

CLARITI TELECOMMUNICATIONS INTERNATIONAL LTD
Form 10-K
October 23, 2002

UNITED STATES SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-K

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended JUNE 30, 2002

Commission File No. 33-90344

Clariti Telecommunications International, Ltd.
(Debtor-in-Possession)

(Exact name of Registrant as specified in its charter)

DELAWARE

23-2498715

(State or other jurisdiction of
incorporation or organization)

(I.R.S. Employer
Identification No.)

625 W. RIDGE PIKE, SUITE C-106
CONSHOHOCKEN, PENNSYLVANIA

19428

(Address of principal executive offices)

(Zip Code)

1341 N. DELAWARE AVENUE, SUITE 300, PHILADELPHIA, PENNSYLVANIA 19125

(Former name or former address, if changed since last report)

Registrant's telephone number, including area code: (215) 291-1700

Securities registered pursuant to Section 12 (b) of the Act: NONE

Securities registered pursuant to Section 12 (g) of the Act: NONE

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15 (d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes [X]. No [].

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of Registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K. []

The aggregate market value of voting stock held by non-affiliates of the Registrant's common stock, as of September 25, 2002 was approximately \$251,000 (based on the average closing bid and asked prices of the registrant's common stock in the over-the-counter market).

The number of shares outstanding of the registrant's common stock, as of September 25, 2002 was 38,582,890.

DOCUMENTS INCORPORATED BY REFERENCE

See Item 14, Exhibits and Reports on Form 8-K

PART I

ITEM 1. DESCRIPTION OF BUSINESS.

Clariti Telecommunications International, Ltd. is a non-operating U.S. parent company with subsidiaries in the U.S. and Italy. In this Form 10-K, the terms "Clariti" and "the Company" are used interchangeably in reference to the parent company and/or any of its subsidiaries. Clariti holds proprietary technology for digital transmission of data utilizing radio frequencies transmitted by FM radio stations.

History of the Company

The Company was originally formed in February 1988 as the successor to a music and recording studio business owned and operated by the Company's former CEO. The Company became publicly held upon its merger in January 1991 with an inactive public company incorporated in Nevada. The surviving corporation changed its name to "Sigma Alpha Entertainment Group, Ltd." and was subsequently reincorporated in Delaware. In March 1998 the Company changed its name to Clariti Telecommunications International, Ltd. Beginning in 1995, the Company began shifting its focus to development and commercialization of its wireless technology and no longer has a significant interest in the music and recording business.

Bankruptcy Proceedings

On April 18, 2002, Clariti Telecommunications International, Ltd. filed a voluntary petition for reorganization under Chapter 11 of the United States Bankruptcy Code in the United States Bankruptcy Court for the Eastern District of Pennsylvania (case no. 02-15817(DWS)). The Company is continuing to manage its properties and operate its business as "debtor-in-possession" under jurisdiction of the Bankruptcy Court and in accordance with applicable provisions of the Bankruptcy Code.

In addition, two Clariti subsidiaries, Clariti Wireless Messaging, Inc. and RadioNet International, Inc., filed voluntary petitions for bankruptcy under Chapter 7 of the U.S. Bankruptcy Code in the U.S. Bankruptcy Court for the Eastern District of Pennsylvania on October 24, 2001 and May 3, 2002, respectively. Further information regarding these bankruptcy proceedings can be found in this Form 10-K under Item 3, Legal Proceedings.

Changes to Management and the Board of Directors

During the fiscal year ended June 30, 2002 ("Fiscal 2002"), there were substantial changes made to the Company's management and board of directors. All of the Company's original executive officers resigned during Fiscal 2002. In addition, all members of the Company's original board of directors resigned during Fiscal 2002, except Abraham Carmel. Stuart W. Settle, Esq. and Ian Tromans were elected to the Company's Board of Directors during Fiscal 2002, and Mr. Carmel was elected Chairman of the Board of Directors and named President, Chief Executive Officer and Treasurer. Mr. Settle was named Secretary of the Company. Further information regarding the Company's current and former management and board of directors will be available in Items 10-13 of this Form 10-K when such information required to be disclosed in such items is provided in an amendment to this Form 10-K within 120 days of the end of the Company's fiscal year.

Since 1995, the Company has been pursuing development of wireless applications for its proprietary technology for communications products and services that utilize radio frequencies transmitted by FM radio stations. Management believes that a need exists worldwide for communications products and services that communicate information in an economically feasible manner without the need for intensive capital investment for infrastructure and frequency licenses. The Company has developed a technology that utilizes existing FM radio frequencies to provide a wireless data transmission network without the significant investment capital requirements of traditional telecommunication and cellular infrastructure. The Company has trademarked the name of its technology as ClariCAST(TM).

ClariCAST(TM) Technology

The ClariCAST(TM) technology utilizes the FM-SCA channels available on FM radio stations throughout the world. FM-SCA (Subsidiary Communication Authorization) channels, also known as FM "subcarrier" channels, are the "sideband" of an FM radio station's broadcasting frequency. Each FM radio station has two FM-SCA channels and an RDS signal. Similar to the SAP (Secondary Audio Programming) channel in television broadcasting, the FM-SCA spectrum is licensed to the FM radio station and can be used for broadcasting alternate information and services.

