PART I - FINANCIAL INFORMATION

ITEM 1. FINANCIAL STATEMENTS

We refer to Highwoods Properties, Inc. as the “Company,” Highwoods Realty Limited Partnership as the “Operating Partnership,” the Company’s common stock as “Common Stock” or “Common Shares,” the Company’s preferred stock as “Preferred Stock” or “Preferred Shares,” the Operating Partnership’s common partnership interests as “Common Units,” the Operating Partnership’s preferred partnership interests as “Preferred Units” and in-service properties (excluding for-sale residential condominiums) to which the Company and/or the Operating Partnership have title and 100.0% ownership rights as the “Wholly Owned Properties.” References to “we” and “our” mean the Company and the Operating Partnership, collectively, unless the context indicates otherwise.

The partnership agreement provides that the Operating Partnership will assume and pay when due, or reimburse the Company for payment of, all costs and expenses relating to the ownership and operations of, or for the benefit of, the Operating Partnership. The partnership agreement further provides that all expenses of the Company are deemed to be incurred for the benefit of the Operating Partnership.

Certain information contained herein is presented as of April 26, 2012, the latest practicable date prior to the filing of this Quarterly Report.

HIGHWOODS PROPERTIES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2012

(tabular dollar amounts in thousands, except per share data)

(Unaudited)

1. Description of Business and Significant Accounting Policies

Description of Business

Highwoods Properties, Inc., together with its consolidated subsidiaries (the “Company”), is a fully-integrated, self-administered and self-managed equity real estate investment trust (“REIT”) that provides leasing, management, development, construction and other customer-related services for its properties and for third parties. The Company conducts virtually all of its activities through Highwoods Realty Limited Partnership (the “Operating Partnership”). At March 31, 2012, the Company and/or the Operating Partnership wholly owned: 303 in-service office, industrial and retail properties, comprising 29.3 million square feet; 14 for-sale residential condominiums; 581 acres of undeveloped land suitable for future development, of which 518 acres are considered core assets; one office property planned for development; and one office property that is considered completed but not yet stabilized.

The Company is the sole general partner of the Operating Partnership. At March 31, 2012, the Company owned all of the Preferred Units and 73.2 million, or 95.2%, of the Common Units in the Operating Partnership. Limited partners, including one officer and two directors of the Company, own the remaining 3.7 million Common Units. In the event the Company issues shares of Common Stock, the net proceeds are contributed to the Operating Partnership in exchange for additional Common Units. Generally, the Operating Partnership is required to redeem each Common Unit at the request of the holder thereof for cash equal to the value of one share of the Company’s Common Stock, \$0.01 par value, based on the average of the market price for the 10 trading days immediately preceding the notice date of such redemption, provided that the Company at its option may elect to acquire any such Common Units presented for redemption for cash or one share of Common Stock. The Common Units owned by the Company are not redeemable. During the three months ended March 31, 2012, the Company redeemed 2,000 Common Units for a like number of shares of Common Stock. The redemptions, in conjunction with the proceeds from issuances of Common Stock contributed to the Operating Partnership in exchange for additional Common Units, increased the percentage of Common Units owned by the Company from 95.1% at December 31, 2011 to 95.2% at March 31, 2012.

Common Stock Offerings

The Company has entered into equity sales agreements with various financial institutions to offer and sell, from time to time, shares of its Common Stock by means of ordinary brokers' transactions on the New York Stock Exchange or otherwise at market prices prevailing at the time of sale, at prices related to prevailing market prices or at negotiated prices or as otherwise agreed with any of the institutions. During the first quarter of 2012, the Company issued 785,500 shares of Common Stock under these agreements at an average gross sales price of \$32.82 per share raising net proceeds, after sales commissions and expenses, of \$25.4 million.

Basis of Presentation

Our Consolidated Financial Statements are prepared in conformity with accounting principles generally accepted in the United States of America (“GAAP”). Our Consolidated Balance Sheet at December 31, 2011 was revised from previously reported amounts to reflect in real estate and other assets, net, held for sale those properties which qualified as held for sale during the three months ended March 31, 2012. Our Consolidated Statements of Income for the three months ended March 31, 2011 were revised from previously reported amounts to reflect in discontinued operations the

operations for those properties that qualified for discontinued operations. Prior period amounts related to capital expenditures in our Consolidated Statements of Cash Flows have been reclassified to conform to the current period presentation.

Our Consolidated Financial Statements include the Operating Partnership, wholly owned subsidiaries and those entities in which we have the controlling financial interest. All significant intercompany transactions and accounts have been eliminated. At March 31, 2012 and December 31, 2011, we had involvement with no entities that we concluded to be variable interest entities.

HIGHWOODS PROPERTIES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(tabular dollar amounts in thousands, except per share data)

1. Description of Business and Significant Accounting Policies – Continued

The unaudited interim consolidated financial statements and accompanying unaudited consolidated financial information, in the opinion of management, contain all adjustments (including normal recurring accruals) necessary for a fair presentation of our financial position, results of operations and cash flows. We have omitted certain notes and other information from the interim consolidated financial statements presented in this Quarterly Report on Form 10-Q as permitted by SEC rules and regulations. These Consolidated Financial Statements should be read in conjunction with our 2011 Annual Report on Form 10-K.

Use of Estimates

The preparation of consolidated financial statements in accordance with GAAP requires us to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates.

Recently Issued Accounting Standards

As a result of adopting certain new or amended accounting pronouncements in the first quarter of 2012, we have enhanced our disclosure of assets and liabilities measured at fair value and elected to continue use of credit valuation adjustments on a net basis by counterparty as part of the calculation to determine the fair value of our derivatives. Our disclosures now include: (1) significant transfers between Levels 1 and 2 of the fair value hierarchy, if any; (2) additional quantitative and qualitative information regarding fair value measurements categorized as Level 3 of the fair value hierarchy; and (3) the hierarchy classification for items whose fair value is not recorded on our Consolidated Balance Sheets but was disclosed previously in our Notes to Consolidated Financial Statements. Additionally, we have presented comprehensive income in a separate financial statement entitled Consolidated Statements of Comprehensive Income.

2. Real Estate Assets

Dispositions

During the first quarter of 2012, we sold 96 vacant rental residential units in Kansas City, MO for gross proceeds of \$11.0 million. We recorded gain on disposition of discontinued operations of \$5.1 million related to this disposition.

3. Mortgages and Notes Receivable

The following table sets forth our mortgages and notes receivable:

	March 31, 2012	December 31, 2011
Seller financing (first mortgages)	\$15,807	\$17,180
Less allowance	—	—
	15,807	17,180
Promissory notes	1,434	1,481
Less allowance	(122)	(61)

	1,312	1,420
Mortgages and notes receivable, net	\$17,119	\$ 18,600

Our mortgages and notes receivable consist primarily of seller financing issued in conjunction with two disposition transactions in 2010. This seller financing is evidenced by first mortgages secured by the assignment of rents and the underlying real estate assets. We evaluate the collectibility of the receivables by monitoring the leasing statistics and market fundamentals of these assets. As of March 31, 2012, the payments on both mortgages receivable were current and there were no other indications of impairment on the receivables. We may be required to take impairment charges in the future if and to the extent the underlying collateral diminishes in value.

3. Mortgages and Notes Receivable - Continued

The following table sets forth our notes receivable allowance, which relates only to promissory notes:

	Three Months Ended	
	March 31,	
	2012	2011
Beginning notes receivable allowance	\$61	\$868
Bad debt expense	—	22
Recoveries/write-offs/other	61	(393)
Total notes receivable allowance	\$122	\$497

4. Investments in and Advances to Affiliates

Unconsolidated Affiliates

We have equity interests of up to 50.0% in various joint ventures with unrelated third parties and a secured debt interest in one of those joint ventures, as described below. The following table sets forth the combined, summarized income statements for our unconsolidated joint ventures:

	Three Months Ended	
	March 31,	
	2012	2011
Income Statements:		
Rental and other revenues	\$24,820	\$25,217
Expenses:		
Rental property and other expenses	11,416	11,997
Depreciation and amortization	6,565	6,616
Impairment of real estate assets	7,180	—
Interest expense	5,830	6,007
Total expenses	30,991	24,620
Net income/(loss)	\$(6,171)	\$597
Our share of:		
Depreciation and amortization of real estate assets	\$2,098	\$2,093
Impairment of real estate assets	\$1,002	\$—
Interest expense	\$1,980	\$2,161
Net income/(loss)	\$(795)	\$921
Our share of net income/(loss)	\$(795)	\$921
Purchase accounting and management, leasing and other fees adjustments	633	546
Equity in earnings/(losses) of unconsolidated affiliates	\$(162)	\$1,467

In 2011, we provided a \$38.3 million interest-only secured loan to our DLF I joint venture that originally was scheduled to mature in March 2012. The loan bears interest at LIBOR plus 500 basis points. During the first quarter of 2012, the maturity date of the loan was extended to June 30, 2012. We recorded \$0.4 million of interest income from

this loan in interest and other income during the three months ended March 31, 2012. There was no interest income recorded for this loan during the three months ended March 31, 2011.

During the first quarter of 2012, we recorded \$1.0 million as our share of impairment of real estate assets on two office properties in our DLF I joint venture, due to a decline in projected occupancy and a change in the assumed holding period of those assets, which reduced the expected future cash flows from the properties.

Table of Contents

HIGHWOODS PROPERTIES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(tabular dollar amounts in thousands, except per share data)

5. Intangible Assets and Below Market Lease Liabilities - Continued

The weighted average remaining amortization periods for deferred financing costs, deferred leasing costs and acquisition-related intangible assets (in depreciation and amortization), lease incentives (in rental and other revenues), acquisition-related intangible assets (in rental and other revenues) and acquisition-related below market lease liabilities (in rental and other revenues) were 4.0 years, 6.2 years, 8.0 years, 5.7 years and 8.4 years, respectively, as of March 31, 2012.

6. Mortgages and Notes Payable

The following table sets forth our mortgages and notes payable:

	March 31, 2012	December 31, 2011
Secured indebtedness	\$746,784	\$ 750,049
Unsecured indebtedness	1,157,194	1,153,164
Total mortgages and notes payable	\$1,903,978	\$ 1,903,213

At March 31, 2012, our secured mortgage loans were secured by real estate assets with an aggregate undepreciated book value of \$1.2 billion.

Our \$475.0 million unsecured revolving credit facility is scheduled to mature on July 27, 2015 and includes an accordion feature that allows for an additional \$75.0 million of borrowing capacity subject to additional lender commitments. Assuming no defaults have occurred, we have an option to extend the maturity for an additional year. The interest rate at our current credit ratings is LIBOR plus 150 basis points and the annual facility fee is 35 basis points. The interest rate and facility fee are based on the higher of the publicly announced ratings from Moody's Investors Service or Standard & Poor's Ratings Services. We use our revolving credit facility for working capital purposes and for the short-term funding of our development and acquisition activity and, in certain instances, the repayment of other debt. Continuing ability to borrow under the revolving credit facility allows us to quickly capitalize on strategic opportunities at short-term interest rates. There was \$141.0 million and \$112.0 million outstanding under our revolving credit facility at March 31, 2012 and April 26, 2012, respectively. At both March 31, 2012 and April 26, 2012, we had \$0.2 million of outstanding letters of credit, which reduces the availability on our revolving credit facility. As a result, the unused capacity of our revolving credit facility at March 31, 2012 and April 26, 2012 was \$333.8 million and \$362.8 million, respectively.

