NOTES TO UNAUDITED CONDENSED

CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1. Interim Financial Statements

The accompanying unaudited condensed consolidated financial statements of Hub Group, Inc. (we, us or our) have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in annual financial statements have been condensed or omitted pursuant to those rules and regulations. However, we believe that the disclosures contained herein are adequate to make the information presented not misleading.

The financial statements reflect, in our opinion, all material adjustments (which include only normal recurring adjustments) necessary to fairly present our financial position at June 30, 2006 and results of operations for the three months and six months ended June 30, 2006 and 2005.

These unaudited condensed consolidated financial statements and notes thereto should be read in conjunction with the consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2005. Results of operations in interim periods are not necessarily indicative of results to be expected for a full year due partially to seasonality.

NOTE 2. Share-Based Compensation

In 1996, we adopted a Long-Term Incentive Plan (the 1996 Incentive Plan). The number of shares of Class A Common Stock reserved for issuance under the 1996 Incentive Plan was 1,800,000. In 1997, we adopted a second Long-Term Incentive Plan (the 1997 Incentive Plan). The number of shares of Class A Common Stock reserved for issuance under the 1997 Incentive Plan was 600,000. In 1999 we adopted a third Long-Term Incentive Plan (the 1999 Incentive Plan). The number of shares of Class A Common Stock reserved for issuance under the 1999 Incentive Plan was 2,400,000. In 2002, we adopted a fourth Long-Term Incentive Plan (the 2002 Incentive Plan). The number of shares of Class A Common Stock reserved for issuance under the 2002 Incentive Plan was 2,400,000. In 2003, we amended our 2002 Incentive Plan to add an additional 2,000,000 shares of Class A Common Stock that are reserved for issuance. Under the 1996, 1997, 1999 and 2002 Incentive Plans, stock options, stock appreciation rights, restricted stock and performance units may be granted for the purpose of attracting and motivating our key employees and non-employee directors. The options granted to non-employee directors vest ratably over a three-year period and expire 10 years after the date of grant. The options granted to employees vest over a range of three to five years and expire 10 years after the date of grant. Restricted stock vests over a three to five year period. At June 30, 2006, 920,060 shares are available for future grant.

Prior to January 1, 2006, we accounted for our share-based compensation plans under the recognition and measurement provisions of APB Opinion No. 25, Accounting for Stock Issued to Employees, and related interpretations, as permitted by Statement of Financial Accounting Standard (SFAS) No. 123 Accounting for Stock-Based Compensation. No stock-option based employee compensation cost was recognized in the income statement prior to 2006, as all stock options granted had an exercise price equal to the market value of the underlying common stock on the date of grant. Effective January 1, 2006, we adopted the fair value recognition provisions of FASB Statement No. 123 (R) Share-Based Payment (SFAS No. 123 (R)), using the modified-prospective transition method. Under that transition method, compensation cost recognized in

Edgar Filing: HUB GROUP INC - Form 10-Q

2006 includes: (a) compensation costs for all share-based payments granted prior to, but not yet vested as of January 1, 2006, based on the grant date fair value estimated in accordance with the original provisions of SFAS No. 123 and (b) compensation cost for all share-based payments granted subsequent to January 1, 2006, based on the grant-date fair value estimated in accordance with the provisions of SFAS No. 123 (R). Results for prior periods have not been restated. We have not granted any stock options since 2003.

Edgar Filing: HUB GROUP INC - Form 10-Q

We recognize the cost of all share-based awards on a straight-line basis over the vesting period of the award. Share-based compensation expense for the three months ended June 30, 2006 and 2005 was \$0.9 million and \$0.5 million or \$0.6 million and \$0.3 million net of taxes, respectively. Share-based compensation expense for the six months ended June 30, 2006 and 2005 was \$1.7 million and \$1.0 million or \$1.0 million and \$0.6 million net of taxes, respectively. Share-based compensation is included in salaries and benefits in the accompanying statements of income.

We have elected to calculate our initial pool of excess benefits under FASB Staff Position 123 (R)-3 (FSP). Prior to the adoption of SFAS No. 123 (R), we presented all benefits of tax deductions resulting from the exercise of share-based compensation as operating cash flows in the Statement of Cash Flows. Beginning on January 1, 2006, we changed our cash flow presentation in accordance with the FSP which requires benefits of tax deductions in excess of the compensation cost recognized (excess tax benefits) to be classified as a financing cash in-flow and an operating cash out-flow. The results for the six months ended June 30, 2006 include \$7.8 million of excess tax benefits as a financing cash in-flow and an operating cash out-flow.

The following table illustrates the effect on the net income and net income per share if we had applied the fair value recognition provisions of SFAS No. 123, to share-based employee compensation during the three and six months ended June 30, 2005 (in thousands, except per share data):

Edgar Filing: HUB GROUP INC - Form 10-Q

In May 2006, the Board of Directors granted certain of our officers 593,542 performance units. The performance units entitle the recipients to receive restricted shares of our Class A Common Stock contingent upon the achievement of an operating income earnings target. The aggregate operating income for the three year period ending December 31, 2008 must meet a specified target amount in order for these performance units to be earned and converted to restricted stock. Should the employees earn restricted stock under this program, the restricted stock will be granted in early 2009 and then vests ratably as of the first business day of January in each of 2010, 2011 and 2012 provided the officer remains an employee on each of the vesting dates. The maximum amount that would be recorded as salary expense over this 68 month period assuming the targets are met is \$13.8 million, which is calculated based on the stock price on the date the performance units were granted which was \$23.25.

NOTE 5. Debt

On March 23, 2005, we entered into a revolving credit agreement that provides for unsecured borrowings of up to \$40.0 million. The interest rate ranges from LIBOR plus 0.75% to 1.25% or Prime plus 0.5%. The revolving line of credit expires on March 23, 2010. The financial covenants require a minimum net worth of \$175.0 million and a cash flow leverage ratio of not more than 2.0 to 1.0. The commitment fees charged on the unused line of credit are between 0.15% and 0.25%. On February 21, 2006, we amended the revolving credit agreement to provide for unsecured borrowing up to \$50.0 million. No other terms of the agreement were amended.

We had \$48.2 million of unused and available borrowings under our bank revolving line of credit at June 30, 2006. We were in compliance with our debt covenants at June 30, 2006.

We have standby letters of credit that expire from 2006 to 2012. As of June 30, 2006, the outstanding letters of credit were \$1.8 million.

NOTE 6. Commitments and Contingencies

In March 2006, we entered into an equipment purchase contract with Singamas North America, Inc. We agreed to purchase 2,000 fifty-three foot dry freight steel domestic containers for approximately \$18.0 million. We have received 1,178 units as of June 30, 2006 and we expect delivery of approximately 400 units per month during July and August 2006. However, these timeframes are subject to the manufacturer meeting production and delivery schedules. We financed these containers with 7 year operating leases.

We are a party to litigation incident to our business, including claims for freight lost or damaged in transit, freight improperly shipped or improperly billed, property damage and personal injury. Some of the lawsuits to which we are a party are covered by insurance and are being defended by our insurance carriers. Some of the lawsuits are not covered by insurance and we are defending them. Management does not believe that the outcome of this litigation will have a material adverse effect on our financial position.

NOTE 7. Stock Split

Edgar Filing: HUB GROUP INC - Form 10-Q

The Board of Directors approved a two-for-one stock split in May 2006. The Board set May 22, 2006 as the record date and June 6, 2006 as the payment date. All number of share and per-share amounts have been retroactively restated to give effect to the two-for-one stock split, which was effected in the form of a 100% stock dividend. In addition, all options and performance units have been retroactively restated for the stock split in accordance with the terms of the incentive plans. Each of our Class A stockholders and Class B stockholders received one Class A share on each share of Class A Common Stock and each share of Class B Common Stock held by them on the record date in connection with the stock split. In accordance with the terms of our Certificate of Incorporation, the number of votes held by each shareholder of Class B Common Stock was adjusted in connection with this stock dividend such that each share of Class B Common Stock now entitles its holder to approximately 80 votes. Each share of Class A Common Stock entitles its holder to one vote.

NOTE 8. Acquisition

At the close of business on February 28, 2006, we acquired certain assets of Comtrak, Inc. (Comtrak), a transportation company whose services include primarily rail and international drayage for the intermodal sector. Comtrak was established in 1983 and is headquartered in Memphis, Tennessee. As of February 28, 2006, it had 398 employees and fifteen terminals located primarily in the southeastern United States. Comtrak utilizes company drivers and third-party owner operators to serve its customers. Comtrak had net sales of \$87.1 million, including sales to Hub of \$8.6 million, for the year ended December 31, 2005. The acquisition is consistent with our strategic plan to increase the amount of local trucking (or drayage) we perform. Comtrak performs drayage for the international intermodal market and this transaction provides us with an immediate entry into this growing market.

We paid the \$38.0 million purchase price plus working capital adjustment of \$1.2 million, which was finalized during the quarter in accordance with the terms of the Asset Purchase Agreement, from available cash. There is an earn-out mechanism for 2006 and 2007, which will not exceed \$10.0 million in total and is based on Comtrak's 2006 and 2007 EBITDA as defined in the Asset Purchase Agreement. The additional contingent consideration will be added to the purchase price and will be applied to goodwill when the contingency is resolved. The results of operations of Comtrak are included in our consolidated statements of income for the period March 1, 2006 to June 30, 2006.

The Comtrak acquisition was accounted for as a purchase business combination in accordance with Statement of Financial Accounting Standards No. 141 Business Combinations. Assets acquired and liabilities assumed were recorded in the accompanying consolidated balance sheet at their estimated fair values as of March 1, 2006.

Pro forma results including the acquisition at the beginning of the periods presented are not materially different than actual results.

The following table summarizes the preliminary allocation of the total purchase price to the assets acquired and liabilities assumed as of the date of the acquisition (in thousands):

	March 1, 2006

The above allocation is based on a valuation using management's preliminary estimates and assumptions and the use of an independent appraisal and is subject to adjustment. The allocation will be finalized once management completes their analysis of the acquired assets and liabilities. We expect the amortization of all goodwill for tax purposes to be deductible over 15 years and for book purposes it has an indefinite life.

These discontinued operations generated diluted earnings per share of \$0.01 and \$0.02 for the three months ended June 30, 2006 and 2005, respectively. These discontinued operations generated diluted earnings per share of \$0.02 and \$0.03 for the six months ended June 30, 2006 and 2005, respectively.

NOTE 10. Related Party Transaction

In March 2006, we entered into a ten year lease agreement for a building and property (Comtrak's Memphis facility) with a related party, the President of Comtrak. Rent paid under this lease agreement totaled \$0.2 million for the first six months of 2006 and will total \$0.6 million for the year ended December 31, 2006. The annual lease payments escalate by less than 1% per year.

NOTE 11. New Pronouncement

In July 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48 (FIN48), Accounting for Uncertainty in Income Taxes, which is an interpretation of SFAS No. 109, Accounting for Income Taxes. FIN 48 clarifies the accounting for income taxes by prescribing the minimum recognition threshold a tax position is required to meet before being recognized in the financial statements. FIN 48 also provides guidance on derecognition, measurement, classification, interest and penalties, accounting in interim periods, disclosure and transition. In addition, FIN 48 clearly scopes out income taxes from Financial Accounting Standards Board Statement No. 5, Accounting for Contingencies. FIN 48 is effective for fiscal years beginning after December 15, 2006. We will implement this interpretation in the fiscal year starting January 1, 2007. We cannot reasonably estimate the impact of this interpretation at this time.