The ClariCAST(TM) protocol is an advanced digital wireless communications protocol derived from various technologies, some of which were previously used in high-end military communication systems. This proprietary protocol is highly robust, employing state-of-the-art digital technologies, coding and interleaving schemes, and error correction algorithms. At its core, the ClariCAST(TM) protocol is a relatively high-speed digital wireless architecture that has been optimized for the transmission of large digital files, such as digitized voice messages or graphic files, to small, low power, mobile receivers. The ClariCAST(TM) technology sends digital information over FM-SCA frequencies.

The ClariCAST(TM) architecture is uniquely designed to allow Clariti to provide cost-effective solutions for these and other applications. ClariCAST(TM) will allow these potential future applications to share the same wireless highway covering a given geographic area with no need to develop a new network.

Furthermore, Clariti believes that the ClariCAST(TM) architecture is better suited (more robust, more cost-effective) for these types of applications than any other wireless technology in the market. The future applications examples described above all require the ability to broadcast large data files to multiple devices at the same time ("point-to-multipoint"), while cellular technology is geared for one-to-one ("point-to-point") communication and requires greater bandwidth usage and higher costs. The ClariCAST(TM) technology is a cost-effective method to simultaneously broadcast large data files to multiple wireless receivers.

New product development efforts are subject to all of the risks inherent in the development of new technology and products, including unanticipated delays, expenses, market acceptance, and technical problems. There can be no assurance as to when, or whether, any applications of the ClariCAST(TM) technology will be successfully completed. No assurance can be given that products or services can be developed within a reasonable development schedule, if at all, or that they can be produced or provided at a reasonable cost. There can be no

assurance that the Company will have sufficient economic or human resources to complete such development in a timely manner, or at all.

FM-SCA Broadcasting

Two additional significant advantages of the ClariCAST(TM) technology are (1) FM-SCA channels do not require new radio frequency spectrum allocation and (2) the transmission infrastructure for FM-SCA already exists in the form of the FM radio station equipment. As a result, the Company's wireless datacasting system will require significantly less investment to establish a network and acquire the necessary hardware than other wireless networks. In addition, the existence of the FM radio station's transmission infrastructure and the simplicity of the ClariCAST(TM) technology will allow for more rapid installation of the system. The Company expects to be able to install a city-wide wireless datacasting system in several days rather than the many months required for traditional wireless systems.

FM radio stations are typically assigned a frequency bandwidth of 100 kHz. A typical station will use 53 kHz for their commercial (main channel) stereo programming. The remaining 47 kHz, which is almost half of the available FM channel spectrum resource, is not required for broadcasting the main channel programming.

Availability of FM-SCA Channels

FM-SCA has been used in the United States for applications such as background music without commercial interruption, reading services for the blind, stock market quotes, sports scores, weather reports, educational services, and religious broadcasts. As a result, the availability of FM-SCA channels in the U.S. may in some instances be limited due to these other uses. However, in most international markets, especially emerging growth nations, there appears to be little or no use of the FM-SCA band. International FM radio stations have been pursuing the use of this FM-SCA bandwidth to generate additional revenues from operations.

Prior to its financial difficulties, Clariti had secured the use of several FM-SCA Channels in multiple U.S. cities. In addition, RadioNet Italia Srl, the Company's 60%-owned joint venture with the Pasubio Group in Italy, entered a contract with Centro di Produzione SpA (also known as "Radio Radicale") whose 200 plus FM radio station network covers approximately 95% of Italy, to use their FM-SCA channels in exchange for a percentage of RadioNet Italia's revenues. However, there can be no assurance that FM radio station owners in other potential market areas will make their SCA channels available for use by the Company.

Potential Applications of the ClariCAST(TM) Technology

Clariti has taken steps to explore and in some cases begin development work on some potential applications of the ClariCAST(TM) Technology. Following is a brief description of some of the more significant activities in this area:

Smart Mobile Devices ("SMD")- Clariti has held discussions with makers of SMD's, such as handheld organizers and pocket PC's, to explore the potential use of the ClariCAST(TM) technology for purposes of low-cost data broadcast reception capability for information services (sports scores, traffic reports, headline news, etc.) and electronic publishing (e-books, e-newspapers, and e-magazines). It would also give such companies a multicasting channel for the

4

economic distribution of software (software updates, fixes, games, new capabilities, etc.) to fielded SMD devices.

Intelligent Signage - A trend in advertising, especially outdoor and mobile advertising, is interactive, changeable billboards and signs. Signs that

display real-time information such as weather, traffic conditions, lottery numbers, sale prices, etc., would also come under this category. The ClariCAST(TM) technology offers an economical way of transmitting information wirelessly to signs or billboards, especially if they are dispersed over a large geographic or remote area, or in a mobile environment (e.g. buses, trucks, taxi cabs).

Automobile Data Services - Because the ClariCAST(TM) protocol is optimized for mobile receivers, a natural application is information, messaging, and data services to the automobile. Automobile navigation systems are becoming more and more popular, even to the point of being standard equipment in high-end vehicles. ClariCAST(TM) offers an economical way of periodically updating these systems wirelessly with the latest road, waypoint, address, and phone number changes to their databases. A U.S. federal government initiative is the Intelligent Transportation System, or ITS. Part of this initiative calls for traffic information and alerts to the car. With its low-cost of delivery, large geographic coverage, and point-to-multipoint broadcasting capabilities, ClariCAST(TM) represents a very practical and viable way to accomplish this. Clariti has held preliminary discussions with a maker of voice-interactive navigation systems to explore the possible use of ClariCAST(TM) as a communication channel to its in-car platform for sending information services and map database updates to the car.

Other Potential Applications: While steps have been taken to explore and in some cases begin development work on the above applications, Clariti has also identified several other potential applications of the ClariCAST(TM) technology, which include the following:

- Security Alert Services - The terrorist attacks of September 11, 2001 have exposed a need not just in the United States, but in countries around the world, for effective and reliable broadcast communications capabilities for transmission to military and national guard personnel, police, emergency services personnel, and general public alerts. ClariCAST(TM) represents a very practical and viable way to accomplish this with its low-cost of delivery, large geographic coverage, and point-to-multipoint broadcasting capabilities.
- E-Books, E-newspapers: Information could be updated continuously during the day over Clariti's wireless network.
- Interactive Toys: Major toy makers are creating interactive toys that teach and entertain children. With an embedded ClariCAST(TM) receiver, these toys could constantly be sent new content, including personalized messages.
- Interactive Games: Makers of electronic games could use ClariCAST(TM) to continually distribute, update and keep fresh their most popular computer and video game software.
- Microcontroller Software Updating: By adding a ClariCAST(TM) receiving module to their micro-controllers, manufacturers of consumer durables as diverse as refrigerators and lawnmowers would have a way of maintaining and updating their products remotely.

Wireless Voicemail System

From 1995 through the first half of 2001, the Company's primary focus was on the development of one application of the ClariCAST(TM) technology, the Clariti Wireless Voicemail System. The Wireless Voicemail System transmits a message to the owner of a handheld voicemail player, known as a Voca(TM), in the actual voice of the person generating the message. The Wireless Voicemail System is

Edgar Filing: CLARITI TELECOMMUNICATIONS INTERNATIONAL LTD - Form 10-K

designed so that a subscriber must first buy a Voca(TM) and then pay a monthly subscription fee for the wireless voicemail service. Once a subscriber's account has been established, callers can leave voice messages for the subscriber by calling the system's central ClariCAST(TM) server, or the system may forward office voicemail messages. The calling party's message is then digitized, compressed and transmitted by a radio station's FM transmitter to the subscriber's Voca(TM).

In 2000, the Company implemented a limited scope test launch of its Wireless Voicemail System in Jacksonville, Florida, consisting of the sale of approximately 50 Vocas(TM) to third party consumers who used the service in their daily lives. By early 2001, the Company had exhausted most of its cash reserves and had been unable to raise sufficient additional capital to fund continued development of its Wireless Voicemail System. As a result, Clariti terminated the Jacksonville test launch and ceased all efforts to develop and implement a commercial Wireless Voicemail System. In addition, Clariti postponed all activities related to its Italian joint venture, RadioNet Italia, Srl, which was originally formed to market the ClariCAST(TM) technology and related products and services in Italy.

Competition

The Company expects its wireless datacasting products and services to compete with those of numerous well-established companies that design, manufacture and/or market wireless communications systems and devices, including paging and cellular services. Most of these companies have substantially greater financial, technical, personnel and other resources than the Company, and have established reputations for success in the development, licensing, and sale of their products and services. Most of these competitors also have the financial resources necessary to enable them to withstand substantial price competition or downturns in the market for wireless communications systems and devices.

In order for a wireless technology to be commercially successful, the Company believes it must meet user requirements for cost, device size, performance, and functionality. While some competing technologies match the Company's ClariCAST(TM) technology on one or more of these parameters, the Company is not aware of any competing technology that can match ClariCAST(TM) technology in all of these critical areas.

Intellectual Property

In March 1999, the U.S. Patent and Trademark Office issued to the Company a patent, originally filed in January 1996, dealing with FM Subcarrier Digital Voice Messaging. In July of 2000, the U.S. Patent and Trademark Office issued the Company a second patent on the invention with improved claim coverage. This invention had previously been approved by government authorities in South Africa and Taiwan, and is still pending in three additional countries. In April 2000 the U.S. Patent and Trademark Office issued to the Company a patent, which was originally filed in March 1999, on the overall design of its Wireless

6

Voicemail Player, the Voca(TM). The Company's current patents expire between 2014 and 2016.

During the past fiscal year, the Company filed one patent application in the United States dealing with automatic, over-the-air system monitoring. In addition, the Company has two pending patent applications for the protection of its proprietary wireless protocol and pending patent applications for a unique interference-reduction technique, an improved message quality estimator, implementing a response communications channel at the Voca(TM) antenna shield,

and other Voca(TM) performance-enhancing features.

There can be no assurance as to the ultimate success of the Company's patent applications in the United States or any foreign country. Furthermore, even if patents are issued to the Company, there can be no assurance that such patents will not be circumvented and/or invalidated by competitors of the Company. Further, the enforcement of patent rights often requires the institution of litigation against infringers, which litigation is often costly and time consuming. The Company also intends to rely on trade secrets, know how and continuing technological advancement to establish a competitive position in the marketplace. There can be no assurance that the Company will be able to adequately protect its technology from competitors in the future.

Research and Development

The Company's research and development costs relate exclusively to the development of its ClariCAST(TM) technology and related applications, including the Wireless Voicemail System. Research and development costs incurred by the Company during the years ended June 30, 2002, 2001 and 2000 were \$0, \$4,711,000 and \$4,161,000, respectively. The Company has incurred cumulative research and development costs of \$12,846,000 on its ClariCAST(TM) technology and Wireless Voicemail System through June 30, 2002. The substantial reduction in research and development costs incurred by the Company during the year ended June 30, 2002 was due to the Company's severe cash shortage and resulting Chapter 11 bankruptcy filing in April 2002. Management expects a continued low level of research and development expenditures for the year ending June 30, 2003 as the Company attempts to execute its plan of reorganization and emerge from Chapter 11 bankruptcy proceedings.

Management believes its ClariCAST(TM) technology has the capability to fill a need that exists worldwide for a wireless telecommunications network that can communicate information in an economically feasible manner without the need for the significant investment capital requirements of a traditional wireless infrastructure. Utilization of the existing telecommunications infrastructure and that of 30,000 FM radio towers located around the world has the capability to provide such a network to the vast majority of the world's population. Subject to its ability to execute its plan of reorganization and emerge from Chapter 11 bankruptcy proceedings with adequate sources of funding (or which there can be no assurance), the Company plans to continue research and development into applications of its technology that have the potential to fill such a need.

Employees

As of June 30, 2002, the Company had 2 full time employees working at its Conshohocken, Pennsylvania headquarters. Neither of the employees belong to a labor union.

ITEM 2. DESCRIPTION OF PROPERTY

The Company is located at 625 W. Ridge Pike, Suite C-106, Conshohocken, Pennsylvania 19428, which the Company leases pursuant to a written lease agreement that expires in 2003.

ITEM 3. LEGAL PROCEEDINGS

Bankruptcy Proceedings

Edgar Filing: CLARITI TELECOMMUNICATIONS INTERNATIONAL LTD - Form 10-K

On April 18, 2002, Clariti Telecommunications International, Ltd. filed a voluntary petition for reorganization under Chapter 11 of the United States Bankruptcy Code in the United States Bankruptcy Court for the Eastern District of Pennsylvania (case number 02-15817(DWS)). The Company continues to manage its properties and operate as "debtor-in-possession" under the jurisdiction of the Bankruptcy Court and in accordance with the applicable provisions of the Bankruptcy Code. The Company has filed a Plan of Reorganization dated June 25, 2002 and an Amended Disclosure Statement dated August 7, 2002. Clariti firmly believes its Plan, as filed provides for the optimum payments to creditors within the shortest practical and realistic period of time giving consideration to the creditors and the Company's limited resources. As of October 15, 2002, the Company's Plan of Reorganization has been approved by the Bankruptcy Court with an effective date of October 30, 2002.

Clariti negotiated a Funding Agreement with Anstead Investment, Ltd. (the Company's primary secured creditor and its largest shareholder) and an affiliated company, Cash Card Communications, Ltd. ("C4"), pursuant to which Anstead and C4 have agreed to provide limited funding to the Company during and after Chapter 11 proceedings as well as the funding required to execute the Plan of Reorganization. In consideration, the Company will allow such advances to become secured claims of Anstead and C4. Thus far, such advances have been limited to minimal expenses necessary to keep the Company operating. Following is a brief summary of the Plan of Reorganization:

- All existing shares of Clariti common stock shall be cancelled and pre-petition shareholders shall receive one share of stock in the reorganized Company for every 100 shares of stock presently held. Any existing holders of Company stock options shall be converted at the same rate with the price of the option prorated to the cost of the new shares.
- Secured creditors, of which there are four (including Anstead and C4), will each receive an unsecured, interest free, convertible promissory note ("Notes") with a principal amount equal to their respective secured claims. The Notes are convertible at the sole option of the Company into post-reorganization common shares at conversion prices ranging from \$2.00 to \$10.00 per share. The Notes mature on December 31, 2005, unless previously converted.
- C4 expects to make available approximately \$300,000 to settle administrative claims, priority unsecured claims and general unsecured claims. Administrative claims and priority unsecured claims are expected to be paid in full on the effective date of the plan. General unsecured claims will be paid on a pro rata basis to the extent of funds remaining after payment of the administrative claims and priority unsecured claims.

Clariti Wireless Messaging, Inc. and RadioNet International, Inc., both wholly owned subsidiaries of Clariti Telecommunications International, Ltd., each

8

filed a voluntary petition for bankruptcy under Chapter 7 of the U.S. Bankruptcy Code in the U.S. Bankruptcy Court for the Eastern District of Pennsylvania on October 24, 2001 and May 3, 2002, respectively. Both companies' operations have ceased. Neither company held significant assets. The Bankruptcy Court closed the case on Clariti Wireless Messaging, Inc. in Fiscal 2002 and closed the case on RadioNet International, Inc. on July 12, 2002.

France Telecom

France Telecom SA ("France Telecom") initiated a complaint against the Company on May 12, 2000 before the Tribunal de Commerce de Paris (Paris Commercial Court) in Paris, France. France Telecom's claim relates to a debt it claims it is owed by GlobalFirst Communications SA, a former French subsidiary of the

Edgar Filing: CLARITI TELECOMMUNICATIONS INTERNATIONAL LTD - Form 10-K

Company, for long-distance telephone services. France Telecom seeks payment from Clariti of 20,000,000 French Francs (approximately \$2,700,000). France Telecom further claims unspecified damages corresponding to the loss of revenue resulting from the ceasing of commercial relations with GlobalFirst Communications SA. The Company has vigorously defended the claims asserted by France Telecom. Clariti believed that it did not verbally or in writing make a promise to pay any obligations of GlobalFirst Communications SA, and that it caused no damages to France Telecom because commercial relations with GlobalFirst Communications SA had ceased before Clariti held any negotiations with France Telecom. On April 10, 2002, The Tribunal de Commerce de Paris issued a decision in favor of the Company, denying France Telecom any damages.

McAndrews

On or about September 28, 2000, Michael P. McAndrews filed a Demand for Arbitration with the American Arbitration Association against the Company and Clariti Wireless concerning obligations arising under Mr. McAndrews' Employment Agreement. Mr. McAndrews has alleged that the Company had guaranteed and assumed the obligation due Mr. McAndrews pursuant to an Assignment and Guaranty Agreement. Mr. McAndrews claimed that as a result of a material change in his duties, he resigned from employment for "good reason" (as defined in the Employment Agreement), therefore entitling him to a severance package in an amount in excess of \$294,000. Additionally, Mr. McAndrews requested reasonable attorney fees and other costs and fees, together with interest thereon. Clariti Wireless and the Company disputed Mr. McAndrews' allegations, asserting that Mr. McAndrews was not entitled to any payments and/or damages under the Employment Agreement. The Arbitrators held a hearing on June 14 and 15, 2001 regarding the matter. On October 18, 2001, the Arbitrators ruled that the Company and Clariti Wireless are jointly and severally liable to pay Mr. McAndrews \$290,500 plus reasonable attorney's fees and costs. On December 17, 2001, the Arbitrators awarded Mr. McAndrews \$83,219 for attorney's fees and costs, bringing the total award for Mr. McAndrews to \$401,000, including accrued interest. This amount is included as a general unsecured claim in the Company's Chapter 11 bankruptcy proceedings.

M&T Bank

On June 12, 2001, M&T Bank filed an action against the Company in the Court of Common Pleas of Montgomery County, Pennsylvania. M&T Bank seeks to hold Clariti responsible under the terms of a guaranty agreement pursuant to which Clariti allegedly guaranteed certain obligations of its former subsidiary, Clariti Telecom, Inc. M&T Bank seeks damages in the amount of \$368,000.

9

Nine Penn Center Associates

On October 17, 2001, Nine Penn Center Associates filed a complaint against the Company in the Court of Common Pleas of Montgomery County, Pennsylvania. Nine Penn Center Associates is the landlord and owner of real property known as the Mellon Bank Center, 1735 Market Street, Philadelphia, PA 19103, a former address of the Company's headquarters. Nine Penn Center Associates is seeking damages associated with the remainder of a lease agreement. On April 2, 2002, the Court entered a judgment by default in favor of Nine Penn Center Associates in the amount of \$1,203,493. This amount has been accrued and recorded in general and administrative expenses. However, this amount is based on the acceleration of the lease through 2006 and therefore is being disputed by the Company through the Bankruptcy Court.

Other Legal Proceedings

The Company is, from time to time, during the normal course of its business operations, subject to various other litigation claims and legal disputes. The Company expects none to have a material adverse impact on its operations, however, no assurance can be given that an adverse determination of any claim or dispute would not have an adverse impact on its operations during any given period.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

NONE

10

PART II

ITEM 5. MARKET FOR COMMON EQUITY AND RELATED STOCKHOLDER MATTERS.

The Company's Common Stock is currently quoted on the National Association of Securities Dealers, Inc., over-the-counter market on the OTC Bulletin Board under the symbol "CLRIQ."

Market Information

The following table sets forth the high and low bid prices per share of Common Stock as quoted by National Quotation Bureau, Inc. The following table presents data for the years ended June 30, 2002 and 2001. All amounts have been retroactively adjusted to reflect the Reverse Stock Split.

Edgar Filing: CLARITI TELECOMMUNICATIONS INTERNATIONAL LTD - Form 10-K

Year Ended June 30, 2002

	High Bid -----	Low Bid -----
Quarter ended:		
September 30, 2001	\$ 0.180	\$ 0.040
December 31, 2001	\$ 0.076	\$ 0.008
March 31, 2002	\$ 0.027	\$ 0.004
June 30, 2002	\$ 0.005	\$ 0.003

Year Ended June 30, 2001

	High Bid -----	Low Bid -----
Quarter ended:		
September 30, 2000	\$ 5.880	\$ 4.310
December 31, 2000	\$ 4.500	\$ 2.880
March 31, 2001	\$ 5.250	\$ 0.940
June 30, 2001	\$ 1.120	\$ 0.150

The above prices presented are bid prices, which represent prices between broker dealers and do not include retail mark-ups, mark-downs or commissions to the dealer. The prices also may not necessarily reflect actual transactions. On September 25, 2002 the closing price for the Company's common stock was \$0.011 per share.

----- Holders

As of September 25, 2002 the Company had 267 shareholders of record of its common stock. Such number of record holders was derived from the stockholder list maintained by the Company's transfer agent, American Stock Transfer & Trust Co., and does not include the list of beneficial owners of the Company whose shares are held in the names of various dealers and clearing agencies.

----- Dividends

To date, the Company has not declared or paid any cash dividends and does not intend to do so for the foreseeable future. The Company intends to retain all earnings, if any, to finance the continued development of its business. Any future payment of dividends will be determined solely in the discretion of the Company's Board of Directors.

11

----- Changes in Securities and Use of Proceeds

The following information sets forth all shares of the Company's \$.001 par value common stock issued by the Company during the period covered by this Form 10-K that were not registered under the Securities Act of 1933, as amended (the "Act") at the time of issuance and were not previously reported in a Quarterly Report on Form 10-Q.

Date -----	Name -----	Number of Shares -----	Total Consideration -----
August 2001	MarketWatch Option, Inc.	3,000,000	\$135,000
August 2001	Vision Publishing	150,000	\$ 10,500

During Fiscal 2002 the Company sold 3,000,000 shares of its common stock to MarketWatch Option, Inc. for proceeds, net of commissions, of \$135,000. In addition, the Company issued 150,000 shares of its common stock to Vision

Edgar Filing: CLARITI TELECOMMUNICATIONS INTERNATIONAL LTD - Form 10-K

Publishing for consulting services valued at \$10,500.

The securities issuances set forth above were exempt from registration under the Act pursuant to Regulation S under the Act as transactions with non-U.S. persons or Section 4(2) of the Act as transactions by an issuer not involving any public offering in that said transactions involved the issuance by the Company of shares of its common stock to financially sophisticated individuals who were fully aware of the Company's activities, as well as its business and financial condition, and acquired said securities for investment purposes.

The Company has placed a restrictive legend on all of the stock certificates representing the shares issued above and will give appropriate "stop transfer" instructions to its transfer agent, until such time as those shares are registered pursuant to the Act, or a valid exemption from registration exists under the Act.

ITEM 6. SELECTED FINANCIAL DATA

The following selected consolidated financial data relating to the Company and its subsidiaries have been taken or derived from the financial statements and other records of the Company. Such selected consolidated financial data are qualified in their entirety by, and should be read in conjunction with, the consolidated financial statements of the Company. On April 18, 2002, Clariti Telecommunications International, Ltd. filed for bankruptcy under Chapter 11 of the U.S. Bankruptcy Code. Accordingly, results of operations for the period April 18, 2002 through June 30, 2002, as well as balance sheet data as of June 30, 2002 reflect operations as "debtor-in-possession" under jurisdiction of the Bankruptcy Court. During Fiscal 2001, the Company divested substantially all of its interests in the Telephony/Internet Services business segment, representing the disposal of a business segment under Accounting Principals Board Opinion No. 30. Accordingly, the selected financial data have been restated to conform to discontinued operations treatment for all periods presented. In 1998, the Company changed its fiscal year end from July 31 to June 30. Therefore, Fiscal 1998 consists of the 11 months ended June 30, 1998 and all other fiscal years consist of 12 months.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

Certain information included in this Annual Report may be deemed to include forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, that involve risk and uncertainty, such as our ability to successfully do any or all of the following:

- Emerge from Chapter 11 bankruptcy proceedings pursuant to the terms of our reorganization plan dated June 25, 2002,
 - Obtain financing for operations and expansion after we emerge from bankruptcy proceedings,
 - Manage the transition from our former board of directors and management team to the new board of directors and management team,
 - Develop commercially viable applications for the ClariCAST(TM) technology,
 - Obtain access to engineering resources required to complete development and commercial implementation of potential applications for the ClariCAST(TM) technology,
 - Lease SCA channels from FM radio stations,

Edgar Filing: CLARITI TELECOMMUNICATIONS INTERNATIONAL LTD - Form 10-K

- Select and develop partnerships to help market, sell and distribute the wireless products and services we are attempting to develop,
- Develop a marketing strategy for the wireless products and services we are attempting to develop
- Develop manufacturing and distribution channels for the wireless products and services we are attempting to develop
- Manage the progress and costs of additional research and development of the ClariCAST(TM) technology
- Manage the risks, restrictions and barriers of conducting business internationally
- Reduce future operating losses and negative cash flow
- Compete effectively in the markets we choose to enter

In addition, certain statements may involve risk and uncertainty if they are preceded by, followed by, or that include the words "intends," "estimates," "believes," "expects," "anticipates," "should," "could," or similar expressions, and other statements contained herein regarding matters that are not historical facts. Although we believe that our expectations are based on reasonable assumptions, we can give no assurance that our expectations will be achieved. The important factors that could cause actual results to differ materially from those in the forward-looking statements herein (the "Cautionary Statements") include, without limitation, risks related to our Chapter 11 bankruptcy proceedings, ability to obtain funding, ability to reverse operating losses, competition and regulatory developments, as well as the other risks identified below under "Risk Factors" and those referenced from time to time in our filings with the Securities and Exchange Commission. All subsequent written and oral forward-looking statements attributable to the Company or persons acting on its behalf are expressly qualified in their entirety by the Cautionary Statements. We do not undertake any obligation to release publicly any revisions to such forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.

14

RISK FACTORS

We Must Exit Chapter 11 Bankruptcy Proceedings in Accordance With Our Reorganization Plan

On April 18, 2002, we filed a voluntary petition for reorganization under Chapter 11 of the United States Bankruptcy Code in the United States Bankruptcy Court for the Eastern District of Pennsylvania. We are continuing to manage our properties and operate our business as "debtor-in-possession" under jurisdiction of the Bankruptcy Court and in accordance with applicable provisions of the Bankruptcy Code. On June 25, 2002, we filed a Plan of Reorganization with the Bankruptcy Court ("Reorganization Plan").

