RISK FACTORS

In considering whether to purchase notes, you should carefully consider all of the information contained in or incorporated by reference in this prospectus supplement and the accompanying prospectus, including but not limited to Omnicom Group Inc.'s Annual Report on Form 10-K for the year ended December 31, 2008 and other information which may be incorporated by reference into this prospectus supplement and the accompanying prospectus as provided under Where You Can Find More Information; Incorporation by Reference. Our ability to achieve and maintain profitability and our ability to continue to fund our operations on an on-going basis will depend on a number of factors, some of which are beyond our control. In addition to the risk factors set forth below, you should carefully consider the information under Special Note on Forward-Looking Statements and the risk factors set forth under the caption Risk Factors contained in Item 1A of Omnicom Group Inc.'s Annual Report on Form 10-K for the year ended December 31, 2008.

Omnicom Group Inc.'s Holding Company Structure May Result in Structural Subordination and May Affect the Issuers' Ability to Make Payments on the Notes

The notes are the joint and several obligations exclusively of the Issuers. Omnicom Group Inc. is a holding company and, accordingly, substantially all of its operations are conducted through its operating subsidiaries. Omnicom Capital and Omnicom Finance are wholly owned subsidiaries of Omnicom Group Inc. Their respective assets consist of the intercompany loans they make or have made to Omnicom Group Inc.'s operating subsidiaries and the related interest receivables. As a result, the Issuers' cash flow and their ability to make payments on their respective debt, including the notes, are dependent upon the earnings of these operating subsidiaries. Omnicom Group Inc. is dependent on the distribution of earnings, loans or other payments by the operating subsidiaries to it to service its obligations in respect of the notes and its other debt. In addition, to service debt, each of Omnicom Capital and Omnicom Finance, as a finance subsidiary, is also dependent on the earnings of the operating subsidiaries, the sale of certain assets of the operating subsidiaries and ability of the operating subsidiaries to repay principal and interest on the intercompany loans.

Omnicom Group Inc.'s operating subsidiaries are separate and distinct legal entities. These subsidiaries have no obligation to pay any amounts due on the notes or to provide the Issuers with funds for their respective payment obligations, whether by dividends, distributions, repayment or making of loans or other payments. In addition, any payment or repayment of dividends, distributions, loans or advances by these operating subsidiaries to the Issuers could be subject to legal or contractual restrictions. Payments to the Issuers by the operating subsidiaries will also be contingent upon the operating subsidiaries' earnings and business considerations.

Because of this structure the claims of creditors of Omnicom Group Inc.'s operating subsidiaries will have a priority over the equity rights of Omnicom Group Inc. and the rights of its creditors, including the holders of notes, to participate in the assets of the subsidiary upon the subsidiary's liquidation or reorganization. Although Omnicom Capital's and Omnicom Finance's respective loans to the operating subsidiaries are secured by the assets of those subsidiaries, the rights of Omnicom Capital and Omnicom Finance and their respective creditors, including holders of the notes, to participate in the assets of the operating subsidiaries will depend upon the amount of loans, and security for those loans, on the relevant date of determination. The amount of loans outstanding from Omnicom Capital and Omnicom Finance to these operating subsidiaries, and the value of the collateral securing the loans, may not be sufficient to assure repayment in full to all of Omnicom Capital's or Omnicom Finance's respective creditors. The loans or the security for such loans could also be invalidated in whole or in part in any liquidation or reorganization.

The Notes Do Not Restrict the Issuers' Ability to Incur Additional Debt, Repurchase their Securities or to Take Other Actions that Could Negatively Impact Holders of the Notes

The Issuers are not restricted under the terms of the notes from incurring additional debt or repurchasing its securities. In addition, the indenture does not contain any covenants which require the Issuers to achieve or maintain any minimum financial results relating to its financial position or results of operations. The Issuer's ability to recapitalize, incur additional debt and take a number of other actions that are not limited by the terms of the notes could have the effect of diminishing its ability to make payments on the notes when due.

An Active Trading Market for the Notes May Not Develop

There is currently no active public market for the notes. The notes will not be listed on any securities exchange or included in any automated quotation system. If the notes are traded, they may trade at a discount, depending on prevailing interest rates, the market for similar securities, Omnicom Group's performance and other factors. The Issuers do not know whether an active trading market will develop for the notes. To the extent that an active trading market does not develop, the price at which you may be able to sell the notes, if at all, may be less than the price you pay for them.

