December 31, 2015.

## Section 1 - Conflict Minerals Disclosure

### Item 1.01 Conflict Minerals Disclosure and Report

#### Conflict Minerals Disclosure

Universal Forest Products, Inc. (the “Corporation”) is filing this report on Form SD on a consolidated basis pursuant to Rule 13p-1 (the “Rule”) promulgated under Section 13(p) of the Securities Exchange Act of 1934, as amended (the “Act”). The Corporation has determined that certain “Conflict Minerals” (as defined in the Act) are contained in, and are necessary to the functionality or production of, certain products manufactured or contracted to be manufactured by the Corporation. As such, the Corporation has performed a reasonable country of origin inquiry (“RCOI”) to determine whether Conflict Minerals in its products originated in the Democratic Republic of the Congo (“DRC”) or an adjoining country (as defined in the Act and, collectively with the DRC, the “Covered Countries”), or are from recycled or scrap sources.

The Corporation’s RCOI included: (i) an assessment of which products manufactured by the Corporation (or contracted to be manufactured by the Corporation) contain or might contain Conflict Minerals that are necessary to the functionality or production of the product, (ii) a determination of which suppliers furnish these products or materials to the Corporation, (iii) the dissemination of the Conflict-Free Sourcing Initiative Conflict Minerals Reporting Template (the “Template”) to these identified suppliers, (iv) an analysis of the responses generated by suppliers via the Template and other communications, including careful review of any countries of origin and other red flags, and (v) follow-up communications with suppliers as necessary for clarification.

The Template was developed by the Conflict-Free Sourcing Initiative to facilitate disclosure and communication of information regarding mineral country of origin and smelters that provide material to a company’s supply chain. It includes questions regarding a company’s conflict-free policy and engagement with its direct suppliers and a listing of the smelters the company and its suppliers use. In addition, the Template contains questions about the origin of Conflict Minerals included in the company’s products as well as its supplier due diligence.

Based on the Corporation’s RCOI, the Corporation has no reason to believe that any Conflict Minerals necessary to the functionality or production of the products it manufactures, or those for which it contracts to manufacture, are from any Covered Country or, as the case may be for a particular product, reasonably believes that such Conflict Minerals are from recycled or scrap sources.

A copy of this disclosure is available on the Corporation’s website at:
