2 SEMI-ANNUAL REPORT FEBRUARY 28, 2011

---

## Dear Shareholder

Over the past 12 months, we have seen a sluggish, stimulus-driven economic recovery at long last gain real traction, accelerate, and transition into a consumption-driven expansion. For the most part, 2010 was plagued with widely fluctuating economic data, but as the year drew to a close, it became clear that cyclical stimulus had beaten out structural problems as economic data releases generally became more positive and financial markets showed signs of continuing improvement. Although the sovereign debt crises and emerging market inflation that troubled the global economy in 2010 remain a challenge, overall investor sentiment considerably improved. Near the end of the period, geopolitical tensions across the Middle East North Africa ("MENA") region along with rising oil prices introduced new cause for concern about the future of the global economy. As of this writing, economic news remains fairly positive although we face additional uncertainties related to the aftermath of the devastating earthquake in Japan, with particular focus on the damage to nuclear power plants.

In the United States, strength from the corporate sector and increasing consumer spending have been key drivers of economic growth, while the housing and labor markets have been the heaviest burdens. While housing has yet to show any meaningful sign of improvement, labor statistics have delivered a mixed bag month after month, but became increasingly encouraging toward the end of the period when the unemployment rate fell to its lowest level since April 2009.

Global equity markets experienced uneven growth and high volatility over the course of 2010, but ended the year strong. Following a strong start to 2011, stocks lost their momentum on the back of geopolitical events in the MENA region and a sharp rise in oil prices. Overall, equities posted strong returns for the 12-month period. US stocks outpaced most international markets and small cap stocks outperformed large caps as investors moved into higher-risk assets.

Fixed income markets saw yields trend lower over most of 2010, until the fourth quarter brought an abrupt reversal in sentiment and risk tolerance that drove yields sharply upward (pushing bond prices down) through year end. Improving economic data continued to pressure fixed income yields in 2011; however, escalating geopolitical risks have acted as a counterweight, restoring relative stability to yield movements. Nevertheless, the yield curve remained steep and higher-risk sectors outperformed the fixed income market.

The tax-exempt municipal market enjoyed a powerful rally during the period of low interest rates in 2010; however, when the yield trend reversed, the market was dealt an additional blow as it became evident that the Build America Bond program would expire at year end. In addition, negative headlines regarding fiscal challenges faced by state and local governments damaged investor confidence and further heightened volatility in the municipal market. Tax-exempt mutual funds experienced heavy outflows, resulting in wider quality spreads and further downward pressure on municipal bond prices. These headwinds began to abate as the period came to a close and municipals finally posted gains in February, following a five-month run of negative performance.

## Edgar Filing: BLACKROCK VIRGINIA MUNICIPAL BOND TRUST - Form N-CSRS

Cash investments, as represented by the 3-month Treasury bill, returned only a fraction over 0% for the 12-month period as short-term interest rates remained low. Yields on money market securities remain near all-time lows.

| <b>Total returns as of February 28, 2011</b>  | <b>6-month</b> | <b>12-month</b> |

## Municipal Market Overview

**As of February 28, 2011**

The municipal market began the six-month period with yields at historic lows as investor concerns were focused on the possibility of deflation and a double-dip in the US economy. However, as these fears soon abated, yields began drifting higher in October, and ultimately, a “perfect storm” of negative events resulted in the worst quarterly performance that the municipal market has seen since the Fed tightening cycle of 1994. Treasury yields lost their support as concerns about the US deficit raised questions over the willingness of foreign investors to continue to purchase Treasury securities, at least at the previous historically low yields. Municipal valuations also suffered a quick and severe setback as it became evident that the Build America Bond (“BAB”) program would expire at year-end. The program had opened the taxable market to municipal issuers, which had successfully alleviated supply pressure in the traditional tax-exempt marketplace, bringing down yields in that space.

The financial media has been replete with interviews, articles and presentations publicizing the stress experienced in municipal finance, resulting in a loss of confidence among retail investors who buy individual bonds or mutual funds. From the middle of November through year-end, funds specializing in tax-exempt bonds witnessed weekly outflows averaging over \$2.5 billion. Long-term and high-yield funds saw the greatest redemptions, followed by state-specific funds to a lesser but still significant degree. Demand usually is strong at the beginning of a new year against a backdrop of low new-issue supply, but the mutual fund outflows continued into February, putting additional upward pressure on municipal yields. Political uncertainty surrounding the midterm elections and the approach taken by the new Congress on issues such as income tax rates and alternative minimum tax (and the previously mentioned BAB non-extension) exacerbated the situation. All these conditions, combined with the seasonal illiquidity surrounding year-end holidays and dealers closing their fiscal books, sapped willing market participation from the trading community.

As demand for municipal securities from traditional retail investors was declining and trading desk liquidity was being curtailed, there was no comparable reduction in supply. As it became evident that the BAB program would be retired, issuers rushed deals to market both in the taxable municipal space and, to a lesser degree, in the traditional tax-exempt space. This imbalance in the supply/demand technicals provided the classic market action, leading to wider quality spreads and higher bond yields. The municipal curve steepened as the issuance was concentrated in longer (greater than 20-year) maturities. Curve steepening that began in October accelerated in November, spurred on by Treasury weakness, heavy supply and record outflows. As measured by Thomson Municipal Market Data, yields on AAA-rated municipals rose nearly 103 basis points (“bps”) for maturities 25 years and longer from August 31, 2010, to February 28, 2011. The spread between two-year and 30-year maturities widened from 332 bps to 398 bps over the period.

The fundamental picture for municipalities will be subject to scrutiny for months to come, as the challenges to state and local budgets are real and need to be addressed with significant cuts to expenses and tax revenue increases. The debates around austerity measures needed to

## Edgar Filing: BLACKROCK VIRGINIA MUNICIPAL BOND TRUST - Form N-CSRS

succeed in balancing these budgets are not over whether action needs to be taken, but over degree, approach and political will to accomplish these needs. The attention shone upon municipal finance has the potential to improve this market for the future if these efforts result in greater means toward disclosure and accuracy (and timeliness) of reporting. Early tests to judge progress will come soon as California, Illinois and Puerto Rico need to take austerity measures and access financing in the municipal market to address relatively immediate fiscal imbalances. BlackRock favors a more constructive outlook for the municipal market as the typical, and this year particularly atypical, weakness passes.

4 SEMI-ANNUAL REPORT FEBRUARY 28, 2011

---

## Trust Summary as of February 28, 2011 **BlackRock Maryland Municipal Bond Trust**

### Trust Overview

BlackRock Maryland Municipal Bond Trust's (BZM) (the "Trust") investment objective is to provide current income exempt from regular federal income taxes and Maryland personal income taxes. The Trust seeks to achieve its investment objectives by investing primarily in municipal bonds exempt from federal income taxes (except that the interest may be subject to the federal alternative minimum tax) and Maryland personal income taxes. The Trust invests, under normal market conditions, at least 80% of its assets in municipal bonds that are investment grade quality at the time of investment. The Trust may invest directly in such securities or synthetically through the use of derivatives.

No assurance can be given that the Trust's investment objective will be achieved.

### Performance

For the six months ended February 28, 2011, the Trust returned (3.76)% based on market price and (4.83)% based on net asset value ("NAV"). For the same period, the closed-end Lipper Other States Municipal Debt Funds category posted an average return of (9.15)% based on market price and (6.07)% based on NAV. All returns reflect reinvestment of dividends. The Trust's premium to NAV, which widened during the period, accounts for the difference between performance based on price and performance based on NAV. The following discussion relates to performance based on NAV. At the beginning of the period, the Trust benefited from tightening credit quality spreads driven by generous investor cash flows into tax-exempt mutual funds. Spreads were pushed even tighter by heightened demand from taxable investors for corporate-backed municipal debt due to its attractive valuation relative to the corporate sector. In this environment of strong demand, we were able to sell lower-quality securities that had outperformed and had previously been very limited in their liquidity. Toward the end of the period, the Trust's position in cash and cash equivalents proved beneficial when the municipal market saw net cash flows into mutual funds turn dramatically negative. However, as municipal rates rose on credit concerns and the Build America Bonds program neared its expiration, while long-term investment rates (i.e., rates on US Treasuries and other fixed income securities) were generally increasing, the Trust's longer duration stance had an overall negative impact on performance.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

of investment grade quality. As of February 28, 2011, the market value of these securities was \$1,219,323, representing 3% of the Trust's long-term investments.

SEMI-ANNUAL REPORT FEBRUARY 28, 2011 5

---

## Trust Summary as of February 28, 2011 **BlackRock MuniHoldings New York Quality Fund, Inc.**

### Trust Overview

Effective November 9, 2010 BlackRock MuniHoldings New York Insured Fund, Inc. changed its name to BlackRock MuniHoldings New York Quality Fund, Inc.

BlackRock MuniHoldings New York Quality Fund, Inc.'s (MHN) (the "Trust") investment objective is to provide shareholders with current income exempt from federal income tax and New York State and New York City personal income taxes. The Trust seeks to achieve its investment objective by investing, under normal market conditions, at least 80% of its assets in investment grade New York municipal obligations exempt from federal income taxes (except that the interest may be subject to the federal alternative minimum tax) and New York State and New York City personal income taxes ("New York Municipal Bonds"), except at times when, in the judgment of its investment adviser, New York Municipal Bonds of sufficient quality and quantity are unavailable for investment by the Trust. At all times, however, except during temporary defensive periods, the Trust invests at least 65% of its assets in New York Municipal Bonds. The Trust invests, under normal market conditions, at least 80% of its assets in municipal obligations with remaining maturities of one year or more. The Trust may invest directly in such securities or synthetically through the use of derivatives.

No assurance can be given that the Trust's investment objective will be achieved.

### Performance

Effective November 9, 2010, the Trust's investment policy was changed by the removal of the insurance investment policy that required at least 80% of its assets to be invested in insured municipal securities. Accordingly, the Trust was moved from the Lipper Single-State Insured Municipal Debt Funds category into the Lipper New York Municipal Debt Funds category. For the six months ended February 28, 2011, the Trust returned (10.55)% based on market price and (8.98)% based on NAV. For the same period, the closed-end Lipper New York Municipal Debt Funds category posted an average return of (9.60)% based on market price and (6.76)% based on NAV, while the closed-end Lipper Single-State Insured Municipal Debt Funds category posted an average return of (10.54)% based on market price and (6.87)% based on NAV. All returns reflect reinvestment of dividends. The Trust moved from a premium to NAV to a discount by period-end, which accounts for the difference between performance based on price and performance based on NAV. The following discussion relates to performance based on NAV. The Trust's exposure to the long end of the yield curve and holdings of low-coupon, long-duration bonds during a period of rising rates had a negative impact on performance. The Trust's holdings of Puerto Rico credits also detracted from performance, as did holdings of lower-quality credits, where spreads widened amid the backdrop of poor relative performance across the municipal market. Conversely, the Trust benefited from its holdings of tax-backed credits (state, county, city and school district) as well as its limited exposure to

## Edgar Filing: BLACKROCK VIRGINIA MUNICIPAL BOND TRUST - Form N-CSRS

corporate-backed credits, which experienced some buy-side demand from non-traditional cross-over buyers.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

6 SEMI-ANNUAL REPORT FEBRUARY 28, 2011

---

## Trust Summary as of February 28, 2011 **BlackRock New Jersey Municipal Bond Trust**

### Trust Overview

BlackRock New Jersey Municipal Bond Trust's (BLJ) (the "Trust") investment objective is to provide current income exempt from regular federal

income tax and New Jersey gross income tax. The Trust seeks to achieve its investment objective by investing primarily in municipal bonds exempt

from federal income taxes (except that the interest may be subject to the federal alternative minimum tax) and New Jersey gross income taxes.

Under normal market conditions, the Trust invests at least 80% of its assets in municipal bonds that are investment grade quality at the time

of investment. The Trust may invest directly in such securities or synthetically through the use of derivatives.

No assurance can be given that the Trust's investment objective will be achieved.

### Performance

For the six months ended February 28, 2011, the Trust returned (13.80)% based on market price and (7.59)% based on NAV. For the same

period, the closed-end Lipper New Jersey Municipal Debt Funds category posted an average return of (12.05)% based on market price and

(7.61)% based on NAV. All returns reflect reinvestment of dividends. The Trust moved from a premium to NAV to a discount by period end,

which accounts for the difference between performance based on price and performance based on NAV. The following discussion relates to

performance based on NAV. The Trust's exposure to housing and corporate-backed bonds aided performance as both sectors outperformed

the broad municipal market. The Trust's holdings of high-quality essential service bonds with premium coupons (6% or higher) also benefited performance, as they held their value better than lower-coupon bonds in the rising interest rate environment. Conversely, exposure to longer-duration and longer-maturity bonds detracted from performance as the long end of the yield curve steepened during the period. Additionally, holdings in health care and transportation hindered performance as both sectors underperformed the broad municipal market.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

<sup>6</sup> The investment advisor has deemed certain of these non-rated securities to be of investment grade quality. As of February 28, 2011 and August 31, 2010, the market value of these securities was \$1,469,185 representing 3% and \$1,013,550 representing 2% respectively, of the Trust's long-term investments.

## Trust Summary as of February 28, 2011 **BlackRock New York Municipal Income Quality Trust**

### Trust Overview

Effective November 9, 2010 BlackRock New York Insured Municipal Income Trust changed its name to BlackRock New York Municipal Income Quality Trust.

BlackRock New York Municipal Income Quality Trust's (BSE) (the "Trust") investment objective is to provide current income exempt from federal income tax, including the alternative minimum tax, and New York State and New York City personal income taxes. The Trust seeks to achieve its investment objective by investing at least 80% of its assets in municipal obligations exempt from federal income taxes (including the alternative minimum tax) and New York State and New York City personal income taxes. Under normal market conditions, the Trust invests primarily in municipal bonds that are investment grade quality at the time of investment. The Trust may invest directly in such securities or synthetically through the use of derivatives.

No assurance can be given that the Trust's investment objective will be achieved.

### Performance

Effective November 9, 2010, the Trust's investment policy was changed by the removal of the insurance investment policy that required at least 80% of its assets to be invested in insured municipal securities. Accordingly, the Trust was moved from the Lipper Single-State Insured Municipal Debt Funds category into the Lipper New York Municipal Debt Funds category. For the six months ended February 28, 2011, the Trust returned (12.49)% based on market price and (7.51)% based on NAV. For the same period, the closed-end Lipper New York Municipal Debt Funds category posted an average return of (9.60)% based on market price and (6.76)% based on NAV, while the closed-end Lipper Single-State Insured Municipal Debt Funds category posted an average return of (10.54)% based on market price and (6.87)% based on NAV. All returns reflect reinvestment of dividends. The Trust moved from a premium to NAV to a discount by period-end, which accounts for the difference between performance based on price and performance based on NAV. The following discussion relates to performance based on NAV. The Trust's exposure to the long end of the yield curve and holdings of low-coupon, long-duration bonds during a period of rising rates had a negative impact on performance. Also detracting from performance was the Trust's holdings of Puerto Rico credits, as it was the poorest performing state/territory for the period. Conversely, the Trust benefited from its holdings of tax-backed credits (state, county, city and school district), which were among the better performing sectors during the period. Additionally, avoiding tobacco credits proved beneficial as it was the worst performing sector for the period.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

<sup>8</sup> SEMI-ANNUAL REPORT FEBRUARY 28, 2011

---

## Trust Summary as of February 28, 2011 **BlackRock New York Municipal Bond Trust**

### Trust Overview

BlackRock New York Municipal Bond Trust's (BQH) (the "Trust") investment objective is to provide current income exempt from regular federal income taxes and New York State and New York City personal income taxes. The Trust seeks to achieve its investment objective by investing primarily in municipal bonds exempt from federal income taxes (except that the interest may be subject to the federal alternative minimum tax) and New York State and New York City personal income taxes. Under normal market conditions, the Trust invests at least 80% of its assets in municipal bonds that are investment grade quality at the time of investment. The Trust may invest directly in such securities or synthetically through the use of derivatives.

No assurance can be given that the Trust's investment objective will be achieved.

### Performance

For the six months ended February 28, 2011, the Trust returned (8.35)% based on market price and (6.14)% based on NAV. For the same period, the closed-end Lipper New York Municipal Debt Funds category posted an average return of (9.60)% based on market price and (6.76)% based on NAV. All returns reflect reinvestment of dividends. The Trust moved from a premium to NAV to a discount by period-end, which accounts for the difference between performance based on price and performance based on NAV. The following discussion relates to performance based on NAV. The Trust's exposure to the long end of the yield curve and holdings of low-coupon, long-duration bonds during a period of rising rates had a negative impact on performance. The Trust's holdings of Puerto Rico credits also detracted from performance, as did holdings of lower-quality credits, where spreads widened amid the backdrop of poor relative performance across the municipal market. Positively impacting performance was the Trust's high exposure to pre-refunded bonds, which performed well due to their shorter duration as municipal rates rose sharply. In addition, the Trust benefited from its holdings of corporate-backed credits, which experienced some buy-side demand from non-traditional cross-over buyers.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

## Trust Summary as of February 28, 2011 **BlackRock Virginia Municipal Bond Trust**

### Trust Overview

BlackRock Virginia Municipal Bond Trust's (BHV) (the "Trust") investment objective is to provide current income exempt from regular federal income tax and Virginia personal income taxes. The Trust seeks to achieve its investment objectives by investing primarily in municipal bonds exempt from federal income taxes (except that the interest may be subject to the federal alternative minimum tax) and Virginia personal income taxes. The Trust invests, under normal market conditions, at least 80% of its assets in municipal bonds that are investment grade quality at the time of investment. The Trust may invest directly in such securities or synthetically through the use of derivatives.

No assurance can be given that the Trust's investment objective will be achieved.

### Performance

For the six months ended February 28, 2011, the Trust returned (3.79)% based on market price and (6.19)% based on NAV. For the same period, the closed-end Lipper Other States Municipal Debt Funds category posted an average return of (9.15)% based on market price and (6.07)% based on NAV. All returns reflect reinvestment of dividends. The Trust's premium to NAV, which widened during the period, accounts for the difference between performance based on price and performance based on NAV. The following discussion relates to performance based on NAV. At the beginning of the period, the Trust benefited from tightening credit quality spreads driven by generous investor cash flows into tax-exempt mutual funds. Spreads were pushed even tighter by heightened demand from taxable investors for corporate-backed municipal debt due to its attractive valuation relative to the corporate sector. In this environment of strong demand, we were able to sell lower-quality securities that had outperformed and had previously been very limited in their liquidity. However, toward the end of the period, when municipal rates rose on credit concerns and the Build America Bonds program neared its expiration, while long-term investment rates (i.e., rates on US Treasuries and other fixed income securities) were generally increasing, the Trust's longer duration stance had an overall negative impact on performance.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

<sup>6</sup> The investment advisor has deemed certain of these non-rated securities to be of investment grade quality. As of February 28, 2011 and August 31, 2010, the market value of these securities was \$2,490,031 representing 7% and \$2,770,588 representing 7%, respectively, of the Trust's long-term investments.

## Trust Summary as of February 28, 2011 **The Massachusetts Health & Education Tax-Exempt Trust**

### Trust Overview

The Massachusetts Health & Education Tax-Exempt Trust's (MHE) (the "Trust") investment objective is to provide shareholders with as high a level of current income exempt from both regular federal income taxes and Massachusetts personal income taxes as is consistent with the preservation of shareholders' capital. The Trust seeks to achieve its investment objective by investing primarily in tax-exempt obligations (including bonds, notes and capital lease obligations) issued on behalf of Massachusetts not-for-profit health and education institutions ("Massachusetts Health & Education Obligations"). The Trust invests, under normal market conditions, at least 80% of its assets in Massachusetts Health & Education Obligations and at least 80% of its assets in obligations that are rated investment grade at the time of investment. Under normal market conditions, the Trust invests its assets so that at least 80% of the income generated by the Trust is exempt from federal income taxes, including federal alternative minimum tax, and Massachusetts personal income taxes.

The Trust invests primarily in long term municipal obligations with maturities of more than ten years. The Trust may invest directly in such securities or synthetically through the use of derivatives.

No assurance can be given that the Trust's investment objective will be achieved.

### Performance

For the six months ended February 28, 2011, the Trust returned (8.64)% based on market price and (7.22)% based on NAV. For the same period, the closed-end Lipper Other States Municipal Debt Funds category posted an average return of (9.15)% based on market price and (6.07)% based on NAV. All returns reflect reinvestment of dividends. The Trust's premium to NAV, which narrowed during the period, accounts for the difference between performance based on price and performance based on NAV. The following discussion relates to performance based on NAV. Holdings in health care and education hindered performance as both sectors underperformed the broad municipal market. Additionally, exposure to longer-duration and longer-maturity bonds detracted from the Trust's performance as the long end of the yield curve steepened during the period. Conversely, exposure to pre-refunded bonds in the 2- to 3-year maturity range aided performance as that sector was the best performer in the municipal market.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

<sup>6</sup> The investment advisor has deemed certain of these non-rated securities to be of investment grade quality. As of February 28, 2011 and August 31, 2010, the market value of these securities was \$855,000 representing 2% and \$2,061,578 representing 4%, respectively, of the Trust's long-term investments.

## The Benefits and Risks of Leveraging

The Trusts may utilize leverage to seek to enhance the yield and NAV of their common shares ( Common Shares ). However, these objectives cannot be achieved in all interest rate environments.

To leverage, the Trusts issue preferred shares ( Preferred Shares ), which pay dividends at prevailing short-term interest rates, and invest the proceeds in long-term municipal bonds. In general, the concept of leveraging is based on the premise that the financing cost of assets to be obtained from leverage, which will be based on short-term interest rates, will normally be lower than the income earned by each Trust on its longer-term portfolio investments. To the extent that the total assets of each Trust (including the assets obtained from leverage) are invested in higher-yielding portfolio investments, each Trust's holders of Common Shares ( Common Shareholders ) will benefit from the incremental net income.

To illustrate these concepts, assume a Trust's Common Shares capitalization is \$100 million and it issues Preferred Shares for an additional \$50 million, creating a total value of \$150 million available for investment in long-term municipal bonds. If prevailing short-term interest rates are 3% and long-term interest rates are 6%, the yield curve has a strongly positive slope. In this case, the Trust pays dividends on the \$50 million of Preferred Shares based on the lower short-term interest rates. At the same time, the securities purchased by the Trust with assets received from Preferred Shares issuance earn income based on long-term interest rates. In this case, the dividends paid to holders of Preferred Shares ( Preferred Shareholders ) are significantly lower than the income earned on the Trust's long-term investments, and therefore the Common Shareholders are the beneficiaries of the incremental net income.

If short-term interest rates rise, narrowing the differential between short-term and long-term interest rates, the incremental net income pickup on the Common Shares will be reduced or eliminated completely. Furthermore, if prevailing short-term interest rates rise above long-term interest rates of 6%, the yield curve has a negative slope. In this case, the Trust pays interest expense on the higher short-term interest rates whereas the Trust's total portfolio earns income based on lower long-term interest rates.

Furthermore, the value of the Trusts' portfolio investments generally varies inversely with the direction of long-term interest rates, although other factors can influence the value of portfolio investments. In contrast, the redemption value of the Trusts' Preferred Shares and/or debt securities does not fluctuate in relation to interest rates. As a result, changes in interest rates can influence the Trusts' NAV positively or negatively in addition to the impact on Trust performance from leverage from Preferred Shares discussed above.

## Edgar Filing: BLACKROCK VIRGINIA MUNICIPAL BOND TRUST - Form N-CSRS

The Trusts may also leverage their assets through the use of TOBs, as described in Note 1 of the Notes to Financial Statements. TOB investments generally will provide the Trusts with economic benefits in periods of declining short-term interest rates, but expose the Trusts to risks during periods of rising short-term interest rates similar to those associated with Preferred Shares issued by the Trusts, as described above. Additionally, fluctuations in the market value of municipal bonds deposited into the TOB may adversely affect each Trust's NAV per share.

The use of leverage may enhance opportunities for increased income to the Trusts and Common Shareholders, but as described above, it also creates risks as short or long-term interest rates fluctuate. Leverage also will generally cause greater changes in the Trusts' NAVs, market prices and dividend rates than comparable portfolios without leverage. If the income derived from securities purchased with assets received from leverage exceeds the cost of leverage, each Trust's net income will be greater than if leverage had not been used. Conversely, if the income from the securities purchased is not sufficient to cover the cost of leverage, the Trusts' net income will be less than if leverage had not been used, and therefore the amount available for distribution to Common Shareholders will be reduced. Each Trust may be required to sell portfolio securities at inopportune times or at distressed values in order to comply with regulatory requirements applicable to the use of leverage or as required by the terms of leverage instruments, which may cause a Trust to incur losses. The use of leverage may limit each Trust's ability to invest in certain types of securities or use certain types of hedging strategies, such as in the case of certain restrictions imposed by ratings agencies that rate Preferred Shares issued by the Trusts. Each Trust will incur expenses in connection with the use of leverage, all of which are borne by Common Shareholders and may reduce income to the Common Shares.

Under the Investment Company Act of 1940, the Trusts are permitted to issue Preferred Shares in an amount of up to 50% of their total managed assets at the time of issuance. Under normal circumstances, each Trust anticipates that the total economic leverage from Preferred Shares and/or TOBs will not exceed 50% of its total managed assets at the time such leverage is incurred. As of February 28, 2011, the Trusts had economic leverage from Preferred Shares and/or TOBs as a percentage of their total managed assets as follows:

|     | <b>Percent of<br/>Leverage</b> |
|-----|--------------------------------|
| BZM | 38%                            |
| MHN | 43%                            |
| BLJ | 38%                            |
| BSE | 37%                            |
| BQH | 36%                            |
| BFY | 39%                            |

SEMI-ANNUAL REPORT FEBRUARY 28, 2011 13

---

## Derivative Financial Instruments

The Trusts may invest in various derivative instruments, including financial futures contracts, as specified in Note 2 of the Notes to Financial Statements, which may constitute forms of economic leverage. Such instruments are used to obtain exposure to a market without owning or taking physical custody of securities or to hedge market and/or interest rate risks. Such derivative instruments involve risks, including the imperfect correlation between the value of a derivative instrument and the underlying asset, possible default of the counterparty to the transaction or illiquidity of the derivative instrument. The Trusts' ability to use a derivative instrument successfully depends on the investment advisor's ability to predict pertinent market movements accurately, which cannot be assured. The use of derivative instruments may result in losses greater than if they had not been used, may require a Trust to sell or purchase portfolio investments at inopportune times or for distressed values, may limit the amount of appreciation a Trust can realize on an investment, may result in lower dividends paid to shareholders or may cause a Trust to hold an investment that it might otherwise sell. The Trusts' investments in these instruments are discussed in detail in the Notes to Financial Statements.

| <b>Net Assets Applicable to Common Shares — 100.0%</b> | \$ 28,926,761 |

\* The cost and unrealized appreciation (depreciation) of investments as of February 28, 2011, as computed for federal income tax purposes, were as follows:

|                               |               |
|-------------------------------|---------------|
| Aggregate cost                | \$ 45,291,345 |
| Gross unrealized appreciation | \$ 594,318    |
| Gross unrealized depreciation | (1,330,785)   |
| Net unrealized depreciation   | \$ (736,467)  |

(a) US government securities, held in escrow, are used to pay interest on this security as well as to retire the bond in full at the date indicated, typically at a premium to par.

(b) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration to qualified institutional investors.

(c) Security represents a beneficial interest in a trust. The collateral deposited into the trust is federally tax-exempt revenue bonds issued by various state or local governments, or their respective agencies or authorities. The security is subject to remarketing prior to its stated maturity.

(d) Securities represent bonds transferred to a TOB trust in exchange for which the Trust acquired residual interest certificates. These securities serve as collateral in a financing transaction. See Note 1 of the Notes to Financial Statements for details of municipal bonds transferred to TOBs.

(e) Investments in companies considered to be an affiliate of the Trust during the period, for purposes of Section 2(a)(3) of the Investment Company Act of 1940, as amended, were as follows:

| <b>Affiliate</b>  | <b>Shares Held<br/>at August 31,<br/>2010</b> | <b>Net<br/>Activity</b> | <b>Shares Held<br/>at February 28,<br/>2011</b> | <b>Income</b> |
|-------------------|---|-------------------------|---|---------------|
| FFI Institutional |   |                         |   |               |
| Tax-Exempt Fund   | 1,846,050                                     | (552,019)               | 1,294,031                                       | \$ 1,489      |

(f) Represents the current yield as of report date.

•For Trust compliance purposes, the Trust's sector classifications refer to any one or more of the sector sub-classifications used by one or more widely recognized market indexes or ratings group indexes, and/or as defined by Trust management. This definition may not apply for purposes of this report, which may combine such sector sub-classifications for reporting ease.

•Financial futures contracts sold as of February 28, 2011 were as follows:

| <b>Contracts Issue</b> | <b>Exchange</b> | <b>Expiration</b> | <b>Notional<br/>Value</b> | <b>Unrealized<br/>Depreciation</b> |
|------------------------|-----------------|-------------------|---------------------------|------------------------------------|
| 10 10-Year U.S.        | Chicago Board   |                   |                           |                                    |

\* The cost and unrealized appreciation (depreciation) of investments as of February 28, 2011, as computed for federal income tax purposes, were as follows:

|                               |                 |
|-------------------------------|-----------------|
| Aggregate cost                | \$ 676,042,924  |
| Gross unrealized appreciation | \$ 9,876,194    |
| Gross unrealized depreciation | (37,228,991)    |
| Net unrealized depreciation   | \$ (27,352,797) |

(a) Variable rate security. Rate shown is as of report date.

(b) Represents a zero-coupon bond. Rate shown reflects the current yield as of report date.

(c) US government securities, held in escrow, are used to pay interest on this security as well as to retire the bond in full at the date indicated, typically at a premium to par.

(d) Securities represent bonds transferred to a TOB in exchange for which the Trust acquired residual interest certificates. These securities serve as collateral in a financing transaction. See Note 1 of the Notes to Financial Statements for details of municipal bonds transferred to tender option bond trusts.

(e) Variable rate security. Rate shown is as of report date and maturity shown is the date the principal owed can be recovered through demand.

(f) Investments in companies considered to be an affiliate of the Trust during the period, for purposes of Section 2(a)(3) of the Investment Company Act of 1940, as amended, were as follows:

| Affiliate                            | Shares Held<br>at August 31,<br>2010 | Net<br>Activity | Shares Held<br>at February 28,<br>2011 | Income |

•For Trust compliance purposes, the Trust's sector classifications refer to any one or more of the sector sub-classifications used by one or more widely recognized market indexes or ratings group indexes, and/or as defined by Trust management. This definition may not apply for purposes of this report, which may combine such sector sub-classifications for reporting ease.

•Fair Value Measurements — Various inputs are used in determining the fair value of investments and derivatives. These inputs are summarized in three broad levels for financial statement purposes as follows:

•Level 1 — price quotations in active markets/exchanges for identical assets and liabilities

•Level 2 — other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

•Level 3 — unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the Trust's own assumptions used in determining the fair value of investments and derivatives)

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust's policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following tables summarize the inputs used as of February 28, 2011 in determining the fair valuation of the Trust's investments and derivatives:

| Valuation Inputs           | Level 1             | Level 2              | Level 3  | Total                |
|----------------------------|---------------------|----------------------|----------|----------------------|
| <b>Assets:</b>             |                     |                      |          |                      |
| Investments in Securities: |                     |                      |          |                      |
| Long-Term                  |                     |                      |          |                      |
| Investments <sup>1</sup>   | —                   | \$714,411,139        | —        | \$714,411,139        |
| Short-Term                 |                     |                      |          |                      |
| Securities                 | \$ 5,616,588        | 375,000              | —        | 5,991,588            |
| <b>Total</b>               | <b>\$ 5,616,588</b> | <b>\$714,786,139</b> | <b>—</b> | <b>\$720,402,727</b> |

\* The cost and unrealized appreciation (depreciation) of investments as of February 28, 2011, as computed for federal income tax purposes, were as follows:

|                               |                |
|-------------------------------|----------------|
| Aggregate cost                | \$ 51,796,969  |
| Gross unrealized appreciation | \$ 1,149,221   |
| Gross unrealized depreciation | (3,115,872)    |
| Net unrealized depreciation   | \$ (1,966,651) |

(a) Variable rate security. Rate shown is as of report date.

(b) Issuer filed for bankruptcy and/or is in default of interest payments.

(c) Non-income producing security.

(d) US government securities, held in escrow, are used to pay interest on this security as well as to retire the bond in full at the date indicated, typically at a premium to par.

(e) Represents a zero-coupon bond. Rate shown reflects the current yield as of report date.

(f) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration to qualified institutional investors.

(g) Security represents a beneficial interest in a trust. The collateral deposited into the trust is federally tax-exempt revenue bonds issued by various state or local governments, or their respective agencies or authorities. The security is subject to remarketing prior to its stated maturity.

(h) Securities represent bonds transferred to a TOB in exchange for which the Trust acquired residual interest certificates. These securities serve as collateral in a financing transaction. See Note 1 of the Notes to Financial Statements for details of municipal bonds transferred to TOBs.

See Notes to Financial Statements.

22 SEMI-ANNUAL REPORT FEBRUARY 28, 2011

## Schedule of Investments (concluded)

### BlackRock New Jersey Municipal Bond Trust (BLJ)

(i) Investments in companies considered to be an affiliate of the Trust during the period, for purposes of Section 2(a)(3) of the Investment Company Act of 1940, as amended, were as follows:

| Affiliate                                 | Shares Held<br>at August 31,<br>2010 | Net<br>Activity | Shares Held<br>at February 28,<br>2011 | Income |
|---|--------------------------------------|-----------------|--|--------|
| BIF New Jersey<br>Municipal<br>Money Fund | 915,154                              | (361,941)       | 553,213                                | \$ 188 |

(i) Represents the current yield as of report date.

•For Trust compliance purposes, the Trust's sector classifications refer to any one or more of the sector sub-classifications used by one or more widely recognized market indexes or ratings group indexes, and/or as defined by Trust management. This definition may not apply for purposes of this report, which may combine sector sub-classifications for reporting ease.

•Financial futures contracts sold as of February 28, 2011 were as follows:

| Contracts Issue Exchange  | Expiration | Notional Unrealized<br>Value Depreciation |
|---|------------|---|
| 12 10-Year U.S. Treasury Note of Trade<br>Chicago Board<br>of Trade | June 2011  | \$1,422,165 \$ (6,398)                    |

•Fair Value Measurements — Various inputs are used in determining the fair value of investments and derivatives. These inputs are summarized in three broad levels for financial statement purposes as follows:

•Level 1 — price quotations in active markets/exchanges for identical assets and liabilities

•Level 2 — other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

•Level 3 — unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the Trust's own assumptions used in determining the fair value of investments and derivatives)

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust's policy regarding valuation of investments and derivatives and other significant accounting policies, please refer to Note 1 of the Notes to

# Edgar Filing: BLACKROCK VIRGINIA MUNICIPAL BOND TRUST - Form N-CSRS

Financial Statements.

The following tables summarize the inputs used as of February 28, 2011 in determining the fair valuation of the Trust 's investments and derivatives:

| Valuation Inputs           | Level 1           | Level 2             | Level 3  | Total               |
|----------------------------|-------------------|---------------------|----------|---------------------|
| <b>Assets:</b>             |                   |                     |          |                     |
| Investments in Securities: |                   |                     |          |                     |
| Long-Term                  |                   |                     |          |                     |
| Investments <sup>1</sup>   | —                 | \$49,996,888        | —        | \$49,996,888        |
| Short-Term                 |                   |                     |          |                     |
| Securities                 | \$ 553,213        | —                   | —        | 553,213             |
| <b>Total</b>               | <b>\$ 553,213</b> | <b>\$49,996,888</b> | <b>—</b> | <b>\$50,550,101</b> |

<sup>1</sup> See above Schedule of Investments for values in each sector.

