London, October 27, 2005 - AMVESCAP reported that profit before tax for the nine months ended September 30, 2005 amounted to (pound)186.9 million (\$330.8 million), compared to a loss of (pound)46.2 million (\$83.6 million) for the same period in 2004. The 2004 results included a charge of (pound)229.2 million representing the U.S. regulatory settlement. Operating profit for the nine months ended September 30, 2005 amounted to (pound)205.1 million (\$363.0 million), compared to (pound)199.3 million (\$360.7 million) before the settlement charge for the first nine months of 2004. Revenues totaled (pound)884.2 million (\$1,565.0 million) for the first nine months of 2005, compared to (pound)858.0 million (\$1,553.0 million) in the 2004 period. Diluted earnings per share amounted to 14.8p for the 2005 period, compared to 14.4p before the settlement charge for the 2004 period. (NYSE: AVZ).

Commenting on his first months as AMVESCAP's new president and CEO, Martin L. Flanagan said, "My short time at AMVESCAP has confirmed that we have the range of products, global scale and most importantly, dedicated professional team necessary to succeed as one of the premier global asset managers. We are working to eliminate any barriers that may have limited our ability to leverage the full power of our organization, and I am confident that we will unlock AMVESCAP's tremendous potential for our clients and shareholders."

- (a) 2004 results have been restated in accordance with International Financial Reporting Standards ("IFRS"). See Note 9 for a reconciliation of AMVESCAP's U.K. GAAP results to IFRS.
- (b) Per American Depositary Share equivalent to 2 ordinary shares.
- (c) For the convenience of the reader, pounds sterling for the nine months ended September 30, 2005 have been translated to U.S. dollars using \$1.77 per (pound)1.00 (2004: \$1.81 per (pound)1.00). References to "\$" in this release are to U.S. dollars unless otherwise indicated.

Effective January 1, 2005, AMVESCAP began recording its results of operations under International Financial Reporting Standards ("IFRS"). Prior to this date, AMVESCAP prepared its consolidated financial statements under U.K. Generally Accepted Accounting Practice ("U.K. GAAP"). The most significant changes

Edgar Filing: AMVESCAP PLC/LONDON/ - Form 6-K

affecting AMVESCAP's financial reporting due to the IFRS transition are:

- o The cessation of goodwill amortization (IFRS 3) and redenomination of goodwill into the currency of the underlying acquired entities (IAS 21)
- o The inclusion of a fair value charge in respect of outstanding employee share options granted after November 7, 2002 (IFRS 2)
- o The replacement of existing charges for awards under certain equity-based compensation plans with fair value charges spread over revised time periods (IFRS 2)
- o The inclusion in the balance sheet of all employee benefit liabilities (IAS 19)

The underlying business transactions and cashflows of AMVESCAP did not change upon transition to IFRS. The transition to IFRS resulted in the reduction of total shareholders' funds under U.K. GAAP at January 1, 2004 (transition date) of (pound)118 million. This reduction is due primarily to the redenomination of goodwill and management contract intangible assets into the currency of the underlying acquired entities. Under U.K. GAAP, these balances were recorded in pounds sterling. For the year ended December 31, 2004, the transition to IFRS resulted in the addition of (pound)151 million to profit for the year, primarily due to the cessation of goodwill amortization previously recorded under U.K. GAAP. Diluted earnings per share for the nine months ended September 30, 2004 was (7.4)p under IFRS, compared with (21.4)p under U.K. GAAP. See Note 9 for further details.

AMVESCAP's first Annual Report under IFRS will be for the year ended December 31, 2005. The information presented in this earnings release is subject to the ongoing development of IFRS.

As announced on October 4, 2005, AMVESCAP intends to change its presentation currency from pounds sterling to U.S. dollars in December and will begin reporting results in U.S. dollars with the issuance of the fourth quarter results and the 2005 Annual Report.

Profit before tax for the three months ended September 30, 2005 amounted to (pound)67.6 million (\$119.7 million), compared to (pound)44.9 million (\$81.3 million) before the settlement charge in the 2004 third quarter. Diluted earnings per share for the three months ended September 30, 2005 amounted to 5.3p (2004: 3.5p before the settlement charge). Revenues for the three months ended September 30, 2005 amounted to (pound)302.7 million (\$535.8 million), compared to (pound)280.9 million (\$508.4 million) from the prior year's third quarter.

Notes

1. Accounting policies

The accounting policies used in the preparation of this earnings release follow International Financial Reporting Standards ("IFRS") in effect as of the date of this release. The comparative period has been restated to apply these IFRS on a consistent basis (see Note 9). The most significant changes due to the IFRS transition are:

- o The cessation of goodwill amortization (IFRS 3) and redenomination of goodwill into the currency of the underlying acquired entities (IAS 21)
- o The inclusion of a fair value charge in respect of outstanding employee share options granted after November 7, 2002 (IFRS 2)
- o The replacement of existing charges for awards under certain equity-based compensation plans with fair value charges spread over revised time periods (IFRS 2)
- o The inclusion in the balance sheet of all employee benefit liabilities (IAS 19)

AMVESCAP's first Annual Report under IFRS will be for the year ended December 31, 2005. The information presented in this earnings release is subject to the ongoing development of IFRS; however the policies applied to the information in this release are consistent with those that are expected to be applied in the 2005 Annual Report. Please refer to www.amvescap.com for a more detailed discussion of these policies.

2. Adoption of accounting standards

AMVESCAP has adopted IAS 32, "Financial Instruments: Disclosure and Presentation" and IAS 39, "Financial Instruments: Recognition and Measurement" as of January 1, 2005. These standards require that financial assets and liabilities be recognized on the balance sheet and accounted for according to their underlying classification. Shareholders' equity increased by (pound)15.2 million as a result of these changes, primarily arising from the recognition of net unrealized gains on investments classified as available for sale.

3. Taxation

The taxation charge is primarily due to overseas taxation. A significant proportion of the tax charge is expected to arise from U.S. operations. The estimated effective tax rate is 36.1% in 2005 (2004: 36.1% before the U.S. regulatory settlement charge).

4. Earnings per share

Basic earnings per share is based on the weighted average number of ordinary and exchangeable shares outstanding during the respective periods, excluding shares purchased and held by employee share ownership trusts. Diluted earnings per share takes into account the effect of the potential issuance of ordinary shares.

The disposal is analyzed as follows:

6. U.S. regulatory settlement

The consolidated income statement for 2004 includes a charge of (pound)229.2 million relating to the mutual fund market timing investigations by regulators in the United States. The charge comprised settlement payments and civil penalties of (pound)208.9 million, along with related costs of (pound)20.3 million, primarily additional legal costs associated with the investigations. Previously, when reporting under U.K. GAAP, the settlement charge was included in exceptional items totaling (pound)249.7 million. The exceptional items, as reported in 2004, also included (pound)20.5 million primarily relating to estimates of lease

Edgar Filing: AMVESCAP PLC/LONDON/ - Form 6-K

payments in excess of the expected sublease proceeds over the remaining lives of the leases. These amounts have been reclassified as operating expenses.

7. Dividends

A final dividend in respect of the 2004 year of 5.0p per share or (pound)41,002,000 ((pound)39,595,000 for ordinary shares and (pound)1,407,000 for exchangeable shares) was approved at the Annual General Meeting of Shareholders on April 28, 2005. 9. Reconciliations from U.K. GAAP to IFRS

IFRS Transition Adjustments:

Goodwill and intangibles. AMVESCAP has chosen to apply IFRS 3 prospectively from the date of transition. This has resulted in the value of goodwill arising from previous acquisitions being frozen at the value held on the AMVESCAP balance sheet at January 1, 2004 and the reversal of any amortization charged in 2004. AMVESCAP has elected to apply IAS 21 retrospectively to its goodwill and intangible asset balances, which were previously recorded in pounds sterling from their respective acquisition dates. The result of this application is that the goodwill and intangible assets have been redenominated into their underlying currencies and will subsequently be re-measured each reporting date for the effect of changes in foreign exchange rates.

Share-based payment. AMVESCAP will recognize a charge in the Income Statement for the fair value of outstanding share awards granted to employees after November 7, 2002. The charge has been calculated using a stochastic option valuation model and will be charged over the relevant vesting periods, adjusted to reflect expected and actual levels of vesting.

Defined benefit obligation, net. AMVESCAP will recognize the net liability for defined benefit post retirement plan schemes on the balance sheet and will take actuarial gains and losses on a systematic basis to the Income Statement, in accordance with the permitted methods of recognition under IAS 19.

Sale of business. During 2004, AMVESCAP disposed of its U.K. and Jersey businesses of Atlantic Wealth Management and included the previously written off goodwill related to this business in the calculation of the net gain resulting from the sale. Under IFRS 1 goodwill previously deducted from equity is not recognized in the opening balance sheet and that goodwill is not transferred into the Income Statement upon disposal of the business. This had the effect of increasing the gain reported under U.K. GAAP.

Dividends. AMVESCAP will recognize dividends declared after the balance sheet date in the reporting period in which they are declared, as they represent non-adjusting events after the balance sheet date.

Other. Other adjustments upon transition to IFRS include the recognition and establishment of accruals related to compensated absences, foreign exchange items and certain tax adjustments.
