**KIRKLAND'S, INC.**

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

**Note 1 Basis of Presentation**

Kirkland's, Inc. (the Company) is a specialty retailer of home décor and gifts with 382 stores in 36 states as of April 30, 2016. The condensed consolidated financial statements of the Company include the accounts of Kirkland's, Inc. and its wholly-owned subsidiaries, Kirkland's Stores, Inc., Kirkland's DC, Inc., Kirkland's Texas, LLC, and Kirklands.com, LLC. All intercompany accounts and transactions have been eliminated.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required for complete financial statements. In the opinion of management, all adjustments, including normal recurring accruals, considered necessary for a fair presentation have been included. These financial statements should be read in conjunction with the audited financial statements included in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission on April 8, 2016.

It should be understood that accounting measurements at interim dates inherently involve greater reliance on estimates than those at fiscal year-end. In addition, because of seasonality factors, the results of the Company's operations for the 13-week period ended April 30, 2016 are not indicative of the results to be expected for any other interim period or for the entire fiscal year. The Company's fiscal year ends on the Saturday closest to January 31, resulting in years of either 52 or 53 weeks. All references to a fiscal year refer to the fiscal year ending on the Saturday closest to January 31 of the following year.

The preparation of the condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the condensed consolidated financial statements and accompanying notes. Actual results could differ from the estimates and assumptions used.

Changes in estimates are recognized in the period when new information becomes available to management. Areas where the nature of the estimate makes it reasonably possible that actual results could materially differ from amounts estimated include, but are not limited to impairment assessments on long-lived assets, asset retirement obligations, inventory reserves, self-insurance reserves, income tax liabilities, stock-based compensation, employee bonus accruals, gift card breakage, sales return reserves, customer loyalty program accruals and contingent liabilities.

For the 13-week period ended April 30, 2016, the Company adopted accounting guidance which affected the presentation of deferred tax liabilities and assets as discussed in Note 7. This guidance was applied retrospectively for all periods presented and therefore the presentation of previously reported deferred tax assets has been changed to conform to the presentation used in the current period. The adoption of this guidance resulted in the reclassification of deferred tax assets of \$3.3 million and \$3.6 million from current assets to a reduction in noncurrent liabilities in the condensed consolidated balance sheets as of January 30, 2016 and May 2, 2015, respectively.

For the 13-week period ended April 30, 2016, the Company incurred approximately \$3.1 million of non-cash investing activities due to purchases of property and equipment awaiting processing for payment. This amount was included in accounts payable at April 30, 2016 and was not material for the 13-week period ended May 2, 2015.

**Note 2 Income Taxes**

An estimate of the annual effective tax rate is used at each interim period based on the facts and circumstances available at that time, while the actual effective tax rate is calculated at year-end. For the 13-week periods ended April 30, 2016 and May 2, 2015, the Company recorded an income tax expense of 39.3% and 38.0% of pre-tax income, respectively.

**Note 3 Earnings Per Share**

Basic earnings per share is computed by dividing net income by the weighted average number of shares outstanding during each period presented, which excludes non-vested restricted stock units. Diluted earnings per share is computed by dividing net income by the weighted average number of shares outstanding plus the dilutive effect of stock equivalents outstanding during the applicable periods using the treasury stock method. Diluted earnings per share reflects the potential

**Table of Contents**

dilution that could occur if options to purchase stock were exercised into common stock and if outstanding grants of restricted stock were vested. Stock options and restricted stock units that were not included in the computation of diluted earnings per share, because to do so would have been antidilutive, were approximately 476,000 and zero shares for the 13-week periods ended April 30, 2016 and May 2, 2015, respectively.

**Note 4 Commitments and Contingencies**

The Company is party to pending legal proceedings and claims. Although the outcome of such proceedings and claims cannot be determined with certainty, the Company's management is of the opinion that it is unlikely that these proceedings and any claims in excess of insurance coverage will have a material effect on the financial condition, operating results or cash flows of the Company.

**Note 5 Stock-Based Compensation**

The Company maintains equity incentive plans under which it may grant non-qualified stock options, incentive stock options, restricted stock, restricted stock units, or stock appreciation rights to employees, non-employee directors and consultants.

The Company granted no stock options or restricted stock units during each of the 13-week periods ended April 30, 2016 and May 2, 2015. Total stock-based compensation expense (a component of compensation and benefits) was \$895,000 for the 13-week period ended April 30, 2016 and \$1.2 million for the 13-week period ended May 2, 2015. Included in the 13-week period ended May 2, 2015 is \$600,000 of stock-based compensation expense that resulted from the accelerated vesting of stock options and restricted stock units upon the retirement of the Company's former Chief Executive Officer. Compensation expense is recognized on a straight-line basis over the vesting periods of each grant. There have been no other material changes in the assumptions used to compute compensation expense during the current quarter.

**Note 6 Related Party Transactions**

In July 2009, the Company entered into an agreement with a related party vendor to purchase merchandise inventory. The vendor is considered a related party for financial reporting purposes because its principal owner is the spouse of the Company's Vice President of Merchandising. The table below sets forth selected results to this vendor in dollars (in millions) and percentages for the periods indicated:

	<b>13-Week Period Ended</b>

**Note 7 New Accounting Pronouncements**

In May 2014, the FASB issued Accounting Standards Update ( ASU ) 2014-09, Revenue from Contracts with Customers. Under ASU 2014-09, an entity will recognize revenue when it transfers promised goods or services to

customers in an amount that reflects what it expects in exchange for the goods or services. ASU 2014-09 also requires more detailed disclosures to enable users of financial statements to understand the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. In July 2015, the FASB approved a one-year deferral of ASU 2014-09. As a result of the deferral, the amendments in ASU 2014-09 will be effective for the Company at the beginning of its fiscal 2018 year. The Company is still evaluating the impact the adoption of ASU 2014-09 will have on its consolidated financial statements.

In November 2015, the FASB issued ASU 2015-17, *Income Taxes (Topic 740): Balance Sheet Classification of Deferred Taxes*. This update requires that deferred tax liabilities and assets be classified as noncurrent in the consolidated balance sheet. ASU 2015-17 may be applied either prospectively to all deferred tax liabilities and assets or retrospectively to all periods presented. The updated guidance is effective for fiscal years beginning after December 15, 2016, and interim periods within those fiscal years, with early adoption permitted. The Company adopted this guidance in the first quarter of fiscal 2016. The Company elected to apply this guidance retrospectively for all periods presented. The adoption of this guidance affected the presentation of the deferred tax liabilities and assets within the Company's consolidated balance sheet; however, the updated guidance did not affect the accounting for deferred tax liabilities and assets. Other than the change in presentation, the adoption of this guidance did not have any material impacts on the consolidated financial statements.

**Table of Contents**

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842), which supersedes the existing guidance for lease accounting, Leases (Topic 840). ASU 2016-02 requires lessees to recognize a lease liability and a right-of-use asset for all leases. Lessor accounting remains largely unchanged. The amendments in this ASU are effective for fiscal years beginning after December 15, 2018 and interim periods within those fiscal years. Early adoption is permitted for all entities. ASU 2016-02 requires a modified retrospective approach for all leases existing at, or entered into after the date of initial adoption, with an option to elect to use certain transition relief. The Company is currently evaluating the impact of this new standard on its consolidated financial statements.

**Note 8 Senior Credit Facility**

On February 26, 2016, the Company entered into a Joinder and First Amendment to Amended and Restated Credit Agreement (the Credit Agreement) with Bank of America, N.A. as administrative agent and collateral agent, and the lenders (the Lenders), amending our prior credit agreement entered into in 2011. The Credit Agreement increased our senior secured revolving credit facility from \$50 million to \$75 million, increased the swingline availability from \$5 million to \$10 million, added a \$25 million incremental accordion feature and extended the maturity date from August 2016 to February 2021. Borrowings under the facility bear interest at an annual rate equal to LIBOR plus a margin ranging from 125 to 175 basis points with no LIBOR floor. Additionally, a fee of 0.25% per annum is assessed on the unused portion of the facility.

Pursuant to the Credit Agreement, borrowings are subject to certain customary conditions and contain customary events of default, including, without limitation, failure to make payments, a cross-default to certain other debt, breaches of covenants, breaches of representations and warranties, a change in control, certain monetary judgments and bankruptcy and ERISA events. Upon any such event of default, the principal amount of any unpaid loans and all other obligations under the Credit Agreement may be declared immediately due and payable. The maximum availability under the facility is limited by a borrowing base formula which consists of a percentage of eligible inventory and eligible credit card receivables, less reserves.

The Company is subject to an Amended and Restated Security Agreement (the Security Agreement) with our Lenders. Pursuant to the Security Agreement, the Company pledged and granted to the administrative agent, for the benefit of itself and the secured parties specified therein, a lien on and security interest in all of the rights, title and interest in substantially all of the Company's assets to secure the payment and performance of the obligations under the Credit Agreement.

As of April 30, 2016, the Company was in compliance with the covenants in the facility, and there were no outstanding borrowings under the credit facility, with approximately \$41.9 million available for borrowing.

**Table of Contents****ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS****Forward Looking Statements**

This Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) is intended to provide an understanding of our financial condition, change in financial condition, cash flow, liquidity and results of operations. The following MD&A discussion should be read in conjunction with the condensed consolidated financial statements and notes to those statements that appear elsewhere in this Form 10-Q and in our Annual Report on Form 10-K, filed April 8, 2016. The following discussion contains forward-looking statements that reflect our plans, estimates and beliefs. Our actual results could differ materially from those discussed or referred to in the forward-looking statements. Factors that could cause or contribute to any differences include, but are not limited to, those discussed under the caption Cautionary Statement for Purposes of the Safe Harbor Provisions of the Private Securities Litigation Reform Act of 1995 and under Part II, Item 1A Risk Factors.

**General**

We are a specialty retailer of home décor and gifts in the United States, operating 382 stores in 36 states as of April 30, 2016, as well as an e-Commerce enabled website, [www.kirklands.com](http://www.kirklands.com). Our stores present a broad selection of distinctive merchandise, including framed art, mirrors, wall décor, candles and related items, lamps, decorative accessories, accent furniture, textiles, garden-related accessories and artificial floral products. Our stores also offer an extensive assortment of holiday merchandise during seasonal periods as well as items carried throughout the year suitable for gift-giving. In addition, we use innovative design and packaging to market home décor items as gifts. We provide our predominantly female customers an engaging shopping experience characterized by a diverse, ever-changing merchandise selection reflecting current styles at prices which provide discernible value. This combination of ever-changing and stylish merchandise, value pricing and a stimulating store experience has led to our emergence as a leader in home décor and enabled us to develop a strong customer franchise.

During the 13-week period ended April 30, 2016, we opened 14 new stores and closed eight stores compared to one new store opening and three store closures during the 13-week period ended May 2, 2015. The following table summarizes our stores and square footage under lease:

**Table of Contents**

*Net sales.* Net sales increased 9.8% to \$129.9 million for the first fiscal quarter of 2016 compared to \$118.3 million for the prior year period. The impact of net new store growth contributed an increase to net sales of \$11.0 million. An increase in comparable store sales, including e-Commerce sales, of 0.5%, contributed an increase over the prior year quarter of \$0.6 million. Comparable store sales, including e-Commerce sales, increased 3.0% in the prior year period. For the first fiscal quarter of 2016, the e-Commerce business was up 28.0% versus the prior year period, while comparable store sales at brick-and-mortar stores decreased 1.4%. For brick-and-mortar stores, the comparable store sales decrease was primarily due a decrease in transactions combined with a small decrease in the average ticket. The decreased transactions resulted from a decline in traffic, partially offset by an increase in conversion. The slight decrease in average ticket was due to a decrease in items sold per transaction, partially offset by an increase in the average unit retail price. The e-Commerce business benefitted from an increase in website traffic coupled with an increase in conversion, slightly offset by a decrease in average order size. The merchandise categories contributing most to the comparable store sales increase were mirrors, clocks, furniture, fragrance and Easter seasonal.

*Gross profit.* Gross profit as a percentage of net sales decreased from 40.3% in the first quarter of fiscal 2015 to 38.1% in the first quarter of fiscal 2016. The overall decrease in gross profit margin was primarily due to lower merchandise margins and higher store occupancy and central distribution costs partially offset by slightly lower outbound freight costs. Merchandise margin is calculated as net sales minus product cost of sales (including inbound freight), inventory shrinkage, and loyalty reward program charges. Merchandise margin excludes outbound freight, store occupancy and central distribution costs. Merchandise margin decreased from 56.4% in the first quarter of fiscal 2015 to 55.8% in the first quarter of fiscal 2016. The decrease in merchandise margin was primarily due to promotional markdowns to manage inventory levels. Store occupancy costs as a percentage of net sales increased due to the increased level of store opening activity in the quarter as well as some deleverage due to negative brick and mortar comparable store sales. Our central distribution costs increased as a percentage of net sales due to the addition of a 300,000 square-foot fulfillment facility in Jackson, Tennessee. We transitioned to fulfilling ecommerce orders out of this facility in the first quarter of 2016 which resulted in additional startup and labor costs.

*Compensation and benefits.* Compensation and benefits expenses at the store level increased as a percentage of net sales for the first quarter of fiscal 2016 as compared to the first quarter of fiscal 2015 due to lower comparable store sales, an increase in new store opening activity and higher healthcare costs. At the corporate level, the compensation and benefits ratio was lower in the first quarter of 2016 as compared to the prior year period due to lower stock-based compensation expense. In the prior year quarter there was \$0.6 million of stock-based compensation expense that resulted from the accelerated vesting of stock options and restricted stock units upon the retirement of our former Chief Executive Officer.

*Other operating expenses.* Other operating expenses decreased slightly as a percentage of net sales versus the prior year period. At the corporate level, professional and legal fees decreased in dollars and as a percent of net sales. At the store level, advertising expense increased in dollars and as a percentage of net sales compared to the prior year period primarily due to the increased new store opening activity.

*Depreciation.* The increase in depreciation as a percentage of sales reflects an increase in capital expenditures in recent fiscal years and the implementation of major technology upgrades.

*Income tax expense.* We recorded income tax expense of approximately \$0.6 million, or 39.3% of pre-tax income during the first quarter of fiscal 2016 compared to income tax expense of approximately \$1.6 million, or 38.0% of pre-tax income during the prior year quarter.

*Net income and earnings per share.* As a result of the foregoing, we reported net income of \$0.9 million, or \$0.06 per diluted share, for the first quarter of fiscal 2016 as compared to net income of \$2.5 million, or \$0.14 per diluted share,

for the first quarter of fiscal 2015.

### **Liquidity and Capital Resources**

Our principal capital requirements are for working capital and capital expenditures. Working capital consists mainly of merchandise inventories offset by accounts payable, which typically reach their peak by the early portion of the fourth quarter of each fiscal year. Capital expenditures primarily relate to new store openings; existing store expansions, remodels or relocations; and purchases of equipment or information technology assets for our stores, distribution facilities and corporate headquarters. Historically, we have funded our working capital and capital expenditure requirements with internally generated cash and borrowings under our credit facility.

**Table of Contents**

*Cash flows from operating activities.* Net cash provided operating activities was approximately \$2.7 million for the first quarter of fiscal 2016, compared to net cash used in operating activities of approximately \$0.6 million for the first quarter of fiscal 2015. Cash flows from operating activities depend heavily on operating performance and changes in working capital. The change in the amount of cash from operations as compared to the prior year period was primarily the result of changes in working capital partially offset by a decline in operating performance.