EXECUTIVE SUMMARY

Hub Group, Inc. (we , us or our) is the largest intermodal marketing company (IMC) in the United States and a full service transportation provider offering intermodal, truck brokerage and logistics services. We operate through a nationwide network of operating centers.

As an IMC, we arrange for the movement of our customers' freight in containers and trailers over long distances. We contract with railroads to provide transportation for the long-haul portion of the shipment and with local trucking companies, known as drayage companies, for local pickup and delivery. As part of the intermodal services, we negotiate rail and drayage rates, electronically track shipments in transit, consolidate billing and handle claims for freight loss or damage on behalf of our customers.

Edgar Filing: HUB GROUP INC - Form 10-Q

Some of our drayage services are provided by our subsidiary, Quality Services, LLC (QS). QS has terminals in Chicago, St. Louis, Stockton, Los Angeles, Atlanta, Jacksonville, Cleveland and Columbus. QS assists us in providing reliable, cost effective intermodal services to our customers.

We acquired Comtrak, Inc. (Comtrak) at the close of business on February 28, 2006. Comtrak is a transportation company whose services include primarily rail and international drayage for the intermodal sector. Comtrak has terminals in Atlanta, Birmingham, Charleston, Charlotte, Chattanooga, Dallas, Houston, Huntsville, Jacksonville, Kansas City, Memphis, Nashville, Savannah and Tampa. The results of Comtrak are included in our results of operations from March 1, 2006, its date of acquisition.

We also arrange for the transportation of freight by truck, providing customers with another option for their transportation needs. We match the customers needs with carriers capacity to provide the most effective service and price combinations. As part of our truck brokerage services, we negotiate rates, track shipments in transit and handle claims for freight loss or damage on behalf of our customers.

Our logistics service consists of complex transportation management services, including load consolidation, mode optimization and carrier management. These service offerings are designed to take advantage of the increasing trend for shippers to outsource all or a greater portion of their transportation needs.

We have full time marketing representatives throughout North America who service local, regional and national accounts. We believe that fostering long-term customer relationships is critical to our success and allows us to better understand our customers needs and specifically tailor our transportation services to them.

One of our primary goals is to grow our net income. We achieved this growth through an increase in revenue and margin from our existing transportation customers as well as from winning new customers and the acquisition of Comtrak. Our yield management group works with sales and operations to enhance customer margins. Our top 50 customers revenue represents approximately 50% of our transportation revenue. During 2006 and 2005, we severed relationships with certain customers which impeded our intermodal revenue growth. We have mitigated our risks in the automotive sector by significantly reducing or eliminating our relationship with two automotive suppliers in 2006. While we continue to do some limited business for this sector, we are carefully managing our credit exposure.

We use various performance indicators to manage our business. We closely monitor margin and gains and losses for our top 50 customers and evaluate on-time performance, costs per load by location and daily sales outstanding by location. Vendor cost changes and vendor service issues are also monitored closely.

Hub Group Distribution Services, LLC (HGDS or Hub Distribution) was sold to the President of the former subsidiary on May 1, 2006. Accordingly, the results of operations of HGDS for the current and prior periods have been reported as discontinued operations. In addition, the assets and liabilities have been reclassified as discontinued operations in the consolidated balance sheet as of December 31, 2005.

Three Months Ended June 30, 2006 Compared to the Three Months Ended June 30, 2005

Revenue

Revenue increased 9.2% to \$395.3 million in 2006 from \$361.8 million in 2005. Intermodal revenue increased 10.2% due primarily to a 7.4% increase related to Comtrak and a 8.2% combined increase related to price, mix and fuel surcharges offset by a 5.4% decline in volume. Truck brokerage revenue increased 14.9% due primarily to an increase in volume and revenue per load from price increases and mix. Logistics revenue decreased 9.4% due to the previously disclosed loss of several customers offset by some business from new customers. Hub Distribution's revenue has been reclassified to discontinued operations due to the sale.

Certain prior year amounts have been reclassified to conform to the current year presentation.

Gross Margin

Gross margin increased 26.5% to \$55.4 million in 2006 from \$43.8 million in 2005. As a percent of revenue, gross margin has increased to 14.0% in 2006 from 12.1% in 2005. The increase in gross margin as a percentage of revenue is due to various margin enhancement efforts, growth in truck brokerage and our drayage operations.

Salaries and Benefits

Salaries and benefits increased to \$24.3 million in 2006 from \$20.3 million in 2005. The increase is related to Comtrak and an increase in salaries, employee benefits and incentive based compensation. As a percentage of revenue, salaries and benefits increased to 6.1% from 5.6% in 2005. Headcount as of June 30, 2006 was 1,059, which excludes drivers, as driver costs are included in transportation costs.

General and Administrative

General and administrative expenses increased to \$9.7 million in 2006 from \$9.0 million in 2005 partially due to the acquisition of Comtrak. The increase related to Comtrak was partially offset by a decrease in professional fees and equipment lease expense. As a percentage of revenue, these expenses remained consistent at 2.5% for 2006 and 2005.

Depreciation of Property and Equipment and Amortization of Intangibles

Edgar Filing: HUB GROUP INC - Form 10-Q

The decrease in depreciation and amortization is due primarily to lower software depreciation due to certain assets being fully depreciated.

Other Income (Expense)

Interest expense remained consistent at \$0.1 million in 2006 and 2005. Interest income increased to \$0.6 million in 2006 from \$0.2 million in 2005. The increase in interest income is due to a higher average investment balance in 2006 and a higher interest rate.

We provided for income taxes using an effective rate of 40.0% in 2006 and an effective rate of 41.5% in the second quarter of 2005. The decrease in the effective tax rate is primarily the result of a lower state tax rate due to business restructuring.

Income from Continuing Operations

Income from continuing operations increased to \$12.2 million in 2006 compared to \$7.2 million in 2005 due primarily to higher gross margin, lower depreciation and amortization expense, lower interest expense and higher interest income.

Truck brokerage revenue increased 15.6% to \$147.7 million due primarily to an increase in volume and revenue per load from price increases and mix. CRITICAL ACCOUNTING POLICIES

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions. In certain circumstances, those estimates and assumptions can affect amounts reported in the accompanying consolidated financial statements. We have made our best estimates and judgments of certain amounts included in the financial statements, giving due consideration to materiality. We do not believe there is a great likelihood that materially different amounts would be reported related to the accounting policies described below. However, application of these accounting policies involves the exercise of judgment and use of assumptions as to future uncertainties and, as a result, actual results could differ from these estimates. Note 1 of the Notes to Consolidated Financial Statements in our Annual Report on Form 10-K for the year ended December 31, 2005, includes a summary of the significant accounting policies and methods used in the preparation of our consolidated financial statements. The following is a brief discussion of the more significant accounting policies and estimates.

Allowance for Uncollectible Trade Accounts Receivable

In the normal course of business, we extend credit to customers after a review of each customer's credit history. An allowance for uncollectible trade accounts has been established through an analysis of the accounts receivable aging, an assessment of collectibility based on historical trends and an evaluation of the current economic conditions. To be more specific, we reserve every account balance that has aged over one year, certain customers in bankruptcy and account balances specifically identified as uncollectible. In addition, we provide a reserve for accounts not specifically identified as uncollectible based upon historical trends that are updated routinely. The allowance is reported on the balance sheet in net accounts receivable. Actual collections of accounts receivable could differ from management's estimates due to changes in future economic, industry or customer financial conditions. Recoveries of receivables previously charged off are recorded when received.

Revenue Recognition

Revenue is recognized at the time 1) persuasive evidence of an arrangement exists, 2) services have been rendered, 3) the sales price is fixed and determinable and 4) collectibility is reasonably assured. In accordance with EITF 91-9, revenue and related transportation costs are recognized based on relative transit time. Further, we report revenue on a gross basis in accordance with the criteria in EITF 99-19, Reporting Revenue Gross as a Principal versus Net as an Agent. We are the primary obligor and are responsible for providing the service desired by the customer. The customer views us as responsible for fulfillment including the acceptability of the service. Service requirements may include, for example, on-time delivery, handling freight loss and damage claims, setting up appointments for pick up and delivery and tracing shipments in transit. We have discretion in setting sales prices and as a result, our earnings vary. In addition, we have the discretion to select our vendors from multiple suppliers for the services ordered by our customers. Finally, we have credit risk for our receivables. These three factors, discretion in setting prices, discretion in selecting vendors and credit risk, further support reporting revenue on the gross basis.

Deferred Income Taxes

Deferred income taxes are recognized for the future tax effects of temporary differences between financial and income tax reporting using tax rates in effect for the years in which the differences are expected to reverse. We believe that it is more likely than not that our deferred tax assets will be realized with the exception of \$0.4 million related to state tax net operating losses and other state credits for which valuation allowances have been established. In the event the probability of realizing the remaining deferred tax assets do not meet the more likely than not threshold in the future, a valuation allowance would be established for the deferred tax assets deemed unrecoverable.

Valuation of Goodwill and Other Indefinite-Lived Intangibles

We review goodwill and other indefinite-lived intangibles for impairment on an annual basis or whenever events or changes in circumstances indicate the carrying amount of goodwill or other intangibles may not be recoverable. We utilize a third-party independent valuation firm to assist in performing the necessary valuations to be used in the impairment testing. These valuations are based on market capitalization, discounted cash flow analysis or a combination of both methodologies. The assumptions used in the valuations include expectations regarding future operating performance, discount rates, control premiums and other factors which are subjective in nature. Actual cash flows from operations could differ from management's estimates due to changes in business conditions, operating performance and economic conditions. Should estimates differ materially from actual results, we may be required to record impairment charges in the future.

Share-Based Compensation

Edgar Filing: HUB GROUP INC - Form 10-Q

In December 2004, the Financial Accounting Standards Board (FASB) issued FASB Statement No. 123 (revised 2004), Share-Based Payment, which is a revision of FASB Statement No. 123, Accounting for Stock-Based Compensation. SFAS No. 123 (R) supersedes APB Opinion No. 25, Accounting for Stock Issued to Employees, and amends FASB Statement No. 95, Statement of Cash Flows. Generally, the approach in SFAS No. 123 (R) is similar to the approach described in Statement 123. However, SFAS No. 123 (R) requires all share-based payments to employees, including grants of employee stock options, to be recognized in the income statement based on their fair values. Pro forma disclosure is no longer an alternative.

As permitted by Statement 123, prior to January 1, 2006 we accounted for share-based payments to employees using Opinion 25's intrinsic value method and, as such, recognized no compensation cost for employee stock options. Had we adopted SFAS No. 123 (R) in prior periods, the impact of that standard would have approximated the impact of Statement 123 as described in Note 2 of the consolidated financial statements.

Edgar Filing: HUB GROUP INC - Form 10-Q

We have adopted SFAS No. 123 (R) effective January 1, 2006 using the modified prospective method. We also elected to calculate our initial pool of excess tax benefits under FSP (R)-3 (FSP). The FSP requires benefits of tax deductions in excess of compensation cost recognized (excess tax benefits) to be classified as a financing cash in-flow and an operating cash out-flow, rather than as an operating cash flow as required prior to the adoption of SFAS No. 123 (R).

New Pronouncement

In July 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48 (FIN48), Accounting for Uncertainty in Income Taxes, which is an interpretation of SFAS No. 109, Accounting for Income Taxes. FIN 48 clarifies the accounting for income taxes by prescribing the minimum recognition threshold a tax position is required to meet before being recognized in the financial statements. FIN 48 also provides guidance on derecognition, measurement, classification, interest and penalties, accounting in interim periods, disclosure and transition. In addition, FIN 48 clearly scopes out income taxes from Financial Accounting Standards Board Statement No. 5, Accounting for Contingencies. FIN 48 is effective for fiscal years beginning after December 15, 2006. We will implement this interpretation in the fiscal year starting January 1, 2007. We cannot reasonably estimate the impact of this interpretation at this time.

LIQUIDITY AND CAPITAL RESOURCES

During the year, we have funded operations and capital expenditures through cash flows from operations.

Cash provided by operating activities for the six months ended June 30, 2006, was approximately \$34.4 million, which resulted primarily from net income from operations of \$20.7 million, non-cash charges of \$6.5 million and an increase in working capital of \$7.2 million.

Net cash used in investing activities for the six months ended June 30, 2006, was \$29.9 million and related primarily to our acquisition of Comtrak for \$39.9 million partially offset by the \$12.2 million of proceeds from the disposition of our discontinued operations. We expect capital expenditures to be approximately \$5.0 million to \$7.0 million for the year ended December 31, 2006.

The net cash provided by financing activities for the six months ended June 30, 2006, was \$9.5 million. We generated cash from stock options exercised. We also reported \$7.8 million of excess tax benefits as a financing cash in-flow. This was previously reported as operating cash flows prior to the adoption of SFAS 123 (R).

Cash provided by discontinued operations was \$1.8 million for the six months ended June 30, 2006.

On March 23, 2005 we entered into a revolving credit agreement that provides for unsecured borrowings of up to \$40.0 million. The interest rate ranges from LIBOR plus 0.75% to 1.25% or Prime plus 0.5%. The revolving line of credit expires on March 23, 2010. The financial covenants require a minimum net worth of \$175.0 million and a cash flow leverage ratio of not more than 2.0 to 1.0. The commitment fees charged on the unused line of credit are between 0.15% and 0.25%. On February 21, 2006, we amended the revolving credit agreement to provide for unsecured borrowing up to \$50.0 million. No other terms of the agreement were amended.

Edgar Filing: HUB GROUP INC - Form 10-Q

Our unused and available borrowings under our bank revolving line of credit at June 30, 2006 are \$48.2 million. We were in compliance with our debt covenants at June 30, 2006.

We have standby letters of credit that expire from 2006 to 2012. As of June 30, 2006, our outstanding letters of credit were \$1.8 million.

Implementing our share buy-back plan could decrease our cash.

Contractual Obligations

Our contractual cash obligations as of June 30, 2006 are minimum rental commitments. Minimum annual rental commitments, at June 30, 2006, under noncancellable operating leases, principally for real estate, containers and equipment, are payable as follows (in thousands):

Remainder 2006	\$13,473
2007	20,615
2008	13,822
2009	10,778
2010	8,965
2011	8,513
2012 and thereafter	9,928
Total	\$86,094

In March 2006, we entered into an equipment purchase contract with Singamas North America, Inc. We agreed to purchase 2,000 fifty-three foot dry freight steel domestic containers for approximately \$18.0 million. We have received 1,178 units as of June 30, 2006 and we expect delivery of approximately 400 units per month during July and August 2006. However, these timeframes are subject to the manufacturer meeting production and delivery schedules. We financed these containers with operating leases.

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to market risk related to changes in interest rates on our bank line of credit which may adversely affect our results of operations and financial condition.

CONTROLS AND PROCEDURES

As of June 30, 2006, an evaluation was carried out under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures. Based upon this evaluation, the Chief Executive Officer and Chief Financial Officer concluded that these disclosure controls and procedures were effective as of June 30, 2006. There have been no changes in our internal control over financial reporting identified in connection with such evaluation that occurred during the last fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. Other Information**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

On August 22, 2005, our Board of Directors authorized the purchase of up to \$45.0 million of our Class A Common Stock. This authorization expires on December 31, 2006. We intend to make purchases from time to time as market conditions warrant. We intend to hold the repurchased shares in treasury for future use. No purchases were made under this new plan during 2005 and 2006.

The following table displays the number of shares purchased and the maximum value of shares that may yet be purchased under the plan:
