INFORMATION CONTAINED IN THIS FORM 6-K REPORT

Set forth herein as Exhibit 1 is a copy of Announcement No. 22 - 2008 issued by A/S STEAMSHIP COMPANY TORM to The Copenhagen Stock Exchange on November 21, 2008.

Exhibit 1

"TORM's leading presence in the product tanker market has ensured an exceptional result for the first nine months, and we maintain our profit forecast for 2008," states Mikael Skov, CEO.

Profit before tax for the first three quarters of 2008 was USD 290 million.

TORM forecasts a pre-tax profit for 2008 of USD 355 – 370 million as announced on 11 August 2008, when the full-year forecast was upgraded (announcement no. 16/2008).

TORM has unutilised credit facilities and cash in excess of USD 700 million.

Due to the sharp fall in oil prices from the peak in July 2008 TORM has in the third quarter unrealized mark-to-market adjustments on FFA and bunker hedge of USD 6 million and on financial derivatives of USD 11 million.

Equity amounted to USD 1,269 million (DKK 6,622 million) as at 30 September 2008, equivalent to USD 18.3 per share (DKK 95.6 per share), excluding treasury shares.

The market value of TORM's fleet, including the order book, exceeded book value by USD 1,589 million at 30 September 2008, equalling USD 23.0 per share (DKK 119.8 per share), excluding treasury shares.

The market for transport of crude oil was firm during the first part of the third quarter, while earnings in the latter part were better for transport of refined oil products. Product tanker earnings have dropped in the fourth quarter, although they remain at seasonably high levels. As at 31 October 2008, TORM had covered 63% of the remaining earning days for 2008 in the Tanker Division at USD 25,299 per day.

Bulk freight rates dropped towards the end of the third and into the fourth quarter, primarily due to lower demand for coal and iron ore and concern of the global economic development. As at 31 October 2008, TORM had covered 78% of the remaining earning days for 2008 in the Bulk Division at USD 45,550 per day.

.

At the end of the third quarter, the Company's net interest bearing debt totalled USD 1,575 million. More than half of the debt falls due in or after 2013.

As at 31 October 2008, TORM had covered approximately 32% of

the total fleet's earning days in 2009.

The historically good result in combination with the development of the share price has led TORM to propose an interim dividend of DKK 4.50 per share. The company will call in for an extraordinary general meeting.

"Although the product tanker market, TORM's principal business area, is currently doing well, we have taken a number of risk precautions both internally and vis-à-vis customers, suppliers and financial counterparties in order to limit the effects if the financial crisis continues. Our strong balance sheet and financial resources provide a solid foundation for the Company to manoeuvre in more difficult market conditions in 2009," announces CEO Mikael Skov.

Tanker Division

The Tanker Division achieved an operating profit of USD 67.8 million in the third quarter of 2008 against USD 52.5 million in the second quarter of 2008. The share of results of jointly controlled entities, which for the year amounted to USD 11.7 million, FR8 contributed a profit of USD 12.5 million and OMI a loss of USD 6.6 million.

The market for transport of crude oil was very positive in the first part of the third quarter. This primarily benefited the LR2 fleet. In the latter part of the quarter, earnings were highest for transport of refined oil products. The LR2 and LR1 vessels' earnings were very high, but MR and SR vessels also enjoyed good earnings during the quarter. At the beginning of the fourth quarter, product tanker rates have dropped, but still remain at seasonably high levels.

The tanker market was affected by the following significant factors in the third quarter of 2008: Positive impact:

 The drop in fuel prices from USD 700 per ton to USD 550 per ton positively affected earnings measured in terms of TCE levels, equalling an improvement of earnings of approximately USD 6.000 per day for an LR1 vessel.

- · Following hurricanes Gustav and Ike, up to 160 vessels were waiting to load and discharge in the Gulf of Mexico, a major factor in the balance between supply and demand for the MR fleet, in particular.
- · Increased European demand for gas oil and diesel fuel meant more cargoes from Japan and South Korea, increasing transport distances for the large LR1 and LR2 vessels.

