Edgar Filing: SCUDDER STRATEGIC MUNICIPAL INCOME TRUST - Form N-30D

Zurich Scudder Investments, Inc., is a leading global investment management firm, managing more than \$325 billion in assets for individuals, corporate clients, retirement and pension plans, and insurance companies.

Performance Summary November 30, 2001

Average Annual Total Returns				
	1-Year	3-Year	5-Year	10-Year
Based on Net Asset Value ^(a)	10.98%	5.95%	6.41%	7.37%
Based on Market Price	21.78%	4.84%	6.30%	7.09%

Net Asset Value and Market Price		
	As of 11/30/01	As of 11/30/00
Net Asset Value	\$ 11.83	\$ 11.37
Market Price	\$ 12.01	\$ 10.51

Distribution Information	
Twelve Months:	
Income Dividends	\$.75
November Income Dividend	\$.0625
Current Annualized Distribution Rate (based on Net Asset Value)+	6.34%
Current Annualized Distribution Rate (based on Market Price)+	6.24%
Tax Equivalent Distribution Rate (based on Net Asset Value)+	10.41%
Tax Equivalent Distribution Rate (based on Market Price)+	10.25%

+ Current annualized distribution rate is the latest monthly dividend shown as an annualized percentage of net asset value/market price on November 30, 2001. Distribution rate simply measures the level of dividends and is not a complete measure of performance. Tax equivalent distribution rate is based on the Fund's yield and an income tax rate of 39.1%. Distribution rates are historical and will fluctuate.

^(a) Total investment returns reflect changes in net asset value per share during each period and assume that dividends and capital gains distributions, if any, were reinvested. These percentages are not an indication of the performance of a shareholder's investment in the Fund based on market price.

All performance is historical, assumes reinvestment of all dividends and capital gains, and is not indicative of future results. Investment return and principal value will fluctuate.

Investments in funds involve risk. Some funds have more risk than others. These include funds that allow exposure to or otherwise concentrate investments in certain sectors, geographic regions, security types, market capitalization or foreign securities (e.g., political or economic instability, which can be accentuated in emerging market countries).

Portfolio Management Review

Scudder Strategic Municipal Income Trust: A Team Approach to Investing

[Portfolio Manager(s) Photograph(s)]

Scudder Strategic Municipal Income Trust is managed by a team of Zurich Scudder Investments, Inc. (the "Advisor") professionals, each of whom plays an important role in the fund's management process. Team members work together to develop investment strategies and select securities for the fund's portfolio. They are supported by the Advisor's large staff of economists, research analysts, traders, and other investment specialists who work in offices across the United States and abroad. The Advisor believes that a team approach benefits fund investors by bringing together many disciplines and leveraging the firm's extensive resources.

Lead Portfolio Manager Philip G. Condon joined the Advisor in 1983 and has had overall responsibility for the Trust's day-to-day management and investment strategies since 1998. Mr. Condon has over 25 years of experience in municipal investing and portfolio management.

Portfolio Manager Rebecca L. Wilson joined the Advisor in 1986 and the Trust team in 1998. Ms. Wilson has over 16 years of experience in municipal investing.

In the following interview, Scudder Strategic Municipal Income Trust's management team of Philip G. Condon, lead portfolio manager, and Rebecca L. Wilson, portfolio manager, discuss the Trust's performance and the recent market environment for municipal bonds.

Q: How did Scudder Strategic Municipal Income Trust perform for the year ending November 30, 2001?

A: We are pleased with Scudder Strategic Municipal Income Trust's results. For the year ending November 30, 2001, the Trust's 10.98 percent return on a net asset value basis earned it a #1 ranking in the Lipper high-yield municipal debt funds category (leveraged), which included 12 funds as of November 30, 2001. The Trust's average category peer rose 7.22 percent on a net asset value basis during the period. On a market value basis, the Trust gained 21.78 percent in the period, while its average Lipper peer rose 14.32 percent. The unmanaged Lehman Brothers Municipal Bond Index* returned 8.75 percent. The Trust's focus on solid call protection and intermediate-term issues aided performance during the period. In addition, as interest rates continued to decline, the Trust benefited from the attractive rates afforded to it through its outstanding preferred shares, thus optimizing the return to investors.

** The Lehman Brothers Municipal Bond Index contains approximately 15,000 bonds. To be in the index, a municipal bond must meet the following criteria: a minimum credit rating of BBB, issued as part of an issue of at least \$50 million, issued within the last five years and a maturity of at least two years. Bonds subject to alternative minimum tax, variable-rate bonds and zero-coupon bonds are excluded from the index. It is not possible to invest in the index.*

Further, Scudder Strategic Municipal Income Trust's returns have been consistently strong over the long term. Among its Lipper peer group, for the three-, five- and 10-year periods, the Trust ranks #1 versus the 12, 12 and 11 funds, respectively, in its category. (Please see the performance summary on page 4 for standardized return figures for each time period.)

Q: How did the overall bond market and municipal bond investments, in particular, behave in the year ending November 30, 2001? And will you expand on how the current positioning helped the Trust be successful in this environment?

A: Higher-quality tax-free bonds as well as taxable bonds provided excellent results and outperformed equities in the last year. The Lehman Brothers Municipal Bond Index rose 8.75 percent and the Lehman Brothers Aggregate Bond Index* gained 11.16 percent during the period, while the S&P 500 lost 12.23 percent, and the Nasdaq fell 25.69 percent. This outperformance by bonds was driven, in part, by the Federal Reserve Board's commitment to reducing short-term interest rates in an effort to stimulate the economy. The Fed reduced the federal funds rate to 2.00 percent by November 30, 2001, from 6.50 percent as of November 30, 2000. (That rate was further reduced to 1.75 percent on December 11.) Further economic instability, in part due to the events of September 11, also continued to increase investor demand for fixed-income securities, particularly higher-quality issues.

Edgar Filing: SCUDDER STRATEGIC MUNICIPAL INCOME TRUST - Form N-30D

** The Lehman Brothers Aggregate Bond index is a total return index including fixed-rate debt issues rated investment-grade or better. It contains government, corporate and mortgage securities and is generally considered representative of the market for investment-grade bonds as a whole.*

This year, we generally saw the municipal bond yield curve become much steeper, as the difference in yields between longer-term bonds and shorter-term bonds rose. The difference in yield between a one-year AAA-rated municipal bond versus that of a 30-year AAA-rated municipal bond was 118 basis points as of November 30, 2000, but that difference had risen to 313 basis points as of November 30, 2001. (A basis point is the movement of interest rates or yields expressed as hundredths of a percent.) This steepening made intermediate-term securities attractive relative to longer-term issues. The yields on individual 10-year AAA-rated municipal bonds generally declined overall over the past year, however. A 10-year AAA-rated municipal bond is now yielding 4.21 percent, 50 basis points less than the 4.71 percent it was yielding as of November 30, 2000. That has made solid call protection, which we emphasized, important. Bonds with call protection are typically less likely to be bought back early by their issuers when interest rates decline. As rates came down, these bonds kept paying the higher yields we had previously locked in, while prices of the bonds rose.

Q: What is your position on the performance of municipal bonds according to their state of issuance?

A: California bonds continue to feel some stress, as the state's economy - the largest in the nation - is feeling pressure from the U.S. recession. In addition, California bonds are still suffering from the energy issues the state has faced as a result of its attempt at deregulating its power industry. The issuance of about \$13 billion of municipal bonds by the California Department of Water Resources, which is designed to help pay back the state coffers drained by the energy problems, has not yet been executed, which has caused increased uncertainty. Bonds issued by states that are heavily driven by tourism, such as Hawaii, New York and Florida, are also being watched closely, though we do not see their being impacted over the long term as a result of this short-term dip in tourism. In contrast, states that have significant military operations, such as Virginia and Wyoming, may see somewhat of a positive impact from increased government spending on military and military installations in their states.

Q: How was Scudder Strategic Municipal Income Trust positioned over the last year and how have you prepared for the road ahead?

A: During much of the period, the Trust was committed to solid credits with call protection, which helped as interest rates continued to decline throughout 2001. The Trust has benefited from its focus on intermediate-term securities as the yield curve has become steeper, moving from an inverted curve in 2000. (When the yield curve is inverted, such as it was in most of 2000, bonds with shorter maturities are yielding more than those with longer maturities, which is the inverse of the norm.)

In recent months, we began to extend into long-term municipal bonds, as we believe the yield curve will likely flatten. In fact, it already began to flatten a bit in November, and we expect that trend to continue into 2002. As a result, we have begun to add more longer-term municipal bonds, while structuring the portfolio to maintain its neutral duration.

The Trust did not add much to our high-yield exposure in recent months, however, because credit spreads were narrow. We do believe spreads on high-yield issues relative to high-grade bonds are now becoming more reasonable. With high-yield spreads beginning to widen, it is more likely that more high-yield issues may be added in the upcoming six months.

Q: What's your outlook for the municipal bond market over the course of the next six months?

A: Our outlook for the municipal bond market remains positive. We believe the yield curve will flatten - meaning that the difference between the yields on short-term bonds and long-term bonds will decrease - in the first half of 2002 as the market prepares for more stable interest rates and as the U.S. economy stabilizes.

Municipal bonds yields vs. Treasury yields

November 30, 2001

Source: Zurich Scudder Investments, Inc. and Bloomberg Business News. This chart is not intended to represent the yield of any Scudder fund.

Moreover, we believe municipal bonds remain attractive relative to taxable bonds. Municipal bonds are now selling cheaply relative to U.S. Treasuries of the same maturity. For instance, a 10-year AAA-rated municipal bond yielded 4.21 percent as of November 30, 2001, while 10-year U.S. Treasury bonds yielded 4.73 percent. With a municipal bond's tax-free advantage over a Treasury bond, a municipal bond's yield becomes even more attractive.

The views expressed in this report reflect those of the portfolio managers only through the end of the period of the report as stated on the cover. The managers' views are subject to change at any time, based on market and other conditions.

* Floating rate notes are securities whose yields vary with a designated market index or market rate, such as the coupon-equivalent of the U.S. Treasury bill rate. Variable rate demand notes are securities whose interest rates are reset periodically at market levels. These securities are often payable on demand within seven calendar days and normally incorporate an irrevocable letter of credit or line of credit from a major bank. These notes are carried, for purposes of calculating average weighted maturity, at the longer of the period remaining until the next rate change or to the extent of the demand period. These securities are shown at their current rate as of November 30, 2001.

(a) The cost for federal income tax purposes was \$188,027,471. At November 30, 2001, net unrealized appreciation for all securities based on tax cost was \$8,019,750. This consisted of aggregate gross unrealized appreciation for all securities in which there was an excess of value over tax cost of \$12,538,858 and aggregate gross unrealized depreciation for all securities in which there was an excess of tax cost over value of \$4,519,108.

(b) Prerefunded: Bonds which are Prerefunded are collateralized by U.S. Treasury securities which are held in escrow and are used to pay principal and interest on tax-exempt issues and to retire the bond in full at the earliest refunding date.

(c) Bond is insured by one of these companies: AMBAC, Capital Guaranty, FGIC, FSA or MBIA.

AMT: Alternative minimum tax

ETM: Bonds bearing the description ETM (escrowed to maturity) are collateralized by U.S. Treasury securities which are held in escrow by a trustee and used to pay principal and interest on bonds so designated.

The accompanying notes are an integral part of the financial statements.

^a Based on average shares outstanding during the period.

^b On September 29, 1999, the Fund issued 2,800 remarketed preferred shares.

^c Total return based on net asset value reflects changes in the Fund's net asset value during the period. Total return based on market value reflects changes in market value. Each figure includes reinvestment of dividends. These figures will differ depending upon the level of any discount from or premium to net asset value at which the Fund's shares trade during the period.

Notes to Financial Statements

A. Significant Accounting Policies

Scudder Strategic Municipal Income Trust (the "Fund"), formerly Kemper Strategic Municipal Income Trust, is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as a closed-end, diversified management investment company organized as a Massachusetts business trust.

The Fund's financial statements are prepared in accordance with accounting principles generally accepted in the United States of America which require the use of management estimates. Actual results could differ from those estimates. The policies described below are followed consistently by the Fund in the preparation of its financial statements.

