For the transition period from ____________________ to ____________________

Commission File No. 1-6300
PENNSYLVANIA REAL ESTATE INVESTMENT TRUST
(Exact name of Registrant as specified in its charter)

Pennsylvania	**23-6216339**
(State or other jurisdiction of incorporation or organization)	**(IRS Employer Identification No.)**

The Bellevue 200 South Broad Street Philadelphia, Pennsylvania	**19102**
(Address of principal executive offices)	**(Zip Code)**

Registrant s telephone number, including area code: (215) 875-0700

Securities Registered Pursuant to Section 12(b) of the Act:

Title of each class	**Name of each exchange on which registered**
(1) Shares of Beneficial Interest, par value $1.00 per share	New York Stock Exchange
(2) 11% Non-Convertible Senior Preferred Shares, par value $0.01 per share	New York Stock Exchange

Securities Registered Pursuant to Section 12(g) of the Act: None

Indicate by check mark if the Registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.
Yes þ No o

Indicate by check mark if the Registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Exchange Act.
Yes o No þ

Indicate by check mark whether the Registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes þ No o

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of Registrant s knowledge, in the definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K. o

Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of accelerated filer and large accelerated filer in Rule 12b-2 of the Exchange Act.

Large accelerated filer þ Accelerated filer o Non-accelerated filer o

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).
Yes o No þ

The aggregate market value, as of June 30, 2006, of the shares of beneficial interest, par value $1.00 per share, of the Registrant held by non-affiliates of the Registrant was approximately $1.36 billion. (Aggregate market value is estimated solely for the purposes of this report and shall not be construed as an admission for the purposes of determining affiliate status.)

On February 23, 2007, 37,064,322 shares of beneficial interest, par value $1.00 per share, of the Registrant were outstanding.

Documents Incorporated by Reference

Portions of the Registrant s definitive proxy statement for its 2007 Annual Meeting of Shareholders are incorporated by reference in Part III of this Form 10-K.

Forward Looking Statements

This Annual Report on Form 10-K for the year ended December 31, 2006, together with other statements and information publicly disseminated by us, contain certain forward-looking statements within the meaning of the U.S. Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements relate to expectations, beliefs, projections, future plans, strategies, anticipated events, trends and other matters that are not historical facts. These forward-looking statements reflect our current views about future events and are subject to risks, uncertainties and changes in circumstances that might cause future events, achievements or results to differ materially from those expressed or implied by the forward-looking statements. In particular, our business might be affected by uncertainties affecting real estate businesses generally as well as the following, among other factors:

- general economic, financial and political conditions, including changes in interest rates or the possibility of war or terrorist attacks;
- changes in local market conditions, such as the supply of or demand for retail space, or other competitive factors;
- changes in the retail industry, including consolidation and store closings;
- concentration of our properties in the Mid-Atlantic region;
- risks relating to development and redevelopment activities, including construction and receipt of government and tenant approvals;
- our ability to effectively manage several redevelopment and development projects simultaneously, including projects involving mixed uses;
- our ability to maintain and increase property occupancy and rental rates;
- our dependence on our tenants business operations and their financial stability;
- increases in operating costs that cannot be passed on to tenants;
- our ability to raise capital through public and private offerings of debt or equity securities and other financing risks, including the availability of adequate funds at a reasonable cost;
- our ability to acquire additional properties and our ability to integrate acquired properties into our existing portfolio;
- our short-term and long-term liquidity position;
- possible environmental liabilities;
- our ability to obtain insurance at a reasonable cost; and
- existence of complex regulations, including those relating to our status as a REIT, and the adverse consequences if we were to fail to qualify as a REIT.

Additional factors that might cause future events, achievements or results to differ materially from those expressed or implied by our forward-looking statements include those discussed in the section entitled Item 1A. Risk Factors. We do not intend to update or revise any forward-looking statements to reflect new information, future events or

otherwise.

Definitions

Except as the context otherwise requires, references in this Annual Report on Form 10-K to we, our, us, the Compan and PREIT refer to Pennsylvania Real Estate Investment Trust and its subsidiaries, including our operating partnership, PREIT Associates, L.P. References in this Annual Report on Form 10-K to PREIT Associates refer to PREIT Associates, L.P. References in this Annual Report on Form 10-K to PRI refer to PREIT-RUBIN, Inc.

The following industry terms used in this Annual Report on Form 10-K have the meanings set forth below:

Anchors: large format retail stores or department stores in malls that serve as anchor tenants.

GLA: gross leasable area of a property, including space leasable to anchors and in-line stores and other leasable space, in square feet.

In-line stores: rows of smaller stores located in lines between the anchors of a mall. In-line stores are frequently a mix of national, regional and local retailers.

Malls: enclosed, climate-controlled shopping venues that typically offer apparel, accessories and hard goods, as well as services, restaurants, entertainment and convenient parking. References to malls include both regional malls and super-regional malls.

Outparcel: land used for a freestanding development, such as a retail store, bank or restaurant, that is not attached to the main building(s) that comprises the mall or power or strip center.

Owned square feet: the portion of Total Square Feet that we own.

Power centers: open air centers with 250,000 to 600,000 square feet of space with three to five non-department store, specialty anchors.
Regional malls: malls that have more than 400,000 but less than 800,000 square feet of space.
REITs: real estate investment trusts.
Strip centers: open air centers, including neighborhood and community centers, with more than 30,000 but less than 150,000 square feet of space and a line of stores.
Super-regional malls: malls that have more than 800,000 square feet of space.
Total square feet: the total retail space in a property, including anchors, in-line stores and outparcels.

Table of Contents

PART I

ITEM 1. BUSINESS.

OVERVIEW

Pennsylvania Real Estate Investment Trust, a Pennsylvania business trust founded in 1960 and one of the first equity REITs in the United States, has a primary investment focus on retail shopping malls and power and strip centers located in the Mid-Atlantic region or in the eastern half of the United States. Our operating portfolio currently consists of a total of 51 properties. The retail portion of our portfolio contains 50 properties in 13 states and includes 39 shopping malls and 11 power and strip centers. The operating retail properties have a total of approximately 35.1 million square feet. The retail properties we consolidate for financial reporting purposes have a total of approximately 30.7 million square feet, of which we own approximately 24.3 million square feet. Properties that are owned by unconsolidated partnerships with third parties have a total of approximately 4.4 million square feet, of which 2.8 million square feet are owned by such partnerships. The ground-up development portion of our portfolio contains seven properties in five states, with four classified as power centers, two classified as mixed use (a combination of retail and other uses) and one classified as other. We are a fully integrated, self-managed and self-administered REIT that has elected to be treated as a REIT for federal income tax purposes. We are required each year to distribute to our shareholders at least 90% of our net taxable income and to meet certain other requirements in order to maintain the favorable tax treatment associated with qualifying as a REIT.

OWNERSHIP STRUCTURE

We hold our interests in our portfolio of properties through our operating partnership, PREIT Associates, L.P. We are the sole general partner of PREIT Associates and, as of December 31, 2006, held an 89.6% controlling interest in PREIT Associates. We consolidate PREIT Associates for financial reporting purposes. We own our interests in our properties through various ownership structures, including partnerships or tenancy in common arrangements (collectively, partnerships). PREIT owns interests in some of these properties directly and has pledged the entire economic benefit of ownership to PREIT Associates. PREIT Associates direct or indirect economic interest in the rest of the operating properties ranges from 50% (for seven partnership properties) up to 100%. See Item 2. Properties Retail Properties.

We provide our management, leasing and development services through our subsidiaries PREIT Services, LLC (PREIT Services), which generally develops and manages properties that we consolidate for financial reporting purposes, and PREIT-RUBIN, Inc. (PRI), which generally develops and manages properties in which we own interests through partnerships with third parties and properties that are owned by third parties in which we do not own an interest. PRI is a taxable REIT subsidiary, as defined by federal tax laws, which means that it is able to offer an expanded menu of services to tenants without jeopardizing our continued qualification as a REIT under federal tax law.

RECENT DEVELOPMENTS

Redevelopment

We are engaged in the redevelopment of 14 of our 37 consolidated mall properties and one of our unconsolidated properties, and we expect to increase the number of such projects in the future. These projects might include the introduction of residential, office or other uses to our properties.

Table of Contents

The following table sets forth the amount of our intended investment for each redevelopment project:

Redevelopment Project	Estimated Project Cost	Invested as of December 31, 2006
Capital City Mall	$ 12.8 million	$ 10.3 million
Patrick Henry Mall	29.4 million	27.0 million
Cumberland Mall	5.7 million	4.1 million
New River Valley Mall [1]	26.4 million	18.1 million
Lycoming Mall	18.1 million	14.0 million
Francis Scott Key Mall	4.9 million	3.3 million
Valley View Mall	4.7 million	4.6 million
Magnolia Mall	17.7 million	4.7 million
Beaver Valley Mall	9.2 million	2.1 million
Lehigh Valley Mall [2]	21.5 million	1.8 million
Plymouth Meeting Mall	83.9 million	21.9 million
Willow Grove Park	54.4 million	18.7 million
Cherry Hill Mall	197.7 million	21.3 million
Voorhees Town Center	60.7 million	6.0 million
Moorestown Mall	To be determined	0.2 million
		$ 158.1 million

(1) Amounts do not include costs associated with New River Valley Retail Center, a proposed new development project with an estimated project cost of $29.0 million, and $5.7 million invested as of December 31, 2006.

(2) This property is unconsolidated. The amounts shown represent

our share.

Development

We are engaged in the ground-up development of eight retail and other mixed-use projects that we believe meet the financial hurdles that we apply, given economic, market and other circumstances. As of December 31, 2006, we had incurred $112.0 million of costs related to these projects. The costs identified to date to complete these ground-up projects are expected to be $233.8 million in the aggregate (including costs already incurred), excluding the Springhills (Gainesville, Florida) and Pavilion at Market East (Philadelphia, Pennsylvania) projects because details of those projects and the related costs have not been determined.

The following table sets forth the amount of our intended investment in each ground-up development project:

Development Project	**Estimated Project Cost**	**Invested as of December 31, 2006**
The Plaza at Magnolia	$ 17.2 million[1]	$ 13.9 million[1]
Lacey Retail Center	38.5 million	21.9 million
New River Valley Retail Center	29.0 million	5.7 million
Monroe Marketplace	57.0 million	6.3 million
New Garden Town Center	82.1 million	34.8 million
Valley View Downs	10.0 million	1.3 million
Springhills	To be determined	26.1 million
Pavilion at Market East	To be determined	2.0 million
		$ 112.0 million

(1) Gross cost before parcel sales and site contributions.

Acquisitions

In 2006, we acquired three former Strawbridge s department stores at Cherry Hill Mall, Willow Grove Park and The Gallery at Market East from Federated Department Stores, Inc. following its merger with The May Department Stores Company for an aggregate purchase price of $58.0 million.

Financing and Capital Markets Activity

In February 2006, we entered into a $90.0 million mortgage loan on Valley Mall in Hagerstown, Maryland. The mortgage note has an interest rate of 5.49% and a maturity date of February 2016. We used the proceeds from this financing to repay a portion of the outstanding balance under our Credit Facility and for general corporate purposes.

In March 2006, we entered into a $156.5 million first mortgage loan that is secured by Woodland Mall in Grand Rapids, Michigan. The loan has an interest rate of 5.58% and has a 10 year term. The loan terms provide for interest-only payments for three years and then repayment of principal based on a 30-year amortization schedule. We used a portion of the loan proceeds to repay two 90-day corporate notes, and the remaining proceeds to repay a portion of the amount outstanding under our Credit Facility and for general corporate purposes.

In March 2006, we entered into a second amendment to the terms of our Credit Facility. Pursuant to this amendment, the term of the Credit Facility has been extended to January 20, 2009, and we have an option to extend the term for an additional 14 months, provided that there is no event of default at that time. The previous termination date was November 20, 2007. The amendment also lowered the interest rate to between 0.95% and 1.40% per annum over LIBOR from 1.05% to 1.55% per annum over LIBOR, in both cases depending on our leverage. The amendment reduced the capitalization rate used to calculate Gross Asset Value (as defined in the Credit Facility agreement) to 7.50% from 8.25%. The amendment also modified certain of the financial covenants. The revised covenants reduce the minimum interest coverage and total debt ratios and allow for an increase in investments in partnerships.

In March 2006, we entered into six forward-starting interest rate swap agreements on a notional amount of $150.0 million that have a blended 10-year swap rate of 5.3562% settling no later than December 10, 2008.

In July 2006, the unconsolidated partnership that owns Lehigh Valley Mall in Whitehall, Pennsylvania entered into a $150.0 million mortgage loan that is secured by Lehigh Valley Mall. We own an indirect 50% ownership interest in this entity. The mortgage loan has an initial term of 12 months, during which monthly payments of interest only are required. There are three one-year extension options, provided that there is no event of default and that the borrower buys an interest rate cap for the term of any applicable extension. The loan bears interest at the one month LIBOR rate, reset monthly, plus a spread of 56 basis points. The initial interest rate was 5.905%. The interest rate at December 31, 2006 was 5.91%. The loan may not be prepaid until August 9, 2007. Thereafter, the loan may be prepaid in full on any monthly payment date. A portion of the proceeds of the loan were used to repay the previous first mortgage on the property, which had a balance of $44.6 million. We received a distribution of $51.9 million as our share of the remaining proceeds, which we used to repay a portion of the outstanding balance under our Credit Facility and for working capital.

In October 2006, the mortgage note secured by Schuylkill Mall was modified to reduce the interest rate from 7.25% to 4.50% per annum. This mortgage note had a balance of $16.5 million as of December 31, 2006 and matures on December 1, 2008.

In February 2007, we entered into a third amendment to the terms of our Credit Facility. The third amendment added PREIT-RUBIN, Inc. as a borrower and modified certain of the financial covenants contained in the Credit Facility as follows (all capitalized terms used in this paragraph have the meanings ascribed to such terms in the Credit Agreement): (a) decreased the minimum ratio of EBITDA to Interest Expense to 1.70:1, from 1.80:1; (b) decreased the minimum ratio of Adjusted EBITDA to Fixed Charges to 1.40:1, from 1.50:1, for periods ending on or before December 31, 2008, after which time the ratio will return to 1.50:1; and (c) decreased the minimum ratio of EBITDA to Indebtedness to 0.0975:1, from 0.115:1, for periods ending on or before December 31, 2008, after which time the ratio will be 0.1025:1.

Dispositions

In transactions that closed between June 2006 and December 2006, we sold a total of four parcels located at the Plaza at Magnolia in Florence, South Carolina for an aggregate sale price of $7.9 million and an aggregate gain of $0.5 million. Plaza at Magnolia is currently under development.

In September 2006, we sold South Blanding Village, a strip center in Jacksonville, Florida for $7.5 million. We recorded a gain of $1.4 million from this sale.

In December 2006, we sold an approximately 6.0 acre parcel at Voorhees Town Center in Voorhees, New Jersey to a residential real estate developer for $5.4 million. The parcel was subdivided from the retail property. We recorded a

gain of $4.7 million from the sale of this parcel.

Table of Contents

In January 2007, the Company entered into an agreement for the sale of Schuylkill Mall in Frackville, Pennsylvania for $17.6 million. In April 2006, a prior agreement for the sale of this mall was terminated.

Separation Agreement with Jonathan B. Weller

On March 1, 2006, we announced the retirement of Mr. Jonathan Weller, a Vice Chairman of the Company, effective April 15, 2006. In connection with Mr. Weller s retirement, on February 28, 2006, we entered into a separation of employment agreement with Mr. Weller. Pursuant to the separation agreement, Mr. Weller s employment agreement expired and he retired from our Board of Trustees, each effective as of March 8, 2006, the date on which the separation agreement became irrevocable. Mr. Weller remained employed as one of our vice chairmen through April 15, 2006 pursuant to the terms of the separation agreement, which generally provided that Mr. Weller would receive the same base compensation and health, medical and other benefits that he received under the employment agreement. The separation agreement contains mutual releases, as well as confidentiality, non-solicitation and non-disparagement provisions. Pursuant to the separation agreement, Mr. Weller received an aggregate payment of approximately $4.2 million in cash and common shares, including the vesting of 39,477 restricted common shares. Mr. Weller remains eligible to receive performance shares under PREIT s 2005-2008 Outperformance Program.

RETAIL REAL ESTATE INDUSTRY

Our primary investment focus is retail shopping malls and power and strip centers. The International Council of Shopping Centers, a retail real estate industry trade group, generally classifies properties based on their size and on the way they are characterized by their owners as follows:

Type of Center	Concept	Square Feet (including Anchors)	Typical Anchor(s)
MALLS			
Regional	General merchandise; fashion (typically enclosed)	400,000 800,000	Full-line department store; Jr. department store; mass merchant; discount department store; fashion apparel
Super Regional	Similar to regional center but has more variety and assortment	800,000+	Full-line department store; Jr. department store; mass merchant; fashion apparel
OPEN AIR CENTERS			
Neighborhood Center	Convenience	30,000 150,000	Supermarket
Community Center	General merchandise; convenience	100,000 350,000	Discount department store; supermarket; drug; home improvement; large specialty/discount apparel
Lifestyle Center	Upscale national chain specialty stores; dining and entertainment in outdoor setting	Typically 150,000 to 500,000	Not usually anchored in the traditional sense but may include book store; other large format specialty retailers; multiplex cinema; small department store
Power Center	Category-dominant anchors; few small tenants	250,000 600,000	Category killer; home improvement; discount department store; warehouse club; off-price
Theme/Festival Center	Leisure; tourist-oriented; retail and service	80,000 250,000	Restaurants; entertainment
Outlet Center	Manufacturers outlet stores	50,000 400,000	Manufacturers outlet stores

Source: International Council of Shopping Centers

Malls are often tailored to the economy and demographics of their trade areas, and mall managers employ corresponding strategies in determining the mix of tenants, the merchandise offered and the related general price

point. Usually, there are two or more anchors in regional malls. Super regional malls often have three or more anchor tenants. The anchors serve as one of the main draws to the mall, and are usually situated at the ends of the rows of smaller in-line stores.

PREIT S BUSINESS

We are primarily engaged in the ownership, management, development, redevelopment, acquisition and leasing of retail shopping malls and power and strip centers. Many of our malls and centers are located in middle markets, as determined by various population and demographic measures, in the Mid-Atlantic region or in the eastern half of the United States.

Our operating real estate portfolio currently consists of retail properties in 13 states, and includes 39 shopping malls and 11 power and strip centers. The retail properties have a total of approximately 35.1 million square feet, of which we and partnerships in which we own an interest own approximately 27.1 million square feet. See Item 2. Properties.

In general, our malls include national or regional department stores, large format retailers or other anchors and a diverse mix of national, regional and local in-line stores offering apparel (women s, family, teen), shoes, eyewear, cards and gifts, jewelry, books/music/movies and sporting goods, among other things. To optimize the experience for shoppers, most of our malls have restaurants and/or food courts and convenient parking and some of the malls have multi-screen movie theaters and other entertainment options. In addition, many of our malls also have restaurants, banks or other stores located on outparcels around the perimeter of the mall property. Our malls frequently serve as a type of town square: a central place for community, promotional and charitable events.

The largest mall in our retail portfolio contains approximately 1.3 million square feet and 151 stores, and the smallest contains approximately 0.4 million square feet and 60 stores. The power centers in our retail portfolio range from 300,000 to 800,000 square feet, while the strip centers range from 100,000 square feet to 275,000 square feet.

We derive the majority of our revenues from rents received under leases with tenants for space at retail properties in our real estate portfolio. In general, our leases require tenants to pay base rent, which is a fixed amount specified in the lease, and which is often subject to scheduled increases during the term of the lease. In addition or in the alternative, certain tenants are required to pay percentage rent, which can be either a percentage of their sales revenue that exceeds certain levels specified in their lease agreements, or a percentage of their total sales revenue. Also, our leases generally provide that the tenant will reimburse us for certain expenses for common area maintenance (CAM), real estate taxes, utilities, insurance and other operating expenses incurred in the operation of the retail properties. The proportion of the expenses for which tenants are responsible is generally related to the tenant s pro rata share of space at the property. In-line stores typically generate a majority of the revenues of a mall, with a relatively small proportion coming from anchor tenants and large format retailers.

BUSINESS STRATEGY

Our primary objective is to maximize the long term value of the Company for our shareholders. To that end, our business goals are to maximize our rental income, tenant sales and occupancy at our properties in order to maximize our cash flows, funds from operations, funds available for distribution to shareholders, and other operating measures and results, and ultimately to maximize the values of our properties. To achieve these goals, our strategies are to:

Increase the potential value of properties in our portfolio by redeveloping them. If we believe that a property is not achieving its potential, we engage in a focused leasing effort in order to increase the property s performance. If we believe the property has the potential to support a more significant redevelopment project, we consider a formal redevelopment plan. Our redevelopment efforts are designed to increase the value of the property, and might include mixed uses. Our redevelopments are designed to increase customer traffic and attract retailers, which can, in turn, lead to increases in sales, occupancy levels and rental rates. Our efforts to maximize a property s potential can also serve to maintain or improve that property s competitive position.

Actively manage and aggressively lease and market the properties in our portfolio. We conduct intense asset management of our properties in an effort to maximize and maintain occupancy and optimize the mix of tenants and thereby attract customers and increase sales by mall tenants. Sales gains can increase tenant satisfaction and make our properties attractive to our tenants and prospective tenants, which can increase the rents we receive from our properties.

Pursue ground-up development of additional retail and mixed use properties that we expect can meet the financial hurdles we apply, given economic, market and other circumstances. We seek to leverage our skill sets in site selection, entitlement and planning, cost estimation and project management to develop new retail and mixed use properties in trade areas that we believe have sufficient demand for those properties to generate cash flows that meet the financial thresholds we establish in the given environment.

Acquire, in an opportunistic and disciplined manner, additional properties or portfolios of properties that meet the investment criteria we apply, given economic, market and other circumstances. We seek to selectively acquire properties that are well-located and that we believe have strong potential for increased

cash flows and appreciation in value if we apply our skills in leasing, asset management and redevelopment to the property.

Regularly review our portfolio of properties and, if appropriate, dispose of properties that we do not believe meet the financial or strategic criteria we apply, given economic, market and other circumstances. Disposing of such properties can enable us to redeploy our capital to other uses, such as to repay debt, to reinvest in other real estate assets and development and redevelopment projects and for other corporate purposes.

Redevelopment

We aim to increase the potential value of properties in our portfolio and to maintain or enhance their competitive positions by redeveloping them in order to attract more customers and retailers, leading to increases in sales, occupancy and rental rates. We believe that several properties in our portfolio present opportunities for creating value through redevelopment. See Item 7. Management s Discussion and Analysis of Financial Condition and Results of Operation Acquisitions, Dispositions and Development Activities Development and Redevelopment.

The tactics we use in our efforts to increase the potential value of properties include:

- remerchandising the tenant mix to capitalize on the economy and demographics of the property s trade area;
- creating a diversified anchor mix including fashion, value-oriented and traditional department stores;
- attracting non-traditional mall tenants to draw more customers to the property;
- generating synergy by introducing lifestyle components to mall properties; and
- redirecting traffic flow and creating additional space for in-line stores by relocating food courts.

We subject each of our properties to a rigorous assessment of its merchandising potential, which has included an analysis of the property s trade area and its existing tenants and merchandise offerings. We are currently involved in the redevelopment of 14 of our consolidated properties and one unconsolidated property, and we expect to increase the number of such projects in the future. As of December 31, 2006, we have invested $158.1 million in these 15 projects. Currently, we intend to invest an additional $389.2 million to complete these projects, excluding the cost to complete Moorestown Mall, which has not yet been finalized. These projects might include the introduction of residential, office or other uses to our properties in an effort to maximize the value of our properties. For information regarding project investment to date and expected costs, see Item 7. Management s Discussion and Analysis of Financial Condition and Results of Operation Acquisitions, Dispositions and Development Activities Development and Redevelopment.

Redevelopments are frequently a significant undertaking, involving many of the same steps and requiring many of the same skills as new development or new construction. These steps and skills might include site planning, architectural design, engineering, interior design, acquiring adjacent land or properties, obtaining zoning and other approvals and permits, addressing requirements for additional parking lots or decks, obtaining existing anchor approvals and relocating anchors and other mall tenants. The redevelopment of a particular property might involve construction of new interior space, renovation of existing interior space, updating interior décor and lighting, installing new floor coverings, changing or replacing facades, adding or relocating entrances, incorporating updated and consistent signage, resurfacing parking lots, improving exterior lighting and renaming the property. We strive to work closely with tenants to enhance their merchandising opportunities at our properties. While we make every effort to keep the length of the redevelopment projects to a minimum, in general, because of the numerous variables, including the process of obtaining necessary approvals and permits, the time needed to complete redevelopment projects is unpredictable.

An important aspect of a redevelopment project is its effect on the rest of the property and on the tenants and customers during the time that a redevelopment is taking place. While we might undertake a redevelopment to maximize the long term performance of the property, in the short term, the operations and performance of the property, as measured by sales, occupancy and net operating income, might be negatively affected. Tenants might be relocated or leave as space for the redevelopment is aggregated, which affects tenant sales and rental rates. Some space at a property might be taken out of retail use during the redevelopment, and some space might only be made available for short periods of time pending scheduled renovation or because the space cannot be subject to a long term lease until the redevelopment is complete. We manage the use of this space throughout the course of a redevelopment project through our specialty leasing function, which manages the short term leasing of stores and the licensing of income-generating carts and kiosks, with the goal of maximizing the rent we receive during the period of active redevelopment.

Redevelopments of existing malls are often welcomed by the local community and the local government (in contrast to ground-up development projects, which necessarily involve more significant change to the existing landscape, and consequently the potential for opposition). Malls tend to be significant generators of tax revenues and local employment, and communities often support efforts to revitalize and refurbish existing properties where these efforts are intended to make the malls more attractive and to draw more shoppers, tenants and employees. This is particularly true in the middle markets where many of our malls are located. Also, failing to take steps to redevelop a mall that is an engine of the local economy can put financial pressure on a municipality or region. We believe that it is, in part, for these reasons that our significant redevelopment projects at Cherry Hill Mall and Voorhees Town Center, both of which are located in southern New Jersey, have been welcomed by local government officials in their respective jurisdictions.

Asset Management, Leasing, Marketing and Operations

We conduct intense asset management of our properties in an effort to maximize and maintain occupancy and optimize the mix of tenants in order to attract customers and increase sales by mall tenants. We engage in active merchandising programs and coordinated marketing activities designed to promote our properties as magnet centers. Our on-site teams continuously monitor the local market and community, and work with our corporate office asset management, leasing and marketing professionals to evaluate and adjust the tenant mix in pursuit of the optimal match of tenants to the trade area and the ideal configuration and allocation of space. As part of these efforts, if appropriate, we might relocate tenants to better-suited space or terminate the leases of underperforming tenants.

As an integral part of our management, we also expend considerable effort on generating ancillary revenues, such as through marketing partnerships, and on controlling operating costs and expenses in an effort to contain tenant operating costs. To that end, in 2006, we entered into an agreement with Allied Barton to outsource security functions at our mall properties. As of December 31, 2006, Allied Barton provided security services at all of our mall properties.

In addition to owning, managing and developing our own properties, as of December 31, 2006, we also provided management, leasing and development services to affiliated and third-party property owners with respect to nine retail properties containing approximately 1.7 million square feet and two office buildings containing approximately 0.4 million square feet.

Development

We pursue ground-up development of retail and mixed use properties that we believe meet the financial hurdles that we apply, given economic, market and other circumstances. We generally seek to develop retail projects in areas that we believe evidence the likelihood of supporting additional retail development and have desirable population or income trends, and where we believe the projects have the potential for strong competitive positions. We will consider other uses of a property that would have synergies with our retail development based on several factors, including local demographics, market demand for other uses such as residential and office, and applicable land use regulations.

We generally have several development projects under way at one time. These projects are typically in various stages of the development process. We manage all aspects of these undertakings, including market and trade area research, site selection, acquisition, preliminary development work, construction and leasing. We monitor our development projects closely, including costs and tenant interest. For a listing of our 2006 development projects, see Item 7. Management s Discussion and Analysis of Financial Condition and Results of Operations Acquisitions, Dispositions and Development Activities Development and Redevelopment.

Although we have previously developed properties that have proven successful, we cannot assure you that any of our current projects will be as successful as any of these previously developed properties, or that they will be successful at all, which could have a negative effect on our operating results. We also cannot assure you that any projects that we begin will ultimately be completed. If we determine not to proceed with a project or otherwise become required to accelerate the expensing of development costs, there will be a negative effect on our results of operations. For information regarding aggregate project investment to date and expected costs, see Item 7. Management s Discussion and Analysis of Financial Condition and Results of Operations Development and Redevelopment.

Acquisitions

We seek to acquire well-located retail properties with strong prospects for future cash flow growth and capital appreciation that meet the investment criteria we apply, given economic, market and other circumstances, particularly where we believe our management and leasing capabilities can enhance the value of these properties.

When evaluating acquisitions, we conduct a detailed analysis of the geographic market and the demographic characteristics of the area surrounding the property, the property itself and other factors. If a property substantially meets the investment criteria we apply, given economic, market and other circumstances, we will pursue it further if we believe we are well positioned to compete for it. We believe we have positive working relationships with many industry participants, including prospective sellers, buyers and financing sources, that enable us to become aware of opportunities and to act quickly. We expect to fund property or portfolio acquisitions and expenses associated with acquisitions through long term secured and unsecured indebtedness, including our Credit Facility, and the issuance of additional securities, including under our $500.0 million universal shelf registration statement. See Item 7. Management s Discussion and Analysis of Financial Condition and Results of Operations Liquidity and Capital

Resources.

We also seek to acquire additional parcels that are included within, or adjacent to, the properties already in our portfolio in order to gain greater control over the merchandising and tenant mix of a property. For example, in 2006, following the merger of Federated Department Stores, Inc. and The May Department Stores Company, we acquired three anchor locations at our properties from Federated that were previously operated under the Strawbridge s nameplate.

Dispositions

We regularly conduct portfolio property reviews and, if appropriate, we dispose of properties that we do not believe meet the financial and strategic criteria we apply, given economic, market and other circumstances. Disposing of such properties can enable us to redeploy our capital to other uses, such as to repay debt, to reinvest in other real estate assets and development and redevelopment projects and for other corporate purposes. For a description of our recent dispositions, see Recent Developments Dispositions.

CAPITAL STRATEGY

In support of the strategies described above, our corporate finance objective is to optimize the cost of the capital we employ to fund our operations. In pursuit of this objective and for other business reasons, we seek the broadest range of funding sources (including commercial banks, institutional lenders, equity investors and joint venture partners) and funding vehicles (including mortgages, commercial loans and equity securities) available to us on the most favorable terms. We pursue this goal by maintaining relationships with various capital sources and utilizing a variety of financing instruments, enabling us to maintain the flexibility to execute our business strategy in different economic environments or at different points in the business cycle.

