DOLLAR GENERAL REPORTS INCREASED SALES AND EARNINGS FOR THE SECOND QUARTER OF 2002

GOODLETTSVILLE, Tennessee - August 28, 2002 - Dollar General Corporation (NYSE: DG) today reported net income for the second quarter of fiscal 2002 of \$42.4 million, or \$0.13 per diluted share, an increase of 56.3 percent compared to \$27.1 million, or \$0.08 per diluted share, in the second quarter of fiscal 2001. In the second quarter of 2002, the Company recorded approximately \$5.2 million of restatement-related pre-tax income, primarily from insurance proceeds. In the second quarter of 2001, the Company incurred restatement-related expenses of \$8.7 million. Excluding the restatement-related items from both years, net income during the current year second quarter increased 20.0 percent to \$39.1 million, or \$0.12 per diluted share, compared to net income of \$32.6 million, or \$0.10 per diluted share, in the comparable prior year quarter.

Net sales during the second quarter increased 18.6 percent to \$1.45 billion compared to \$1.23 billion in the second quarter of 2001. The increase resulted primarily from 563 net new stores and a same-store sales increase of 9.6 percent. Gross profit during the quarter was \$387.4 million, or 26.7 percent of sales versus \$331.3 million, or 27.0 percent of sales during the comparable period in the prior year. Excluding the restatement-related items noted above, S,G&A expenses for the quarter were \$314.4 million, or 21.6 percent of sales, in the current year, versus \$267.4 million, or 21.8 percent of sales, in the prior year.

Net income for the 26-week year-to-date period was \$88.3 million in fiscal 2002, or \$0.26 per diluted share, compared to \$63.3 million, or \$0.19 per diluted share, in the second quarter of fiscal 2001. Excluding net restatement-related items from both years, year-to-date net income increased 28.1 percent to \$88.4 million, or \$0.26 per diluted share, in fiscal 2002 compared to net income of \$69.0 million, or \$0.21 per diluted share, in the comparable prior year period. Year-to-date net sales increased 17.1 percent, including a same-store sales increase of 8.1 percent.

"Dollar General's strong same-store sales clearly reflect our management team's progress in improved store readiness for our customers," said Cal Turner, Chairman and CEO. "Of special pride to me is our improvement in inventory management and cash flow."

In July and August of 2002, Mr. Turner made voluntary payments to the Company totaling approximately \$6.8 million in cash. Of such amount, approximately \$6.0 million represented the value on April 10, 2002, of stock Mr. Turner acquired on April 7, 1999 and April 20, 2000 upon the exercise of stock options (net of the strike price of such options), which stock Mr. Turner continues to own, and approximately \$800,000 represented the value of performance-based bonuses received by Mr. Turner in April 1999 and April 2000. Mr. Turner voluntarily paid such amounts to the Company because the options vested and the performance bonuses were paid based on performance measures that were attained under the Company's originally reported financial results for the period covered by the Company's restatement. Those measures would not have been attained under the restated results. Mr. Turner said, "I am making these payments voluntarily with the complete conviction that it is the right thing to do."

In addition, Cal Turner, Chairman and CEO, and Jim Hagan, Executive Vice President and CFO, have today signed and submitted to the U.S. Securities and Exchange Commission ("SEC") sworn certifications with regard to the Company's fiscal 2001 annual report, subsequent proxy materials, reports on form 8-K, and the Company's fiscal 2002 first and second quarter reports filed with the SEC.

As of August 2, 2002, Dollar General operated 5,891 neighborhood stores in 27 states with distribution centers in Florida, Kentucky, Mississippi, Missouri, Ohio, Oklahoma and Virginia.