Security Valuation. Investments are stated at value determined as of the close of regular trading on the New York Stock Exchange on each day the exchange is open for trading. Debt securities are valued by independent pricing services approved by the Trustees of the Fund. If the pricing services are unable to provide valuations, securities are valued at the most recent bid quotation or evaluated price, as applicable, obtained from one or more broker-dealers. Such services may use various pricing techniques which take into account appropriate factors such as yield, quality, coupon rate, maturity, type of issue, trading characteristics and other data, as well as broker quotes. Money market instruments purchased with an original or remaining maturity of sixty days or less, maturing at par, are valued at amortized cost. Investments in open-end investment companies and Zurich Scudder Cash Management QP Trust are valued at their net asset value each business day.

Securities and other assets for which market quotations are not readily available or for which the above valuation procedures are deemed not to reflect fair value are valued in a manner that most fairly reflects fair value, as determined in accordance with procedures approved by the Trustees.

Federal Income Taxes. The Fund's policy is to comply with the requirements of the Internal Revenue Code, as amended, which are applicable to regulated investment companies and to distribute all of its taxable and tax-exempt income to its shareholders. Accordingly, the Fund paid no federal income taxes and no federal income tax provision was required.

At November 30, 2001, the Fund had a net tax basis capital loss carryforward of approximately \$260,000 which may be applied against any realized net taxable capital gains of each succeeding year until fully utilized or until November 30, 2008, the expiration date, whichever occurs first.

Distribution of Income and Gains. Distributions of net investment income to common shareholders, if any, are made monthly. Net realized gains from investment transactions, in excess of available capital loss carryforwards, would be taxable to the Fund if not distributed, and, therefore, will be distributed to shareholders at least annually.

The timing and characterization of certain income and capital gains distributions are determined annually in accordance with federal tax regulations which may differ from accounting principles generally accepted in the United States of America. As a result, net investment income (loss) and net realized gain (loss) on investment transactions for a reporting period may differ significantly from distributions during such period. Accordingly, the Fund may periodically make reclassifications among certain of its capital accounts without impacting the net asset value of the Fund.

Preferred Shares. The Fund has issued and outstanding 2,800 Series T municipal auction rate cumulative preferred shares, each at a liquidation value of \$25,000 per share. The preferred shares are senior to and have certain class specific preferences over the common shares. The dividend rate on each series is set through an auction process, and the dividends are generally paid every 7 days. The 1940 Act requires that the preferred shareholders of the Fund, voting as a separate class, have the right to: a) elect at least two trustees at all times, and b) elect a majority of the trustees at any time when dividends on the preferred shares are unpaid for two full years. Unless otherwise required by law or under the terms of the preferred shares designation statement, each preferred share is entitled to one vote and preferred shareholders will vote together with common shareholders as a single class and have the same voting rights.

Other. Investment transactions are accounted for on the trade date. Interest income is recorded on the accrual basis. Realized gains and losses from investment transactions are recorded on an identified cost basis. All premiums and original issue discounts are amortized/accreted for financial reporting purposes.

B. Purchases and Sales of Securities

For the year ended November 30, 2001, purchases and sales of investment securities (excluding short-term investments) aggregated \$18,704,495 and \$19,089,478, respectively.

C. Related Parties

Management Agreement. Under the Investment Management Agreement (the "Management Agreement") with Zurich Scudder Investments, Inc., ("ZSI" or the "Advisor"), formerly Scudder Kemper Investments, Inc., the Advisor directs the investments of the Fund in accordance with its investment objectives, policies and restrictions. The Advisor determines the securities, instruments and other contracts relating to investments to be purchased, sold or entered into by the Fund. In addition to portfolio management services, the Advisor provides certain administrative services in accordance with the Management Agreement. The Fund pays a monthly investment management fee of 1/12 of the annual rate of 0.60% of average weekly net assets, computed and accrued daily and payable monthly.

On September 24, 2001, Deutsche Bank and Zurich Financial Services, parent company of ZSI, the investment manager for the Fund, announced that they have signed an agreement in principle under which Deutsche Bank will acquire 100% of ZSI. The agreement in principle does not include ZSI's Threadneedle Investments in the U.K., which will be retained by Zurich Financial Services. On December 4, 2001, a definitive agreement was signed and the transaction is expected to be completed, pending regulatory approval and satisfaction of other conditions, in the first half of 2002.

