- (a) MBIA Insured.
(b) Variable rate security. Rate shown is as of report date. Maturity shown is the final maturity date.
(c) Security may have a maturity of more than one year at the time of issuance, but has variable rate and demand features that qualify it as a short-term security.
(d) FSA Insured.

BlackRock Insured Municipal Income Investment Trust

Schedule of Investments November 30, 2008 (Unaudited)

- (e) U.S. government securities, held in escrow, are used to pay interest on this security as well as to retire the bond in full at the date indicated, typically at a premium to par.
- (f) Assured Guaranty Insured.
- (g) AMBAC Insured.
- (h) Represents a zero-coupon bond. Rate shown reflects the effective yield at the time of purchase.
- (i) FGIC Insured.
- (j) Securities represent bonds transferred to a tender option bond trust in exchange for which the Trust acquired residual interest certificates. These securities serve as collateral in a financing transaction.
- (k) Investments in companies considered to be an affiliate of the Trust, for purposes of Section 2(a)(3) of the Investment Company Act of 1940, were as follows:

Affiliate	Net Activity	Income
CMA Florida Municipal Money Fund	(3,975,598)	\$ 27,706
(l) Represents the current yield as of report date.		

- Effective September 1, 2008, the Trust adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, "Fair Value Measurements" ("FAS 157"). FAS 157 clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:
 - Level 1 - price quotations in active markets/exchanges for identical securities
 - Level 2 - other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks, and default rates) or other market- corroborated inputs)
 - Level 3 - unobservable inputs based on the best information available in the circumstance, to the extent observable inputs are not available (including the Trust's own assumption used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust's policy regarding valuation of investments and other significant accounting policies, please refer to the Trust's most recent financial statements as contained in its annual report.

The following table summarizes the inputs used as of November 30, 2008 in determining the fair valuation of the Trusts' investments:

Valuation Inputs	Investments in Securities
Level 1	\$ 303,147
Level 2	172,328,031
Level 3	-
Total	\$ 172,631,178
