For Immediate Release

ASUR 4Q08 PASSENGER TRAFFIC UP 1.71% YOY

México D.F., February 19, 2009 Grupo Aeroportuario del Sureste, S.A.B. de C.V. (NYSE:ASR; BMV:ASUR), (ASUR) the first privatized airport group in Mexico and operator of Cancun Airport and eight other airports in southeast Mexico, today announced results for the three-month period ended December 31, 2008.

4Q08 Highlights¹:

EBITDA² increased by 14.09% to Ps.431.13 million.

Total passenger traffic was up 1.71%.

Total revenues rose by 14.20%, mainly due to increases of 13.97% in aeronautical revenues and 14.63% in non-aeronautical revenues.

Commercial revenues per passenger increased by 16.35% to Ps.57.86 per passenger.

Operating profit increased by 18.66%.

EBITDA margin was 57.03% compared with 57.08% in 4Q07.

1. Unless otherwise stated, all financial figures discussed in this announcement are unaudited, prepared in accordance with Mexican Financial Reporting Standards and represent comparisons between the three-month periods ended December 31, 2008, and the equivalent three-month period ended December 31, 2007. Results for 4Q07 and FY07 are expressed in constant Mexican pesos as of December 31, 2007. Non-monetary items at December 31, 2008 which were acquired until December 31, 2007 are expressed in constant pesos with purchasing power at December 31, 2007, the date of the last update, while monetary items are expressed in nominal pesos. Tables state figures in thousands of pesos, unless otherwise noted. Passenger figures exclude transit and general aviation passengers. Commercial revenues include revenues from the activities of non-permanent ground transportation and parking lots. All U.S. dollar figures are calculated at the exchange rate of US\$1 = Ps.13.8325.
2. EBITDA means net income before provision for taxes, deferred taxes, deferred employees profit sharing, non-ordinary items, comprehensive financing cost, and depreciation and amortization. EBITDA should not be considered as an alternative to net income, as an indicator of our operating performance, or as an alternative to cash flow as an indicator of liquidity. Our management believes that EBITDA provides a useful measure of our performance that is widely used by investors and analysts to evaluate our performance and compare it with other companies. EBITDA is not defined under U.S. GAAP and may be calculated differently by different companies.

Passenger Traffic

For the fourth quarter of 2008, total passenger traffic increased year-over-year by 1.71%. Domestic passenger traffic declined by 6.56% while international passenger traffic rose by 9.83%.

The 9.83% rise in international passenger traffic resulted mainly from an increase of 11.53% in international traffic at the Cancún airport.

The 6.56% decline in domestic passenger traffic resulted mainly from declines of 19.17%, 6.18%, 5.46%, 5.76% and 33.03% in domestic traffic at the Mérida, Cancún, Veracruz, Villahermosa and Cozumel airports, respectively.

For FY08, total passenger traffic rose by 9.32% compared to FY07, with domestic passenger traffic up 6.88% and international passenger traffic up 11.25%.

Consolidated Results for 4Q08

Total revenues for 4Q08 increased year-over-year by 14.20% to Ps.755.9 million. This was mainly due to increases of:

13.97% in revenues from aeronautical services, principally as a result of an increase in passenger charges and a 1.71% rise in passenger traffic; and

14.63% in revenues from non-aeronautical services, principally as a result of the 17.47% rise in commercial revenues detailed below.

ASUR classifies commercial revenues as those derived from the following activities: duty-free services, car rental, retail, banking and currency exchange, advertising, teleservices, non-permanent ground transportation, food and beverage, and parking lots.

Commercial revenues rose by 17.47% year-over-year during the quarter, mainly as a result of revenue increases in the following areas principally from the rise in passenger traffic and the positive impact of the exchange rate as contracts with some concession holders are denominated in US dollars:

26.53% in duty-free stores;

27.25% in banking and currency exchange services;

8.43% in advertising;

12.05% in ground transportation;

17.36% in retail operations;

23.59% in car rental companies;

8.47% in food and beverage;

11.36% in teleservices; and
29.57% in other revenues.

These increases were partially offset with a 8.27% decline in parking lot revenues.

Retail revenues continued to benefit from higher concession fees from local craft and specialty shops, teleservices and tour operators. The increase in car rental revenues reflects rate increases negotiated in October 2007 and the lease of eight new commercial parking facilities in Terminal 3. Revenues from banking and currency exchange services rose as a result of the opening of new Banco Santander branches at the Cancún, Mérida and Veracruz airports.

Total operating costs and expenses for 4Q08 increased 11.74% year over year, primarily as a result of:

a 15.58% increase in cost of services, mainly reflecting increases of 27.09% in energy costs, 16.06% in personnel costs, and 27.36% in maintenance costs. Energy costs increased as a result of higher energy prices. The increase in personnel costs reflects the personnel reorganization implemented in 2Q08, while the increase in maintenance costs resulted mainly from the operation of Terminal 3 at Cancun Airport, in operation since May 2007.

a 6.51% increase in depreciation and amortization, resulting from the depreciation of new investments in fixed assets and improvements made to concession assets; and

ASUR 4Q08, Page 4 of 14

a 20.19% increase in administrative expenses, principally resulting from the higher personnel costs reflecting the personnel reorganization in 2Q08.

a 6.59% increase in concession fees paid to the Mexican government, mainly due to higher revenues (a factor in the calculation of the fee).