RATIO OF EARNINGS TO FIXED CHARGES

The following table shows the ratio of earnings to fixed charges of Omnicom Group Inc. for each of the five most recent fiscal years and for the three months ended March 31, 2009 and supersedes the Ratio of Earnings to Fixed Charges table on page 4 of the accompanying prospectus, as the table below reflects the consolidated financial statements of Omnicom Group Inc., as revised to reflect the retrospective adoption of three new accounting pronouncements, and as set forth in the Current Report on Form 8-K, filed with the SEC on June 24, 2009.

Three Months Ended	Year Ended				
March 31, 2009	December 31, 2008	December 31, 2007	December 31, 2006	December 31, 2005	December 31, 2004
4.99x	6.70x	6.93x	5.81x	5.70x	6.50x

The ratio of earnings to fixed charges is computed by dividing fixed charges into income before income taxes plus dividends from affiliates and fixed charges. Fixed charges consist of interest expense and that portion of net rental expense deemed representative of interest.

USE OF PROCEEDS

The net proceeds we receive from the sale of the notes, after deducting the underwriting discount and estimated offering expenses payable by us, will be approximately \$489.6 million. We intend to use the net proceeds from the sale of the notes to repay indebtedness outstanding under our \$2.5 billion revolving credit facility (including commercial paper) as of the settlement date shown on the cover to this prospectus supplement. Any net proceeds not used to repay such indebtedness will be used for general corporate purposes, which could include working capital expenditures, acquisitions, refinancing of other debt or other capital transactions. As of March 31, 2009, borrowings under our revolving credit facility, which matures in June 2011, bore interest at a weighted average rate of approximately 0.7325%. We used the borrowings under the credit facility for general corporate purposes and may reborrow amounts paid down on our revolving credit facility from time to time for general corporate purposes. Pending the application of the net proceeds, we may invest such net proceeds in short-term investment grade obligations. Affiliates of certain of the underwriters are lenders under our revolving credit facility and, therefore, will receive a portion of the net proceeds from the offering through the repayment of indebtedness under the credit facility.

CAPITALIZATION

The following table sets forth Omnicom Group Inc.'s actual consolidated cash, cash equivalents and short-term investments and capitalization, as of March 31, 2009, and as adjusted to reflect the issuance and sale of the notes and the use of net proceeds from this offering to repay indebtedness outstanding under our \$2.5 billion revolving credit facility (including commercial paper) as set forth under Use of Proceeds. DESCRIPTION OF NOTES

Set forth below is a description of the specific terms of the notes. This description supplements, and should be read together with, the description of the general terms and provisions of the debt securities, including the notes, set forth in the accompanying base prospectus under the caption Description of Debt Securities. The following description does not purport to be complete and is subject to, and is qualified in its entirety by reference to, the description of senior debt securities in the base prospectus and the senior indenture. If the description of the notes in this prospectus supplement differs from the description of senior debt securities in the base prospectus, the description of the notes in this prospectus supplement supersedes the description of debt securities in the base prospectus. When used in this section, the term Issuers refers solely to Omnicom Group Inc., Omnicom Capital and Omnicom Finance and not to any of their respective subsidiaries.

General

The notes will be issued in an initial aggregate principal amount of \$500,000,000. The notes will be issued only in registered form, without coupons, in denominations of \$2,000 and integral multiples of \$1,000 in excess thereof. The notes will be the joint and several unsecured senior obligations of Omnicom Group Inc., Omnicom Capital and Omnicom Finance and, as such, will rank equal in right of payment with all other existing and future senior indebtedness of Omnicom Group Inc., Omnicom Capital and Omnicom Finance and senior in right of payment to all of their existing and future subordinated indebtedness. The notes may effectively rank junior to all liabilities of our operating subsidiaries depending on the amount of loans to the operating subsidiaries and security for those loans on a relevant determination date. See Risk Factors Omnicom Group Inc.'s Holding Company Structure May Result in Structural Subordination and May Affect the Issuers' Ability to Make Payments on the Notes. See Use of Proceeds and Capitalization in this prospectus supplement. Omnicom Capital's and Omnicom Finance's obligations in respect of the notes are guaranteed by Omnicom Group Inc. S-14

As used in this summary, the term **U.S. holder** means a beneficial owner of a note that is, for U.S. federal income tax purposes:

- a citizen or resident of the United States;
- a corporation or other entity taxable as a corporation that is organized in or under the laws of the United States, any state thereof or the District of Columbia;
- an estate, the income of which is subject to U.S. federal income taxation regardless of its source; or
- a trust, if (1) a court within the United States is able to exercise primary supervision over the trust's administration and one or more United States persons, as defined in section 7701(a)(30) of the Internal Revenue Code, have the authority to control all substantial decisions of the trust or (2) in respect of a trust that is subject to certain grandfather rules, a valid election is in effect in respect of such trust.

The term **non-U.S. holder** means any beneficial owner of a note that is neither a U.S. holder nor a partnership or other entity or arrangement treated as a partnership for U.S. federal income tax purposes.

If a partnership, including any entity treated as a partnership for U.S. federal income tax purposes, holds notes, then the tax treatment of a partner in such partnership will generally depend on the status of the partner and the activities of the partnership. Such partners and partnerships are urged to consult with their own tax advisors concerning the U.S. federal income tax consequences of the purchase, ownership and disposition of the notes.

U.S. Holders

This discussion is a summary of the U.S. federal income tax consequences that will apply to U.S. holders. Certain U.S. federal income tax consequences applicable to non-U.S. holders are described under the heading **Non-U.S. Holders** below.

Stated Interest

Stated interest on the notes generally will be treated as **qualified stated interest** for U.S. federal income tax purposes and taxable to a U.S. holder as ordinary interest income at the time it is paid or accrued in accordance with such holder's regular method of accounting for U.S. federal income tax purposes.

Sale, Exchange, Redemption or other Taxable Disposition of Notes

Upon the sale, exchange, redemption or other taxable disposition of a note, a U.S. holder generally will recognize taxable gain or loss. The amount of such gain or loss generally will be measured by the difference, if any, between the amount realized on such disposition, except to the extent any amount realized is attributable to accrued but unpaid interest, which will be treated as such, and such holder's adjusted tax basis in the sold, exchanged, redeemed or disposed notes.

A U.S. holder's adjusted tax basis in a note generally will equal such holder's initial investment in such note, decreased by the amount of any principal payments and other payments on the note that are not deemed to be qualified stated interest payments received by such holder.

Gain or loss recognized on the disposition of a note generally will be capital gain or loss and, if the holder held the disposed note for more than one year at the time of disposition, long-term capital gain or loss. Subject to certain exceptions, holders can not use capital losses to offset their ordinary income. To the extent that the amount realized is attributable to accrued but unpaid interest, such amount will be taxable as interest, as described under the heading **Stated Interest** above.

Non-U.S. Holders

The following is a summary of certain U.S. federal income and withholding tax consequences generally applicable to non-U.S. holders. Non-U.S. holders are encouraged to consult their own tax advisors concerning the relevant U.S. federal, state and local and any non-U.S. tax consequences that may be relevant to their particular situations.

Interest

Payments made and accruals of interest on the notes to a non-U.S. holder generally will be exempt from U.S. federal income and withholding tax, provided that:

- such payments are not effectively connected with the conduct by such non-U.S. holder of a trade or business within the United States;
- the non-U.S. holder does not own, actually or constructively under applicable attribution rules, 10% or more of the total combined voting power of all classes of our stock entitled to vote; and
- the non-U.S. holder provides its name and address and certifies, under penalty of perjury, on a properly executed and delivered IRS Form W-8BEN or other form, if applicable, that such holder is not a United States person for U.S. federal income tax purposes.

The certification described in the last clause above may be provided by a securities clearing organization, bank or other financial institution that holds customers' securities in the ordinary course of its trade or business. This certification may also be provided by a qualified intermediary on behalf of one or more beneficial owners or other intermediaries, provided that such qualified intermediary has entered into a withholding agreement with the Internal Revenue Service and other conditions are satisfied.

A non-U.S. holder that is not exempt from tax under these rules generally will be subject to U.S. federal withholding tax at a gross rate of 30%, or such lower rate if provided in an applicable income tax treaty, unless the interest is effectively connected with the conduct by the non-U.S. holder of a trade or business within the United States and the non-U.S. holder so certifies under penalty of perjury on a properly executed and delivered IRS Form W-8ECI or other applicable form. In such case, interest will be subject to U.S. federal income tax based on such non-U.S. holder's net effectively connected income generally in a similar manner as if it were received by a U.S. holder. Corporate non-U.S. holders receiving interest income that is effectively connected with the conduct of a trade or business within the United States may also be subject to an additional branch profits tax at a 30% rate or a lower rate if specified by an applicable income tax treaty.

Non-U.S. holders should consult applicable income tax treaties, which may provide reduced rates of or an exemption from U.S. federal income or withholding tax and branch profits tax. Non-U.S. holders will be required to satisfy certification requirements in order to claim a reduction of or exemption from withholding tax pursuant to any applicable income tax treaties. A non-U.S. holder may meet these requirements by providing an IRS Form W-8BEN or appropriate substitute to us or our agent, whereby the non-U.S. holder certifies under penalty of perjury that it is entitled to treaty benefits and provides such non-U.S. holder's U.S. taxpayer identification number.

Sale, Exchange, Redemption or Other Taxable Disposition of Notes

A non-U.S. holder generally will not be subject to U.S. federal income or withholding tax on any gain recognized upon the sale, exchange, redemption or other taxable disposition of a note unless:

- that gain is effectively connected with the conduct of a trade or business within the United States by the non-U.S. holder; or
- in the case of a non-U.S. holder who is a nonresident alien individual and holds the notes as a capital asset, such holder is present in the United States for at least 183 days in the tax year of the sale or other disposition

and certain other conditions exist.

S-16

A non-U.S. holder described in the first bullet point above will generally be required to pay U.S. federal income tax on the net gain derived from the sale or other disposition of the notes, except as otherwise required by an applicable tax treaty. If such non-U.S. holder is a corporation, then it may also be subject to an additional branch profits tax at a 30% rate or a lower rate if so specified by an applicable income tax treaty. A non-U.S. holder described in the second bullet point above will generally be subject to tax at a gross rate of 30% on the excess of all of such holder's U.S. source gains during the tax year over any U.S. source losses during such tax year, except as otherwise required by an applicable tax treaty. To the extent that the amount realized on any sale, exchange, redemption or other taxable disposition of the notes is attributable to accrued but unpaid interest, such amount will be taxable as such, as described under the heading "Interest" above.

Information Reporting and Backup Withholding

U.S. Holders

Certain non-exempt U.S. holders will be subject to information reporting in respect of any payments that we may make or are made on our behalf on the notes and the proceeds of any sale or other disposition of the notes. In addition, backup withholding, currently at a rate of 28%, may apply, unless the U.S. holder supplies a taxpayer identification number and other information, certified under penalty of perjury, or otherwise establishes, in the manner prescribed by applicable law, an exemption from backup withholding. Backup withholding does not represent an additional income tax. Amounts withheld under the backup withholding rules are allowable as a refund or a credit against the U.S. holder's federal income tax upon furnishing the required information on a timely basis to the IRS. Prospective U.S. holders should consult their own tax advisors concerning the application of information reporting and backup withholding rules.

Non-U.S. Holders

We will, where required, report to non-U.S. holders and to the IRS the amount of any principal and interest paid on the notes. Copies of these information returns may be made available under the provisions of a specific treaty or other agreement to the tax authorities of the country in which the non-U.S. holder resides or is organized.

Backup withholding tax, currently at a rate of 28%, will not apply to payments of interest with respect to which either the requisite certification that the non-U.S. holder is not a United States person for U.S. federal income tax purposes, as described above, has been received or an exemption has been otherwise established, provided that neither we nor our paying agent have actual knowledge or reason to know that the non-U.S. holder is a United States person for U.S. federal income tax purposes that is not an exempt recipient or that the conditions of any other exemption are not, in fact, satisfied.

Payments on the sale, exchange or other disposition of the notes effected through a foreign office of a broker to an offshore account maintained by a non-U.S. holder are generally not subject to information reporting or backup withholding. However, if the broker is a United States person, a controlled foreign corporation, a non-United States person 50% or more of whose gross income is effectively connected with trade or business within the United States for a specified three-year period, a foreign partnership with significant United States ownership or a United States branch of a foreign bank or insurance company, then information reporting will be required, unless the broker has documentary evidence in its records that the beneficial owner of the payment is not a United States person or is otherwise entitled to an exemption and the broker has neither actual knowledge nor a reason to know that the beneficial owner is not entitled to an exemption. Backup withholding will apply if the sale or other disposition is subject to information reporting and the broker has actual knowledge or reason to know that the beneficial owner is a United States person that is not an exempt recipient.

Information reporting and backup withholding will apply to payments effected at a United States office of any United States or foreign broker, unless the broker has documentary evidence in its records that the beneficial owner of the payment is not a United States person or is otherwise entitled to an exemption and the broker has no actual knowledge or reason to know that the beneficial owner is not entitled to an exemption.

Backup withholding does not represent an additional income tax. Amounts withheld from payments to a non-U.S. holder under the backup withholding rules may be credited against that holder's U.S. federal income tax liability and may entitle that holder to a refund, provided that the required information is timely furnished to the IRS. Prospective non-U.S. holders should consult their own tax advisors concerning the application of information reporting and backup withholding rules.
