Dear Fellow Shareholders,

Investors were probably never happier to close out a year than they were in 2002, since it was the third consecutive year that the stock market declined -- something that hadn't occurred in 60 years. Driving the fall were fears of war, a weak economy, disappointing profits, rising oil prices and a string of corporate scandals. All market sectors and investment styles suffered. As a result, the broad Standard & Poor's 500 Index fell by 22.09% for the year, while the Dow Jones Industrial Average lost 15.05% and the technology laden Nasdaq Composite Index lost 31.53%.

Despite a fourth-quarter rally, only 3.8% of U.S. stock mutual funds made money last year, and the average U.S. stock fund lost 22.42%, according to Lipper, Inc. Bond Funds provided the only bright spot, producing mostly positive results, with the average long-term bond fund rising 7.9%. It was the third year in which bonds outperformed stocks and gained ground, confirming yet again the importance of having a

Edgar Filing: HANCOCK JOHN INCOME SECURITIES TRUST /MA - Form N-30D

portfolio well-diversified among stocks, bonds and cash.

In fact, the disparity between stock and bond results over the last three years means that many investors' portfolios may have shifted substantially in their mix between stocks and bonds. We recommend working with your investment professional to rebalance your assets according to your long-term goals.

After three down years, no one can predict when the bear market cycle will turn. Currently, uncertainties abound, as the good news seen in signs of improving economic and corporate data, and efforts by Washington to stimulate the economy, are offset by the possibility of war and other geopolitical risks.

While all these factors are beyond our control, investors can take charge of how they maneuver through the inevitable bull and bear market cycles. We've said it before, but it bears repeating: the key is to keep a long-term perspective and work with your investment professional to develop and maintain a properly diversified portfolio. We believe this offers the best protection in the tough times and the best means to reach your long-term goals.

Sincerely,

/S/ MAUREEN R. FORD

Maureen R. Ford,
Chairman and Chief Executive Officer

YOUR FUND
AT A GLANCE

The Fund seeks a high level of current income consistent with prudent investment risk by investing in a diversified portfolio of debt securities.

Over the last twelve months

- * Bonds gained ground for the third straight year as the U.S. economy weakened and interest rates declined.
- * Treasury and government bonds were the best performers, followed by corporate and mortgage-backed securities.
- * The Fund added mortgage-backed securities and lower-quality corporate bonds, which offered the best relative values and attractive yields.

[Bar chart with heading "John Hancock Income Securities Trust." Under the heading is a note that reads "Fund performance for the year ended December 31, 2002." The chart is scaled in increments of 2% with 0% at the bottom and 8% at the top. The first bar represents the 8.00% total return for John Hancock Income Securities Trust. A note below the chart reads "The total return for the Fund is at net asset value with all

PORTFOLIO MANAGERS

John Hancock
Income Securities Trust

MANAGERS' REPORT

With the recent retirement of James Ho, the Fund's day-to-day management has been assumed by other members of the team, including John Hancock's chief fixed-income officer Barry Evans, and Jeff Given and Dawn Baillie, both of whom have been with John Hancock for more than 10 years managing fixed-income investments.

In 2002, U.S. bonds gained ground for the third consecutive year as interest rates declined sharply. Bonds advanced as a blossoming economic recovery sputtered during the summer and hit another rough patch in the fourth quarter, prompting the Federal Reserve to cut interest rates for the 12th time in the past two years. Demand for bonds also got a boost from the faltering stock market, where depressed earnings and fraudulent financial reporting weakened investor confidence and chased many into the relative safety of bonds.

"In 2002, U.S. bonds
gained ground for the
third consecutive year
as interest rates
declined sharply."

High-quality bonds benefited the most from the flight to safety. In particular, Treasury bonds were the best performers as yields fell to their lowest levels in more than 40 years. Corporate bonds struggled early in the year as corporate scandals and poor earnings led to some concerns about creditworthiness, but they outperformed during the last half of the year. Mortgage-backed securities trailed the rest of the bond market thanks to a huge wave of mortgage refinancing.

FUND PERFORMANCE

For the year ended December 31, 2002, John Hancock Income Securities Trust produced a total return of 8.00% at net asset value. The average closed-end BBB-rated corporate debt fund returned 7.53%, according to

Edgar Filing: HANCOCK JOHN INCOME SECURITIES TRUST /MA - Form N-30D

Lipper, Inc., while the Lehman Brothers Government/Credit Bond Index returned 11.04%.

[Photos of Barry Evans, Jeffrey Given and Dawn Baillie flush right next to first paragraph.]

PORTFOLIO THEMES

In the first half of the year, the Fund was positioned for an economic recovery that failed to materialize. More than half of the portfolio was invested in corporate bonds, with an emphasis on companies that would benefit the most from a rebounding economy, such as utilities, telecommunications and media. However, these sectors wrestled with overcapacity, competitive pressures, declining earnings and lingering fallout from the high-profile scandals at Enron, WorldCom and Adelphia.

"We were also able to add to the portfolio's yield by investing in preferred stocks."

In the summer and fall, we began to lower the portfolio's overall credit quality in anticipation of a recovery in the credit cycle. This strategy also allowed us to capture higher yields in a declining interest-rate environment and make some favorable relative-value trades -- selling bonds that had performed well in the first half of the year and buying securities that had underperformed. Accordingly, we reduced the Fund's holdings of Treasury bonds and higher-quality corporate bonds, and replaced them with lower-rated corporate bonds and mortgage-backed securities.

FINDING VALUE AMONG CORPORATE BONDS

As part of our trade down in the credit quality of the Fund's corporate bonds, we boosted the percentage of below-investment-grade securities (rated BB or lower) to 15% of the portfolio, up from around 10% at the beginning of the year. These "high-yield" bonds were the performance leaders in the bond market during the last few months of the year.

We found some of the best values in beaten-down sectors that were already prominently featured in the portfolio, such as utilities and telecom. Examples include Calpine and Mirant, two energy-trading companies, and some of the more liquid lower-rated telecom bonds, like Telus and Citizens Communications.

[Table at top left-hand side of page entitled "Top five sectors." The first listing is U.S. government agencies 30%, the second is U.S. government 13%, the third Utilities 8%, the fourth Finance 7%, and the fifth Media 5%.]

We also added to our cyclical and financial holdings. Cyclical bonds underperformed as the economy lost momentum at mid-year, so we snapped up the bonds of paper company Abitibi-Consolidated, nickel producer Inco, and petrochemical company Nova Chemicals, as well as TFM, a Mexican railroad company. Among financial companies, we added CIT Group, a diversified financial services firm that was spun off by Tyco in July, and Capital One, a bank with a sizable credit-card business.

[Pie chart in middle of page with heading "Portfolio diversification As a percentage of net assets on 12-31-02." The chart is divided into four sections (from top to left): Corporate bonds 53%, U.S. government & agency bonds 42%, Preferred stocks 4% and Short-term investments & other 1%.]

Edgar Filing: HANCOCK JOHN INCOME SECURITIES TRUST /MA - Form N-30D

SHIFTING INTO MORTGAGES

The other main shift occurred within the highest-quality portion of the portfolio. We took profits in some of the Fund's top-rated securities -- including Treasury bonds, asset-backed securities, and high-grade corporate bonds -- and invested the proceeds in mortgage-backed securities.

Mortgage-backed securities became attractive in late summer after struggling for much of the year. Mortgage bonds tend to perform best when interest rates are stable, but interest-rate volatility was high in 2002. In addition, the general decline in rates sparked a mortgage refinancing boom that also weighed on mortgage-backed securities.

[Table at top of page entitled "SCORECARD." The header for the left column is "INVESTMENT" and the header for the right column is "RECENT PERFORMANCE...AND WHAT'S BEHIND THE NUMBERS." The first listing is NiSource followed by an up arrow with the phrase "Indiana utility reduced leverage by issuing equity." The second listing is Household Finance followed by an up arrow with the phrase "Sub-prime lender acquired by HSBC." The third listing is Calpine followed by a down arrow with the phrase "Energy generator hurt by high debt and excess capacity."]

We also traded into mortgage-backed securities carrying current interest rates, which are historically low. Emphasizing lower-coupon mortgages enabled the Fund to maintain its income stream and avoid any adverse impact from the heavy refinancing activity that occurred in the fall.

"We expect interest rates to rise slightly but remain in a fairly narrow range during the first half of 2003."

ADDING YIELD WITH PREFERRED STOCKS

We were also able to add to the portfolio's yield by investing in preferred stocks. In recent months, the preferred shares of many companies offered dividend yields that were two to three percentage points higher than prevailing corporate bond yields. Although the Fund's position in preferred stocks is small, it has boosted the Fund's income level. We focused on the preferred stocks of utilities and financial companies.

OUTLOOK

We expect interest rates to rise slightly but remain in a fairly narrow range during the first half of 2003. Although economic conditions are likely to improve, we think growth will be moderate and that inflation will remain low, keeping the Fed out of the picture. With corporate scandals fading and a potential U.S.-Iraq war already factored into the market, the flight-to-quality demand for Treasury bonds is likely to run dry. Our strategy emphasizing mortgage-backed securities and higher-yielding corporate bonds would fare well in a stable rate environment.

This commentary reflects the views of the portfolio managers through the end of the Fund's period discussed in this report. Of course, the managers' views are subject to change as market and other conditions warrant.

Edgar Filing: HANCOCK JOHN INCOME SECURITIES TRUST /MA - Form N-30D

FUND'S
INVESTMENTS

Securities owned
by the Fund on
December 31, 2002

This schedule is divided into three main categories: publicly traded bonds, preferred stocks and short-term investments. Publicly traded bonds are further broken down by industry group. Short-term investments, which represent the Fund's cash position, are listed last.

qualified institutional buyers, in transactions exempt from registration. Rule 144A securities amounted to \$11,837,556 or 6.63% of the Fund's net assets as of December 31, 2002.

+ All or a portion of these securities, having an aggregate value of \$25,032,370 or 1.40% of the Fund's net assets, have been purchased as forward commitments; that is the Fund has agreed on a trade date to take delivery of and make payment for such securities on a delayed basis subsequent to the date of this schedule. The purchase price and interest rate of such securities are fixed at trade date, although the Fund does not earn any interest on such securities until settlement date. The Fund has instructed its Custodian Bank to segregate assets with a current value at least equal to the amount of the forward commitments. Accordingly, the market value of \$25,938,681 of United States Treasury Bonds 5.375% thru 9.125% due 8-15-17 thru 2-15-31, United States Treasury Notes 6.000% due 8-15-09 and 4.000% due 11-15-12, Federal National Mortgage Assn. 5.500% thru 7.000% due 8-25-12 thru 11-01-32 has been segregated to cover the forward commitments.

Par value of foreign bond is expressed in local currency, as shown parenthetically in security description.

* Credit ratings are unaudited and rated by Standard & Poor's where available, or Moody's Investors Service or John Hancock Advisers, LLC where Standard & Poor's ratings are not available.

Parenthetical disclosure of a foreign country in the security description represents country of a foreign issuer; however, security is U.S. dollar-denominated.

The percentage shown for each investment category is the total value of that category as a percentage of the net assets of the Fund.

ASSETS AND LIABILITIES

December 31, 2002

This Statement of Assets and Liabilities is the Fund's balance sheet. It shows the value of what the Fund owns, is due and owes. You'll also find the net asset value for each common share.

1 As required, effective January 1, 2001, the Fund has adopted the provisions of the AICPA Audit and Accounting Guide for Investment Companies, as revised, relating to the amortization of premiums and accretion of discounts on debt securities. The effect of this change on per share amounts for the year ended December 31, 2001 was to decrease net investment income per share by \$0.02, increase net realized and unrealized gain per share by \$0.02, and, had the Fund not made these

Edgar Filing: HANCOCK JOHN INCOME SECURITIES TRUST /MA - Form N-30D

changes to amortization and accretion, the ratio of net investment income to average net assets would have been 6.30%. The effect of this change on per share amounts for the year ended December 31, 2002 was to decrease net investment income per share by \$0.03, increase net realized and unrealized gain per share by \$0.03, and, had the Fund not made these changes to amortization and accretion, the ratio of net investment income to average net assets would have been 5.78%. Per share ratios and supplemental data for periods prior to January 1, 2001 have not been restated to reflect this change in presentation.