## Derivative Financial Instruments<sup>2</sup>

SEMI-ANNUAL REPORT FEBRUARY 28, 2011 25

## Schedule of Investments (concluded)

### BlackRock New York Municipal Income Quality Trust (BSE)

\* The cost and unrealized appreciation (depreciation) of investments as of February 28, 2011, as computed for federal income tax purposes, were as follows:

|                               |                |
|-------------------------------|----------------|
| Aggregate cost                | \$ 129,328,229 |
| Gross unrealized appreciation | \$ 1,467,629   |
| Gross unrealized depreciation | (4,826,234)    |
| Net unrealized depreciation   | \$ (3,358,605) |

(a) Represents a zero-coupon bond. Rate shown reflects the current yield as of report date.

(b) US government securities, held in escrow, are used to pay interest on this security as well as to retire the bond in full at the date indicated, typically at a premium to par.

(c) Securities represent bonds transferred to a tender option bond trust in exchange for which the Trust acquired residual interest certificates. These securities serve as collateral in a financing transaction. See Note 1 of the Notes to Financial Statements for details of municipal bonds transferred to tender option bond trusts.

(d) Variable rate security. Rate shown is as of report date and maturity shown is the date the principal owed can be recovered through demand.

(e) Investments in companies considered to be an affiliate of the Trust during the period, for purposes of Section 2(a)(3) of the Investment Company Act of 1940, as amended, were as follows:

| Affiliate                               | Shares Held<br>at August 31,<br>2010 | Net<br>Activity | Shares Held<br>at February 28,<br>2011 | Income |
|---|--------------------------------------|-----------------|--|--------|
| BIF New York<br>Municipal<br>Money Fund | 1,077,827                            | (749,603)       | 328,224                                | \$ 96  |

(f) Represents the current yield as of report date.

•For Trust compliance purposes, the Trust's sector classifications refer to any one or more of the sector sub-classifications used by one or more widely recognized market indexes or ratings group indexes, and/or as defined by Trust management. This definition may not apply for purposes of this report, which may combine such sector sub-classifications for reporting ease.

•Financial futures contracts sold as of February 28, 2011 were as follows:

| Contracts Issue                  | Exchange                  | Expiration | Notional<br>Value | Unrealized<br>Depreciation |
|----------------------------------|---------------------------|------------|-------------------|----------------------------|
| 37 30 Year U.S.<br>Treasury Bond | Chicago Board<br>of Trade | June 2011  | \$ 4,408,180      | \$ (44,539)                |

## Edgar Filing: BLACKROCK VIRGINIA MUNICIPAL BOND TRUST - Form N-CSRS

•Fair Value Measurements — Various inputs are used in determining the fair value of investments and derivatives. These inputs are summarized in three broad levels for financial statement purposes as follows:

- Level 1 — price quotations in active markets/exchanges for identical assets and liabilities
- Level 2 — other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)
- Level 3 — unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the Trust's own assumptions used in determining the fair value of investments and derivatives)

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust's policy regarding valuation of investments and derivatives and other significant accounting policies, please refer to the Note 1 of the Notes to Financial Statements.

The following tables summarize the inputs used as of February 28, 2011 in determining the fair valuation of the Trust's investments and derivatives:

| Valuation Inputs           | Level 1           | Level 2              | Level 3  | Total                |
|----------------------------|-------------------|----------------------|----------|----------------------|
| <b>Assets:</b>             |                   |                      |          |                      |
| Investments in Securities: |                   |                      |          |                      |
| Long-Term                  |                   |                      |          |                      |
| Investments <sup>1</sup>   | —                 | \$135,999,903        | —        | \$135,999,903        |
| Short-Term                 |                   |                      |          |                      |
| Securities                 | \$ 328,224        | 50,000               | —        | 378,224              |
| <b>Total</b>               | <b>\$ 328,224</b> | <b>\$136,049,903</b> | <b>—</b> | <b>\$136,378,127</b> |

<sup>1</sup> See above Schedule of Investments for values in each sector.

### Derivative Financial Instruments<sup>2</sup>

---

| Valuation Inputs    | Level 1     | Level 2 | Level 3 | Total       |
|---------------------|-------------|---------|---------|-------------|
| <b>Liabilities:</b> |             |         |         |             |
| Interest rate       |             |         |         |             |
| contracts           | \$ (44,539) | —       | —       | \$ (44,539) |

<sup>2</sup> Derivative financial instruments are financial futures contracts, which are shown at the unrealized appreciation/depreciation on the instrument.

See Notes to Financial Statements.

---

## Schedule of Investments (concluded)

### BlackRock New York Municipal Bond Trust (BQH)

(Percentages shown are based on Net Assets)

| Short-Term Securities                                       | Shares  | Value         |
|---|---------|---------------|
| BIF New York Municipal Money Fund, 0.00% (j)(k)             | 238,561 | \$ 238,561    |
| <b>Total Short-Term Securities</b>                          |         |               |
| <b>(Cost — \$238,561) — 0.6%</b>                            |         | 238,561       |
| <b>Total Investments (Cost — \$62,081,586*) — 155.4%</b>    |         | 61,327,027    |
| <b>Other Assets Less Liabilities — 1.4%</b>                 |         | 535,997       |
| <b>Liability for Trust Certificates, Including Interest</b> |         |               |
| <b>Expense and Fees Payable — (0.7)%</b>                    |         | (270,055)     |
| <b>Preferred Shares, at Redemption Value — (56.1)%</b>      |         | (22,126,549)  |
| <b>Net Assets Applicable to Common Shares — 100.0%</b>      |         | \$ 39,466,420 |

\* The cost and unrealized appreciation (depreciation) of investments as of February 28, 2011, as computed for federal income tax purposes, were as follows:

|                               |               |
|-------------------------------|---------------|
| Aggregate cost                | \$ 61,719,368 |
| Gross unrealized appreciation | \$ 1,686,922  |
| Gross unrealized depreciation | (2,349,161)   |
| Net unrealized depreciation   | \$ (662,239)  |

(a) Variable rate security. Rate shown is as of report date.

(b) US government securities, held in escrow, are used to pay interest on this security as well as to retire the bond in full at the date indicated, typically at a premium to par.

(c) Represents a zero-coupon bond. Rate shown reflects the current yield as of report date.

(d) Issuer filed for bankruptcy and/or is in default of interest payments.

(e) Non-income producing security.

(f) Represents a step-up bond that pays an initial coupon rate for the first period and then a higher coupon rate for the following periods. Rate shown reflects the current yield as of report date.

(g) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration to qualified institutional investors.

(h) Security represents a beneficial interest in a trust. The collateral deposited into the trust is federally tax-exempt revenue bonds issued by various state or local governments, or their respective agencies or authorities. The security is subject to remarketing prior to its stated maturity.

(i) Securities represent bonds transferred to a TOB in exchange for which the Trust acquired residual interest certificates. These securities serve as collateral in a financing transaction. See Note 1 of the Notes to Financial Statements for details of municipal bonds transferred to TOBs.

(j) Investments in companies considered to be an affiliate of the Trust during the period, for purposes of Section 2(a)(3) of the Investment Company Act of 1940,

## Edgar Filing: BLACKROCK VIRGINIA MUNICIPAL BOND TRUST - Form N-CSRS

as amended, were as follows:

| <b>Affiliate</b>                        | <b>Shares Held<br/>at August 31,<br/>2010</b> | <b>Net<br/>Activity</b> | <b>Shares Held<br/>at February 28,<br/>2011</b> | <b>Income</b> |
|---|---|-------------------------|---|---------------|
| BIF New York<br>Municipal<br>Money Fund | 563,059                                       | (324,498)               | 238,561   | \$ 37         |

(k) Represents the current yield as of report date.

•For Trust compliance purposes, the Trust's sector classifications refer to any one or more of the sector sub-classifications used by one or more widely recognized market indexes or ratings group indexes, and/or as defined by Trust management. This definition may not apply for purposes of this report, which may combine such sector sub-classifications for reporting ease.

•Financial futures contracts sold as of February 28, 2011 were as follows:

| <b>Contracts Issue</b>           | <b>Exchange</b>           | <b>Expiration</b> | <b>Notional<br/>Value</b> | <b>Unrealized<br/>Depreciation</b> |
|----------------------------------|---------------------------|-------------------|---------------------------|------------------------------------|
| 17 30-Year U.S.<br>Treasury Bond | Chicago Board<br>of Trade | June 2011         | \$2,025,373               | \$ (20,469)                        |

•Fair Value Measurements — Various inputs are used in determining the fair value of investments and derivatives. These inputs are summarized in three broad levels for financial statement purposes as follows:

•Level 1 — price quotations in active markets/exchanges for identical assets and liabilities

•Level 2 — other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

•Level 3 — unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the Trust's own assumptions used in determining the fair value of investments and derivatives)

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust's policy regarding valuation of investments and derivatives and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following tables summarize the inputs used as of February 28, 2011 in determining the fair valuation of the Trust's investments and derivatives:

Edgar Filing: BLACKROCK VIRGINIA MUNICIPAL BOND TRUST - Form N-CSRS

| Valuation Inputs           | Level 1           | Level 2             | Level 3  | Total               |
|----------------------------|-------------------|---------------------|----------|---------------------|
| <b>Assets:</b>             |                   |                     |          |                     |

\* The cost and unrealized appreciation (depreciation) of investments as of February 28, 2011, as computed for federal income tax purposes, were as follows:

|                               |                |
|-------------------------------|----------------|
| Aggregate cost                | \$ 113,670,692 |
| Gross unrealized appreciation | \$ 2,355,659   |
| Gross unrealized depreciation | (3,886,337)    |
| Net unrealized depreciation   | \$ (1,530,678) |

- (a) Variable rate security. Rate shown is as of report date.
- (b) US government securities, held in escrow, are used to pay interest on this security as well as to retire the bond in full at the date indicated, typically at a premium to par.
- (c) Represents a zero-coupon bond. Rate shown reflects the current yield as of report date.
- (d) Issuer filed for bankruptcy and/or is in default of interest payments.
- (e) Non-income producing security.
- (f) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration to qualified institutional investors.
- (g) Security represents a beneficial interest in a trust. The collateral deposited into the trust is federally tax-exempt revenue bonds issued by various state or local governments, or their respective agencies or authorities. The security is subject to remarketing prior to its stated maturity.
- (h) Securities represent bonds transferred to a TOB in exchange for which the Trust acquired residual interest certificates. These securities serve as collateral in a financing transaction. See Note 1 of the Notes to Financial Statements for details of municipal bonds transferred to TOBs.
- (i) Investments in companies considered to be an affiliate of the Trust during the period, for purposes of Section 2(a)(3) of the Investment Company Act of 1940, as amended, were as follows:

| <b>Affiliate</b>                        | <b>Shares Held<br/>at August 31,<br/>2010</b> | <b>Net<br/>Activity</b> | <b>Shares Held<br/>at February 28,<br/>2011</b> | <b>Income</b> |
|---|---|-------------------------|---|---------------|
| BIF New York<br>Municipal<br>Money Fund | 935,140                                       | 425,065                 | 1,360,205                                       | \$ 151        |

(j) Represents the current yield as of report date.