ANNOUNCEMENT NO. 22 - 2008

 $21\ \text{NOVEMBER}\ 2008/\text{A/S}\ \text{DAMPSKIBSSELSKABET}\ \text{TORM}$ - INTERNATIONAL THIRD QUARTER

· Increased imports of refined oil products to Western Africa meant longer transport distances and longer chargeable waiting times, primarily benefiting the LR1 fleet.

Negative impact:

- · The financial crisis and declining economic growth have reduced the number of arbitrage-based transports.
- Rising stocks of naphtha in the Far East negatively affected the LR2 fleet.

TORM's Tanker Division achieved freight rates in the third quarter of 2008 that were 122% higher than in the third quarter of 2007 for the LR2 segment, 15% higher for the MR segment, and 24% higher for the SR segment, while the rates obtained for the LR1 segment were 14% lower.

ANNOUNCEMENT NO. 22 - 2008

Bulk The Bulk Division achieved an operating profit of USD 48.7 million for the third quarter of 2008. Division

Bulk freight rates collapsed towards the end of the third and into the beginning of the fourth quarter. At the beginning of the third quarter, earnings per day for a Panamax bulk carrier amounted to approximately USD 79,000, whereas at the end of the third quarter the same earnings had dropped to approximately USD 32,000 per day. At the beginning of the fourth quarter, freight rates have dropped further to approximately USD 12-15,000 per day for a one-year T/C agreement. The outlook for bulk freight rates remains negatively impacted by the US and European recession and by large iron ore stocks in China.

The number of available earning days in TORM's Panamax segment was 13% higher in the third quarter of 2008 than in the third quarter of 2007. Similarly, earnings were 85% up on the same quarter of 2007.

Pools As at 30 September 2008, the three product tanker pools in which TORM participates comprised a total of 86 vessels, 50 of which were TORM vessels. To this should be added 23 vessels which TORM operates outside pools. By the end of 2008, the three pools are expected to comprise a total of 91 vessels, of which 56 will be TORM vessels.

Results

Third The third quarter of 2008 showed a gross profit of USD 152 million, against USD 90 million for the quartercorresponding quarter of 2007. Profit before depreciation (EBITDA) for the period was USD 145 million, against USD 79 million for the third quarter of 2007. The increase in both gross profit and EBITDA was primarily due to increased earnings as a result of a larger number of earning days and higher freight rates in the Tanker Division and higher freight rates in the Bulk Division.

In the third quarter of 2008, depreciation amounted to USD 31 million.

The operating profit for the third quarter of 2008 was USD 120 million, against USD 48 million in the same quarter of 2007. The Tanker and Bulk Divisions contributed USD 68 million and USD 49 million respectively, whereas USD 3 million is unallocated.

In the third quarter of 2008, financial items amounted to USD -28 million, against USD -10 million in the corresponding quarter of 2007. Financial expenses for the third quarter of 2008 were impacted by an expense of approximately USD 11 million relating to fair value adjustment of financial derivatives (interest rate swaps, forward exchange contracts, etc.).

Profit after tax for the third quarter was USD 91 million, including a profit of USD 11 million from the sale of vessels, against USD 35 million in the third quarter of 2007.

Assets Total assets rose from USD 3,211 million to USD 3,243 million in the third quarter of 2008.

Liabilities During the third quarter of 2008, the Company's net interest bearing debt was reduced from USD 1,689 million to USD 1,575 million. The item mainly comprised net borrowing in connection with the delivery of vessels and positive cash earnings during the period. More than half of the debt falls due in or after 2013. The Company has unutilised credit facilities and cash in excess of USD 700 million.

Equity During the third quarter of 2008, equity rose from USD 1,211 million to USD 1,269 million as a result of earnings during the period. Equity as a percentage of total assets increased from 37.7% at 39 June 2008 to 39.1% as at 30 September 2008.

ANNOUNCEMENT NO. 22 - 2008

As at 30 September 2008, TORM held 3,556,364 treasury shares, corresponding to 4.9% of the Company's share capital, which is unchanged compared with 30 June 2008.

Subsequent During the fourth quarter of 2008, TORM has delivered TORM Gotland to the buyer, realising a profit of events USD 20 million in this quarter.

Expectations TORM maintains a forecast pre-tax profit for 2008 of USD 355 – 370 million as announced on 11 August 2008 (announcement no. 16/2008).

Sensitivity At 31 October 2008, approximately 63% of the earning days of the Company's product tankers were covered for the remainder of the year. For the Bulk Division, approximately 78% of the remaining operating days were covered for the rest of the year. In the Bulk Division, TORM solely uses physical agreements for hedging purposes, and has thus not been involved in the market for forward purchases or sales of freight agreements.

Safe Harbor Forward-looking statements Matters discussed in this release may constitute forward-looking statements. Forward-looking statements reflect our current views with respect to future events and financial performance and may include statements concerning plans, objectives, goals, strategies, future events or performance, and underlying assumptions and other statements, which are other than statements of historical facts. The forward-looking statements in this release are based upon various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, Management's examination of historical operating trends, data contained in our records and other data available from third parties. Although TORM believes that these assumptions were reasonable when made, because these assumptions are inherently subject to significant

uncertainties and contingencies which are difficult or impossible to predict and are beyond our control, TORM cannot assure you that it will achieve or accomplish these expectations, beliefs or projections.

Important factors that, in our view, could cause actual results to differ materially from those discussed in the forward looking statements include the strength of world economies and currencies, changes in charter hire rates and vessel values, changes in demand for "tonne miles" of oil carried by oil tankers, the effect of changes in OPEC's petroleum production levels and worldwide oil consumption and storage, changes in demand that may affect attitudes of time charterers to scheduled and unscheduled dry-docking, changes in TORM's operating expenses, including bunker prices, dry-docking and insurance costs, changes in governmental rules and regulations including requirements for double hull tankers or actions taken by regulatory authorities, potential liability from pending or future litigation, domestic and international political conditions, potential disruption of shipping routes due to accidents and political events or acts by terrorists. Risks and uncertainties are further described in reports filed by TORM with the US Securities and Exchange Commission, including the TORM Annual Report on Form 20-F and its reports on Form 6-K.

Forward looking statements are based on management's current evaluation, and TORM is only under obligation to update and change the listed expectations to the extent required by law.

ANNOUNCEMENT NO. 22 - 2008

The TORM share

The price of a TORM share was DKK 126.2 at 30 September 2008, against DKK 167.1 at the beginning of the third quarter – equivalent to a decrease of DKK 40.9 (24%).

Accounting policies

The interim report for the third quarter of 2008 has been prepared using the same accounting policies as for the Annual Report 2007, except that the Company has changed its accounting policy for the recognition of investments in joint ventures so that these are recognised according to the equity method. Previously, joint ventures were recognised on a pro rata basis. The change in accounting policy is due to the fact that the Company finds it inappropriate to aggregate the items of joint ventures with items of entities that form an integral part of the Company's activities. The policy change has no effect on the income statement or on equity, but the profit for the year of joint ventures and the investment in these are presented in a single line item in the income statement and the balance sheet, respectively. Furthermore, the takeover balance sheet in connection with the acquisition of 50% of OMI in June 2007 has been finalised. As a result of the change in accounting policy and the finalised OMI takeover balance sheet, the operating profit and net cash flows for 2007 were reduced by USD 5.9 million and USD 11.6 million, respectively, and invested capital at 31 December 2007 was increased by USD 12.5 million.

In addition, TORM has implemented IAS 34, "Interim Financial Reporting". The implementation has not led to any changes in the income statement or equity, but has caused minor changes to the presentation and a few additions to the disclosures.

The accounting policies are described in more detail in the Annual Report 2007.

The interim report for the third quarter of 2008 is unaudited, in line with the normal practice.

Next reporting

TORM's Annual Report for 2008 will be released on 11 March 2009.

Statement by the Board of Directors and Management on the Interim Report

The Board of Directors and Management have considered and approved the interim report for the period 1 January -30 September 2008.

The interim report, which is unaudited, has been prepared in accordance with the general Danish financial reporting requirements governing listed companies, including the measurement and recognition provisions in IFRS which are expected to be applicable for the Annual Report 2008.

ANNOUNCEMENT NO. 22 - 2008

We consider the accounting policies applied to be appropriate, and in our opinion the interim report gives a true and fair view of the Group's assets, liabilities, financial position and of the results of operations and consolidated cash flows.
