<u>601 Congress Street, Boston, Massachusetts 02210</u> (Address of principal executive offices) (Zip code)

Alfred P. Ouellette Senior Counsel and Assistant Secretary

601 Congress Street

Boston, Massachusetts 02210

(Name and address of agent for service)

Registrant's telephone number, including area code: 617-663-4324

Date of fiscal year end: July 31

Date of reporting period: July 31, 2008

ITEM 1. REPORT TO SHAREHOLDERS.

Discussion of Fund performance

By MFC Global Investment Management (U.S.), LLC

Preferred stocks suffered significant losses during the 12-month period ended July 31, 2008. Worsening conditions in the credit markets prompted waves of selling, at the same time that preferred stocks were hit by a massive influx of new preferred stock issues and waning demand. For the 12 months ended July 31, 2008, John Hancock Preferred Income Fund II returned $\square 13.31\%$ at net asset/alue (NAV) and $\square 15.65\%$ at market value. The

difference in the Fund \[\]s NAV performance and its market performance stems from the fact that the market share price is subject to the dynamics of secondary market trading, which could cause it to trade at a discount or premium to the Fund \[\]s NAV share price at any time. By comparison, the average long-term closed-end bond fund returned \[\] 15.97%, according to Morningstar, Inc. For the same 12-month period, the Lehman Brothers U.S. Aggregate Index returned 6.15%, and the Merrill Lynch Preferred Stock Hybrid Securities Index returned \[\] 9.40%. The Fund \[\]s underperformance of the Merrill Lynch index stemmed primarily from our larger exposure to tax-advantaged preferred stocks \[\] those eligible for a benefit known as the dividends received deduction (DRD) \[\] which suffered the most from burgeoning supply and, as a result, were among the preferred segment \[\]s biggest laggards. The Fund \[\]s current annualized distribution rate was 10.19% at NAV and 10.67% at closing market price on July 31, 2008.

□Preferred stocks suffered significant losses during the 12-month period ended July 31, 2008.

In a period in which most preferred stocks declined, our financial holdings were among our biggest detractors, including Lehman Brothers Holdings, Inc. and Merrill Lynch & Co., Inc., which faltered because of the write-offs stemming from losses in mortgage-backed holdings. In contrast, we enjoyed reasonably good performance from some energy-related and utility companies preferred holdings, including Nexen, Inc., whose profitability improved as energy prices remained high and the U.S. dollar weakened.

This commentary reflects the views of the portfolio management team through the end of the Fund speriod discussed in this report. The team statements reflect its own opinions. As such they are in no way guarantees of future events and are not intended to be used as investment advice or a recommendation regarding any specific security. They are also subject to change at any time as market and other conditions warrant.

The Fund normally will invest at least 25% of its managed assets in securities of companies in the utilities industry. Such an investment concentration makes the Fund more susceptible than a more broadly diversified fund to factors adversely affecting the utilities industry. Sector investing is subject to greater risks than the market as a whole. International investing involves special risks such as political, economic and currency risks and differences in accounting standards and financial reporting. These risks are more significant in emerging markets. Past performance is no guarantee of future results.

Notes to financial statements

Note 1 Organization

 $\label{local-end} \mbox{ John Hancock Preferred Income Fund II (the Fund) is a diversified closed-end management investment company registered under the Investment Company Act of 1940, as amended (the 1940 Act). }$

Note 2 Significant accounting policies

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, which require management to make certain estimates and assumptions at the date of the financial statements. Actual results could differ from those estimates. The following summarizes the significant accounting policies of the Fund:

Security valuation

The net asset value of the common shares of the Fund is determined daily as of the close of the New York Stock Exchange (NYSE), normally at 4:00 p.m., Eastern Time. Short-term debt investments that have a remaining maturity of 60 days or less are valued at amortized cost, and thereafter assume a constant amortization to maturity of any discount or premium, which approximates market value. All other securities held by the Fund are valued at the last sale price or official closing price (closing bid price or last evaluated quote if no sale has occurred) as of the close of business on the principal securities exchange (domestic or foreign) on which they trade or, lacking any sales, at the closing bid price. Securities traded only in the over-the-counter market are valued at the last bid price quoted by brokers making markets in the securities at the close of trading. Securities for which there are no such quotations, principally debt securities, are valued based on the evaluated prices provided by an independent pricing service, which utilizes both dealer-supplied and electronic data processing techniques, which take into account factors such as institutional-size trading in similar groups of securities, yield, quality, coupon rate, maturity, type of issue, trading characteristics and other market data.

Other assets and securities for which no such quotations are readily available are valued at fair value as determined in good faith under consistently applied procedures established by and under the general supervision of the Board of Trustees. Generally, trading in non-U.S. securities is substantially completed each day at various times prior to the close of trading on the NYSE. The values of such securities used in computing the net asset value of the Fund\(\preceips\) shares are generally determined as of such times. Occasionally, significant events that affect the values of such securities may occur between the times at which such values are generally determined and the close of the NYSE. Upon such an occurrence, these securities will be valued at fair value as determined in good faith under consistently applied procedures established by and under the general supervision of the Board of Trustees. Debt securities whose prices cannot be provided by an independent pricing service are valued at prices provided by broker-dealers.

In deciding whether to make a fair value adjustment to the price of a security, the Board of Trustees or their designee may review a variety of factors, including developments in foreign markets, the performance of U.S. securities markets and the performance of instruments trading in U.S. markets that represent foreign securities and baskets of foreign securities. The Fund may also fair value securities in other situations, for example, when a particular foreign market is closed, but the Fund is calculating the net asset value. In view of these factors, it is likely that a Fund investing significant amounts of assets in securities in foreign markets will be fair valued more frequently than a Fund investing significant amounts of assets in frequently traded, U.S. exchange listed securities of large-capitalization U.S. issuers.

18 Preferred Income Fund II | Annual report

For purposes of determining when fair value adjustments may be appropriate with respect to investments in securities in foreign markets that close prior to the NYSE, the Fund will, on an ongoing basis, monitor for significant market events. A significant market event may be a certain percentage change in the value of an index that tracks foreign markets in which the Fund has significant investments. If a significant market event occurs due to a change in the value of the index, the pricing for investments in foreign markets that have closed prior to the NYSE will promptly be reviewed and potential adjustments to the net asset value will be recommended to the Fund S Pricing Committee where applicable.

Valuations change in response to many factors including the historical and prospective earnings of the issuer, the value of the issuer assets, general economic conditions, interest rates, investor perceptions and market liquidity.

Investment risk

The Fund may invest a portion of its assets in issuers and/or securities of issuers that hold mortgage securities, including subprime mortgage securities. The value of these securities is sensitive to changes in economic conditions, including delinquencies and/or defaults, and may be adversely affected by shifts in the market sperception of the issuers and changes in interest rates.

Investment transactions

Investment transactions are accounted for on a trade date plus one basis for daily net asset value calculations. However, for financial reporting purposes, investment security transactions are reported on trade date. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date net of foreign withholding taxes. Discounts/ premiums are accreted/amoritized for financial reporting purposes. Realized gains and losses from investment transactions are recorded on an identified cost basis.

Guarantees and indemnifications

Under the Fund organizational documents, its Officers and Trustees are indemnified against certain liability arising out of the performance of their duties to the Fund. Additionally, in the normal course of business, the Fund enters into contracts with service providers that contain general indemnification clauses. The Fund maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred.

Expenses

The majority of expenses are directly identifiable to an individual fund. Fund expenses that are not readily identifiable to a specific fund are allocated in such a manner as deemed equitable, taking into consideration, among other things, the nature and type of expense and the relative size of the funds.

Futures

The Fund may purchase and sell financial futures contracts and options on those contracts. The Fund invests in contracts based on financial instruments such as U.S. Treasury Bonds or Notes or on securities indices such as the Standard & Poor□s 500 Index, in order to hedge against a decline in the value of securities owned by the Fund.

Initial margin deposits required upon entering into futures contracts are satisfied by the delivery of specific securities or cash as collateral to the broker (the Fund\subsetence agent in acquiring the futures position). If the position is closed out by an opposite position prior to the settlement date of the futures contract, a final determination of variation margin is made, cash is required to be paid to or released by the broker and the Fund realizes a gain or loss.

When the Fund sells a futures contract based on a financial instrument, the Fund becomes obligated to deliver that kind of instrument at an agreed upon date for a specified price. The Fund realizes a gain or loss depending on whether the price of an offsetting purchase is less or more than the price of the initial sale or on whether the price of an offsetting sale is more or less than the price of the initial purchase. The Fund could be exposed to risks if it could not close out futures positions because of an illiquid secondary market or the inability of counterparties to meet the terms of their contracts. Futures contracts are valued at the quoted daily settlement prices established by the exchange on which they trade.

Annual report | Preferred Income Fund II 19

Swap contracts

Interest rate swaps represent an agreement between two counterparties to exchange cash flows based on the difference in the two interest rates, applied to the notional principal amount for a specified period. The payment flows are usually netted against each other, with the difference being paid by one party to the other. The Fund

settles accrued net receivable or payable under the swap contracts on a periodic basis.

The Fund records changes in the value of the swap as unrealized gains or losses on swap contracts. Net periodic payments accrued but not yet received (paid) are included in change in the unrealized appreciation/depreciation. Accrued interest income and interest expense on the swap contracts are recorded as realized gain (loss).

Swap contracts are subject to risks related to the counterparty sability to perform under the contract, and may decline in value if the counterparty creditworthiness deteriorates. The risks may arise from unanticipated movement in interest rates. The Fund may also suffer losses if it is unable to terminate outstanding swap contracts or reduce its exposure through offsetting transactions.

Federal income taxes

The Fund qualifies as a regulated investment company by complying with the applicable provisions of the Internal Revenue Code and will not be subject to federal income tax on taxable income that is distributed to shareholders. Therefore, no federal income tax provision is required.

Net capital losses of \$15,901,994 that are attributable to security transactions incurred after October 31, 2007, are treated as arising on August 1, 2008, the first day of the Fund⊓s next taxable year.

The Fund has adopted the provisions of Financial Accounting Standards Board (FASB) Interpretation No. 48, Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement 109 (FIN 48), at the beginning of the Fund scribes a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return. The implementation of FIN 48 did not have a material impact on the Fund financial statements. Each of the Fund federal tax returns for the prior three years remain subject to examination by the Internal Revenue Service.

Risks associated with foreign investments

Investing in securities issued by companies whose principal business activities are outside the United States may involve significant risks not present in domestic investments. For example, there is generally less publicly available information about foreign companies, particularly those not subject to the disclosure and reporting requirements of the U.S. securities laws. Foreign issuers are generally not bound by uniform accounting, auditing, and financial reporting requirements and standards of practice comparable to those applicable to domestic issuers. Investments in foreign securities also involve the risk of possible adverse changes in investment or exchange control regulations, expropriation or confiscatory taxation, limitation on the removal of funds or other assets of the Fund, political or financial instability or diplomatic and other developments which could affect such investments. Foreign stock markets, while growing in volume and sophistication, are generally not as developed as those in the United States, and securities of some foreign issuers (particularly those located in developing countries) may be less liquid and more volatile than securities of comparable U.S. companies. In general, there is less overall governmental supervision and regulation of foreign securities markets, broker-dealers and issuers than in the United States.

New accounting pronouncements

In September 2006, FASB Standard No. 157, *Fair Value Measurements* (FAS 157), was issued and is effective for fiscal years beginning after November 15, 2007. FAS 157 defines fair value, establishes a framework for measuring fair value and expands disclosure about fair value measurements. As of July 31, 2008,

20 Preferred Income Fund II | Annual report

management does not believe the adoption of FAS 157 will have a material impact on the amounts reported in the financial statements.

In March 2008, FASB No. 161 (FAS 161), Disclosures about Derivative Instruments and Hedging Activities, an amendment of FASB Statement No. 133 (FAS 133), was issued and is effective for fiscal years beginning after

November 15, 2008. FAS 161 amends and expands the disclosure requirements of FAS 133 in order to provide financial statement users an understanding of a company use of derivative instruments, how derivative instruments are accounted for under FAS 133 and related interpretations and how these instruments affect a company financial position, performance, and cash flows. FAS 161 requires companies to disclose information detailing the objectives and strategies for using derivative instruments, the level of derivative activity entered into by the company, and any credit risk-related contingent features of the agreements. Management is currently evaluating the adoption of FAS 161 on the Fund sinancial statement disclosures.

Distribution of income and gains

The Fund records distributions to shareholders from net investment income and net realized gains, if any, on the ex-dividend date. During the year ended July 31, 2007, the tax character of distributions paid was as follows: ordinary income \$61,207,508. During the year ended July 31, 2008, the tax character of distributions paid was as follows: ordinary income \$48,751,297, return of capital \$443,140 and long-term capital gain \$56,216. The tax character of the long-term capital gain distribution is proportionally shared between the common and preferred shareholders of the Fund.

Such distributions and distributable earnings, on a tax basis, are determined in conformity with income tax regulations, which may differ from accounting principles generally accepted in the United States of America. Distributions in excess of tax basis earnings and profits, if any, are reported in the Fund statements as a return of capital.

Capital accounts within financial statements are adjusted for permanent book-tax differences.

These adjustments have no impact on net assets or the results of operations. Temporary book-tax differences will reverse in a subsequent period. Permanent book/tax differences are primarily attributable to reclassifying short-term gain distribution paid from ordinary income, derivative transactions and amortization and accretion of debt securities.

Note 3 Management fee and transactions with affiliates and others

The Fund has an investment management contract with John Hancock Advisers, LLC (the Adviser), a wholly owned subsidiary of the John Hancock Financial Services, Inc., a subsidiary of Manulife Financial Corporation (MFC). Under the investment management contract, the Fund pays a daily management fee to the Adviser at an annual rate of 0.75% of the Fund\[\] s average daily net asset value and the value attributable to the committed facility agreement (see Note 5) (collectively, managed assets). The Fund has a subadvisory agreement with MFC Global Investment Management (U.S.), LLC, a subsidiary of John Hancock Financial Services, Inc. The Fund is not responsible for payment of subadvisory fees.

The Adviser has contractually agreed to limit the Fund[s management fee, on an annual basis, to the following: 0.55% of the Fund[s average daily managed assets until the fifth anniversary of the commencement of the Fund[s operations, 0.60% of such assets in the sixth year, 0.65% of such assets in the seventh year and 0.70% of average daily managed assets in the eighth year. The effective rate for the year ended July 31, 2008 is 0.58% of the Fund[s managed assets. Accordingly, the expense reductions related to the management fees amounted to \$1,150,114 for the year ended July 31, 2008. After the eighth year, the Adviser will no longer waive a portion of the management fee.

The Fund has an agreement with the Adviser and affiliates to perform necessary tax, accounting, compliance, legal and other administrative services for the Fund. The compensation for the year amounted to

Annual report | Preferred Income Fund II 21

\$93,584 with an effective rate of 0.01% of the Fund□s managed assets.

Mr. James R. Boyle is Chairman of the Adviser, as well as affiliated Trustee of the Fund, and is compensated by the Adviser and/or its affiliates. The compensation of unaffiliated Trustees is borne by the Fund. The unaffiliated Trustees may elect to defer, for tax purposes, their receipt of this compensation under the John Hancock Group of Funds Deferred Compensation Plan. The Fund makes investments into other John Hancock funds, as applicable, to cover its liability for the deferred compensation. Investments to cover the Fund\(\sigma\) s deferred compensation liability are recorded on the Fund\(\sigma\) s books as an other asset. The deferred compensation liability and the related other asset are always equal and are marked to market on a periodic basis to reflect any income earned by the investments, as well as any unrealized gains or losses. The Deferred Compensation Plan investments had no impact on the operations of the Fund.

The Fund is listed for trading on the NYSE and has filed with the NYSE its chief executive officer certification regarding compliance with the NYSE is listing standards. The Fund also files with the Securities and Exchange Commission the certification of its chief executive officer and chief financial officer required by Section 302 of the Sarbanes-Oxley Act.

Note 4 Transactions in common shares

The Fund is authorized to issue an unlimited number of common shares with no par value per share. This listing illustrates the Fund□s distributions reinvested, reclassification of the Fund□s capital accounts, return of capital and the number of common shares outstanding at the beginning and end of the years ended July 31, 2007, and July 31, 2008, along with the corresponding dollar value.

	Year ended 7-31-07		,	Year ended 7-31-08
	Shares	Amount	Shares	Amount
Beginning of period	21,059,736	\$498,764,930	21,125,906	\$500,135,205
Distributions reinvested	66,170	1,621,724		
Return of capital				(443,140)
Reclassification of capital accounts		(251,449)		687,682
End of period	21,125,906	\$500,135,205	21,125,906	\$500,379,747

Note 5 Leverage

The Fund utilizes a credit facility to increase its assets available for investment. In prior fiscal periods, the Fund used Auction Preferred Shares (APS) for leverage. When the Fund leverages its assets, common shareholders pay all fees associated with and have the potential to benefit from leverage. Consequently, the Fund and the Adviser may have differing interests in determining whether to leverage the Fund sassets. Leverage creates risks which may adversely affect the return for the holders of common shares, including:

the likelihood of greater volatility of net assetvalue and market price of common shares
fluctuations in the interest rate paid for theuse of the credit facility
increased operating costs, which may reduc∉he Fund□s total return to the holders of common shares
] the potential for a decline in the value of annivestment acquired through leverage, while the Fund∏s obligations under such leverage remains fixed
the fund is more likely to have to selbecurities in a volatile market in order to meet asset coverage or other debt compliance requirements

To the extent the income or capital appreciation derived from securities purchased with funds received from leverage exceeds the cost of leverage, the Fund\[\] s return will be greater than if leverage had not been used and, conversely, return would be lower if the cost

22 Preferred Income Fund II | Annual report

of the leverage exceeds the income or capital appreciation derived.