## Schedule of Investments (concluded)

### BlackRock New York Municipal Income Trust II (BFY)

•Fair Value Measurements — Various inputs are used in determining the fair value of investments and derivatives. These inputs are summarized in three broad levels for financial statement purposes as follows:

- Level 1 — price quotations in active markets/exchanges for identical assets and liabilities
- Level 2 — other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)
- Level 3 — unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the Trust's own assumptions used in determining the fair value of investments and derivatives)

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust's policy regarding valuation of investments and derivatives and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following tables summarize the inputs used as of February 28, 2011 in determining the fair valuation of the Trust's investments and derivatives:

| Valuation Inputs           | Level 1             | Level 2              | Level 3  | Total                |
|----------------------------|---------------------|----------------------|----------|----------------------|
| <b>Assets:</b>             |                     |                      |          |                      |
| Investments in Securities: |                     |                      |          |                      |

\* The cost and unrealized appreciation (depreciation) of investments as of February 28, 2011, as computed for federal income tax purposes, were as follows:

## Edgar Filing: BLACKROCK VIRGINIA MUNICIPAL BOND TRUST - Form N-CSRS

|                               |               |
|-------------------------------|---------------|
| Aggregate cost                | \$ 34,080,691 |
| Gross unrealized appreciation | \$ 1,002,886  |
| Gross unrealized depreciation | (823,562)     |
| Net unrealized appreciation   | \$ 179,324    |

(a) Variable rate security. Rate shown is as of report date.

(b) US government securities, held in escrow, are used to pay interest on this security as well as to retire the bond in full at the date indicated, typically at a premium to par.

(c) When-issued security. Unsettled when-issued transactions were as follows:

| Counterparty     | Value     | Unrealized<br>Appreciation |
|------------------|-----------|----------------------------|
| Wells Fargo Bank | \$503,135 | \$15,040                   |

(d) Security is collateralized by Municipal or US Treasury obligations.

(e) Security represents a beneficial interest in a trust. The collateral deposited into the trust is federally tax-exempt revenue bonds issued by various state or local governments, or their respective agencies or authorities. The security is subject to remarketing prior to its stated maturity.

(f) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration to qualified institutional investors.

(g) Securities represent bonds transferred to a TOB in exchange for which the Trust acquired residual interest certificates. These securities serve as collateral in a financing transaction. See Note 1 of the Notes to Financial Statements for details of municipal bonds transferred to TOBs.

(h) Investments in companies considered to be an affiliate of the Trust during the period, for purposes of Section 2(a)(3) of the Investment Company Act of 1940, as amended, were as follows:

| Affiliate                            | Shares Held<br>at August 31,<br>2010 | Net<br>Activity | Shares Held<br>at February 28,<br>2011 | Income |
|--------------------------------------|--------------------------------------|-----------------|--|--------|
| FFI Institutional<br>Tax-Exempt Fund | 164,857                              | 68,333          | 233,190                                | \$ 375 |

(i) Represents the current yield as of report date.

\*Financial futures contracts sold as of February 28, 2011 were as follows:

| Contracts | Issue Exchange   | Expiration | Value      | Notional<br>Depreciation | Unrealized |
|-----------|--|------------|------------|--------------------------|------------|
| 8         | 10 - Year U.S. Chicago Board<br>Treasury Note of Trade | June 2011  | \$ 948,110 | \$ (4,265)               |            |

## Edgar Filing: BLACKROCK VIRGINIA MUNICIPAL BOND TRUST - Form N-CSRS

•Fair Value Measurements — Various inputs are used in determining the fair value of investments and derivatives. These inputs are summarized in three broad levels for financial statement purposes as follows:

- Level 1 — price quotations in active markets/exchanges for identical assets and liabilities
- Level 2 — other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)
- Level 3 — unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the Trust's own assumptions used in determining the fair value of investments and derivatives) The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

For information about the Trust's policy regarding valuation of investments and derivatives and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following tables summarize the inputs used as of February 28, 2011 in determining the fair valuation of the Trust's investments and derivatives:

| Valuation Inputs           | Level 1           | Level 2             | Level 3  | Total               |
|----------------------------|-------------------|---------------------|----------|---------------------|
| <b>Assets:</b>             |                   |                     |          |                     |
| Investments in Securities: |                   |                     |          |                     |
| Long-Term                  |                   |                     |          |                     |

|                               |                |
|-------------------------------|----------------|
| Aggregate cost                | \$ 47,588,798  |
| Gross unrealized appreciation | \$ 579,871     |
| Gross unrealized depreciation | (1,605,783)    |
| Net unrealized depreciation   | \$ (1,025,912) |

(a) US government securities, held in escrow, are used to pay interest on this security as well as to retire the bond in full at the date indicated, typically at a premium to par.

(b) Securities represent bonds transferred to a TOB in exchange for which the Trust acquired residual interest certificates. These securities serve as collateral in a financing transaction. See Note 1 of the Notes to Financial Statements for details of municipal bonds transferred to TOBs.

(c) Investments in companies considered to be an affiliate of the Trust during the period, for purposes of Section 2(a)(3) of the Investment Company Act of 1940, as amended, were as follows:

| <b>Affiliate</b>                             | <b>Shares Held<br/>at August 31,<br/>2010</b> | <b>Net<br/>Activity</b> | <b>Shares Held<br/>at February 28,<br/>2011</b> | <b>Income</b> |
|--|---|-------------------------|---|---------------|
| BIF Massachusetts<br>Municipal<br>Money Fund | 1,455,666                                     | (1,186,322)             | 269,344   | —             |

(d) Represents the current yield as of report date.

•Financial futures contracts sold as of February 28, 2011 were as follows:

| <b>Contracts</b> | <b>Issue Exchange</b>                                | <b>Expiration</b> | <b>Notional Unrealized<br/>Value Depreciation</b> |
|------------------|--|-------------------|---|
| 12               | 10-Year U.S. Chicago Board<br>Treasury Note of Trade | June 2011         | \$1,422,165 \$ (6,398)                            |

•Fair Value Measurements — Various inputs are used in determining the fair value of investments and derivatives. These inputs are summarized in three broad levels for financial statement purposes as follows:

•Level 1 — price quotations in active markets/exchanges for identical assets and liabilities

•Level 2 — other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than

## Edgar Filing: BLACKROCK VIRGINIA MUNICIPAL BOND TRUST - Form N-CSRS

quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

•Level 3 — unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the Trust's own assumptions used in determining the fair value of investments and derivatives)

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust's policy regarding valuation of investments and derivatives and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following tables summarize the inputs used as of February 28, 2011 in determining the fair valuation of the Trust's investments and derivatives:

| Valuation Inputs           | Level 1           | Level 2             | Level 3  | Total               |
|----------------------------|-------------------|---------------------|----------|---------------------|
| <b>Assets:</b>             |                   |                     |          |                     |
| Investments in Securities: |                   |                     |          |                     |
| Long-Term                  |                   |                     |          |                     |
| Investments <sup>1</sup>   | —                 | \$47,633,137        | —        | \$47,633,137        |
| Short-Term                 |                   |                     |          |                     |
| Securities                 | \$ 269,344        | —                   | —        | 269,344             |
| <b>Total</b>               | <b>\$ 269,344</b> | <b>\$47,633,137</b> | <b>—</b> | <b>\$47,902,481</b> |

<sup>1</sup> See above Schedule of Investments for values in each sector.

### Derivative Financial Instruments<sup>2</sup>

---

| Valuation Inputs    | Level 1    | Level 2 | Level 3 | Total      |
|---------------------|------------|---------|---------|------------|
| <b>Liabilities:</b> |            |         |         |            |
| Interest rate       |            |         |         |            |
| contracts           | \$ (6,398) | —       | —       | \$ (6,398) |

<sup>2</sup> Derivative financial instruments are financial futures contracts, which are valued at the unrealized appreciation/depreciation on the instrument.

See Notes to Financial Statements.

## Notes to Financial Statements (Unaudited)

### 1. Organization and Significant Accounting Policies:

BlackRock MuniHoldings New York Quality Fund, Inc. ( MHN ), BlackRock New York Municipal Income Quality Trust ( BSE), BlackRock Maryland Municipal Bond Trust ( BZM ), BlackRock New Jersey Municipal Bond Trust ( BLJ ), BlackRock New York Municipal Bond Trust ( BQH ), BlackRock Virginia Municipal Bond Trust ( BHV ) (collectively the Bond Trusts ), BlackRock New York Municipal Income Trust II ( BFY ) and The Massachusetts Health & Education Tax-Exempt Trust ( MHE ) (all, collectively the Trusts or individually as a Trust ) are registered under the Investment Company Act of 1940, as amended (the 1940 Act ), as non-diversified, closed-end management investment companies. The Trusts are organized as a Delaware statutory trusts except MHN and MHE, which are organized as a Maryland corporation and a Massachusetts business trust, respectively. The Trusts' financial statements are prepared in conformity with accounting principles generally accepted in the United States of America ("US GAAP"), which may require management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates. Each Trust's Board of Directors/Trustees are collectively referred to throughout this report as the Board of Trustees or the Board. The Trusts determine and make available for publication the net asset values of their Common Shares on a daily basis.

The following is a summary of significant accounting policies followed by the Trusts:

Valuation: US GAAP defines fair value as the price the Trusts would receive to sell an asset or pay to transfer a liability in an orderly transaction between market participants at the measurement date. The Trusts fair value their financial instruments at market value using independent dealers or pricing services under policies approved by the Board. Municipal investments (including commitments to purchase such investments on a when-issued basis) are valued on the basis of prices provided by dealers or pricing services. In determining the value of a particular investment, pricing services may use certain information with respect to transactions in such investments, quotations from dealers, pricing matrixes, market transactions in comparable investments and information with respect to various relationships between investments. Financial futures contracts traded on exchanges are valued at their last sale price. Investments in open-end registered investment companies are valued at net asset value each business day. Short-term securities with remaining maturities of 60 days or less may be valued at amortized cost, which approximates fair value.

In the event that application of these methods of valuation results in a

price for an investment which is deemed not to be representative of the market value of such investment or is not available, the investment will be valued in accordance with a policy approved by the Board as reflecting fair value ("Fair Value Assets"). When determining the price for Fair Value Assets, the investment advisor and/or the sub-advisor seeks to determine the price that each Trust might reasonably expect to receive from the current sale of that asset in an arm's-length transaction. Fair value determinations shall be based upon all available factors that the investment advisor and/or sub-advisor deems relevant. The pricing of all Fair Value Assets is subsequently reported to the Board or a committee thereof.

**Zero-Coupon Bonds:** The Trusts may invest in zero-coupon bonds, which are normally issued at a significant discount from face value and do not provide for periodic interest payments. Zero-coupon bonds may experience greater volatility in market value than similar maturity debt obligations which provide for regular interest payments.

**Forward Commitments and When-Issued Delayed Delivery Securities:** The Trusts may purchase securities on a when-issued basis and may purchase or sell securities on a forward commitment basis. Settlement of such transactions normally occurs within a month or more after the purchase or sale commitment is made. The Trusts may purchase securities under such conditions with the intention of actually acquiring them, but may enter into a separate agreement to sell the securities before the settlement date. Since the value of securities purchased may fluctuate prior to settlement, the Trusts may be required to pay more at settlement than the security is worth. In addition, the Trusts are not entitled to any of the interest earned prior to settlement. When purchasing a security on a delayed delivery basis, the Trusts assume the rights and risks of ownership of the security, including the risk of price and yield fluctuations. In the event of default by the counterparty, the Trusts' maximum amount of loss is the unrealized appreciation of unsettled when-issued transactions, which is shown in the Schedules of Investments, if any.

**Municipal Bonds Transferred to TOBs:** The Trusts leverage their assets through the use of TOBs. A TOB is established by a third party sponsor forming a special purpose entity, into which one or more funds, or an agent on behalf of the funds, transfers municipal bonds. Other funds managed by the investment advisor may also contribute municipal bonds to a TOB into which a Trust has contributed bonds. A TOB typically issues two classes of beneficial interests: short-term floating rate certificates, which are sold to third party investors, and residual certificates ( TOB Residuals ), which are generally issued to the participating funds that made the transfer. The TOB Residuals held by a Trust include the right of a Trust (1) to cause the holders of a proportional share of the short-term floating rate certificates to tender their certificates at par, including during instances of a rise in short-term interest rates, and (2) to transfer, within seven days, a corresponding share of the municipal bonds from the TOB to a Trust. The TOB may also be terminated without the consent of a Trust upon the occurrence of certain events as defined in the TOB agreements. Such termination events may include the bankruptcy or default of the municipal bond, a substantial

downgrade in credit quality of the municipal bond, the inability of the TOB to obtain quarterly or annual renewal of the liquidity support agreement, a substantial decline in market value of the municipal bond or the inability to remarket the short-term floating rate certificates to third party investors. During the six months ended February 28, 2011, no TOBs that the Trusts participated in were terminated without the consent of the Trusts.

