## Edgar Filing: NOVAMED EYECARE INC - Form 10-Q

(Dollars in thousands, except per share data; unaudited)

### 1. BASIS OF PRESENTATION

The information contained in the interim consolidated financial statements and notes is condensed from that which would appear in the annual consolidated financial statements. Accordingly, the interim condensed consolidated financial statements included herein should be read in conjunction with the consolidated financial statements as of and for the year ended December 31, 2000, filed by NovaMed Eyecare, Inc. (the "Company") with the Securities and Exchange Commission on Form 10-K. The unaudited interim condensed consolidated financial statements as of September 30, 2001 and for the three and nine months ended September 30, 2001 and 2000, include all normal recurring adjustments which management considers necessary for a fair presentation. The results of operations for the interim periods are not necessarily indicative of the results that may be expected for the entire fiscal year.

Prior year amounts have been reclassified to conform to current year presentation as further discussed in Note 2 below.

### 2. DISCONTINUED OPERATIONS

On September 27, 2001 the Company's Board of Directors approved a Plan of Discontinued Operations and Restructuring (the "Plan"). This involves the divestiture of the management services segment or physician practice management ("PPM") business over the next twelve months. The plan contemplates the Company pursuing and/or negotiating the following -- (a) termination or transfer of all Management Service Agreements for all ophthalmology and optometric practices (until such time, the Company intends to perform its obligations under these agreements); (b) termination or transfer of all employees providing services in practices and regional business offices; (c) closure or transfer of all regional business operations locations; (d) sale of all practice based assets including fixed assets, equipment and accounts receivable; and (e) termination or transfer of corporate and information technology employees providing services primarily to the management services segment. As a result, the Company has restated its prior period financial statements to reflect the appropriate accounting for these businesses as discontinued operations.

The operating results of these discontinued operations are summarized as follows:

	Three months ended September 30,		Nine months ended September 30,	
	2001	2000	2001	2000
Net revenue	\$ 17,862	\$17,322	\$ 54,871	\$49,886

6

NOVAMED EYECARE, INC. AND SUBSIDIARIES  
NOTES TO THE INTERIM  
CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)  
September 30, 2001  
(Dollars in thousands, except per share data; unaudited)

The balance sheet components of these discontinued operations are summarized as follows:

	September 30, 2001	December 31, 2000
	-----	-----
Accounts and notes receivable	\$14,318	\$14,007
Inventories	1,154	1,272
Other current assets	838	1,017
Accounts payable	(1,820)	(2,107)
Accrued expenses	(3,011)	(2,713)
Notes payable and capitalized lease obligations	(46)	(34)
Discontinued operations reserves	(9,084)	--
	-----	-----
Current assets of discontinued operations, net	\$ 2,349	\$11,442
	=====	=====
Net property and equipment	\$ 4,661	\$ 9,300
Intangible assets	5,567	34,864
	-----	-----
Noncurrent assets of discontinued operations, net	\$10,228	\$44,164
	=====	=====

The estimated gain (loss) on disposal includes \$28.3 million for impairment of goodwill, \$3.8 million of asset impairments related to practice assets that will be abandoned rather than sold, and \$4.3 million for expected future cash outlays to divest the PPM business. These amounts are estimates, actual results could differ.

Net interest expense allocated to discontinued operations was \$208,000 and \$809,000 for the three and nine months ended September 30, 2001, respectively and \$329,000 and \$625,000 for the three and nine months ended September 30, 2000, respectively. Interest was allocated to discontinued operations based on the guidance in EITF 87-24 - Allocation of Interest to Discontinued Operations.

Included in the balance sheet line "Discontinued operations reserves" at September 30, 2001 are reserves of \$4.7 million for estimated operating losses to be incurred through the date of sale and \$4.4 million for costs to

## Edgar Filing: NOVAMED EYECARE INC - Form 10-Q

exit the PPM business.

Deferred tax assets of \$16.7 million were recorded as a result of these transactions. Management believes that taxable income in prior carryback years, future reversals of existing taxable temporary differences and expected future taxable earnings will be available to fully utilize these tax assets.

(Dollars in thousands, except per share data; unaudited)

### 3. RESTRUCTURING AND SPECIAL CHARGES-- OTHER CHARGES

The Plan approved on September 27, 2001 by the Company's Board of Directors contemplates the Company pursuing and/or negotiating the following -- (a) closure of certain facilities due to under-performing results including one ASC, seven LVCs and one fixed laser site; (b) termination of an acquisition contract; and (c) reorganization and downsizing of the Company's information technology function to conform to the needs of continuing operations and the pursuit of our discontinued operations plan. The Company recorded the following restructuring charges totaling \$10.9 million in the third quarter of 2001:

Facility closures--	
Asset impairments	\$ 3,305
Lease commitments	1,766
Contract termination	1,851
Reorganization of IT--	
Asset impairments	3,296
Lease commitments	456
Other	238
	-----
Restructuring charges	\$10,912
	=====

During the third quarter of 2001, the Company recorded other charges of \$3.7 million. Included in these charges were -- (a) a \$2.0 million increase in facility accounts receivable reserves; (b) professional fees incurred in development of the Plan of \$0.5 million; and (c) severance and other employee costs incurred prior to approval of the Plan of \$1.2 million.

### 4. REVOLVING CREDIT FACILITY

The Company amended its revolving credit facility on August 29, 2001. The primary purpose of this amendment was to revise the acquisitions and affiliation covenants to better conform to the Company's surgical facilities focus. On October 23, 2001, the Company amended its revolving credit agreement to reflect implementation of the discontinued operations plan. The amendment includes an initial reduction of the maximum commitment available under the facility from \$50 million to \$45 million. Beginning January 1, 2002, the maximum commitment available under the facility will be reduced by \$2.5 million per quarter, resulting in a maximum commitment of \$35 million as of October 1, 2002. The credit agreement expires on June 30, 2003. Under the amended facility, interest on borrowings under the credit agreement is payable at an annual rate equal to

## Edgar Filing: NOVAMED EYECARE INC - Form 10-Q

our lender's published base rate plus the applicable borrowing margin ranging from 0% to 1.0% or LIBOR plus a range from 1.5% to 3.0%, varying upon our ability to meet financial covenants. The weighted average interest rate on credit line borrowings for the three months and nine months ended September 30, 2001 was approximately 6.0% and 6.9%, respectively. The credit agreement contains covenants that include limitations on indebtedness, liens, capital expenditures, acquisitions and affiliations and ratios that define borrowing availability and restrictions on the payment of dividends.

Item 2.

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The discussion below contains forward-looking statements (as such term is defined in Section 21E of the Securities Exchange Act of 1934) that are based on the beliefs of our management, as well as assumptions made by, and information currently available to, our management. Our results, performance and achievements in 2001 and beyond could differ materially from those expressed in, or implied by, any such forward looking statements. See "Cautionary note regarding forward-looking statements" on page 13.

#### Outlook

On October 24, 2001, the Company announced that it had adopted a plan to divest its management services operations. The Company recorded a net loss in connection with the anticipated disposal of discontinued operations of \$27.2 million. As part of this strategy, the Company also plans to restructure its corporate support and information technology functions and to close under-performing facilities. The Company also recorded restructuring charges totaling \$10.9 million and other charges totaling \$3.7 million during the third quarter 2001. In addition to retaining its surgical facilities segment, the Company will retain its product sales segment as a complementary ancillary business.

The Company provides a comprehensive range of eye care services, focused primarily around its surgical facilities, including its ownership and operation of 15 ambulatory surgery centers (ASCs), and its operation of 15 laser vision correction centers. Eye care professionals perform laser vision correction, cataract and other eye-related surgical procedures in the surgical facilities owned and/or operated by the Company. An uncertain economic environment in the United States impacted the net revenue and earnings results in the third quarter and first nine months of 2001. We expect this environment to continue for the foreseeable future.

The discussion set forth below analyzes certain factors and trends related to the financial results of continuing operations for each of the three and nine months ended September 30, 2001 and 2000. This discussion should be read in conjunction with the condensed consolidated financial statements and notes to the condensed consolidated financial statements above.

#### Results of Operations

Three Months Ended September 30, 2001 Compared to the Three Months Ended September 30, 2000

**Net Revenue.** Net revenue for third quarter 2001 decreased 5.2% to \$16.8 million from \$17.8 million in the prior year period. Surgical facilities net revenue decreased 15.3% from \$10.6 million to \$9.0 million, the result of a 47% decrease in laser vision correction procedures, partially offset by a 20% increase in cataract procedures. Product sales and other net revenue increased 9.8% from \$7.2 million to \$7.9 million.

## Edgar Filing: NOVAMED EYECARE INC - Form 10-Q

Salaries, Wages and Benefits. Salaries, wages and benefits expense decreased 12.1% from \$4.7 million to \$4.1 million. As a percentage of net revenue, salaries, wages and benefits expense decreased from 26.5% to 24.5%. The decrease in salaries, wages and benefits expense is primarily due to reductions in corporate staffing.

Cost of Sales and Medical Supplies. Cost of sales and medical supplies expense increased 16.6% from \$7.2 million to \$8.4 million, a direct result of higher volumes at our product sales group. As a percentage of net revenue, cost of sales and medical supplies expense increased from 40.8% to 50.2%. This increase is due to the greater contribution from product sales to total net revenues this year versus last year (46.6% as compared to 40.3%) accompanied by a revenue shift within product sales to our buying group which has had historically low margins.

Selling, General and Administrative. Selling, general and administrative ("SG&A") expense decreased 8.7% from \$2.8 million to \$2.6 million. As a percentage of net revenue, SG&A expense decreased from 15.9% to 15.3%. The decrease is due to a reduction in selling and marketing expense of approximately \$150,000 as compared to the third quarter of 2000.

10

Depreciation and Amortization. Depreciation and amortization expense increased 31.1% from \$1.0 million to \$1.3 million. Acquisitions and capital expenditures have increased overall depreciation and amortization expense.

Other Expense. Other expense decreased from \$366,000 to \$227,000. The decrease in other expense was primarily related to a decrease in interest expense as a result of lower average interest rates during the third quarter of 2001 (6.0%) as compared to the 2000 period (8.8%).

Income Tax Benefit. Our effective tax rate reflects the impact of nondeductible amortization expense. Our effective tax rate decreased to 40.3% from 42.9% in the third quarter of 2000. The Company recorded approximately \$20.8 million of deferred tax assets related to the restructuring and discontinued operations reserves established during the third quarter. Management believes that taxable income in prior carryback years, future reversals of existing taxable temporary differences and expected future taxable earnings will be available to fully utilize these tax assets.

Nine months Ended September 30, 2001 Compared to the Nine months Ended September 30, 2000

Net Revenue. Net revenue for the first nine months of 2001 increased 6.2% to \$54.1 million from \$50.9 million in the prior year period. Surgical facilities net revenue decreased 2.6% from \$31.2 million to \$30.4 million, primarily as a result of a 13% decrease in laser vision correction procedures offset by a 20% increase in cataract procedures, compared to the first nine months of 2000. We believe that the uncertain economic conditions have contributed to a softening demand for laser vision correction procedures. The increase in cataract procedures mainly resulted from an overall increase in demand as well as new affiliations and agreements with eye care professionals. Product sales and other net revenue increased 20.2% from \$19.7 million to \$23.7 million, primarily as a result of strong product demand and, to a lesser extent, net revenue contributed by our eye care marketing products and services operations, which we acquired in May 2000.

Salaries, Wages and Benefits. Salaries, wages and benefits expense

## Edgar Filing: NOVAMED EYECARE INC - Form 10-Q

increased 1.5% from \$13.3 million to \$13.5 million. As a percentage of net revenue, salaries, wages and benefits expense decreased from 26.1% to 24.9%. The absolute increase in salaries, wages and benefits expense is primarily due to new acquisitions and affiliations in the Southeast during the third and fourth quarters of 2000. The decrease as a percentage of net revenue is due to a reduction in corporate staffing.

**Cost of Sales and Medical Supplies.** Cost of sales and medical supplies expense increased 17.8% from \$21.6 million to \$25.4 million, a direct result of higher volumes at our product sales group. As a percentage of net revenue, cost of sales and medical supplies expense increased from 42.3% to 47.0%. This increase is due to the greater contribution from product sales to total net revenue this year versus last year (43.8% as compared to 38.7%) accompanied by a revenue shift within product sales to the buying group which has had historically low margins.

**Selling, General and Administrative.** Selling, general and administrative expense decreased 4.9% from \$7.8 million to \$7.4 million. As a percentage of net revenue, SG&A expense decreased from 15.4% to 13.7%. The decrease is due to a reduction in selling and marketing expenses of approximately \$575,000 offset by expenses at new acquisitions.

**Depreciation and Amortization.** Depreciation and amortization expense increased 38.4% from \$2.6 million to \$3.6 million. Acquisitions and capital expenditures have increased overall depreciation and amortization expense.

**Other Expense.** Other expense increased from \$568,000 to \$880,000. The increase in other expense was primarily related to an increase in interest expense as a result of higher average outstanding indebtedness during the first nine months of 2001, offset in part by lower average interest rates of 6.9% in 2001 as compared to 8.5% in the 2000 period. The Company also recorded \$149,000 as its share of losses on a nonconsolidated 50% owned affiliate versus \$39,000 of losses recorded during the 2000 period.

**Income Tax Benefit.** Our effective tax rate reflects the impact of nondeductible amortization expense. Our effective tax rate in 2001 decreased to 39.4% from 42.6% in 2000. The Company recorded approximately \$20.8 million of deferred tax assets related to the restructuring and discontinued operations reserves established during the third quarter. Management believes that taxable income in prior carryback years, future reversals of existing taxable temporary differences and expected future taxable earnings will be available to fully utilize these tax assets.

11

### Liquidity and Capital Resources

Net cash provided by continuing operating activities was \$2.7 million and \$3.6 million for the nine months ended September 30, 2001 and 2000, respectively. The Company used \$1.7 million of cash for investing activities during the first nine months of 2001, primarily for the purchase of equipment. During the first nine months of 2001, the Company's net borrowings under its revolving credit line decreased \$3.9 million from the December 31, 2000 level. At September 30, 2001, the Company had working capital of \$ 22.5 million (excluding restructuring and discontinued operations reserves).

The Company amended its revolving credit facility on August 29, 2001. The primary purpose of this amendment was to revise the acquisitions and affiliation covenants to better conform to the Company's surgical facilities focus. On October 23, 2001, the Company amended its revolving credit agreement

## Edgar Filing: NOVAMED EYECARE INC - Form 10-Q

to reflect implementation of the discontinued operations plan. The amendment includes an initial reduction of the maximum commitment available under the facility from \$50 million to \$45 million. Beginning January 1, 2002, the maximum commitment available under the facility will be reduced by \$2.5 million per quarter, resulting in a maximum commitment of \$35 million as of October 1, 2002. The credit agreement expires on June 30, 2003. Under the amended facility, interest on borrowings under the credit agreement is payable at an annual rate equal to our lender's published base rate plus the applicable borrowing margin ranging from 0% to 1.0% or LIBOR plus a range from 1.5% to 3.0%, varying upon our ability to meet financial covenants. The weighted average interest rate on credit line borrowings for the three months and nine months ended September 30, 2001 was approximately 6.0% and 6.9%, respectively. The credit agreement contains covenants that include limitations on indebtedness, liens, capital expenditures, acquisitions and affiliations and ratios that define borrowing availability and restrictions on the payment of dividends. As of September 30, 2001 the Company was in compliance with all of its amended credit agreement covenants.

We believe that our funds from operations, proceeds from divestitures, our cash and our access to bank credit lines will be sufficient to fund our operations and capital expenditures for at least the next 12 months. Our future capital requirements and the adequacy of available funds will depend on many factors, including the timing and success of our divestiture activities, new acquisitions of surgical facilities and capital requirements associated with our business.

On June 15, 2000, we entered into an agreement to acquire two ASCs, contingent upon the resolution of certain requirements associated with the seller (the "Contingencies"). Certain of these Contingencies were satisfied in 2000 with respect to one of the ambulatory surgery centers, which we acquired in December 2000. We are currently discussing various alternative structures with the seller that could include, without limitation, refraining from purchasing the second ambulatory surgery center and paying a termination fee, as well as possibly selling back to the seller the ambulatory surgery center acquired in December 2000.

One of our affiliated eye care professionals has the option, exercisable through November 1, 2002, to acquire up to a 25% interest in one of our ASCs.

Effective March 1, 2001, we entered into a new five-year supply agreement with Alcon Laboratories, Inc. setting forth the terms upon which we can procure and utilize excimer lasers manufactured by Alcon. This agreement amended and superseded our previous agreement originally entered into with Summit Technology, Inc., which was acquired by Alcon in 2000. During the five-year term, we will pay Alcon monthly based on the number of procedures performed on each of our APEX/Infinity lasers and LADARVision Systems. We are required to pay for a minimum number of annual procedures on each LADARVision System during the five-year term, whether or not these procedures are performed. As of September 30, 2001, we have entered into commitments to pay Alcon up to approximately \$1.4 million annually during the five-year term. The minimum commitment will increase if we deploy additional laser systems.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS. This Form 10-Q contains certain forward-looking statements that reflect our current expectations about our future results of operations, performance and achievements. When used in the Form 10-Q, the words "anticipates," "believes," "estimates," "plans," "intends," and similar expressions, as they relate to us or our management, are intended to

Edgar Filing: NOVAMED EYECARE INC - Form 10-Q

identify such forward-looking statements. These forward-looking statements reflect our current beliefs and are based on information currently available to us. Accordingly, these statements are subject to certain risks and uncertainties which could cause our actual results, performance or achievements in 2001 and beyond to differ materially from those expressed in, or implied by, such statements. These risks and uncertainties include: our ability to grow or manage our growth; our ability to acquire, develop or manage a sufficient number of profitable surgical facilities; reduced prices and reimbursement rates for surgical procedures; the continued acceptance of laser vision correction and other refractive surgical procedures; demand for elective surgical procedures generally and in response to a protracted economic downturn; our ability to successfully implement our discontinued operations plan on acceptable terms consistent with our credit facility; and the application of existing or proposed government regulations. See "Management's Discussion and Analysis of Financial Conditions and Results of Operations - Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2000 for further discussion. We undertake no obligation to update or revise any such forward-looking statements that may be made to reflect events or circumstances after the date of this Form 10-Q or to reflect the occurrence of unanticipated events.
