REGAL-BELOIT CORPORATION REPORTS FOURTH QUARTER AND YEAR 2003 FINANCIAL RESULTS

**Fourth quarter 2003 EPS of \$.24
improved 33% from \$.18 in comparable 2002**

January 28, 2004 (Beloit, WI): James L. Packard, Chairman and Chief Executive Officer of REGAL-BELOIT Corporation (AMEX:RBC), today reported 2003 net sales of \$619.1 million and net income of \$25.2 million, or \$1.00 per share.

Fourth quarter 2003 net income and EPS were \$6.1 million and \$.24 per share, 34% and 33% increases, respectively, from \$4.6 million and \$.18 per share in the fourth quarter of 2002. Last year's fourth quarter included an after-tax charge of \$725,000, or \$.03 per share, for plant consolidations. Excluding this charge, the net income and EPS increases this year would be 15% and 14%, respectively. Net income for 2003 of \$25.2 million was 3% above \$24.5 million in 2002, while EPS was \$1.00 per share in 2003 compared to \$1.01 last year.

Net sales of the Company were \$152.1 million in the fourth quarter of 2003, a 4% increase from \$146.0 million in comparable 2002. Net sales for 2003 were \$619.1 million, 2% higher than 2002 net sales of \$605.3 million. Mechanical Group net sales in 2003 were 2% and 3% below fourth quarter and year 2002 sales, respectively, while Electrical Group net sales were 7% and 5% above fourth quarter and year 2002 sales. (See accompanying financial schedules for segment data.)

Income from operations in the fourth quarter was \$10.9 million for the Company, a 28% increase from 2002, improving to 7.2% as a percent of sales from 5.8% in comparable 2002. For the year 2003, income from operations was \$45.9 million, a 2% decrease from 2002, with operating margin decreasing from 7.7% in 2002 to 7.4% in 2003.

Fourth quarter 2003 cash flow from operations of \$16.8 million contributed to the full year 2003 total of \$56.8 million. The 2003 operating cash flow enabled the Company to reduce its long-term debt during the year by \$27.1 million to \$195.7 million, after funding \$18.0 million of capital expenditures and \$12.0 million of dividends in 2003.

“The fourth quarter developed much as we had indicated in our October 2003 news release and conference call,” said Mr. Packard. “While our customers and the overall market place are increasingly more positive, fourth quarter average daily orders were up only slightly from the third quarter and our motor sales decreased seasonally as expected.”

“The facilities rationalizations and significant cost improvements implemented in 2003 were for the most part completed in the fourth quarter, and while these actions took longer than expected, we are confident they have positioned us well for the future and will give us the results planned.”

“As we now look to the first quarter and think about 2004,” added Mr. Packard, “we are encouraged by what appears to be a broad-based indication that the business environment is improving, and in fact the industrial base is re-emerging with some sustainable strength. We believe growth will develop gradually throughout the year, and that the industrial businesses will lag the general economy by three to six months. While we have some concerns about the pace of our growth opportunities and we are seeing significant raw material price increases, we are still estimating our earnings for the first quarter to be in the range of \$.24 - \$.28 per share.”