The cash received by the TOB from the sale of the short-term floating rate certificates, less transaction expenses, is paid to a Trust, which typically invests the cash in additional municipal bonds. Each Trust's transfer of the municipal bonds to a TOB is accounted for as a secured borrowing, therefore the municipal bonds deposited into a TOB are presented in the Trusts' Schedules of Investments and the proceeds from the issuance of the

SEMI-ANNUAL REPORT FEBRUARY 28, 2011 53

---

## Notes to Financial Statements (continued)

short-term floating rate certificates are shown as trust certificates in the Statements of Assets and Liabilities.

Interest income, including amortization and accretion of premiums and discounts, from the underlying municipal bonds is recorded by the Trusts on an accrual basis. Interest expense incurred on the secured borrowing and other expenses related to remarketing, administration and trustee services to a TOB are shown as interest expense and fees in the Statements of Operations. The short-term floating rate certificates have interest rates that generally reset weekly and their holders have the option to tender certificates to the TOB for redemption at par at each reset date. At February 28, 2011, the aggregate value of the underlying municipal bonds transferred to TOBs, the related liability for trust certificates and the range of interest rates on the liability for trust certificates were as follows:

| <b>Underlying</b> | <b>Municipal Bonds<br/>Transferred<br/>to TOBs</b> | <b>Liability<br/>for Trust<br/>Certificates</b> | <b>Range of<br/>Interest<br/>Rates</b> |
|-------------------|--|---|--|
| BZM               | \$ 3,012,600                                       | \$ 1,500,000                                    | 0.40%                                  |
| MHN               | \$134,721,316                                      | \$71,712,600                                    | 0.26% – 0.36%                          |
| BLJ               | \$ 1,212,068                                       | \$ 719,783                                      | 0.32% – 0.33%                          |

| BQH               | \$ 427,299   | \$ 269,898                                      | 0.26%                                  |
| BFY               | \$ 253,214   | \$ 159,940                                      | 0.26%                                  |
| BHV               | \$ 4,006,871                                       | \$ 2,019,616                                    | 0.22% – 0.26%                          |
| MHE               | \$ 2,036,006                                       | \$ 1,339,595                                    | 0.26%                                  |

For the six months ended February 28, 2011, the Trusts' average trust certificates outstanding and the daily weighted average interest rate, including fees, were as follows:

|     | <b>Average Trust<br/>Certificates<br/>Outstanding</b> | <b>Daily Weighted<br/>Average<br/>Interest Rate</b> |
|-----|---|---|
| BZM | \$ 1,500,000  | 0.79%   |
| MHN | \$71,712,600  | 0.79%   |
| BLJ | \$ 719,783  | 0.84%   |
| BSE | \$10,408,503  | 0.79%   |
| BQH | \$ 466,306  | 0.80%   |
| BFY | \$ 159,940  | 0.83%   |

## Edgar Filing: BLACKROCK VIRGINIA MUNICIPAL BOND TRUST - Form N-CSRS

|     |              |       |
|-----|--------------|-------|
| BHV | \$ 3,171,550 | 0.78% |
| MHE | \$ 1,339,595 | 0.64% |

Should short-term interest rates rise, the Trusts' investments in TOBs may adversely affect the Trusts' net investment income and dividends to Common Shareholders. Also, fluctuations in the market values of municipal bonds deposited into the TOB may adversely affect the Trusts' net asset values per share.

**Segregation and Collateralization:** In cases in which the 1940 Act and the interpretive positions of the Securities and Exchange Commission ("SEC") require that the Trusts either deliver collateral or segregate assets in connection with certain investments (e.g financial futures contracts) the Trusts will, consistent with SEC rules and/or certain interpretive letters issued by the SEC, segregate collateral or designate on their books and records cash or other liquid securities having a market value at least equal to the amount that would otherwise be required to be physically segregated. Furthermore, based on requirements and agreements with certain exchanges and third party broker-dealers, each party has requirements to deliver/deposit securities as collateral for certain investments.

**Investment Transactions and Investment Income:** For financial reporting purposes, investment transactions are recorded on the dates the transactions are entered into (the trade dates). Realized gains and losses on investment transactions are determined on the identified cost basis. Dividend income is recorded on the ex-dividend dates. Interest income, including amortization and accretion of premiums and discounts on debt securities, is recognized on the accrual basis.

**Dividends and Distributions:** Dividends from net investment income are declared and paid monthly. Distributions of capital gains are recorded on the ex-dividend dates. The amount and timing of dividends and distributions are determined in accordance with federal income tax regulations, which may differ from US GAAP. Dividends and distributions to Preferred Shareholders are accrued and determined as described in Note 7.

**Income Taxes:** It is each Trust's policy to comply with the requirements of the Internal Revenue Code of 1986, as amended, applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Therefore, no federal income tax provision is required.

Each Trust files US federal and various state and local tax returns. No income tax returns are currently under examination. The statute of limitations on each Trusts' US federal tax returns remains open for each of the four years ended August 31, 2010 (two years ended August 31, 2010, the period ended August 31, 2008 and the year ended December 31, 2007 for MHE). The statutes of limitations on each Trusts' state and local tax returns may remain open for an additional year depending upon the

jurisdiction. Management does not believe there are any uncertain tax positions that require recognition of a tax liability.

**Deferred Compensation and BlackRock Closed-End Share Equivalent Investment Plan:** Under the deferred compensation plan approved by each Trust's Board, non-interested Directors/Trustees ("Independent Trustees") may defer a portion of their annual complex-wide compensation. Deferred amounts earn an approximate return as though equivalent dollar amounts had been invested in common shares of certain other BlackRock Closed-End Funds selected by the Independent Trustees. This has approximately the same economic effect for the Independent Trustees as if the Independent Trustees had invested the deferred amounts directly in certain other BlackRock Closed-End Funds.

The deferred compensation plan is not funded and obligations there-under represent general unsecured claims against the general assets of each Trust. Each Trust may, however, elect to invest in common shares of certain other BlackRock Closed-End Funds selected by the Independent Trustees in order to match its deferred compensation obligations. Investments to cover each Trust's deferred compensation liability, if any, are included in other assets in the Statements of Assets and Liabilities. Dividends and distributions from the BlackRock Closed-End Fund investments under the plan are included in income — affiliated in the Statements of Operations.

**Other:** Expenses directly related to a Trust are charged to that Trust. Other operating expenses shared by several funds are pro rated among those funds on the basis of relative net assets or other appropriate methods. The Trusts have an arrangement with the custodian whereby fees may be

## Notes to Financial Statements (continued)

reduced by credits earned on uninvested cash balances, which if applicable are shown as fees paid indirectly in the Statements of Operations. The custodian imposes fees on overdrawn cash balances, which can be offset by accumulated credits earned or may result in additional custody charges.

### 2. Derivative Financial Instruments:

The Trusts engage in various portfolio investment strategies using derivative contracts both to increase the returns of the Trusts and to economically hedge, or protect, their exposure to certain risks such as interest rate risk. These contracts may be transacted on an exchange.

Losses may arise if the value of the contract decreases due to an unfavorable change in the market rates or values of the underlying instrument or if the counterparty does not perform under the contract. Counterparty risk related to exchange-traded financial futures contracts is deemed to be minimal due to the protection against defaults provided by the exchange on which these contracts trade.

**Financial Futures Contracts:** The Trusts purchase or sell financial futures contracts and options on financial futures contracts to gain exposure to, or economically hedge against, changes in interest rates (interest rate risk). Financial futures contracts are agreements between the Trusts and the counterparty to buy or sell a specific quantity of an underlying instrument at a specified price and at a specified date. Depending on the terms of the particular contract, futures contracts are settled either through physical delivery of the underlying instrument on the settlement date or by payment of a cash settlement amount on settlement date. Pursuant to the contract, the Trusts agree to receive from or pay to the broker an amount of cash equal to the daily fluctuation in value of the contract. Such receipts or payments are known as margin variation and are recorded by the Trusts as unrealized appreciation or depreciation. When the contract is closed, the Trusts record a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed. The use of financial futures contracts involves the risk of an imperfect correlation in the movements in the price of financial futures contracts, interest rates and the underlying assets.

### 3. Investment Advisory Agreement and Other Transactions with Affiliates:

The PNC Financial Services Group, Inc. ("PNC"), Bank of America Corporation ("BAC") and Barclays Bank PLC ("Barclays") are the largest stockholders of BlackRock, Inc. ("BlackRock"). Due to the ownership structure, PNC is an affiliate of the Trusts for 1940 Act purposes, but BAC and Barclays are not.

Each Trust entered into an Investment Advisory Agreement with BlackRock Advisors, LLC (the "Manager"), the Trusts' investment advisor, an indirect, wholly owned subsidiary of BlackRock, to provide investment advisory and administration services. The Manager is responsible for the management of each Trust's portfolio and provides the necessary personnel, facilities, equipment and certain other services necessary to the operations of each

Trust. For such services, each Trust pays the Manager a monthly fee at the following annual rates of each Trust's average weekly net assets except MHN and MHE, which are based upon average daily net assets as follows:

|     |       |
|-----|-------|
| BZM | 0.65% |
| MHN | 0.55% |
| BLJ | 0.65% |
| BSE | 0.55% |

Edgar Filing: BLACKROCK VIRGINIA MUNICIPAL BOND TRUST - Form N-CSRS

|     |       |
|-----|-------|
| BQH | 0.65% |
| BFY | 0.55% |
| BHV | 0.65% |
| MHE | 0.50% |

Average weekly net assets and average daily net assets are the average weekly value or the average daily value of each Trust's total assets minus the sum of its accrued liabilities.

SEMI-ANNUAL REPORT FEBRUARY 28, 2011 55

---

## Notes to Financial Statements (continued)

The Manager, for MHN, voluntarily agreed to waive its investment advisory fee on the proceeds of the Preferred Shares and TOBs that exceed 35% of net assets applicable to Common Shareholders. This amount is included in fees waived by advisor in the Statements of Operations. For the six months ended February 28, 2011 the waiver was \$224,725.

The Manager voluntarily agreed to waive a portion of the investment advisory fees for certain other funds. With respect to BSE, the waiver, as a percentage of its average weekly net assets was as follows: 0.05% through October 2010. With respect to Bond Trusts, the waiver, as a percentage of average weekly net assets, is as follows, 0.10% through April 2011 and 0.05% through April 2012. With respect to BFY, the waiver, as a percentage of its average weekly net assets is 0.05% through July 2012. For the six months ended February 28, 2011 the Manager waived the following amounts, which are included in the fees waived by advisor Statements of Operations.

|     |          |
|-----|----------|
| BZM | \$23,049 |
| BLJ | \$ 1,434 |
| BSE | \$12,295 |
| BQH | \$31,646 |
| BFY | \$25,898 |
| BHV | \$19,125 |

The Manager voluntarily agreed to waive its investment advisory fees by the amount of investment advisory fees each Trust pays to the Manager indirectly through its investment in affiliated money market funds, however the Manager does not waive its investment advisory fees by the amount of investment advisory fees paid through each Trust's investment in other affiliated investment companies, if any. These amounts are shown as, or included in, fees waived by advisor in the Statements of Operations. For the six months ended February 28, 2011, the amounts waived were as follows:

|     |          |
|-----|----------|
| BZM | \$ 918   |
| MHN | \$14,016 |
| BLJ | \$26,042 |
| BSE | \$ 1,326 |
| BQH | \$ 991   |
| BFY | \$ 5,923 |
| BHV | \$ 117   |
| MHE | \$ 451   |

## Edgar Filing: BLACKROCK VIRGINIA MUNICIPAL BOND TRUST - Form N-CSRS

The Manager entered into a separate sub-advisory agreement with BlackRock Investment Management LLC ( BIM ) for MHN and MHE and and BlackRock Financial Management, Inc. ( BFM ) for all other Trusts. BIM and BFM are affiliates of the Manager. The Manager pays BIM and BFM for services they provide, a monthly fee that is a percentage of the investment advisory fees paid by the Trust to the Manager.

For the period September 1, 2010 through December 31, 2010, each Trust reimbursed the Manager for certain accounting services, which are included in accounting services in the Statements of Operations. The reimbursements were as follows:

|     |         |
|-----|---------|
| BZM | \$ 129  |
| MHN | \$2,281 |
| BLJ | \$ 176  |
| BSE | \$ 434  |
| BQH | \$ 207  |
| BFY | \$ 377  |
| BHV | \$ 129  |
| MHE | \$ 167  |

Effective January 1, 2011, the Trusts no longer reimburse the Manager for accounting services.

Certain officers and/or trustees of the Trusts are officers and/or directors of BlackRock or its affiliates. The Trusts reimburse the Manager for compensation paid to the Trusts' Chief Compliance Officer.

#### 4. Investments:

Purchases and sales of investments excluding short-term securities and US government securities for the six months ended February 28, 2011, were as follows:

|     | <b>Purchases</b> | <b>Sales</b> |
|-----|------------------|--------------|
| BZM | \$ 3,127,787     | \$ 2,600,974 |
| MHN | \$76,776,153     | \$70,941,950 |
| BLJ | \$ 4,800,026     | \$ 4,799,535 |
| BSE | \$14,564,883     | \$13,975,246 |
| BQH | \$ 4,999,805     | \$ 5,849,141 |
| BFY | \$14,416,145     | \$14,797,169 |
| BHV | \$ 2,756,484     | \$ 4,267,062 |
| MHE | \$ 4,875,261     | \$ 4,337,947 |

## Edgar Filing: BLACKROCK VIRGINIA MUNICIPAL BOND TRUST - Form N-CSRS

### 5. Capital Loss Carryforward:

As of August 31, 2010, the Trusts had capital loss carryforwards available to offset future realized capital gains through the indicated expiration dates:

| Expires August 31, | MHN                 | BSE                | BFY                | MHE              |
|--------------------|---------------------|--------------------|--------------------|------------------|
| 2013               | \$15,054,033        |                    |                    |                  |
| 2014               | 1,097,743           |                    |                    |                  |
| 2015               | 2,782,666           |                    | \$ 70,160          | \$ 35,869        |
| 2016               | 710,089             |                    | 383,137            | 285,683          |
| 2017               | 4,069,997           | \$1,631,721        | 254,346            | 375,230          |
| 2018               | 3,861,956           | 1,544,362          | 357,549            | 32,672           |
| <b>Total</b>       | <b>\$27,576,484</b> | <b>\$3,176,083</b> | <b>\$1,065,192</b> | <b>\$729,454</b> |

Under the recently enacted Regulated Investment Company Modernization Act of 2010, capital losses incurred by the Trusts after August 31, 2011 will not be subject to expiration. In addition, these losses must be utilized prior to the losses incurred in pre-enactment taxable years.

### 6. Concentration, Market and Credit Risk:

Each Trust invests a substantial amount of their assets in issuers located in a single state or limited number of states. Please see the Schedules of Investments for concentrations in specific states.

Many municipalities insure repayment of their bonds, which may reduce the potential for loss due to credit risk. The market value of these bonds may fluctuate for other reasons, including market perception of the value of such insurance, and there is no guarantee that the insurer will meet its obligation.

In the normal course of business, the Trusts invest in securities and enter into transactions where risks exist due to fluctuations in the market (market risk) or failure of the issuer of a security to meet all its obligations (issuer credit risk). The value of securities held by the Trusts may decline in response to certain events, including those directly involving the issuers whose securities are owned by the Trusts; conditions affecting the general economy; overall market changes; local, regional or global political, social

## Notes to Financial Statements (continued)

or economic instability; and currency and interest rate and price fluctuations. Similar to issuer credit risk, the Trusts may be exposed to counterparty credit risk, or the risk that an entity with which the Trusts have unsettled or open transactions may fail to or be unable to perform on its commitments. The Trusts manage counterparty credit risk by entering into transactions only with counterparties that they believe have the financial resources to honor their obligations and by monitoring the financial stability of those counterparties. Financial assets, which potentially expose the Trusts to market, issuer and counterparty credit risks, consist principally of financial instruments and receivables due from counterparties. The extent of the Trusts' exposure to market, issuer and counterparty credit risks with respect to these financial assets is generally approximated by their value recorded in the Trusts' Statements of Assets and Liabilities, less any collateral held by the Trusts.

As of February 28, 2011, BZM invested a significant portion of its assets in securities in the County/City/Special District/School District and Health sectors. MHN invested a significant portion of its assets in securities in the County/City/Special District/School District and Transportation sectors. BLJ invested a significant portion of its assets in securities in the State and Transportation sectors. BSE invested a significant portion of its assets in securities in the Education and Transportation sectors. BQH invested a significant portion of its assets in securities in the State sector. BFY invested a significant portion of its assets in securities in the County/City/Special District/School District sector. MHE invested a significant portion of its assets in securities in the Health and Education sectors. Changes in economic conditions affecting the County/City/Special District/School District, Education, Health, State and Transportation sectors would have a greater impact on the Trusts and could affect the value, income and/or liquidity of positions in such securities.

### 7. Capital Share Transactions:

The Trusts, except MHN, are authorized to issue an unlimited number of shares (200 million shares for MHN), all of which were initially classified as Common Shares. The par value for the Trusts, except MHN and MHE, is \$0.001 per share (\$0.10 for MHN and \$0.01 for MHE). Each Trust's Board is authorized, however, to reclassify any unissued shares without approval of Common Shareholders.

### Common Shares

For the six months ended February 28, 2011 and the year ended August 31, 2010, shares issued and outstanding increased by the following amounts as a result of dividend reinvestment:

Edgar Filing: BLACKROCK VIRGINIA MUNICIPAL BOND TRUST - Form N-CSRS

|     | <b>Six Months<br/>Ended<br/>February 28,<br/>2011</b> | <b>Year<br/>Ended<br/>August 31,<br/>2010</b> |
|-----|---|---|
| BZM | 4,563   | 7,640   |
| MHN | 88,688  | 15,164  |
| BLJ | 2,281   | 7,707   |
| BSE | 2,348   | 5,123   |
| BQH | 4,265   | 12,821  |
| BFY | 10,198  | 8,339   |
| BHV | 3,363   | 8,764   |
| MHE | 3,013   | 3,349   |

Preferred Shares

The Preferred Shares are redeemable at the option of each Trust, in whole or in part, on any dividend payment date at their liquidation preference per share plus any accumulated and unpaid dividends whether or not declared. The Preferred Shares are also subject to mandatory redemption at their liquidation preference plus any accumulated and unpaid dividends, whether or not declared, if certain requirements relating to the composition of the assets and liabilities of a Trust, as set forth in each Trust's Articles of Amendment/Statement of Preferences/Certificates of Vote of Trustees (the "Governing Instrument") are not satisfied.

From time to time in the future, each Trust may effect repurchases of its Preferred Shares at prices below their liquidation preference as agreed upon by the Trust and seller. Each Trust also may redeem its Preferred Shares from time to time as provided in the applicable Governing Instrument. Each Trust intends to effect such redemptions and/or repurchases to the extent necessary to maintain applicable asset coverage requirements or for such other reasons as the Board may determine.

The holders of Preferred Shares have voting rights equal to the holders of Common Shares (one vote per share) and will vote together with holders of Common Shares (one vote per share) as a single class. However, the holders of Preferred Shares, voting as a separate class, are also entitled to elect two Directors/Trustees for each Trust. In addition, the 1940 Act requires that along with approval by shareholders that might otherwise be required, the approval of the holders of a majority of any outstanding Preferred Shares, voting separately as a class would be required to (a) adopt any plan of reorganization that would adversely affect the Preferred Shares, (b) change a Trust's sub-classification as a closed-end investment company or change its fundamental investment restrictions or (c) change its business so as to cease to be an investment company.

The Trusts had the following series of Preferred Shares outstanding, effec-

Edgar Filing: BLACKROCK VIRGINIA MUNICIPAL BOND TRUST - Form N-CSRS

tive yields and reset frequency as of February 28, 2011:

|     |        | Preferred | Reset                     |
|-----|--------|-----------|---------------------------|
|     | Series | Shares    | Effective Yield Frequency |

| BFY | W-7    | 1,779     | 0.41% 7                   |
| BHV | R-7    | 467       | 0.40% 7                   |
| MHE | A      | 185       | 0.41% 7                   |
|     | B      | 185       | 0.43% 7                   |

Dividends on seven-day Preferred Shares are cumulative at a rate, which is reset every seven days, respectively, based on the results of an auction. If the Preferred Shares fail to clear the auction on an auction date, each Trust is required to pay the maximum applicable rate on the Preferred Shares to holders of such shares for successive dividend periods until such time as

SEMI-ANNUAL REPORT FEBRUARY 28, 2011 57

---

## Notes to Financial Statements (concluded)

the shares are successfully auctioned. The maximum applicable rate on all series of Preferred Shares is the higher of 110% of the AA commercial paper rate or 100% of 90% of the Kenny S&P 30-day High Grade Index divided by 1.00 minus the marginal tax rate. The low, high and average dividend rates on the Preferred Shares for each Trust for the six months ended February 28, 2011 were as follows:

|     | Series | Low   | High  | Average |
|-----|--------|-------|-------|---------|
| BZM | R-7    | 0.37% | 0.50% | 0.42%   |
| MHN | A      | 0.37% | 0.50% | 0.42%   |
|     | B      | 0.37% | 0.50% | 0.42%   |
|     | C      | 0.37% | 0.50% | 0.42%   |
|     | D      | 0.37% | 0.50% | 0.42%   |
|     | E      | 0.37% | 0.50% | 0.42%   |
| BLJ | M-7    | 0.37% | 0.50% | 0.42%   |
| BSE | R-7    | 0.37% | 0.50% | 0.42%   |
| BQH | T-7    | 0.37% | 0.50% | 0.42%   |
| BFY | W-7    | 0.37% | 0.50% | 0.42%   |
| BHV | R-7    | 0.37% | 0.50% | 0.42%   |
| MHE | A      | 0.37% | 0.50% | 0.42%   |
|     | B      | 0.37% | 0.50% | 0.42%   |

Since February 13, 2008, the Preferred Shares of the Trusts failed to clear any of their auctions. As a result, the Preferred Shares dividend rates were reset to the maximum applicable rate, which ranged from 0.37% to 0.50% for the six months ended February 28, 2011. A failed auction is not an event of default for the Trusts but it has a negative impact on the liquidity of Preferred Shares. A failed auction occurs when there are more sellers of a Trust's auction rate preferred shares than buyers. A successful auction for the Trusts' Preferred Shares may not occur for some time, if ever, and even if liquidity does resume, Preferred Shareholders may not have the ability to sell the Preferred Shares at their liquidation preference.

The Trusts may not declare dividends or make other distributions on Common Shares or purchase any such shares if, at the time of the declaration, distribution or purchase, asset coverage with respect to the outstanding Preferred Shares is less than 200%.

The Trusts pay commissions of 0.15% on the aggregate principal amount of all shares that fail to clear their auctions and 0.25% on the aggregate principal amount of all shares that successfully clear their auctions. Certain broker dealers have individually agreed to reduce commissions for failed

Edgar Filing: BLACKROCK VIRGINIA MUNICIPAL BOND TRUST - Form N-CSRS

auctions.

Preferred shares issued and outstanding remained constant for the six months ended February 28, 2011 and the year ended August 31, 2010 for all Trusts.

