected for the year ending December 31, 2018. These statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2017, filed with the Securities and Exchange Commission ("SEC").

The Company's significant accounting policies are described in Note 1 of the Notes to Consolidated Financial Statements included in the 2017 Annual Report on Form 10-K filed with the SEC. There were no new accounting policies or changes to existing policies adopted during the first six months of 2018 which had a significant effect on the Company's results of operations or statement of financial condition. For interim reporting purposes, the Company follows the same basic accounting policies and considers each interim period as an integral part of an annual period. Contingencies

Due to the nature of their activities, the Company and its subsidiaries are at times engaged in various legal proceedings that arise in the course of normal business, some of which were outstanding as of June 30, 2018. Although the ultimate outcome of all claims and lawsuits outstanding as of June 30, 2018 cannot be ascertained at this time, it is the opinion of management that these matters, when resolved, will not have a material adverse effect on the Company's results of operations or financial condition.

#### **Table of Contents**

#### Tax Cuts and Jobs Act

Public Law No. 115-97, known as the Tax Cuts and Jobs Act (the "Tax Act"), was enacted on December 22, 2017 and reduced the U.S. Federal corporate tax rate from 35% to 21% effective January 1, 2018. Additionally, on December 22, 2017, the SEC issued Staff Accounting Bulletin No. 118 ("SAB 118"), which provides guidance on accounting for provisions of the Tax Act. SAB 118 provides a measurement period of up to one year from the enactment date to complete the accounting. Any adjustments during this measurement period will be included in net earnings from continuing operations as an adjustment to income tax expense in the reporting period when such adjustments are determined. Based on the information available and current interpretation of the provisions of the Tax Act, the Company completed the remeasurement of its net deferred tax liability at December 31, 2017 which reduced income tax expense by \$4.9 million for the fourth quarter of 2017. For the three and six months ended June 30, 2018, no further adjustments were recorded related to the remeasurement of the Company's net deferred tax liability balance as a result of the Tax Act. The final impact of the Tax Act may differ from estimates used to calculate the remeasurement of its net deferred tax liability balance as a result of changes in management's interpretations and assumptions, as well as new guidance that may be issued by the Internal Revenue Service.

#### Recently Adopted Accounting Pronouncements

In March 2018, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2018-05, "Income Taxes (Topic 740): Amendments to SEC Paragraphs Pursuant to SEC Staff Accounting Bulletin No. 118 (SAB 118). This ASU was effective upon issuance. The adoption of this ASU did not have a significant impact on the Company's Consolidated Financial Statements.

In March 2018, the FASB issued ASU No. 2018-04, "Investments-Debt Securities (Topic 320) and Regulated Operations (Topic 980): Amendments to SEC Paragraphs Pursuant to SEC Staff Accounting Bulletin No. 117 and SEC Release No. 33-9273. For public business entities, the Update was effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2017. The adoption of this ASU did not have a significant impact on the Company's Consolidated Financial Statements.

In February 2018, the FASB issued ASU No. 2018-03, "Technical Corrections and Improvements to Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities ("ASU 2018-03"). This guidance amended ASU No. 2016-01, "Financial Instruments - Overall: Recognition and Measurement of Financial Assets and Financial Liabilities" ("ASU 2016-01") on recognizing and measuring financial instruments to clarify certain aspects of the guidance originally issued in January 2016. The amendments in this Update were effective for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years beginning after June 15, 2018 with early adoption permitted, including adoption in any interim period, for public business entities. The adoption of this Update effective January 1, 2018 did not have a significant impact on the Company's Consolidated Financial Statements.

In February 2018, the FASB issued ASU No. 2018-02, "Income Statement-Reporting Comprehensive Income (Topic 220): Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income" ("ASU 2018-02"), that allows a reclassification from accumulated other comprehensive income to retained earnings for stranded tax effects resulting from the Tax Cuts and Jobs Act that passed U.S. Congress in December 2017. The amendments in this Update are effective for fiscal years beginning after December 15, 2018, and interim periods within those fiscal years with early adoption permitted, including adoption in any interim period, for public business entities for reporting periods for which financial statements have not yet been issued. The Company elected to early adopt this guidance effective January 1, 2018. The adoption of ASU 2018-02 resulted in a reclassification of stranded tax effects of \$80,000 to accumulated other comprehensive income (loss) from retained earnings.

In May 2017, the FASB issued ASU No. 2017-09, "Compensation - Stock Compensation (Topic 718): Scope of Modification Accounting," ("ASU 2017-09") that provides guidance about which changes to the terms or conditions of a share-based payment award require an entity to apply modification accounting in Topic 718. The amendments in this ASU were effective for all entities for annual periods, and interim periods within those annual periods, beginning after December 15, 2017. Early adoption was permitted, including adoption in any interim period, for reporting periods for which financial statements have not yet been issued and should be applied prospectively to an award modified on or after the adoption date. The adoption of this ASU effective January 1, 2018 did not have a significant impact on the

Company's Consolidated Financial Statements.

In March 2017, the FASB issued ASU No. 2017-07, "Compensation - Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost," ("ASU 2017-07") that will change how employers who sponsor defined benefit pension and/or other postretirement benefit plans present the net periodic benefit cost in the income statement. The guidance was effective for public business entities for fiscal years beginning after December 15, 2017, and interim periods therein. Early adoption was permitted as of the beginning of an annual period for which financial statements (interim or annual) have not been issued or made available for issuance. That is, early adoption must be within the first interim period if an employer issues interim financial statements. The adoption of this ASU effective January 1, 2018 did not have a significant impact on the Company's Consolidated Financial Statements.

In January 2017, the FASB issued ASU No. 2017-04, "Intangibles - Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment," ("ASU 2017-04") which simplifies the accounting for goodwill impairment by removing Step 2 of the

#### **Table of Contents**

goodwill impairment test. The new guidance is effective for public business entities for fiscal years beginning after December 15, 2019, and is required to be applied prospectively, with early adoption permitted for any impairment tests performed on testing dates after January 1, 2017. The early adoption of this ASU in the fourth quarter of 2017 did not have a significant impact on the Company's Consolidated Financial Statements.

In January 2017, the FASB issued ASU No. 2017-03, "Accounting Changes and Error Corrections (Topic 250) and Investments-Equity Method and Joint Ventures (Topic 323)," ("ASU 2017-03"). ASU 2017-03 amends the Codification for SEC staff announcements made at two Emerging Issues Task Force (EITF) meetings. That Topic required registrants to disclose the effect that recently issued accounting standards will have on their financial statements when adopted in a future period. The Company adopted this guidance in the fourth quarter of 2016. The adoption of this ASU did not have a significant impact on the Company's Consolidated Financial Statements.

In January 2017, the FASB issued ASU No. 2017-01, "Business Combinations (Topic 805) - Clarifying the Definition of a Business," ("ASU 2017-01") which provides clarification on the definition of a business with the objective of adding guidance to assist entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. The guidance was effective for public business entities for fiscal years beginning after December 15, 2017, including interim periods with early adoption permitted. The amendments in this ASU should be applied prospectively on or after the effective date and no disclosures are required at transition. The adoption of this ASU effective January 1, 2018 did not have a significant impact on the Company's Consolidated Financial Statements. In December 2016, the FASB issued ASU No. 2016-20, "Technical Corrections and Improvements to Topic 606: Revenue from Contracts with Customers." ASU 2016-20 updates the new revenue standard by clarifying issues that had arisen from ASU No. 2014-09 but does not change the core principle of the new standard. In August 2015, the FASB issued ASU No. 2015-14, "Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date" which deferred the effective date of ASU No. 2014-09, "Revenue from Contracts with Customers," ("ASU 2014-09") by one year to annual reporting periods beginning after December 15, 2017, and interim reporting periods therein. The FASB had previously issued ASU 2014-09 in May 2014. The Company adopted the guidance on January 1, 2018 utilizing the modified retrospective approach. The Company did not record a cumulative effect adjustment to opening retained earnings as the adoption of ASU 2014-09 did not have a significant impact on the Company's Consolidated Financial Statements. The Company also completed its evaluation of the expanded disclosure requirements for disaggregation of revenue and other information regarding material contracts and began presenting the required disclosures in its Consolidated Financial Statements for the quarter ended March 31, 2018. See Note 11. Revenue Recognition for more information.