Effective May 2, 2008, the Fund Trustees approved a plan whereby the Fund form of leverage has changed from APS to a Committed Facility Agreement (the CFA). A third party commercial bank has agreed to provide this credit facility that enabled the refinancing of the Fund APS to debt. The redemption of all series was completed on May 28, 2008. Below is a comparison of the leverage methods utilized by the Fund:

	APS	CFA
Required Asset Coverage	200%	300%
Maximum Leverage Amount	\$254 million	\$208 million
Costs Associated with Leverage	Dividends paid to preferred shareholders (maximum rate equals the overnight commercial paper rate plus 1.25%)	Interest expense (overnight LIBOR plus 0.70%)
	APS auction fees	Arrangement fee*
	Auction agent expenses	Commitment fees (0.60% of the unused portion of the CFA)
	Preferred share transfer agent expenses	

^{*} Arrangement fee is \$520,000 amortized over the first 270 days of the CFA.

APS auction fees and auction agent expenses and interest expense, arrangement fees and commitment fees are included in APS auction fees and interest expense, respectively, in the Statement of Operations. See notes 6 and 7 for further details of the APS and CFA, respectively.

Note 6 Auction preferred shares

The Fund issued a total of 10,160 APS (2,032 shares of Series M, 2,032 shares of Series T, 2,032 shares of Series W, 2,032 of shares of Series TH and 2,032 shares of Series F) on January 29, 2003, in a public offering. The underwriting discount and offering costs were recorded as a reduction of the capital paid-in of common shares. Dividends on the APS, which accrued daily, are cumulative at a rate that was established at the offering of the APS and had been reset every seven days thereafter by an auction. During the year ended July 31, 2008, dividend rates on APS ranged as follows: Series M from 3.52% to 6.50%, Series T from 3.49% to 6.50%, Series W from 3.56% to 6.35%, Series TH from 3.42% to 6.50% and Series F from 3.47% to 6.25%. From June 1, 2007 to February 13, 2008, APS of the Fund were successfully remarketed at each remarketing date. All remarketing efforts of APS shares occurring after February 13, 2008 were not successful. As a result, the dividend rates for all

series were reset to the maximum, which ranged from 3.40% to 4.35%. The redemption of the APS was completed on May 28, 2008.

Note 7

Committed facility agreement

Effective May 7, 2008, the Fund entered into the CFA with a third party commercial bank that allows it to borrow up to an initial limit of \$208 million and to invest the borrowings in accordance with its investment practices. Borrowings under the CFA are secured by the assets of the Fund as disclosed in the Schedule of Investments. Interest is charged at the overnight LIBOR rate plus 0.70% and is payable monthly. Under the terms of the CFA, the Fund also pays an arrangement fee of 0.25% in the first year of the agreement on the committed financing and commitment fees of 0.60% per annum on the unused portion of the facility. Arrangement and commitment fees for the year ended July 31, 2008 totaled

Annual report | Preferred Income Fund II 23

\$161,778 and \$42,512, respectively, and are included in interest expense in the Statement of Operations. As of July 31, 2008, the Fund had borrowings of \$184,000,000 at an interest rate of 3.0225% and is reflected in the demand note payable on the Statement of Asset and Liabilities. For the period from May 22, 2008 to July 31, 2008, the average borrowings under the CFA and the effective average interest rate (annualized) were \$192,581,690 and 3.552%, respectively. The Fund may reduce or terminate the amount of the CFA with 270 days notice to the lender. Also, the CFA may be in default and result in termination in 30 days if certain asset coverage requirements or minimum net asset amounts are not met. Finally, the Fund may terminate the agreement with 60 days notice if the Board of Trustees has determined that the elimination of all indebtedness leveraging the Fund investments are in the best interests of the Fund shareholders. In addition, included in interest expense on the Statement of Operations, was \$734 of interest expense related to overdrafts.

Note 8

Purchase and sale of securities

Purchases and proceeds from sales or maturities of securities, other than short-term securities and obligations of the U.S. government, during the year ended July 31, 2008, aggregated \$66,858,793 and \$137,425,822, respectively.

Note 9

Subsequent event

The Fund, subsequent to July 31, 2008, experienced significant asset depreciation due to market events resulting in a 22.2% drop in net assets from \$385.8 million as of July 31, 2008 to \$300.0 million as of September 22, 2008. As a result of this decrease in net assets, the Fund has reduced outstanding senior debt by \$20 million since July 31, 2008.

24 Preferred Income Fund II | Annual report

Auditors ☐ report

Report of Independent Registered Public Accounting Firm

To the Board of Trustees and Shareholders of the John Hancock Preferred Income Fund II,

In our opinion, the accompanying statement of assets and liabilities, including the schedule of investments, and the related statements of operations and of changes in net assets and the financial highlights present fairly, in all material respects, the financial position of the John Hancock Preferred Income Fund II (the Fund) at July 31, 2008, and the results of its operations, the changes in its net assets and the financial highlights for the periods indicated, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as ∏financial statements∏) are the responsibility of the Fund\s management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at July 31, 2008 by correspondence with the custodian and brokers, provide a reasonable basis for our opinion. The financial highlights for each of the periods ended on or before July 31, 2005 were audited by another independent registered public accounting firm, whose report expressed an unqualified opinion thereon.

Annual report | Preferred Income Fund II 25

Tax information

Unaudited

For federal income tax purposes, the following information is furnished with respect to the distributions of the Fund, if any, paid during its taxable year ended July 31, 2008.

The Fund has designated distributions to shareholders of \$56,216 as a long-term capital gain dividend.

With respect to the ordinary dividends paid by the Fund for the fiscal year ended July 31, 2008, 48.30% of the dividends qualifies for the corporate dividends-received deduction.

The Fund hereby designates the maximum amount allowable of its net taxable income as qualified dividend income as provided in the Jobs and Growth Tax Relief Reconciliation Act of 2003. This amount will be reflected on Form 1099-DIV for the calendar year 2008.

Shareholders will be mailed a 2008 U.S. Treasury Department Form 1099-DIV in January 2009. This will reflect the total of all distributions that are taxable for calendar year 2008.

26 Preferred Income Fund II | Annual report

Investment objective and policy

The Fund secondary objective is to provide a high level of current income, consistent with preservation of capital. The Fund secondary objective is to provide growth of capital to the extent consistent with its primary objective. The Fund seeks to achieve its objectives by investing in a diversified portfolio of securities that, in the opinion of the Adviser, may be undervalued relative to similar securities in the marketplace.

Under normal market conditions, the Fund invests at least: (a) 80% of its assets in preferred stocks and other preferred securities, including convertible preferred securities, (b) 25% of its total assets in the industries comprising the utilities sector and (c) 80% of its total assets in preferred securities or other fixed-income securities which are rated investment grade or higher by Moody□s or Standard & Poor□s at the time of investment. □Assets□ are defined as net assets including the liquidation preference of APS plus borrowing for investment purposes.

Bylaws

On December 16, 2003, the Trustees approved the following change to the Fund\[]s bylaws. The auction preferred shares section of the Fund\[]s bylaws was changed to update the rating agency requirements in keeping with recent changes to the agencies\[] basic maintenance reporting requirements for leveraged closed-end funds. Bylaws now require an independent accountant\[]s confirmation only once per year, at the Fund\[]s fiscal year end, and changes to the agencies\[] basic maintenance reporting requirements that include modifications to the eligible assets and their respective discount factors. These revisions bring the Fund\[]s bylaws in line with current rating agency requirements.

On September 14, 2004, the Trustees approved an amendment to the Fund_s bylaws increasing the maximum applicable dividend rate ceiling on the preferred shares to conform with the modern calculation methodology used by the industry and other John Hancock funds.

Dividends and distributions

During the year ended July 31, 2008, dividends from net investment income totaling \$1.86 per share and distributions from capital gains totaling \$0.0058 per share were paid to shareholders. The dates of payments and the amounts per share are as follows:

	INCOME
PAYMENT DATE	DIVIDEND
August 21, 2007	¢0.155
August 31, 2007	\$0.155
September 28, 2007	0.155
October 31, 2007	0.155
November 30, 2007	0.155
December 31, 2007	0.155
January 31, 2008	0.155
February 29, 2008	0.155
March 31, 2008	0.155
April 30, 2008	0.155
May 30, 2008	0.155
June 30, 2008	0.155
July 31, 2008	0.155
Total	\$1.860*
	CAPITAL GAIN
PAYMENT DATE	DISTRIBUTION
December 31, 2007	\$0.0058

^{*}Includes \$0.02 of tax return of capital.

Dividend reinvestment plan

The Fund offers its shareholders a Dividend Reinvestment Plan (the Plan), which offers the opportunity to earn compounded yields. Each holder of common shares will automatically have all distributions of dividends and capital gains reinvested by Mellon Investor Services, as Plan Agent for the common shareholders (the Plan Agent), unless an election is made to receive cash. Holders of common shares who elect not to participate in the Plan will receive all distributions in cash, paid by check mailed directly to the shareholder of record (or, if the common shares are held in street or other nominee name, then to the nominee) by the Plan Agent, as dividend disbursing agent. Shareholders whose shares are held in the name of a broker or a nominee should contact the broker or nominee to determine whether and how they may participate in the Plan.

If the Fund declares a dividend payable either in common shares or in cash, non-participants will receive cash and participants in the Plan

Annual report | Preferred Income Fund II 27

will receive the equivalent in common shares. If the market price of the common shares on the payment date of the dividend is equal to or exceeds their net asset value as determined on the payment date, participants will be issued common shares (out of authorized but unissued shares) at a value equal to the higher of net asset value or 95% of the market price. If the net asset value exceeds the market price of the common shares at such time, or if the Board of Trustees declares a dividend payable only in cash, the Plan Agent will, as agent for Plan participants, buy shares in the open market, on the New York Stock Exchange or elsewhere, for the participants accounts. Such purchases will be made promptly after the payable date for such dividend and, in any event, prior to the next ex-dividend date after such date, except where necessary to comply with federal securities laws. If, before the Plan Agent has completed its purchases, the market price exceeds the net asset value of the common shares, the average per share purchase price paid by the Plan Agent may exceed the net asset value of the common shares, resulting in the acquisition of fewer shares than if the dividend had been paid in shares issued by the Fund.

Each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent[]s open market purchases in connection with the reinvestment of dividends and distributions. The cost per share of the shares purchased for each participant[]s account will be the average cost, including brokerage commissions, of any shares purchased on the open market, plus the cost of any shares issued by the Fund. There will be no brokerage charges with respect to common shares issued directly by the Fund. There are no other charges to participants for reinvesting dividends or capital gain distributions.

Participants in the Plan may withdraw from the Plan at any time by contacting the Plan Agent by telephone, in writing or by visiting the Plan Agent S Web site at www.melloninvestor.com. Such withdrawal will be effective immediately if received not less than 10 days prior to a dividend record date; otherwise, it will be effective for all subsequent dividend record dates.

When a participant withdraws from the Plan or upon termination of the Plan, as provided below, certificates for whole common shares credited to his or her account under the Plan will be issued and a cash payment will be made for any fraction of a share credited to such account.

The Plan Agent maintains each shareholder account in the Plan and furnishes monthly written confirmations of all transactions in the accounts, including information needed by the shareholders for personal and tax records. The Plan Agent will hold common shares in the account of each Plan participant in non-certificated form in the name of the participant. Proxy material relating to the shareholders meetings of the Fund will include those shares purchased as well as shares held pursuant to the Plan.

The reinvestment of dividends and distributions will not relieve participants of any federal income tax that may be payable or required to be withheld on such dividends or distributions.

Participants under the Plan will receive tax information annually. The amount of dividend to be reported on 1099-DIV should be: (1) in the case of shares issued by the Fund, the fair market value of such shares on the dividend payment date and (2) in the case of shares purchased by the Plan Agent in the open market, the amount of cash used by the Plan Agent to purchase shares in the open market, including the amount of cash allocated to brokerage commissions paid on such purchases.

Experience under the Plan may indicate that changes are desirable. Accordingly, the Fund reserves the right to amend or terminate the Plan as applied to any dividend or distribution paid subsequent to written notice of the change sent to all shareholders of the Fund at least 90 days before the record date for the dividend or distribution. The Plan may be amended or terminated by the Plan Agent after at least 90 days written notice to all shareholders of the Fund. All correspondence or additional information concerning the Plan should be directed to the Plan Agent, Mellon Bank, N.A., c/o Mellon Investor Services, .O. Box 3338, South Hackensack, NJ 07606-1938 (Telephone: 1-800-852-0218).

28 Preferred Income Fund II | Annual report

Shareholder communication and assistance

If you have any questions concerning the Fund, we will be pleased to assist you. If you hold shares in your own name and not with a brokerage firm, please address all notices, correspondence, questions or other communications regarding the Fund to the transfer agent at:

Mellon Investor Services Newport Office Center VII 480 Washington Boulevard Jersey City, NJ 07310 Telephone: 1-800-852-0218

If your shares are held with a brokerage firm, you should contact that firm, bank or other nominee for assistance.

Shareholder meeting

On March 31, 2008, the Annual Meeting of the Fund was held to elect three Trustees. Proxies covering 18,991,386 common and preferred shares of beneficial interest were voted at the meeting.

The common shareholders elected the following Trustees to serve until their respective successors are duly elected and qualified, with the votes tabulated as follows:

	FOR	WITHHELD AUTHORITY
James F. Carlin	18,675,121	307,301
William H. Cunningham	18,659,828	322,594

The preferred shareholders elected John A. Moore as Trustee of the Fund until his successor is duly elected and qualified, with the votes tabulated as follows: 8,804 FOR and 159 WITHHELD.

Annual report | Preferred Income Fund II 29

Board Consideration of and Continuation of Investment Advisory Agreement and Subadvisory Agreement: John Hancock Preferred Income Fund II

The Investment Company Act of 1940 (the 1940 Act) requires the Board of Trustees (the Board) of John Hancock Preferred Income Fund II (the Fund), including a majority of the Trustees who have no direct or indirect interest in the investment advisory agreement and are not [interested persons] of the Fund, as defined in the 1940 Act (the Independent Trustees), annually to meet in person to review and consider the continuation of: (i) the investment advisory agreement (the Advisory Agreement) with John Hancock Advisers, LLC (the Adviser) and (ii) the investment subadvisory agreement (the Subadvisory Agreement) with MFC Global Investment Management (U.S.), LLC (the Subadviser). The Advisory Agreement and the Subadvisory Agreement are collectively referred to as the Advisory Agreements.

At meetings held on May $5 \square 6$ and June $9 \square 10$, 2008, the Board considered the factors and reached the conclusions described below relating to the selection of the Adviser and Subadviser and the continuation of the Advisory Agreements. During such meetings, the Board \square s Contracts/Operations Committee and the Independent Trustees also met in executive sessions with their independent legal counsel.

In evaluating the Advisory Agreements, the Board, including the Contracts/Operations Committee and its Independent Trustees, reviewed a broad range of information requested for this purpose. This information included: (i) the investment performance of the Fund and a peer group of comparable funds (the Peer Group). The funds within the Peer Group were selected by Morningstar Inc. (Morningstar), an independent provider of investment company data. Data covered a range of periods ended December 31, 2007, (ii) advisory and other fees incurred by, and the expense ratios of, the Fund relative to a Peer Group, (iii) the Adviser sinancial results and condition, including its and certain of its affiliates profitability from services performed for the Fund, (iv) breakpoints in the Fund and the Peer Group sees and information about economies of scale, (v) the Adviser and Subadviser record of compliance with applicable laws and regulations, with the Fund sinvestment policies and restrictions, and with the applicable Code of Ethics, and the structure and responsibilities of the Adviser and Subadviser compliance department, (vi) the background and experience of senior management and investment professionals, and (vii) the nature, cost and character of advisory and non-investment management services provided by the Adviser and its affiliates and by the Subadviser.

The Independent Trustees considered the legal advice of independent legal counsel and relied on their own business judgment in determining the factors to be considered in evaluating the materials that were presented to them and the weight to be given to each such factor. The Board serview and conclusions were based on a comprehensive consideration of all information presented to the Board and not the result of any single controlling factor. The Board principally considered data on performance and other information provided by Morningstar as of December 31, 2007. The Board also considered updated performance information provided to it by the Adviser or Subadviser at its May and June 2008 meetings. Performance and other information may be quite different as of the date of this shareholders report. The key factors considered by the Board and the conclusions reached are described below.

Nature, extent and quality of services

The Board considered the ability of the Adviser and the Subadviser, based on their resources, reputation and other attributes, to attract and retain qualified investment professionals, including research, advisory, and supervisory personnel. The Board considered the investment philosophy, research and investment decision-making processes of the Adviser and Subadviser. The Board considered the Adviser sexecution of its oversight responsibilities. The Board further considered the culture of compliance, resources dedicated to compliance, compliance programs and compliance records of the Adviser and Subadviser. In addition, the Board took into account the administrative and

30 Preferred Income Fund II | Annual report

other non-advisory services provided to the Fund by the Adviser and its affiliates.

Based on the above factors, together with those referenced below, the Board concluded that, within the context of its full deliberations, the nature, extent and quality of the investment advisory services provided to the Fund by the Adviser and Subadviser supported renewal of the Advisory Agreements.

Fund performance

The Board considered the performance results for the Fund over various time periods ended December 31, 2007. The Board also considered these results in comparison to the performance of the Peer Group, as well as the Fund s benchmark indices. The Board reviewed with representatives of Morningstar the methodology used by Morningstar to select the funds in the Peer Group. The Board noted the imperfect comparability of the Peer Group and that Morningstar was not able to select a comparative Category for the Fund.

The Board noted that the Fund□s performance during the 1- and 3-year periods was higher than the performance of the median of the Peer Group and the Merrill Lynch Preferred Stock Hybrid Securities Index, and lower than the performance of its other benchmark index, the Lehman Brothers US Aggregate Bond Index. The Board viewed favorably that the Fund□s performance during the 5-year period was higher than the performance of the Peer Group median and the performance of both benchmark indices.

Investment advisory fee and subadvisory fee rates and expenses

The Board reviewed and considered the contractual investment advisory fee rate payable by the Fund to the Adviser for investment advisory services (the Advisory Agreement Rate). The Board received and considered information comparing the Advisory Agreement Rate with the advisory fees for the Peer Group. The Board noted that the Advisory Agreement Rate was lower than the median rate of the Peer Group.

The Board received and considered expense information regarding the Fund solutions various components, including advisory fees, and other non-advisory fees, including transfer agent fees, custodian fees, and other miscellaneous fees (e.g., fees for accounting and legal services). The Board considered comparisons of these expenses to the Peer Group median. The Board also received and considered expense information regarding the Fund stotal operating expense ratio (Gross Expense Ratio) and total operating expense ratio after taking the fee waiver arrangement applicable to the Advisory Agreement Rate into account (Net Expense Ratio). The Board received and considered information comparing the Gross Expense Ratio and Net Expense Ratio of the Fund to that of the Peer Group. The Board noted that the Fund Net Expense Ratio was equal to the median of the Peer Group, and the Fund Gross Expense Ratio was lower than the median of the Peer Group.

The Adviser also discussed the Morningstar data and rankings, and other relevant information, for the Fund. Based on the above-referenced considerations and other factors, the Board concluded that the Fund□s overall performance and expenses supported the re-approval of the Advisory Agreements.

The Board also received information about the investment subadvisory fee rate (the Subadvisory Agreement Rate) payable by the Adviser to the Subadviser for investment subadvisory services. The Board concluded that the Subadvisory Agreement Rate was fair and equitable, based on its consideration of the factors described here.

Profitability

The Board received and considered a detailed profitability analysis of the Adviser based on the Advisory Agreements, as well as on other relationships between the Fund and the Adviser and its affiliates, including the Subadviser. The Board also considered a comparison of the Adviser profitability to that of other similar investment advisers whose profitability information is publicly available. The Board concluded that, in light of the costs of providing investment management and other services to the Fund, the profits and other ancillary benefits reported by the Adviser were not unreasonable.

Annual report | Preferred Income Fund II 31

Economies of scale

The Board received and considered general information regarding economies of scale with respect to the management of the Fund, including the Fund\[\] sability to appropriately benefit from economies of scale under the Fund\[\] s fee structure. The Board recognized the inherent limitations of any analysis of economies of scale, stemming largely from the Board\[\] s understanding that most of the Adviser\[\] s and Subadviser\[\] s costs are not specific to individual Funds, but rather are incurred across a variety of products and services.

The Board observed that the Advisory Agreements did not offer breakpoints. However, the Board considered the limited relevance of economies of scale in the context of a closed-end fund that, unlike an open-end fund, does not continuously offer its shares. The Board noted that the Fund, as a closed-end investment company, was not expected to increase materially in size and that its assets would grow (if at all) through the investment performance of the Fund. Therefore, the Board did not consider potential economies of scale as a principal factor in assessing the fees payable under the Advisory Agreements, but concluded that the fees were fair and equitable based on relevant factors.

Other benefits to the Adviser

The Board received information regarding potential <code>[fall-out]</code> or ancillary benefits received by the Adviser and its affiliates, including the Subadviser, as a result of their relationship with the Fund. Such benefits could include, among others, benefits directly attributable to the relationship of the Adviser and Subadviser with the Fund and benefits potentially derived from an increase in business as a result of their relationship with the Fund (such as the ability to market to shareholders other financial products offered by the Adviser and its affiliates).

The Board also considered the effectiveness of the Adviser[s, Subadviser]s and Fund[s policies and procedures for complying with the requirements of the federal securities laws, including those relating to best execution of portfolio transactions and brokerage allocation.

Other factors and broader review

As discussed above, the Board reviewed detailed materials received from the Adviser and Subadviser as part of the annual re-approval process. The Board also regularly reviews and assesses the quality of the services that the Fund receives throughout the year. In this regard, the Board reviews reports of the Adviser and Subadviser at least quarterly, which include, among other things, fund performance reports and compliance reports. In addition, the Board meets with portfolio managers and senior investment officers at various times throughout the year.

After considering the above-described factors and based on its deliberations and its evaluation of the information described above, the Board concluded that approval of the continuation of the Advisory Agreements for the Fund was in the best interest of the Fund and its shareholders. Accordingly, the Board unanimously approved the continuation of the Advisory Agreements.

¹ Morningstar also provided a comparative analysis for most, but not all, of the John Hancock Funds of the investment performance and advisory and other fees incurred by, and the expense ratios of, the John Hancock Funds relative to a category of relevant funds (the Category). Morningstar was not able to select a comparative Category for the John Hancock Preferred Income Fund II. Therefore, Morningstar did not provide such an analysis.

32 Preferred Income Fund II | Annual report

Information about the portfolio managers

Management Biographies and Fund ownership

Below is a list of the portfolio managers who share joint responsibility for the day-to-day investment management of the Fund. It provides a brief summary of their business careers over the past five years and their range of beneficial share ownership in the Fund as of July 31, 2008.

Gregory K. Phelps

Senior Vice President, MFC Global Investment Management (U.S.), LLC since 2005
Senior Vice President, John Hancock Advisers, LLC (1995[2005])
Began business career in 1981
Joined fund team in 2002 (inception)
Fund ownership [] \$1[\$10,000]

Mark T. Maloney

Vice President, MFC Global Investment Management (U.S.), LLC since 2005 Vice President, John Hancock Advisers, LLC (1982 \square 2005) Began business career in 1976 Joined fund team in 2002 (inception) Fund ownership \square \$1 \square \$10,000

Other Accounts the Portfolio Managers are Managing

The table below indicates for each portfolio manager information about the accounts over which the portfolio manager has day-to-day investment responsibility. All information on the number of accounts and total assets in the table is as of July 31, 2008. For purposes of the table, \Box Other Pooled Investment Vehicles \Box may include investment partnerships and group trusts, and \Box Other Accounts \Box may include separate accounts for institutions or individuals, insurance company general or separate accounts, pension funds and other similar institutional accounts.

Gregory K. Phelps

Other Investment Companies: 4 funds with assets of approximately \$3.3 billion.

Other Pooled Investment Vehicles: None
Other Accounts: None

Mark T. Maloney

Other Investment Companies: 4 funds with assets of approximately \$3.3 billion.

Other Pooled Investment Companies: 4 funds with assets of approximately \$3.3 billion.

Other Pooled Investment Vehicles: None
Other Accounts: None

The Adviser does not receive a fee based upon the investment performance of any of the accounts included under \Box Other Accounts Managed by the Portfolio Managers \Box in the table above.

When a portfolio manager is responsible for the management of more than one account, the potential arises for the portfolio manager to favor one account over another. For the reasons outlined below, the Fund does not believe that any material conflicts are likely to arise out of a portfolio manager responsibility for the management of the Fund as well as one or more other accounts. The Adviser and the Subadviser have adopted procedures, overseen by the Chief Compliance Officer, that are intended to monitor compliance with the policies referred to in the following paragraphs.

 \square The Subadviser has policies that require a portfolio manager to allocate investment opportunities imn equitable manner and generally to allocate such investments proportionately among all accounts with similar investment objectives.

Annual report | Preferred Income Fund II 33

☐ When a portfolio manager intends to trade the same security for more than one account, the policies of the	;
Subadviser generally require that such trades for the individual accounts are aggregated so each account	
receives the same price. Where not possible or may not result in the best possible price, the Subadviser will j	place
the order in a manner intended to result in as favorable a price as possible for such client.	

☐ The investment performance on specific accounts is not a factor in determining the portfolio manager☐s compensation. See ☐Compensation of Portfolio Managers☐ below. Neither the Adviser nor the Subadviser receives a

performance-based fee with respect to other accounts managed by the Fund∏s portfolio managers.

☐ The Subadviser imposes certain trading restrictions and reporting requirements for accounts in which a portfolio manager or certain family members have a personal interest in order to confirm that such accounts are not favored over other accounts.

☐ TheSubadviser seeks to avoid portfolio manager assignments with potentially conflicting situations.

However, where a portfolio manager is responsible for accounts with differing investment objectives and policies, it is possible that the portfolio manager will conclude that it is in the best interest of one account to sell a portfolio security while another account continues to hold or increase the holding in such security.

Compensation of Portfolio Managers

The Subadviser has adopted a system of compensation for portfolio managers and others involved in the investment process that is applied consistently among investment professionals. At the Subadviser, the structure of compensation of investment professionals is currently composed of the following basic components: fixed base salary, and an annual investment bonus plan, as well as customary benefits that are offered generally to all full-time employees of the Subadviser. A limited number of senior investment professionals, who serve as officers of both the Subadviser and its parent company, may also receive options or restricted stock grants of common shares of Manulife Financial.

Only investment professionals are eligible to participate in the Investment Bonus Plan on an annual basis. While the amount of any bonus is discretionary, the following factors are generally used in determining bonuses: 1) The investment performance of all accounts managed by the investment professional over one-, three- and five-year periods are considered. The pre-tax performance of each account is measured relative to an appropriate peer group benchmark. 2) The profitability of the Subadviser and its parent company are also considered in determining bonus awards, with greater emphasis placed upon the profitability of the Adviser. 3) The more intangible contributions of an investment professional to the Subadviser business, including the investment professional support of sales activities, new fund/strategy idea generation, professional growth and development, and management, where applicable, are evaluating in determining the amount of any bonus award.

While the profitability of the Subadviser and the investment performance of the accounts that the investment professionals maintain are factors in determining an investment professional overall compensation, the investment professional compensation is not linked directly to the net asset value of any fund.

34 Preferred Income Fund II | Annual report

Trustees and Officers

This chart provides information about the Trustees and Officers who oversee your John Hancock fund. Officers elected by the Trustees manage the day-to-day operations of the Fund and execute policies formulated by the Trustees.
