Act (17 CFR 240.13e-4(c))

Section 2.02 - Results of Operations and Financial Condition.

(a) The information contained in this Section 2.02, and the exhibit hereto, are being furnished and shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, and shall not be deemed incorporated by reference in any filing with the Securities and Exchange Commission under the Securities Exchange Act of 1934, as amended, or the Securities Act of 1933, as amended, whether made before or after the date hereof and irrespective of any general incorporation language in any filings. On October 25, 2004, Castelle issued a press release regarding its financial results for its third fiscal quarter ended September 30, 2004. A copy of Castelle's press release is attached hereto as Exhibit 99.1.

The press release includes pro forma operating results. Pro forma operating results are not based on any standardized methodology prescribed by U.S. generally accepted accounting principles ("GAAP") and are not necessarily comparable to similar measures presented by other companies. Pro forma operating results should not be considered in isolation or as a substitute for operating results prepared in accordance with GAAP. The Company has provided a reconciliation of pro forma operating results to GAAP in the schedules of the attached press release.

Management utilizes pro forma operating results as a performance measure and furnishes the information in order to provide investors with additional information to analyze the Company's operating results and facilitate period-to-period comparisons. Pro forma operating results include an income tax expense at a 40% rate for the third quarter and first nine months of fiscal year 2004. The impact of the pro forma adjustments to GAAP is quantified in the reconciliation table included with the press release. The Company uses non-GAAP measures to help clarify the overall understanding of its current operational performance, its prospects for the future and to provide a more consistent basis for comparison between quarters.