In the first quarter of 2012, we obtained a \$225.0 million, seven-year unsecured bank term loan bearing interest of LIBOR plus 190 basis points. The proceeds were used to pay off amounts then outstanding under our revolving credit facility.

We are currently in compliance with the debt covenants and other requirements with respect to our outstanding debt.

7. Derivative Financial Instruments

We have six floating-to-fixed interest rate swaps for seven-year periods each with respect to an aggregate of \$225.0 million LIBOR-based borrowings. These swaps effectively fix the underlying LIBOR rate at a weighted average of

1.678%. The counterparties under the swaps are major financial institutions. These swaps have been designated as and are being accounted for as cash flow hedges with changes in fair value recorded in other comprehensive income each reporting period. No gain or loss was recognized related to hedge ineffectiveness or to amounts excluded from effectiveness testing on our cash flow hedges during the three months ended March 31, 2012.

Amounts reported in accumulated other comprehensive loss ("AOCL") related to derivatives will be reclassified to interest expense as interest payments are made on our variable-rate debt. During the period from April 1, 2012 through March 31, 2013, we estimate that \$3.1 million will be reclassified as an increase to interest expense.

7. Derivative Financial Instruments - Continued

The following table sets forth the fair value of our derivative instruments:

	March 31, 2012	December 31, 2011
Liability Derivatives:		
Derivatives designated as cash flow hedges in other liabilities:		
Interest rate swaps	\$1,098	\$ 2,202

The following table sets forth the effect of our cash flow hedges on AOCL and interest expense:

	Three Months Ended March 31,	
	2012	2011
Derivatives Designated as Cash Flow Hedges:		
Amount of unrealized gain recognized in AOCL on derivatives (effective portion):		
Interest rate swaps	\$1,104	\$—
Amount of (gain) reclassified out of AOCL into contractual interest expense (effective portion):		
Interest rate swaps	\$(33) \$(29

8. Noncontrolling Interests

Noncontrolling Interests in the Operating Partnership

Noncontrolling interests in the Operating Partnership relate to the ownership of Common Units by various individuals and entities other than the Company. Net income attributable to noncontrolling interests in the Operating Partnership is computed by applying the weighted average percentage of Common Units not owned by the Company during the period, as a percent of the total number of outstanding Common Units, to the Operating Partnership's net income for the period after deducting distributions on Preferred Units. When a noncontrolling unitholder redeems a Common Unit for a share of Common Stock or cash, the noncontrolling interests in the Operating Partnership are reduced and the Company's share in the Operating Partnership is increased by the fair value of each security at the time of redemption.

The following table sets forth noncontrolling interests in the Operating Partnership:

	Three Months Ended March 31,	
	2012	2011
Beginning noncontrolling interests in the Operating Partnership	\$110,655	\$120,838
Adjustments of noncontrolling interests in the Operating Partnership to fair value	14,366	13,081
Conversion of Common Units to Common Stock	(63) (186
Net income attributable to noncontrolling interests in the Operating Partnership	827	507
Distributions to noncontrolling interests in the Operating Partnership	(1,584) (1,610

Total noncontrolling interests in the Operating Partnership	\$ 124,201	\$ 132,630
-------------------------------------------------------------	------------	------------

8. Noncontrolling Interests - Continued

The following table sets forth net income available for common stockholders and transfers from noncontrolling interests in the Operating Partnership:

	Three Months Ended March 31,	
	2012	2011
Net income available for common stockholders	\$ 16,694	\$ 10,136
Increase in additional paid in capital from conversion of Common Units to Common Stock	63	186
Change from net income available for common stockholders and transfers from noncontrolling interests	\$ 16,757	\$ 10,322

Noncontrolling Interests in Consolidated Affiliates

At March 31, 2012, noncontrolling interests in consolidated affiliates relates to our joint venture partner's 50.0% interest in office properties located in Richmond, VA. Our joint venture partner is an unrelated third party.

9. Disclosure About Fair Value of Financial Instruments

The following summarizes the three levels of inputs that we use to measure fair value, as well as the assets, noncontrolling interests in the Operating Partnership and liabilities that we recognize at fair value using those levels of inputs.

Level 1. Quoted prices in active markets for identical assets or liabilities.

Our Level 1 assets are investments in marketable securities that we use to pay benefits under our non-qualified deferred compensation plan. Our Level 1 noncontrolling interests in the Operating Partnership relate to the ownership of Common Units by various individuals and entities other than the Company. Our Level 1 liability is our non-qualified deferred compensation obligation.

Level 2. Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the related assets or liabilities.

Our Level 2 asset is the fair value of our mortgages and notes receivable, which was estimated by the income approach utilizing contractual cash flows and market-based interest rates to approximate the price that would be paid in an orderly transaction between market participants.

Our Level 2 liabilities include (1) the fair value of our mortgages and notes payable, which was estimated by the income approach utilizing contractual cash flows and market-based interest rates to approximate the price that would be paid in an orderly transaction between market participants and (2) interest rate swaps whose fair value is determined using the market standard methodology of netting the discounted future fixed cash receipts and the discounted expected variable cash payments. The variable cash payments of our interest rate swaps are based on the expectation of future LIBOR interest rates (forward curves) derived from observed market LIBOR interest rate

curves. In addition, credit valuation adjustments are incorporated in the fair values to account for potential nonperformance risk, but were concluded to not be significant inputs to the calculation for the periods presented.

Level 3. Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Our Level 3 assets include our tax increment financing bond, which is not routinely traded but whose fair value is determined by the income approach utilizing contractual cash flows and market-based interest rates to estimate the projected redemption value based on quoted bid/ask prices for similar unrated municipal bonds and real estate assets and for-sale residential condominiums recorded at fair value on a non-recurring basis as a result of our quarterly impairment analyses, which were valued using broker opinion of value and substantiated by internal cash flow projections.

HIGHWOODS PROPERTIES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(tabular dollar amounts in thousands, except per share data)

9. Disclosure About Fair Value of Financial Instruments - Continued

Our Level 3 liability is the fair value of our financing obligations, which was estimated by the income approach to approximate the price that would be paid in an orderly transaction between market participants, utilizing: (1) contractual cash flows; (2) market-based interest rates; and (3) a number of other assumptions including demand for space, competition for customers, changes in market rental rates, costs of operation and expected ownership periods.

The following tables set forth the assets, noncontrolling interests in the Operating Partnership and liabilities that we measure at fair value by level within the fair value hierarchy. We determine the level based on the lowest level of substantive input used to determine fair value.

	March 31, 2012	Level 1 Quoted Prices in Active Markets for Identical Assets or Liabilities	Level 2 Significant Observable Inputs	Level 3 Significant Unobservable Inputs
Assets:				
Mortgages and notes receivable, at fair value (1)	\$17,488	\$—	\$17,488	\$—
Marketable securities of non-qualified deferred compensation plan (in prepaid expenses and other assets)	3,219	3,219	—	—
Tax increment financing bond (in prepaid expenses and other assets)	15,075	—	—	15,075
Total Assets	\$35,782	\$3,219	\$17,488	\$15,075
Noncontrolling Interests in the Operating Partnership	\$124,201	\$124,201	\$—	\$—
Liabilities:				
Mortgages and notes payable, at fair value (1)	\$2,000,039	\$—	\$2,000,039	\$—
Interest rate swaps (in accounts payable, accrued expenses and other liabilities)	1,098	—	1,098	—
Non-qualified deferred compensation obligation (in accounts payable, accrued expenses and other liabilities)	3,219	3,219	—	—
Financing obligations, at fair value (1)	20,076	—	—	20,076
Total Liabilities	\$2,024,432	\$3,219	\$2,001,137	\$20,076

(1) Amounts carried at historical cost on our Consolidated Balance Sheets at March 31, 2012 and December 31, 2011, respectively.

The following table sets forth the changes in our Level 3 asset, which is recorded at fair value on our Consolidated Balance Sheets on a recurring basis:

	Three Months Ended March 31,	
	2012	2011
Asset:		
Tax Increment Financing Bond:		
Beginning balance	\$ 14,788	\$ 15,699
Unrealized gain/(loss) (in AOCL)	287	(135)
Ending balance	\$ 15,075	\$ 15,564

In 2007, we acquired a tax increment financing bond associated with a parking garage developed by us. This bond amortizes to maturity in 2020. The estimated fair value at March 31, 2012 was \$2.0 million below the outstanding principal due on the bond. If the discount rate used to fair value this bond was 100 basis points higher or lower, the fair value of the bond would have been \$0.6 million lower or \$0.6 million higher, respectively, as of March 31, 2012. Currently, we intend to hold this bond and have concluded that we will not be required to sell this bond before recovery of the bond principal. Payment of the principal and interest for the bond is guaranteed by us and, therefore, we have recorded no credit losses related to the bond in the three months ended March 31, 2012 and 2011. There is no legal right of offset with the liability, which we report as a financing obligation, related to this tax increment financing bond.

Table of Contents

HIGHWOODS PROPERTIES, INC.

(tabular dollar amounts in thousands, except per share data)

9. Disclosure About Fair Value of Financial Instruments - Continued

The following table sets forth quantitative information about the unobservable inputs of our Level 3 asset, which is recorded at fair value on our Consolidated Balance Sheets on a recurring basis:

	Fair Value at March 31, 2012	Valuation Technique	Unobservable Input	Discount Rate
Tax increment financing bond	\$15,075	Income approach	Discount rate	10.71 %

10. Share-based Payments

During the three months ended March 31, 2012, we granted 190,886 stock options with an exercise price equal to the closing market price of a share of our Common Stock on the date of grant. The fair value of each option grant is estimated on the date of grant using the Black-Scholes option pricing model, which resulted in a weighted average grant date fair value per share of \$5.47. During the three months ended March 31, 2012, we also granted 83,489 shares of time-based restricted stock and 67,902 shares of total return-based restricted stock with weighted average grant date fair values per share of \$32.18 and \$38.71, respectively. We recorded stock-based compensation expense of \$2.4 million and \$2.0 million during the three months ended March 31, 2012 and 2011, respectively. At March 31, 2012, there was \$9.4 million of total unrecognized stock-based compensation costs, which will be recognized over a weighted average remaining contractual term of 2.8 years.

11. Accumulated Other Comprehensive Loss

The following table sets forth the components of accumulated other comprehensive loss:

	Three Months Ended March 31,	
	2012	2011
Tax increment financing bond:		
Beginning balance	\$(2,309)	\$(2,543)
Unrealized gain/(loss) on tax increment financing bond	287	(135)
Ending balance	(2,022)	(2,678)
Cash flow hedges:		
Beginning balance	(3,425)	(1,105)
Unrealized gains on cash flow hedges	1,104	—
Amortization of settled cash flow hedges	(33)	(29)
Ending balance	(2,354)	(1,134)

13. Earnings Per Share

The following table sets forth the computation of basic and diluted earnings per share:

	Three Months Ended March 31,	
	2012	2011
Earnings per Common Share - basic:		
Numerator:		
Income from continuing operations	\$13,115	\$11,903
Net (income) attributable to noncontrolling interests in the Operating Partnership from continuing operations	(571)	(480)
Net (income) attributable to noncontrolling interests in consolidated affiliates from continuing operations	(184)	(123)
Dividends on Preferred Stock	(627)	(1,677)
Income from continuing operations available for common stockholders	11,733	9,623
Income from discontinued operations	5,217	540
Net (income) attributable to noncontrolling interests in the Operating Partnership from discontinued operations	(256)	(27)
Income from discontinued operations available for common stockholders	4,961	513
Net income available for common stockholders	\$16,694	\$10,136
Denominator:		
Denominator for basic earnings per Common Share – weighted average shares (1) (2)	72,836	71,817
Earnings per Common Share - basic:		
Income from continuing operations available for common stockholders	\$0.16	\$0.13
Income from discontinued operations available for common stockholders	0.07	0.01
Net income available for common stockholders	\$0.23	\$0.14
Earnings per Common Share - diluted:		
Numerator:		
Income from continuing operations	\$13,115	\$11,903
Net (income) attributable to noncontrolling interests in consolidated affiliates from continuing operations	(184)	(123)
Dividends on Preferred Stock	(627)	(1,677)
Income from continuing operations available for common stockholders before net (income) attributable to noncontrolling interests in the Operating Partnership	12,304	10,103
Income from discontinued operations available for common stockholders	5,217	540
Net income available for common stockholders before net (income) attributable to noncontrolling interests in the Operating Partnership	\$17,521	\$10,643
Denominator:		
Denominator for basic earnings per Common Share –weighted average shares (1) (2)	72,836	71,817
Add:		
Stock options using the treasury method	132	185
Noncontrolling interests Common Units	3,728	3,790
	76,696	75,792

Denominator for diluted earnings per Common Share – adjusted weighted average shares and assumed conversions (1)

Earnings per Common Share - diluted:

Income from continuing operations available for common stockholders	\$0.16	\$0.13
Income from discontinued operations available for common stockholders	0.07	0.01
Net income available for common stockholders	\$0.23	\$0.14

There were 0.6 million and 0.3 million options outstanding during the three months ended March 31, 2012 and (1)2011, respectively, that were not included in the computation of diluted earnings per share because the impact of including such options would be anti-dilutive.

(2)Includes all unvested restricted stock since dividends on such restricted stock are non-forfeitable.

15. Subsequent Events

In early April 2012, the Company issued 307,900 shares of Common Stock from sales in the first quarter of 2012 under our equity sales agreements at an average gross sales price of \$32.93 per share raising net proceeds, after sales commissions and expenses, of \$10.0 million.

On April 25, 2012, we sold an office property located near Tampa, FL for gross proceeds of \$9.5 million. We expect to record a gain on disposition of discontinued operations of \$1.4 million related to this transaction.

On April 27, 2012, we acquired a 178,300 square foot office property in Cary, NC from our DLF I joint venture for \$26.0 million. The joint venture's net proceeds of \$25.3 million were all used to reduce the balance of the advance due to us from the joint venture.

HIGHWOODS REALTY LIMITED PARTNERSHIP
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2012

(tabular dollar amounts in thousands, except per unit data)

(Unaudited)

1. Description of Business and Significant Accounting Policies

Description of Business

Highwoods Properties, Inc., together with its consolidated subsidiaries (the “Company”), is a fully-integrated, self-administered and self-managed equity real estate investment trust (“REIT”) that provides leasing, management, development, construction and other customer-related services for its properties and for third parties. The Company conducts virtually all of its activities through Highwoods Realty Limited Partnership (the “Operating Partnership”). At March 31, 2012, the Company and/or the Operating Partnership wholly owned: 303 in-service office, industrial and retail properties, comprising 29.3 million square feet; 14 for-sale residential condominiums; 581 acres of undeveloped land suitable for future development, of which 518 acres are considered core assets; one office property planned for development; and one office property that is considered completed but not yet stabilized.

The Company is the sole general partner of the Operating Partnership. At March 31, 2012, the Company owned all of the Preferred Units and 73.2 million, or 95.2%, of the Common Units in the Operating Partnership. Limited partners, including one officer and two directors of the Company, own the remaining 3.7 million Common Units. In the event the Company issues shares of Common Stock, the net proceeds are contributed to the Operating Partnership in exchange for additional Common Units. Generally, the Operating Partnership is required to redeem each Common Unit at the request of the holder thereof for cash equal to the value of one share of the Company’s Common Stock, \$0.01 par value, based on the average of the market price for the 10 trading days immediately preceding the notice date of such redemption, provided that the Company at its option may elect to acquire any such Common Units presented for redemption for cash or one share of Common Stock. The Common Units owned by the Company are not redeemable. During the three months ended March 31, 2012, the Company redeemed 2,000 Common Units for a like number of shares of Common Stock. The redemptions, in conjunction with the proceeds from issuances of Common Stock contributed to the Operating Partnership in exchange for additional Common Units, increased the percentage of Common Units owned by the Company from 95.1% at December 31, 2011 to 95.2% at March 31, 2012.

Common Stock Offerings

The Company has entered into equity sales agreements with various financial institutions to offer and sell, from time to time, shares of its Common Stock by means of ordinary brokers' transactions on the New York Stock Exchange or otherwise at market prices prevailing at the time of sale, at prices related to prevailing market prices or at negotiated prices or as otherwise agreed with any of the institutions. During the first quarter of 2012, the Company issued 785,500 shares of Common Stock under these agreements at an average gross sales price of \$32.82 per share raising net proceeds, after sales commissions and expenses, of \$25.4 million, of which \$3.2 million was due to the Operating Partnership at March 31, 2012.

Basis of Presentation

Our Consolidated Financial Statements are prepared in conformity with accounting principles generally accepted in the United States of America (“GAAP”). Our Consolidated Balance Sheet at December 31, 2011 was revised from previously reported amounts to reflect in real estate and other assets, net, held for sale those properties which qualified as held for sale during the three months ended March 31, 2012. Our Consolidated Statements of Income for the three

months ended March 31, 2011 were revised from previously reported amounts to reflect in discontinued operations the operations for those properties that qualified for discontinued operations. Prior period amounts related to capital expenditures in our Consolidated Statements of Cash Flows have been reclassified to conform to the current period presentation.

Our Consolidated Financial Statements include wholly owned subsidiaries and those entities in which we have the controlling financial interest. All significant intercompany transactions and accounts have been eliminated. At March 31, 2012 and December 31, 2011, we had involvement with no entities that we concluded to be variable interest entities.

Table of Contents

HIGHWOODS REALTY LIMITED PARTNERSHIP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(tabular dollar amounts in thousands, except per unit data)

1. Description of Business and Significant Accounting Policies – Continued

The unaudited interim consolidated financial statements and accompanying unaudited consolidated financial information, in the opinion of management, contain all adjustments (including normal recurring accruals) necessary for a fair presentation of our financial position, results of operations and cash flows. We have omitted certain notes and other information from the interim consolidated financial statements presented in this Quarterly Report on Form 10-Q as permitted by SEC rules and regulations. These Consolidated Financial Statements should be read in conjunction with our 2011 Annual Report on Form 10-K.

Use of Estimates

The preparation of consolidated financial statements in accordance with GAAP requires us to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates.

Recently Issued Accounting Standards

As a result of adopting certain new or amended accounting pronouncements in the first quarter of 2012, we have enhanced our disclosure of assets and liabilities measured at fair value and elected to continue use of credit valuation adjustments on a net basis by counterparty as part of the calculation to determine the fair value of our derivatives. Our disclosures now include: (1) significant transfers between Levels 1 and 2 of the fair value hierarchy, if any; (2) additional quantitative and qualitative information regarding fair value measurements categorized as Level 3 of the fair value hierarchy; and (3) the hierarchy classification for items whose fair value is not recorded on our Consolidated Balance Sheets but was disclosed previously in our Notes to Consolidated Financial Statements. Additionally, we have presented comprehensive income in a separate financial statement entitled Consolidated Statements of Comprehensive Income.

2. Real Estate Assets

Dispositions

During the first quarter of 2012, we sold 96 vacant rental residential units in Kansas City, MO for gross proceeds of \$11.0 million. We recorded gain on disposition of discontinued operations of \$5.1 million related to this disposition.

3. Mortgages and Notes Receivable

The following table sets forth our mortgages and notes receivable:

	March 31, 2012	December 31, 2011
Seller financing (first mortgages)	\$ 15,807	\$ 17,180
Less allowance	—	—
	15,807	17,180
Promissory notes	1,434	1,481
Less allowance	(122) (61

	1,312	1,420
Mortgages and notes receivable, net	\$17,119	\$ 18,600

Our mortgages and notes receivable consist primarily of seller financing issued in conjunction with two disposition transactions in 2010. This seller financing is evidenced by first mortgages secured by the assignment of rents and the underlying real estate assets. We evaluate the collectibility of the receivables by monitoring the leasing statistics and market fundamentals of these assets. As of March 31, 2012, the payments on both mortgages receivable were current and there were no other indications of impairment on the receivables. We may be required to take impairment charges in the future if and to the extent the underlying collateral diminishes in value.

Purchase accounting and management, leasing and other fees adjustments	626	540
Equity in earnings/(losses) of unconsolidated affiliates	\$(160)	\$1,475

In 2011, we provided a \$38.3 million interest-only secured loan to our DLF I joint venture that originally was scheduled to mature in March 2012. The loan bears interest at LIBOR plus 500 basis points. During the first quarter of 2012, the maturity date of the loan was extended to June 30, 2012. We recorded \$0.4 million of interest income from

this loan in interest and other income during the three months ended March 31, 2012. There was no interest income recorded for this loan during the three months ended March 31, 2011.

During the first quarter of 2012, we recorded \$1.0 million as our share of impairment of real estate assets on two office properties in our DLF I joint venture, due to a decline in projected occupancy and a change in the assumed holding period of those assets, which reduced the expected future cash flows from the properties.

HIGHWOODS REALTY LIMITED PARTNERSHIP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(tabular dollar amounts in thousands, except per unit data)

5. Intangible Assets and Below Market Lease Liabilities - Continued

The weighted average remaining amortization periods for deferred financing costs, deferred leasing costs and acquisition-related intangible assets (in depreciation and amortization), lease incentives (in rental and other revenues), acquisition-related intangible assets (in rental and other revenues) and acquisition-related below market lease liabilities (in rental and other revenues) were 4.0 years, 6.2 years, 8.0 years, 5.7 years and 8.4 years, respectively, as of March 31, 2012.

6. Mortgages and Notes Payable

The following table sets forth our mortgages and notes payable:

	March 31, 2012	December 31, 2011
Secured indebtedness	\$746,784	\$ 750,049
Unsecured indebtedness	1,157,194	1,153,164
Total mortgages and notes payable	\$1,903,978	\$ 1,903,213

At March 31, 2012, our secured mortgage loans were secured by real estate assets with an aggregate undepreciated book value of \$1.2 billion.

Our \$475.0 million unsecured revolving credit facility is scheduled to mature on July 27, 2015 and includes an accordion feature that allows for an additional \$75.0 million of borrowing capacity subject to additional lender commitments. Assuming no defaults have occurred, we have an option to extend the maturity for an additional year. The interest rate at our current credit ratings is LIBOR plus 150 basis points and the annual facility fee is 35 basis points. The interest rate and facility fee are based on the higher of the publicly announced ratings from Moody's Investors Service or Standard & Poor's Ratings Services. We use our revolving credit facility for working capital purposes and for the short-term funding of our development and acquisition activity and, in certain instances, the repayment of other debt. Continuing ability to borrow under the revolving credit facility allows us to quickly capitalize on strategic opportunities at short-term interest rates. There was \$141.0 million and \$112.0 million outstanding under our revolving credit facility at March 31, 2012 and April 26, 2012, respectively. At both March 31, 2012 and April 26, 2012, we had \$0.2 million of outstanding letters of credit, which reduces the availability on our revolving credit facility. As a result, the unused capacity of our revolving credit facility at March 31, 2012 and April 26, 2012 was \$333.8 million and \$362.8 million, respectively.

In the first quarter of 2012, we obtained a \$225.0 million, seven-year unsecured bank term loan bearing interest of LIBOR plus 190 basis points. The proceeds were used to pay off amounts then outstanding under our revolving credit facility.

We are currently in compliance with the debt covenants and other requirements with respect to our outstanding debt.

7. Derivative Financial Instruments

We have six floating-to-fixed interest rate swaps for seven-year periods each with respect to an aggregate of \$225.0 million LIBOR-based borrowings. These swaps effectively fix the underlying LIBOR rate at a weighted average of

1.678%. The counterparties under the swaps are major financial institutions. These swaps have been designated as and are being accounted for as cash flow hedges with changes in fair value recorded in other comprehensive income each reporting period. No gain or loss was recognized related to hedge ineffectiveness or to amounts excluded from effectiveness testing on our cash flow hedges during the three months ended March 31, 2012.

Amounts reported in accumulated other comprehensive loss ("AOCL") related to derivatives will be reclassified to interest expense as interest payments are made on our variable-rate debt. During the period from April 1, 2012 through March 31, 2013, we estimate that \$3.1 million will be reclassified as an increase to interest expense.

7. Derivative Financial Instruments - Continued

The following table sets forth the fair value of our derivative instruments:

	March 31, 2012	December 31, 2011
Liability Derivatives:		
Derivatives designated as cash flow hedges in other liabilities:		
Interest rate swaps	\$1,098	\$ 2,202

The following table sets forth the effect of our cash flow hedges on AOCL and interest expense:

	Three Months Ended March 31,	
	2012	2011
Derivatives Designated as Cash Flow Hedges:		
Amount of unrealized gain recognized in AOCL on derivatives (effective portion):		
Interest rate swaps	\$1,104	\$—
Amount of (gain) reclassified out of AOCL into contractual interest expense (effective portion):		
Interest rate swaps	\$(33) \$(29

8. Noncontrolling Interests

Noncontrolling Interests in Consolidated Affiliates

At March 31, 2012, noncontrolling interests in consolidated affiliates relates to our joint venture partner's 50.0% interest in office properties located in Richmond, VA. Our joint venture partner is an unrelated third party.

9. Disclosure About Fair Value of Financial Instruments

The following summarizes the three levels of inputs that we use to measure fair value, as well as the assets and liabilities that we recognize at fair value using those levels of inputs.

Level 1. Quoted prices in active markets for identical assets or liabilities.

Our Level 1 assets are investments in marketable securities that we use to pay benefits under our non-qualified deferred compensation plan. Our Level 1 liability is our non-qualified deferred compensation obligation.

Level 2. Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the related assets or liabilities.

Our Level 2 asset is the fair value of our mortgages and notes receivable, which was estimated by the income approach utilizing contractual cash flows and market-based interest rates to approximate the price that would be paid

in an orderly transaction between market participants.

37

Table of Contents

HIGHWOODS REALTY LIMITED PARTNERSHIP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(tabular dollar amounts in thousands, except per unit data)

9. Disclosure About Fair Value of Financial Instruments - Continued

Our Level 2 liabilities include (1) the fair value of our mortgages and notes payable, which was estimated by the income approach utilizing contractual cash flows and market-based interest rates to approximate the price that would be paid in an orderly transaction between market participants and (2) interest rate swaps whose fair value is determined using the market standard methodology of netting the discounted future fixed cash receipts and the discounted expected variable cash payments. The variable cash payments of our interest rate swaps are based on the expectation of future LIBOR interest rates (forward curves) derived from observed market LIBOR interest rate curves. In addition, credit valuation adjustments are incorporated in the fair values to account for potential nonperformance risk, but were concluded to not be significant inputs to the calculation for the periods presented.

Level 3. Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Our Level 3 assets include our tax increment financing bond, which is not routinely traded but whose fair value is determined by the income approach utilizing contractual cash flows and market-based interest rates to estimate the projected redemption value based on quoted bid/ask prices for similar unrated municipal bonds and real estate assets and for-sale residential condominiums recorded at fair value on a non-recurring basis as a result of our quarterly impairment analyses, which were valued using broker opinion of value and substantiated by internal cash flow projections.

Our Level 3 liability is the fair value of our financing obligations, which was estimated by the income approach to approximate the price that would be paid in an orderly transaction between market participants, utilizing: (1) contractual cash flows; (2) market-based interest rates; and (3) a number of other assumptions including demand for space, competition for customers, changes in market rental rates, costs of operation and expected ownership periods.

The following tables set forth the assets and liabilities that we measure at fair value by level within the fair value hierarchy. We determine the level based on the lowest level of substantive input used to determine fair value.

	March 31, 2012	Level 1 Quoted Prices in Active Markets for Identical Assets or Liabilities	Level 2 Significant Observable Inputs	Level 3 Significant Unobservable Inputs
Assets:				
Mortgages and notes receivable, at fair value (1)	\$17,488	\$—	\$17,488	\$—

9. Disclosure About Fair Value of Financial Instruments - Continued

	December 31, 2011	Level 1 Quoted Prices in Active Markets for Identical Assets or Liabilities	Level 2 Significant Observable Inputs	Level 3 Significant Unobservable Inputs
Assets:				
Mortgages and notes receivable, at fair value (1)	\$ 18,990	\$—	\$ 18,990	\$ —
Marketable securities of non-qualified deferred compensation plan (in prepaid expenses and other assets)	3,149	3,149	—	—
Tax increment financing bond (in prepaid expenses and other assets)	14,788	—	—	14,788
Impaired real estate assets and for-sale residential condominiums	12,767	—	—	12,767
Total Assets	\$ 49,694	\$ 3,149	\$ 18,990	\$ 27,555
Liabilities:				
Mortgages and notes payable, at fair value (1)	\$ 1,992,937	\$—	\$ 1,992,937	\$ —
Interest rate swaps (in accounts payable, accrued expenses and other liabilities)	2,202	—	2,202	—
Non-qualified deferred compensation obligation (in accounts payable, accrued expenses and other liabilities)	3,149	3,149	—	—
Financing obligations, at fair value (1)	18,866	—	—	18,866
Total Liabilities	\$ 2,017,154	\$ 3,149	\$ 1,995,139	\$ 18,866

(1) Amounts carried at historical cost on our Consolidated Balance Sheets at March 31, 2012 and December 31, 2011, respectively.

The following table sets forth the changes in our Level 3 asset, which is recorded at fair value on our Consolidated Balance Sheets on a recurring basis:

	Three Months Ended March 31,	
	2012	2011
Asset:		
Tax Increment Financing Bond:		
Beginning balance	\$ 14,788	\$ 15,699
Unrealized gain/(loss) (in AOCL)	287	(135)
Ending balance	\$ 15,075	\$ 15,564

In 2007, we acquired a tax increment financing bond associated with a parking garage developed by us. This bond amortizes to maturity in 2020. The estimated fair value at March 31, 2012 was \$2.0 million below the outstanding

principal due on the bond. If the discount rate used to fair value this bond was 100 basis points higher or lower, the fair value of the bond would have been \$0.6 million lower or \$0.6 million higher, respectively, as of March 31, 2012. Currently, we intend to hold this bond and have concluded that we will not be required to sell this bond before recovery of the bond principal. Payment of the principal and interest for the bond is guaranteed by us and, therefore, we have recorded no credit losses related to the bond in the three months ended March 31, 2012 and 2011. There is no legal right of offset with the liability, which we report as a financing obligation, related to this tax increment financing bond.

9. Disclosure About Fair Value of Financial Instruments - Continued

The following table sets forth quantitative information about the unobservable inputs of our Level 3 asset, which is recorded at fair value on our Consolidated Balance Sheets on a recurring basis:

	Fair Value at March 31, 2012	Valuation Technique	Unobservable Input	Discount Rate
Tax increment financing bond	\$15,075	Income approach	Discount rate	10.71 %

10. Share-based Payments

During the three months ended March 31, 2012, the Company granted 190,886 stock options with an exercise price equal to the closing market price of a share of its Common Stock on the date of grant. The fair value of each option grant is estimated on the date of grant using the Black-Scholes option pricing model, which resulted in a weighted average grant date fair value per share of \$5.47. During the three months ended March 31, 2012, the Company also granted 83,489 shares of time-based restricted stock and 67,902 shares of total return-based restricted stock with weighted average grant date fair values per share of \$32.18 and \$38.71, respectively. We recorded stock-based compensation expense of \$2.4 million and \$2.0 million during the three months ended March 31, 2012 and 2011, respectively. At March 31, 2012, there was \$9.4 million of total unrecognized stock-based compensation costs, which will be recognized over a weighted average remaining contractual term of 2.8 years.

11. Accumulated Other Comprehensive Loss

The following table sets forth the components of accumulated other comprehensive loss:

	Three Months Ended March 31,	
	2012	2011
Tax increment financing bond:		
Beginning balance	\$(2,309)	\$(2,543)
Unrealized gain/(loss) on tax increment financing bond	287	(135)
Ending balance	(2,022)	(2,678)

13. Earnings Per Unit

The following table sets forth the computation of basic and diluted earnings per unit:

	Three Months Ended March 31,	
	2012	2011
Earnings per Common Unit - basic:		
Numerator:		
Income from continuing operations	\$13,117	\$11,911
Net (income) attributable to noncontrolling interests in consolidated affiliates from continuing operations	(184)	(123)
Distributions on Preferred Units	(627)	(1,677)
Income from continuing operations available for common unitholders	12,306	10,111
Income from discontinued operations available for common unitholders	5,217	540
Net income available for common unitholders	\$17,523	\$10,651
Denominator:		
Denominator for basic earnings per Common Unit – weighted average units (1) (2)	76,155	75,198
Earnings per Common Unit - basic:		
Income from continuing operations available for common unitholders	\$0.16	\$0.13
Income from discontinued operations available for common unitholders	0.07	0.01
Net income available for common unitholders	\$0.23	\$0.14
Earnings per Common Unit - diluted:		
Numerator:		
Income from continuing operations	\$13,117	\$11,911
Net (income) attributable to noncontrolling interests in consolidated affiliates from continuing operations	(184)	(123)
Distributions on Preferred Units	(627)	(1,677)
Income from continuing operations available for common unitholders	12,306	10,111
Income from discontinued operations available for common unitholders	5,217	540
Net income available for common unitholders	\$17,523	\$10,651
Denominator:		
Denominator for basic earnings per Common Unit – weighted average units (1) (2)	76,155	75,198
Add:		
Stock options using the treasury method	132	185
Denominator for diluted earnings per Common Unit – adjusted weighted average units and assumed conversions (1)	76,287	75,383
Earnings per Common Unit - diluted:		
Income from continuing operations available for common unitholders	\$0.16	\$0.13
Income from discontinued operations available for common unitholders	0.07	0.01
Net income available for common unitholders	\$0.23	\$0.14

(1) There were 0.6 million and 0.3 million options outstanding during the three months ended March 31, 2012 and 2011, respectively, that were not included in the computation of diluted earnings per unit because the impact of

including such options would be anti-dilutive.

(2) Includes all unvested restricted stock since dividends on such restricted stock are non-forfeitable.

15. Subsequent Events

In early April 2012, the Company issued 307,900 shares of Common Stock from sales in the first quarter of 2012 under our equity sales agreements at an average gross sales price of \$32.93 per share raising net proceeds, after sales commissions and expenses, of \$10.0 million.

On April 25, 2012, we sold an office property located near Tampa, FL for gross proceeds of \$9.5 million. We expect to record a gain on disposition of discontinued operations of \$1.4 million related to this transaction.

On April 27, 2012, we acquired a 178,300 square foot office property in Cary, NC from our DLF I joint venture for \$26.0 million. The joint venture's net proceeds of \$25.3 million were all used to reduce the balance of the advance due to us from the joint venture.

Table of Contents

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The Company is a fully integrated, self-administered and self-managed equity REIT that provides leasing, management, development, construction and other customer-related services for our properties and for third parties. The Company conducts virtually all of its activities through the Operating Partnership. The Operating Partnership is managed by the Company, its sole general partner. At March 31, 2012, we owned or had an interest in 338 in-service office, industrial and retail properties, encompassing approximately 34.5 million square feet, which includes one office property with associated amenities planned for development aggregating 228,000 square feet, one completed but not yet stabilized office redevelopment property encompassing 117,000 square feet and a 12.5% interest in a 261,000 square foot office property directly owned by the Company (not included in the Operating Partnership's Consolidated Financial Statements); 14 for-sale residential condominiums and a 215-unit rental residential property under development. We are based in Raleigh, North Carolina, and our properties and development land are located in Florida, Georgia, Mississippi, Missouri, North Carolina, Pennsylvania, South Carolina, Tennessee and Virginia. Additional information about us can be found on our website at www.highwoods.com. Information on our website is not part of this Quarterly Report.

You should read the following discussion and analysis in conjunction with the accompanying Consolidated Financial Statements and related notes contained elsewhere in this Quarterly Report.

Disclosure Regarding Forward-Looking Statements

Some of the information in this Quarterly Report may contain forward-looking statements. Such statements include, in particular, statements about our plans, strategies and prospects under this section. You can identify forward-looking statements by our use of forward-looking terminology such as "may," "will," "expect," "anticipate," "estimate," "continue" or similar words. Although we believe that our plans, intentions and expectations reflected in or suggested by such forward-looking statements are reasonable, we cannot assure you that our plans, intentions or expectations will be achieved. When considering such forward-looking statements, you should keep in mind the following important factors that could cause our actual results to differ materially from those contained in any forward-looking statement:

- the financial condition of our customers could deteriorate;
- we may not be able to lease or release second generation space, defined as previously occupied space that becomes available for lease, quickly or on as favorable terms as old leases;
- we may not be able to lease our newly constructed buildings as quickly or on as favorable terms as originally anticipated;
- we may not be able to complete development, acquisition, reinvestment, disposition or joint venture projects as quickly or on as favorable terms as anticipated;
- development activity by our competitors in our existing markets could result in an excessive supply of office, industrial and retail properties relative to customer demand;
- our markets may suffer declines in economic growth;
- unanticipated increases in interest rates could increase our debt service costs;

- unanticipated increases in operating expenses could negatively impact our operating results;

- we may not be able to meet our liquidity requirements or obtain capital on favorable terms to fund our working capital needs and growth initiatives or to repay or refinance outstanding debt upon maturity; and

- the Company could lose key executive officers.

This list of risks and uncertainties, however, is not intended to be exhaustive. You should also review the other cautionary statements we make in “Item 1A. Business – Risk Factors” set forth in our 2011 Annual Report on Form 10-K. Given these uncertainties, you should not place undue reliance on forward-looking statements. We undertake no obligation to publicly release the results of any revisions to these forward-looking statements to reflect any future events or circumstances or to reflect the occurrence of unanticipated events.

Table of Contents

Executive Summary

Our Strategic Plan focuses on:

- owning high-quality, differentiated real estate assets in the better submarkets in our core markets;
- improving the operating results of our existing properties through concentrated leasing, asset management, cost control and customer service efforts;
- developing and acquiring office properties in key infill submarkets that improve the overall quality of our portfolio and generate attractive returns over the long-term for our stockholders;
- selectively disposing of properties no longer considered to be core assets primarily due to location, age, quality and overall strategic fit; and
- maintaining a conservative, flexible balance sheet with ample liquidity to meet our funding needs and growth prospects.

While we own and operate a limited number of industrial, retail and residential properties, our operating results depend heavily on successfully leasing and operating our office properties. Economic growth and employment levels in our core markets are and will continue to be important determinative factors in predicting our future operating results.

The key components affecting our rental and other revenues are average occupancy, rental rates, new developments placed in service, acquisitions and dispositions. Average occupancy generally increases during times of improving economic growth, as our ability to lease space outpaces vacancies that occur upon the expirations of existing leases. Average occupancy generally declines during times of slower economic growth, when new vacancies tend to outpace our ability to lease space. Asset acquisitions, dispositions and new developments placed in service directly impact our rental revenues and could impact our average occupancy, depending upon the occupancy rate of the properties that are acquired, sold or placed in service. A further indicator of the predictability of future revenues is the expected lease expirations of our portfolio. As a result, in addition to seeking to increase our average occupancy by leasing current vacant space, we also must concentrate our leasing efforts on renewing leases on expiring space.

Whether or not our rental revenue tracks average occupancy proportionally depends upon whether rents under new leases signed are higher or lower than the rents under the previous leases. Annualized rental revenues from second generation leases signed during any particular year are generally less than 15% of our total annual rental revenues. During the first quarter of 2012, we leased 1.0 million square feet of second generation office space, defined as space previously occupied under our ownership that becomes available for lease or acquired vacant space, with a weighted average term of 5.3 years. On average, tenant improvements for such leases were \$9.10 per square foot, lease commissions were \$3.20 per square foot and rent concessions were \$3.38 per square foot. Annualized GAAP rents under such leases were \$21.32 per square foot, or 1.7% higher than under previous leases.

We strive to maintain a diverse, stable and creditworthy customer base. We have an internal guideline whereby customers that account for more than 3% of our revenues are periodically reviewed with the Company's Board of Directors. Currently, no customer accounts for more than 3% of our revenues other than the Federal Government, which accounts for 9.0% of our revenues, and AT&T, which accounts for 3.0% of our revenues.

Our expenses primarily consist of rental property expenses, depreciation and amortization, general and administrative expenses and interest expense. From time to time, expenses also include impairments of assets held for use. Rental property expenses are expenses associated with our ownership and operation of rental properties and include expenses that vary somewhat proportionately to occupancy levels, such as common area maintenance and utilities, and expenses that do not vary based on occupancy, such as property taxes and insurance. Depreciation and amortization is a non-cash expense associated with the ownership of real property and generally remains relatively consistent each year, unless we buy, place in service or sell assets, since we depreciate our properties and related building and tenant improvement assets on a straight-line basis over a fixed life. General and administrative expenses, net of amounts capitalized, consist primarily of management and employee salaries and other personnel costs, corporate overhead and long-term incentive compensation.

Table of Contents

We anticipate commencing up to \$150 million of new development in the remainder of 2012. Any such projects would not be placed in service until 2013 or beyond. We also anticipate acquiring up to \$300 million of new properties and selling up to \$150 million of non-core properties in the remainder of 2012.

We intend to maintain a conservative and flexible balance sheet that allows us to capitalize on favorable development and acquisition opportunities as they arise. As of March 31, 2012, our mortgages and notes payable represented 46.7% of the undepreciated book value of our assets. We expect this ratio to remain under 50% during the remainder of 2012.

Results of Operations

Three Months Ended March 31, 2012 and 2011

Rental and Other Revenues

Rental and other revenues from continuing operations were \$15.6 million, or 13.6%, higher in the first quarter of 2012 as compared to 2011 primarily due to the acquisitions of an office property in Raleigh, NC in the second quarter of 2011 and office properties in Pittsburgh, PA and Atlanta, GA in the third quarter of 2011, which accounted for \$12.1 million of the increase. Same property revenues were \$3.1 million higher in the first quarter of 2012 as compared to 2011 primarily due to higher operating expense recoveries and termination fees. Additionally, same property average occupancy increased from 90.0% in the first quarter of 2011 to 90.6% in the first quarter of 2012 and same property annualized GAAP rents per square foot increased from \$18.23 in the first quarter of 2011 to \$18.62 in the first quarter of 2012. We expect rental and other revenues for the remainder of 2012, adjusted for any discontinued operations and additional acquisition activity, to be higher compared to the same period in 2011 primarily due to the contribution of acquisitions made in the third quarter of 2011 and slightly higher average occupancy as a result of a slightly improving economic outlook.

Operating Expenses

Rental property and other expenses were \$5.2 million, or 12.7%, higher in the first quarter of 2012 as compared to 2011 primarily due to recent acquisitions, which accounted for \$5.9 million of the increase. Same property operating expenses were \$1.0 million lower in the first quarter of 2012 as compared to 2011 primarily due to the mild winter in 2012. We expect rental property and other expenses for the remainder of 2012, adjusted for any discontinued operations and additional acquisition activity, to be higher compared to the same period in 2011 primarily due to the contribution of acquisitions made in the third quarter of 2011.

Operating margin, defined as rental and other revenues less rental property and other expenses expressed as a percentage of rental and other revenues, was higher at 64.5% in the first quarter of 2012, as compared to 64.2% in the first quarter of 2011. Operating margin is expected to be similar for the remainder of 2012 as compared to the same period in 2011.

Depreciation and amortization was \$4.8 million, or 14.3%, higher in the first quarter of 2012 as compared to 2011 primarily due to recent acquisitions. We expect depreciation expense for the remainder of 2012, adjusted for any discontinued operations and additional acquisition activity, to be higher compared to the same period in 2011 primarily due to the contribution of acquisitions made in the third quarter of 2011.

General and administrative expenses were \$1.9 million, or 24.1%, higher in the first quarter of 2012 as compared to 2011 primarily due to higher salaries and incentive compensation. We expect general and administrative expenses for

the remainder of 2012 to decrease over the same period in 2011 due to lower dead deal and property acquisition costs.

Interest Expense

Interest expense was \$1.3 million, or 5.3%, higher in the first quarter of 2012 as compared to 2011 primarily due to higher average debt balances from recent acquisitions, offset by lower average interest rates and financing obligation interest expense. We anticipate interest expense will increase for the remainder of 2012 as compared to the same period in 2011 due to the full year impact of higher average debt balances from acquisitions, partly offset by lower average interest rates on our outstanding borrowings and lower financing obligation interest expense in 2012.

Table of Contents

Interest and Other Income

Interest and other income was \$0.4 million higher in the first quarter of 2012 as compared to 2011 primarily due to interest income on an advance to unconsolidated affiliate in the second quarter of 2011. We expect interest and other income for the remainder of 2012 to be lower compared to the same period in 2011 due to the repayment of a portion of the advance due to us from one of our joint ventures.

Equity in Earnings of Unconsolidated Affiliates

Equity in earnings of unconsolidated affiliates was \$1.6 million lower in the first quarter of 2012 as compared to 2011 primarily due to our share of impairment of real estate assets on two office properties in our DLF I joint venture.

Net Gains on Disposition of Discontinued Operations

Net gains on disposition of discontinued operations were \$5.1 million higher in the first quarter of 2012 as compared to 2011 due to the disposition of 96 rental residential units in Kansas City, MO in the first quarter of 2012.

Dividends on Preferred Stock

Dividends on Preferred Stock were \$1.1 million lower in the first quarter of 2012 as compared to 2011 due to the redemption of all remaining Series B Preferred Shares in the second quarter of 2011.

Table of Contents

Liquidity and Capital Resources

Overview

Our goal is to maintain a conservative and flexible balance sheet with access to multiple sources of debt and equity capital and sufficient availability under our revolving credit facility. We generally use rents received from customers to fund our operating expenses, capital expenditures and distributions. To fund property acquisitions, development activity or building renovations and repay debt upon maturity, we may use current cash balances, sell assets, obtain new debt and/or issue equity. Our debt generally consists of mortgage debt, unsecured debt securities and borrowings under our revolving credit facility.

Statements of Cash Flows

We report and analyze our cash flows based on operating activities, investing activities and financing activities. The following table sets forth the changes in the Company's cash flows (\$ in thousands):

	Three Months Ended		
	March 31,		
	2012	2011	Change
Net Cash Provided By Operating Activities	\$22,050	\$28,484	\$(6,434)
Net Cash Used In Investing Activities	(12,896)	(14,240)	1,344
Net Cash Provided By/(Used In) Financing Activities	(8,127)	2,360	(10,487)
Total Cash Flows	\$1,027	\$16,604	\$(15,577)

In calculating net cash related to operating activities, depreciation and amortization, which are non-cash expenses, are added back to net income. As a result, we have historically generated a positive amount of cash from operating activities. From period to period, cash flow from operations depends primarily upon changes in our net income, as discussed more fully above under "Results of Operations," changes in receivables and payables, and net additions or decreases in our overall portfolio, which affect the amount of depreciation and amortization expense.

Net cash related to investing activities generally relates to capitalized costs incurred for leasing and major building improvements and our acquisition, development, disposition and joint venture capital activity. During periods of significant net acquisition and/or development activity, our cash used in such investing activities will generally exceed cash provided by investing activities, which typically consists of cash received upon the sale of properties and distributions of capital from our joint ventures.

Net cash related to financing activities generally relates to distributions, incurrence and repayment of debt, and issuances, repurchases or redemptions of Common Stock, Common Units and Preferred Stock. As discussed previously, we use a significant amount of our cash to fund distributions. Whether or not we have increases in the outstanding balances of debt during a period depends generally upon the net effect of our acquisition, disposition, development and joint venture activity. We generally use our revolving credit facility for working capital purposes, which means that during any given period, in order to minimize interest expense, we may record significant repayments and borrowings under our revolving credit facility.

The change in net cash related to operating activities in the first three months of 2012 as compared to the same period in 2011 was primarily due to the timing of real estate tax payments, partly offset by net operating income from acquisitions made in the third quarter of 2011.

The change in net cash related to investing activities in the first three months of 2012 as compared to the same period in 2011 was primarily due to higher net proceeds from the disposition of real estate assets in the first three months of 2012, partly offset by higher capital improvements in the first three months of 2012 related to acquisitions made in the third quarter of 2011.

The change in net cash related to financing activities in the first three months of 2012 as compared to the same period in 2011 was primarily due to lower net borrowings in the first three months of 2012, partly offset by higher proceeds from the issuance of Common Stock in the first quarter of 2012.

Table of Contents

Capitalization

The following table sets forth the Company's capitalization (in thousands, except per share amounts):

	March 31, 2012	December 31, 2011
Mortgages and notes payable, at recorded book value	\$1,903,978	\$ 1,903,213
Financing obligations	\$31,110	\$ 31,444
Preferred Stock, at liquidation value	\$29,077	\$ 29,077
Common Stock outstanding	73,609	72,648
Common Units outstanding (not owned by the Company)	3,728	3,730
Per share stock price at period end	\$33.32	\$ 29.67
Market value of Common Stock and Common Units	\$2,576,869	\$ 2,266,135
Total market capitalization	\$4,541,034	\$ 4,229,869

At March 31, 2012, our mortgages and notes payable represented 41.9% of our total market capitalization and consisted of \$746.8 million of secured indebtedness with a weighted average interest rate of 5.51% and \$1,157.2 million of unsecured indebtedness with a weighted average interest rate of 4.61%. The secured indebtedness was collateralized by real estate assets with an aggregate undepreciated book value of \$1.2 billion.

Current and Future Cash Needs

Rental and other revenues are our principal source of funds to meet our short-term liquidity requirements. Other sources of funds for short-term liquidity needs include available working capital and borrowings under our existing revolving credit facility, which had \$362.8 million of availability at April 26, 2012. Our short-term liquidity requirements primarily consist of operating expenses, interest and principal amortization on our debt, dividends and distributions and capital expenditures, including building improvement costs, tenant improvement costs and lease commissions. Building improvements are capital costs to maintain existing buildings not typically related to a specific customer. Tenant improvements are the costs required to customize space for the specific needs of customers. We anticipate that our available cash and cash equivalents and cash provided by operating activities, together with cash available from borrowings under our revolving credit facility, will be adequate to meet our short-term liquidity requirements.

Our long-term liquidity uses generally consist of the retirement or refinancing of debt upon maturity (including mortgage debt, our revolving and construction credit facilities, term loans and other unsecured debt), funding of existing and new building development or land infrastructure projects and funding acquisitions of buildings and development land. Additionally, we may, from time to time, retire some or all of our remaining outstanding Preferred Stock and/or unsecured debt securities through redemptions, open market repurchases, privately negotiated acquisitions or otherwise.

We expect to meet our long-term liquidity needs through a combination of:

- cash flow from operating activities;
- borrowings under our revolving credit facility;
- the issuance of unsecured debt;

the issuance of secured debt;

the issuance of equity securities by the Company or the Operating Partnership; and

the disposition of non-core assets.

Recent Acquisition and Disposition Activity

During the first quarter of 2012, we sold 96 vacant rental residential units in Kansas City, MO for gross proceeds of \$11.0 million. We recorded gain on disposition of discontinued operations of \$5.1 million related to this disposition.

51

Table of Contents

On April 25, 2012, we sold an office property located near Tampa, FL for gross proceeds of \$9.5 million. We expect to record a gain on disposition of discontinued operations of \$1.4 million related to this transaction.

On April 27, 2012, we acquired a 178,300 square foot office property in Cary, NC from our DLF I joint venture for \$26.0 million. The joint venture net proceeds of \$25.3 million were all used to reduce the balance of the advance due to us from the joint venture.

Recent Financing Activity

We have entered into separate ATM Equity Offering_{SM} Sales Agreements (the "Sales Agreements") with each of Merrill Lynch, Pierce, Fenner & Smith Incorporated, Mitsubishi UFJ Securities (USA), Inc., Morgan Keegan & Company, Inc. and RBC Capital Markets, LLC (each, an "Agent" and, together, the "Agents"). Under the terms of the Sales Agreements, the Company may offer and sell shares of its Common Stock from time to time through the Agents, acting as agents of the Company or as principals. Sales of the shares, if any, may be made by means of ordinary brokers' transactions on the New York Stock Exchange or otherwise at market prices prevailing at the time of sale, at prices related to prevailing market prices or at negotiated prices or as otherwise agreed with any of the Agents. Subject to the terms and conditions of each Sales Agreement, each Agent will use its commercially reasonable efforts to sell on the Company's behalf any shares to be offered by the Company under that Sales Agreement. During the first quarter of 2012, the Company issued 785,500 shares of Common Stock under these agreements at an average gross sales price of \$32.82 per share raising net proceeds, after sales commissions and expenses, of \$25.4 million. We paid \$0.4 million in sales commissions to Merrill Lynch, Pierce, Fenner & Smith Incorporated during the first quarter of 2012. In early April 2012, the Company issued 307,900 shares of Common Stock from sales in the first quarter of 2012 under these agreements at an average gross sales price of \$32.93 per share raising net proceeds, after sales commissions and expenses, of \$10.0 million. We paid \$0.2 million in sales commissions to Merrill Lynch, Pierce, Fenner & Smith Incorporated during April 2012.

Our \$475.0 million unsecured revolving credit facility is scheduled to mature on July 27, 2015 and includes an accordion feature that allows for an additional \$75.0 million of borrowing capacity subject to additional lender commitments. Assuming no defaults have occurred, we have an option to extend the maturity for an additional year. The interest rate at our current credit ratings is LIBOR plus 150 basis points and the annual facility fee is 35 basis points. The interest rate and facility fee are based on the higher of the publicly announced ratings from Moody's Investors Service or Standard & Poor's Ratings Services. We use our revolving credit facility for working capital purposes and for the short-term funding of our development and acquisition activity and, in certain instances, the repayment of other debt. Continuing ability to borrow under the revolving credit facility allows us to quickly capitalize on strategic opportunities at short-term interest rates. There was \$141.0 million and \$112.0 million outstanding under our revolving credit facility at March 31, 2012 and April 26, 2012, respectively. At both March 31, 2012 and April 26, 2012, we had \$0.2 million of outstanding letters of credit, which reduces the availability on our revolving credit facility. As a result, the unused capacity of our revolving credit facility at March 31, 2012 and April 26, 2012 was \$333.8 million and \$362.8 million, respectively.

In the first quarter of 2012, we obtained a \$225.0 million, seven-year unsecured bank term loan bearing interest of LIBOR plus 190 basis points. The proceeds were used to pay off amounts then outstanding under our revolving credit facility.

We regularly evaluate the financial condition of the lenders that participate in our credit facilities using publicly available information. Based on this review, we currently expect our lenders, which are major financial institutions, to perform their obligations under our existing facilities.

For information regarding our interest hedging activities and other market risks associated with our debt financing activities, see "Item 3. Quantitative and Qualitative Disclosures About Market Risk."

Covenant Compliance

We are currently in compliance with the covenants and other requirements with respect to our outstanding debt. Although we expect to remain in compliance with these covenants and ratios for at least the next year, depending upon our future operating performance, property and financing transactions and general economic conditions, we cannot assure you that we will continue to be in compliance.

Our revolving credit facility and bank term loans require us to comply with customary operating covenants and various financial requirements. Upon an event of default on the revolving credit facility, the lenders having at least 66.7% of the total commitments under the revolving credit facility can accelerate all borrowings then outstanding, and we could be prohibited from borrowing any further amounts under our revolving credit facility, which would adversely affect our ability to fund our operations.

Table of Contents

The Operating Partnership has \$391.2 million carrying amount of 2017 bonds outstanding and \$200.0 million carrying amount of 2018 bonds outstanding. The indenture that governs these outstanding notes requires us to comply with customary operating covenants and various financial ratios. The trustee or the holders of at least 25.0% in principal amount of either series of bonds can accelerate the principal amount of such series upon written notice of a default that remains uncured after 60 days.

We may not be able to repay, refinance or extend any or all of our debt at maturity or upon any acceleration. If any refinancing is done at higher interest rates, the increased interest expense could adversely affect our cash flow and ability to pay distributions. Any such refinancing could also impose tighter financial ratios and other covenants that restrict our ability to take actions that could otherwise be in our best interest, such as funding new development activity, making opportunistic acquisitions, repurchasing our securities or paying distributions.

Off Balance Sheet Arrangements

In 2011, we provided a \$38.3 million interest-only secured loan to our DLF I joint venture that originally was scheduled to mature in March 2012. The loan bears interest at LIBOR plus 500 basis points. During the first quarter of 2012, the maturity date of the loan was extended to June 30, 2012. We recorded \$0.4 million of interest income from this loan in interest and other income during the three months ended March 31, 2012. There was no interest income recorded for this loan during the three months ended March 31, 2011. In April 2012, the net proceeds of \$25.3 million from the sale of an office property in the joint venture were used to reduce the balance of the advance due to us from the joint venture.

During the first quarter of 2012, we recorded \$1.0 million as our share of impairment of real estate assets on two office properties in our DLF I joint venture, due to a decline in projected occupancy and a change in the presumed holding period of those assets, which reduced the expected future cash flows from the properties.

In May 2012, our DLF II joint venture expects to obtain a \$50.0 million, three-year secured mortgage loan from a third party lender, bearing a fixed interest rate of 3.5% on \$39.1 million of the loan and a floating interest rate of LIBOR plus 250 basis points on \$10.9 million of the loan, which will be used by the joint venture to repay a secured loan at maturity to a third party lender.

There were no other significant changes to our off balance sheet arrangements in the three months ended March 31, 2012. For information regarding our off balance sheet arrangements at December 31, 2011, see Note 9 to the Consolidated Financial Statements in our 2011 Annual Report on Form 10-K.

Critical Accounting Estimates

There were no changes made by management to the critical accounting policies in the three months ended March 31, 2012. For a description of our critical accounting estimates, see "Management's Discussion and Analysis of Financial Condition and Results of Operations - Critical Accounting Estimates" in our 2011 Annual Report on Form 10-K.

Non-GAAP Measures - FFO and NOI

The Company believes that Funds from Operations ("FFO") and FFO per share are beneficial to management and investors and are important indicators of the performance of any equity REIT. Because FFO and FFO per share calculations exclude such factors as depreciation, amortization and impairment of real estate assets and gains or losses from sales of operating real estate assets, which can vary among owners of identical assets in similar conditions based on historical cost accounting and useful life estimates, they facilitate comparisons of operating performance between

periods and between other REITs. Management believes that historical cost accounting for real estate assets in accordance with GAAP implicitly assumes that the value of real estate assets diminishes predictably over time. Since real estate values have historically risen or fallen with market conditions, many industry investors and analysts have considered the presentation of operating results for real estate companies that use historical cost accounting to be insufficient on a standalone basis. As a result, management believes that the use of FFO and FFO per share, together with the required GAAP presentations, provide a more complete understanding of the Company's performance relative to its competitors and a more informed and appropriate basis on which to make decisions involving operating, financing and investing activities.

FFO and FFO per share are non-GAAP financial measures and therefore do not represent net income or net income per share as defined by GAAP. Net income and net income per share as defined by GAAP are the most relevant measures in determining the Company's operating performance because FFO and FFO per share include adjustments that investors may deem subjective, such as adding back expenses such as depreciation, amortization and impairment. Furthermore, FFO per share does not depict the amount that accrues directly to the stockholders' benefit. Accordingly, FFO and FFO per share should never be considered as

Table of Contents

alternatives to net income or net income per share as indicators of the Company's operating performance.

The Company's presentation of FFO is consistent with FFO as defined by the National Association of Real Estate Investment Trusts ("NAREIT"), which is calculated as follows:

Net income/(loss) computed in accordance with GAAP;

Less net income attributable to noncontrolling interests in consolidated affiliates;

Plus depreciation and amortization of depreciable operating properties;

Less gains, or plus losses, from sales of depreciable operating properties, plus impairments on depreciable operating properties and excluding items that are classified as extraordinary items under GAAP;

Plus or minus our proportionate share of adjustments, including depreciation and amortization of depreciable operating properties, for unconsolidated partnerships and joint ventures (to reflect funds from operations on the same basis); and

Plus or minus adjustments for depreciation and amortization and gains/(losses) on sales of depreciable operating properties, plus impairments on depreciable operating properties, and noncontrolling interests in consolidated affiliates related to discontinued operations.

In calculating FFO, the Company excludes net income attributable to noncontrolling interests in the Operating Partnership, which the Company believes is consistent with standard industry practice for REITs that operate through an UPREIT structure. The Company believes that it is important to present FFO on an as-converted basis since all of the Common Units not owned by the Company are redeemable on a one-for-one basis for shares of its Common Stock.

The following table sets forth the Company's FFO and FFO per share (\$ in thousands, except per share amounts):

	Three Months Ended March 31,	
	2012	2011
Funds from operations:		
Net income	\$18,332	\$12,443
Net (income) attributable to noncontrolling interests in consolidated affiliates	(184)	(123)
Depreciation and amortization of real estate assets	37,820	33,122
Unconsolidated affiliates:		
Depreciation and amortization of real estate assets	2,098	2,093
Impairment of real estate assets	1,002	—
Discontinued operations:		
Depreciation and amortization of real estate assets	153	256
(Gains) on disposition of depreciable properties	(5,134)	—
Funds from operations	54,087	47,791
Dividends on Preferred Stock	(627)	(1,677)
Funds from operations available for common stockholders	\$53,460	\$46,114
Funds from operations available for common stockholders per share	\$0.70	\$0.61
Weighted average shares outstanding (1)	76,696	75,792

(1) Includes assumed conversion of all potentially dilutive Common Stock equivalents.

In addition, the Company believes net operating income from continuing operations (“NOI”) and same property NOI are useful supplemental measures of the Company’s property operating performance because such metrics provide a performance measure of the revenues and expenses directly involved in owning real estate assets and provides a perspective not immediately apparent from net income or FFO. The Company defines NOI as rental and other revenues from continuing operations, less rental property and other expenses from continuing operations. The Company defines cash NOI as NOI less straight line rent and lease termination fees. Other REITs may use different methodologies to calculate NOI and same property NOI.

Table of Contents

Our same property portfolio consisted of 292 in-service office, industrial and retail properties encompassing 26.9 million square feet that were wholly owned during the entirety of the periods presented (from January 1, 2011 to March 31, 2012). In our most recent prior periodic report, our 2011 Annual Report, our same property portfolio consisted of 289 in-service office, industrial and retail properties encompassing 26.2 million square feet that were wholly owned during the entirety of the periods presented therein (from January 1, 2010 to December 31, 2011). The change in our same property portfolio was due to the addition of one office property encompassing 0.3 million square feet acquired during 2010 and three newly developed office properties encompassing 0.5 million square feet placed in service during 2010, offset by the removal of one office property encompassing 0.1 million square feet qualifying for discontinued operations during 2012.

Rental and other revenues related to properties not in our same property portfolio were \$16.4 million and \$3.9 million for the three months ended March 31, 2012 and 2011, respectively. Rental property and other expenses related to properties not in our same property portfolio were \$8.5 million and \$2.4 million for the three months ended March 31, 2012 and 2011, respectively.

The following table sets forth the Company's NOI and same property NOI:

	Three Months Ended March 31,	
	2012	2011
Income from continuing operations before disposition of condominiums and equity in earnings/(losses) of unconsolidated affiliates	\$13,212	\$10,398
Other (income)	(2,230)	(1,873)
Interest expense	24,802	23,543
General and administrative expense	9,673	7,793
Depreciation and amortization expense	38,362	33,556
Net operating income from continuing operations	83,819	73,417
Less – non same property and other net operating income	7,922	1,574

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The effects of potential changes in interest rates are discussed below. Our market risk discussion includes “forward-looking statements” and represents an estimate of possible changes in fair value or future earnings that would occur assuming hypothetical future movements in interest rates. Actual future results may differ materially from those presented. See “Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations - Liquidity and Capital Resources” and the Notes to Consolidated Financial Statements for a description of our accounting policies and other information related to these financial instruments.

We borrow funds at a combination of fixed and variable rates. Our debt consists of secured and unsecured long-term financings, unsecured debt securities, loans and credit facilities, which typically bear interest at fixed rates although some loans bear interest at variable rates. Our interest rate risk management objectives are to limit the impact of interest rate changes on earnings and cash flows and to lower our overall borrowing costs. To achieve these objectives, from time to time we enter into interest rate hedge contracts such as collars, swaps, caps and treasury lock agreements in order to mitigate our interest rate risk with respect to various debt instruments. We generally do not hold or issue these derivative contracts for trading or speculative purposes.

At March 31, 2012, we had \$1,285.9 million principal amount of fixed rate debt outstanding. The estimated aggregate fair market value of this debt was \$1,378.3 million. If interest rates had been 100 basis points higher, the aggregate fair market value of our fixed rate debt would have been approximately \$18.6 million lower. If interest rates had been 100 basis points lower, the aggregate fair market value of our fixed rate debt would have been approximately \$19.3 million higher.

At March 31, 2012, we had \$393.1 million of variable rate debt outstanding not protected by interest rate hedge contracts. The estimated aggregate fair market value of this debt was \$396.8 million. If the weighted average interest rate on this variable rate debt had been 100 basis points higher, the aggregate fair market value of our variable rate debt would have decreased by approximately \$26.9 million and annual interest expense would increase \$3.9 million. If the weighted average interest rate on this variable rate debt had been 100 basis points lower, the aggregate fair market value of our variable rate debt would have increased by approximately \$28.4 million and annual interest expense would decrease \$3.9 million.

At March 31, 2012, we had floating-to-fixed interest rate swaps with respect to an aggregate of \$225.0 million LIBOR-based borrowings. These swaps effectively fix the underlying LIBOR rate at 1.678%. If LIBOR interest rates increase or decrease by 100 basis points, the aggregate fair market value of the swaps at March 31, 2012 would increase by \$13.0 million or decrease by \$14.8 million, respectively. We are exposed to certain losses in the event of nonperformance by the counterparties, which are major financial institutions, under the swaps. We regularly evaluate the financial condition of our counterparties using publicly available information. Based on this review, we currently expect the counterparties to perform fully under the swaps. However, if a counterparty defaults on its obligations under a swap, we could be required to pay the full rates on the applicable debt, even if such rates were in excess of the rate in the contract.

ITEM 4. CONTROLS AND PROCEDURES

SEC rules require us to maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our annual and periodic reports filed with the SEC is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. The Company's CEO and CFO have concluded that the disclosure controls and procedures of the Company and the Operating Partnership were each effective at the end of the period covered by this Quarterly Report.

SEC rules also require us to establish and maintain internal control over financial reporting designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepting accounting principles. There were no changes in internal control over financial reporting during the three months ended March 31, 2012 that materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting. There were also no changes in internal control over financial reporting during the three months ended March 31, 2012 that materially affected, or are reasonably likely to materially affect, the Operating Partnership's internal control over financial reporting.

PART II

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

During the first quarter of 2012, the Company issued an aggregate of 2,000 shares of Common Stock to holders of Common Units in the Operating Partnership upon the redemption of a like number of Common Units in private offerings exempt from the registration requirements pursuant to Section 4(2) of the Securities Act. Each of the holders of Common Units was an accredited investor under Rule 501 of the Securities Act. The resale of such shares was registered by the Company under the Securities Act.

ITEM 5. OTHER EVENTS

Stock Ownership Guidelines

Our compensation and governance committee has established the following stock ownership guidelines:

Position	Multiple (in dollars)
Chief Executive Officer	6x Base Salary
Other Executive Officers	5x Base Salary
Divisional Vice Presidents and Other Officers	2x Base Salary
Directors	3x Base Annual Retainer

Our directors and officers may not directly or indirectly engage in any transactions pursuant to which shares of common stock or units of limited partnership interest in Highwoods Realty Limited Partnership, our operating partnership, are held in margin accounts or otherwise pledged to secure personal loans or lines of credit or similar forms of indebtedness without the prior consent of the compensation and governance committee. None of our officers or directors has pledged shares of common stock as collateral, except that Mr. Anderson pledged 400,000 operating partnership units and 65,000 shares of common stock to secure a personal line of credit prior to adoption of this policy in 2009.

Compensation of Executive Officers

Annual Non-Equity Incentive Program. In 2011, all of our officers, including Named Executive Officers, participated in our annual non-equity incentive program pursuant to which they were eligible to earn cash payments (which were paid in March 2012) based on a percentage of their annual base salary in effect for December 2011. Under this component of our executive compensation program, officers are eligible to earn additional cash compensation to the extent specific performance-based metrics are achieved during the most recently completed year. The position held by each officer has a target annual incentive percentage. For 2011, the target annual incentive percentage was 130% for Mr. Fritsch, 95% for Mr. Harris, 90% for Mr. Stevens and 75% for Mr. Miller. In addition to considering the pay practices of our peer group in determining each officer's annual incentive percentage, the committee also considers the individual officer's ability to influence our overall performance. The more senior the position within the company, the greater the portion of compensation that varies with performance.

The amount an officer may earn under the annual non-equity incentive compensation program is the product of the target annual incentive percentage times an "actual performance factor," which can range from zero to 200%. The actual performance factor depends upon the relationship between actual performance in specific areas at each of our divisions and predetermined goals. For Messrs. Fritsch, Harris, Stevens and Miller, who served as corporate executives during 2011, the actual performance factor was based on the goals and criteria applied to our performance as a whole. Participants in our annual non-equity incentive program receive quarterly statements throughout the year

that illustrate our forecasted and re-forecasted performance, which we believe is an important tool in keeping our employees focused on achieving our strategic and operating goals.

The components and weighting of each year's metrics, which are set by the compensation and governance committee prior to or near the beginning of each year as part of our budgeting and strategic planning process, are intended to closely match our company's overall operating and financial goals and provide our officers with direct "line of sight" to focus their individual and collective efforts on the achievement of the metrics.

The performance criteria, which are equally weighted, are the following:

per share funds from operations ("FFO") excluding any unusual charges or credits that may occur;

Table of Contents

- net operating income (on a division-by-division basis) excluding any unusual charges or credits that may occur and including a capital charge/credit applied with respect to any investment activity; and
- average occupancy (on a division-by-division basis).

The compensation and governance committee sets threshold, target and maximum levels with respect to each of the factors. The following table sets forth information about the performance-based metrics under our annual non-equity incentive program, including our actual performance, for 2011:

Factor	Actual 2011 Performance	Threshold (50%)	Target (100%)	Maximum (200%)
Per Share FFO	\$2.58	\$2.44	\$2.52	\$2.62
Net Operating Income	0.8% Growth	0.5% Growth	3.0% Growth	7.0% Growth
Average Occupancy	89.2%	87%	91.5%	94%

If the threshold level is not satisfied with respect to a particular factor, the actual performance factor would be zero with respect to that factor. If performance exceeds the threshold level but does not satisfy the target level, the actual performance factor would range on a sliding scale between 50% and 100% with respect to that factor. If performance is between the target level and the maximum level, the actual performance factor would range on a sliding scale between 100% and 200% with respect to that factor. The performance factor used to determine the amount an executive could earn in 2011 under the annual non-equity incentive program was the average of the three factors. Notwithstanding the formulas described above, our compensation and governance committee has retained the discretion and flexibility to increase or decrease the actual performance factor with respect to any particular year and/or any particular officer to more appropriately reflect, in the committee's sole judgment, actual performance, market conditions, unanticipated circumstances and other factors. The compensation and governance committee did not exercise its right to modify the actual performance factor for any of the Named Executive Officers in 2011. For corporate executives in 2011, the performance factors under the non-equity incentive program were 165.3% for the Per Share FFO factor, 56.8% for the Net Operating Income factor and 74.4% for the Average Occupancy factor, which resulted in an overall actual performance factor of 98.8%. For additional information regarding our actual 2011 performance, see our 2011 Annual Report on Form 10-K.

The following table sets forth information about the performance-based metrics under our annual non-equity incentive program for 2012:

Factor	Threshold (50%)	Target (100%)	Maximum (200%)
Per Share FFO*	\$2.61	\$2.66	\$2.77
Net Operating Income	0.5% Growth	2.0% Growth	5.0% Growth
Average Occupancy	87%	90.5%	93%

* To the extent the dilutive effects of dispositions and equity issuances are more or less than \$0.10 per share, such differences will be excluded.

While the target and maximum levels for the Net Operating Income and Average Occupancy factors are slightly lower in 2012 than in 2011, the threshold, target and maximum levels for the Per Share FFO factor are higher in 2012 than 2011. As a result, the probable overall actual performance factor for corporate executives under the 2012 program is expected to be similar to the 98.8% overall actual performance factor for 2011.

Equity Incentive Compensation-Time-Based Restricted Stock. The compensation and governance committee believes that the issuance of time-based restricted stock is an important retention tool and serves to deter our officers from

seeking other employment opportunities. Time-based restricted stock vests ratably on an annual basis over a four-year term. If an officer leaves our employ at any time before the fourth anniversary of the date of grant, unvested shares will be forfeited upon termination of employment except in the event of death, disability or as otherwise provided under our retirement plan. If an officer dies, unvested shares of time-based restricted stock will automatically vest. If an officer becomes disabled, unvested shares of time-based restricted stock will become non-forfeitable and continue to vest according to the terms of their original grants. Except as set forth in the next sentence, dividends received on time-based restricted stock are non-forfeitable and are paid at the same rate and on the same date as on shares of our common stock. Commencing in 2012 with respect to shares of time-based restricted stock issued to our chief executive officer and subject to any delay in payment that would result in adverse tax consequences under Section 409A of the Internal Revenue Code, dividends will accumulate and be payable only if and to the extent the shares vest.

Table of Contents

Equity Incentive Compensation-Total Return-Based Restricted Stock. The compensation and governance committee believes the issuance of total return-based restricted stock is an important retention tool that incentivizes our officers to concentrate their efforts on generating and sustaining long-term stockholder value. One of our principal goals is to provide our stockholders with attractive risk-adjusted returns on their investment through the consistent payment of quarterly dividends and stock price appreciation. Total return is defined as the sum of stock price appreciation plus reinvested dividends over the stock value at the beginning of the applicable period.

Each year, the committee sets minimum, target and maximum payout levels based on the probable expected total return of our common stock over three years using an analysis of all historical three-year total return periods since our company's initial public offering in 1994. Each year, the three-year total return performance for the minimum payout level is determined such that the probability of achievement based on historical three-year total return performance is generally 60%. (In other words, there is a 40% chance that the minimum level will not be achieved and the shares will be forfeited, except as otherwise described below.) The three-year total return performance for the maximum level is determined such that the probability of achievement based on historical three-year total return performance is generally 10%.

Under this probability achievement formula, shares of total return-based restricted stock will generally vest only to the extent our absolute total return for the applicable three-year period is at least 22% with respect to shares issued in 2011 and at least 17% with respect to shares issued in 2012. Accordingly, if our absolute total return does not at least meet the minimum threshold, all of the total return-based restricted stock will be forfeited at the end of the period, except as otherwise described below. The percentage of total return-based restricted stock that vests will range between 50% and 100% to the extent our absolute total return ranges between 22% and 44% with respect to shares issued in 2011 and 17% and 36% with respect to shares issued in 2012. All of the total-return based restricted stock will vest and we will issue an amount of additional shares up to 150% of the original total return-based restricted stock award to the extent our absolute total return ranges between 44% and 88% with respect to shares issued in 2011 and 36% and 81% with respect to shares issued in 2012. These additional shares, if any, would be fully vested when issued. Notwithstanding the foregoing, if our total return is not at least 22% with respect to shares issued in 2011 and 17% for shares issued in 2012 but our total return index exceeds 100% of the peer group total return index, then 50% of the total return-based restricted stock will vest at the end of the applicable period.

If an officer leaves our employ at any time before the end of the three-year cycle, all of the total return-based restricted stock will be forfeited except in the event of death, disability or as otherwise provided under our retirement plan. If an officer dies or becomes disabled, a pro rata portion of the total return-based restricted stock would become non-forfeitable and continue to vest according to the terms of their original grants.

Except as set forth in the next sentence, dividends received on restricted stock are non-forfeitable and are paid at the same rate and on the same date as on shares of our common stock. Commencing in 2012 with respect to shares of total return-based restricted stock issued to our chief executive officer and subject to any delay in payment that would result in adverse tax consequences under Section 409A of the Internal Revenue Code, dividends will accumulate and be payable only if and to the extent the shares vest.

Employee Benefits and Perquisites. Each officer receives the same company-wide benefits as are generally available to all other salaried employees, such as short- and long-term disability insurance, basic life insurance and eligibility for supplemental health and life insurance, access to flexible health care reimbursement accounts and 401(k) matching. Officers participate in the same company-wide health insurance program, except that we pay an officer's family premium. Additionally, officers are entitled to receive additional annual perquisites not widely available to all salaried employees, typically items such as a vehicle allowance and reimbursement for personal financial consulting services and the costs of a physical exam not otherwise covered by our health insurance. We also reimbursed Mr. Fritsch on a tax grossed-up basis for supplemental life insurance coverage during 2011. This benefit ended in 2011.