In determining the amount and type of debt capital to employ in our business, we consider general economic conditions, prevailing and forecasted interest rates for various debt instruments, the cost of equity capital, property values, capitalization rates for mall properties, our financing needs for redevelopment, development and acquisition opportunities, the debt ratios of other mall REITs and publicly-traded real estate companies, and the requirement under federal tax laws for REITs to distribute at least 90% of net taxable income, among other factors. Our ability to increase our debt ratio is limited by our Credit Facility, which contains covenants that limit the amount of our secured indebtedness to 60% of Gross Asset Value (as defined in the Credit Facility agreement) and the amount of total liabilities to 65% of Gross Asset Value.

Based on prevailing conditions in the real estate capital markets, we have attempted to concentrate our secured indebtedness on a limited number of our larger, more stable properties, and expect to continue to do so as opportunities arise. We do so in an effort to maximize our borrowing capacity under our Credit Facility and to minimize our borrowing costs. The fixed-rate mortgages obtained in 2006 have generated excess proceeds that we used to repay amounts outstanding under our Credit Facility, giving us replenished availability, and for working capital.

Executing this strategy has also enabled us to leave a number of our other properties unencumbered. As we concentrate our secured debt on a limited number of properties, the cash flow from these unencumbered assets will, we believe, enhance our financial position from the point of view of unsecured creditors. One of our long term goals is to continue to improve our balance sheet so that it becomes investment grade quality, which would give us one more financing option, consistent with our strategy of maximizing our financing options and terms. We intend to consider all of our available options for accessing the capital markets in pursuit of our objective of optimizing our overall cost of capital.

Another aspect of our approach to debt financing is that we strive to lengthen and stagger the maturities of our debt obligations in order to better manage our capital requirements. Also, in connection with our redevelopment and development projects, we expect to utilize Credit Facility borrowings or other short-term financings during the construction phase, and then we might seek longer-term, fixed-rate mortgages when the project is complete and the property has stabilized.

We will consider accessing equity capital at such times as we deem appropriate in light of all the circumstances at the time. To facilitate our access to public equity, we filed a shelf registration statement with the Securities and Exchange Commission in 2003.

In the normal course of business, we are exposed to financial market risks, including interest rate risk on our interest-bearing liabilities. We attempt to limit these risks by following established risk management policies, procedures and strategies, including the use of financial instruments. To manage interest rate risk and limit overall interest cost, we may employ interest rate swaps, options, forwards, caps and floors or a combination thereof depending on our underlying exposure.

As of December 31, 2006, we have 2,475,000 11% non-convertible senior preferred shares outstanding. The shares are redeemable on or after July 31, 2007 at our option at the redemption price per share set forth below:

(in thousands of dollars, except per share amounts)

Redemption Period	Redemption Price Per Share	Total Redemption Value
July 31, 2007 through July 30, 2009	$ 52.50	$ 129,938
July 31, 2009 through July 30, 2010	$ 51.50	$ 127,463
On or after July 31, 2010	$ 50.00	$ 123,750

We intend to redeem the preferred shares at the earliest practicable date on or after July 31, 2007. The $120.0 million of forward starting interest rate swaps that we entered into in May 2005 is intended to hedge our interest rate risk associated with a portion of the amount that we expect to borrow to finance the preferred share redemption. Our plans with regard to the preferred share redemption are subject to change (see Forward-Looking Statements).

COMPETITION

Competition in the retail real estate industry is intense. We compete with other public and private retail real estate companies, including companies that own or manage malls, power centers, lifestyle centers, strip centers, factory outlet centers, theme/festival centers and community centers, as well as other commercial real estate developers and real estate owners, particularly those with properties near our properties. We compete with these companies to attract customers to our properties, as well as to attract anchor and in-line store tenants. Our malls and our power and strip centers face competition from similar retail centers, including more recently developed or renovated centers, that are near our retail properties. We also face competition from a variety of different retail formats, including internet retailers, discount or value retailers, home shopping networks, mail order operators, catalogs and telemarketers. This competition could have a material adverse effect on our ability to lease space and on the level of rent that we currently receive. Our tenants face competition from companies at the same and other properties and from other retail formats as well.

The main criteria used by retailers in deciding where to locate include local trade area demographics, the property location, the attractiveness of the store location and the overall property, the rental rate, the total number of stores in the area and their geographic spread, the type and mix of other retailers at the property, and the management and operational skill of the landlord. In terms of our status using these criteria, we believe that several of our properties are located in submarkets or local trade areas with demographics that are favorable for retailers, that our significant redevelopment program is intended to make the properties being redeveloped more attractive and that the middle markets where several of our properties are located are not overly saturated with retailers.

Also, a significant amount of capital has and might continue to provide funding for the acquisition and development of properties that might compete with our properties. The development of competing retail properties and the related increased competition for tenants might require us to make capital improvements to properties that we would have deferred or would not have otherwise planned to make and affects the occupancy and net operating income of such properties. Any such capital improvements, undertaken individually or collectively, involve costs and expenses that could adversely affect our results of operations.

In addition, we compete with many other entities engaged in real estate investment activities for acquisitions of malls, other retail properties and other prime development sites, including institutional pension funds, other REITs and other owner-operators of retail properties. These competitors might drive up the price we must pay for properties, parcels, other assets or other companies we seek to acquire or might themselves succeed in acquiring those properties, parcels, assets or companies. In addition, our potential acquisition targets might find our competitors to be more attractive suitors if they have greater resources, are willing to pay more, or have a more compatible operating philosophy. In particular, larger REITs might enjoy significant competitive advantages that result from, among other things, a lower cost of capital, a better ability to raise capital, and enhanced operating efficiencies. Also, the number of entities, as well as the available capital resources competing for suitable investment properties or desirable development sites, have increased and might continue to increase, resulting in increased demand for these assets and therefore increased prices paid for them. We might not succeed in acquiring retail properties or development sites that we seek, or, if we

pay higher prices for properties, or generate lower cash flow from an acquired property than we expect, our investment returns will be reduced, which will adversely affect the value of our securities.

ENVIRONMENTAL

Under various federal, state and local laws, ordinances, regulations and case law, an owner, former owner or operator of real estate might be liable for the costs of removal or remediation of hazardous or toxic substances present at, on, under, in or released from its property, regardless of whether the owner, operator or other responsible party knew of or was at fault for the release or presence of hazardous or toxic substances. They also might be liable to the government or to third parties for substantial property damage, investigation costs or clean up costs. Even if more than one person might have been responsible for the contamination, each person covered by the environmental laws might be held responsible for all of the clean-up costs incurred. In addition, some environmental laws create a lien on the contaminated site in favor of the government for damages and costs the government incurs in connection with the contamination. Contamination might adversely affect the owner s ability to sell or lease real estate or borrow with real estate as collateral. In connection with our ownership, operation, management, development and redevelopment of properties, or any other properties we acquire in the future, we might be liable under these laws and might incur costs in responding to these liabilities.

We are aware of certain environmental matters at some of our properties. We have, in the past, investigated and, where appropriate, performed remediation of such environmental matters, but we might be required in the future to perform testing relating to these matters and further remediation might be required, or we might incur liability as a result of such environmental matters. Environmental matters at our properties include the following:

Asbestos. Asbestos-containing materials are present in a number of our properties, primarily in the form of floor tiles, mastics, roofing materials and adhesives. Fire-proofing material containing asbestos is present at some of our properties in limited concentrations or in limited areas. Under applicable laws and practices, asbestos-containing materials in good, non-friable condition are allowed to be present, although removal might be required in certain circumstances. In particular, in the course of any redevelopment, renovation, construction or build out of tenant space, asbestos-containing materials are generally removed.

Underground and Above Ground Storage Tanks. Underground and above ground storage tanks are or were present at some of our properties. These tanks were used to store waste oils or other petroleum products primarily related to the operation of automobile service center establishments at those properties. In some cases, the underground storage tanks have been abandoned in place, filled in with inert materials or removed and replaced with above ground tanks. Some of these tanks might have leaked into the soil, leading to ground water and soil contamination. Where leakage has occurred, we might incur investigation, remediation and monitoring costs if responsible current or former tenants, or other responsible parties, are unavailable to pay such costs.

Ground water and soil contamination. Groundwater contamination has been found at some properties in which we currently or formerly had an interest. At some properties, dry cleaning operations, which might have used solvents, contributed to groundwater and soil contamination.

Two malls also contain wastewater treatment facilities that treat wastewater at the malls before discharge into local streams. Operation of these facilities is subject to federal and state regulation.

Each of our retail properties has been subjected to a Phase I or similar environmental audit (which involves a visual property inspection and a review of records, but not soil sampling or ground water analysis) by environmental consultants. These audits have not revealed, and we are not aware of, any environmental liability that we believe would have a material adverse effect on our results of operations. It is possible, however, that there are material environmental liabilities of which we are unaware. Also, we cannot assure you that future laws will not impose any material environmental liability, or that the current environmental condition of our properties will not be affected by the operations of our tenants, by the existing condition of the land, by operations in the vicinity of the properties (such as the presence of underground storage tanks) or by the activities of unrelated third parties.

We have environmental liability insurance coverage for the types of environmental liabilities described above, which currently covers liability for pollution and on-site remediation of up to $5.0 million per occurrence and $5.0 million in the aggregate. We cannot assure you that this coverage will be adequate to cover future environmental liabilities. If this environmental coverage were inadequate, we would be obligated to fund those liabilities. We might be unable to continue to obtain insurance for environmental matters, at a reasonable cost or at all, in the future.

In addition to the costs of remediation, we might incur additional costs to comply with federal, state and local laws relating to environmental protection and human health and safety generally. There are also various federal, state and local fire, health, life-safety and similar regulations that might be applicable to our operations and that might subject us to liability in the form of fines or damages for noncompliance.

EMPLOYEES

We had an aggregate of approximately 887 employees at our properties and in our corporate office as of December 31, 2006. None of our employees are represented by a labor union. In connection with our new agreement for security services at our properties entered into in July 2006 with Allied Barton, approximately 469 individuals formerly associated with PREIT ceased to be employees of the Company.

INSURANCE

We have comprehensive liability, fire, flood, terrorism, extended coverage and rental loss insurance that we believe is adequate and consistent with the level of coverage that is standard in our industry. We cannot assure you, however, that our insurance coverage will be adequate to protect against a loss of our invested capital or anticipated profits, or that we will be able to obtain adequate coverage at a reasonable cost in the future.

STATUS AS A REIT

We conduct our operations in a manner intended to maintain our qualification as a REIT under the Internal Revenue Code of 1986. Generally, as a REIT, we will not be subject to federal or state income taxes on our net taxable income that we currently distribute to our shareholders. Our qualification and taxation as a REIT depend on our ability to meet

various qualification tests (including dividend distribution, asset ownership and income tests) and certain share ownership requirements prescribed in the Internal Revenue Code.

CORPORATE HEADQUARTERS

Our principal executive offices are located at The Bellevue, 200 South Broad Street, Philadelphia, Pennsylvania 19102.

SEASONALITY

There is seasonality in the retail real estate industry. Retail property leases often provide for the payment of a portion of rents based on a percentage of a tenant s sales revenue over certain levels. Income from such rents is recorded only after the minimum sales levels have been met. The sales levels are often met in the fourth quarter, during the December holiday season. Also, many new and temporary leases are entered into later in the year in anticipation of the holiday season, and there is a higher concentration of tenants vacating their space early in the year. As a result, our occupancy and cash flow are generally higher in the fourth quarter and lower in the first quarter, excluding the effect of ongoing redevelopment projects. Our concentration in the retail sector increases our exposure to seasonality and has resulted and is expected to continue to result in a greater percentage of our cash flows being received in the fourth quarter.

AVAILABLE INFORMATION

We maintain a website with the address www.preit.com. We are not including or incorporating by reference the information contained on our website into this report. We make available on our website, free of charge and as soon as practicable after filing with the SEC, copies of our most recently filed Annual Report on Form 10-K, all Quarterly Reports on Form 10-Q and all Current Reports on Form 8-K filed during each year, including all amendments to these reports. In addition, copies of our corporate governance guidelines, codes of business conduct and ethics (which include the code of ethics applicable to our chief executive officer, principal financial officer and principal accounting officer) and the governing charters for the audit, nominating and governance, and compensation committees of our Board of Trustees are available free of charge on our website, as well as in print to any shareholder upon request. We intend to comply with the requirements of Item 5.05 of Form 8-K regarding amendments to and waivers under the code of business conduct and ethics applicable to our chief executive officer, principal financial officer and principal accounting officer by providing such information on our website within four days after effecting any amendment to or granting any waiver under the code, and we will maintain such information on our website for at least twelve months.

Table of Contents

ITEM 1A. RISK FACTORS.

RISKS RELATED TO OUR BUSINESS AND OUR PROPERTIES

Our investments in redeveloping older properties and developing new properties could be subject to higher costs, delays or other risks and might not yield the returns we anticipate, which would harm our operating results and financial condition.

As a key component of our growth strategy, we plan to continue to redevelop existing properties and develop new properties, and we might develop or redevelop other projects as opportunities arise. Some of our retail properties were constructed or last renovated more than 10 years ago. Older, unrenovated properties might generate lower rents and might require significant expense for maintenance or renovations to maintain competitiveness, which could negatively impact our results of operations. As of December 31, 2006, we were engaged in, or had plans for, the redevelopment of 14 consolidated and one unconsolidated mall properties. To the extent we continue current redevelopment or development projects or enter into new redevelopment or development projects, they will be subject to a number of risks that could affect our return on investment, financial condition, results of operations and our ability to make distributions to shareholders, including, among others:

- inability to reach projected occupancy, rental rates, profitability, and investment return;
- higher than estimated construction costs, cost overruns and timing delays due to lack of availability of materials and labor, weather conditions and other factors outside our control;
- inability to obtain, or delays in obtaining, required zoning, occupancy and other governmental approvals;
- inability to obtain, or to obtain on favorable terms, anchor tenant, mortgage lender, in-line tenant or other property partner approvals, if applicable, for redevelopments;
- inability to obtain permanent financing upon completion of development or redevelopment activities or to refinance construction loans, which are generally recourse to us; and
- expenditure of money and time on projects that might be significantly delayed or might never be completed.

We might elect not to proceed with certain development projects. In general, the expensing of development costs for abandoned development projects will be accelerated to the related period. The accelerated recognition of these expenses could have a material adverse effect on our results of operations for the period in which the expenses are recognized.

Table of Contents

We might be unable to manage effectively our simultaneous redevelopment projects and our new development projects, including any proposed mixed use projects, which could affect our financial condition and results of operations.

We are currently engaged in the simultaneous redevelopment, to varying degrees, of a significant proportion of our mall properties, as well as a number of new development projects. The complex nature of these redevelopment and development projects calls for substantial management time, attention and skill. We might not have sufficient management resources to effectively manage our current redevelopment and development projects simultaneously, which might delay or inhibit the successful completion of these projects. Also, some of our redevelopment and development projects currently or in the future might involve mixed uses of the properties, including residential, office, and other uses. We might not have all of the necessary or desirable skill sets to manage such projects. The lack of sufficient management resources, or of the necessary skill sets to execute our plans, could prevent us from realizing our expectations with respect to these projects and could adversely affect our results of operations and financial condition.

There is a concentration of our retail properties in the Mid-Atlantic region of the United States, and adverse market conditions in that region might affect the ability of our tenants to make lease payments and the interest of prospective tenants to enter into leases, which might reduce the amount of income generated by our properties.

Our retail properties currently are concentrated in the Mid-Atlantic region of the United States, including several properties in the Philadelphia, Pennsylvania area. To the extent adverse conditions affecting retail properties, such as economic conditions, population trends and changing demographics, availability and costs of financing, construction costs, income, sales and property tax laws, and weather conditions, are particularly adverse in Pennsylvania or in the Mid-Atlantic region, our results of operations will be affected to a greater degree than companies that do not have a concentration in this region. If the sales of stores operating at our properties were to decline significantly due to adverse conditions, the risk that our tenants, including anchors, will be unable to fulfill the terms of their leases to pay rent or will enter into bankruptcy might increase. Furthermore, such adverse conditions might affect the likelihood or timing of lease commitments by new tenants or lease renewals by existing tenants as such parties delay their leasing decisions in order to obtain the most current information about trends in their businesses or industries. If, as a result of prolonged adverse regional conditions, occupancy at our properties decreases or our properties do not generate sufficient income to meet our operating and other expenses, including debt service, our financial position, results of operations, cash flow and ability to make capital expenditures and distributions to shareholders would be adversely affected.

Changes in the retail industry, particularly among retailers that serve as anchor tenants, could adversely affect our results of operations.

The income we generate from our retail properties depends in part on the ability of our anchor tenants to attract customers to our properties. The ability of anchor tenants to attract customers to a property has a significant effect on our ability to attract in-line tenants and, consequently, on the revenues generated by the property. In recent years, the retail industry and some of the retailers that serve as anchor tenants have experienced operational changes, consolidation and other ownership changes. In 2005, Federated Department Stores, Inc., operator of stores including Bloomingdale s and Macy s, acquired The May Department Stores Company, operator of stores including Marshall Field s, Filene s, Hecht s and Strawbridge s. Sears, Roebuck & Co. and K-mart Holding Corporation also merged in 2005. In 2006, Belk acquired Parisian. These combinations are expected to offer these companies even greater economies of scale, increasing their leverage with suppliers, including landlords. Such transactions and any similar transactions in the future might result in the restructuring of these companies, which could include closures or sales of anchor stores operated by them. Federated has closed some of its stores at properties where it now operates two or more stores. In particular, Federated closed the Strawbridge s stores it owned at the following malls in the PREIT portfolio: Cherry Hill, Lehigh Valley, Springfield, Willow Grove Park and The Gallery at Market East. The closure of an anchor store or a large number of anchor stores might have a negative effect on a property. In addition, for anchors that lease their space, the loss of any rental payments from an anchor, a lease termination by an anchor for any reason, a failure by that anchor to occupy the premises, or any other cessation of operations by an anchor could result in lease terminations or reductions in rent by other tenants of the same property whose leases permit cancellation or rent reduction if an anchor s lease is terminated or it otherwise ceases occupancy or operations. In that event, we might be unable to re-lease the vacated space in a timely manner, or at all. In addition, the leases of some anchors might permit the anchor to transfer its lease to another retailer. The transfer to a new anchor could cause customer traffic in the property to decrease or to be composed of different types of customers, which could reduce the income generated by that property. A transfer of a lease to a new anchor also could allow other tenants to make reduced rental payments or to terminate their leases at the property, which could adversely affect our results of operations.

Rising operating expenses, certain lease provisions and decreased occupancy could reduce our cash flow and funds available for future distributions.

Our properties are, and any properties we acquire in the future will be, subject to operating risks common to real estate in general, any or all of which might negatively affect us. The properties are subject to the risk of increases in common area maintenance (CAM) and other operating expenses, which typically include real estate taxes, energy and other utility costs, repairs, maintenance and capital improvements to common areas, security, housekeeping, property and liability insurance and administrative costs. If operating expenses increase, the availability of other comparable retail space in our specific geographic markets might limit our ability to pass these increases through to tenants, or might lead them to seek retail space elsewhere, which

could adversely affect our results of operations and limit our ability to make distributions to shareholders.

Our leases typically provide that the tenant is liable for a portion of CAM and other operating expenses. If these expenses increase, then the tenant s portion of such expenses also increases. A number of our leases do not provide separately for expense reimbursement, or are leases providing for fixed CAM. In these cases, a tenant will pay a single specified rent amount, or a set expense reimbursement amount, regardless of the actual amount of operating expenses. The tenant s payment remains the same if operating expenses increase or decrease, causing us to be responsible for the excess amount or allowing us to benefit if expenses are less than the payment. To the extent that existing leases, new leases or renewals of leases do not require a pro rata contribution from tenants, we are liable for the cost of such expenses in excess of the portion paid by tenants, if any. This could adversely affect our results of operations and our ability to make distributions to shareholders.

Further, if a property is not fully occupied, we would be required to pay a portion of the expenses in respect of the vacant space that are otherwise typically paid by our tenants. Additionally, in connection with the redevelopments of our properties, if occupancy is negatively affected, we might have to pay the portion of the expenses allocable to space that is unoccupied as a result of these projects. If occupancy at our mall properties decreases, including in connection with our redevelopment projects, then we might bear an increased portion of the total operating expenses, which would harm our operating results.

The retail real estate industry is highly competitive, and this competition could harm our ability to operate profitably.

Competition in the retail real estate industry is intense. We compete with other public and private retail real estate companies, including companies that own or manage malls, power centers, lifestyle centers, strip centers, factory outlet centers, theme/festival centers and community centers, as well as other commercial real estate developers and real estate owners, particularly those with properties near our properties. We compete with these companies to attract customers to our properties, as well as to attract anchor and in-line store tenants. We also compete to acquire land for new site development. Our malls and our power and strip centers face competition from similar retail centers, including more recently developed or renovated centers, that are near our retail properties. We also face competition from a variety of different retail formats, including internet retailers, discount or value retailers, home shopping networks, mail order operators, catalogs, and telemarketers. This competition could have a material adverse effect on our ability to lease space and on the level of rent that we currently receive. Our tenants face competition from companies at the same and other properties and from other retail formats as well.

Also, a significant amount of capital has and might continue to provide funding for the acquisition and development of properties that might compete with our properties. The development of competing retail properties and the related increased competition for tenants might require us to make capital improvements to properties that we would have deferred or would not have otherwise planned to make and affects the occupancy and net operating income of such properties. Any such redevelopments, undertaken individually or collectively, involve costs and expenses that could adversely affect our results of operations.

We face increasing competition for the acquisition of properties, development sites and other assets, which might impede our ability to make future acquisitions or might increase the cost of these acquisitions.

We compete with many other entities engaged in real estate investment activities for acquisitions of malls, other retail properties and other prime development sites, including institutional pension funds, other REITs and other owner-operators of retail properties. These competitors might drive up the price we must pay for properties, parcels, other assets or other companies we seek to acquire or might themselves succeed in acquiring those properties, parcels, assets or companies. In addition, our potential acquisition targets might find our competitors to be more attractive suitors if they have greater resources, are willing to pay more, or have a more compatible operating philosophy. In particular, larger REITs might enjoy significant competitive advantages that result from, among other things, a lower cost of capital, a better ability to raise capital, and enhanced operating efficiencies. Also, the number of entities, as well as the available capital resources competing for suitable investment properties or desirable development sites, have increased and might continue to increase, resulting in increased demand for these assets and therefore increased prices paid for them. We might not succeed in acquiring retail properties or development sites that we seek, or, if we pay higher prices for properties, or generate lower cash flow from an acquired property than we expect, our investment returns will be reduced, which will adversely affect the value of our securities.

We might not be successful in identifying suitable acquisitions that meet the criteria we apply, given economic, market or other circumstances, which might impede our growth.

Acquisitions of retail properties have been an important component of our growth strategy. Expanding by acquisitions requires us to identify suitable acquisition candidates or investment opportunities that meet the criteria we apply, given economic, market or other circumstances, and that are compatible with our growth strategy. We analyze potential acquisitions on a property-by-property and market-by-market basis. We might not be successful in identifying suitable properties or other assets in our existing geographic markets or in markets new to us that meet the acquisition criteria we apply, given economic, market or other circumstances, or in consummating acquisitions or investments on satisfactory terms. An inability to identify or consummate acquisitions could reduce the number of acquisitions we complete and impede our growth, which could adversely affect our results of operations.

We might be unable to integrate effectively any additional properties we might acquire, which might result in disruptions to our business and additional expense.

We continue to pursue, in an opportunistic and disciplined manner, acquisitions of additional properties or portfolios of properties that meet the investment criteria we apply, given economic, market and other circumstances. We might not be able to adapt our management and operational systems to effectively manage any such acquired properties or portfolios.

Specific risks for our ongoing operations posed by acquisitions we have completed or that we might complete in the future include:

- we might not achieve the expected operating efficiencies, value-creation potential, economies of scale or other benefits of such transactions;

- we might not have adequate personnel and financial and other resources to successfully handle our increased operations;
- we might not be successful in leasing space in acquired properties;
- the combined portfolio might not perform at the level we anticipate;
- we might experience difficulties and incur unforeseen expenses in connection with assimilating and retaining employees working at acquired properties, and in assimilating any acquired properties;
- we might experience problems and incur unforeseen expenses in connection with upgrading and expanding our systems and processes; and
- we might incur unexpected liabilities in connection with the properties and businesses we have acquired.

If we fail to successfully integrate any properties, portfolios, assets or companies we acquire, or fail to effectively handle our increased operations or realize the intended benefits of any such transactions, our financial condition and results of operations might be adversely affected.

Any tenant bankruptcies or leasing delays or terminations we encounter could adversely affect our financial condition and results of operations.

We receive a substantial portion of our operating income as rent under long-term leases with tenants. At any time, any tenant having space in one or more of our properties could experience a downturn in its business that might weaken its financial condition. These tenants might defer or fail to make rental payments when due, delay lease commencement, voluntarily vacate the premises or declare bankruptcy, which could result in the termination of the tenant s lease, and could result in material losses to us and harm to our results of operations. Also, it might take time to terminate leases of underperforming or nonperforming tenants and we might incur costs to remove such tenants. Some of our tenants occupy stores at multiple locations in our portfolio, and so the effect of any bankruptcy of those tenants might be more significant to us than the bankruptcy of other tenants. See Item 2. Properties Major Tenants. In addition, under many of our leases, our tenants pay rent based on a percentage of their sales. Accordingly, declines in these tenants sales directly affect our results of operations. Also, if tenants are unable to comply with the terms of our leases, we might modify lease terms in ways that are less favorable to us.

In 2006, Musicland, which operates the Sam Goody and Suncoast Motion Picture chains, filed for bankruptcy protection, as did G&G Retail, operator of Rave and Rave Girl. Also, Casual Corner liquidated. If a tenant files for bankruptcy, the tenant might have the right to reject and terminate its leases, and we cannot be sure that it will affirm its leases and continue to make rental payments in a timely manner. A bankruptcy filing by or relating to one of our tenants would bar all efforts by us to collect pre-bankruptcy debts from that tenant, or from their property, unless we receive an order permitting us to do so from the bankruptcy court. In addition, we cannot evict a tenant solely because of its bankruptcy. If a lease is assumed by the tenant in bankruptcy, all pre-bankruptcy balances due under the lease must be paid to us in full. However, if a lease is rejected by a tenant in bankruptcy, we would have only a general unsecured claim for damages. If a bankrupt tenant vacates a space, it might not do so in a timely

manner, and we might be unable to re-lease the vacated space. Any unsecured claim we hold might be paid only to the extent that funds are available and only in the same percentage as is paid to all other holders of unsecured claims, and there are restrictions under bankruptcy laws that limit the amount of the claim we can make if a lease is rejected. As a result, it is likely that we would recover substantially less than the full value of any unsecured claims we hold, which would adversely affect our financial condition and results of operations. These tenant bankruptcies and liquidations have adversely affected and might, in the future, adversely affect our financial condition and results of operations.

Our business could be harmed if Ronald Rubin, our chairman and chief executive officer, or other members of our senior management team terminate their employment with us.

Our future success depends, to a meaningful extent, upon the continued services of Ronald Rubin, our chairman and chief executive officer, and the services of our corporate management team (including the four-person Office of the Chairman that, in addition to Ronald Rubin, consists of George F. Rubin, Edward A. Glickman and Joseph F. Coradino). These executives have substantial experience in managing, developing and acquiring retail real estate. Although we have entered into employment agreements with Ronald Rubin and certain other members of our corporate management team, they could elect to terminate those agreements at any time. In addition, although we have purchased a key man life insurance policy in the amount of $5 million to cover Ronald Rubin, we cannot assure you that this would compensate us for the loss of his services. The loss of services of one or more members of our corporate management team could harm our business and our prospects.

We have invested and expect to invest in the future in partnerships with third parties to acquire or develop properties, and we might not control the management, redevelopment or disposition of these properties, or we might be exposed to other risks.

We have invested and expect to invest in the future as a partner in the acquisition of existing properties or the development of new properties, in contrast to acquiring properties or developing projects on our own. Entering into partnerships with third parties involves risks not present where we act alone, in that we might not have exclusive control over the acquisition, development, redevelopment, financing, leasing, management, budget-setting and other aspects of the property or project. These limitations might adversely affect our ability to develop, redevelop or sell these properties. Also, there might be restrictive provisions and rights that apply to sales or transfers of interests in our partnership properties, which might require us to make decisions about buying or selling interests at a disadvantageous time.

Some of our retail properties are owned by partnerships in which we are a general partner. Under the terms of the partnership agreements, major decisions, such as a sale, lease, refinancing, redevelopment, expansion or rehabilitation of a property, or a change of property manager, require the consent of all partners. Accordingly, because decisions must be unanimous, necessary actions might be delayed significantly and it might be difficult or even impossible to remove a partner that is serving as the property manager. We might not be able to favorably resolve any issues which arise with respect to such decisions, or we might have to provide financial or other inducements to our partners to obtain such resolution. In cases where we are not the controlling partner or where we are only one of the general partners, there are many decisions that do not relate to fundamental matters that do not require our approval and that we do not control. Also,

Table of Contents

in cases in which we serve as managing general partner of the partnerships that own our properties, we might have certain fiduciary responsibilities to the other partners in those partnerships.

Business disagreements with partners might arise. We might incur substantial expenses in resolving these disputes. To preserve our investment, we might be required to make commitments to or on behalf of a partnership during a dispute that might not be credited or repaid in full. Moreover, we cannot assure you that our resolution of a dispute with a partner will be on terms that are favorable to us.

Other risks of investments in partnerships with third parties include:

- partners might become bankrupt or fail to fund their share of required capital contributions, which might necessitate our funding their share to preserve our investment;
- partners might have business interests or goals that are inconsistent with our business interests or goals;
- partners might be in a position to take action contrary to our policies or objectives;
- we might incur liability for the actions of our partners; and
- third-party managers might not be sensitive to publicly-traded company or REIT tax compliance matters.

If we suffer losses that are not covered by insurance or that are in excess of our insurance coverage limits, we could lose invested capital and anticipated profits.

There are some types of losses, including those of a catastrophic nature, such as losses due to wars, earthquakes, floods, hurricanes, as well as pollution and environmental matters, and lease and contract claims, that are generally uninsurable or not economically insurable, or might be subject to insurance coverage limitations, such as large deductibles or co-payments. If one of these events occurred to, or caused the destruction of, one or more of our properties, we could lose both our invested capital and anticipated profits from that property. We also might remain obligated for any mortgage or other financial obligation related to the property. In addition, if we are unable to obtain insurance in the future at acceptable levels and at a reasonable cost, the possibility of losses in excess of our insurance coverage might increase and we might not be able to comply with covenants under our debt agreements, which could adversely affect our financial condition. If any of our properties were to experience a significant, uninsured loss, it could seriously disrupt our operations, delay our receipt of revenue and result in large expenses to repair or rebuild the property. These types of events could adversely affect our cash flow and ability to make distributions to shareholders.

