NOTES TO PORTFOLIO HOLDINGS (UNAUDITED)

A. VALUATION AND INVESTMENT PRACTICES:

SECURITY VALUATION: Securities listed on a stock exchange for which market quotations are readily available are valued at the closing prices on the date of valuation, or if no such closing prices are available, at the last bid price quoted on such day. If there are no such quotations available for the date of valuation, the last available closing price will be used. The value of securities and other assets for which no market quotations are readily available, or whose values have been materially affected by events occurring before the Fund's pricing time but after the close of the securities' primary markets, are valued by methods deemed by the Board of Directors to represent fair value. Short-term securities that mature in 60 days or less are valued at amortized cost.

CURRENCY TRANSLATION: The books and records of the Fund are maintained in U.S. dollars. Foreign currency amounts are translated into U.S. dollars at the spot rate of such currencies against U.S. dollars by obtaining from FT-IDC each day the current 4:00pm London time spot rate and future rate (the future rates are quoted in 30-day increments) on foreign currency contracts. Net realized foreign currency gains and losses resulting from changes in exchange rates include foreign currency gains and losses between trade date and settlement date on investment securities transactions, foreign currency transactions and the difference between the amounts of interest and dividends recorded on the books of the Fund and the amount actually received. The portion of foreign currency gains and losses related to fluctuation in exchange rates between the initial purchase trade date and subsequent sale trade date is included in realized gains

Edgar Filing: NEW IRELAND FUND INC - Form N-Q

and losses on security transactions.

FORWARD FOREIGN CURRENCY CONTRACTS: The Fund may enter into forward foreign currency contracts for non-trading purposes in order to protect investment securities and related receivables and payables against future changes in foreign currency exchange rates. Fluctuations in the value of such contracts are recorded as unrealized gains or losses; realized gains or losses include net gains or losses on contracts which have terminated by settlements or by entering into offsetting commitments. Risks associated with such contracts include movement in the value of the foreign currency relative to the U.S. dollar and the ability of the counterparty to perform. There were no such contracts open in the Fund as of January 31, 2008.

SECURITIES TRANSACTIONS: Securities transactions are recorded as of the trade date. Realized gains and losses from securities sold are recorded on the identified cost basis.

B. UNREALIZED APPRECIATION/(DEPRECIATION):

The aggregate cost of investments and the composition of unrealized appreciation and depreciation on investments and appreciation on assets and liabilities in foreign currencies on a tax basis as of January 31, 2008 were as follows:

TOTAL COST OF INVESTMENTS	GROSS UNREALIZED APPRECIATION ON INVESTMENTS	GROSS UNREALIZED DEPRECIATION ON INVESTMENTS	NET UNREALIZED APPRECIATION ON INVESTMENTS	GROSS UNREALIZED APPRECIATION ON FOREIGN CURRENCY	NET UNREALIZED APPRECIATION
