President's Letter

Dear Stockholder,

I am pleased to present this semi-annual report for Neuberger Berman California Intermediate Municipal Fund Inc. ("NBW"), Neuberger Berman Intermediate Municipal Fund Inc. ("NBH") and Neuberger Berman New York Intermediate Municipal Fund Inc. ("NBO" and, together with NBW and NBH, the "Funds") for the six months ended April 30, 2017. The report includes portfolio commentaries, listings of the Funds' investments and their unaudited financial statements for the reporting period.

Each Fund's investment objective is to provide a high level of current income exempt from regular federal income tax and, for each state-specific Fund, a high level of current income exempt from that state's personal income taxes (and, in the case of NBO, New York City personal income tax).

We maintain a conservative investment philosophy and disciplined investment process in an effort to provide you with tax-exempt current income over the long term with less volatility and risk.

On February 15, 2017, NBH announced a decrease in its monthly distribution rate to \$0.0675 per share of common stock from the prior monthly distribution rate of \$0.075 per share, NBW announced a decrease in its monthly distribution rate to \$0.0512 per share of common stock from the prior monthly distribution rate of \$0.062 per share, and NBO announced a decrease in its monthly distribution rate to \$0.0437 per share of common stock from the prior monthly distribution rate of \$0.048 per share. The Funds' decreases in distribution rates were the result of numerous factors, including the general decline in yields available in the municipal market and the related impact on the Funds' levels of earnings, the amount of available undistributed net investment income, and with respect to NBW and NBO, the lack thereof, and the Funds' current and expected costs of leverage.

Thank you for your confidence in the Funds. We will continue to do our best to earn your trust in the years to come.

Sincerely,

Robert Conti

President and CEO

Neuberger Berman Intermediate Municipal Closed-End Funds Portfolio Commentaries

For the six months ended April 30, 2017, on a net asset value (NAV) basis, all three of the Neuberger Berman Intermediate Municipal Closed-End Funds underperformed their benchmark, the Bloomberg Barclays 10-Year Municipal Bond Index. The California Intermediate Municipal Fund, Intermediate Municipal Fund and New York Intermediate Municipal Fund posted -1.60%, -1.57%, and -1.79% total returns, respectively, whereas the benchmark generated a -0.44% return for the same period. (Fund performance on a market basis is provided in the table immediately following this letter.) The use of leverage (typically a performance enhancer in up markets and a detractor during market retreats) detracted from performance given the negative return for the municipal market during the reporting period.

As was the case for taxable bonds, the municipal bond market generated a small negative return during the reporting period. Treasury yields moved sharply higher following the November 2016 presidential election, due to expectations for improving growth and higher inflation. Also impacting the fixed income market was the U.S. Federal Reserve increasing interest rates at its meetings in December 2016 and March 2017. However, Treasury yields declined from their peak in mid-March 2017, as investors tempered their policy optimism following the health care bill setback. After a weak start in November 2016, the municipal bond market posted positive results over the last five months of the period. This turnaround was driven by generally solid fundamentals and improving demand, along with falling yields as the period progressed. All told, the Bloomberg Barclays Municipal Bond Index declined -0.34% for the six months ended April 30, 2017, whereas the overall taxable bond market, as measured by the Bloomberg Barclays U.S. Aggregate Bond Index, fell -0.67%.

Throughout the reporting period, the Funds maintained a barbell approach (investing in shorter and longer maturities). In contrast, the Funds' benchmark is concentrated in the eight- to 12-year portion of the curve. This positioning detracted from results as the five- to seven- year portion of the municipal curve was the best performer over the six-month reporting period. The Funds' leverage-adjusted durations were longer than the benchmark. This detracted from performance as rates moved higher over the period, especially in the aftermath of the presidential election.

The Funds maintained lower quality portfolio holdings relative to the benchmark as they sought to generate additional yield. This was additive for results given the outperformance of lower quality bonds, especially during the second half of the reporting period. From a sector perspective, overweights to revenue bonds added to results as they largely outperformed general obligation bonds. In particular, an overweight and security selection of tobacco securitization bonds significantly contributed to performance. In addition, the Funds' underweight to uninsured bonds issued by Puerto Rico was beneficial over the period.

A number of changes were made to the Funds during the reporting period. In particular, we increased the Funds' allocations to lower quality securities and longer-term debt in order to generate incremental yield.

We continue to monitor the U.S. economic and political landscape as the Trump administration and Congress move ahead with proposals to boost both business activity and jobs. Specific to the municipal bond market, we are keeping a particularly close eye on both tax-reform legislation and infrastructure investment. Both issues have the potential to impact valuations and supply. We believe that several months may pass before specific details are available. Proposed legislation will then need to be debated, passed by both houses of Congress and signed by the President. Based upon the failure of the replacement of the Affordable Care Act, the exact process required for success is not clear at this time. Looking forward, we envision elevated headline risk, which will likely create attractive buying opportunities when markets become volatile.