8. Subsequent Events:

Management's evaluation of the impact of all subsequent events on the Trusts' financial statements was completed through the date the financial statements were issued and the following items were noted:

Each Trust paid a net investment income dividend on April 1, 2011 to Common Shareholders of record on March 15, 2011 as follows:

|     | <b>Common<br/>Dividend<br/>Per Share</b> |
|-----|--|
| BZM | \$0.0790                                 |
| MHN | \$0.0795                                 |
| BLJ | \$0.0780                                 |
| BSE | \$0.0715                                 |
| BQH | \$0.0820                                 |
| BFY | \$0.0835                                 |
| BHV | \$0.0830                                 |
| MHE | \$0.0700                                 |

The dividends declared on Preferred Shares for the period March 1, 2011 to March 31, 2011 were as follows:

|     | <b>Series</b> | <b>Dividends<br/>Declared</b> |
|-----|---------------|-------------------------------|
| BZM | R-7           | \$ 1,215                      |
| MHN | A             | \$12,249                      |
|     | B             | \$12,237                      |
|     | C             | \$19,570                      |

---

## Additional Information

### Proxy Results

The Annual Meeting of Shareholders was held on September 2, 2010 for shareholders of record on July 6, 2010, to elect trustee/director nominees for each Trust/Fund. Due to a lack of quorum of Preferred Shares, action on the proposal regarding the Preferred Shares nominees' election for MHE was subsequently adjourned to October 5, 2010; and action on the proposal regarding Preferred Shares nominees' election for MHE was additionally adjourned to November 2, 2010. There were no broker non-votes with regard to any of the Trusts/Funds.

Approved the Class III Trustees as follows:

|     | <b>Richard E. Cavanagh</b> |                 |                | <b>Kathleen F. Feldstein</b> |                 |                | <b>Henry Gabbay</b> |                 |                |

<sup>1</sup> Due to the lack of a quorum of Preferred Shares, MHE was unable to act on the election of the two directors reserved for election solely by the Preferred Shareholders for the Trust.

Accordingly, Frank J. Fabozzi and W. Carl Kester will remain in office and continue to serve as trustees for the Trust.

## Additional Information (continued)

### Trust Certification

Those Trusts listed for trading on the New York Stock Exchange (“NYSE”) have filed with the NYSE their annual chief executive officer certification regarding compliance with the NYSE’s listing standards. The Trusts filed with the Securities and Exchange Commission (“SEC”) the certification of its chief executive officer and chief financial officer required by section 302 of the Sarbanes-Oxley Act.

### General Information

On July 29, 2010, the Manager announced that a derivative complaint had been filed by shareholders of BSE and BQH on July 27, 2010 in the Supreme Court of the State of New York, New York County. The complaint names the Manager, BlackRock, Inc. and certain of the trustees, officers and portfolio managers of BSE and BQH as defendants. The complaint alleges, among other things, that the parties named in the complaint breached fiduciary duties owed to BSE and BQH and their Common Shareholders by redeeming auction-market preferred shares, auction rate preferred securities, auction preferred shares and auction rate securities (collectively, “AMPS”) at their liquidation preference. The complaint seeks unspecified damages for losses purportedly suffered by BSE and BQH as a result of the prior redemptions and injunctive relief preventing BSE and BQH from redeeming AMPS at their liquidation preference in the future. The Manager, BlackRock, Inc. and the other parties named in the complaint believe that the claims asserted in the complaint are without merit and intend to vigorously defend themselves in the litigation.

The Trusts do not make available copies of their Statements of Additional Information because the Trusts’ shares are not continuously offered, which means that the Statement of Additional Information of each Trust has not been updated after completion of the respective Trust’s offerings and the information contained in each Trust’s Statement of Additional Information may have become outdated.

Other than the revisions discussed in the Board Approvals on page 62, there were no material changes in the Trusts’ investment objectives or policies or to the Trusts’ charters or by-laws that would delay or prevent a change of controls of the Trusts that were not approved by the shareholders or in the principal risk factors associated with investment in the Trusts. There have been no changes in the persons who are primarily responsible for the day-to-day management of the Trusts’ portfolio.

Quarterly performance, semi-annual and annual reports and other information regarding the Trusts may be found on BlackRock’s website, which can be accessed at <http://www.blackrock.com>. This reference to BlackRock’s website is intended to allow investors public access to information regard-

## Edgar Filing: BLACKROCK VIRGINIA MUNICIPAL BOND TRUST - Form N-CSRS

ing the Trusts and does not, and is not intended to, incorporate BlackRock's website into this report.

### Electronic Delivery

Electronic copies of most financial reports are available on the Trusts' websites or shareholders can sign up for e-mail notifications of quarterly statements, annual and semi-annual reports by enrolling in the Trusts' electronic delivery program.

### Shareholders Who Hold Accounts with Investment Advisors, Banks or Brokerages:

Please contact your financial advisor to enroll. Please note that not all investment advisors, banks or brokerages may offer this service.

### Householding

The Trusts will mail only one copy of shareholder documents, including annual and semi-annual reports and proxy statements, to shareholders with multiple accounts at the same address. This practice is commonly called "householding" and is intended to reduce expenses and eliminate duplicate mailings of shareholder documents. Mailings of your shareholder documents may be househanded indefinitely unless you instruct us otherwise. If you do not want the mailing of these documents to be combined with those for other members of your household, please call (800) 441-7762.

### Availability of Quarterly Schedule of Investments

Each Trust files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The Trusts' Forms N-Q are available on the SEC's website at <http://www.sec.gov> and may also be reviewed and copied at the SEC's Public Reference Room in Washington, DC. Information on the operation of the Public Reference Room may be obtained by calling (800) SEC-0330. Each Trust's Forms N-Q may also be obtained upon request and without charge by calling (800) 441-7762.

### Availability of Proxy Voting Policies and Procedures

A description of the policies and procedures that the Trusts use to determine how to vote proxies relating to portfolio securities is available (1) without charge, upon request, by calling (800) 441-7762; (2) at <http://www.blackrock.com>; and (3) on the SEC's website at <http://www.sec.gov>.

### Availability of Proxy Voting Record

Information about how the Trusts voted proxies relating to securities held in the Trusts' portfolios during the most recent 12-month period

## Edgar Filing: BLACKROCK VIRGINIA MUNICIPAL BOND TRUST - Form N-CSRS

ended June 30 is available upon request and without charge (1) at <http://www.blackrock.com> or by calling (800) 441-7762 and (2) on the SEC's website at <http://www.sec.gov>.

### Availability of Trust Updates

BlackRock will update performance and certain other data for the Trusts on a monthly basis on its website in the "Closed-end Funds" section of <http://www.blackrock.com>. Investors and others are advised to periodically check the website for updated performance information and the release of other material information about the Trusts.

SEMI-ANNUAL REPORT FEBRUARY 28, 2011 61

---

## Additional Information (continued)

### Board Approvals

On September 1, 2010, the Board of Directors/Trustees (the "Boards") of MHN and BSE (the "Insured Trusts") approved changes to certain investment policies of the Insured Trusts.

Historically, under normal market conditions, each Insured Trust has been required to invest at least 80% of its assets in municipal bonds either (i) insured under an insurance policy purchased by the Insured Trust or (ii) insured under an insurance policy obtained by the issuer of the municipal bond or any other party. In September 2008, the Insured Trusts adopted an amended investment policy of purchasing only municipal bonds insured by insurance providers with claims-paying abilities rated investment grade at the time of investment (the "Insurance Investment Policy").

Following the onset of the credit and liquidity crises, the claims-paying ability rating of most of the municipal bond insurance providers has been lowered by the rating agencies. These downgrades have called into question the long-term viability of the municipal bond insurance market, which has the potential to severely limit the ability of the Manager, to manage the Insured Trusts under the Insurance Investment Policy.

As a result, on September 1, 2010, the Manager recommended, and the Boards of the Insured Trusts approved, the removal of the Insurance Investment Policy. As a result of this investment policy change, the Insured Trusts will not be required to dispose of assets currently held within the Insured Trusts. The Insured Trusts will maintain, and have no current intention to amend, their investment policy of, under normal market conditions, generally investing in municipal obligations rated investment grade at the time of investment.

As each Insured Trust increases the amount of its assets that are invested in municipal obligations that are not insured, each Insured Trust's shareholders will be exposed to the risk of the failure of such securities' issuers to pay interest and repay principal and will not have the benefit of protection provided under municipal bond insurance policies. As a result, shareholders will be more dependent on the analytical ability of the Manager to evaluate the credit quality of issuers of municipal obligations in which each Insured Trust invests. The Boards believe that the amended investment policy is in the best interests of each Insured Trust and its shareholders because it believes that the potential benefits from increased flexibility outweigh the potential increase in risk from the lack of insurance policies provided by weakened insurance providers. Of course, the new investment policy cannot assure that each Insured Trust will achieve its investment objective.

## Edgar Filing: BLACKROCK VIRGINIA MUNICIPAL BOND TRUST - Form N-CSRS

As disclosed in each Insured Trust's prospectus, each Insured Trust is required to provide shareholders 60 days notice of a change to the Insurance Investment Policy. Accordingly, a notice describing the changes discussed above was mailed to shareholders of record as of September 1, 2010. The new investment policy took effect on November 9, 2010. The Manager has been gradually repositioning each Insured Trust's portfolios over time, and during such period, each Insured Trust may continue to hold a substantial portion of its assets in insured municipal bonds. At this time, the repositioning of each Insured Trust's portfolio is still taking place, and the Insured Trusts will continue to be subject to risks associated with investing a substantial portion of their assets in insured municipal bonds until the repositioning is complete. No action is required by shareholders of the Insured Trusts in connection with this change.

In connection with this change in non-fundamental policy, each of the Insured Trusts underwent a name change to reflect its new portfolio characteristics.

Each Insured Trust continues to trade on the New York Stock Exchange under its current ticker symbol.

The approved changes did not alter any Insured Trust's investment objective.

### Section 19(a) Notices

These reported amounts and sources of distributions are estimates and are not being provided for tax reporting purposes. The actual amounts and sources for tax reporting purposes will depend upon each Trust's investment experience during the year and may be subject to changes based on the tax regulations. Each Trust will provide a Form 1099-DIV each calendar year that will explain the character of these dividends and distributions for federal income tax purposes.

62 SEMI-ANNUAL REPORT FEBRUARY 28, 2011

## Additional Information (concluded)

### **BlackRock Privacy Principles**

BlackRock is committed to maintaining the privacy of its current and former fund investors and individual clients (collectively, Clients ) and to safeguarding their non-public personal information. The following information is provided to help you understand what personal information BlackRock collects, how we protect that information and why in certain cases we share such information with select parties.

If you are located in a jurisdiction where specific laws, rules or regulations require BlackRock to provide you with additional or different privacy-related rights beyond what is set forth below, then BlackRock will comply with those specific laws, rules or regulations.

BlackRock obtains or verifies personal non-public information from and about you from different sources, including the following: (i) information we receive from you or, if applicable, your financial intermediary, on applications, forms or other documents; (ii) information about your transactions with us, our affiliates, or others; (iii) information we receive from a consumer reporting agency; and (iv) from visits to our websites.

BlackRock does not sell or disclose to non-affiliated third parties any non-public personal information about its Clients, except as permitted by law or as is necessary to respond to regulatory requests or to service Client accounts. These non-affiliated third parties are required to protect the confidentiality and security of this information and to use it only for its intended purpose.

We may share information with our affiliates to service your account or to provide you with information about other BlackRock products or services that may be of interest to you. In addition, BlackRock restricts access to non-public personal information about its Clients to those BlackRock employees with a legitimate business need for the information. BlackRock maintains physical, electronic and procedural safeguards that are designed to protect the non-public personal information of its Clients, including procedures relating to the proper storage and disposal of such information.

SEMI-ANNUAL REPORT FEBRUARY 28, 2011 63

---

This report is transmitted to shareholders only. It is not a prospectus. Past performance results shown in this report should not be considered a representation of future performance. The Trusts have leveraged their Common Shares, which creates risks for Common Shareholders, including the likelihood of greater volatility of net asset value and market price of the Common Shares and the risk that fluctuations in the short-term dividend rates of the Preferred Shares, currently set at the maximum reset rate as a result of failed auctions, may reduce the Common Shares yield. Statements and other information herein are as dated and are subject to change.

---

## Edgar Filing: BLACKROCK VIRGINIA MUNICIPAL BOND TRUST - Form N-CSRS

Item 2 Code of Ethics Not Applicable to this semi-annual report

Item 3 Audit Committee Financial Expert Not Applicable to this semi-annual report