A 7.53% increase in the technical assistance fee paid to ITA, reflecting an increase in EBITDA for the quarter (a factor in the calculation of the fee).

Operating margin for the quarter increased to 37.00% from 35.61% in 4Q07. This was mainly the result of the 14.20% increase in revenues, which more than offset the 11.74% increase in costs during the period.

Following the changes in Mexican tax law that took effect January 1, 2008, which established a new flat rate business tax (Impuesto Empresarial a Tasa Unica , or IETU) and eliminated the asset tax, the Company evaluated and reviewed its deferred assets and liabilities position under Mexican Financial Reporting Standards.

During 4Q08, the ASUR subsidiaries that pay IETU made provisional tax payments of Ps.18.90 million.

Net income for 4Q08 increased to Ps.208.33 million, from a loss of Ps.190.84 million in 4Q07. Earnings per common share for the quarter were Ps.0.6944, or earnings per ADS (EPADS) of US\$0.5020 (one ADS represents ten series B common shares). This compares with a loss of Ps.0.6361, or EPADS of US\$0.4599, for the same period last year.

Consolidated Results for FY08

Total revenues for FY08 increased year-over-year by 13.74% to Ps.3,168.7 million. This was mainly due to increases of:

11.15% in revenues from aeronautical services as a result of the 9.32% rise in passenger traffic during the period; and

19.21% in revenues from non-aeronautical services, principally as a result of the 21.49% rise in commercial revenues detailed below, which in turn was a consequence of the increase in passenger traffic.

ASUR 4Q08, Page 6 of 14

Commercial revenues for FY08 rose by 21.49% year-over-year, principally as a result of revenue increases from the following areas:

- 35.04% from duty-free revenues;
- 23.47% from retail revenues;
- 21.56% from advertising revenues;
- 28.62% from banking and currency exchange services;
- 20.49% from ground transportation services;
- 10.76% from teleservices;
- 10.15% from food and beverage;
- 1.84% from parking lot revenues;
- 10.66% from car rental companies; and
- 23.98% from other income.

Total operating costs and expenses for FY08 increased by 10.20%, mainly due to the following:

a 8.94% increase in cost of services, due mainly to increases of 16.65% in personnel as a result of the Company's personnel reorganization and 26.14% in energy costs, 13.90% in security costs, and 23.52% in maintenance expenses, in each case resulting principally from the opening of Terminal 3 in May 2007;

a 9.75% increase in administrative expenses resulting from the higher personnel costs, which reflect the personnel reorganization in 2Q08;

an 11.22% increase in depreciation and amortization, resulting from the depreciation of investments in fixed assets and improvements made to concession assets;

a 13.64% rise in technical assistance costs reflecting the corresponding increase in EBITDA during the period; and

an 11.22% increase in concession fees, mainly due to higher revenues.

Operating margin increased to 43.67% for FY08, up from 41.86% for FY07. This was mainly the result of the 13.74% increase in revenues, which more than offset the 10.20% increase in costs and expenses during the period.

ASUR 4Q08, Page 7 of 14

Net income for FY08 increased by 100.91% to Ps.1,049.47 million. Earnings per common share for the period were Ps.3.4982, or earnings per ADS (EPADS) of US\$2.5290 (one ADS represents ten series B common shares). This compares with Ps.1.7412, or EPADS of US\$1.2588, for the same period last year.

Tariff Regulation

The Mexican Ministry of Communications and Transportation regulates the majority of ASUR's activities by setting maximum rates, which represent the rates for the maximum possible revenues allowed per traffic unit at each airport.

ASUR's regulated revenues for FY08 were Ps.2,101.38 million, resulting in an annual average tariff per workload unit of Ps.115.41. ASUR's regulated revenues accounted for approximately 66.32% of total income for the period.

The Mexican Ministry of Communications and Transportation reviews compliance with the maximum rates on an annual basis at the close of each year.

On December 24th 2008, the Mexican Government let ASUR know that they will take 90 days more to approve the Maximum Tariffs and the Master Development Programs for each of the nine concessions.

Balance Sheet

On December 31, 2008, Airport Facility Usage Rights and Airport Concessions represented 78.24% of the Company's total assets, with current assets representing 16.40% and other assets representing 5.36%.

On December 31, 2008, cash and marketable securities were Ps.1,733.51 million. On the same date, shareholder s equity was Ps.14,954.99 million and total liabilities were Ps.2,419.60 million, representing 86.08% and 13.93% of total assets, respectively. Total deferred liabilities represented 74.32% of the Company s total liabilities.

Capital Expenditures

During the quarter, ASUR made investments of Ps.361.25 million as part of ASUR s ongoing plan to modernize its airports pursuant to its master development plans. For fiscal year 2008, the total capital investment amounted to Ps.796.09 million.