We might incur costs to comply with environmental laws, which could have an adverse effect on our results of operations.

Under various federal, state and local laws, ordinances, regulations and case law, an owner, former owner or operator of real estate might be liable for the costs of removal or remediation of hazardous or toxic substances present at, on, under, in or released from its property, regardless of whether the owner, operator or other responsible party knew of or was at fault for the release or

presence of hazardous or toxic substances. They also might be liable to the government or to third parties for substantial property damage, investigation costs or clean up costs. Even if more than one person might have been responsible for the contamination, each person covered by the environmental laws might be held responsible for all of the clean-up costs incurred. In addition, some environmental laws create a lien on the contaminated site in favor of the government for damages and costs the government incurs in connection with the contamination. Contamination might adversely affect the owner s ability to sell or lease real estate or borrow with real estate as collateral. In connection with our ownership, operation, management, development and redevelopment of properties, or any other properties we acquire in the future, we might be liable under these laws and might incur costs in responding to these liabilities, which could have an adverse effect on our results of operations. See Item 1. Business Environmental.

RISKS RELATED TO OUR INDEBTEDNESS AND OUR FINANCING

We have substantial debt, which might increase, as well as obligations to pay dividends on our preferred shares, and we require significant cash flows to satisfy these obligations. If we are unable to satisfy those obligations, we might be forced to dispose of one or more properties and there could be other negative consequences.

We use a substantial amount of debt to finance our business, and we might incur additional debt under our Credit Facility or otherwise in order to develop or redevelop properties, to finance acquisitions, or for other general corporate purposes. As of December 31, 2006, we had an aggregate consolidated indebtedness outstanding excluding debt premium of approximately $1,906.1 million, approximately $1,572.9 million of which was secured by our properties. Included in the aggregate amount is $333.1 million of unsecured indebtedness that is recourse to us, PREIT Associates and certain of our consolidated subsidiaries. This indebtedness does not include our proportionate share of indebtedness of our partnership properties. If our leverage increases, our debt service costs and our risk of defaulting on our indebtedness might increase. We are also obligated to pay a quarterly dividend of $1.375 per share to the holders of the 2,475,000 11% preferred shares that we issued in connection with our November 2003 merger with Crown American Realty Trust. We intend to redeem the preferred shares at the earliest practicable date on or after July 31, 2007 at the aggregate price of $129.9 million. Although our plans with regard to the preferred share redemption are subject to change, we intend to issue new indebtedness to finance this redemption. If we do not have sufficient cash flow from operations, we might not be able to make all required payments of principal and interest on our debt or to pay distributions on our securities at historical rates, which could have a material adverse effect on our financial condition and results of operations.

Much of our outstanding indebtedness represents obligations of our operating partnership, PREIT Associates, L.P., and entities that we own or control that hold title to our properties. We have mortgaged many of our properties to secure payment of this indebtedness. If we were unable to make the required payments on this indebtedness, a lender could foreclose upon the mortgaged property and receive an assignment of rents and leases or pursue other remedies. Much of our indebtedness does not require significant principal payments prior to maturity, and we might obtain similar financing terms in future transactions. If our debt cannot be paid, refinanced or extended at maturity on acceptable terms, or at all, we might be forced to dispose of one or more of our properties on unfavorable terms, which might result in losses to us and which might adversely affect our cash flow and our ability to make distributions to shareholders.

Our substantial obligations arising from our indebtedness and the dividends payable on our preferred shares could have negative consequences to our shareholders, including:

- requiring us to use a significant portion of our cash flow from operations to make interest and principal payments on our debt and dividend payments on our preferred shares rather than for other purposes such as working capital, capital expenditures or dividends on our common shares;
- harming our ability to obtain additional financing in the future for working capital, capital expenditures, acquisitions, development and redevelopment activities or other general corporate purposes;
- limiting our flexibility to plan for or react to changes in business and economic conditions;
- making us more vulnerable to a downturn in our business or the economy generally; and
- limiting our ability to enter into hedging transactions with counterparties.

As of December 31, 2006, we had $449.1 million of variable rate debt. Increases in interest rates will increase our interest expense on the variable rate debt we have outstanding from time to time. Also, rising interest rates might reduce our ability to refinance maturing fixed-rate debt on favorable terms, or at all. Increased interest expense would adversely affect our cash flow and our ability to make distributions to shareholders.

We might not be able to obtain capital required to finance our business initiatives.

The REIT provisions of the Internal Revenue Code generally require the distribution to shareholders of 90% of a REIT s net taxable income, excluding net capital gains, which generally leaves insufficient funds to finance major initiatives internally. Due to these requirements, we fund most of our long-term capital requirements, such as for acquisitions of properties or other assets, scheduled debt maturities and redevelopments, renovations, expansions and other non-recurring capital improvements, through long-term secured and unsecured indebtedness and, when appropriate, the issuance of additional equity securities. Our ability to finance our growth using these sources depends, in part, on the availability of credit or of equity capital to us at the time or times we need it. Over the course of the business cycle, there might be times when lenders and equity investors might show less interest in lending to us or investing in our securities. Although we believe, based on current market conditions, that we will be able to finance our business initiatives for the foreseeable future, financing might not be available on acceptable terms, or at all. See Item 7. Management s Discussion and Analysis of Financial Condition and Results of Operations Liquidity and Capital Resources for information about our available sources of funds.

Our Credit Facility has a term that expires in January 2009, and we have an option to extend the term for an additional 14 months, provided there is no event of default at that time. Our mortgage loan with GE Capital Corporation, which had a balance of $417.7 million as of December 31, 2006, can be prepaid without penalty in September 2008. If we are unable to borrow under our Credit Facility or to arrange for alternative financing, or if we are unable to refinance the mortgage loan with GE Capital Corporation, we might be unable to acquire or develop

properties, redevelop our existing properties or finance other corporate activities, and our financial condition and results of operations would be adversely affected.

Some of our properties are owned or ground-leased by subsidiaries that we created solely to own or ground-lease those properties. The mortgaged properties and related assets are restricted solely for the payment of the related loans and are not available to pay our other debts, which could impair our ability to borrow, which in turn could harm our business.

The profitability of each partnership we enter into with third parties that has short-term financing or debt requiring a balloon payment is dependent on the availability of long-term financing on satisfactory terms. If satisfactory long-term financing is not available, we might have to rely on other sources of short-term financing or equity contributions. Although these partnerships are not wholly-owned by us, we might be required to pay the full amount of any obligation of the partnership that we have guaranteed in whole or in part, or we might elect to pay all of the obligations of such a partnership to protect our equity interest in its properties and assets. This could cause us to utilize a substantial portion of our liquidity sources or funds from operations and could have a material adverse effect on our operating results and reduce amounts available for distribution to shareholders.

The covenants in our Credit Facility might restrict our operations or acquisition activities, which might harm our ability to pursue new business initiatives and have a negative effect on our financial condition and results of operations.

Our Credit Facility currently requires our operating partnership, PREIT Associates, L.P., to satisfy certain affirmative and negative covenants and to meet numerous financial tests, including tests relating to our leverage, interest coverage and tangible net worth. These covenants could restrict our ability to pursue acquisitions, development and redevelopment, limit our ability to respond to changes and competition, and could reduce our flexibility in conducting our operations by limiting our ability to borrow money, sell or place liens on assets, repurchase securities, make capital expenditures or engage in acquisitions or mergers. If we cannot continue to satisfy these covenants and meet these tests, there is a risk that we could default under the Credit Facility. If we default under the Credit Facility, the lenders could require us to repay the debt immediately, which would have a material adverse effect on our financial condition and results of operations.

Payments by our direct and indirect subsidiaries of dividends and distributions to us might be adversely affected by prior payments to the creditors of these subsidiaries.

We own substantially all of our assets through our interest in our operating partnership, PREIT Associates. PREIT Associates holds substantially all of its properties and assets through subsidiaries, including subsidiary partnerships and limited liability companies. PREIT Associates thus derives substantially all of its cash flow from cash distributions to it by its subsidiaries, and we, in turn, derive substantially all of our cash flow from cash distributions to us by PREIT Associates. Our direct and indirect subsidiaries must make payments on the subsidiaries obligations to their creditors, when due and payable, before a subsidiary may make distributions to us. Thus, PREIT Associates ability to make distributions to its partners, including us, depends on its subsidiaries ability first to satisfy their obligations to their creditors. Similarly, our ability to pay dividends to holders of our common and preferred shares depends on PREIT Associates ability first to satisfy its obligations to its creditors before making

Table of Contents

distributions to us. If the subsidiaries were unable to make payments to their creditors when due and payable, or if the subsidiaries had insufficient funds to both make payments to creditors and distribute funds to PREIT Associates, we might not have sufficient cash to satisfy our obligations and/or make distributions to our shareholders.

In addition, we will have the right to participate in any distribution of the assets of any of our direct or indirect subsidiaries upon the liquidation, reorganization or insolvency of the subsidiary only after the claims of the creditors, including trade creditors, of the subsidiary are satisfied. Our common shareholders, in turn, will have the right to participate in any distribution of our assets upon our liquidation, reorganization or insolvency only after the claims of our creditors, including trade creditors, and preferred security holders, if any, are satisfied.

Our hedging arrangements might not be successful in limiting our risk exposure, and we might be required to incur expenses in connection with these arrangements or their termination that could harm our results of operations or financial condition.

We use interest rate hedging arrangements to manage our exposure to interest rate volatility, but these arrangements might expose us to additional risks. Developing an effective interest rate risk strategy is complex, and no strategy can completely insulate us from risks associated with interest rate fluctuations. We cannot assure you that our hedging activities will have a positive impact on our results of operations or financial condition. We might be subject to additional costs, such as transaction fees or breakage costs, if we terminate them. In addition, although our interest rate risk management policy establishes minimum credit ratings for counterparties, this does not eliminate the risk that a counterparty might fail to honor its obligations.

RISKS RELATED TO THE REAL ESTATE INDUSTRY

We are subject to risks that affect the retail real estate environment generally.

The Company s business is centered on retail real estate, predominantly malls and power and strip centers. The Company does not have significant involvement in the office, industrial, residential or other property sectors. As such, the Company faces risks that affect the general environment for retail real estate and retailers. Changes in a number of factors can decrease the income generated by a retail property, including a downturn in the national, regional or local economy or consumer confidence or spending, which could result from plant closings, local industry slowdowns, adverse weather conditions, natural disasters and other factors, which might reduce consumer spending on retail goods; a weakening of local real estate conditions, such as an oversupply of, or a reduction in demand for, retail space or retail goods, and the availability and creditworthiness of current and prospective tenants; changes in perceptions by retailers or shoppers of the safety, convenience and attractiveness of a retail property; and perceived changes in the convenience and quality of competing retail properties and other retailing options such as internet retailers. Income from retail properties and retail property values are also affected by interest rate levels and the availability and cost of financing, and by applicable laws and regulations, including tax and zoning laws, among other factors. Changes in one or more of these factors can lead to a decrease in the revenues generated by our properties, which might limit our ability to meet our operating and other expenses, including debt service, to make capital expenditures and to make distributions to shareholders. A decrease in revenues can have a material adverse effect on our financial condition and results of operations.

Illiquidity of real estate investments could significantly affect our ability to respond to adverse changes in the performance of our properties and harm our financial condition.

Table of Contents

Substantially all of our total consolidated assets consist of investments in real properties. Because real estate investments are relatively illiquid, our ability to quickly sell one or more properties in our portfolio in response to changing economic, financial and investment conditions is limited. The real estate market is affected by many factors, such as general economic conditions, availability of financing, interest rates and other factors, including supply and demand for space, that are beyond our control. We cannot predict whether we will be able to sell any property for the price or on the terms we set, or whether any price or other terms offered by a prospective purchaser would be acceptable to us. We also cannot predict the length of time needed to find a willing purchaser and to close the sale of a property.

Before a property can be sold, we might be required to make expenditures to correct defects or to make improvements. We cannot assure you that we will have funds available to correct those defects or to make those improvements, and if we cannot do so, we might not be able to sell the property, or might be required to sell the property on unfavorable terms. In acquiring a property, we might agree to provisions that materially restrict us from selling that property for a period of time or impose other restrictions, such as limitations on the amount of debt that can be placed or repaid on that property. These factors and any others that would impede our ability to respond to adverse changes in the performance of our properties could adversely affect our financial condition and results of operations.

Possible terrorist activity or other acts of violence or war could adversely affect our financial condition and results of operations.

Future terrorist attacks in the United States, and other acts of terrorism or war, might result in declining economic activity, which could harm the demand for goods and services offered by our tenants and the value of our properties and might adversely affect the value of an investment in our securities. A decrease in retail demand could make it difficult for us to renew or re-lease our properties at lease rates equal to or above historical rates. Terrorist activities also could directly affect the value of our properties through damage, destruction or loss, and the availability of insurance for such acts, or of insurance generally, might be lower, or cost more, which could increase our operating expenses and adversely affect our financial condition and results of operations. To the extent that our tenants are affected by future attacks, their businesses similarly could be adversely affected, including their ability to continue to meet obligations under their existing leases. These acts might erode business and consumer confidence and spending, and might result in increased volatility in national and international financial markets and economies. Any one of these events might decrease demand for real estate, decrease or delay the occupancy of our new or redeveloped properties, and limit our access to capital or increase our cost of raising capital.

RISKS RELATING TO OUR ORGANIZATION AND STRUCTURE

Our organizational documents contain provisions that might discourage a takeover of us and depress our share price.

Our organizational documents contain provisions that might have an anti-takeover effect and inhibit a change in our management and the opportunity to realize a premium over the then-prevailing market price of our securities. These provisions include:

(1) *There are ownership limits and restrictions on transferability in our trust agreement*. In order to protect our status as a REIT, no more than 50% of the value of our outstanding

shares (after taking into account options to acquire shares) may be owned, directly or constructively, by five or fewer individuals, and the shares must be beneficially owned by 100 or more persons during at least 335 days of a taxable year of 12 months or during a proportionate part of a shorter taxable year. To assist us in satisfying these tests, subject to some exceptions, our trust agreement prohibits any shareholder from owning more than 9.9% of our outstanding shares of beneficial interest (exclusive of preferred shares) or more than 9.9% of any class or series of preferred shares. The trust agreement also prohibits transfers of shares that would cause a shareholder to exceed the 9.9% limit or cause our shares to be beneficially owned by fewer than 100 persons. Our Board of Trustees might exempt a person from the 9.9% ownership limit if it receives a ruling from the Internal Revenue Service or an opinion of counsel or tax accountants that exceeding the 9.9% ownership limit as to that person would not jeopardize our tax status as a REIT. Absent an exemption, this restriction might:

- discourage, delay or prevent a tender offer or other transaction or a change in control or management that might involve a premium price for our shares or otherwise be in the best interests of our shareholders; or

- compel a shareholder who had acquired more than 9.9% of our shares to transfer the additional shares to a trust and, as a result, to forfeit the benefits of owning the additional shares.

(2) *Our trust agreement permits our Board of Trustees to issue preferred shares with terms that might discourage a third party from acquiring our Company.* Our trust agreement permits our Board of Trustees to create and issue multiple classes and series of preferred shares, and classes and series of preferred shares having preferences to the existing shares on any matter, without a vote of shareholders, including preferences in rights in liquidation or to dividends and option rights, and other securities having conversion or option rights. Also, the board might authorize the creation and issuance by our subsidiaries and affiliates of securities having conversion and option rights in respect of our shares. Our trust agreement further provides that the terms of such rights or other securities might provide for disparate treatment of certain holders or groups of holders of such rights or other securities. The issuance of such rights or other securities could have the effect of discouraging, delaying or preventing a change in control over us, even if a change in control were in our shareholders interest or would give the shareholders the opportunity to realize a premium over the then-prevailing market price of our securities.

(3) *Our staggered Board of Trustees might affect the ability of a shareholder to take control of our Company*. Our Board of Trustees has three classes of trustees. The term of office of one class expires each year. Trustees for each class are elected for three year terms upon the expiration of the term of the respective class. The staggered terms for trustees might affect the ability of a shareholder to take control of us, even if a change in control were in the best interests of our shareholders.

Limited partners of PREIT Associates, L.P. may vote on certain fundamental changes we propose, which could inhibit a change in control that might otherwise result in a premium to our shareholders.

Table of Contents

Our assets generally are held through our operating partnership, PREIT Associates. We currently hold a majority of the outstanding units of limited partnership interest in PREIT Associates. However, PREIT Associates might, from time to time, issue additional units to third parties in exchange for contributions of property to PREIT Associates. These issuances will dilute our percentage ownership of PREIT Associates. Units generally do not carry a right to vote on any matter voted on by our shareholders, although limited partnership interests might, under certain circumstances, be redeemed for our shares. However, before the date on which at least half of the units issued on September 30, 1997 in connection with our acquisition of The Rubin Organization have been redeemed, the holders of units issued on September 30, 1997 are entitled to vote such units together with our shareholders, as a single class, on any proposal to merge, consolidate or sell substantially all of our assets. Our partnership interest in PREIT Associates is not included for purposes of determining when half of the partnership interests issued on September 30, 1997 have been redeemed, nor are they counted as votes. These existing rights could inhibit a change in control that might otherwise result in a premium to our shareholders. In addition, we cannot assure you that we will not agree to extend comparable rights to other limited partners in PREIT Associates.

We have entered into tax protection agreements for the benefit of certain former property owners, including some limited partners of PREIT Associates, that might affect our ability to sell or refinance some of our properties that we might otherwise want to sell, which could harm our financial condition.

As the general partner of PREIT Associates, we have agreed to indemnify certain former property owners, including some who have become limited partners of PREIT Associates, against tax liability that they might incur if we sell or significantly reduce the debt secured by a property acquired from them within a certain number of years after we acquired it in a taxable transaction. In some cases, these agreements might make it uneconomical for us to sell these properties, even in circumstances in which it otherwise would be advantageous to do so, which could adversely affect our ability to address liquidity needs in the future or otherwise harm our financial condition.

Some of our officers and trustees have interests in properties that we manage and therefore might have conflicts of interest that could adversely affect our business.

We provide management, leasing and development services for partnerships and other ventures in which some of our officers and trustees, including Ronald Rubin, a trustee and our chairman and chief executive officer, and George F. Rubin, a trustee and vice chairman, have indirect ownership interests. In addition, we lease substantial office space from an entity in which some of our officers, including the Rubins, have an interest. Our officers who have interests in the other parties to these transactions have a conflict of interest in deciding to enter into these agreements and in negotiating their terms, which could result in our obtaining terms that are less favorable than we might otherwise obtain, which could adversely affect our business.

RISKS RELATING TO OUR SECURITIES

Many factors, including changes in interest rates and the negative perceptions of the retail sector generally, can have an adverse effect on the market value of our securities.

Table of Contents

As is the case with other publicly traded companies, a number of factors might adversely affect the price of our securities, many of which are beyond our control. These factors include:

Increases in market interest rates, relative to the dividend yield on our shares. If market interest rates go up, prospective purchasers of our securities might require a higher yield. Higher market interest rates would not, however, result in more funds for us to distribute to shareholders and, to the contrary, would likely increase our borrowing costs and potentially decrease funds available for distribution. Thus, higher market interest rates could cause the market price of our shares to go down.

A decline in the anticipated benefits of an investment in our securities as compared to an investment in securities of companies in other industries (including benefits associated with tax treatment of dividends and distributions).

Perception by market professionals of REITs generally and REITs in the retail market segment in particular. Our portfolio of properties consists almost entirely of retail properties and we expect to continue to focus primarily on acquiring retail centers in the future.

Perception by market participants of our potential for payment of cash distributions and for growth.

Levels of institutional investor and research analyst interest in our securities.

Relatively low trading volumes in securities of REITs.

Our results of operations and financial condition.

Investor confidence in the stock market generally.

The market value of our common shares is based primarily upon the market s perception of our growth potential and our current and potential future earnings, funds from operations and cash distributions. Consequently, our common shares might trade at prices that are higher or lower than our net asset value per common share. If our future earnings, funds from operations or cash distributions are less than expected, it is likely that the market price of our common and preferred shares will decrease.

Individual taxpayers might perceive REIT securities as less desirable relative to the securities of other corporations because of the lower tax rate on certain dividends from such corporations, which might have an adverse effect on the market value of our securities.

Historically, the dividends of corporations other than REITs have been taxed at ordinary income rates, which range as high as 35%. Recently, the maximum tax rate on certain corporate dividends received by individuals has been reduced to 15%, through at least December 31, 2010. However, dividends from REITs do not generally qualify for the lower tax rate on corporate dividends because REITs generally do not pay corporate-level tax on income that they distribute currently to shareholders. This differing treatment of dividends received from REITs and from corporations that are not REITs might cause individual investors to view an investment in the shares of a non-REIT corporation as more attractive than shares in REITs, which might negatively affect the value of our shares.

TAX RISKS

If we were to fail to qualify as a REIT, our shareholders would be adversely affected.

We believe that we have qualified as a REIT since our inception and intend to continue to qualify as a REIT. To qualify as a REIT, however, we must comply with certain highly technical and complex requirements under the Internal Revenue Code, which is more complicated in the case of a REIT such as ours that holds its assets primarily in partnership form. We cannot be certain we have complied with these requirements because there are very limited judicial and administrative interpretations of these provisions, and even a technical or inadvertent mistake could jeopardize our REIT status. In addition, facts and circumstances that might be beyond our control might affect our ability to qualify as a REIT. We cannot assure you that new legislation, regulations, administrative interpretations or

court decisions will not change the tax laws significantly with respect to our qualification as a REIT or with respect to the federal income tax consequences of qualification.

If we were to fail to qualify as a REIT, we would be subject to federal income tax, including any applicable alternative minimum tax, on our taxable income at regular corporate rates. Also, unless the Internal Revenue Service granted us relief under statutory provisions, we would remain disqualified from treatment as a REIT for the four taxable years following the year during which we first failed to qualify. The additional tax incurred at regular corporate rates would significantly reduce the cash flow available for distribution to shareholders and for debt service. In addition, we would no longer be required to make any distributions to shareholders. If there were a determination that we do not qualify as a REIT, there would be a material adverse effect on our results of operations and there could be a material reduction in the value of our common and preferred shares.

We might be unable to comply with the strict income distribution requirements applicable to REITs, or compliance with such requirements could adversely affect our financial condition or cause us to forego otherwise attractive opportunities.

To obtain the favorable tax treatment associated with qualifying as a REIT, we are required each year to distribute to our shareholders at least 90% of our net taxable income. In addition, we are subject to a tax on any undistributed portion of our income at regular corporate rates and might also be subject to a 4% excise tax on this undistributed income. We could be required to seek to borrow funds on a short-term basis to meet the distribution requirements that are necessary to achieve the tax benefits associated with qualifying as a REIT, even if conditions are not favorable for borrowing, which could adversely affect our financial condition and results of operations. In addition, compliance with these REIT requirements might cause us to forego opportunities we would otherwise pursue.

RETAIL PROPERTIES

As of December 31, 2006, we owned interests in 50 operating retail properties containing an aggregate of approximately 35.1 million square feet (including space owned by anchors). As of December 31, 2006, we and partnerships in which we own an interest owned approximately 27.1 million square feet of space at the 50 operating retail properties. PREIT Services currently manages 44 of these properties, 43 of which we consolidate for financial reporting purposes, and one that is owned by a partnership in which we hold a 50% interest. PRI co-manages one property, which is owned by a partnership that is not wholly-owned by us. The remaining five properties are also owned by partnerships that are not wholly-owned by us and are managed by our partners, or by an entity we or our partners designate.

Total occupancy in our malls, including only space we own, was 86.8% as of December 31, 2006. In-line occupancy in our malls was 86.0% as of that date. Occupancy in our power and strip centers was 96.3% as of that date.

In general, we own the land underlying our properties in fee or, in the case of our properties held by partnerships with others, ownership by the partnership entity is in fee. At certain properties, however, the underlying land is owned by third parties and leased to us or the partnership in which we hold an interest pursuant to long-term ground leases. In a ground lease, the building owner pays rent for the use of the land and is responsible for all costs and expenses related to the building and improvements.

The following tables present information regarding our retail properties as of December 31, 2006. We refer to the total retail space of these properties, including anchors and in-line stores, as Total Square Feet, and the portion that we own as Owned Square Feet.

(1) The location stated is the major city or town nearest to the property and is not necessarily the local jurisdiction in which the property is located.

(2) Total square feet includes space owned by the Company and space owned by tenants.

(3) Owned square feet includes only space owned by the Company and excludes space owned by tenants.

(4) Percentage of owned square feet leased is calculated based only on space owned by the Company and excludes space owned by tenants.

(5) Includes both tenants in occupancy and tenants that had signed leases but had vacated as of

December 31, 2006.

(6) Includes anchors that own their space and do not pay rent.

(7) The underlying land at this property is subject to a ground lease.

(8) Tenant currently holds a long-term ground lease with an option to purchase the related store and parking area at a nominal purchase price. These locations are deemed owned by their anchor occupants as they only pay a nominal rent.

(9) The percentage of Owned Square Feet leased for Cherry Hill Mall, The Gallery at Market East and Willow Grove Park includes former Strawbridge s stores that are currently vacant, pending redevelopment. These vacant department

shares represent 33.5%, 51.5% and 29.0% of Owned Square Feet for Cherry Hill Mall, The Gallery at Market East and Willow Grove Park, respectively.

(10) The Company has entered into an agreement of sale for this property.

LARGE FORMAT RETAILERS AND ANCHORS

Historically, large format retailers and anchors have been an important element of attracting customers to a mall, and they have generally been department stores whose merchandise appeals to a broad range of customers, although in recent years we have attracted some non-traditional large format retailers. These large format retailers and anchors either own their stores, the land under them and adjacent parking areas, or enter into long-term leases at rents that are generally lower than the rents charged to in-line tenants. Well-known, financially sound large format retailers and anchors continue to play an important role in generating customer traffic and making malls desirable locations for in-line store tenants, even though the market share of traditional department store anchors has been declining. The following table indicates the parent company of each of our large format retailers and anchors and sets forth the number of stores and square feet owned or leased by each at our retail properties as of December 31, 2006:

(1) To qualify as an anchor for this schedule, a chain must have a store format in our portfolio of 50,000 square feet or greater. To the extent a chain has a smaller format, the name is only included if it is a division of a tenant that has larger format.

(2) Includes anchors that own their own space and do not pay rent.

Table of Contents

MAJOR TENANTS

97	8,905,900	$ 25,455,388	$ 2.86	76.72%

(1) Accounts for all contiguous anchor space as one lease.

(2) Includes only owned space.

(3) Includes PREIT s proportionate share of tenant rents from partnership properties that are not consolidated based on PREIT s ownership percentage in the respective partnerships. Annualized base rent is calculated based only on fixed monthly rents as of December 31, 2006.

(4) Percentage of total leased GLA is calculated by dividing the approximate GLA of expiring leases by the total leased GLA, which is 11,608,210 square feet.

(5) Includes all tenant leases that had expired and were on a month-to-month basis as of

December 31,
2006.

Table of Contents

OFFICE SPACE

We lease our principal executive offices from Bellevue Associates, an entity in which certain of our officers/trustees have an interest. Our rented space under the office lease has a total of approximately 68,100 square feet. The term of the office lease is 10 years, and it commenced on November 1, 2004. We have the option to renew the lease for up to two additional five year periods at the then-current fair market rate calculated in accordance with the terms of the office lease. In addition, we have the right on one occasion at any time during the seventh lease year to terminate the office lease upon the satisfaction of certain conditions. Effective June 1, 2004, our base rent is $1.4 million per year during the first five years of the office lease and $1.5 million per year during the second five years.

ITEM 3. LEGAL PROCEEDINGS.

In the normal course of business, we have and may become involved in legal actions relating to the ownership and operation of its properties and the properties it manages for third parties. In management s opinion, the resolutions of any such pending legal actions are not expected to have a material adverse effect on our consolidated financial position or results of operations.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

No matters were submitted to a vote of security holders during the quarter ended December 31, 2006.

PART II

ITEM 5. MARKET FOR REGISTRANT S COMMON EQUITY, RELATED SHAREHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES.

Common Shares

Our common shares of beneficial interest are listed on the New York Stock Exchange under the symbol PEI.

The following table presents the high and low sales prices for our common shares of beneficial interest, as reported by the New York Stock Exchange, and cash distributions paid per share for the periods indicated:

	High	Low	Dividend Paid
Quarter ended March 31, 2006	$ 44.44	$ 36.95	$ 0.57
Quarter ended June 30, 2006	$ 43.91	$ 36.75	0.57
Quarter ended September 30, 2006	$ 43.41	$ 37.30	0.57
Quarter ended December 31, 2006	$ 44.53	$ 37.48	0.57
			$ 2.28

	High	Low	Dividend Paid
Quarter ended March 31, 2005	$ 43.21	$ 38.91	$ 0.54
Quarter ended June 30, 2005	$ 48.10	$ 39.66	0.57
Quarter ended September 30, 2005	$ 50.20	$ 39.60	0.57
Quarter ended December 31, 2005	$ 42.60	$ 35.24	0.57
			$ 2.25

As of December 31, 2006, there were approximately 3,200 holders of record of our common shares and approximately 19,000 beneficial holders of our common shares.

We currently anticipate that cash distributions will continue to be paid in March, June, September and December. However, our future payment of distributions will be at the discretion of our Board of Trustees and will depend on numerous factors, including our cash flow, financial condition, capital requirements, annual distribution requirements under the REIT provisions of the Internal Revenue Code and other factors that our Board of Trustees deems relevant.

Units

Class A and Class B Units of PREIT Associates are redeemable by PREIT Associates at the election of the limited partner holding the Units at the time and for the consideration set forth in PREIT Associates partnership agreement. In general, and subject to exceptions and limitations, beginning one year following the respective issue dates, qualifying parties may give one or more notices of redemption with respect to all or any part of the Class A Units then held by that party. Class B Units are redeemable at the option of the holder at any time after issuance.

If a notice of redemption is given, we have the right to elect to acquire the Units tendered for redemption for our own account, either in exchange for the issuance of a like number of our common shares, subject to adjustments for stock splits, recapitalizations and like events, or a cash payment equal to the average of the closing prices of our shares on the ten consecutive trading days immediately before our receipt, in our capacity as general partner of PREIT Associates, of the notice of redemption. If we decline to exercise this right, then on the tenth business day following tender for redemption, PREIT Associates will pay a cash amount equal to the number of Units tendered multiplied by such average closing price.

Unregistered Offerings

On October 19, 2006, we issued 2,983 shares in return for an equal number of Class A Units tendered for redemption by a limited partner of PREIT Associates. The shares were issued under exemptions provided by Section 4(2) of the

Securities Act of 1933 or Regulation D promulgated under the Securities Act as a transaction not involving a public offering.

On December 31, 2006, we issued 341,297 Class B Units to Crown American Properties, L.P., in exchange for the 11% interest in the capital and 1% interest in the profits of each of two partnerships that own or ground lease 12 shopping malls. See Item 7. Management s Discussion and Analysis of Financial Condition and Results of Operations Acquisitions, Dispositions and Development Activities 2006 Acquisitions for further information about this transaction. The units were issued under exemptions provided by Section 4(2) of the Securities Act of 1933 or Regulation D promulgated under the Securities Act as a transaction not involving a public offering.