In November 2016, the FASB issued ASU No. 2016-18, "Statement of Cash Flows (Topic 230) - Restricted Cash," ("ASU 2016-18"). The ASU is to be applied retrospectively and was effective for the Company beginning in fiscal year 2018, including interim periods therein with early adoption was permitted, including adoption in an interim period, with retrospective application. The adoption of this ASU effective January 1, 2018 did not have a significant impact on the Company's Consolidated Financial Statements.

In October 2016, the FASB issued ASU No. 2016-16, "Income Taxes: Intra-Entity Transfers of Assets Other Than Inventory," ("ASU 2016-16") that addresses the income tax consequences of intra-entity transfers of assets other than inventory. This standard was effective for annual reporting periods beginning after December 15, 2017, including interim reporting periods within those annual reporting periods. Early adoption was permitted as of the beginning of an annual reporting period for which financial statements have not been issued or made available for issuance. The adoption of this ASU effective January 1, 2018 did not have a significant impact on the Company's Consolidated Financial Statements.

In August 2016, the FASB issued ASU No. 2016-15, "Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments," ("ASU 2016-15") intended to reduce diversity in practice in how certain cash receipts and cash payments are classified in the statement of cash flows. The amendments in this ASU are to be applied retrospectively and were effective for public business entities for fiscal years beginning after December 15, 2017, and interim periods within those years. Early adoption was permitted, including adoption in an interim period, with adoption of all of the guidance in the same period. The adoption of this ASU effective January 1, 2018 did not have a significant impact on the Company's Consolidated Financial Statements.

Recently Issued Accounting Pronouncements Not Yet Adopted

In August 2017, the FASB issued ASU No. 2017-12, "Derivatives and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities," ("ASU 2017-12") that is intended to improve and simplify rules relevant to hedge accounting. This ASU refines and expands hedge accounting for both financial (e.g., interest rate) and commodity risks. ASU 2017-12 is intended to improve transparency and accounting through a focus on: (1) measurement and hedging strategies; (2) presentation and disclosure; and (3) easing the administrative burden that hedge accounting can create for an entity. Entities will (a) measure the hedged item in a partial-term fair value hedge of interest rate risk by assuming the hedged item has a term that reflects only the designated cash flows being hedged; (b) consider only how changes in the benchmark interest rate affect a decision to settle a pre-payable instrument before its scheduled maturity when calculating the fair value of the hedged item; and (c) measure the fair value of the hedged item using the benchmark rate component of the contracted coupon cash flows determined at inception.

#### **Table of Contents**

The amendments in this ASU shall take effect for public business entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. Early adoption is permitted in any interim period or fiscal years before the effective date of the standard. The adoption of this ASU is not expected to have a significant impact on the Company's Consolidated Financial Statements based on its current hedging strategies. However, the Company is currently evaluating this ASU to determine whether its provisions will enhance its risk management strategies. In March 2017, the FASB issued ASU No. 2017-08, "Receivables - Nonrefundable Fees and Other Costs (Subtopic 310-20): Premium Amortization on Purchased Callable Debt Securities," ("ASU 2017-08") that amends the amortization period for certain purchased callable debt securities held at a premium. The guidance is effective for public business entities for fiscal years beginning after December 15, 2018, and interim periods therein. Early adoption is permitted, including adoption in an interim period. If an entity early adopts the amendments in an interim period, any adjustments should be reflected as of the beginning of the fiscal year that includes that interim period. These amendments should be applied on a modified retrospective basis through a cumulative-effect adjustment directly to retained earnings as of the beginning of the adoption period. In addition, in the period of adoption, disclosures should be provided about a change in accounting principle. The adoption of this ASU is not expected to have a significant impact on the Company's Consolidated Financial Statements.

In June 2016, the FASB issued ASU No. 2016-13 which significantly changes how entities will measure credit losses for most financial assets and certain other instruments that are not measured at fair value through net income. In issuing the standard, the FASB is responding to criticism that today's guidance delays recognition of credit losses. The standard will replace today's "incurred loss" approach with an "expected loss" model. The new model, referred to as the current expected credit loss ("CECL") model, will apply to: (1) financial assets subject to credit losses and measured at amortized cost, and (2) certain off-balance sheet credit exposures. This includes, but is not limited to, loans, leases, held-to-maturity securities, loan commitments, and financial guarantees. The CECL model does not apply to available-for-sale ("AFS") securities. For AFS securities with unrealized losses, entities will measure credit losses in a manner similar to what they do today, except that the losses will be recognized as allowances rather than reductions in the amortized cost of the securities. As a result, entities will recognize improvements to estimated credit losses immediately in earnings rather than as interest income over time, as they do today. All other things being equal, higher credit losses will result in lower regulatory capital ratios for the Company. The ASU also simplifies the accounting model for purchased credit-impaired securities and loans. ASU 2016-13 also expands the disclosure requirements regarding an entity's assumptions, models, and methods for estimating the allowance for loan and lease losses. In addition, entities will need to disclose the amortized cost balance for each class of financial asset by credit quality indicator, disaggregated by the year of origination. The standard will take effect for SEC filers for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. Early application for all organizations will be permitted for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. Entities will apply the standard's provisions as a cumulative-effect adjustment to retained earnings as of the beginning of the first reporting period in which the guidance is adopted. The Company has established a working group which includes representatives from various internal departments with the expertise needed to implement the guidance. The working group has assigned key tasks to complete and established a timeline to be followed. The team is meeting regularly to review progress on the assigned tasks and to share current information on industry practices. Members of the working group are also attending conferences and meetings with peer banks to keep current on evolving interpretations of the guidance. As part of its implementation plan, the Company has allocated staff and put resources in place to evaluate the appropriate model options and is collecting, reviewing, and validating historical loan data for use in these models. The Company is implementing a software package supported by a third-party vendor to automate the calculation of the allowance for loan losses under the new methodology. Management is continuing to evaluate the impact that the guidance will have on the Company's Consolidated Financial Statements and its regulatory capital ratios through its effective date.

In February 2016, the FASB issued ASU No. 2016-02, "Leases" which requires the recognition of assets and liabilities arising from most lease transactions on the balance sheet and the disclosure of key information about leasing arrangements. The new standard is effective for fiscal years beginning after December 15, 2018, and interim periods within those years, with early adoption permitted. In transition, lessees are required to recognize and measure leases at

the beginning of the earliest period presented using a modified retrospective approach, which means applying the new balance sheet presentation and income statement classification guidance from the beginning of the earliest comparative period presented in the year of adoption. As of June 30, 2018, the Company's total outstanding lease obligations, all of which are classified as operating leases, was \$20.4 million, or 0.42% of total assets. The Company is currently evaluating these lease obligations, as well as any embedded leases contained in its contractual outsourcing arrangements, as potential lease assets and liabilities as defined by the guidance as well as assessing the impact on its regulatory capital ratios. For regulated banking institutions such as the Company, the recognition of right-of-use assets on the balance sheet may impact the calculation of regulatory capital ratios by increasing the assets in the denominator of the risk-based capital ratios (risk-weighted assets) and leverage capital ratio (adjusted asset). All other things being equal, a higher denominator will result in lower regulatory capital ratios for the Company. The Company is implementing a software package supported by a third-party vendor to automate the calculation of the right of use asset and the corresponding lease liability. The Company anticipates that the adoption of ASU 2016-02 will not have a significant impact on its Consolidated Financial Statements or its regulatory capital ratios, but will likely require changes to its systems, controls and processes. The Company is continuing to evaluate the full impact of this ASU on the Company's Consolidated Financial Statements.

#### **Table of Contents**

Other proposed accounting standards that have recently been issued by the FASB or other standard-setting bodies are not expected to have a material impact on the Company's financial position, results of operations or cash flows.

#### 2. Investment Securities

Management's primary objective in managing the investment securities portfolio includes maintaining a portfolio of high quality investments with competitive returns while providing for pledging and liquidity needs within overall asset and liability management parameters. The Company is required under federal regulations to maintain adequate liquidity to ensure safe and sound operations. As such, management regularly evaluates the investment portfolio for cash flows, the level of loan production and sales, current interest rate risk strategies and the potential future direction of market interest rate changes. Individual investment securities differ in terms of default, interest rate, liquidity and expected rate of return risk.

The following table summarizes the amortized cost and fair value of debt securities and the related gross unrealized gains and losses at June 30, 2018, and December 31, 2017:

At June 30, 2018 and December 31, 2017, the unrealized losses on investment securities were unrelated to credit losses. Management does not intend to sell the temporarily impaired securities and it is not more likely than not that the Company will be required to sell the investments before recovery of the amortized cost, which may be maturity. The unrealized loss position has increased during 2017 and 2018, primarily in the mortgage-backed securities and SBA pool securities categories, and is the result of the increase in interest rates.

As part of the Company's evaluation of its intent and ability to hold investments for a period of time sufficient to allow for any anticipated recovery in the market, the Company considers its investment strategy, cash flow needs, liquidity position, capital adequacy and interest rate risk position.

Accordingly, as of June 30, 2018, management has reviewed its portfolio for other-than-temporary-impairment and believes the impairment detailed in the table above is temporary, and no other-than-temporary impairment loss has

been recognized in the Company's Consolidated Statements of Comprehensive Income. Management continues to monitor all of its securities with a high degree of scrutiny. There can be no assurance that the Company will not conclude in future periods that conditions existing at that time indicate some or all of these securities may be sold or are other than temporarily impaired, which would require a charge to earnings in such periods.

#### **Table of Contents**

The amortized cost and fair value of investment securities at June 30, 2018, and December 31, 2017, are categorized in the following table by remaining contractual maturity. The amortized cost and fair value of securities not due at a single maturity (i.e., mortgage-backed securities) are shown separately and are calculated based on estimated average remaining life:

	June 30, 2018 AmortizedFair		December 31, 201 AmortizedFair

#### 3. Loans Held-for-Sale

Residential mortgage loans held-for-sale are carried at fair value and SBA and indirect automobile loans held-for-sale are carried at the lower of cost or fair value. The following table summarizes loans held-for-sale at June 30, 2018, and December 31, 2017:

 June 30,
 December 31,

 2018
 2017

 Residential mortgage
 \$399,630

 13,615

 Indirect automobile
 25,000
 75,000

 Total loans held-for-sale
 \$444,686
 \$357,755

During each of the six months ended June 30, 2018, and 2017, the Company transferred loans with unpaid principal balances of \$2.0 million to the held for investment residential mortgage portfolio.

The Company had residential mortgage loans held-for-sale with unpaid principal balances of \$256.3 million and \$154.2 million pledged to the FHLB at June 30, 2018, and December 31, 2017, respectively.

#### 4. Loans

Loans outstanding, by class, are summarized in the following table at carrying value and include net unamortized costs of \$34.3 million and \$35.9 million at June 30, 2018, and December 31, 2017, respectively. Acquired loans represent previously acquired loans including \$2.3 million in loans covered under Loss Share Agreements with the FDIC at December 31, 2017. On June 27, 2018, the Bank entered into an agreement with the Federal Deposit Insurance Corporation (the "FDIC") to terminate the loss share agreements entered into with the FDIC in 2011 and 2012. Fidelity made a cash payment, previously accrued, of approximately \$632,000 to the FDIC as consideration for the early termination of the agreements. As a result, at June 30, 2018 there were no loans covered by Loss Share Agreements.

Legacy loans represent existing portfolio loans originated by the Bank prior to each acquisition, additional loans originated subsequent to each acquisition and Government National Mortgage Association ("GNMA") optional repurchase loans (collectively, "legacy loans").

Total loans	\$3,384,399	\$196,567	\$3,580,966		

The Company has extended loans to certain officers and directors. The Company does not believe these loans involve more than the normal risk of collectability or present other unfavorable features when originated. None of the related party loans were classified as nonaccrual, past due, restructured, or potential problem loans at June 30, 2018, or December 31, 2017.

#### Nonaccrual Loans

The accrual of interest income is generally discontinued when a loan becomes 90 days past due. Past due status is based on the contractual terms of the loan agreement. A loan may be placed on nonaccrual status sooner if reasonable doubt exists as to the full, timely collection of principal or interest. When a loan is placed on nonaccrual status, previously accrued and uncollected interest is reversed against current period interest income. If a borrower on a residential mortgage loan previously sold makes no payment for three consecutive months, the Company, as servicer, may exercise its option to repurchase the delinquent loan from its securitized loan pool in an amount equal to 100% of the loan's remaining principal balance less the principal payments advanced to the pool prior to the buyback, in which case no previously accrued interest would be reversed since the loan was previously sold. Interest advanced to the pool prior to the buyback is capitalized for future reimbursement as part of the government guarantee. Subsequent interest collected on nonaccrual loans is recorded as a principal reduction. Nonaccrual loans are returned to accrual status when all contractually due principal and interest amounts are brought current and the future payments are reasonably assured.

Loans in nonaccrual status are presented by class of loans in the following table. The Company has repurchased certain Government National Mortgage Association ("GNMA") government-guaranteed loans, which are accounted for in nonaccrual status. The Company's loss exposure on government-guaranteed loans is mitigated by the government guarantee in whole or in part. Purchased credit impaired ("PCI") loans are considered to be performing due to the application of the accretion method and are excluded from the table.

(in thousands)	June 30,	December 31,
(iii tilousalius)	2018	2017
Commercial	\$11,801	\$ 11,314
SBA	8,404	2,503
Total commercial loans	20,205	13,817
Construction	252	4,520
Indirect automobile	1,526	1,912

Total consumer loans	1,945	2,352

Residential mortgage	31,917	23,169
Home equity lines of credit	3,708	3,154
Total mortgage loans	35,625	26,323
Total nonaccrual loans	\$58,027	\$ 47,012

If such nonaccrual loans had been on a full accrual basis, interest income on these loans for the three months ended June 30, 2018, and 2017, would have been \$645,000 and \$494,000, respectively. For the six months ended June 30, 2018, and 2017, the interest income on these loans would have been \$1.2 million and \$876,000, respectively. The amount of repurchased GNMA

#### TDR Loans

During the three months ended June 30, 2018, loans in the amount of \$3.4 million were restructured and were modified for term, and no loans were modified for interest. The modified loans were mortgage, indirect automobile and home equity lines of credit. During the six months ended June 30, 2018, the amount of loans that were modified for term was \$4.5 million, which were mortgage, indirect automobile and home equity loans. There were no loans modified for interest rate. During the three months ended June 30, 2017, \$4.4 million of loans were modified for term and \$2.6 million for interest, all of which were commercial loans. During the the six months ended June 30, 2017, \$4.4 million loans were modified for term and \$2.8 million were modified for interest, all of which were commercial loans. Modified PCI loans are not removed from their accounting pool and accounted for as TDRs, even if those loans would otherwise be deemed TDRs.

During the three months ended June 30, 2018, and 2017, the amount of loans which were restructured in the past twelve months and subsequently redefaulted was \$2.3 million and \$194,000, respectively. The defaulted loans were commercial, mortgage indirect, and home equity lines of credit. During the six months ended June 30, 2018, and 2017, \$2.6 million and \$198,000 respectively, of loans were restructured and subsequently defaulted, which was comprised of commercial, mortgage, indirect, and HELOCs. The Company defines subsequently redefaulted as a payment default within 12 months of the restructuring date.

The Company had total TDRs with a balance of \$23.5 million and \$20.7 million at June 30, 2018, and December 31, 2017, respectively. There were no net charge-offs of TDR loans for the three and six months ended June 30, 2018 and net charge-offs of \$17,000 and \$60,000 for the three and six months ended June 30, 2017. Net charge-offs on such loans are factored into the rolling historical loss rate, which is used in the calculation of the allowance for loan losses. The Company was not committed to lend additional amounts to customers with outstanding loans classified as TDRs as of June 30, 2018 or December 31, 2017.

### Pledged Loans

Presented in the following table is the unpaid principal balance of loans held for investment that were pledged to the Federal Home Loan Bank of Atlanta ("FHLB of Atlanta") as collateral for borrowings under a blanket lien arrangement at June 30, 2018, and December 31, 2017:

(in thousands)	June 30,	December 31,
(in thousands)	2018	2017
Commercial	\$305,162	\$ 242,695
Home equity lines of credit	108,505	94,526
Residential mortgage	391,109	351,591
Total	\$804,776	\$ 688,812

Indirect automobile loans with an unpaid principal balance of approximately \$330.0 million at June 30, 2018, and December 31, 2017, respectively, were pledged to the Federal Reserve Bank of Atlanta ("FRB") as collateral for potential Discount Window borrowings under a blanket lien arrangement.