2 Based on average shares outstanding.

3 Assumes dividend reinvestment.

See notes to
financial statements.

NOTES TO STATEMENTS

NOTE A Accounting policies

John Hancock Income Securities Trust (the "Fund") is a closed-end diversified investment management company registered under the Investment Company Act of 1940.

Significant accounting policies of the Fund are as follows:

Valuation of investments

Securities in the Fund's portfolio are valued on the basis of market quotations, valuations provided by independent pricing services or at fair value as determined in good faith in accordance with procedures approved by the Trustees. Short-term debt investments maturing within 60 days are valued at amortized cost, which approximates market value.

Joint repurchase agreement

Pursuant to an exemptive order issued by the Securities and Exchange Commission, the Fund, along with other registered investment companies having a management contract with John Hancock Advisers, LLC (the "Adviser"), a wholly owned subsidiary of The Berkeley Financial Group, LLC, may participate in a joint repurchase agreement transaction. Aggregate cash balances are invested in one or more large repurchase agreements, whose underlying securities are obligations of the U.S. government and/or its agencies. The Fund's custodian bank receives delivery of the underlying securities for the joint account on the Fund's behalf. The Adviser is responsible for ensuring that the agreement is fully collateralized at all times.

Investment transactions

Investment transactions are recorded as of the date of purchase, sale or maturity. Net realized gains and losses on sales of investments are determined on the identified cost basis. Some securities may be purchased on a "when-issued" or "forward delivery" basis, which means that the securities will be delivered to the Fund at a future date,

Edgar Filing: HANCOCK JOHN INCOME SECURITIES TRUST /MA - Form N-30D

usually beyond customary settlement date.

Discount and premium on securities

The Fund accretes discount and amortizes premium from par value on securities from either the date of issue or the date of purchase over the life of the security.

Expenses

The majority of the expenses are directly identifiable to an individual fund. Expenses that are not readily identifiable to a specific fund will be allocated in such a manner as deemed equitable, taking into consideration, among other things, the nature and type of expense and the relative sizes of the funds.

Securities lending

The Fund may lend securities to certain qualified brokers who pay the Fund negotiated lender fees. These fees are included in interest income. The loans are collateralized at all times with cash or securities with a market value at least equal to the market value of the securities on loan. As with other extensions of credit, the Fund may bear the risk of delay of the loaned securities in recovery or even loss of rights in the collateral, should the borrower of the securities fail financially. On December 31, 2002, the Fund loaned securities having a market value of \$27,373,949 collateralized by securities in the amount of \$28,051,444.

Federal income taxes

The Fund qualifies as a "regulated investment company" by complying with the applicable provisions of the Internal Revenue Code and will not be subject to federal income tax on taxable income that is distributed to shareholders. Therefore, no federal income tax provision is required. For federal income tax purposes, the Fund has \$1,647,579 of a capital loss carryforward available, to the extent provided by regulations, to offset future net realized capital gains. To the extent that such carryforward is used by the Fund, no capital gain distributions will be made. The entire amount of the loss carryforward expires December 31, 2008.

Dividends, interest and distributions

Dividend income on investment securities is recorded on the ex-dividend date or, in the case of some foreign securities on the date thereafter, when the Fund identifies the dividend. Interest income on investment securities is recorded on the accrual basis. Foreign income may be subject to foreign withholding taxes, which are accrued as applicable.

The Fund records distributions to shareholders from net investment income and net realized gains on the ex-dividend date. During the year ended December 31, 2002, the tax character of distributions paid was as follows: ordinary income \$9,996,235. As of December 31, 2002, the components of distributable earnings on a tax basis included \$103,105 of undistributed ordinary income. Such distributions and distributable earnings, on a tax basis, are determined in conformity with income tax regulations, which may differ from accounting principles generally accepted in the United States of America. Distributions in excess of tax basis earnings and profits, if any, are reported in the Fund's financial statements as a return of capital.

Use of estimates

Edgar Filing: HANCOCK JOHN INCOME SECURITIES TRUST /MA - Form N-30D

The preparation of these financial statements, in accordance with accounting principles generally accepted in the United States of America, incorporates estimates made by management in determining the reported amount of assets, liabilities, revenues and expenses of the Fund. Actual results could differ from these estimates.

NOTE B

Management fee and transactions with affiliates and others

The Fund has an investment management contract with the Adviser. Under the investment management contract, the Fund pays a quarterly management fee to the Adviser, equivalent on an annual basis, to the sum of (a) 0.65% of the first \$150,000,000 of the Fund's average weekly net asset value, (b) 0.375% of the next \$50,000,000, (c) 0.35% of the next \$100,000,000 and (d) 0.30% of the Fund's average weekly net asset value in excess of \$300,000,000.

In the event normal operating expenses of the Fund, exclusive of taxes, interest, brokerage commissions and extraordinary expenses, exceed 1.5% of the first \$30,000,000 of the Fund's average weekly net asset value and 1.0% of the Fund's average weekly net asset value in excess of \$30,000,000, the fee payable to the Adviser will be reduced to the extent of such excess, and the Adviser will make additional arrangements necessary to eliminate any remaining excess expenses. There were no management fee reductions during the year ended December 31, 2002.

The Fund has an agreement with the Adviser to perform necessary tax, accounting and legal services for the Fund. The compensation for the year was at an annual rate of approximately 0.03% of the average net assets of the Fund.

Ms. Maureen R. Ford and Mr. John M. DeCiccio are directors and/or officers of the Adviser and/or its affiliates, as well as Trustees of the Fund. The compensation of unaffiliated Trustees is borne by the Fund. The unaffiliated Trustees may elect to defer for tax purposes their receipt of this compensation under the John Hancock Group of Funds Deferred Compensation Plan. The Fund makes investments into other John Hancock funds, as applicable, to cover its liability for the deferred compensation. Investments to cover the Fund's deferred compensation liability are recorded on the Fund's books as an other asset. The deferred compensation liability and the related other asset are always equal and are marked to market on a periodic basis to reflect any income earned by the investment as well as any unrealized gains or losses. The Deferred Compensation Plan investments had no impact on the operations of the Fund.

NOTE C

Fund share transactions

This listing illustrates the number of Fund shares reinvested, the reclassification of capital accounts and the number of shares outstanding at the beginning and end of the last two periods, along with the corresponding dollar value. The Fund has an 30 million shares authorized with no par value.

	YEAR ENDED 12-31-01		YEAR ENDED 12-31-02	
	SHARES	AMOUNT	SHARES	AMOUNT
Beginning of period	10,819,590	\$173,576,723	10,898,374	\$174,131,001
Distributions reinvested	78,784	1,162,518	53,808	795,011
Reclassification of				

Edgar Filing: HANCOCK JOHN INCOME SECURITIES TRUST /MA - Form N-30D

capital accounts	--	(608,240)	--	286,961
End of period	10,898,374	\$174,131,001	10,952,182	\$175,212,973

NOTE D

Investment transactions

Purchases and proceeds from sales or maturities of securities, other than short-term securities and obligations of the U.S. government, during the year ended December 31, 2002, aggregated \$403,222,655 and \$387,421,771, respectively. Purchases and proceeds from sales or maturities of obligations of U.S. government aggregated \$231,299,547 and \$233,725,342, respectively, during the year ended December 31, 2002.

The cost of investments owned on December 31, 2002, including short-term investments, for federal income tax purposes was \$194,379,269. Gross unrealized appreciation and depreciation of investments aggregated \$7,899,988 and \$3,273,524, respectively, resulting in net unrealized appreciation of \$4,626,464. The difference between book basis and tax basis net unrealized appreciation of investments is attributable primarily to the tax deferral of losses on wash sales and amortization of premiums and accretion of discounts on debt securities.

NOTE E

Reclassification of accounts

During the year ended December 31, 2002, the Fund reclassified amounts to reflect an increase in accumulated net realized loss on investments of \$664,549, an increase in accumulated net investment income of \$377,588 and an increase in capital paid-in of \$286,961. This represents the amount necessary to report these balances on a tax basis, excluding certain temporary differences, as of December 31, 2002. Additional adjustments may be needed in subsequent reporting periods. These reclassifications, which have no impact on the net asset value of the Fund, are primarily attributable to certain differences in the computation of distributable income and capital gains under federal tax rules versus accounting principles generally accepted in the United States of America, book and tax differences in accounting for deferred compensation. The calculation of net investment income per share in the financial highlights excludes these adjustments.

NOTE F

Change in accounting principle

Effective January 1, 2001, the Fund adopted the provisions of the AICPA Audit and Accounting Guide for Investment Companies, as revised, relating to the amortization of premiums and accretion of discounts on debt securities. The cumulative effect of this accounting change had no impact on the total net assets of the Fund, but resulted in a \$834,274 reduction in the cost of investments and a corresponding increase in net unrealized appreciation of investments, based on securities held as of December 31, 2000.

The effect of this change for the year ended December 31, 2001 was to decrease net investment income by \$228,613, decrease unrealized appreciation of investments by \$243,611 and increase net realized gain on investments by \$472,224. The effect of this change for the year ended December 31, 2002 was to decrease net investment income by \$377,606, decrease unrealized appreciation of investments by \$287,323 and increase net realized gain on investments by \$664,929.

The statement of changes in net assets and the financial highlights for

Edgar Filing: HANCOCK JOHN INCOME SECURITIES TRUST /MA - Form N-30D

prior periods have not been restated to reflect this change in presentation.

NOTE G

Change in Independent Auditor

Based on the recommendation of the Audit Committee of the Fund, the Board of Trustees has determined not to retain Ernst & Young LLP as the Fund's independent auditor and voted to appoint PricewaterhouseCoopers LLP for the fiscal year ended December 31, 2003. During the two most recent fiscal years, Ernst & Young LLP 's audit reports contained no adverse opinion or disclaimer of opinion; nor were their reports qualified as to uncertainty, audit scope, or accounting principles. Further, there were no disagreements between the Fund and Ernst & Young LLP on accounting principles, financial statements disclosure or audit scope, which if not resolved to the satisfaction of Ernst & Young LLP, would have caused them to make reference to the disagreement in their report.

AUDITORS' REPORT

Report of
Ernst & Young
LLP, Independent
Auditors

To the Board of Trustees and Shareholders of John Hancock Income Securities Trust,

We have audited the accompanying statement of assets and liabilities of John Hancock Income Securities Trust (the "Fund"), including the schedule of investments, as of December 31, 2002, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of December 31, 2002, by correspondence with the custodian and brokers. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of John Hancock Income Securities Trust at December 31, 2002, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the

Edgar Filing: HANCOCK JOHN INCOME SECURITIES TRUST /MA - Form N-30D

period then ended, in conformity with accounting principles generally accepted in the United States of America.

/S/ERNST & YOUNG LLP

Boston, Massachusetts
February 7, 2003

TAX INFORMATION

Unaudited

For federal income tax purposes, the following information is furnished with respect to the distributions of the Fund paid during its taxable year ended December 31, 2002.

With respect to the ordinary dividends paid by the Fund for the fiscal year ended December 31, 2002, 0.75% of the dividends qualify for the corporate dividends-received deduction.

Shareholders will be mailed a 2002 U.S. Treasury Department Form 1099-DIV in January 2003. This will reflect the total of all distributions that are taxable for calendar year 2002.

INVESTMENT OBJECTIVE AND POLICY

The Fund is a closed-end diversified investment management company, shares of which were initially offered to the public on February 14, 1973, and are publicly traded on the New York Stock Exchange. Its investment objective is to generate a high level of current income consistent with prudent investment risk. The Fund invests in a diversified portfolio of freely marketable debt securities and may invest an amount not exceeding 20% of its assets in income-producing preferred and common stock. Under normal circumstances the Fund will invest at least 80% of net assets in income securities. Income securities will consist of the following: (i) marketable corporate debt securities, (ii) governmental obligations and (iii) cash and commercial paper. "Net assets" is defined as net assets plus borrowings for investment purposes. The Fund will notify shareholders at least 60 days prior to any change in this 80% investment policy.

It is contemplated that at least 75% of the value of the Fund's total assets will be represented by debt securities which have at the time of purchase a rating within the four highest grades as determined by Moody's Investors Service, Inc., or Standard & Poor's Corporation. The Fund intends to engage in short-term trading and may invest in repurchase agreements. The Fund may issue a single class of senior securities not to exceed 33 1/3% of its net assets at market value and may borrow from banks as a temporary measure for emergency purposes in amounts not to exceed 5% of the total assets at cost. The Fund may lend portfolio securities not to exceed 33 1/3% of total assets.

FINANCIAL FUTURES CONTRACTS AND OPTIONS

The Fund may buy and sell financial futures contracts and options on

Edgar Filing: HANCOCK JOHN INCOME SECURITIES TRUST /MA - Form N-30D

futures contracts to hedge against the effects of fluctuations in interest rates and other market conditions. The Fund's ability to hedge successfully will depend on the Adviser's ability to predict accurately the future direction of interest rate changes and other market factors. There is no assurance that a liquid market for futures and options will always exist. In addition, the Fund could be prevented from opening, or realizing the benefits of closing out, a futures or options position because of position limits or limits on daily price fluctuations imposed by an exchange.

The Fund will not engage in transactions in futures contracts and options on futures for speculation, but only for hedging or other permissible risk management purposes. All of the Fund's futures contracts and options on futures will be traded on an U.S. commodity exchange or board of trade. The Fund will not engage in a transaction in futures or options on futures if, immediately thereafter, the sum of initial margin deposits on existing positions and premiums paid for options on futures would exceed 5% of the Fund's total assets.

DIVIDENDS AND DISTRIBUTIONS

The Fund pays quarterly dividends from net investment income and intends to distribute any available net realized capital gains annually. All distributions are paid in cash unless the shareholder elects to participate in the Dividend Reinvestment Plan.

During the fiscal year ended December 31, 2002, the Fund paid to shareholders dividends from net investment income totaling \$ 0.9150 per share. The dates of payment and the amounts per share are as follows:

DIVIDEND REINVESTMENT PLAN

The Fund offers shareholders a Dividend Reinvestment Plan (the "Plan"), which offers the opportunity to earn compounded yields. Any shareholder of record of the Fund may elect to participate in the Plan and receive the Fund's common shares in lieu of all or a portion of the cash dividends. The Plan is available to all shareholders without charge. Mellon Investor Services (the "Plan Agent") will act as agent for participating shareholders.

Shareholders may join the Plan by notifying the Plan Agent by telephone, in writing or by visiting the Plan Agent's Web site at www.melloninvestor.com showing an election to reinvest all or a portion of dividend payments. If received in proper form by the Plan Agent prior to the record date for a dividend, the election will be effective with respect to all dividends paid after such record date. Shareholders whose shares are held in the name of a broker or nominee should contact the broker or nominee to participate in the Plan.

The Board of Trustees of the Fund will declare dividends from net investment income payable in cash or, in the case of shareholders participating in the Plan, partially or entirely in the Fund's common shares. The number of shares to be issued for the benefit of each shareholder will be determined by dividing the amount of the cash dividend otherwise payable to such shareholder on shares included under the Plan, by the per share net asset value of the common shares on the date for payment of the dividend, unless the net asset value per share on the payment date is less than 95% of the market price per share on that date, in which event the number of shares to be issued to a shareholder will be determined by dividing the amount of the cash

Edgar Filing: HANCOCK JOHN INCOME SECURITIES TRUST /MA - Form N-30D

dividend payable to such shareholder by 95% of the market price per share of the common shares on the payment date. The market price of the common shares on a particular date shall be the mean between the highest and lowest sales price on the New York Stock Exchange on that date. Net asset value will be determined in accordance with the established procedures of the Fund. However, if as of such payment date the market price of the common shares is lower than such net asset value per share, the number of shares to be issued will be determined on the basis of such market price. Fractional shares, carried out to four decimal places, will be credited to the shareholder's account. Such fractional shares will be entitled to future dividends. The shares issued to participating shareholders, including fractional shares, will be held by the Plan Agent in the name of the participant. A confirmation will be sent to each shareholder promptly, normally within five to seven days, after the payment date of the dividend. The confirmation will show the total number of shares held by such shareholder before and after the dividend, the amount of the most recent cash dividend that the shareholder has elected to reinvest and the number of shares acquired with such dividend.

Participation in the Plan may be terminated at any time by contacting the Plan Agent by telephone, in writing or by visiting the Plan Agent's Web site, and such termination will be effective immediately. However, notice of termination must be received prior to the record date of any distribution to be effective for that distribution. Upon termination, certificates will be issued representing the number of full shares of common shares held by the Plan Agent. A shareholder will receive a cash payment for any fractional share held.

The reinvestment of dividends will not relieve participants of any federal, state or local income tax, which may be due with respect to such dividend. Dividends reinvested in common shares will be treated on your federal income tax return as though you had received a dividend in cash in an amount equal to the fair market value of the shares received, as determined by the prices for shares of the Fund on the New York Stock Exchange as of the dividend payment date. Distributions from the Fund's long-term capital gains will be processed as noted above for those electing to reinvest in common shares and will be taxable to you as long-term capital gains. The confirmation referred to above will contain all the information you will require for determining the cost basis of shares acquired and should be retained for that purpose. At year end, each account will be supplied with detailed information necessary to determine total tax liability for the calendar year.

All correspondence or additional information concerning the Plan should be directed to the Plan Agent, Mellon Bank, N.A., c/o Mellon Investor Services, P.O. Box 3338, South Hackensack, New Jersey 07606-1938 (telephone 1-800-852-0218).

SHAREHOLDER
COMMUNICATION
AND ASSISTANCE

If you have any questions concerning the Fund, we will be pleased to assist you. If you hold shares in your own name and not with a brokerage firm, please address all notices, correspondence, questions or other communications regarding the Fund to the transfer agent at:

Mellon Investor Services
85 Challenger Road
Overpeck Centre
Ridgefield Park, NJ 07660

Edgar Filing: HANCOCK JOHN INCOME SECURITIES TRUST /MA - Form N-30D

Telephone: 1-800-852-0218

If your shares are held with a brokerage firm, you should contact that firm, bank or other nominee for assistance.

Shareholder meeting

On March 7, 2002, the Annual Meeting of the Fund was held to elect eleven Trustees and to ratify the actions of the Trustees in selecting independent auditors for the Fund. The shareholders elected the following Trustees to serve until their respective successors are duly elected and qualified, with the votes tabulated as follows:

	FOR	WITHHELD AUTHORITY
Dennis S. Aronowitz	9,495,981	133,327
Richard P. Chapman, Jr.	9,500,587	128,721
William J. Cosgrove	9,497,641	131,667
John M. DeCiccio	9,491,533	137,775
Richard A. Farrell	9,507,640	121,668
Maureen R. Ford	9,504,409	124,899
Gail D. Fosler	9,501,226	128,082
William F. Glavin	9,442,832	186,476
Dr. John A. Moore	9,491,496	137,812
Patti McGill Peterson	9,490,842	138,466
John W. Pratt	9,501,229	128,079

The shareholders also ratified the Trustees' selection of Ernst & Young, LLP as the Fund's independent auditors for the fiscal year ending December 31, 2002, with the votes tabulated as follows: 9,451,207 FOR, 60,154 AGAINST and 117,947 ABSTAINING.