*Cash flows from investing activities.* Net cash used in investing activities for the first quarter of fiscal 2016 consisted of \$8.7 million in capital expenditures as compared to \$2.7 million in capital expenditures for the prior year period. The capital expenditures in the current year period related to the opening of 14 new stores during the period, investments in our existing stores, improvements to our supply chain, as well as investments in our omni-channel systems. Capital expenditures in the prior year period related primarily to technology investments in our stores and e-Commerce site, improvements to our supply chain, investments in existing stores, as well as the opening of one new store during the period. We expect that capital expenditures for all of fiscal 2016 will be approximately \$25 to \$30 million, primarily to fund the leasehold improvements of new stores, supply chain investments, improvements in our information technology infrastructure and multi-channel capabilities, and maintain our investments in existing stores.

*Cash flows from financing activities.* Net cash used in financing activities was approximately \$0.1 million for the first quarter of fiscal 2016, and was primarily related to debt issuance costs partially offset by employee stock purchases. Net cash used in financing activities was approximately \$2.4 million for the first quarter of fiscal 2015, and was primarily related to the repurchase and retirement of common stock and cash used in net share settlement of stock options and restricted stock, partially offset by tax benefits related to the exercise of employee stock options and vesting of restricted stock units.

*Revolving credit facility.* On February 26, 2016, we entered into a Joinder and First Amendment to Amended and Restated Credit Agreement (the "Credit Agreement") with Bank of America, N.A. as administrative agent and collateral agent, and the lenders (the "Lenders"), amending our prior credit agreement entered into in 2011. The Credit Agreement increased our senior secured revolving credit facility from \$50 million to \$75 million, increased the swingline availability from \$5 million to \$10 million, added a \$25 million incremental accordion feature and extended the maturity date from August 2016 to February 2021. Borrowings under the facility bear interest at an annual rate equal to LIBOR plus a margin ranging from 125 to 175 basis points with no LIBOR floor. Additionally, a fee of 0.25% per annum is assessed on the unused portion of the facility.

Pursuant to the Credit Agreement, borrowings are subject to certain customary conditions and contain customary events of default, including, without limitation, failure to make payments, a cross-default to certain other debt, breaches of covenants, breaches of representations and warranties, a change in control, certain monetary judgments and bankruptcy and ERISA events. Upon any such event of default, the principal amount of any unpaid loans and all other obligations under the Credit Agreement may be declared immediately due and payable. The maximum availability under the facility is limited by a borrowing base formula which consists of a percentage of eligible inventory and eligible credit card receivables, less reserves.

We are subject to an Amended and Restated Security Agreement (the "Security Agreement") with our Lenders. Pursuant to the Security Agreement, we pledged and granted to the administrative agent, for the benefit of itself and the secured parties specified therein, a lien on and security interest in all of the rights, title and interest in substantially all of our assets to secure the payment and performance of the obligations under the Credit Agreement.

As of April 30, 2016, we were in compliance with the covenants in the facility, and there were no outstanding borrowings under the credit facility, with approximately \$41.9 million available for borrowing.

At April 30, 2016, our balance of cash and cash equivalents was approximately \$38.2 million. We do not anticipate any borrowings under the credit facility during fiscal 2016. We believe that the combination of our cash balances and cash flow from operations will be sufficient to fund our planned capital expenditures and working capital requirements for at least the next twelve months.

**Table of Contents****Related Party Transactions**

In July 2009, we entered into an agreement with a related party vendor to purchase merchandise inventory. The vendor is considered a related party for financial reporting purposes because its principal owner is the spouse of our Vice President of Merchandising. The table below sets forth selected results to this vendor in dollars (in millions) and percentages for the periods indicated:

	<b>13-Week Period Ended</b>	
	<b>April 30,</b>	<b>May 2,</b>
	<b>2016</b>	<b>2015</b>
<b>Related Party Vendor:</b>		
Purchases	\$ 8.5	\$ 7.1
Purchases as a percent of total merchandise purchases	15.4%	12.7%
Cost of sales	\$ 8.7	\$ 6.4
Payable amounts outstanding at period end	\$ 2.1	\$ 2.9