Sincerely,

James L. Iselin and S. Blake Miller

Closed-end funds, unlike open-end funds, are not continually offered. Generally, there is an initial public offering and, once issued, shares of common stock of closed-end funds are sold in the secondary market on a stock exchange.

The performance data quoted represent past performance and do not indicate future results. Current performance may be lower or higher than the performance data quoted. For more current performance data, please visit [www.nb.com/cef-performance](http://www.nb.com/cef-performance).

**The results shown in the table reflect the reinvestment of income dividends and other distributions, if any.** The results do not reflect the effect of taxes a stockholder would pay on Fund distributions or on the sale of shares of a Fund's common stock.

**The investment return and market price will fluctuate and shares of a Fund's common stock may trade at prices above or below NAV. Shares of a Fund's common stock, when sold, may be worth more or less than their original cost.**

Returns would have been lower if Neuberger Berman Investment Advisers LLC ("Management") had not waived a portion of its investment management fees during certain of the periods shown. Please see the Notes to Financial Highlights for additional information regarding fee waivers.

Description of Index

**Bloomberg Barclays 10-Year Municipal Bond Index:** The index is the 10-year (8-12 years to maturity) component of the Bloomberg Barclays Municipal Bond Index. The Bloomberg Barclays Municipal Bond Index measures the investment grade, U.S. dollar-denominated, long-term, tax-exempt bond market and has four main sectors: state and local general obligation bonds, revenue bonds, insured bonds and prerefunded bonds.

Please note that the index does not take into account any fees and expenses or any tax consequences of investing in the individual securities that it tracks and that individuals cannot invest directly in any index. Data about the performance of this index are prepared or obtained by Management and include reinvestment of all income dividends and other distributions, if any. Each Fund may invest in securities not included in the above described index and generally does not invest in all securities included in the index.

Notes to Financial Statements Intermediate Municipal Closed-End Funds (Unaudited)

## Note A—Summary of Significant Accounting Policies:

**1 General:** Neuberger Berman California Intermediate Municipal Fund Inc. (“California”), Neuberger Berman Intermediate Municipal Fund Inc. (“Intermediate”) and Neuberger Berman New York Intermediate Municipal Fund Inc. (“New York”) (each individually a “Fund”, and collectively, the “Funds”) were organized as Maryland corporations on July 29, 2002. California and New York registered as non-diversified, closed-end management investment companies and Intermediate registered as a diversified, closed-end management investment company under the Investment Company Act of 1940, as amended (the “1940 Act”). Under the 1940 Act, the status of a fund that was registered as non-diversified may, under certain circumstances, change to that of a diversified fund. Each Fund is currently a diversified fund. The Funds’ Boards of Directors (each Fund’s Board of Directors, a “Board”) may classify or re-classify any unissued shares of capital stock into one or more classes of preferred stock without the approval of stockholders.

A zero balance, if any, reflects an actual amount rounding to less than \$1,000.

The assets of each Fund belong only to that Fund, and the liabilities of each Fund are borne solely by that Fund and no other.

Each Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (“FASB”) Accounting Standard Codification Topic 946 “Financial Services—Investment Companies.”

The preparation of financial statements in accordance with U.S. generally accepted accounting principles (“GAAP”) requires Neuberger Berman Investment Advisers LLC (“Management”) to make estimates and assumptions at the date of the financial statements. Actual results could differ from those estimates.

**2 Portfolio valuation:** In accordance with Accounting Standards Codification (“ASC”) 820 “Fair Value Measurement” (“ASC 820”), all investments held by each Fund are carried at the value that Management believes a Fund would receive upon selling an investment in an orderly transaction to an independent buyer in the principal or most advantageous market for the investment under current market conditions. Various inputs, including the volume and level of activity for the asset or liability in the market, are considered in valuing the Funds’ investments, some of which are discussed below. Significant Management judgment may be necessary to value investments in accordance with ASC 820.

ASC 820 established a three-tier hierarchy of inputs to create a classification of value measurements for disclosure purposes. The three-tier hierarchy of inputs is summarized in the three broad Levels listed below.

Level 1 – quoted prices in active markets for identical investments

Level 2 – other observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, amortized cost, etc.)

Level 3 – unobservable inputs (including a Fund’s own assumptions in determining the fair value of investments)  
The inputs or methodology used for valuing an investment are not necessarily an indication of the risk associated with investing in those securities.

The value of the Funds' investments in municipal securities is determined by Management primarily by obtaining valuations from independent pricing services based on readily available bid quotations, or if quotations are not available, by methods which include various considerations such as yields or prices of securities of comparable

quality, coupon, maturity and type; indications as to values from dealers; and general market conditions (generally Level 2 inputs). Other Level 2 and 3 inputs used by independent pricing services to value municipal securities and units include current trades, bid-wanted lists (which inform the market that a holder is interested in selling a position and that offers will be considered), offerings, general information on market movement, direction, trends, appraisals, bid offers and specific data on specialty issues.

Management has developed a process to periodically review information provided by independent pricing services for all types of securities.

If a valuation is not available from an independent pricing service, or if Management has reason to believe that the valuation received does not represent the amount a Fund might reasonably expect to receive on a current sale in an orderly transaction, Management seeks to obtain quotations from brokers or dealers (generally considered Level 2 or Level 3 inputs depending on the number of quotes available). If such quotations are not readily available, the security is valued using methods the Board has approved in the good-faith belief that the resulting valuation will reflect the fair value of the security. Numerous factors may be considered when determining the fair value of a security based on Level 2 or Level 3 inputs, including available analyst, media or other reports, securities within the same industry with recent highly correlated performance, trading in futures or American Depositary Receipts (“ADRs”) and whether the issuer of the security being fair valued has other securities outstanding.

Fair value prices are necessarily estimates, and there is no assurance that such a price will be at or close to the price at which the security is next quoted or next trades.

- 3 Securities transactions and investment income:** Securities transactions are recorded on trade date for financial reporting purposes. Interest income, including accretion of discount (adjusted for original issue discount, where applicable) and amortization of premium, where applicable, is recorded on the accrual basis. Realized gains and losses from securities transactions are recorded on the basis of identified cost and stated separately in the Statements of Operations.
- 4 Income tax information:** Each Fund is treated as a separate entity for U.S. federal income tax purposes. It is the policy of each Fund to continue to qualify for treatment as a regulated investment company (“RIC”) by complying with the requirements of the U.S. Internal Revenue Code applicable to RICs and to distribute substantially all of its net investment income and net realized capital gains to its stockholders. To the extent a Fund distributes substantially all of its net investment income and net realized capital gains to stockholders, no federal income or excise tax provision is required.

The Funds have adopted the provisions of ASC 740 “Income Taxes” (“ASC 740”). ASC 740 sets forth a minimum threshold for financial statement recognition of a tax position taken, or expected to be taken, in a tax return. The Funds recognize interest and penalties, if any, related to unrecognized tax positions as an income tax expense in the Statements of Operations. The Funds are subject to examination by U.S. federal and state tax authorities for returns filed for the tax years for which the applicable statutes of limitations have not yet expired. As of April 30, 2017, the Funds did not have any unrecognized tax positions.

At April 30, 2017, selected Fund information on a U.S. federal income tax basis was as follows:

(000’s omitted)	Cost	Gross Unrealized Appreciation	Gross Unrealized Depreciation	Net Unrealized Appreciation/ (Depreciation)
-----------------	------	-------------------------------------	-------------------------------------	---

<b>California</b>	\$132,709	\$9,249	\$618	\$8,631
<b>Intermediate</b>	427,727	38,193	2,814	35,379
<b>New York</b>	115,163	5,544	2,192	3,352

Income distributions and capital gain distributions are determined in accordance with income tax regulations, which may differ from GAAP. These differences, if any, are primarily due to differing treatments of income and gains on various investment securities held by each Fund, timing differences, capital loss carryforwards expiring and differing characterization of distributions made by each Fund.

As determined on October 31, 2016, permanent differences resulting primarily from different book and tax accounting were reclassified at year end. Such differences are attributed to the tax treatment of partnership basis adjustments, prior year partnership adjustments, defaulted bonds, non-deductible Variable Rate Municipal Term Preferred Shares, Series A (“VMTPS”), and expiration of capital loss carryforwards. These reclassifications had no effect on net income, net asset value (“NAV”) or NAV per share of each Fund. For the year ended October 31, 2016, the Funds recorded the following permanent reclassifications:

	<b>Paid-in Capital</b>	<b>Undistributed Net Investment Income (Loss)</b>	<b>Accumulated Net Realized Gains (Losses) on Investments</b>
<b>California</b>	\$ (29,646)	\$ 29,646	\$ —
<b>Intermediate</b>	(289,827)	122,726	167,101
<b>New York</b>	(297,323)	126,261	171,062

The tax character of distributions paid during the years ended October 31, 2016 and October 31, 2015 were as follows:

	<b>Distributions Paid From:</b>					
	<b>Tax-Exempt Income</b>		<b>Ordinary Income</b>		<b>Total</b>	
	<b>2016</b>	<b>2015</b>	<b>2016</b>	<b>2015</b>	<b>2016</b>	<b>2015</b>
<b>California</b>	\$ 5,188,627	\$ 5,183,345	\$ 30,146	\$ 102,578	\$ 5,218,773	\$ 5,285,923
<b>Intermediate</b>	19,536,613	19,033,784	178,448	179,893	19,715,061	19,213,677
<b>New York</b>	3,856,004	4,234,101	54,767	23,910	3,910,771	4,258,011

As of October 31, 2016, the components of distributable earnings (accumulated losses) on a U.S. federal income tax basis were as follows:

	<b>Undistributed Tax-Exempt Income</b>	<b>Undistributed Ordinary Income</b>	<b>Undistributed Long-Term Capital Gain</b>	<b>Unrealized Appreciation/ (Depreciation)</b>	<b>Loss Carryforwards and Deferrals</b>	<b>Other Temporary Differences</b>
<b>California</b>	\$ 345,959	\$ —	\$ —	\$ 11,803,061	\$ (3,966,592)	\$ (439,145)
<b>Intermediate</b>	8,982,722	—	—	45,957,760	(19,109,698)	(1,698,178)
<b>New York</b>	234,405	—	—	5,581,754	(3,357,862)	(321,512)

The temporary differences between book basis and tax basis distributable earnings are primarily due to: timing differences of distribution payments, partnership basis adjustments, capital loss carryforwards and defaulted bond income adjustments.

To the extent each Fund’s net realized capital gains, if any, can be offset by capital loss carryforwards, it is the policy of each Fund not to distribute such gains. The Regulated Investment Company Modernization Act of 2010 made changes to the capital loss carryforward rules allowing for RICs to carry forward capital losses

indefinitely and to retain the character of capital loss carryforwards as short-term or long-term (“Post-Enactment”).  
Rules in

effect previously limited the carryforward period to eight years and all carryforwards were considered short-term in character (“Pre-Enactment”). As determined at October 31, 2016, the following Funds had unused capital loss carryforwards available for federal income tax purposes to offset net realized capital gains, if any, as follows:

	Pre-Enactment		
	Expiring in:		
	2017	2018	2019
California	\$783,685	\$—	\$—
Intermediate	9,552,881	302,263	—
New York	1,053,807	—	7,374

	Post-Enactment (No Expiration Date)	
	Long-Term	Short-Term
	California	\$2,838,508
Intermediate	7,855,133	1,399,421
New York	1,831,000	465,681

Post-Enactment capital loss carryforwards must be fully used before Pre-Enactment capital loss carryforwards; therefore, under certain circumstances, Pre-Enactment capital loss carryforwards available as of the report date may expire unused.

During the year ended October 31, 2016, Intermediate and New York had capital loss carryforwards expire of \$232,566 and \$269,555, respectively.

During the year ended October 31, 2016, New York utilized capital loss carryforwards of \$34,796.

- 5 Distributions to common stockholders:** Each Fund earns income, net of expenses, daily on its investments. It is the policy of each Fund to declare and pay monthly distributions to common stockholders. Distributions from net realized capital gains, if any, are normally distributed in December. Distributions to common stockholders are recorded on the ex-date. Distributions to preferred stockholders are accrued and determined as described in Note A.

On May 15, 2017, each Fund declared a monthly distribution to common stockholders payable June 15, 2017, to stockholders of record on May 31, 2017, with an ex-date of May 26, 2017 as follows:

	Distribution per share
California	\$0.0512
Intermediate	0.0675
New York	0.0437

On June 15, 2017, each Fund declared a monthly distribution to common stockholders payable July 17, 2017, to stockholders of record on June 30, 2017, with an ex-date of June 28, 2017 as follows:

	Distribution per share
California	\$0.0512
Intermediate	0.0675
New York	0.0437

- 6 Expense allocation:** Certain expenses are applicable to multiple funds within the complex of related investment companies. Expenses directly attributable to a Fund are charged to that Fund. Expenses borne by the complex of related investment companies, which includes open-end and closed-end investment companies for which Management serves as investment manager, that are not directly attributable to a particular investment company (e.g., a Fund) are allocated among the Funds and the other investment companies or series thereof in the complex on the basis of relative net assets, except where a more appropriate allocation of expenses to each of the investment companies or series thereof in the complex can otherwise be made fairly.

**7 Financial leverage:** On June 24, 2014, the Funds re-classified unissued shares of capital stock into VMTPS as follows:

	<b>Shares</b>
<b>California</b>	590
<b>Intermediate</b>	1,794
<b>New York</b>	483

On June 30, 2014, July 1, 2014 and July 2, 2014, the Funds issued VMTPS as follows:

	<b>Shares</b>
<b>California</b>	590
<b>Intermediate</b>	1,794