#### **Table of Contents**

#### **Impaired Loans**

The following tables present by class the unpaid principal balance, recorded investment and related allowance for impaired legacy loans and acquired non PCI loans at June 30, 2018, and December 31, 2017. Legacy impaired loans include all TDRs and all other nonaccrual loans, excluding nonaccrual loans below the Company's specific review threshold:

	June 30, 2018			December 31, 2017		
(in thousands)	Unpaid Principa Balance	Recorded Investment <sup>(1)</sup>	Related Allowance	Unpaid Principa Balance	Recorded Investment <sup>(1)</sup>	Related Allowance

Residential mortgage	30,990	29,696	21,955 2	1,398		
Home equity lines of credit	2,572	2,412	2,452 2	,318		
Loans	\$52,090	\$ 45,840	\$48,501 \$	42,041		

<sup>&</sup>lt;sup>(1)</sup>The primary difference between the unpaid principal balance and recorded investment represents charge-offs previously taken; it excludes accrued interest receivable due to materiality. Related allowance is calculated on the recorded investment, not the unpaid principal balance.

Included in impaired loans with no allowance are \$27.2 million and \$19.5 million in government-guaranteed residential mortgage loans at June 30, 2018, and December 31, 2017, respectively. These loans are collateralized by first mortgages on the underlying real estate collateral and are individually reviewed for a specific allowance. The average recorded investment in impaired loans and interest income recognized for the three and six months ended June 30, 2018, and 2017, by class, are summarized in the table below. Impaired loans include legacy impaired loans, all TDRs and all other nonaccrual loans including GNMA optional repurchase loans.

**Credit Quality Indicators** 

The Company uses an asset quality ratings system to assign a numeric indicator of the credit quality and level of existing credit risk inherent in a loan ranging from 1 to 8, where a higher rating represents higher risk. Management regularly reviews loans in the portfolio to assess credit quality indicators and to determine appropriate loan classification and grading in accordance with the Company's internal loan policy. These ratings are adjusted periodically as the Company becomes aware of changes in the credit quality of the underlying loans through its ongoing monitoring of the credit quality of the loan portfolio.

Indirect automobile loans typically receive a risk rating only when being downgraded to an adverse rating which typically occurs when payments of principal and interest are greater than 90 days past due. The Company uses a number of factors, including FICO scoring, to help evaluate the likelihood consumer borrowers will pay their credit obligations as agreed. The weighted-average FICO score for the indirect automobile portfolio was 763 and 762 at June 30, 2018, and December 31, 2017, respectively.

The following are definitions of the Company's loan rating categories:

- •Pass Pass loans include loans rated satisfactory with high, good, average or acceptable business and credit risk.
- •Special Mention A special mention loan has potential weaknesses that deserve management's close attention.
- •Substandard A substandard loan is inadequately protected by the current sound worth and paying capacity of the obligor or of the collateral pledged, if any. A substandard asset has a well-defined weakness, or weaknesses, that jeopardize the liquidation of the debt.
- •Doubtful Doubtful loans have all the weaknesses inherent in assets classified substandard with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions, and values, highly questionable and improbable.
- •Loss Loss loans are considered uncollectable and of such little value that their continuance as recorded assets is not warranted.

#### **Table of Contents**

The following tables present the recorded investment in loans, by loan class and risk rating category, as of June 30, 2018, and December 31, 2017:

The carrying amount and outstanding balance at June 30, 2018, of the PCI loans from acquisitions prior to 2018 was \$23.8 million and \$31.7 million, respectively, and \$26.6 million and \$35.3 million, respectively, at December 31, 2017. There were no loans acquired during the six months ended June 30, 2018.

Changes in the accretable yield, or income expected to be collected on PCI loans, for the six months ended June 30, 2018, and 2017, were as follows:
