ITEM 1. REPORTS TO STOCKHOLDERS.

LETTER FROM THE CHAIRMAN

NOVEMBER 11, 2003

Edgar Filing: FIRST FINANCIAL FUND INC - Form N-CSRS

FELLOW SHAREHOLDERS:

As the new Chairman of the Board of First Financial Fund, Inc., I would like to take this opportunity to introduce myself and communicate with fellow shareholders. As you are aware, at the recent annual shareholder meeting held in August, shareholders replaced four of the Fund's five directors. Since then, we have received a few calls from our shareholders asking whether the Board is contemplating changing the adviser.

Nothing could be further from the truth! Speaking for the entire Board, I want to emphasize that we are very pleased with the Fund's adviser, Wellington Management Company, LLP, and more specifically with Nick Adams, the Fund's portfolio manager. Wellington Management and Nick will continue in the same roles they have since the inception of the Fund.

I also want to emphasize that the new Board intends to support Wellington Management and Mr. Adams in ways they feel will benefit the Fund. In this regard, after consultation with Wellington Management, the Board adopted a resolution permitting the Fund to invest in foreign securities without limitation. The resolution expands the universe of financial services companies available for investment, many of which in recent years have non-U.S. parent companies or which themselves are organized outside the U.S.

One other change has occurred. The Fund's prior administrator, Prudential Investment LLC, was replaced with Fund Administrative Services, LLC, under substantially similar terms until the Board has had time to consider a formal proposal for enhanced administrative services.

The Board is impressed with the outstanding performance of the Fund in the past few years and we look forward to a continued successful relationship with Wellington Management and Mr. Adams. Thank you for your support of the Fund. We remain committed to providing a quality investment fund to you, our shareholders.

Sincerely,

/S/ Joel Looney
Joel Looney
Chairman of the Board

LETTER FROM THE ADVISER

NOVEMBER 11, 2003

DEAR SHAREHOLDERS:

Few readers appreciate a preachy portfolio manager. Nor should they. Watch out when our urge to demonstrate understanding of the way the world works begets precise and concrete conclusions as to what stocks should and shouldn't populate your portfolio. The former is inscrutable enough without muddying the waters by turning it into a stock picking exercise. To wit, all (ourselves included) who have wrung their hands over consumer, corporate and public debt levels, trade deficits, a jobless recovery and terrorism have missed a small monster of a move in most stocks, made all the more annoying by the stingy returns of money sitting in cash.

And maybe that is the point worth noting. In response to 9/11, the Fed and the federal government created a sea of liquidity and easier credit. As it became clearer to investors that prognostication of crashes, deflation and changes in the world order were a bit premature, that sea made its way back to the stock pond. Given the rapid pickup in margin debt, bulletin board trading and, of late, IPOs and secondary offerings, the flow was not a trickle but a torrent. What good is a 1% yield in a money market account when the stock averages this year have produced from 17% to 40+% returns?

Switching to the smaller world of financial services, we harbor a number of concerns. First, and perhaps most troubling, is the greater dependency of banks borrowing short and lending long. This mismatch is generally accompanied with more leverage as well, built on the thesis that the Fed will not raise short-term interest rates for the "foreseeable future." Indeed, both longer duration and greater leverage is required to match the high-teen ROE's many banks, thrifts and mortgage REIT's have promised their investors. There will be wailing and grinding of teeth if the "foreseeable future" is sooner rather than later. Second, we know that higher interest rates are a negative for certain financial institutions

2

dependent on the velocity of real estate transactions. Could a higher rate scenario also severely impact real estate values? The latter would have broad and potentially far more destructive impact on financial institutions. Finally, merger activity has heated up again. Driven by speculative frenzy, the stocks of many "target" institutions have soared. However, not all will be acquired and the integration process of those that do get bought rarely runs smoothly.

For the Fund, all subsectors and, indeed, most of our holdings contributed positively to overall performance. Two positions deserve special mention. Countrywide Financial, a mortgage banker, benefited both from the Fed's easing and its own efforts to more fully and vertically integrate the mortgage process. Hudson City, a mutual holding company, received recognition for its tight control of expenses, successful capital management and the potential for full conversion from mutual to stock ownership. In both cases, a comprehensive understanding of what made each company special helped us identify an attractive investment.

Increasingly, though still in small bites, we are finding compelling opportunities in financial institutions outside the U.S. The new property casualty insurers, based mostly in Bermuda, offer a way to participate in the hard market while avoiding the "legacy" issues still plaguing the older players. We have also found value in banks in both Canada and Asia. Most of these institutions have the liquidity and the balance sheet to grow earnings smartly should the world economy accelerate, while offering a margin of safety if the world proves more punk. Given our less sanguine view of the dollar, we can live

with the currency risk.

As always, we are grateful for your trust in us.

Sincerely,

/S/ Nicholas C. Adams

NOTE 6. BORROWINGS

The Fund has a credit agreement (the "Agreement") with an unaffiliated lender. The maximum under the Agreement is \$75,000,000. Interest on any such borrowings is based on market rates and is payable quarterly and at maturity. The Fund may utilize these borrowings (leverage) in order to increase the potential for gain on amounts invested. There can be no guarantee that these gains will be realized. There are increased risks with the use of leverage. These borrowings may be set to any desired maturity at a rate of interest determined by the lender at the time of borrowing.

OTHER INFORMATION

FIRST FINANCIAL FUND, INC.

DIVIDEND REINVESTMENT PLAN. Shareholders may elect to have all distributions of dividends and capital gains automatically reinvested in Fund shares (Shares) pursuant to the Fund's Dividend Reinvestment Plan (the Plan). Shareholders who do not participate in the Plan will normally receive all distributions in cash paid by check in United States dollars mailed directly to the shareholders of record (or if the shares are held in streetname or other nominee name, then to the nominee) by the custodian, as dividend disbursing agent, unless the Fund declares a distribution payable in shares, absent a shareholder's specific election to receive cash.

Equiserve Trust Company, N.A. (the Plan Agent) serves as agent for the shareholders in administering the Plan. After the Fund declares a dividend or a capital gains distribution, if (1) the market price is lower than net asset value, the participants in the Plan will receive the equivalent in Shares valued at the market price determined as of the time of purchase (generally, following the payment date of the dividend or distribution); or if (2) the market price of Shares on the payment date of the dividend or distribution is equal to or exceeds their net asset value, participants will be issued Shares at the higher of net asset value or 95% of the market price. If the Fund declares a dividend or other distribution payable only in cash and the net asset value exceeds the market price of Shares on the valuation date, the Plan Agent will, as agent for the participants, receive the cash payment and use it to buy Shares in the open market. If, before the Plan Agent has completed its purchases, the market price exceeds the net asset value per share, the Plan Agent will halt open-market purchases of the Fund's shares for this purpose, and will request that the Fund pay the remainder, if any, in the form of newly-issued shares. The Fund will not issue Shares under the Plan below net asset value.

There is no charge to participants for reinvesting dividends or capital gain distributions, except for certain brokerage commissions, as described below. The Plan Agent's fees for the handling of the reinvestment of dividends and distributions will be paid by the Fund. There will be no brokerage commissions charged with respect to shares issued directly by the Fund. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchases in connection with the reinvestment of dividends and distributions. The automatic reinvestment of dividends and distributions will not relieve participants of any federal income tax that may be payable on such dividends or distributions.

The Fund reserves the right to amend or terminate the Plan upon 90 days' written notice to shareholders of the Fund.

Edgar Filing: FIRST FINANCIAL FUND INC - Form N-CSRS

Participants in the Plan may withdraw from the Plan upon written notice to the Plan Agent or by telephone in accordance with specific procedures and will receive certificates for whole Shares and cash for fractional Shares.

All correspondence concerning the Plan should be directed to the Plan Agent, Equiserve Trust Company, N.A., P.O. Box 43011, Providence, RI 02940-3011.