Service Provider Fees. Scudder Investments Service Company, ("SISC"), formerly Kemper Service Company, an affiliate of the Advisor, is the transfer, dividend-paying and shareholder service agent of the Fund. The amount charged to the Fund by SISC aggregated \$24,000, of which \$6,461 is unpaid at November 30, 2001.

Trustees' Fees and Expenses. The Fund pays each Trustee not affiliated with the Advisor an annual retainer plus specified amounts for attended board and committee meetings.

D. Expense Off-Set Arrangements

The Fund has entered into arrangements with its custodian and transfer agent whereby credits realized as a result of uninvested cash balances were used to reduce a portion of the Fund's expenses. During the year ended November 30, 2001, the Fund's custodian and transfer agent fees were reduced by \$4,948 and \$1,415, respectively, under these arrangements.

E. Line of Credit

The Fund and several other affiliated funds (the "Participants") share in a \$750 million revolving credit facility with J.P. Morgan Chase & Co. for temporary or emergency purposes. The Participants are charged an annual commitment fee which is allocated, pro rata based upon net assets, among each of the Participants. Interest is calculated at the Federal Funds Rate plus 0.5 percent. The Fund may borrow up to a maximum of 33 percent of its net assets under the agreement.

F. Adoption of New Accounting Principle

The Fund will adopt the provisions of the AICPA Audit and Accounting Guide for Investment Companies, as revised, effective for fiscal years beginning after December 15, 2000. The revised Audit and Accounting Guide will require the Fund to amortize premium on all fixed-income securities. Upon initial adoption, the Fund will be required to adjust the cost of its fixed-income securities by the cumulative amount of amortization/accretion that would have been recognized had amortization/accretion been in effect from the purchase date of each holding. The adoption of this accounting principle will not affect the Fund's net asset value, but will change the classification of certain amounts between interest income and realized and unrealized gain (loss) in the Statement of Operations.

Report of Ernst & Young LLP, Independent Auditors

To the Trustees and Shareholders of Scudder Strategic Municipal Income Trust:

We have audited the accompanying statement of assets and liabilities, including the investment portfolio, of Scudder Strategic Municipal Income Trust, (the "Fund"), formerly Kemper Strategic Municipal Income Trust, as of November 30, 2001, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights. Our procedures included confirmation of securities owned as of November 30, 2001, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of the Scudder Strategic Municipal Income Trust, at November 30, 2001, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States.

Boston, Massachusetts	/s/ Ernst & Young LLP

January 3, 2002

Tax Information (Unaudited)

Of the dividends paid from net investment income for the taxable year ended November 30, 2001, 100% are designated as exempt interest dividends for federal income tax purposes.

Please consult a tax advisor if you have questions about federal or state income tax laws, or on how to prepare your tax returns. If you have specific questions about your account, please call 1-800-621-1048.

Dividend Reinvestment Plan

A. Participation

We invite you to review the description of the Dividend Reinvestment Plan (the "Plan") which is available to you as a shareholder of Scudder Strategic Municipal Income Trust, formerly Kemper Strategic Municipal Income Trust (the "Fund"). If you wish to participate and your shares are held in your own name, simply contact Scudder Investments Service Company, whose address and phone number are provided in Paragraph D for the appropriate form. If your shares are held in the name of a brokerage firm, bank, or other nominee, you must instruct that nominee to re-register your shares in your name so that you may participate in the Plan, unless your nominee has made the Plan available on shares held by them. Shareholders who so elect will be deemed to have appointed United Missouri Bank, N.A. ("UMB") as their agent and as agent for the fund under the Plan.

B. Dividend Investment Account

The Fund's transfer agent and dividend disbursing agent or its delegate ("Agent") will establish a Dividend Investment Account (the "Account") for each shareholder participating in the Plan. Agent will credit to the Account of each participant funds it receives from the following sources: (a) cash dividends and capital gains distributions paid on shares of beneficial interest (the "Shares") of the Fund registered in the participant's name on the books of the Fund; (b) cash dividends and capital gains distributions paid on Shares registered in the name of Agent but credited to the participant's Account. Sources described in clauses (a) and (b) of the preceding sentence are hereinafter called "Distributions."

C. Investment of Distribution Funds held in each account

If on the record date for a Distribution (the "Record Date"), Shares are trading at a discount from net asset value per Share (according to the evaluation most recently made on Shares of the Fund), funds credited to a participant's Account will be used to purchase Shares (the "Purchase"). UMB will attempt, commencing five days prior to the Payment Date and ending at the close of business on the Payment Date ("Payment Date" as used herein shall mean the last business day of the month in which such Record Date occurs), to acquire Shares in the open market. If and to the extent that UMB is unable to acquire sufficient Shares to satisfy the Distribution by the close of business on the Payment Date, the fund will issue to UMB Shares valued at net asset value per Share (according to the evaluation most recently made on Shares of the Fund) in the aggregate amount of the remaining value of the Distribution. If, on

the Record Date, Shares are trading at a premium over net asset value per Share, the Fund will issue on the Payment Date, Shares valued at net asset value per Share on the Record Date to Agent in the aggregate amount of the funds credited to the participants' accounts.

D. Additional Information

Address all notices, correspondence, questions, or other communication regarding the Plan to:

Scudder Investments Service Company
P.O. Box 219066
Kansas City, Missouri 64121-7194
1-800-294-4366

E. Adjustment of Purchase Price

The Fund will increase the price at which Shares may be issued under the Plan to 95% of the fair market value of the shares on the Record Date if the net asset value per Share of the Shares on the Record Date is less than 95% of the fair market value of the Shares on the Record Date.

F. Determination of Purchase Price

The cost of Shares and fractional Shares acquired for each participant's Account in connection with a Purchase shall be determined by the average cost per Share, including brokerage commissions as described in Paragraph G hereof, of the Shares acquired by UMB in connection with that Purchase. Shareholders will receive a confirmation showing the average cost and number of Shares acquired as soon as practicable after Agent has received or UMB has purchased Shares. Agent may mingle the cash in a participant's account with similar funds of other participants of the Fund for whom UMB acts as agent under the Plan.

G. Brokerage Charges

There will be no brokerage charges with respect to Shares issued directly by the Fund as a result of Distributions. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to UMB's open market purchases in connection with the reinvestment of Distributions. Brokerage charges for purchasing small amounts of Shares for individual Accounts through the Plan can be expected to be less than the usual brokerage charges for such transactions, as UMB will be purchasing Shares for all participants in blocks and prorating the lower commission thus attainable.

H. Service Charges

There is no service charge by Agent or UMB to shareholders who participate in the Plan other than service charges specified in Paragraph L hereof. However, the Fund reserves the right to amend the Plan in the future to include a service charge.

I. Transfer of Shares held by Agent

Agent will maintain the participant's Account, hold the additional Shares acquired through the Plan in safekeeping and furnish the participant with written confirmation of all transactions in the Account. Shares in the Account are transferable upon proper written instructions to Agent. Upon request to Agent, a certificate for any or all full Shares in a participant's Account will be sent to the participant.

J. Shares not held in shareholder's name

To the Trustees and Shareholders of Scudder Strategic Municipal Income Trust:

Beneficial owners of Shares which are held in the name of a broker or nominee will not be automatically included in the Plan and will receive all distributions in cash. Such shareholders should contact the broker or nominee in whose name their Shares are held to determine whether and how they may participate in the Plan.

K. Amendments

Experience under the Plan may indicate that changes are desirable. Accordingly, the Fund reserves the right to amend or terminate the Plan, including provisions with respect to any Distribution paid subsequent to notice thereof sent to participants in the Plan at least ninety days before the record date for such Distribution.

L. Withdrawal from Plan

Shareholders may withdraw from the Plan at any time by giving Agent a written notice. If the proceeds are \$25,000 or less and the proceeds are to be payable to the shareholder of record and mailed to the address of record, a signature guarantee normally will not be required for notices by individual account owners (including joint account owners), otherwise a signature guarantee will be required. In addition, if the certificate is to be sent to anyone other than the registered owner(s) at the address of record, a signature guarantee will be required on the notice. A notice of withdrawal will be effective for the next Distribution following receipt of the notice by the Agent provided the notice is received by the Agent at least ten days prior to the Record Date for the Distribution. When a participant withdraws from the Plan, or when the Plan is terminated in accordance with Paragraph K hereof, the participant will receive a certificate for full Shares in the Account, plus a check for any fractional Shares based on market price; or if a Participant so desires, Agent will notify UMB to sell his Shares in the Plan and send the proceeds to the participant, less brokerage commissions and a \$2.50 service fee.

M. Tax Implications

Shareholders will receive tax information annually for personal records and to assist in preparation of their Federal income tax returns. If Shares are purchased at a discount, the amount of the discount is considered taxable income and is added to the cost basis of the purchased shares.

N. Amendment of the Plan

Effective April 1, 2002, the Board of Trustees of the Fund has amended the Fund's Plan and, in connection with that amendment, has approved the appointment of UBS PaineWebber ("UBS") as Plan Agent, replacing UMB. As part of the amendments, a voluntary cash purchase option has been added to the Plan. A participant will be able to make voluntary cash contributions to their account by sending a check or money order to Scudder Investments Service Company, in a minimum amount of \$100 with appropriate accompanying instructions. (No more than \$500 may be contributed per month.) Scudder Investments Service Company will inform UBS of the total funds available for the purchase of shares and UBS will use the funds to purchase additional shares for the participant's account the earlier of: (a) when it next purchases shares as a result of a distribution or (b) on or shortly after the first day of each month and in no event more than thirty days after such date except when temporary curtailment or suspension of purchases is necessary to comply with applicable provisions of Federal securities laws. Participants in the Plan have been notified of these amendments. No action is required on the part of participants with respect to their status in the Plan.

Shareholder Meeting Results

Edgar Filing: SCUDDER STRATEGIC MUNICIPAL INCOME TRUST - Form N-30D

A Special Meeting of Shareholders (the "Meeting") of Scudder Strategic Municipal Income Trust (the "fund") was held on Thursday, May 24, 2001, at the office of Zurich Scudder Investments, Inc., Two International Place, Boston, MA 02110. At the Meeting, the following matters were voted upon by the shareholders (the resulting votes for each matter are presented below).

1. To elect twelve Trustees to the Board of Trustees (effective July 1, 2001), with ten Trustees to be elected by the holders of Preferred and Common Shares voting together and two Trustees to be elected by the holders of the Preferred Shares only:

Trustees	Number of Votes:	
	For	Withheld
John W. Ballantine	9,270,289	89,012
Lewis A. Burnham	9,253,336	105,965
Mark S. Casady	9,270,289	89,012
Linda C. Coughlin	9,270,736	88,565
Donald L. Dunaway	9,270,289	89,012
James R. Edgar	9,263,004	96,297
Robert B. Hoffman	9,270,642	88,659
Shirley D. Peterson	9,267,626	91,675
Fred B. Renwick	9,253,502	105,799
William P. Sommers	9,245,836	113,465
William F. Glavin	2,668	0
John G. Weithers	2,668	0

2. To ratify the selection of Ernst & Young LLP as the independent auditors for the fund for the fund's current fiscal year:

Affirmative	Against	Abstain
9,275,777	33,603	49,921

Scudder funds are offered by prospectus only. For more complete information on any fund or variable annuity registered in your state, including information about a fund's objectives, strategies, risks, advisory fees, distribution charges, and other expenses, please order a free prospectus. Read the prospectus before investing in any fund to ensure the fund is appropriate for your goals and risk tolerance. There is no assurance that the objective of any fund will be achieved, and fund returns and net asset values fluctuate. Shares are redeemable at current net asset value, which may be more or less than their original cost.

A money market mutual fund investment is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Although a money market mutual fund seeks to preserve the value of your investment at \$1 per share, it is possible to lose money by investing in such a fund.

The services and products described should not be considered a solicitation to buy or an offer to sell a security to any person in any jurisdiction where such offer, solicitation, purchase, or sale would be unlawful under the securities laws of such jurisdiction.