Table of Contents

Issuer Purchases of Equity Securities

The following table shows the total number of shares that we acquired in the fourth quarter of 2006 and the average price paid per share.

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as part of Publicly Announced Plans or Programs (1)	Maximum Number (or Approximate Dollar Value) of Shares that May Yet Be Purchased Under the Plans or Programs (1)
October 1 October 31, 2006		$		
November 1 November 30, 2006				
December 1 December 31, 2006				$ 91,600,000
Total		$		

(1) On October 31, 2005, we announced that our Board of Trustees authorized a program to repurchase up to $100 million of our common shares in the open market or in privately negotiated or other transactions until the end of 2007, subject to the Board s authority to terminate the program earlier.

We repurchased 218,700 common shares in 2005. We did not repurchase any shares in 2006 under this program.

ITEM 7. MANAGEMENT S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The following analysis of our consolidated financial condition and results of operations should be read in conjunction with our consolidated financial statements and the notes thereto included elsewhere in this report.

OVERVIEW

Pennsylvania Real Estate Investment Trust, a Pennsylvania business trust founded in 1960 and one of the first equity REITs in the United States, has a primary investment focus on retail shopping malls and power and strip centers located in the Mid-Atlantic region or in the eastern half of the United States. Our operating portfolio currently consists of a total of 51 properties. The retail portion of our portfolio contains 50 properties in 13 states and includes 39 shopping malls and 11 power and strip centers. The operating retail properties have a total of approximately 35.1 million square feet. The retail properties we consolidate for financial reporting purposes have a total of approximately 30.7 million square feet, of which we own approximately 24.3 million square feet. Properties that are owned by unconsolidated partnerships with third parties have a total of approximately 4.4 million square feet, of which 2.8 million square feet are owned by such partnerships. The ground-up development portion of our portfolio contains seven properties in five states, with four classified as power centers, two classified as mixed use (a combination of retail and other uses) and one classified as other.

Our primary business is owning and operating shopping malls and power and strip centers. We evaluate operating results and allocate resources on a property-by-property basis, and do not distinguish or evaluate our consolidated operations on a geographic basis. No individual property constitutes more than 10% of our consolidated revenue or assets, and thus the individual properties have been aggregated into one reportable segment based upon their similarities with regard to the nature of our properties and the nature of our tenants and operational processes, as well as long-term financial performance. In addition, no single tenant accounts for 10% or more of our consolidated revenue, and none of our properties are located outside the United States.

We hold our interests in our portfolio of properties through our operating partnership, PREIT Associates, L.P. (PREIT Associates). We are the sole general partner of PREIT Associates and, as of December 31, 2006, held an 89.6% controlling interest in PREIT Associates. We consolidate PREIT Associates for financial reporting purposes. We own interests in our properties through various ownership structures, including partnerships and tenancy in common arrangements. We hold our investments in seven of the 50 operating retail properties in our portfolio through unconsolidated partnerships with third parties in which we own a 50% interest. We hold a non-controlling interest in each unconsolidated partnership, and account for such partnerships using the equity method of accounting. We do not control any of these equity method investees for the following reasons:

Except for two properties that we co-manage with our partner, all of the other entities are managed on a day-to-day basis by one of our other partners as the managing general partner in each of the respective partnerships. In the case of the co-managed properties, all decisions in the ordinary course of business are made jointly.

The managing general partner is responsible for establishing the operating and capital decisions of the partnership, including budgets, in the ordinary course of business.

All major decisions of each partnership, such as the sale, refinancing, expansion or rehabilitation of the property, require the approval of all partners.

Voting rights and the sharing of profits and losses are generally in proportion to the ownership percentages of each partner.

We record the earnings from the unconsolidated partnerships using the equity method of accounting under the income statement caption entitled Equity in income of partnerships rather than consolidating the results of the unconsolidated partnerships with our results. Changes in our investments in these entities are recorded in the balance sheet caption entitled Investment in partnerships, at equity. In the case of deficit investment balances, such amounts are recorded in Investments in partnerships, deficit balances.

For further information regarding our unconsolidated partnerships, see Note 3 to our consolidated financial statements.

We provide our management, leasing and development services through PREIT Services, LLC, which generally manages and develops properties that we consolidate for financial reporting purposes, and PREIT-RUBIN, Inc. (PRI), which generally manages and develops properties that we own interests in through partnerships with third parties and properties that are owned by third parties in which we do not have an interest. One of our long-term objectives is to obtain managerial control of as many of our assets as possible. Due to the nature of our existing partnership arrangements, we cannot anticipate when this objective will be achieved, if at all.

Our revenues consist primarily of fixed rental income, additional rent in the form of expense reimbursements, and percentage rents (rents that are based on a percentage of our tenants sales or a percentage of sales in excess of thresholds that are specified in the leases) derived from our income producing retail properties. We also receive income from our real estate partnership investments and from the management and leasing services PRI provides.

Our net income available to common shareholders decreased by $29.6 million, or 67.3%, to $14.4 million for the year ended December 31, 2006 from $44.0 million for the year ended December 31, 2005. The decrease in our net income resulted primarily from higher depreciation and amortization, interest and CAM and real estate tax expenses, which were partially offset by higher base rent and expense reimbursements. There were also lower gains on sales in 2006 than in 2005. In particular, our net income was affected by the changes to real estate revenues, property operating expenses, interest expense and depreciation and amortization expense resulting from properties acquired or disposed of during 2005 and 2006, and the impact on operating results of properties that are in various stages of redevelopment.
Our net income available to common shareholders increased by $3.8 million, or 9.6%, to $44.0 million for the year ended December 31, 2005 from $40.2 million for the year ended December 31, 2004. The increase in our net income resulted primarily from increased real estate revenues, gains on sales of interests in real estate and decreased general and administrative expenses, offset by higher property operating expenses, depreciation and amortization and interest expense. In particular, our net income was affected by the changes to real estate revenues, property operating expenses, interest expense and depreciation and amortization expense resulting from properties acquired or disposed of during 2004 and 2005, and the impact on operating results of properties that are in various stages of redevelopment.

ACQUISITIONS, DISPOSITIONS AND DEVELOPMENT ACTIVITIES

The Company records its acquisitions based on estimates of fair value as determined by management, based on information available and on assumptions of future performance. These allocations are subject to revisions, in accordance with GAAP, during the twelve-month periods following the closings of the respective acquisitions.
We are actively involved in pursuing and evaluating a number of additional acquisition opportunities. Our evaluation includes an analysis of whether the properties meet the investment criteria we apply, given economic, market and other circumstances.

2006 Acquisitions

In connection with the Crown merger discussed below, Crown s former operating partnership retained an 11% interest in the capital and 1% interest in the profits of two partnerships that own or ground lease 12 shopping malls. This retained interest was subject to a put-call arrangement between Crown s former operating partnership and us. Pursuant to this arrangement, we had the right to require Crown s former operating partnership to contribute the retained interest to us following the 36th month after the closing of the Merger (the closing took place in November 2003) in exchange for 341,297 additional units in PREIT Associates (OP Units). We exercised this right in December 2006. The value of the units issued was $13.4 million. As of the closing date of the transaction, Mark E. Pasquerilla, who was elected a trustee of the Company following the Merger, and his affiliates had an interest in Crown s former operating partnership.
We acquired three former Strawbridge's department stores at Cherry Hill Mall, Willow Grove Park and The Gallery at Market East from Federated Department Stores, Inc. following its merger with The May Department Stores Company for an aggregate purchase price of $58.0 million.

2005 Acquisitions

In December 2005, we acquired Woodland Mall in Grand Rapids, Michigan, with 1.2 million square feet, for $177.4 million. We funded the purchase price with two 90-day corporate notes totaling $94.4 million having a weighted average interest rate of 6.85% and secured by letters of credit, $80.5 million from our Credit Facility, and the remainder from our available working capital. Of the purchase price amount, $6.1 million was allocated to the value of in-place leases, $6.4 million was allocated to above-market leases and $6.5 million was allocated to below-market leases. We obtained long term financing on this property in March 2006 and used these funds to pay off the entire balance of the corporate notes.
In November 2005, we and our partner acquired Springfield Mall in Springfield, Pennsylvania, with 0.6 million square feet, for $103.5 million. To partially finance the acquisition costs, we and our partner, an affiliate of Kravco Simon Investments, L.P. and Simon Property Group, Inc. obtained a $76.5 million mortgage loan. We funded the remainder of our share of the purchase price with $5.0 million in borrowings from our Credit Facility.
In March 2005, we acquired Gadsden Mall in Gadsden, Alabama, with 0.5 million square feet, for $58.8 million. We funded the purchase price from our Credit Facility. Of the purchase price amount, $7.8 million was allocated to the value of in-place leases, $0.1 million was allocated to above-market leases and $0.3 million was allocated to

below-market leases. The acquisition included the nearby P&S Office Building, a 40,000 square foot office building that we consider to be non-strategic, and which we have classified as held-for-sale for financial reporting purposes.

In February 2005, we purchased the 0.9 million square foot Cumberland Mall in Vineland, New Jersey and a vacant 1.7 acre parcel adjacent to the mall. The total price paid for the mall and the parcel was $59.5 million, including the assumption of $47.7 million in mortgage debt. We paid the $0.9 million purchase price of the adjacent parcel in cash. We paid the remaining portion of the purchase price for the mall using 272,859 OP Units, which were valued at approximately $11.0 million. Of the purchase price amount, $8.7 million was allocated to the value of in-place leases, $0.2 million was allocated to above-market leases and $0.3 million was allocated to below-market leases. We also recorded a debt premium of $2.7 million in order to record Cumberland Mall s mortgage at fair value.

2004 Acquisitions

In December 2004, we acquired Orlando Fashion Square in Orlando, Florida, with 1.1 million square feet, for approximately $123.5 million, including closing costs. The transaction was primarily financed from borrowings made under our Credit Facility. Of the purchase price amount, $14.7 million was allocated to the value of in-place leases and $0.7 million was allocated to above-market leases.

In May 2004, we acquired The Gallery at Market East II in Philadelphia, Pennsylvania, with 0.3 million square feet, for $32.4 million. The purchase price was primarily funded from our Credit Facility. Of the purchase price amount, $4.5 million was allocated to the value of in-place leases, $1.2 million was allocated to above-market leases and $1.1 million was allocated to below-market leases.

In May 2004, we acquired the remaining 27% ownership interest in New Castle Associates, the entity that owns Cherry Hill Mall in Cherry Hill, New Jersey in exchange for 609,316 OP Units valued at $17.8 million. We acquired our 73% ownership of New Castle Associates in April 2003. As a result, we now own 100% of New Castle Associates. Prior to the closing of the acquisition of the remaining interest, each of the partners in New Castle Associates other than the Company was entitled to a cumulative preferred distribution from New Castle Associates equal to $1.2 million in the aggregate per annum, subject to certain downward adjustments based upon certain capital distributions by New Castle Associates.

Crown Merger

On November 20, 2003, we closed the merger of Crown American Realty Trust (Crown) with and into the Company (the Merger) in accordance with an Agreement and Plan of Merger (the Merger Agreement) dated as of May 13, 2003, by and among us, PREIT Associates, Crown and Crown American Properties, L.P. (CAP), a limited partnership of which Crown was the sole general partner before the Merger. Through the Merger and related transactions, we acquired 26 regional shopping malls and the remaining 50% interest in Palmer Park Mall in Easton, Pennsylvania.

Pending Disposition

In January 2007, we entered into an agreement for the sale of Schuylkill Mall in Frackville, Pennsylvania for $17.6 million. In April 2006, a prior agreement for the sale of this mall was terminated.

2006 Dispositions

In December 2006, we sold a 6.0 acre parcel at Voorhees Town Center in Voorhees, New Jersey to a residential real estate developer for $5.4 million. The parcel was subdivided from the retail property. We recorded a gain of $4.7 million from the sale of this parcel.

In September 2006, we sold South Blanding Village, a strip center in Jacksonville, Florida for $7.5 million. We recorded a gain of $1.4 million on the sale.

In transactions that closed between June 2006 and December 2006, we sold a total of four parcels at the Plaza at Magnolia in Florence, South Carolina for an aggregate sale price of $7.9 million and recorded an aggregate gain of $0.5 million. Plaza at Magnolia is currently under development.

2005 Dispositions

In December 2005, we sold Festival at Exton in Exton, Pennsylvania for $20.2 million. We recorded a gain of $2.5 million from this sale.

In August 2005, we sold our four industrial properties (the Industrial Properties) for approximately $4.3 million. We recorded a gain of $3.7 million from this transaction.

In July 2005, a partnership in which we have a 50% interest sold the property on which the Christiana Power Center Phase II project would have been built to the Delaware Department of Transportation for $17.0 million. Our share of the proceeds was $9.5 million, representing a reimbursement for the $5.0 million of costs and expenses incurred previously in connection with the project and a gain on the sale of non-operating real estate of $4.5 million.

In July 2005, we sold our 40% interest in Laurel Mall in Hazleton, Pennsylvania to Laurel Mall, LLC. The total sales price of the mall was $33.5 million, including assumed debt of $22.6 million. Our net cash proceeds were $3.9 million. We recorded a gain of $5.0 million from this transaction.

In May 2005, pursuant to an option granted to the tenant in a 1994 ground lease agreement, we sold a 13.5 acre parcel in Northeast Tower Center in Philadelphia, Pennsylvania containing a Home Depot store to Home Depot U.S.A., Inc. for $12.5 million. We recorded a gain of $0.6 million on the sale of this parcel.

In January 2005, we sold a 0.2 acre parcel associated with Wiregrass Commons Mall in Dothan, Alabama for $0.1 million. We recorded a gain of $0.1 million on the sale of this parcel.

2004 Dispositions

In September 2004, we sold five properties for $110.7 million. The properties were acquired in November 2003 in connection with the Merger, and were among six properties that were considered to be non-strategic (the Non-Core Properties). The Non-Core Properties were classified as held for sale as of the date of the Merger. The net proceeds from the sale were $108.5 million after closing costs and adjustments. We used the proceeds from this sale primarily to repay amounts outstanding under our Credit Facility. We did not record a gain or loss on this sale for financial reporting purposes.

In August 2004, we sold our 60% non-controlling ownership interest in Rio Grande Mall, a 0.2 million square foot strip center in Rio Grande, New Jersey, to an affiliate of our partner in this property, for net proceeds of $4.1 million. We recorded a gain of $1.5 million from this transaction.

Development and Redevelopment

We are engaged in the redevelopment of 14 of our consolidated properties and one of our unconsolidated properties and expect to increase the number of such projects in the future. These projects may include the introduction of residential, office or other uses to our properties.

The following table sets forth the amount of our intended investment for each redevelopment project:

Redevelopment Project	**Estimated Project Cost**	**Invested as of December 31, 2006**
Capital City Mall	$ 12.8 million	$ 10.3 million
Patrick Henry Mall	29.4 million	27.0 million
Cumberland Mall	5.7 million	4.1 million
New River Valley Mall [(1)]	26.4 million	18.1 million
Lycoming Mall	18.1 million	14.0 million
Francis Scott Key Mall	4.9 million	3.3 million
Valley View Mall	4.7 million	4.6 million
Magnolia Mall	17.7 million	4.7 million
Beaver Valley Mall	9.2 million	2.1 million
Lehigh Valley Mall[(2)]	21.5 million	1.8 million
Plymouth Meeting Mall	83.9 million	21.9 million
Willow Grove Park	54.4 million	18.7 million
Cherry Hill Mall	197.7 million	21.3 million
Voorhees Town Center	60.7 million	6.0 million
Moorestown Mall	To be determined	0.2 million
		$ 158.1 million

(1) Amounts do not include costs associated with New River Valley Retail Center, a proposed new development project with an estimated project cost of $29.0 million, and $5.7 million invested as of December 31, 2006.

(2) This property is unconsolidated. The amounts shown represent our share.

We are engaged in the ground-up development of eight retail and other mixed-use projects that we believe meet the financial hurdles that we apply, given economic, market and other circumstances. As of December 31, 2006, we had incurred $112.0 million of costs related to these projects. The costs identified to date to complete these ground-up projects are expected to be $233.8 million in the aggregate (including costs already incurred), excluding the Springhills (Gainesville, Florida) and Pavilion at Market East (Philadelphia, Pennsylvania) projects because details of those projects and the related costs have not been determined. In each case, we will evaluate the financing opportunities available to us at the time a project requires funding. In cases where the project is undertaken with a partner, our flexibility in funding the project might be governed by the partnership agreement or the covenants contained in our Credit Facility, which limit our involvement in such projects.

Table of Contents

We generally seek to develop these projects in areas that we believe evidence the likelihood of supporting additional retail development and have desirable population or income trends, and where we believe the projects have the potential for strong competitive positions. We will consider other uses of a property that would have synergies with our retail development and redevelopment based on several factors, including local demographics, market demand for other uses such as residential and office, and applicable land use regulations. We generally have several development projects under way at one time. These projects are typically in various stages of the development process. We manage all aspects of these undertakings, including market and trade area research, site selection, acquisition, preliminary development work, construction and leasing. We monitor our developments closely, including costs and tenant interest.

In February 2006, we acquired approximately 540 acres of land in Gainesville, Florida for approximately $21.5 million, including closing costs. The acquired parcels are collectively known as Springhills. We continue to be involved in the process of obtaining the requisite entitlements for Springhills, with a goal of developing a mixed use project, including up to 1.5 million square feet of retail/commercial space, together with single and multifamily housing, office/institutional facilities, and hotel and industrial space.

In transactions that closed between May and August 2005, we acquired 45 acres in Lacey Township, New Jersey for approximately $11.6 million in cash. In December 2005, Lacey Township authorized us to construct a retail center of up to 0.3 million square feet on this land, including a 0.1 million square foot Home Depot. In July 2006, we began preliminary site work construction, and in August 2006, we executed a ground lease with Home Depot U.S.A., Inc. for 10 acres of the site. In the fourth quarter of 2006, we obtained final state approvals. In February 2007, after obtaining final local approvals, Home Depot began construction of its store.

In August 2005, we acquired an approximately 15 acre parcel in Christiansburg, Virginia adjacent to New River Valley Mall for $4.1 million in cash, including closing costs. We began construction of a power center on this property in the fourth quarter of 2006.

In transactions that closed between June 2005 and January 2006, we acquired a total of approximately 188 acres in New Garden Township, Pennsylvania for approximately $30.1 million in cash, including closing costs. We are still in the process of obtaining various entitlements for our concept for this property, which includes retail and mixed use components.

In May 2005, we exercised our option to purchase approximately 73 acres of previously ground leased land that contains Magnolia Mall in Florence, South Carolina for $5.9 million. We used available working capital to fund this purchase.

We entered into an agreement in October 2004 with Valley View Downs, LP (Valley View) and Centaur Pennsylvania, LLC (Centaur) to manage the development of a proposed harness racetrack and casino on an approximately 208 acre site located 35 miles northwest of Pittsburgh, Pennsylvania. Valley View acquired the site in 2005, but the agreement contemplates that we will acquire the site and lease it to Valley View for the construction and operation of a harness racetrack and a casino and related facilities. We will not have any ownership interest in Valley View or Centaur. Our acquisition of the site and the construction of the racetrack require the issuance to Valley View of the sole remaining unissued harness racetrack license in Pennsylvania. The construction of the casino requires the issuance of a gaming license to Valley View. Valley View had been one of two applicants for the racing license. In November 2005, the Harness Racing Commission issued an order denying award of the racing license to both of the applicants. In December 2005, Valley View filed a motion for reconsideration with the Commission. In addition, Valley View filed an appeal of the ruling in the Pennsylvania Commonwealth Court. In June 2006, the Commonwealth Court affirmed the Commission s denial of Valley View s application. Valley View appealed to the Pennsylvania Supreme Court. In January 2007, the Pennsylvania Supreme Court agreed to hear the appeals of both applicants. We are unable to predict whether Valley View will be issued the racing license or the gaming license. Our investment in this project as of December 31, 2006 is $1.3 million.

Table of Contents

The following table sets forth the amount of our intended investment in each ground-up development project:

Development Project	Estimated Project Cost	Invested as of December 31, 2006
The Plaza at Magnolia	$ 17.2 million[1]	$ 13.9 million[1]
Lacey Retail Center	38.5 million	21.9 million
New River Valley Retail Center	29.0 million	5.7 million
Monroe Marketplace	57.0 million	6.3 million
New Garden Town Center	82.1 million	34.8 million
Valley View Downs	10.0 million	1.3 million
Springhills	To be determined	26.1 million
Pavilion at Market East	To be determined	2.0 million
		$ 112.0 million

(1) Gross cost before parcel sales and site contributions.

In connection with our current ground-up development and our redevelopment projects, we have made contractual and other commitments on some of these projects in the form of tenant allowances, lease termination fees and contracts with general contractors and other professional service providers. As of December 31, 2006, the remainder to be paid against such contractual and other commitments was $50.6 million, which is expected to be financed through our Credit Facility or through various other capital sources. The development and redevelopment projects on which these commitments have been made have total remaining costs of $291.5 million.

OFF BALANCE SHEET ARRANGEMENTS

We have no material off-balance sheet items other than the partnerships described in Note 3 to the consolidated financial statements and in the Overview section above.

RELATED PARTY TRANSACTIONS

General

PRI provides management, leasing and development services for 11 properties owned by partnerships and other entities in which certain officers or trustees of the Company and of PRI or members of their immediate families and affiliated entities have indirect ownership interests. Total revenues earned by PRI for such services were $0.9 million, $0.9 million and $2.0 million for the years ended December 31, 2006, 2005 and 2004, respectively. This amount decreased in 2006 and 2005 from 2004 because of a decrease in the number of properties that we manage for related parties. As of December 31, 2006, $0.3 million was due from the property-owning partnerships to PRI including a note receivable from a related party with a balance of $0.1 million that is due in installments through 2010 and bears an interest rate of 10% per annum.

We lease our principal executive offices from Bellevue Associates (the Landlord), an entity in which certain of our officers/ trustees have an interest. Total rent expense under this lease was $1.5 million, $1.5 million and $1.4 million for the years ended December 31, 2006, 2005, and 2004, respectively. Ronald Rubin and George F. Rubin, collectively with members of their immediate families and affiliated entities, own approximately a 50% interest in the

Landlord. The office lease has a 10 year term that commenced on November 1, 2004. We have the option to renew the lease for up to two additional five-year periods at the then-current fair market rate calculated in accordance with the terms of the office lease. In addition, we have the right on one occasion at any time during the seventh lease year to terminate the office lease upon the satisfaction of certain conditions. Effective June 1, 2004, our base rent is $1.4 million per year during the first five years of the office lease and $1.5 million per year during the second five years.

We use an airplane in which Ronald Rubin owns a fractional interest. We paid $38,000, $217,000 and $115,000 in the years ended December 31, 2006, 2005 and 2004, respectively, for flight time used by employees on Company-related business.

As of December 31, 2006, eight of our officers had employment agreements with terms of up to three years that renew automatically for additional one-year or two-year terms. The agreements provided for aggregate base compensation for the year ended December 31, 2006 of $2.9 million, subject to increases as approved by our compensation committee in future years, as well as additional incentive compensation.

In connection with the Merger, Crown American Properties, L.P. (CAP), a limited partnership of which Crown was the sole general partner before the Merger, retained an 11% interest in the capital and a 1% interest in the profits of two partnerships that own or ground lease 12 shopping malls. The retained interests were subject to a put-call arrangement between CAP and PREIT Associates. Pursuant to this arrangement, PREIT Associates had the right to require CAP to contribute the retained interest to PREIT Associates following the 36th month after the closing of the Merger (i.e., after November 20, 2006), and CAP had the right to contribute the retained interests to PREIT Associates following the 40th month after the closing of the Merger, in each case in exchange for 341,297 OP Units. As of the date of the Exchange

Agreement (as defined below), Mark E. Pasquerilla, who was elected a trustee of the Company following the Merger, had an interest in CAP.

On December 27, 2006, PREIT Associates and CAP entered into a Purchase and Sale Agreement (the Exchange Agreement). Under the Exchange Agreement, PREIT Associates purchased the 11% interest in the capital and 1% interest in the profits of each of the two partnerships that own or ground lease the 12 shopping malls, effective as of 11:59 p.m. on December 31, 2006, in exchange for 341,297 OP Units. Generally, the OP Units are redeemable at the election of the holder at any time after issuance either for cash in an amount per OP Unit equal to the average closing price of a common share of the Company on the 10 trading days immediately before the date notice of redemption is received by the Company or, at the election of the Company, in exchange for the issuance of a like number of common shares of the Company. Based on the closing price of a common share of beneficial interest of the Company on December 29, 2006, the value of the OP Units issued was approximately $13.4 million.

The Exchange Agreement is based upon and consistent with the financial and other terms of the put-call arrangement, which was entered into by PREIT Associates and CAP in connection with the Merger and prior to Mark Pasquerilla serving as a trustee of the Company. The Board of Trustees of the Company, excluding Mr. Pasquerilla, reviewed, considered and approved the Exchange Agreement.

On December 22, 2005, we entered into a Unit Purchase Agreement with CAP. Under the agreement, we purchased 339,300 OP Units from CAP at $36.375 per unit, a 3% discount from the closing price of our common shares on December 19, 2006 of $37.50. The aggregate amount we paid for the OP Units was $12.3 million. The terms of the agreement were negotiated between us and CAP. These terms were determined without reference to the provisions of the partnership agreement of PREIT Associates. The transaction was approved by our Board of Trustees. The Board authorized this transaction separate and apart from our previously-announced program to repurchase up to $100.0 million of common shares through the end of 2007.

Executive Separation

In 2006, we announced the retirement of Jonathan B. Weller, a Vice Chairman of the Company. In connection with Mr. Weller s retirement, we entered into a Separation of Employment Agreement and General Release (the Separation Agreement) with Mr. Weller. Pursuant to the Separation Agreement, Mr. Weller also retired from our Board of Trustees and the Amended and Restated Employment Agreement by and between the Company and Mr. Weller dated as of January 1, 2004 was terminated. We recorded an expense of $4.0 million in connection with Mr. Weller s separation from the Company. The expense included executive separation cash payments made to Mr. Weller along with the acceleration of the deferred compensation expense associated with the unvested restricted shares and the estimated fair value of Mr. Weller s share of the 2005 2008 Outperformance Program (OPP) (see Note 9). Mr. Weller exercised his outstanding options in August 2006.

CRITICAL ACCOUNTING POLICIES

Critical Accounting Policies are those that require the application of management s most difficult, subjective, or complex judgments, often because of the need to make estimates about the effect of matters that are inherently uncertain and that may change in subsequent periods. In preparing the consolidated financial statements, management has made estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. In preparing the financial statements, management has utilized available information, including our past history, industry standards and the current economic environment, among other factors, in forming its estimates and judgments, giving due consideration to materiality. Actual results may differ from these estimates. In addition, other companies may utilize different estimates, which may impact comparability of our results of operations to those of companies in similar businesses. The estimates and assumptions made by management in applying critical accounting policies have not changed materially during 2006, 2005 and 2004, except as otherwise noted, and none of these estimates or assumptions have proven to be materially incorrect or resulted in our recording any significant adjustments relating to prior periods. We will continue to monitor the key factors underlying our estimates and judgments, but no change is currently expected. Set forth below is a summary of the accounting policies that management believes are critical to the preparation of the consolidated financial statements. This summary should be read in conjunction with the more complete discussion of our accounting policies included in Note 1 to our consolidated financial statements.

Our management makes complex or subjective assumptions and judgments with respect to applying its critical accounting policies. In making these judgments and assumptions, management considers, among other factors:

- events and changes in property, market and economic conditions;
- estimated future cash flows from property operations; and
- the risk of loss on specific accounts or amounts.

Table of Contents

Revenue Recognition

We derive over 95% of our revenues from tenant rents and other tenant related activities. Tenant rents include base rents, percentage rents, expense reimbursements (such as common area maintenance, real estate taxes and utilities), amortization of above-market and below-market intangibles and straight-line rents. We record base rents on a straight-line basis, which means that the monthly base rent income according to the terms of our leases with tenants is adjusted so that an average monthly rent is recorded for each tenant over the term of its lease. When tenants vacate prior to the end of their lease, we accelerate amortization of any related unamortized straight-line rent balances, and unamortized above-market and below-market intangible balances are amortized as a decrease or increase to real estate revenues, respectively.

Percentage rents represent rental income that the tenant pays based on a percentage of its sales. Tenants that pay percentage rent usually pay in one of two ways: either a percentage of their total sales or a percentage of sales over a certain threshold. In the latter case, we do not record percentage rent until the sales threshold has been reached. Revenues for rents received from tenants prior to their due dates are deferred until the period to which the rents apply.

In addition to base rents, certain lease agreements contain provisions that require tenants to reimburse a fixed or pro rata share of real estate taxes and certain common area maintenance costs. Tenants generally make expense reimbursement payments monthly based on a budgeted amount determined at the beginning of the year. During the year, our income increases or decreases based on actual expense levels and changes in other factors that influence the reimbursement amounts, such as occupancy levels. Subsequent to the end of the year, we prepare a reconciliation of the actual amounts due from tenants. The difference between the actual amount due and the amounts paid by the tenant throughout the year is billed or credited to the tenant, depending on whether the tenant paid too little or too much during the year.

Lease termination fee income is recognized in the period when a termination agreement is signed and we are no longer obligated to provide space to the tenant. In the event that a tenant is in bankruptcy when the termination agreement is signed, termination fee income is deferred and recognized when it is received.

Our other main source of revenue comes from the provision of management services to third parties, including property management, brokerage, leasing and development. Management fees generally are a percentage of managed property revenues or cash receipts. Leasing fees are earned upon the consummation of new leases. Development fees are earned over the time period of the development activity and are recognized on the percentage of completion method. These activities collectively are included in Management company revenue in the consolidated statements of income.

Real Estate

Land, buildings, fixtures and tenant improvements are recorded at cost and stated at cost less accumulated depreciation. Expenditures for maintenance and repairs are charged to operations as incurred. Renovations or replacements, which improve or extend the life of an asset, are capitalized and depreciated over their estimated useful lives.

For financial reporting purposes, properties are depreciated using the straight-line method over the estimated useful lives of the assets. The estimated useful lives are as follows:

Buildings	30-50 years
Land improvements	15 years
Furniture/fixtures	3-10 years
Tenant improvements	Lease term

We are required to make subjective assessments as to the useful lives of our properties for purposes of determining the amount of depreciation to reflect on an annual basis with respect to those properties based on various factors, including industry standards, historical experience and the condition of the asset at the time of acquisition. These assessments have a direct impact on our net income. If we were to determine that a longer expected useful life was appropriate for a particular asset, it would be depreciated over more years, and, other things being equal, result in less annual depreciation expense and higher annual net income.

Our assessment of recoverability of certain other lease related costs must be made when we have a reason to believe that the tenant may not be able to perform under the terms of the lease as originally expected. This requires us to make

estimates as to the recoverability of such costs.
Gains from sales of real estate properties and interests in partnerships generally are recognized using the full accrual method in accordance with the provisions of Statement of Financial Accounting Standards No. 66, Accounting for Real Estate Sales, provided that various criteria are met relating to the terms of sale and any subsequent involvement by us with the properties sold.

Intangible Assets

We account for our property acquisitions under the provisions of Statement of Financial Accounting Standards No. 141, Business Combinations (SFAS No. 141). Pursuant to SFAS No. 141, the purchase price of a property is allocated to

the property s assets based on our estimates of their fair value. The determination of the fair value of intangible assets requires significant estimates by management and considers many factors, including our expectations about the underlying property and the general market conditions in which the property operates. The judgment and subjectivity inherent in such assumptions can have a significant impact on the magnitude of the intangible assets that we record.
SFAS No. 141 provides guidance on allocating a portion of the purchase price of a property to intangible assets. Our methodology for this allocation includes estimating an as-if vacant fair value of the physical property, which is allocated to land, building and improvements. The difference between the purchase price and the as-if vacant fair value is allocated to intangible assets. There are three categories of intangible assets to be considered: (i) value of in-place leases, (ii) above-market and below-market value of in-place leases and (iii) customer relationship value.
The value of in-place leases is estimated based on the value associated with the costs avoided in originating leases comparable to the acquired in-place leases, as well as the value associated with lost rental revenue during the assumed lease-up period. The value of in-place leases is amortized as real estate amortization over the remaining lease term.
Above-market and below-market in-place lease values for acquired properties are recorded based on the present value of the difference between (i) the contractual amounts to be paid pursuant to the in-place leases and (ii) our estimates of fair market lease rates for the comparable in-place leases, based on factors including historical experience, recently executed transactions and specific property issues, measured over a period equal to the remaining non-cancelable term of the lease. The value of above-market lease values is amortized as a reduction of rental income over the remaining terms of the respective leases. The value of below-market lease values is amortized as an increase to rental income over the remaining terms of the respective leases, including any below-market optional renewal period.
We allocate purchase price to customer relationship intangibles based on our assessment of the value of such relationships and if the customer relationships associated with the acquired property provide incremental value over the Company s existing relationships.

Assets Held-for-Sale and Discontinued Operations

The determination to classify an asset as held for sale requires significant estimates by us about the property and the expected market for the property, which are based on factors including recent sales of comparable properties, recent expressions of interest in the property, financial metrics of the property and the condition of the property. We must also determine if it will be possible under those market conditions to sell the property for an acceptable price within one year. When assets are identified by management as held for sale, we discontinue depreciating the assets and estimate the sales price, net of selling costs of such assets. We generally consider assets to be held for sale when the sale transaction has been approved by the appropriate level of management and there are no known material contingencies relating to the sale such that the sale is probable within one year. If, in management s opinion, the net sales price of the assets that have been identified as held for sale is less than the net book value of the assets, the asset is written down to fair value less the cost to sell. Assets and liabilities related to assets classified as held for sale are presented separately in the consolidated balance sheet.
Assuming no significant continuing involvement, a sold real estate property is considered a discontinued operation. In addition, properties classified as held for sale are considered discontinued operations. Properties classified as discontinued operations are reclassified as such in the accompanying consolidated statement of income for each period presented. Interest expense that is specifically identifiable to the property is used in the computation of interest expense attributable to discontinued operations. See Note 2 to our consolidated financial statements for a description of the properties included in discontinued operations. Investments in partnerships are excluded from discontinued operations treatment.

Asset Impairment

Real estate investments are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the property might not be recoverable. A property s value is considered impaired only if our estimate of the aggregate future cash flows to be generated by the property, undiscounted and without interest charges, are less than the carrying value of the property. This estimate takes into consideration factors such as expected future operating income, trends and prospects, as well as the effects of demand, competition and other factors. In addition, these estimates may consider a probability weighted cash flow estimation approach when alternative courses of action to recover the carrying amount of a long lived asset are under consideration or when a range of possible values is

estimated.

The determination of undiscounted cash flows requires significant estimates by us, including the expected course of action at the balance sheet date that would lead to such cash flows. Subsequent changes in estimated undiscounted cash flows arising from changes in the anticipated action to be taken with respect to the property could impact the determination of whether an impairment exists and whether the effects could materially impact our net income. To the extent impairment has occurred, the loss will be measured as the excess of the carrying amount of the property over the fair value of the property.

Table of Contents

Tenant Receivables

We make estimates of the collectibility of our tenant receivables related to tenant rents including base rents, straight-line rents, expense reimbursements and other revenue or income. We specifically analyze accounts receivable, including straight-line rents receivable, historical bad debts, customer creditworthiness, current economic and industry trends and changes in customer payment terms when evaluating the adequacy of the allowance for doubtful accounts. In addition, with respect to tenants in bankruptcy, we make estimates of the expected recovery of pre-petition and post-petition claims in assessing the estimated collectibility of the related receivable. In some cases, the time required to reach an ultimate resolution of these claims can exceed one year. These estimates have a direct impact on our net income because a higher bad debt reserve results in less net income, other things being equal.

RESULTS OF OPERATIONS

Comparison of Years Ended December 31, 2006, 2005 and 2004

Overview

The results of operations for the years ended December 31, 2006, 2005 and 2004 reflect changes due to the acquisition and disposition of real estate properties during the respective periods (including gains resulting from dispositions of $5.5 million, $10.1 million and $1.5 million in the years ended December 31, 2006, 2005 and 2004, respectively). In 2006, we disposed of one strip center property and portions of land at two other properties. In 2005, we acquired three retail properties, one office property, and a 50% ownership interest in one additional retail property; we disposed of four industrial properties, one strip center and our partnership interest in one additional retail property. In 2004, we acquired two retail properties and the remaining interest in Cherry Hill Mall that we did not already own; we disposed of five of the Non-Core Properties acquired in the Merger and our interest in one other retail property. Our results for the years ended December 31, 2006 and 2005 were also significantly affected by ongoing redevelopment initiatives that were in various stages at 14 of our 38 consolidated mall properties.

The table below sets forth certain occupancy statistics (including properties owned by partnerships in which we own a 50% interest) as of December 31, 2006, 2005, and 2004:

	Occupancy As of December 31,		
	2006	**2005**	**2004**
Retail portfolio weighted average:			
Total including anchors	87.9%	92.2%	92.2%
Excluding anchors	87.2%	88.4%	88.6%
Enclosed malls weighted average:			
Total including anchors	86.8%	91.4%	91.5%
Excluding anchors	86.0%	87.0%	87.3%
Power/strip centers weighted average	96.3%	97.6%	96.7%

The amounts reflected as income from continuing operations in the table below reflect our consolidated retail and office properties, with the exception of properties that are classified as discontinued operations. Our unconsolidated partnerships are presented under the equity method of accounting in the line item Equity in income of partnerships.

Table of Contents

The following information sets forth our results of operations for the years ended December 31, 2006, 2005 and 2004:

(in thousands of dollars)	Year Ended December 31, 2006	% Change 2005 to 2006	Year Ended December 31, 2005	% Change 2004 to 2005	Year Ended December 31, 2004
Real estate revenues	$ 460,140	7%	$ 431,116	7%	$ 401,421
Property operating expenses	(178,979)	8%	(166,340)	12%	(148,147)
Management company revenue	2,422	10%	2,197	(53)%	4,634
Interest and other income	2,008	92%	1,048	2%	1,026
General and administrative expenses	(38,528)	8%	(35,615)	(16)%	(42,176)
Executive separation	(3,985)	N/A			
Income taxes	(398)	(33)%	(597)	N/A	
Interest expense	(97,449)	17%	(83,148)	13%	(73,612)
Depreciation and amortization	(127,030)	16%	(109,796)	14%	(96,602)
Equity in income of partnerships	5,595	(25)%	7,474	33%	5,606
Gains on sales of interests in real estate	5,495	(46)%	10,111	581%	1,484
Minority interest	(3,086)	(52)%	(6,448)	4%	(6,185)
Income from continuing operations	26,205	(48)%	50,002	5%	47,449
Income from discontinued operations	1,816	(76)%	7,627	20%	6,339
Net income	$ 28,021	(51)%	$ 57,629	7%	$ 53,788

Real Estate Revenues

Real estate revenues increased by $29.0 million, or 7%, in 2006 as compared to 2005 primarily due to an increase of $26.0 million from properties acquired in 2005, including increased revenues from Woodland Mall ($23.7 million), Gadsden Mall ($1.3 million), and Cumberland Mall ($1.0 million). Real estate revenues from properties that were owned by the Company prior to January 1, 2005 increased by $3.0 million, primarily due to increases of $2.2 million in base rents, which is comprised of minimum rent, straight line rent and rent from tenants that pay a percentage of sales in lieu of minimum rent, $0.9 million in lease termination revenue and $1.8 million in other revenues, partially offset by a $1.4 million decrease in expense reimbursements and a $0.5 million decrease in percentage rents.

Base rent at Echelon Mall, one of our redevelopment properties, decreased by $1.6 million in 2006 as compared to 2005, as in-line occupancy decreased from 53.3% at December 31, 2005 to 47.4% at December 31, 2006, and more tenants were converted from fixed rents to percentage of sales in order to maintain occupancy during the redevelopment period. Base rent was also affected by the May 2005 sale of the Home Depot parcel at Northeast Tower Center, resulting in real estate revenues that were $0.4 million lower in 2006 as compared to 2005. Base rent at the remaining properties owned by the Company prior to January 1, 2005 increased by $4.2 million, or 1.6%. This increase is primarily due to higher average base rent, partially offset by lower occupancy.

Lease termination revenue increased in 2006 to $2.8 million primarily due to $1.2 million received from two tenants. Other revenues increased primarily due to the conversion of eight mall merchants associations to marketing funds effective January 1, 2006. These conversions resulted in increased marketing revenues of $1.7 million compared to 2005. These increased marketing revenues were offset by a $1.5 million increase in marketing expenses, which are included in property operating expenses.

In 2006, we received lower expense reimbursements at many of our malls. While this trend is not limited to the redevelopment properties, the recovery rates at these properties are lower than at our other malls. Our properties are experiencing a trend towards more gross leases (leases that provide that tenants pay a higher base rent in lieu of contributing toward common area maintenance costs and real estate taxes). Our properties are also experiencing more leases that provide rent on the basis of a percentage of sales in lieu of minimum rent, and they are experiencing rental concessions made to tenants affected by the redevelopment activities. We expect the lower recovery rates at the redevelopment properties to improve as construction is completed, tenants take occupancy and our leasing leverage improves.

Percentage rent was lower during 2006 as compared to 2005 primarily due to $0.2 million less in percentage rent collected from one department store and $0.1 million of percentage rent revenues included in 2005 as a result of sales audits which did not recur in 2006.

Real estate revenues increased by $29.7 million, or 7%, in 2005 as compared to 2004, primarily due to an increase of $33.3 million from properties acquired in 2005 and 2004, including increased revenues from Gadsden Mall ($4.9 million), Orlando Fashion Square ($14.4 million), Cumberland Mall ($10.9 million), The Gallery at Market East II ($3.0 million) and Woodland Mall ($0.1 million). Real estate revenues from properties that were owned by the Company prior to January 1, 2004 decreased by $3.6 million, or 0.9%, primarily due to decreases of $3.5 million in base rents and $2.2 million in lease termination revenue, partially offset by a $1.1 million increase in expense reimbursements and a $1.1 million increase in other revenues.

Base rents decreased largely due to the effects of redevelopment initiatives on in-line occupancy (82.8% as of December 31, 2005 compared to 87.3% as of December 31, 2004) and total rent at the affected properties. Base rent was also impacted by the sale of the Home Depot parcel at Northeast Tower Center that was sold in the second quarter of 2005 and had real estate revenues that were $0.8 million lower in 2005 as compared to 2004.

Lease termination income decreased in 2005 due primarily to a $1.5 million lease termination payment received from one tenant during the third quarter of 2004. Expense reimbursement income increased due to higher expense levels, such as utilities and taxes, for which tenants reimburse us. Other revenues increased due to increased revenues associated with our mall gift certificate and gift card programs.

Property Operating Expenses

Property operating expenses increased by $12.6 million, or 8%, in 2006 as compared to 2005, primarily due to an increase of $10.3 million from property acquisitions, including increased operating expenses at Woodland Mall ($9.2 million), Gadsden Mall ($0.6 million) and Cumberland Mall ($0.5 million). Property operating expenses for properties that we owned prior to January 1, 2005 increased by $2.3 million, or 1.5%, primarily due to a $1.3 million increase in common area maintenance expense, a $0.5 million increase in real estate tax expense and a $1.1 million increase in other operating expenses. These increases were offset by a $0.6 million decrease in utility expense, primarily due to overall milder weather in 2006 as compared to 2005. The increase in other operating expenses resulted primarily from a $1.5 million increase in marketing expenses at eight malls where the merchants associations were converted to marketing funds (corollary to the $1.7 million marketing revenue increase referenced above). The higher marketing expenses at these eight malls were partially offset by lower marketing expenses at our remaining malls.

Property operating expenses increased by $18.2 million, or 12%, in 2005 as compared to 2004, primarily due to an increase of $14.4 million from property acquisitions, including increased operating expenses at Orlando Fashion Square ($6.9 million), Cumberland Mall ($4.6 million), Gadsden Mall ($1.6 million) and The Gallery at Market East II ($1.3 million). Property operating expenses for properties that we owned prior to January 1, 2004 increased by $3.8 million, primarily due to a $2.1 million increase in utility expense, a $1.3 million increase in real estate tax expense and a $2.7 million increase in common area maintenance expense, including a $0.8 million increase in snow removal and a $0.8 million increase in common area utilities. These increases were offset by a $2.3 million decrease in other property expense, including a $3.6 million decrease in bad debt expense.

Other Expenses and Income Taxes

General and administrative expenses increased by $2.9 million, or 8%, in 2006 as compared to 2005. This increase was due to a $3.3 million increase in corporate payroll expense related to increased salaries and incentive compensation. This was offset by a $0.2 million decrease in travel and entertainment expenses and a $0.2 million decrease in professional fees.

General and administrative expenses decreased by $6.6 million, or 16%, in 2005 as compared to 2004. This decrease was due to a $3.5 million decrease in corporate payroll and related expenses, a $2.0 million decrease in professional expenses, a $0.6 million decrease in the acceleration of amortization of development costs, and a $0.5 million decrease in other expenses. The decrease in corporate payroll and related expenses is primarily due to the phase out of Crown s former Johnstown office, and lower incentive compensation expense.

Income tax expense was $0.3 million and $0.6 million for the years ended December 31, 2006 and 2005, respectively. There was no income tax expense for the year ended December 31, 2004.

Executive Separation

Executive separation expense in 2006 represents a $4.0 million expense related to separation costs associated with the retirement of one of the Company s Vice Chairmen.

Interest Expense

Interest expense increased by $14.3 million, or 17%, in 2006 as compared to 2005. This increase was due to an $18.0 million increase primarily related to corporate note, mortgage loan and Credit Facility interest associated with the financing of the acquisitions of Woodland Mall and Gadsden Mall, along with higher interest rates under the Credit Facility. The increase was also due to an increase of $0.1 million related to the assumption of mortgage debt in connection with the acquisition of Cumberland Mall in February 2005. These increases in interest expense were partially offset by $2.5 million of decreased interest expense related to the refinancing of the mortgages on Cherry Hill Mall, Valley Mall, Magnolia Mall and Willow Grove Park (2005 interest expense included a $0.8 million prepayment penalty related to refinancing of the mortgage loan on Magnolia Mall in the third quarter of 2005), a $0.3 million decrease resulting from the reduction in mortgage debt in connection with the sale of, and satisfaction of our mortgage obligations at, the Home Depot parcel at Northeast Tower Center and a $1.0 million decrease in interest paid on mortgage loans that were outstanding during 2006 and 2005 due to principal and debt premium amortization.

Interest expense increased by $9.5 million, or 13%, in 2005 as compared to 2004. This increase is due to a $6.8 million increase primarily related to the funding of the acquisitions of Orlando Fashion Square, Gadsden Mall and The Gallery at Market East II with funds borrowed under the Credit Facility, higher Credit Facility interest rates, $2.5 million related to the assumption of mortgage debt in connection with the acquisition of Cumberland Mall in 2005, a $0.8 million prepayment penalty related to refinancing the mortgage loan on Magnolia Mall, and $1.6 million due to the 2004 substitution of two properties into the collateral pool that secures a mortgage loan with GE Capital Corporation. In connection with the closing of the sale of the Non-Core Properties, including West Manchester Mall and Martinsburg Mall, these two properties were released from the collateral pool and replaced by Northeast Tower Center in Philadelphia, Pennsylvania and Jacksonville Mall in Jacksonville, North Carolina. The mortgage interest on the sold properties is accounted for in discontinued operations, and thus is not included in interest expense, resulting in lower reported interest expense in 2004 and higher reported interest expense in 2005. These increases in interest expense were offset by a $0.6 million decrease resulting from the sale of the Home Depot parcel at Northeast Tower Center and the repayment of the accompanying mortgage, and a $1.0 million decrease in interest paid on mortgage loans that were outstanding during 2005 and 2004 due to principal and debt premium amortization.

Depreciation and Amortization

Depreciation and amortization expense increased by $17.2 million, or 16%, in 2006 as compared to 2005 primarily due to $7.6 million related to newly acquired properties and $3.7 million of depreciation and amortization expense recorded for Schuylkill Mall during 2006, including $2.8 million of depreciation and amortization expense from the date of acquisition (November 2003) through the date that Schuylkill Mall was reclassified into continuing operations (March 2006). This was necessary because depreciation and amortization expense are not recorded when an asset is classified as held for sale and reported as discontinued operations, as Schuylkill Mall was. Depreciation and amortization expense from properties that we owned prior to January 1, 2005, excluding Schuylkill Mall, increased by $5.9 million, primarily due to a higher asset base resulting from capital improvements at those properties.

Depreciation and amortization expense increased by $13.2 million, or 14%, in 2005 as compared to 2004 primarily due to $9.3 million related to newly acquired properties. Depreciation and amortization expense from properties that we owned prior to January 1, 2004 increased by $3.9 million. The depreciation and amortization expense for 2004 reflected a reallocation of the purchase price of certain properties acquired in 2003, as permitted under applicable accounting principles. We reallocated a portion of the purchase price from land basis to depreciable building basis. This resulted in additional depreciation expense in 2004 of approximately $2.0 million. Excluding this adjustment, depreciation and amortization expense from properties that we owned prior to January 1, 2004 increased by $5.9 million, primarily due to a higher asset base resulting from capital improvements to some of those properties.

Gains on Sales of Interests in Real Estate

There were no gains on sales of interests in real estate in 2006 compared to $5.6 million in 2005. The results of operations for 2005 include a $5.0 million gain from the sale of our interest in Laurel Mall, and a $0.6 million gain from the sale of the Home Depot parcel located at the Northeast Tower Center. In 2004, we sold our interest in Rio Grande Mall for a gain of $1.5 million. There was no gain or loss on the sale of the five Non-Core Properties in 2004.

Gains on Sales of Non-Operating Real Estate

Gains on sales of non-operating real estate were $5.5 million and $4.5 million, respectively, for the years ended December 31, 2006 and December 31, 2005 respectively. The results of operations for the year ended December 31, 2006 include a $4.7 million gain from the sale of an undeveloped land parcel in connection with the redevelopment of Voorhees Town Center and a $0.5 million gain resulting from the sales of land parcels at the Plaza at Magnolia. The results of operations for the year ended December 31, 2005 include a $4.5 million gain resulting from the sale of our interest in the Christiana Power Center Phase II project. There were no gains on sales of non-operating real estate in 2004.

Discontinued Operations

The Company has presented as discontinued operations the operating results of (i) South Blanding Village, (ii) Festival at Exton, (iii) the Industrial Properties, (iv) the Non-Core Properties, and (v) the P&S Office Building acquired in connection with the Gadsden Mall transaction.

Table of Contents

Property operating results, gains (adjustment to gains) on sales of discontinued operations and related minority interest for the properties in discontinued operations for the periods presented were as follows:

(in thousands of dollars)	For the year ended December 31, 2006	2005	2004
Property operating results of:			
Festival at Exton	$ (57)	$ 1,606	$ 1,440
Industrial Properties		232	292
Non-Core Properties	270	14	5,542
P&S Office Building	151	117	
South Blanding Village	240	456	377
	604	2,425	7,651
Gains (adjustment to gains) on sales of discontinued operations	1,414	6,158	(550)
Minority interest	(202)	(956)	(762)
Income from discontinued operations	$ 1,816	$ 7,627	$ 6,339

NET OPERATING INCOME

Net operating income (a non-GAAP measure) is derived from real estate revenues (determined in accordance with GAAP) minus property operating expenses (determined in accordance with GAAP). Net operating income is a non-GAAP measure. It does not represent cash generated from operating activities in accordance with GAAP and should not be considered to be an alternative to net income (determined in accordance with GAAP) as an indication of the Company s financial performance or to be an alternative to cash flow from operating activities (determined in accordance with GAAP) as a measure of our liquidity; nor is it indicative of funds available for our cash needs, including our ability to make cash distributions. We believe that net income is the most directly comparable GAAP measurement to net operating income. We believe that net operating income is helpful to management and investors as a measure of operating performance because it is an indicator of the return on property investment, and provides a method of comparing property performance over time. Net operating income excludes general and administrative expenses, management company revenues, interest income, interest expense, depreciation and amortization and gains on sales of interests in real estate.

The following table presents net operating income results for the years ended December 31, 2006 and 2005. The results are presented using the proportionate-consolidation method (a non-GAAP measure), which presents our share of the results of our partnership investments. Under GAAP, we account for our partnership investments under the equity method of accounting. Property operating results for retail properties that we owned for the full periods presented (Same Store) exclude the results of properties acquired or disposed of during the periods presented:

	For the year ended December 31, 2006			For the year ended December 31, 2005		
(in thousands of dollars)	Real Estate Revenues	Property Operating Expenses	Net Operating Income	Real Estate Revenues	Property Operating Expenses	Net Operating Income
Same Store	$ 445,197	$ 169,776	$ 275,421	$ 442,115	$ 168,147	$ 273,968
Non Same Store	49,709	19,386	30,323	22,035	7,940	14,095
Total	$ 494,906	$ 189,162	$ 305,744	$ 464,150	$ 176,087	$ 288,063

% Change 2006 vs. 2005

	Same Store	**Total**
Real estate revenues	1%	7%
Property operating expenses	1%	7%
Net operating income	1%	6%

Primarily because of the items discussed above under Real Estate Revenues and Property Operating Expenses, total net operating income increased by $17.7 million in 2006 compared to 2005. Non Same Store net operating income increased by $16.2 million due to properties acquired in 2005 partially offset by properties sold in 2006 and 2005. Same Store net operating income increased by $1.5 million in 2006 compared to 2005.

Table of Contents

The following information is provided to reconcile net income to net operating income:

(in thousands of dollars)	For the year ended December 31, 2006	2005
Net income	$ 28,021	$ 57,629
Adjustments:		
Depreciation and amortization:		
Wholly-owned and consolidated partnerships	127,030	109,796
Unconsolidated partnerships	7,017	4,582
Discontinued operations	144	639
Interest expense		
Wholly-owned and consolidated partnerships	97,449	83,148
Unconsolidated partnerships	11,223	8,167
Minority interest (continuing operations and discontinued operations)	3,288	7,404
Gains on sales of interests in real estate	(5,495)	(10,111)
Gain on sale of discontinued operations	(1,414)	(6,158)
Other expenses (general and administrative and income taxes)	38,926	36,212
Executive separation	3,985	
Management company revenue	(2,422)	(2,197)
Interest and other income	(2,008)	(1,048)
Net operating income	$ 305,744	$ 288,063

FUNDS FROM OPERATIONS

The National Association of Real Estate Investment Trusts (NAREIT) defines Funds From Operations, which is a non-GAAP measure, as income before gains and losses on sales of operating properties and extraordinary items (computed in accordance with GAAP); plus real estate depreciation; plus or minus adjustments for unconsolidated partnerships to reflect funds from operations on the same basis. We compute Funds From Operations by taking the amount determined pursuant to the NAREIT definition and subtracting dividends on preferred shares (FFO).

Funds From Operations is a commonly used measure of operating performance and profitability in the real estate industry. We use FFO and FFO per diluted share and OP Unit as supplemental non-GAAP measures to compare our Company s performance to that of our industry peers. Similarly, we use FFO and FFO per diluted share and OP Unit as performance measures for determining bonus amounts earned under certain of our performance-based executive compensation programs. We compute FFO in accordance with standards established by NAREIT, less dividends on preferred shares, which may not be comparable to FFO reported by other REITs that do not define the term in accordance with the current NAREIT definition, or that interpret the current NAREIT definition differently than we do.

FFO does not include gains or losses on sales of operating real estate assets, which are included in the determination of net income in accordance with GAAP. Accordingly, FFO is not a comprehensive measure of our operating cash flows. In addition, since FFO does not include depreciation on real estate assets, FFO may not be a useful performance measure when comparing our operating performance to that of other non-real estate commercial enterprises. We compensate for these limitations by using FFO in conjunction with other GAAP financial performance measures, such as net income and net cash provided by operating activities, and other non-GAAP financial performance measures, such as net operating income. FFO does not represent cash generated from operating activities in accordance with GAAP and should not be considered to be an alternative to net income (determined in accordance with GAAP) as an indication of our financial performance or to be an alternative to cash flow from operating activities (determined in accordance with GAAP) as a measure of our liquidity, nor is it indicative of funds available for our cash needs, including our ability to make cash distributions.

We believe that net income is the most directly comparable GAAP measurement to FFO. We believe that FFO is helpful to management and investors as a measure of operating performance because it excludes various items included in net income that do not relate to or are not indicative of operating performance, such as various non-recurring items that are considered extraordinary under GAAP, gains on sales of operating real estate and depreciation and amortization of real estate.

Table of Contents

FFO was $148.3 million for the year ended December 31, 2006, a decrease of $4.6 million, or 3%, compared to $152.8 million for the comparable period in 2005. The change in FFO for 2006 compared to 2005 was primarily due to the items discussed in Results of Operations. FFO per share decreased $0.08 per share to $3.62 per share for the year ended December 31, 2006, compared to $3.70 per share for the year ended December 31, 2005.
The shares used to calculate FFO per diluted share include common shares and OP Units not held by us. FFO per diluted share also includes the effect of common share equivalents.
The following information is provided to reconcile net income to FFO, and to show the items included in our FFO for the periods indicated:

(in thousands of dollars, except per share amounts)	**For the year ended December 31, 2006**	**Per share (including OP Units)**	**For the year ended December 31, 2005**	**Per share (including OP Units)**
Net income	$ 28,021	$ 0.68	$ 57,629	$ 1.40
Minority interest	3,288	0.08	7,404	0.18
Dividends on preferred shares	(13,613)	(0.33)	(13,613)	(0.33)
Gains on sales of interests in real estate			(5,586)	(0.14)
Gains on discontinued operations	(1,414)	(0.03)	(6,158)	(0.15)
Depreciation and amortization:				
Wholly-owned and consolidated partnerships [(1)]	124,817	3.05	107,940	2.61
Unconsolidated partnerships	7,017	0.17	4,582	0.11
Discontinued operations	144		639	0.02
Funds from operations [(2)]	$ 148,260	$ 3.62	$ 152,837	$ 3.70
Weighted average number of shares outstanding	36,256		36,090	
Weighted average effect of full conversion of OP Units	4,083		4,580	
Effect of common share equivalents	599		673	
Total weighted average shares outstanding, including OP Units	40,938		41,343	

(1) Excludes depreciation of non-real estate assets and amortization of deferred financing costs.

(2) Includes the non-cash effect of straight-line rents of

$2.9 million and $4.4 million for the years ended December 31, 2006 and 2005, respectively.

LIQUIDITY AND CAPITAL RESOURCES

Credit Facility

In January 2005, March 2006 and February 2007, we amended our Credit Facility. Under the amended terms, the $500.0 million Credit Facility can be increased to $650.0 million under prescribed conditions, and the Credit Facility bears interest at a rate between 0.95% and 1.40% per annum over LIBOR based on our leverage. In determining our leverage under the amended terms, the capitalization rate used to calculate Gross Asset Value is 7.50%. The availability of funds under the Credit Facility is subject to our compliance with financial and other covenants and agreements, some of which are described below. The amended Credit Facility has a term that expires in January 2009, with an additional 14 month extension option provided that there is no event of default at that time. As of December 31, 2006 and 2005, $332.0 million and $342.5 million, respectively, were outstanding under the Credit Facility. In addition, we pledged $24.8 million under the Credit Facility as collateral for letters of credit at December 31, 2006. The unused portion of the Credit Facility that was available to us was $143.2 million as of December 31, 2006. The weighted average effective interest rate based on amounts borrowed was 6.50%, 4.83% and 4.24% for the years ended December 31, 2006, 2005, and 2004, respectively. The weighted average interest rate on Credit Facility borrowings at December 31, 2006 was 6.37%.

We must repay the entire principal amount outstanding under the Credit Facility at the end of its term. We may prepay any revolving loan at any time without premium or penalty. Accrued and unpaid interest on the outstanding principal amount under the Credit Facility is payable monthly, and any unpaid amount is payable at the end of the term. The Credit Facility has a facility fee of 0.15% to 0.20% per annum of the total commitments, depending on leverage and without regard to usage. The Credit Facility contains some lender yield protection provisions related to LIBOR loans. The Company and certain of its subsidiaries are guarantors of the obligations arising under the Credit Facility.

As amended, the Credit Facility contains affirmative and negative covenants customarily found in facilities of this type, as well as requirements that we maintain, on a consolidated basis (all capitalized terms used in this paragraph have the meanings ascribed to such terms in the Credit Agreement): (1) a minimum Tangible Net Worth of not less than 80% of

the Tangible Net Worth of the Company as of December 31, 2003 plus 75% of the Net Proceeds of all Equity Issuances effected at any time after December 31, 2003 by the Company or any of its Subsidiaries minus the carrying value attributable to any Preferred Stock of the Company or any Subsidiary redeemed after December 31, 2003; (2) a maximum ratio of Total Liabilities to Gross Asset Value of 0.65:1; (3) a minimum ratio of EBITDA to Interest Expense of 1.70:1; (4) a minimum ratio of Adjusted EBITDA to Fixed Charges of 1.40:1 for periods ending on or before December 31, 2008, after which time the ratio will be 1:50:1; (5) maximum Investments in unimproved real estate not in excess of 5.0% of Gross Asset Value; (6) maximum Investments in Persons other than Subsidiaries and Unconsolidated Affiliates not in excess of 10.0% of Gross Asset Value; (7) maximum Investments in Indebtedness secured by Mortgages in favor of the Company or any other Subsidiary not in excess of 5.0% of Gross Asset Value; (8) maximum Investments in Subsidiaries that are not Wholly-owned Subsidiaries and Investments in Unconsolidated Affiliates not in excess of 20.0% of Gross Asset Value; (9) maximum Investments subject to the limitations in the preceding clauses (5) through (7) not in excess of 15.0% of Gross Asset Value; (10) a maximum Gross Asset Value attributable to any one Property not in excess of 15.0% of Gross Asset Value; (11) a maximum Total Budgeted Cost Until Stabilization for all properties under development not in excess of 10.0% of Gross Asset Value; (12) an aggregate amount of projected rentable square footage of all development properties subject to binding leases of not less than 50% of the aggregate amount of projected rentable square footage of all such development properties; (13) a maximum Floating Rate Indebtedness in an aggregate outstanding principal amount not in excess of one-third of all Indebtedness of the Company, its Subsidiaries and its Unconsolidated Affiliates; (14) a maximum ratio of Secured Indebtedness of the Company, its Subsidiaries and its Unconsolidated Affiliates to Gross Asset Value of 0.60:1; (15) a maximum ratio of recourse Secured Indebtedness of the Borrower or Guarantors to Gross Asset Value of 0.25:1; and (16) a minimum ratio of EBITDA to Indebtedness of 0.0975:1 for periods ending on or before December 31, 2008, after which time the ratio will be 0.1025:1. As of December 31, 2006, the Company was in compliance with all of these debt covenants.

Upon the expiration of any applicable cure period following an event of default, the lenders may declare all obligations of the Company in connection with the Credit Facility immediately due and payable, and the commitments of the lenders to make further loans under the Credit Facility will terminate. Upon the occurrence of a voluntary or involuntary bankruptcy proceeding of the Company, PREIT Associates, PRI or any material subsidiary, all outstanding amounts will automatically become immediately due and payable and the commitments of the lenders to make further loans will automatically terminate.

Financing Activity

In October 2006, the mortgage note secured by Schuylkill Mall was modified to reduce the interest rate from 7.25% to 4.50% per annum. This mortgage note had a balance of $16.5 million as of December 31, 2006 and matures on December 1, 2008. In January 2007, we entered into an agreement for the sale of Schuylkill Mall.

In March 2006, we entered into a $156.5 million first mortgage loan that is secured by Woodland Mall in Grand Rapids, Michigan. The loan has an interest at a rate of 5.58% and has a 10 year term. The loan terms provide for interest-only payments for three years and then repayment of principal based on a 30-year amortization schedule. We used a portion of the loan proceeds to repay two 90-day corporate notes, and the remaining proceeds to repay a portion of the amount outstanding under the Credit Facility and for general corporate purposes.

In February 2006, we entered into a $90.0 million mortgage loan on Valley Mall in Hagerstown, Maryland. The mortgage note has an interest rate of 5.49% and a maturity date of February 2016. We used the proceeds from this financing to repay a portion of the outstanding balance under our Credit Facility and for general corporate purposes.

The following table sets forth a summary of significant mortgage, corporate note and Credit Facility activity for the year ended December 31, 2006:

(in thousands of dollars)	Mortgage Notes Payable	Corporate Notes Payable	Credit Facility	Total
Balance at January 1, 2006	$ 1,332,066	$ 94,400	$ 342,500	$ 1,768,966

Mortgage Activities:				
Valley Mall new mortgage	90,000		(89,500)	500
Woodland Mall new mortgage	156,500	(94,400)	(62,100)	
Schuylkill Mall reclassified from held for sale	17,113			17,113
Principal amortization	(22,771)			(22,771)
Other borrowings		1,148		1,148
Capital expenditures and other uses			141,100	141,100
Balance at December 31, 2006	$ 1,572,908	$ 1,148	$ 332,000	$ 1,906,056

Table of Contents

Derivatives

As of December 31, 2006, we have (i) six forward-starting interest rate swap agreements that have a blended 10-year swap rate of 5.3562% on a notional amount of $150.0 million settling no later than December 10, 2008, (ii) three forward starting interest rate swap agreements that have a blended 10-year swap rate of 4.6858% on an aggregate notional amount of $120.0 million settling no later than October 31, 2007, and (iii) seven forward starting interest rate swap agreements that have a blended 10-year swap rate of 4.8047% on an aggregate notional amount of $250.0 million settling no later than December 10, 2008.

A forward starting swap is an agreement that effectively hedges future base rates on debt for an established period of time. We entered into these swap agreements in order to hedge the expected interest payments associated with a portion of our anticipated future issuances of long-term debt. We assessed the effectiveness of these swaps as hedges at inception and on December 31, 2006, and consider these swaps to be highly effective cash flow hedges under SFAS No. 133 (See Note 5 to our unaudited consolidated financial statements).

We now have $120.0 million in notional amount of swap agreements settling in 2007 and $400.0 million of aggregate notional amount of swap agreements settling in 2008.

Capital Resources

We expect to meet our short-term liquidity requirements, including distributions to shareholders, recurring capital expenditures, tenant improvements and leasing commissions, but excluding development and redevelopment projects, generally through our available working capital and net cash provided by operations. We believe that our net cash provided by operations will be sufficient to allow us to make any distributions necessary to enable us to continue to qualify as a REIT under the Internal Revenue Code of 1986, as amended. The aggregate distributions made to common shareholders and OP Unitholders in 2006 were $83.8 million. The following are some of the factors that could affect our cash flows and require the funding of future distributions, capital expenditures, tenant improvements or leasing commissions with sources other than operating cash flows:

- adverse changes in general, local or retail industry economic, financial or competitive conditions, leading to a reduction in real estate revenues or cash flows or an increase in expenses;
- inability to achieve targets for, or decreases in, property occupancy and rental rates, or higher costs or delays in completion of our development and redevelopment projects, resulting in lower real estate revenues and operating income;
- deterioration in our tenants business operations and financial stability, including tenant bankruptcies and leasing delays or terminations, causing declines in rents and cash flows;
- increases in interest rates resulting in higher borrowing costs; and
- increases in operating costs that cannot be passed on to tenants, resulting in reduced operating income and cash flows.

For 2007, we expect to spend an additional $250.0 million to $275.0 million on previously disclosed development and redevelopment projects and new business initiatives. We anticipate funding these capital requirements with additional borrowings under our Credit Facility, which as of December 31, 2006 had $143.2 million of available borrowing capacity, or from other sources as described below.

We expect to meet certain of our current obligations to fund existing development and redevelopment projects and certain long-term capital requirements, including future development and redevelopment projects, property and portfolio acquisitions, expenses associated with acquisitions, scheduled debt maturities, renovations, expansions and other non-recurring capital improvements, through various capital sources, including secured or unsecured indebtedness.

Consistent with our stated capital strategy, we might seek to place long-term fixed-rate debt on our stabilized properties when conditions are favorable for such financings. We also expect to raise capital through selective sales of assets and the issuance of additional equity securities, when warranted. Furthermore, we might seek to satisfy our

long-term capital requirements through the formation of joint ventures with institutional partners, private equity investors or other REITs.

Table of Contents

In general, when the credit markets are tight, we might encounter resistance from lenders when we seek financing or refinancing for properties or proposed acquisitions. In addition, the following are some of the potential impediments to accessing additional funds under the Credit Facility:

- constraining leverage, interest coverage and tangible net worth covenants;
- increased interest rates affecting coverage ratios; and
- reduction in our consolidated earnings before interest, taxes, depreciation and amortization (EBITDA) affecting coverage ratios.

In December 2003, we announced that the SEC had declared effective a $500.0 million universal shelf registration statement. We may use the shelf registration to offer and sell common shares of beneficial interest, preferred shares and various types of debt securities, among other types of securities, to the public. However, we may be unable to issue securities under the shelf registration statement, or otherwise, on terms that are favorable to us, if at all.

This Liquidity and Capital Resources section contains certain forward-looking statements that relate to expectations and projections that are not historical facts. These forward-looking statements reflect our current views about our future liquidity and capital resources, and are subject to risks and uncertainties that might cause our actual liquidity and capital resources to differ materially from the forward-looking statements. Additional factors that might affect our liquidity and capital resources include those discussed in the section entitled Item 1A. Risk Factors. We do not intend to update or revise any forward-looking statements about our liquidity and capital resources to reflect new information, future events or otherwise.

Mortgage Notes

Mortgage notes payable, which are secured by 31 of our consolidated properties, are due in installments over various terms extending to the year 2017, with fixed interest at rates ranging from 4.50% to 8.70% and a weighted average interest rate of 6.33% at December 31, 2006. Mortgage notes payable for properties owned by unconsolidated partnerships are accounted for in Investments in partnerships, at equity on the consolidated balance sheets. The following table outlines the timing of principal payments related to our mortgage notes as of December 31, 2006.

(in thousands of dollars):			**Payments by Period**			
	Total	**Debt Premium**	**Up to 1 Year**	**1-3 Years**	**3-5 Years**	**More than 5 Years**
Principal payments	$ 180,247	$ 26,663	$ 23,380	$ 53,564	$ 32,196	$ 44,444
Balloon payments	1,419,324		39,987	555,519		823,818
Total	$ 1,599,571	$ 26,663	$ 63,367	$ 609,083	$ 32,196	$ 868,262

In connection with the Merger, we assumed from Crown approximately $443.8 million of a first mortgage loan secured by a portfolio of 15 properties. The mortgage loan had a balance of $417.7 million as of December 31, 2006. The anticipated repayment date is September 2008, at which time the loan can be prepaid without penalty. This amount is included in the 1-3 Years column.

In July 2006, the unconsolidated partnership that owns Lehigh Valley Mall in Whitehall, Pennsylvania entered into a $150.0 million mortgage loan that is secured by Lehigh Valley Mall. We own an indirect 50% ownership interest in this entity. The mortgage loan has an initial term of 12 months, during which monthly payments of interest only are required. There are three one-year extension options, provided that there is no event of default and that the borrower buys an interest rate cap for the term of any applicable extension. The loan bears interest at the one month LIBOR rate, reset monthly, plus a spread of 56 basis points. The initial interest rate and the interest rate at December 31, 2006 was 5.91%. The loan may not be prepaid until August 2007. Thereafter, the loan may be prepaid in full on any monthly payment date. A portion of the proceeds of the loan were used to repay the previous first mortgage on the

property, which had a balance of $44.6 million. We received a distribution of $51.9 million as our share of the remaining proceeds of this mortgage loan. We used this $51.9 million to repay a portion of the outstanding balance under the Credit Facility and for working capital.

Contractual Obligations

The following table presents our aggregate contractual obligations as of December 31, 2006 for the periods presented (in thousands of dollars):

	Total	Up to 1 Year	1-3 Years	3-5 Years	More than 5 Years
Mortgages	$ 1,572,908	$ 63,367	$ 609,083	$ 32,196	$ 868,262
Interest on mortgages	457,169	93,285	140,172	93,007	130,705
Corporate notes	1,148	1,148			
Credit Facility (1)	332,000		332,000		
Capital leases (2)	641	260	366	15	
Operating leases	14,670	2,922	4,727	3,442	3,579
Ground leases	26,932	1,030	2,060	2,060	21,782
Development and redevelopment commitments (3)	50,633	50,633			
Other long-term liabilities (4)	2,098		2,098		
Total	$ 2,458,199	$ 212,645	$ 1,090,506	$ 130,720	$ 1,024,328

(1) The Credit Facility has a term that expires in January 2009, with an option for us to extend the term for an additional 14 months, provided that there is no event of default at that time.

(2) Includes interest.

(3) The timing of the payments of these amounts is uncertain. We estimate that such payments will be made in

the upcoming year, but situations could arise at these development and redevelopment projects that could delay the settlement of these obligations.

(4) Represents long-term incentive compensation.

Commitments Related to Development and Redevelopment

We intend to invest approximately $539.1 million over the next three years in connection with our development and redevelopment projects announced to date, excluding the Springhills (Gainesville, Florida), Pavilion at Market East (Philadelphia, Pennsylvania) and Moorestown Mall (Moorestown, New Jersey) projects. See Development and Redevelopment. We also intend to invest significant additional amounts in additional development and redevelopment projects over that period. See - Capital Resources above.

Preferred Shares

As of December 31, 2006 we have 2,475,000 11% non-convertible senior preferred shares outstanding. The shares are redeemable on or after July 31, 2007 at our option at the redemption price per share set forth below:

(in thousands of dollars, except per share amounts)

Redemption Period	Redemption Price Per Share	Total Redemption Value
July 31, 2007 through July 30, 2009	$ 52.50	$ 129,938
July 31, 2009 through July 30, 2010	$ 51.50	$ 127,463
On or after July 31, 2010	$ 50.00	$ 123,750

We intend to redeem the preferred shares at the earliest practicable date on or after July 31, 2007. The $120.0 million of forward starting interest rate swaps that we entered into in May 2005 is intended to hedge our interest rate risk associated with a portion of the amount that we expect to borrow to finance the preferred share redemption. Our plans with regard to the preferred share redemption are subject to change (see Forward-Looking Statements).

62

Share Repurchase Program

In October 2005, our Board of Trustees authorized a program to repurchase up to $100.0 million of our common shares through solicited or unsolicited transactions in the open market or privately negotiated or other transactions. We may fund repurchases under the program from multiple sources, including up to $50.0 million from our Credit Facility. We are not required to repurchase any shares under the program. The dollar amount of shares that may be repurchased or the timing of such transactions is dependent on the prevailing price of our common shares and market conditions, among other factors. The program will be in effect until the end of 2007, subject to the authority of our Board of Trustees to terminate the program earlier. The Company did not repurchase any shares under this program in 2006.

Repurchased shares are treated as authorized but unissued shares. In accordance with Accounting Principles Board Opinion No. 6, Status of Accounting Research Bulletins, we account for the purchase price of the shares repurchased as a reduction to shareholders equity. In 2005, we repurchased 218,700 shares at an average price of $38.18 per share for an aggregate purchase price of $8.4 million. The remaining authorized amount for share repurchases under this program was $91.6 million.

CASH FLOWS

Net cash provided by operating activities totaled $158.8 million for the year ended December 31, 2006, $130.0 million for the year ended December 31, 2006, and $132.4 million for the year ended December 31, 2004. Cash provided by operating activities in 2006 as compared to 2005 was favorably impacted by a 6% increase in consolidated net operating income, partially offset by a 17% increase in interest expense. Cash flows in 2006 also were impacted by lower incentive compensation payments, as $5.0 million in payments related to an executive long term incentive compensation plan were made in 2005.

Cash flows used in investing activities were $182.1 million in 2006, compared to $326.0 million in 2005 and $104.1 in 2004. Investment activities in 2006 reflect investment in real estate acquisitions, which includes the acquisitions of three former Strawbridge s department stores at Cherry Hill Mall, Willow Grove Park and The Gallery at Market East. Investment activities also reflect real estate improvements of $35.5 million and investment in construction in progress of $148.5 million, both of which primarily relate to our development and redevelopment activities. The investment in construction in progress in 2006 also reflects the acquisition of land parcels in Gainesville, Florida and New Garden Township, Pennsylvania. Investing activities in 2006 also included $17.8 million in proceeds from the sales of South Blanding Village and land parcels at Magnolia Mall and Voorhees Town Center. Cash distributions from partnerships in excess of equity in income were $56.4 million, including $51.9 million of in net proceeds from the refinancing of the mortgage loan on Lehigh Valley Mall. Investing activities in 2005 include the acquisitions of Cumberland Mall, Gadsden Mall and Woodland Mall.

Cash flows provided by financing activities were $16.3 million in 2006, compared to $179.0 million provided in 2005 and $31.1 million used in 2004. Cash flows provided by financing activities for the year ended December 31, 2006 were affected by $152.1 million of net proceeds from the financing of mortgage loans on Valley Mall and Woodland Mall. Portions of these cash flows were applied toward aggregate net Credit Facility repayments of $10.5 million, dividends and distributions of $106.2 million and principal installments on mortgage notes payable of $22.8 million. Financing activities in 2005 included the repayment of the mortgages on Cherry Hill Mall, Magnolia Mall and Willow Grove Park.

Cash flows generated from discontinued operations have been included within the three reporting categories above.

COMMITMENTS

At December 31, 2006, we had $50.6 million of contractual obligations to complete current development and redevelopment projects. Total expected costs for the particular projects with such commitments are $291.5 million. We expect to finance these amounts through borrowings under the Credit Facility or through various other capital sources. See Liquidity and Capital Resources Capital Resources.

CONTINGENT LIABILITIES

We are aware of certain environmental matters at some of our properties, including ground water contamination and the presence of asbestos containing materials. We have, in the past, performed remediation of such environmental matters, and we are not aware of any significant remaining potential liability relating to these environmental matters.

We may be required in the future to perform testing relating to these matters. We have insurance coverage for certain environmental claims up to $5.0 million per occurrence and up to $5.0 million in the aggregate.

COMPETITION AND TENANT CREDIT RISK

Competition in the retail real estate industry is intense. We compete with other public and private retail real estate companies, including companies that own or manage malls, power centers, lifestyle centers, strip centers, factory outlet centers, theme/festival centers and community centers, as well as other commercial real estate developers and real estate owners, particularly those with properties near our properties. We compete with these companies to attract customers to our properties, as well as to attract anchor and in-line store tenants. We also compete to acquire land for new site development. Our malls and our power and strip centers face competition from similar retail centers, including more recently developed or renovated centers, that are near our retail properties. We also face competition from a variety of different retail formats, including internet retailers, discount or value retailers, home shopping networks, mail order operators, catalogs, and telemarketers. This competition could have a material adverse effect on our ability to lease space and on the level of rent that we currently receive. Our tenants face competition from companies at the same and other properties and from other retail formats as well.

Also, a significant amount of capital has and might continue to provide funding for the acquisition and development of properties that might compete with our properties. The development of competing retail properties and the related increased competition for tenants might require us to make capital improvements to properties that we would have deferred or would not have otherwise planned to make and affects the occupancy and net operating income of such properties. Any such redevelopments, undertaken individually or collectively, involve costs and expenses that could adversely affect our results of operations.

We compete with many other entities engaged in real estate investment activities for acquisitions of malls, other retail properties and other prime development sites, including institutional pension funds, other REITs and other owner-operators of retail properties. These competitors might drive up the price we must pay for properties, parcels, other assets or other companies we seek to acquire or might themselves succeed in acquiring those properties, parcels, assets or companies. In addition, our potential acquisition targets might find our competitors to be more attractive suitors if they have greater resources, are willing to pay more, or have a more compatible operating philosophy. In particular, larger REITs might enjoy significant competitive advantages that result from, among other things, a lower cost of capital, a better ability to raise capital, and enhanced operating efficiencies. Also, the number of entities, as well as the available capital resources competing for suitable investment properties or desirable development sites, have increased and might continue to increase, resulting in increased demand for these assets and therefore increased prices paid for them. We might not succeed in acquiring retail properties or development sites that we seek, or, if we pay higher prices for properties, or generate lower cash flow from an acquired property than we expect, our investment returns will be reduced, which will adversely affect the value of our securities.

We receive a substantial portion of our operating income as rent under long-term leases with tenants. At any time, any tenant having space in one or more of our properties could experience a downturn in its business that might weaken its financial condition. These tenants might defer or fail to make rental payments when due, delay lease commencement, voluntarily vacate the premises or declare bankruptcy, which could result in the termination of the tenant s lease, and could result in material losses to us and harm to our results of operations. Also, it might take time to terminate leases of underperforming or nonperforming tenants and we might incur costs to remove such tenants. Some of our tenants occupy stores at multiple locations in our portfolio, and so the effect of any bankruptcy of those tenants might be more significant to us than the bankruptcy of other tenants. In addition, under many of our leases, our tenants pay rent based on a percentage of their sales. Accordingly, declines in these tenants sales directly affect our results of operations. Also, if tenants are unable to comply with the terms of our leases, we might modify lease terms in ways that are less favorable to us.

SEASONALITY

There is seasonality in the retail real estate industry. Retail property leases often provide for the payment of a portion of rents based on a percentage of a tenant s sales over certain levels. Income from such rents is recorded only after the minimum sales levels have been met. The sales levels are often met in the fourth quarter, during the December holiday season. Also, many new and temporary leases are entered into later in the year in anticipation of the holiday season and there is a higher concentration of tenants vacating their space early in the year. As a result, our occupancy and cash flows are generally higher in the fourth quarter and lower in the first quarter, excluding the effect of ongoing redevelopment projects. Our concentration in the retail sector increases our exposure to seasonality and is expected to continue to result in a greater percentage of our cash flows being received in the fourth quarter.

INFLATION

Inflation can have many effects on financial performance. Retail property leases often provide for the payment of rents based on a percentage of sales, which may increase with inflation. Leases may also provide for tenants to bear all or a portion of operating expenses, which may reduce the impact of such increases on us. However, rent increases may not keep up with inflation.

FORWARD LOOKING STATEMENTS

This Annual Report on Form 10-K for the year ended December 31, 2006, together with other statements and information publicly disseminated by us, contain certain forward-looking statements within the meaning of the U.S. Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements relate to expectations, beliefs, projections, future plans, strategies, anticipated events, trends and other matters that are not historical facts. These forward-looking statements reflect our current views about future events and are subject to risks, uncertainties and changes in circumstances that might cause future events, achievements or results to differ materially from those expressed or implied by the forward-looking statements. In particular, our business might be affected by uncertainties affecting real estate businesses generally as well as the following, among other factors:

- general economic, financial and political conditions, including changes in interest rates or the possibility of war or terrorist attacks;
- changes in local market conditions, such as the supply of or demand for retail space, or other competitive factors;
- changes in the retail industry, including consolidation and store closings;
- concentration of our properties in the Mid-Atlantic region;
- risks relating to development and redevelopment activities, including construction and receipt of government and tenant approvals;
- our ability to effectively manage several redevelopment and development projects simultaneously, including projects involving mixed uses;
- our ability to maintain and increase property occupancy and rental rates;
- our dependence on our tenants business operations and their financial stability;
- increases in operating costs that cannot be passed on to tenants;
- our ability to raise capital through public and private offerings of debt or equity securities and other financing risks, including the availability of adequate funds at a reasonable cost;

our ability to acquire additional properties and our ability to integrate acquired properties into our existing portfolio;

our short-term and long-term liquidity position;

possible environmental liabilities;

our ability to obtain insurance at a reasonable cost; and

existence of complex regulations, including those relating to our status as a REIT, and the adverse consequences if we were to fail to qualify as a REIT.

Additional factors that might cause future events, achievements or results to differ materially from those expressed or implied by our forward-looking statements include those discussed in the section entitled Item 1A. Risk Factors. We do not intend to update or revise any forward-looking statements to reflect new information, future events or otherwise.

Except as the context otherwise requires, references in this Annual Report on Form 10-K to we, our, us, the Compan and PREIT refer to Pennsylvania Real Estate Investment Trust and its subsidiaries, including our operating partnership, PREIT Associates, L.P. References in this Annual Report on Form 10-K to PREIT Associates refer to PREIT Associates, L.P. References in this Annual Report on Form 10-K to PRI refer to PREIT-RUBIN, Inc.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

The analysis below presents the sensitivity of the market value of our financial instruments to selected changes in market interest rates. As of December 31, 2006, our consolidated debt portfolio consisted primarily of $332.0 million borrowed under our Credit Facility, which bears interest at a LIBOR rate plus the applicable margin, and $1,572.9 million in fixed-rate mortgage notes, and an additional $26.6 million of mortgage debt premium.

Mortgage notes payable, which are secured by 31 of our consolidated properties, are due in installments over various terms extending to the year 2017, with fixed interest at rates ranging from 4.50% to 8.70% and a weighted average interest rate of 6.33% at December 31, 2006. Mortgage notes payable for properties owned by unconsolidated partnerships are accounted for in Investments in partnerships, at equity on the consolidated balance sheet.

Our interest rate risk is monitored using a variety of techniques. The table below presents the principal amounts of the expected annual maturities and the weighted average interest rates for the principal payments in the specified periods:

(in thousands of dollars)	Fixed-Rate Debt		Variable-Rate Debt	
Year Ended December 31,	Principal Payments	Weighted Average Interest Rate	Principal Payments	Weighted Average Interest Rate
2007	$ 63,367	7.55%		
2008	$544,470	7.27%		
2009	$ 64,613	6.01%	$332,000(1)	6.15%(2)
2010	$ 15,636	5.64%		
2011	$ 16,560	5.65%		
2012 and thereafter	$868,262	5.53%		

(1) Our Credit Facility has a term that expires in January 2009, with an additional 14 month extension option, provided that there is no event of default at that time.

(2) Based on the weighted average interest

rate in effect as
of December 31,
2006.

Changes in market interest rates have different impacts on the fixed and variable portions of our debt portfolio. A change in market interest rates on the fixed portion of the debt portfolio impacts the fair value, but it has no impact on interest incurred or cash flows. A change in market interest rates on the variable portion of the debt portfolio impacts the interest incurred and cash flows, but does not impact the fair value. The sensitivity analysis related to the fixed debt portfolio, which includes the effects of the forward starting interest rate swap agreements described below, assumes an immediate 100 basis point change in interest rates from their actual December 31, 2006 levels, with all other variables held constant. A 100 basis point increase in market interest rates would result in a decrease in our net financial instrument position of $27.5 million at December 31, 2006. A 100 basis point decrease in market interest rates would result in an increase in our net financial instrument position of $27.0 million at December 31, 2006. Based on the variable-rate debt included in our debt portfolio as of December 31, 2006, a 100 basis point increase in interest rates would result in an additional $3.3 million in interest annually. A 100 basis point decrease would reduce interest incurred by $3.3 million annually.

To manage interest rate risk and limit overall interest cost, we may employ interest rate swaps, options, forwards, caps and floors or a combination thereof, depending on the underlying exposure. Interest rate differentials that arise under swap contracts are recognized in interest expense over the life of the contracts. If interest rates rise, the resulting cost of funds is expected to be lower than that which would have been available if debt with matching characteristics was issued directly. Conversely, if interest rates fall, the resulting costs would be expected to be higher. We may also employ forwards or purchased options to hedge qualifying anticipated transactions. Gains and losses are deferred and

recognized in net income in the same period that the underlying transaction occurs, expires or is otherwise terminated. See also Note 5 to our consolidated financial statements.

In March 2006, we entered into six forward-starting interest rate swap agreements that have a blended 10-year swap rate of 5.3562% on an aggregate notional amount of $150.0 million settling no later than December 10, 2008.

In May 2005, we entered into three forward-starting interest rate swap agreements that have a blended 10-year swap rate of 4.6858% on an aggregate notional amount of $120.0 million settling no later than October 31, 2007. We also entered into seven forward starting interest rate swap agreements in May 2005 that have a blended 10-year swap rate of 4.8047% on an aggregate notional amount of $250.0 million settling no later than December 10, 2008. A forward starting interest rate swap is an agreement that effectively hedges future base rates on debt for an established period of time. We entered into these swap agreements in order to hedge the expected interest payments associated with a portion of our anticipated future issuances of long term debt. We assessed the effectiveness of these swaps as hedges at inception and on December 31, 2006 and consider these swaps to be highly effective cash flow hedges under SFAS No. 133.

We now have an aggregate $120.0 million in notional amount of swap agreements settling in 2007 and an aggregate $400.0 million in notional amount of swap agreements settling in 2008.

Because the information presented above includes only those exposures that exist as of December 31, 2006, it does not consider changes, exposures or positions which could arise after that date. The information presented herein has limited predictive value. As a result, the ultimate realized gain or loss or expense with respect to interest rate fluctuations will depend on the exposures that arise during the period, our hedging strategies at the time and interest rates.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA.

Our consolidated balance sheets as of December 31, 2006 and 2005, and the related consolidated statements of income, shareholders equity and comprehensive income and cash flows for the years ended December 31, 2006, 2005 and 2004, and the notes thereto, our report on internal control over financial reporting, the reports of our independent registered public accounting firm thereon, our summary of unaudited quarterly financial information for the years ended December 31, 2006 and 2005, and the financial statement schedule begin on page F-1 of this report.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE.

None.

ITEM 9A. CONTROLS AND PROCEDURES.

We are committed to providing accurate and timely disclosure in satisfaction of our SEC reporting obligations. In 2002, we established a Disclosure Committee to formalize our disclosure controls and procedures. Our Chief Executive Officer and Chief Financial Officer have evaluated the effectiveness of our disclosure controls and procedures as of December 31, 2006, and have concluded as follows:

> Our disclosure controls and procedures are designed to ensure that the information that we are required to disclose in our reports under the Securities Exchange Act of 1934 (the Exchange Act) is recorded, processed, summarized and reported accurately and on a timely basis.
>
> Information that we are required to disclose in our Exchange Act reports is accumulated and communicated to management as appropriate to allow timely decisions regarding required disclosure.

There was no change in our internal controls over financial reporting that occurred during the period covered by this report that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.

See Management s Report on Internal Control Over Financial Reporting included before the financial statements contained in this report.

ITEM 9B. OTHER INFORMATION.

None.

PART III

ITEM 10. TRUSTEES, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE.

The information required by this Item is incorporated by reference to, and will be contained in, our definitive proxy statement, which we anticipate will be filed no later than April 30, 2007, and thus we have omitted such information in accordance with General Instruction G(3) to Form 10-K.

ITEM 11. EXECUTIVE COMPENSATION.

The information required by this Item is incorporated by reference to, and will be contained in, our definitive proxy statement, which we anticipate will be filed no later than April 30, 2007, and thus we have omitted such information in accordance with General Instruction G(3) to Form 10-K.

ITEM 12. SECURITY OWNERHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED SHAREHOLDER MATTERS.

The information required by this Item is incorporated by reference to, and will be contained in, our definitive proxy statement, which we anticipate will be filed no later than April 30, 2007, and thus we have omitted such information in accordance with General Instruction G(3) to Form 10-K.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND TRUSTEE INDEPENDENCE.

The information required by this Item is incorporated by reference to, and will be contained in, our definitive proxy statement, which we anticipate will be filed no later than April 30, 2007, and thus we have omitted such information in accordance with General Instruction G(3) to Form 10-K.

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

The information required by this Item is incorporated by reference to, and will be contained in, our definitive proxy statement, which we anticipate will be filed no later than April 30, 2007, and thus we have omitted such information in accordance with General Instruction G(3) to Form 10-K.

PART IV

ITEM 15. EXHIBITS AND FINANCIAL STATEMENT SCHEDULE.

The following documents are included in this report:

(1) Financial Statements

Management s Report on Internal Control Over Financial Reporting	F-1
Reports of Independent Registered Public Accounting Firm	F-2
Consolidated Balance Sheets as of December 31, 2006 and 2005	F-4
Consolidated Statements of Income for the years ended December 31, 2006, 2005 and 2004	F-5
Consolidated Statements of Shareholders Equity and Comprehensive Income for the years ended December 31, 2006, 2005 and 2004	F-7
Consolidated Statements of Cash Flows for the years ended December 31, 2006, 2005 and 2004	F-8
Notes to Consolidated Financial Statements	F-9

(2) Financial Statement Schedule

III Real Estate and Accumulated Depreciation	S-1

All other schedules are omitted because they are not applicable, not required or because the required information is reported in the consolidated financial statements, notes or schedule thereto.

(3) Exhibits

Exhibit No.	Description
2.1	Agreement of Purchase and Sale among The Rouse Company of Nevada, LLC, The Rouse Company of New Jersey, LLC and PR Cherry Hill Limited Partnership, dated as of March 7, 2003, filed as exhibit 2.1 to PREIT s Annual Report on Form 10-K for the year ended December 31, 2002 is incorporated herein by reference.
2.2	Agreement of Purchase and Sale among Echelon Mall Joint Venture and Echelon Acquisition, LLC and PR Echelon Limited Partnership, dated as of March 7, 2003, filed as exhibit 2.2 to PREIT s Annual Report on Form 10-K for the year ended December 31, 2002 is incorporated herein by reference.
2.3	Agreement of Purchase and Sale among The Gallery at Market East, LLC and PR Gallery I Limited Partnership, dated as of March 7, 2003, filed as exhibit 2.3 to PREIT s Annual Report on Form 10-K for the year ended December 31, 2002 is incorporated herein by reference.
2.4	Agreement of Purchase and Sale among The Rouse Company of Nevada, LLC, The Rouse Company of New Jersey, LLC and PR Moorestown Limited Partnership, dated as of March 7, 2003, filed as exhibit 2.4 to PREIT s Annual Report on Form 10-K for the year ended

	December 31, 2002 is incorporated herein by reference.
2.5	Agreement of Purchase and Sale between Plymouth Meeting Property, LLC and PR Plymouth Meeting Limited Partnership, dated as of March 7, 2003, filed as exhibit 2.5 to PREIT s Annual Report on Form 10-K for the year ended December 31, 2002 is incorporated herein by reference.
2.6	Agreement of Purchase and Sale between The Rouse Company, L.P. and PR Exton Limited Partnership, dated as of March 7, 2003, filed as exhibit 2.6 to PREIT s Annual Report on Form 10-K for the year ended December 31, 2002 is incorporated herein by reference.

Exhibit No.	**Description**
2.7	Agreement and Plan of Merger among Pennsylvania Real Estate Investment Trust, PREIT Associates, L.P., Crown American Realty Trust and Crown American Properties, L.P., dated as of May 13, 2003, filed as exhibit 2.1 to PREIT s Current Report on Form 8-K dated May 13, 2003, is incorporated herein by reference.
2.8	Crown Partnership Distribution Agreement between Crown American Realty Trust and Crown American Properties, L.P., dated as of May 13, 2003, filed as exhibit 2.2 to PREIT s Current Report on Form 8-K dated May 13, 2003, is incorporated herein by reference.
2.9	PREIT Contribution Agreement between Pennsylvania Real Estate Investment Trust and PREIT Associates, L.P., dated as of May 13, 2003, filed as exhibit 2.3 to PREIT s Current Report on Form 8-K dated May 13, 2003, is incorporated herein by reference.
2.10	Crown Partnership Contribution Agreement between Crown American Properties, L.P. and PREIT Associates, L.P., dated as of May 13, 2003, filed as exhibit 2.4 to PREIT s Current Report on Form 8-K dated May 13, 2003, is incorporated herein by reference.
2.11	Agreement of Exchange between Crown Investments Trust and Crown American Properties, L.P., dated as of May 13, 2003, filed as exhibit 2.5 to PREIT s Current Report on Form 8-K dated May 13, 2003, is incorporated herein by reference.
2.12	Purchase and Sale Agreement between PREIT Associates, L.P., et al. and MPM Acquisition Corp., dated as of March 3, 2003, filed as exhibit 2.1 to PREIT s Current Report on Form 8-K dated March 3, 2003 and filed March 6, 2003, is incorporated herein by reference.
2.13	First Amendment to Purchase and Sale Agreement between PREIT Associates, L.P., et al. and MPM Acquisition Corp., dated as of March 3, 2003, filed as exhibit 2.2 to PREIT s Current Report on Form 8-K dated March 3, 2003 and filed March 6, 2003, is incorporated herein by reference.
2.14	Second Amendment to Purchase and Sale Agreement between PREIT Associates, L.P., et al. and MPM Acquisition Corp., dated as of April 4, 2003 filed as exhibit 2.1 to PREIT s Current Report on Form 8-K dated April 4, 2003 and filed April 10, 2003, is incorporated herein by reference.
2.15	Third Amendment to Purchase and Sale Agreement between PREIT Associates, L.P., et al. and MPM Acquisition Corp., dated as of May 27, 2003, filed as exhibit 2.4 to PREIT s Current Report on Form 8-K dated March 3, 2003 and filed May 30, 2003, is incorporated herein by reference.

Management s Report on Internal Control Over Financial Reporting

Management of Pennsylvania Real Estate Investment Trust (us or the Company) is responsible for establishing and maintaining adequate internal control over financial reporting. As defined in the rules of the Securities and Exchange Commission, internal control over financial reporting is a process designed by, or under the supervision of, our principal executive and principal financial officers and effected by our Board of Trustees, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with U.S. generally accepted accounting principles.

Our internal control over financial reporting includes those policies and procedures that:

(1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the Company s transactions and the dispositions of assets of the Company;

(2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of the Company s management and trustees; and

(3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company s assets that could have a material effect on the financial statements.

Because of its inherent limitations, a system of internal control over financial reporting can provide only reasonable assurance with respect to financial statement preparation and presentation and may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In connection with the preparation of the Company s annual consolidated financial statements, management has conducted an assessment of the effectiveness of our internal control over financial reporting based on the framework set forth in *Internal Control Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Management s assessment included an evaluation of the design of the Company s internal control over financial reporting and testing of the operational effectiveness of those controls. Based on this evaluation, we have concluded that, as of December 31, 2006, our internal control over financial reporting was effective to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with U.S. generally accepted accounting principles.

Our independent registered public accounting firm, KPMG LLP, audited management s assessment and independently assessed the effectiveness of the Company s internal control over financial reporting. KPMG has issued a report concurring with management s assessment, which is included on page F-3 in this report.

Report of Independent Registered Public Accounting Firm

The Board of Trustees and Shareholders
Pennsylvania Real Estate Investment Trust:

We have audited the accompanying consolidated balance sheets of Pennsylvania Real Estate Investment Trust (a Pennsylvania business trust) and subsidiaries as of December 31, 2006 and 2005 and the related consolidated statements of income, shareholders equity and comprehensive income, and cash flows for each of the years in the three-year period ended December 31, 2006. In connection with our audits of the consolidated financial statements, we also have audited financial statement schedule III. These consolidated financial statements and financial statement schedule are the responsibility of the Company s management. Our responsibility is to express an opinion on these consolidated financial statements and financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Pennsylvania Real Estate Investment Trust and subsidiaries as of December 31, 2006 and 2005, and the results of their operations and their cash flows for each of the years in the three-year period ended December 31, 2006 in conformity with U.S. generally accepted accounting principles. Also in our opinion, the related financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the effectiveness of Pennsylvania Real Estate Investment Trust s internal control over financial reporting as of December 31, 2006, based on criteria established in Internal Control Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated February 28, 2007 expressed an unqualified opinion on management s assessment of, and the effective operation of, internal control over financial reporting.

February 28, 2007

Report of Independent Registered Public Accounting Firm

The Board of Trustees and Shareholders
Pennsylvania Real Estate Investment Trust:

We have audited management s assessment, included in the accompanying Management s Report on Internal Control Over Financial Reporting, that Pennsylvania Real Estate Investment Trust maintained effective internal control over financial reporting as of December 31, 2006, based on criteria established in Internal Control Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Pennsylvania Real Estate Investment Trust s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting. Our responsibility is to express an opinion on management s assessment and an opinion on the effectiveness of the Company s internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, evaluating management s assessment, testing and evaluating the design and operating effectiveness of internal control, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company s internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company s internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company s assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, management s assessment that Pennsylvania Real Estate Investment Trust maintained effective internal control over financial reporting as of December 31, 2006, is fairly stated, in all material respects, based on criteria established in Internal Control Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Also, in our opinion, Pennsylvania Real Estate Investment Trust maintained, in all material respects, effective internal control over financial reporting as of December 31, 2006, based on criteria established in Internal Control Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Pennsylvania Real Estate Investment Trust and subsidiaries as of December 31, 2006 and 2005, and the related consolidated statements of income, shareholders equity and comprehensive income, and cash flows for each of the years in the three-year period ended December 31, 2006 and our report dated February 28, 2007 expressed an unqualified opinion on those consolidated financial statements.

PENNSYLVANIA REAL ESTATE INVESTMENT TRUST
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
For the Years Ended December 31, 2006, 2005 and 2004

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations

Pennsylvania Real Estate Investment Trust, a Pennsylvania business trust founded in 1960 and one of the first equity real estate investment trusts (REITs) in the United States, has a primary investment focus on retail shopping malls and power and strip centers located in the Mid-Atlantic region or in the eastern half of the United States. As of December 31, 2006, the Company s operating portfolio consisted of a total of 51 properties. The retail portion of the Company s retail portfolio contains 50 properties in 13 states and includes 39 shopping malls and 11 power and strip centers. The ground-up development portion of the Company s portfolio contains seven properties in five states, with four classified as power centers, two classified as mixed use (a combination of retail and other uses) and one classified as other.

The Company holds its interest in its portfolio of properties through its operating partnership, PREIT Associates, L.P. (the Operating Partnership). The Company is the sole general partner of the Operating Partnership and, as of December 31, 2006, the Company held an 89.6% interest in the Operating Partnership and consolidates it for reporting purposes. The presentation of consolidated financial statements does not itself imply that the assets of any consolidated entity (including any special-purpose entity formed for a particular project) are available to pay the liabilities of any other consolidated entity, or that the liabilities of any consolidated entity (including any special-purpose entity formed for a particular project) are obligations of any other consolidated entity.

Pursuant to the terms of the partnership agreement of the Operating Partnership, each of the limited partners has the right to redeem his/her units of limited partnership interest in the Operating Partnership (OP Units) for cash or, at the election of the Company, the Company may acquire such OP Units for shares of the Company on a one-for-one basis, in some cases beginning one year following the respective issue date of the OP Units and in other cases immediately.

The Company provides its management, leasing and real estate development services through two companies: PREIT Services, LLC (PREIT Services), which generally develops and manages properties that the Company consolidates for financial reporting purposes, and PREIT-RUBIN, Inc. (PRI), which generally develops and manages properties that the Company does not consolidate for financial reporting purposes, including properties owned by partnerships in which the Company owns an interest. PREIT Services and PRI are consolidated. Because PRI is a taxable REIT subsidiary as defined by federal tax laws, it is capable of offering a broad range of services to tenants without jeopardizing the Company s continued qualification as a real estate investment trust under federal tax law.

Consolidation

The Company consolidates its accounts and the accounts of the Operating Partnership and other controlled subsidiaries and reflects the remaining interest of such entities as minority interest. All significant intercompany accounts and transactions have been eliminated in consolidation.

Certain prior period amounts have been reclassified to conform with current year presentation.

Partnership Investments

The Company accounts for its investment in partnerships that it does not control using the equity method of accounting. These investments, each of which represent a 40% to 50% noncontrolling ownership interest at December 31, 2006, are recorded initially at the Company s cost and subsequently adjusted for the Company s share of net equity in income and cash contributions and distributions. The Company does not control any of these equity method investees for the following reasons:

- Except for two properties that the Company co-manages with its partner, the other entities are managed on a day-to-day basis by one of the Company s other partners as the managing general partner in each of the respective partnerships. In the case of the co-managed properties, all decisions in the ordinary course of business are made jointly.

- The managing general partner is responsible for establishing the operating and capital decisions of the partnership, including budgets, in the ordinary course of business.

All major decisions of each partnership, such as the sale, refinancing, expansion or rehabilitation of the property, require the approval of all partners.

Voting rights and the sharing of profits and losses are in proportion to the ownership percentages of each partner.

Statements of Cash Flows

The Company considers all highly liquid short-term investments with an original maturity of three months or less to be cash equivalents. At December 31, 2006 and 2005, cash and cash equivalents totaled $15.8 million and $22.8 million, respectively, and included tenant escrow deposits of $5.0 million and $5.2 million, respectively. Cash paid for interest, including interest related to discontinued operations, was $108.9 million, $99.2 million and $92.7 million for the years ended December 31, 2006, 2005 and 2004, respectively, net of amounts capitalized of $9.6 million, $2.8 million and $1.5 million, respectively.

Significant Non-Cash Transactions

In December 2006, the Company issued 341,297 OP Units valued at $13.4 million in connection with the purchase of the remaining interest in two partnerships that own or ground lease 12 malls pursuant to the put-call arrangement established in the Crown American Realty Trust merger in 2003.

In February 2005, the Company assumed two mortgage loans with an aggregate balance of $47.7 million and issued 272,859 OP Units valued at $11.0 million in connection with the acquisition of Cumberland Mall.

In May 2004, the Company issued 609,316 OP Units valued at $17.8 million in connection with the acquisition of the remaining partnership interest in New Castle Associates, owner of Cherry Hill Mall.

In 2004, the Company issued 279,910 OP Units valued at $10.2 million to certain former affiliates of The Rubin Organization in connection with the acquisition of The Rubin Organization in 1997 (See Note 11).

Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Company s management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expense during the reporting periods. Actual results could differ from those estimates.

The Company s management makes complex or subjective assumptions and judgments in applying its critical accounting policies. In making these judgments and assumptions, management considers, among other factors:

- events and changes in property, market and economic conditions;
- estimated future cash flows from property operations; and
- the risk of loss on specific accounts or amounts.

The estimates and assumptions made by the Company s management in applying its critical accounting policies have not changed materially over time, except as otherwise noted, and none of these estimates or assumptions have proven to be materially incorrect or resulted in the Company recording any significant adjustments relating to prior periods. The Company will continue to monitor the key factors underlying its estimates and judgments, but no change is currently expected.

Revenue Recognition

The Company derives over 95% of its revenues from tenant rents and other tenant-related activities. Tenant rents include base rents, percentage rents, expense reimbursements (such as common area maintenance, real estate taxes and utilities), amortization of above-market and below-market lease intangibles and straight-line rents. The Company records base rents on a straight-line basis, which means that the monthly base rent income according to the terms of the Company s leases with its tenants is adjusted so that an average monthly rent is recorded for each tenant over the term of its lease. The straight-line rent adjustment increased revenue by approximately $2.9 million in 2006, $4.3 million in 2005 and $5.0 million in 2004. The straight-line receivable balances included in tenant and other receivables on the accompanying balance sheet as of December 31, 2006 and December 31, 2005 were $19.4 million and $16.2 million, respectively. Amortization of above-market and below-market lease intangibles decreased revenue by $0.5 million, $1.4 million and $0.7 million in 2006, 2005 and 2004, respectively, as described below under Intangible Assets.

Percentage rents represent rental income that the tenant pays based on a percentage of its sales. Tenants that pay percentage rent usually pay in one of two ways, either a percentage of their total sales or a percentage of sales over a

certain threshold. In the latter case, the Company does not record percentage rent until the sales threshold has been reached. Revenues for rents received from tenants prior to their due dates are deferred until the period to which the rents apply.

Table of Contents

In addition to base rents, certain lease agreements contain provisions that require tenants to reimburse a pro rata share of real estate taxes and certain common area maintenance costs. Tenants generally make expense reimbursement payments monthly based on a budgeted amount determined at the beginning of the year. During the year, the Company s income increases or decreases based on actual expense levels and changes in other factors that influence the reimbursement amounts, such as occupancy levels. As of December 31, 2006 and 2005, the Company s accounts receivable included accrued income of $8.1 million and $8.0 million, respectively, because actual reimbursable expense amounts able to be billed to tenants under applicable contracts exceeded amounts billed during the respective calendar years. Subsequent to the end of the year, the Company prepares a reconciliation of the actual amounts due from tenants. The difference between the actual amount due and the amounts paid by the tenant throughout the year is billed or credited to the tenant, depending on whether the tenant paid too little or too much during the year.

No single tenant represented 10% or more of the Company s rental revenue in any period presented.

Lease termination fee income is recognized in the period when a termination agreement is signed and the Company is no longer obligated to provide space to the tenant. In the event that a tenant is in bankruptcy when the termination agreement is signed, termination fee income is deferred and recognized when it is received.

The Company also generates revenue from the provision of management services to third parties, including property management, brokerage, leasing and development. Management fees generally are a percentage of managed property revenues or cash receipts. Leasing fees are earned upon the consummation of new leases. Development fees are earned over the time period of the development activity and are recognized on the percentage of completion method. These activities are collectively included in management company revenue in the consolidated statements of income.

Real Estate

Land, buildings, fixtures and tenant improvements are recorded at cost and stated at cost less accumulated depreciation. Expenditures for maintenance and repairs are charged to operations as incurred. Renovations or replacements, which improve or extend the life of an asset, are capitalized and depreciated over their estimated useful lives. Tenant improvements, either paid directly by the Company or in the form of construction allowances paid to tenants, are capitalized and depreciated over the lease term.

For financial reporting purposes, properties are depreciated using the straight-line method over the estimated useful lives of the assets. The estimated useful lives are as follows:

Buildings	30-50 years
Land improvements	15 years
Furniture/fixtures	3-10 years
Tenant improvements	Lease term

The Company is required to make subjective assessments as to the useful lives of its real estate assets for purposes of determining the amount of depreciation to reflect on an annual basis with respect to those assets based on various factors, including industry standards, historical experience and the condition of the asset at the time of acquisition. These assessments have a direct impact on the Company s net income. If the Company were to determine that a longer expected useful life was appropriate for a particular asset, it would be depreciated over more years, and, other things being equal, result in less annual depreciation expense and higher annual net income.

Assessment of recoverability by the Company of certain other lease related costs must be made when the Company has a reason to believe that the tenant may not be able to perform under the terms of the lease as originally expected. This requires the Company to make estimates as to the recoverability of such costs.

Gains from sales of real estate properties and interests in partnerships generally are recognized using the full accrual method in accordance with the provisions of Statement of Financial Accounting Standards No. 66, Accounting for Sales of Real Estate, provided that various criteria are met relating to the terms of sale and any subsequent involvement by the Company with the properties sold.

Intangible Assets

The Company accounts for its property acquisitions under the provisions of Statement of Financial Accounting Standards No. 141, Business Combinations (SFAS No. 141). Pursuant to SFAS No. 141, the purchase price of a property is allocated to the property s assets based on management s estimates of their fair value. The determination of

the fair value of intangible assets requires significant estimates by management and considers many factors, including the Company s expectations about the underlying property and the general market conditions in which the property operates. The judgment and subjectivity inherent in such assumptions can have a significant impact on the magnitude of the intangible assets that the Company records.

SFAS No. 141 provides guidance on allocating a portion of the purchase price of a property to intangible assets. The Company s methodology for this allocation includes estimating an as-if vacant fair value of the physical property, which is allocated to land, building and improvements. The difference between the purchase price and the as-if vacant fair value is allocated to intangible assets. There are three categories of intangible assets to be considered: (i) value of in-place leases, (ii) above-market and below-market value of in-place leases and (iii) customer relationship value.

F-11

Table of Contents

The value of in-place leases is estimated based on the value associated with the costs avoided in originating leases comparable to the acquired in-place leases, as well as the value associated with lost rental revenue during the assumed lease-up period. The value of in-place leases is amortized as real estate amortization over the remaining lease term. Above-market and below-market in-place lease values for acquired properties are recorded based on the present value of the difference between (i) the contractual amounts to be paid pursuant to the in-place leases and (ii) management s estimates of fair market lease rates for the comparable in-place leases, based on factors including historical experience, recently executed transactions and specific property issues, measured over a period equal to the remaining non-cancelable term of the lease. The value of above-market lease values is amortized as a reduction of rental income over the remaining terms of the respective leases. The value of below-market lease values is amortized as an increase to rental income over the remaining terms of the respective leases, including any below-market optional renewal periods.

The Company allocates purchase price to customer relationship intangibles based on management s assessment of the value of such relationships and if the customer relationships associated with the acquired property provide incremental value over the Company s existing relationships.

The following table presents the Company s intangible assets and liabilities, net of accumulated amortization, as of December 31, 2006 and 2005:

(in thousands of dollars)	As of December 31, 2006	As of December 31, 2005
Value of in-place lease intangibles	$ 116,238	$ 153,099
Above-market lease intangibles	11,075	8,666
Subtotal	127,313	161,765
Goodwill (see below)	11,804	11,829
Total intangible assets	$ 139,117	$ 173,594
Below-market lease intangibles	$ (13,073)	$ (9,865)

In the normal course of business, the Company s intangible assets will amortize in the next five years and thereafter as follows:

(in thousands of dollars) For the Year Ended December 31,	In-Place Lease Intangibles	Above/(Below) Market Leases
2007	$ 28,623	$ 256
2008	28,622	313
2009	28,622	240
2010	24,329	168
2011	5,554	43
2012 and thereafter	488	(3,018)
Total	$ 116,238	$ (1,998)

Goodwill

Statement of Financial Accounting Standards No. 142, Goodwill and Other Intangible Assets (SFAS No.142), requires that goodwill and intangible assets with indefinite useful lives no longer be amortized, but instead be tested for impairment at least annually. The Company conducts an annual review of its goodwill balances for impairment to determine whether an adjustment to the carrying value of goodwill is required. The Company s intangible assets on the accompanying consolidated balance sheets at December 31, 2006 and 2005 include $11.8 million (net of $1.1 million of amortization expense recognized prior to January 1, 2002) of goodwill recognized in connection with the acquisition of The Rubin Organization in 1997.

Table of Contents

Changes in the carrying amount of goodwill for the three years ended December 31, 2006 were as follows:

(in thousands of dollars)	
Balance, January 1, 2004	$ 9,041
Additions to goodwill	3,044
Goodwill divested	(40)
Balance, December 31, 2004	12,045
Goodwill divested	(216)
Balance, December 31, 2005	11,829
Goodwill divested	(25)
Balance, December 31, 2006	$ 11,804

Assets Held-for-Sale and Discontinued Operations

The Company generally considers assets to be held for sale when the sale transaction has been approved by the appropriate level of management and there are no known material contingencies relating to the sale such that the sale is probable within one year.

When assets are identified by management as held for sale, the Company discontinues depreciating the assets and estimates the sales price, net of selling costs, of such assets. If, in management s opinion, the net sales price of the assets identified as held for sale is less than the net book value of the assets, the asset is written down to fair value less the cost to sell. Assets and liabilities related to assets classified as held-for-sale are presented separately in the consolidated balance sheet.

Assuming no significant continuing involvement, a sold real estate property is considered a discontinued operation. In addition, properties classified as held for sale are considered discontinued operations. Properties classified as discontinued operations were reclassified as such in the accompanying consolidated statement of income for each period presented. Interest expense that is specifically identifiable to the property is used in the computation of interest expense attributable to discontinued operations. See Note 2 below for a description of the properties included in discontinued operations. Investments in partnerships are excluded from discontinued operations treatment.

Capitalization of Costs

Costs incurred related to development and redevelopment projects for interest, property taxes and insurance are capitalized only during periods in which activities necessary to prepare the property for its intended use are in progress. Costs incurred for such items after the property is substantially complete and ready for its intended use are charged to expense as incurred. The Company capitalizes a portion of development department employees compensation and benefits related to time spent involved in development and redevelopment projects.

The Company capitalizes payments made to obtain options to acquire real property. All other related costs that are incurred before acquisition are capitalized if the acquisition of the property or of an option to acquire the property is probable. If the property is acquired, such costs are included in the amount recorded as the initial value of the asset. Capitalized pre-acquisition costs are charged to expense when it is probable that the property will not be acquired.

The Company capitalizes salaries, commissions and benefits related to time spent by leasing and legal department personnel involved in originating leases with third-party tenants.

The following table summarizes the Company s capitalized salaries and benefits, real estate taxes and interest for the years ended December 31, 2006, 2005 and 2004:

	For the Year Ended December 31,		
(in thousands of dollars)	**2006**	**2005**	**2004**
Development/Redevelopment:			
Salaries and benefits	$ 2,265	$ 1,749	$ 1,285

Real estate taxes	$ 1,398	$ 451	$ 178
Interest	$ 9,640	$ 2,798	$ 1,463
Leasing:			
Salaries and benefits	$ 4,613	$ 3,574	$ 2,763

Asset Impairment

Real estate investments are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the property might not be recoverable. A property to be held and used is considered impaired only if management s estimate of the aggregate future cash flows to be generated by the property, undiscounted and without interest charges, are less than the carrying value of the property. This estimate takes into consideration factors such as expected future operating income, trends and prospects, as well as the effects of demand, competition and other factors. In addition, these estimates may consider a probability weighted cash flow estimation approach when alternative courses of action to recover the carrying amount of a long-lived asset are under consideration or when a range of possible values is estimated.

The determination of undiscounted cash flows requires significant estimates by management, including the expected course of action at the balance sheet date that would lead to such cash flows. Subsequent changes in estimated undiscounted cash flows arising from changes in anticipated action to be taken with respect to the property could impact the determination of whether an impairment exists and whether the effects could materially impact the Company s net income. To the extent impairment has occurred, the loss will be measured as the excess of the carrying amount of the property over the fair value of the property.

Tenant Receivables

The Company makes estimates of the collectibility of its tenant receivables related to tenant rents including base rents, straight-line rents, expense reimbursements and other revenue or income. The Company specifically analyzes accounts receivable, including straight-line rents receivable, historical bad debts, customer creditworthiness, current economic and industry trends and changes in customer payment terms when evaluating the adequacy of the allowance for doubtful accounts. In addition, with respect to tenants in bankruptcy, the Company makes estimates of the expected recovery of pre-petition and post-petition claims in assessing the estimated collectibility of the related receivable.

Income Taxes

The Company has elected to qualify as a real estate investment trust under Sections 856-860 of the Internal Revenue Code of 1986, as amended, and intends to remain so qualified.

Earnings and profits, which determine the taxability of distributions to shareholders, will differ from net income reported for financial reporting purposes due to differences in cost basis, differences in the estimated useful lives used to compute depreciation and differences between the allocation of the Company s net income and loss for financial reporting purposes and for tax reporting purposes.

The Company is subject to a federal excise tax computed on a calendar year basis. The excise tax equals 4% of the excess, if any, of 85% of the Company s ordinary income plus 95% of the Company s capital gain net income for the year plus 100% of any prior year shortfall over cash distributions during the year, as defined by the Internal Revenue Code. The Company has, in the past, distributed a substantial portion of its taxable income in the subsequent fiscal year and might also follow this policy in the future.

No provision for excise tax was made for the years ended December 31, 2006, 2005, and 2004, as no excise tax was due in those years.

The per share distributions paid to shareholders had the following components for the years ended December 31, 2006, 2005, and 2004:

	For the Year Ended December 31,		
	2006	**2005**	**2004**
Ordinary income	$ 1.93	$ 2.07	$ 1.62
Capital gains	0.04		0.03
Return of capital	0.31	0.18	0.51
	$ 2.28	$ 2.25	$ 2.16

PRI is subject to federal, state and local income taxes. The Company had no provision or benefit for federal or state income taxes in the years ended December 31, 2006, 2005 and 2004. The Company had net deferred tax assets of $4.9 million and $4.1 million as of December 31, 2006 and 2005, respectively. The deferred tax assets are primarily the result of net operating losses. A valuation allowance has been established for the full amount of the deferred tax assets, since it is more likely than not that these will not be realized. The Company recorded expense of $0.4 million and $0.6 million related to Philadelphia net profits tax for the years ended December 31, 2006 and 2005, respectively. The aggregate cost basis and depreciated basis for federal income tax purposes of the Company s investment in real estate was approximately $3,188.6 million and $2,533.9 million, respectively, at December 31, 2006 and $2,883.6 million and $2,284.6 million, respectively, at December 31, 2005.

Fair Value of Financial Instruments

Carrying amounts reported on the balance sheet for cash and cash equivalents, tenant and other receivables, accrued expenses, other liabilities and the Credit Facility approximate fair value due to the short-term nature of these instruments. The Company s variable-rate debt has an estimated fair value that is approximately the same as the recorded amounts in the balance sheets. The estimated fair value for fixed-rate debt, which is calculated for disclosure purposes, is based on the borrowing rates available to the Company for fixed-rate mortgages and corporate notes payable with similar terms and maturities.

Debt assumed in connection with property acquisitions is recorded at fair value at the acquisition date and the resulting premium or discount is amortized through interest expense over the remaining term of the debt, resulting in a non-cash decrease (in the case of a premium) or increase (in the case of a discount) in interest expense.

Derivatives

In the normal course of business, the Company is exposed to financial market risks, including interest rate risk on its interest-bearing liabilities. The Company endeavors to limit these risks by following established risk management policies, procedures and strategies, including the use of derivative financial instruments. The Company does not use derivative financial instruments for trading or speculative purposes.

Derivative financial instruments are recorded on the balance sheet as assets or liabilities based on the instrument s fair value. Changes in the fair value of derivative financial instruments are recognized currently in earnings, unless the derivative financial instrument meets the criteria for hedge accounting contained in Statement of Financial Accounting Standards No. 133, Accounting for Derivative Instruments and Hedging Activities, as amended and interpreted (SFAS No. 133). If the derivative financial instruments meet the criteria for a cash flow hedge, the gains and losses in the fair value of the instrument are deferred in other comprehensive income. Gains and losses on a cash flow hedge are reclassified into earnings when the forecasted transaction affects earnings. A contract that is designated as a hedge of an anticipated transaction which is no longer likely to occur is immediately recognized in earnings.

The anticipated transaction to be hedged must expose the Company to interest rate risk, and the hedging instrument must reduce the exposure and meet the requirements for hedge accounting under SFAS No. 133. The Company must formally designate the instrument as a hedge and document and assess the effectiveness of the hedge at inception and on a quarterly basis. Interest rate hedges that are designated as cash flow hedges hedge future cash outflows on debt.

To determine the fair values of derivative instruments prior to settlement, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each balance sheet date. For the majority of financial instruments, including most derivatives, long-term investments and long-term debt, standard market conventions and techniques such as discounted cash flow analysis, option pricing models, replacement cost and termination cost are used to determine fair value. All methods of assessing fair value result in a general approximation of value, and there can be no assurance that the value in an actual transaction will be equivalent to the fair value set forth in the Company s financial statements.

Operating Partnership Unit Redemptions

Shares issued upon redemption of OP Units are recorded at the book value of the OP Units surrendered.

Stock-Based Compensation Expense

The Company follows the expense recognition provisions of Statement of Financial Accounting Standards No. 123(R), Share-Based Payment (SFAS No. 123(R)), which is a revision of SFAS No. 123 and supersedes APB Opinion No. 25. SFAS No. 123(R) requires all share based payments to employees, including grants of employee stock options and restricted shares, to be valued at fair value on the date of grant, and to be expensed over the applicable vesting period. Pro forma disclosure of the income statement effects of share-based payments, which was permitted under SFAS No. 123, is no longer an alternative. As originally issued by the Financial Accounting Standards Board (FASB), SFAS No. 123(R) was effective for all stock-based awards granted on or after July 1, 2005. In addition, companies must also recognize compensation expense related to any awards that were not fully vested as of July 1, 2005. In March 2005, the Securities and Exchange Commission (SEC) released Staff Accounting Bulletin No. 107 (SAB No. 107), which provides guidance related to share-based payment arrangements for reporting companies. Also in March 2005, the SEC permitted reporting companies, and the Company elected, to defer adoption of SFAS No. 123(R) until the beginning of their next fiscal year, which, for the Company, was January 1, 2006.

Compensation expense for the unvested awards is measured based on the fair value of such awards previously

calculated in connection with the development of the prior pro forma disclosures in accordance with the provisions of SFAS No. 123. The impact of the Company s adoption of SFAS No. 123(R) was not material.

Prior to the Company s adoption of SFAS No. 123(R), compensation cost for awards granted after January 1, 2003 was recognized prospectively over the vesting period. Awards granted prior to January 1, 2003 were classified as a separate component of shareholders equity and valued using the intrinsic method. The following table illustrates the effect on net income and earnings per share if the fair value based method had been applied to all outstanding and unvested awards in each period presented.

	For the Year ended December 31,	
(in thousands of dollars, except per share amounts)	**2005**	**2004**
Net income available to common shareholders	$ 44,016	$ 40,175
Add: Stock-based employee compensation expense included in reported net income	4,304	2,954
Deduct: Total stock-based employee compensation expense determined under fair value based method for all awards	(4,315)	(2,984)
Pro forma net income available to common shareholders	$ 44,005	$ 40,145
Deduct: Dividends on unvested restricted shares	(1,024)	(733)
Pro forma net income for basic earnings per share calculation	42,981	39,412
Minority interest in properties	179	611
Pro forma net income for diluted earnings per share calculation	$ 43,160	$ 40,023
Earnings per share:		
Basic as reported	$ 1.19	$ 1.11
Basic pro forma	$ 1.19	$ 1.11
Diluted as reported	$ 1.17	$ 1.10
Diluted pro forma	$ 1.17	$ 1.10

Earnings Per Share

The difference between basic weighted-average shares outstanding and diluted weighted-average shares outstanding is the dilutive impact of common stock equivalents. Common stock equivalents consist primarily of shares to be issued under employee stock compensation programs and outstanding stock options and warrants whose exercise price was less than the average market price of the Company s stock during these periods.

Recent Accounting Pronouncements

SFAS No. 157

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, Fair Value Measurements (SFAS No. 157). SFAS No. 157 establishes a new definition of fair value, provides guidance on how to measure fair value and establishes new disclosure requirements of assets and liabilities at their fair value measurements. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007. The Company has not determined whether the adoption of SFAS No. 157 will have a material effect on the Company s financial statements.

SAB 108

In September 2006, the SEC s staff issued Staff Accounting Bulletin (SAB) No. 108, Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements. This Bulletin provides

guidance on the consideration of the effects of prior year misstatements in quantifying current year misstatements for the purpose of a materiality assessment. The guidance in SAB No. 108 must be applied to financial reports covering the first fiscal year ending after November 15, 2006. SAB No. 108 had no impact on the Company s financial statements.

FIN 48

In June 2006, the FASB issued FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes (FIN 48). FIN 48 addresses the recognition and measurement of tax-based benefits based on the probability that they will be realized. FIN 48 is effective for fiscal years beginning after December 15, 2006. The adoption of FIN 48 will not have any material effect on the Company s financial statements.

Table of Contents

2. REAL ESTATE ACTIVITIES

Investments in real estate as of December 31, 2006 and 2005 were comprised of the following:

(in thousands of dollars)	As of December 31, 2006	2005
Buildings, improvements and construction in progress	$ 2,599,499	$ 2,400,068
Land, including land held for development	532,871	467,368
Total investments in real estate	3,132,370	2,867,436
Accumulated depreciation	(306,893)	(220,788)
Net investments in real estate	$ 2,825,477	$ 2,646,648

2006 Acquisitions

In connection with the Merger (see below), Crown s former operating partnership retained an 11% interest in the capital and 1% interest in the profits of two partnerships that own or ground lease 12 shopping malls. This retained interest was subject to a put-call arrangement between Crown s former operating partnership and the Company. Pursuant to this arrangement, the Company had the right to require Crown s former operating partnership to contribute the retained interest to the Company following the 36th month after the closing of the Merger (the closing took place in November 2003) in exchange for 341,297 additional OP Units. Mark E. Pasquerilla, who was elected a trustee of the Company following the Merger, and his affiliates had an interest in Crown s former operating partnership. The Company exercised this right in December 2006. The value of the exchanged OP Units was $13.4 million.

Before the Company exercised its rights under the put-call arrangement, the remaining partners of Crown s former operating partnership were entitled to distributions from the two partnerships that own or ground lease the 12 shopping malls. The amount of the distributions was based on the capital distributions made by the Company s operating partnership and amounted to $0.8 million, $0.8 million and $0.7 million in the years ended December 31, 2006, 2005, and 2004, respectively.

In 2006, the Company acquired three former Strawbridge s department stores at Cherry Hill Mall, Willow Grove Park and The Gallery at Market East from Federated Department Stores, Inc. following its merger with The May Department Stores Company for an aggregate purchase price of $58.0 million.

2005 Acquisitions

In December 2005, the Company acquired Woodland Mall in Grand Rapids, Michigan for $177.4 million. The Company funded the purchase price with two 90-day corporate notes totaling $94.4 million having a weighted average interest rate of 6.85% and secured by letters of credit, $80.5 million from its Credit Facility, and the remainder from its available working capital. The corporate notes were subsequently repaid. Of the purchase price amount, $6.1 million was allocated to the value of in-place leases, $6.4 million was allocated to above-market leases and $6.5 million was allocated to below-market leases.

In March 2005, the Company acquired Gadsden Mall in Gadsden, Alabama for $58.8 million. The Company funded the purchase price from its Credit Facility. Of the purchase price amount, $7.8 million was allocated to the value of in-place leases, $0.1 million was allocated to above-market leases and $0.3 million was allocated to below-market leases. The acquisition included the nearby P&S Office Building, an office building that the Company considers to be non-strategic, and which the Company has classified as held for sale for financial reporting purposes.

In February 2005, the Company purchased Cumberland Mall in Vineland, New Jersey and a vacant parcel adjacent to the mall. The total price paid for the mall and the adjacent parcel was $59.5 million, including the assumption of $47.7 million in mortgage debt. The Company paid the $0.9 million purchase price of the adjacent parcel in cash, and paid the remaining portion of the purchase price using 272,859 OP Units, which were valued at $11.0 million, based on the average of the closing price of the Company s common shares on the ten consecutive trading days immediately before the closing date of the transaction. Of the purchase price amount, $8.7 million was allocated to the value of in-place leases, $0.2 million was allocated to above-market leases and $0.3 million was allocated to below-market

leases. The Company also recorded a debt premium of $2.7 million in order to record Cumberland Mall s mortgage at fair value.

2004 Acquisitions

In December 2004, the Company acquired Orlando Fashion Square in Orlando, Florida for approximately $123.5 million, including closing costs. The transaction was primarily financed under the Company s Credit Facility. Of the purchase price amount, $14.7 million was allocated to the value of in-place leases and $0.7 million was allocated to above-market leases.

Table of Contents

In May 2004, the Company acquired The Gallery at Market East II in Philadelphia, Pennsylvania for $32.4 million. The purchase price was primarily funded from the Credit Facility. Of the purchase price amount, $4.5 million was allocated to the value of in-place leases, $1.2 million was allocated to above-market leases and $1.1 million was allocated to below-market leases.

In May 2004, the Company acquired the remaining 27% ownership interest in New Castle Associates, the entity that owns Cherry Hill Mall in Cherry Hill, New Jersey in exchange for 609,316 OP Units valued at $17.8 million. The Company acquired its 73% ownership of New Castle Associates in April 2003. As a result, the Company now owns 100% of New Castle Associates. Prior to the closing of the acquisition of the remaining interest, each of the partners in New Castle Associates other than the Company was entitled to a cumulative preferred distribution from New Castle Associates equal to $1.2 million in the aggregate per annum, subject to certain downward adjustments based upon certain capital distributions by New Castle Associates.

2003 Crown Merger

On November 20, 2003, the Company closed the merger of Crown American Realty Trust (Crown) with and into the Company (the Merger) in accordance with an Agreement and Plan of Merger (the Merger Agreement) dated as of May 13, 2003, by and among the Company, the Operating Partnership, Crown and Crown American Properties, L.P. (CAP), a limited partnership of which Crown was the sole general partner before the Merger. Through the Merger and related transactions, the Company acquired 26 regional shopping malls and the remaining 50% interest in Palmer Park Mall in Easton, Pennsylvania.

2006 Dispositions

In December 2006, the Company sold a parcel at Voorhees Town Center in Voorhees, New Jersey to a residential real estate developer for $5.4 million. The parcel was subdivided from the retail property. The Company recorded a gain of $4.7 million from the sale of this parcel.

In transactions that closed between June 2006 and December 2006, the Company sold a total of four parcels at the Plaza at Magnolia in Florence, South Carolina for an aggregate sale price of $7.9 million, and recorded an aggregate gain of $0.5 million. Plaza at Magnolia is currently under development.

In September 2006, the Company sold South Blanding Village, a strip center in Jacksonville, Florida for $7.5 million. The Company recorded a gain of $1.4 million from this sale.

2005 Dispositions

In December 2005, the Company sold Festival at Exton in Exton, Pennsylvania for $20.2 million. The Company recorded a gain of $2.5 million from this sale.

In August 2005, the Company sold its four industrial properties (the Industrial Properties) for $4.3 million. The Company recorded a gain of $3.7 million from this transaction.

In May 2005, pursuant to an option granted to the tenant in a 1994 ground lease agreement, the Company sold a parcel in Northeast Tower Center in Philadelphia, Pennsylvania containing a Home Depot store to Home Depot U.S.A, Inc. for $12.5 million. The Company recorded a gain of $0.6 million on the sale of this parcel.

In January 2005, the Company sold a parcel associated with Wiregrass Commons Mall in Dothan, Alabama for $0.1 million. The Company recorded a gain of $0.1 million on the sale of this parcel.

2004 Dispositions

In September 2004, the Company sold five properties for $110.7 million. The properties were acquired in November 2003 in connection with the Merger, and were among six properties that were considered to be non-strategic (the Non-Core Properties). The Non-Core Properties were classified as held for sale as of the date of the Merger. The net proceeds from the sale were $108.5 million after closing costs and adjustments. The Company used the proceeds from this sale primarily to repay amounts outstanding under the Credit Facility. The Company did not record a gain or loss on this sale for financial reporting purposes.

Discontinued Operations

The Company has presented as discontinued operations the operating results of (i) South Blanding Village, (ii) Festival at Exton, (iii) the Industrial Properties (iv) the Non-Core Properties and (v) the P&S Office Building.

The following table summarizes revenue and expense information for the Company s discontinued operations:

(in thousands of dollars)	For the Year Ended December 31, 2006	2005	2004
Real estate revenues	$ 1,072	$ 3,981	$ 21,246
Expenses:			
Property operating expenses	(324)	(917)	(11,264)
Depreciation and amortization	(144)	(639)	(709)
Interest expense			(1,622)
Total expenses	(468)	(1,556)	(13,595)
Operating results from discontinued operations	604	2,425	7,651
Gains (adjustment to gains) on sales of discontinued operations	1,414	6,158	(550)
Minority interest in discontinued operations	(202)	(956)	(762)
Income from discontinued operations	$ 1,816	$ 7,627	$ 6,339

Schuylkill Mall

During the first quarter of 2006, the Company reclassified Schuylkill Mall in Frackville, Pennsylvania for accounting purposes from held for sale to continuing operations. The Company reached this decision because the previously disclosed January 2006 agreement to sell the property was terminated, and the property no longer meets the conditions for held for sale classification under SFAS No. 144. For balance sheet purposes, as of March 31, 2006, the assets and liabilities of Schuylkill Mall were reclassified from assets held for sale and liabilities related to assets held for sale into the appropriate balance sheet captions. Because Schuylkill Mall was considered held for sale as of December 31, 2005, no reclassifications related to Schuylkill Mall were made as of that date. For income statement purposes, the results of operations for Schuylkill Mall are presented in continuing operations for all periods presented. In the first quarter of 2006, the Company recorded depreciation and amortization expense of $2.8 million to reflect the depreciation and amortization during all of the period that Schuylkill Mall was classified as held for sale. In January 2007, the Company entered into an agreement for the sale of Schuylkill Mall in Frackville, Pennsylvania.

Development Activities

As of December 31, 2006 and 2005, the Company had capitalized $229.3 million and $86.1 million, respectively, related to construction and development activities. Of the balance at December 31, 2006, $2.8 million is included in deferred costs and other assets in the accompanying consolidated balance sheets, $216.9 million is included in construction in progress and $4.0 million is included in investments in partnerships, at equity. Also, $5.6 million of land is held for development. The Company had $2.0 million of deposits on land purchase contracts at December 31, 2006, of which $1.0 million was refundable.

In February 2006, the Company acquired approximately 540 acres of land in Gainesville, Florida for approximately $21.5 million, including closing costs. The acquired parcels are collectively known as Springhills. The Company continues to be involved in the process of obtaining the requisite entitlements for Springhills, with a goal of developing a mixed use project.

In transactions that closed between June 2005 and January 2006, the Company acquired land in New Garden Township, Pennsylvania for approximately $30.1 million in cash, including closing costs. The Company is still in the process of obtaining various entitlements for its concept for this property, which includes retail and mixed use components.

In transactions that closed between May and August 2005, the Company acquired land in Lacey Township, New Jersey for approximately $11.6 million in cash. In December 2005, Lacey Township authorized the Company to construct a retail center on this land, including a Home Depot. In July 2006, the Company began preliminary site work construction, and in August 2006, it executed a ground lease with Home Depot U.S.A., Inc. In the fourth quarter of 2006, the Company obtained final state approvals.

In August 2005, the Company acquired land in Christiansburg, Virginia adjacent to New River Valley Mall for $4.1 million, including closing costs.

3. INVESTMENTS IN PARTNERSHIPS

The following table presents summarized financial information of the equity investments in the Company s unconsolidated partnerships as of December 31, 2006 and 2005:

	As of December 31,	
(in thousands of dollars)	**2006**	**2005**
ASSETS:		
Investments in real estate, at cost:		
Retail properties	$ 344,909	$ 314,703
Construction in progress	8,312	2,927
Total investments in real estate	353,221	317,630
Accumulated depreciation	(75,860)	(62,554)
Net investments in real estate	277,361	255,076
Cash and cash equivalents	5,865	4,830
Deferred costs and other assets, net	26,535	37,635
Total assets	309,761	297,541
LIABILITIES AND PARTNERS EQUITY (DEFICIT):		
Mortgage notes payable	382,082	269,000
Other liabilities	18,418	13,942
Total liabilities	400,500	282,942
Net equity (deficit)	(90,739)	14,599
Less: Partners share	44,961	(7,303)
Company s share	(45,778)	7,296
Excess investment [(1)]	14,211	13,701
Advances	6,749	7,186
Net investments and advances	$ (24,818)	$ 28,183
Investment in partnerships at equity	$ 38,621	$ 41,536
Distributions in excess of partnership investments [(2)]	(63,439)	(13,353)
Net investments and advances	$ (24,818)	$ 28,183

(1) Excess investment represents the unamortized difference between the Company s investment and

the Company s share of the equity in the underlying net investment in the partnerships. The excess investment is amortized over the life of the properties, and the amortization is included in Equity in income of partnerships.

(2) Distributions in excess of partnership investments for the year ended December 31, 2006 include the $51.9 million distribution of mortgage loan proceeds from the July 2006 financing of Lehigh Valley Mall (see below).

Mortgage notes payable, which are secured by eight of the partnership properties, are due in installments over various terms extending to the year 2018, with effective interest rates ranging from 5.91% to 8.25% and a weighted-average interest rate of 6.67% at December 31, 2006. The liability under each mortgage note is limited to the partnership that owns the particular property. The Company s proportionate share, based on its respective partnership interest, of principal payments due in the next five years and thereafter is as follows:

	Company s Proportionate Share			
(in thousands of dollars)	**Principal**	**Balloon**		**Property**
For the Year Ended December 31,	**Amortization**	**Payments**	**Total**	**Total**
2007	$ 1,885	$ 117,077	$ 118,962	$ 239,879
2008	1,869	6,129	7,998	16,012
2009	1,581	12,426	14,007	28,031
2010	1,501	1,412	2,913	5,844
2011	1,265	44,451	45,716	91,453
2012 and thereafter	345		345	863
	$ 8,446	$ 181,495	$ 189,941	$ 382,082

The following table summarizes the Company s share of equity in income of partnerships for the years ended December 31, 2006, 2005 and 2004:

	For the Year Ended December 31,		
(in thousands of dollars)	**2006**	**2005**	**2004**
Real estate revenues	$ 67,356	$ 58,764	$ 57,986
Expenses:			
Property operating expenses	(19,666)	(17,937)	(17,947)
Interest expense	(22,427)	(16,485)	(16,923)
Depreciation and amortization	(13,537)	(8,756)	(11,001)
Total expenses	(55,630)	(43,178)	(45,871)
Net income	11,726	15,586	12,115
Less: Partners share	(5,863)	(7,835)	(6,131)
Company s share	5,863	7,751	5,984
Amortization of excess investment	(268)	(277)	(378)
Equity in income of partnerships	$ 5,595	$ 7,474	$ 5,606

The Company s equity in income of partnerships for the year ended December 31, 2004 includes $1.1 million relating to a cumulative depreciation adjustment for an operating property that was made by the Company s partner (the property s manager) to reflect depreciation expense appropriately after a previous depreciation expense understatement of $0.3 million in each of the years ended December 31, 2004 and 2003.

Acquisitions

In November 2005, the Company and a partner acquired Springfield Mall in Springfield, Pennsylvania for $103.5 million. To partially finance the acquisition costs, the Company and its acquisition partner, an affiliate of Kravco Simon Investments, L.P. and Simon Property Group, Inc., obtained a $76.5 million mortgage loan. The Company funded the remainder of its share of the purchase price with $5.0 million in borrowings from its Credit Facility.

Dispositions

The results of operations of equity method investments disposed of by the Company and the resultant gains on sales are presented in continuing operations.

In July 2005, a partnership in which the Company has a 50% interest sold the property on which the Christiana Power Center Phase II project would have been built to the Delaware Department of Transportation for $17.0 million. The Company s share of the proceeds was $9.5 million, representing a reimbursement for the $5.0 million of costs and expenses incurred previously in connection with the project and a gain of $4.5 million on the sale of non-operating real estate.

In July 2005, the Company sold its 40% interest in Laurel Mall in Hazleton, Pennsylvania to Laurel Mall, LLC. The total sales price of the mall was $33.5 million, including assumed debt of $22.6 million. The net cash proceeds to the Company were $3.9 million. The Company recorded a gain of $5.0 million from this transaction.

In August 2004, the Company sold its 60% non-controlling ownership interest in Rio Grande Mall, a strip center in Rio Grande, New Jersey to an affiliate of the Company s partner in this property, for net proceeds of $4.1 million. The Company recorded a gain of $1.5 million from this transaction.

Mortgage Activity

In July 2006, the partnership that owns Lehigh Valley Mall in Whitehall, Pennsylvania entered into a $150.0 million mortgage loan that is secured by Lehigh Valley Mall. The Company owns an indirect 50% ownership interest in this entity. The mortgage loan has an initial term of 12 months, during which monthly payments of interest only are

required. There are three one-year extension options, provided that there is no event of default and that the borrower buys an interest rate cap for the term of any applicable extension. The loan bears interest at the one month LIBOR rate, reset monthly, plus a spread of 56 basis points. The initial interest rate and the interest rate as of December 31, 2006 was 5.91% The loan may not be prepaid until August 2007. Thereafter, the loan may be prepaid in full on any monthly payment date. A portion of the proceeds of the loan were used to repay the previous first mortgage on the property, which had a balance of $44.6 million. The Company received a distribution of $51.9 million as its share of the remaining proceeds of this mortgage loan. The Company used this $51.9 million to repay a portion of the outstanding balance under the Credit Facility and for working capital.

Table of Contents

4. MORTGAGE NOTES, CORPORATE NOTES AND CREDIT FACILITY

Mortgage Notes Payable

Mortgage notes payable, which are secured by 31 of the Company s consolidated properties, are due in installments over various terms extending to the year 2017 with contract interest rates ranging from 4.50% to 8.70% and a weighted average interest rate of 6.33% at December 31, 2006. The mortgages had a weighted average effective rate of 6.08% per annum for the year ended December 31, 2006. Principal payments are due as follows:

(in thousands of dollars) For the Year Ended December 31,	Principal Amortization (1)	Balloon Payments (1)	Total
2007	$ 23,380	$ 39,987	$ 63,367
2008	38,906	505,564	544,470
2009	14,658	49,955	64,613
2010	15,636		15,636
2011	16,560		16,560
2012 and thereafter	44,444	823,818	868,262
	$ 153,584	$ 1,419,324	1,572,908
Debt Premium			26,663
			$ 1,599,571

(1) The mortgage on Schuylkill Mall limits the monthly payments to interest plus the excess cash flow from the property after management fees, leasing commissions, and lender-approved capital expenditures. Monthly excess cash flow will accumulate throughout the year in escrow, and an annual principal payment will be made on the last day of each year

from this account. As such, the timing of future principal payment amounts cannot be determined. The mortgage expires in December 2008, and had a balance of $16.5 million at December 31, 2006. In October 2006, the mortgage note secured by Schuylkill Mall was modified to reduce the interest rate from 7.25% to 4.50% per annum.

The Company determined that the fair value of the mortgage notes payable was approximately $1,581.6 million at December 31, 2006, based on year-end interest rates and market conditions.

Financing Activity

In March 2006, the Company entered into a $156.5 million first mortgage loan that is secured by Woodland Mall in Grand Rapids, Michigan. The loan has an interest at a rate of 5.58% and has a 10 year term. The loan terms provide for interest-only payments for three years and then repayment of principal based on a 30-year amortization schedule. The Company used a portion of the loan proceeds to repay two 90-day corporate notes, and the remaining proceeds to repay a portion of the amount outstanding under the Credit Facility and for general corporate purposes.

In February 2006, the Company entered into a $90.0 million mortgage loan on Valley Mall in Hagerstown, Maryland. The mortgage note has an interest rate of 5.49% and a maturity date of February 2016. The Company used the proceeds from this financing to repay a portion of the outstanding balance under its Credit Facility and for general corporate purposes.

In December 2005, in order to finance the acquisition of Woodland Mall, the Company issued a 90-day $85.4 million seller note with an interest rate of 7.0% per annum, and which was secured by an approximately $86.9 million letter of credit, and a 90-day $9.0 million seller note with an interest rate of 5.4% per annum and which was secured by an approximately $9.1 million letter of credit. The notes are recorded on the consolidated balance sheet as corporate notes payable, as of December 31, 2005.

In December 2005, the Company refinanced the mortgage loan on Willow Grove Park in Willow Grove, Pennsylvania with a new $160.0 million first mortgage loan from Prudential Insurance Company of America and Teachers Insurance and Annuity Association of America. The new loan has an interest rate of 5.65% per annum and will mature in December 2015. Under the mortgage terms, the Company has the ability to convert the loan to a senior unsecured loan during the first nine years of the mortgage loan term subject to certain prescribed conditions, including the achievement of a specified credit rating. The Company used $107.5 million from the proceeds to repay the balance on the previous mortgage, which had a maturity date of March 2006 and an interest rate of 8.39%, and accelerated the amortization of the unamortized debt premium balance of $0.5 million.

In September 2005, the Company entered into a $200.0 million first mortgage loan that is secured by Cherry Hill Mall in Cherry Hill, New Jersey. The loan has an interest rate of 5.42% and will mature in October 2012. Under the mortgage terms, the Company has the ability to convert the loan to a senior unsecured corporate obligation during the first six years of the mortgage loan term, subject to certain prescribed conditions, including the achievement of a specified credit rating. The Company used a portion of the proceeds to repay the previous first mortgage on the property, which the Company had assumed in connection with the purchase of Cherry Hill Mall in 2003. The previous mortgage had a balance of approximately $70.2 million at closing.

In July 2005, the Company refinanced the mortgage loan on Magnolia Mall in Florence, South Carolina. The new mortgage loan had an initial balance of $66.0 million, a 10-year term and an interest rate of 5.33% per annum. Of the approximately $67.4 million of proceeds (including refunded deposits of approximately $1.4 million), $19.3 million was used to repay the previous mortgage loan and $0.8 million was used to pay a prepayment penalty on the previous mortgage loan that had a maturity date of January 2007.

In February 2005, the Company repaid a $58.8 million second mortgage loan on Cherry Hill Mall in Cherry Hill, New Jersey using $55.0 million from its Credit Facility and available working capital.

West Manchester Mall in York, Pennsylvania and Martinsburg Mall in Martinsburg, Virginia had served as part of the collateral pool that secures a mortgage with GE Capital Corporation. In connection with the closing of the sale of five of the Non-Core Properties in September 2004, these properties, with a combined mortgage balance of $41.9 million, were released from the collateral pool and replaced with Northeast Tower Center in Philadelphia, Pennsylvania and Jacksonville Mall in Jacksonville, North Carolina, which had a combined mortgage balance of comparable value.

Credit Facility

The Company amended its Credit Facility in February 2005, March 2006, and February 2007. Under the amended terms, the $500 million Credit Facility can be increased to $650 million under prescribed conditions, and the Credit Facility bears interest at a rate between 0.95% and 1.40% per annum over LIBOR based on the Company s leverage. In determining the Company s leverage under the amended terms, the capitalization rate used under the amended terms to calculate Gross Asset Value is 7.50%. The amended Credit Facility has a term that expires in January 2009, with an additional 14 month extension option, provided that there is no event of default at that time.

As amended, the Credit Facility contains affirmative and negative covenants customarily found in facilities of this type, as well as requirements that the Company maintain, on a consolidated basis (all capitalized terms used in this paragraph have the meanings ascribed to such terms in the Credit Agreement): (1) a minimum Tangible Net Worth of not less than 80% of the Tangible Net Worth of the Company as of December 31, 2003 plus 75% of the Net Proceeds of all Equity Issuances effected at any time after December 31, 2003 by the Company or any of its Subsidiaries minus the carrying value attributable to any Preferred Stock of the Company or any Subsidiary redeemed after December 31, 2003; (2) a maximum ratio of Total Liabilities to Gross Asset Value of 0.65:1; (3) a minimum ratio of EBITDA to Interest Expense of 1.70:1; (4) a minimum ratio of Adjusted EBITDA to Fixed Charges of 1.40:1 for periods ending on or before December 31, 2008, at which time the ratio will be 1.50:1; (5) maximum Investments in unimproved real estate not in excess of 5.0% of Gross Asset Value; (6) maximum Investments in Persons other than Subsidiaries and Unconsolidated Affiliates not in excess of 10.0% of Gross Asset Value; (7) maximum Investments in Indebtedness secured by Mortgages in favor of the Company or any other Subsidiary not in excess of 5.0% of Gross Asset Value; (8) maximum Investments in Subsidiaries that are not Wholly-owned Subsidiaries and Investments in Unconsolidated Affiliates not in excess of 20.0% of Gross Asset Value; (9) maximum Investments subject to the limitations in the preceding clauses (5) through (7) not in excess of 15.0% of Gross Asset Value; (10) a maximum Gross Asset Value attributable to any one Property not in excess of 15.0% of Gross Asset Value; (11) a maximum Total Budgeted Cost Until Stabilization for all properties under development not in excess of 10.0% of Gross Asset Value; (12) an aggregate amount of projected rentable square footage of all development properties subject to binding leases of not less than 50% of the aggregate amount of projected rentable square footage of all such development properties; (13) a maximum Floating Rate Indebtedness in an aggregate outstanding principal amount not in excess of one-third of all Indebtedness of the Company, its Subsidiaries and its Unconsolidated Affiliates; (14) a maximum ratio of Secured Indebtedness of the Company, its Subsidiaries and its Unconsolidated Affiliates to Gross Asset Value of 0.60:1; (15) a maximum ratio of recourse Secured Indebtedness of the Borrower or Guarantors to Gross Asset Value of 0.25:1; and

(16) a minimum ratio of EBITDA to Indebtedness of 0.0975:1 for periods ending on or before December 31, 2008, at which time the ratio will be 0.1025:1. As of December 31, 2006, the Company was in compliance with all of these debt covenants.

As of December 31, 2006 and 2005, $332.0 million and $342.5 million, respectively, were outstanding under the Credit Facility. The Company pledged $24.8 million under the Credit Facility as collateral for six letters of credit, and the unused portion of the Credit Facility that was available to the Company was $143.2 million at December 31, 2006. The weighted average effective interest rate based on amounts borrowed was 6.50%, 4.83% and 4.24% for the years ended December 31, 2006, 2005, and 2004, respectively. The weighted average interest rate on outstanding Credit Facility borrowings at December 31, 2006 was 6.37%.

---

5. DERIVATIVES

As of December 31, 2006, the Company has (i) six forward-starting interest rate swap agreements that have a blended 10-year swap rate of 5.3562% on an aggregate notional amount of $150.0 million settling no later than December 10, 2008, (ii) three forward starting interest rate swap agreements that have a blended 10-year swap rate of 4.6858% on an aggregate notional amount of $120.0 million settling no later than October 31, 2007, and (iii) seven forward starting interest rate swap agreements that have a blended 10-year swap rate of 4.8047% on an aggregate notional amount of $250.0 million settling no later than December 10, 2008.

The Company entered into these swap agreements in order to hedge the expected interest payments associated with a portion of the Company s anticipated future issuances of long-term debt. The Company assessed the effectiveness of these swaps as hedges at inception and on December 31, 2006 and considers these swaps to be highly effective cash flow hedges under SFAS No. 133.

The Company s swaps will be settled in cash for the present value of the difference between the locked swap rate and the then-prevailing rate on or before the cash settlement dates corresponding to the dates of issuance of new long-term debt obligations. If the prevailing market interest rate exceeds the rate in the swap agreement, then the counterparty will make a payment to the Company. If it is lower, the Company will pay the counterparty. The settlement amounts will be amortized over the life of the debt using the effective interest method.

The counterparties to these swap agreements are all major financial institutions and participants in the Credit Facility. The Company is potentially exposed to credit loss in the event of non-performance by these counterparties. However, because of their high credit ratings, the Company does not anticipate that any of the counterparties will fail to meet these obligations as they come due.

The following table summarizes the terms and fair values of the Company s derivative financial instruments at December 31, 2006 and December 31, 2005. The notional amounts at December 31, 2006 and December 31, 2005 provide an indication of the extent of the Company s involvement in these in