Further details of the Reorganization Plan are disclosed below under Analysis of the Business. We believe that the Reorganization Plan provides for the optimum payments to our creditors within the shortest practical period of time given the number of creditors and our limited resources and abilities. Funding for the Reorganization Plan is to be accomplished through a new capital infusion to be made by Anstead Investment, Ltd. ("Anstead"), and/or an affiliate of Anstead. Anstead is currently our largest shareholder and our largest secured creditor.

If the Reorganization Plan is not approved in substantially its original form, it is reasonably possible that Anstead may choose not to provide capital to us.

Edgar Filing: CLARITI TELECOMMUNICATIONS INTERNATIONAL LTD - Form 10-K

In that case, unless we could identify another source of debtor-in-possession financing in a very short time, we would have to convert the bankruptcy to Chapter 7 proceedings, resulting in the liquidation of the company.

We Need to Obtain Financing in Order to Continue Our Operations

Our inability to secure financing to fund our obligations is the reason we entered Chapter 11 bankruptcy proceedings. Since then Anstead/C4 have advanced (in the form of a loan) approximately \$256,000 to meet our operating requirements. In addition, C4 an affiliate of Anstead has agreed to fund an additional \$300,000 for payments to certain creditors pursuant to terms of the Reorganization Plan. Without such funding from Anstead and its affiliate, it is reasonably possible that we would have to convert the bankruptcy to Chapter 7 proceedings, which would result in the liquidation of the company.

When we emerge from Chapter 11 bankruptcy proceedings, we will require both short-term financing for operations and longer-term capital to fund our expected growth. We have no existing bank lines of credit and have not yet established any sources for additional financing. Our ability to grow will be dependent upon our ability to raise longer-term capital or otherwise finance our plans. However, additional financing may not be available to us, or if available, may not be available upon terms and conditions acceptable to us. Inability to raise sufficient funds for operations will have an adverse impact on our business.

Several Factors About Our Common Stock Make It Difficult For Us to Obtain Equity Financing

The market price of our common stock has fallen from over \$5.00 per share in January 2001 to less than \$0.01 per share currently. Until we emerge from Chapter 11 bankruptcy proceedings, it is unlikely that we will be able to sell common stock to obtain financing. The Reorganization Plan provides for the implementation of a 100:1 reverse stock split. This will have the effect of

15

substantially reducing the number of shares outstanding and in the public float. However, there can be no assurance that this reverse stock split will have the desired effect of raising our common stock price to such a level that attracts third party investors.

Our common stock is currently traded on the OTC Bulletin Board and, as such, it is relatively illiquid. Once we emerge from Chapter 11 Bankruptcy proceedings, there can be no assurance that an active public trading market for our common stock will be developed, and if developed, sustained.

Our Board of Directors has the authority to issue up to two million shares of a new series of preferred stock and to determine the price, privileges and other terms of such shares. The Board may exercise this authority without the approval of the stockholders. The rights of the holders of common stock may be adversely affected by the rights of the holders of any preferred stock that may be issued in the future. In addition, the issuance of preferred stock may make it more difficult for a third party to acquire control of Clariti.

We Have a Limited Operating History Upon Which to Base an Evaluation of Our Performance

We were formed in February 1988 as the successor to a music and recording studio business. In 1995, we were introduced to the concept of using FM radio frequencies to transmit digital information, which we have now developed into our ClariCAST(TM) technology. As an early stage company in the rapidly evolving wireless technology industry, we face numerous risks and uncertainties. In addition, we have had only a limited operating history upon

Edgar Filing: CLARITI TELECOMMUNICATIONS INTERNATIONAL LTD - Form 10-K

which investors may base an evaluation of our performance.

We Have Substantially Changed Our Board of Directors and Management

During Fiscal 2002, all but one member of our Board of Directors resigned and all of our executive officers resigned as well. We added two new members to our Board of Directors, neither of which have significant experience in wireless telecommunications. It is expected that the one remaining member of the original Board of Directors, Abraham Carmel, will be elected Chief Executive Officer and President of the Clariti following confirmation of the Reorganization Plan. In addition, all members of our finance department, including our Chief Accounting Officer, resigned during Fiscal 2002. We are currently using third party consultants to perform required financial functions.

We Have Eliminated Substantially All of Our Engineering Staff

Our financial difficulties forced us to terminate nearly all of our engineering research and development personnel during Fiscal 2002. We now have only two experienced engineers on staff who are working on development of applications for our ClariCAST(TM) technology. To execute our plans, we will have to hire additional engineering staff and/or obtain engineering support from third parties interested in working with us to develop one or more applications of our ClariCAST(TM) technology. There can be no assurance that we will be able to internally fund additional engineering staff or that we will be able to develop relationships with third parties that will provide engineering assistance to us.

We Have a History of Losses and Expect that Losses Will Continue in the Future

Since our inception, we have incurred significant losses from continuing

16

operations of \$5,064,000, \$15,255,000 and \$16,364,000 for Fiscal 2002, Fiscal 2001 and Fiscal 2000, respectively, including \$0, \$4,711,000 and \$4,161,000, respectively, on research and development of our ClariCAST(TM) technology. In order to achieve profitability in the future, we will need to generate significant revenue. We cannot assure you that we will generate sufficient revenue to achieve profitability. We currently project that we will continue to generate operating losses and negative cash flow from operations at least through Fiscal 2002. We cannot assure you that we will ever achieve, or if achieved, maintain, profitability. If revenue grows more slowly than we anticipate or if research and development, marketing and operating expenses exceed our expectations or cannot be adjusted accordingly, our business, results of operation and financial condition will be materially adversely affected.

We Are in Competition With Companies That Are Larger, More Established and Better Capitalized Than We Are

The wireless telecommunications industry is highly competitive, rapidly evolving and subject to constant technological change. We expect that our wireless voicemail products and services will compete with those of numerous well-established companies, including Motorola, AT&T, Sprint PCS and many paging companies, which design, manufacture and/or market wireless telecommunications systems. Many of our competitors have greater financial, technical, engineering, personnel and marketing resources; longer operating histories; greater name recognition; and larger consumer bases than us.

Successful Development of Our ClariCAST(TM) Technology Is Largely Dependent Upon the Two Remaining Engineering Staff Members

Edgar Filing: CLARITI TELECOMMUNICATIONS INTERNATIONAL LTD - Form 10-K

Our two remaining engineering staff members are the only employees we have with the knowledge and skill to develop potential applications for our ClariCAST(TM) technology. The loss of one or more of these individuals could have a material adverse effect on us.

In the longer term, our future operating results will substantially depend upon our ability to attract and retain highly qualified management, financial, technical and administrative personnel. Competition for highly trained technical personnel is intense. We cannot assure you that we will be able to attract and retain the personnel necessary for the development of our business.

Rapid Technological Change Makes Our Success Unpredictable

The wireless telecommunications industry is characterized by rapid technological change, new product introduction and evolving industry standards. Our success will depend, in significant part, on our ability to make timely and cost-effective enhancements and additions to our technology and introduce new services that meet consumer demands. We expect new products and services, and enhancements to existing products and services, will be developed and introduced in order to compete with our technology. The proliferation of new telecommunications technologies may reduce demand for our ClariCAST(TM) technology. There can be no assurance that we will have the necessary financial resources or will be successful in developing and marketing new services or enhancements to services that respond to these or other technological changes or evolving industry standards. In addition, we may experience difficulties that could delay or prevent the successful development, introduction and marketing of applications for our ClariCAST(TM) technology. Delay in the introduction of new services or enhancements, our inability to develop new services or enhancements or the failure of such services or enhancements to

17

achieve market acceptance could have a material adverse effect on our business, financial condition and results of operations.

Operating Internationally May Expose Us to Additional and Unpredictable Risks

We have established a joint venture in Italy to market our technology, and we intend to enter other international markets as well. International operations are subject to inherent risks, including:

- potentially weaker intellectual property rights;
- difficulties in obtaining foreign licenses;
- changes in regulatory requirements;
- political instability;
- unexpected changes in regulations and tariffs;
- fluctuations in exchange rates;
- varying tax consequences; and
- uncertain market acceptance and difficulties in marketing efforts due to language and cultural differences.

SPECIFIC RISKS ASSOCIATED WITH OUR WIRELESS TECHNOLOGY

Consumers May Not Accept Applications of Our ClariCAST(TM) Technology We Choose to Develop

The acceptance of any application or our ClariCAST(TM) Technology is a key element to our success and profitability. As with all new products, there is a risk that potential customers may not accept our product. Other companies may develop products in response to technological changes that make our system noncompetitive, especially if the development, introduction and marketing of our product is delayed.

Edgar Filing: CLARITI TELECOMMUNICATIONS INTERNATIONAL LTD - Form 10-K

We Are Subject to Uncertain Government Regulation Over USE of FM-SCA Channels

Our ClariCAST(TM) technology utilizes FM-SCA channels available on nearly all FM radio stations worldwide. In the United States, the FCC considers FM-SCA channels to be part of the total FM frequency allocated to a radio station and therefore regulates only the FM licensee, and does not require a separate license for the contractual use of FM-SCA channels. There can be no assurance that Congress, the FCC, state regulatory agencies, foreign governments or supranational bodies will not in the future require us to obtain a license to operate our business or impose other requirements on radio stations that may limit our ability to operate. Regulators in most of the foreign markets may take a similar position in their countries to that of the FCC regarding the licensing and regulation of FM-SCA channels. There can be no assurance that foreign regulatory agencies will allow us access to their FM-SCA channels.

We May Be Dependent Upon Third Parties To Provide FM-SCA Channels in Areas in Which We Intend to Operate Our Wireless Services

In markets where we intend to distribute and operate our wireless services, we will be required to enter into contractual arrangements with FM radio stations in order to secure the use of FM radio subcarrier frequencies to operate our wireless system. We may not be able to enter into these arrangements or we may not be able to obtain sufficient radio frequency coverage in our target market. In addition, FM radio station owners may develop other uses for their subcarrier frequencies, which would limit our ability to enter into these arrangements. If we are unable to enter into arrangements with a significant number of FM radio stations, or to do so on

18

economically advantageous terms, our ability to commercialize our wireless products and services and our profitability, if any, will be limited.

We Have Limited Protection of Proprietary Rights and Technology

Our intellectual property rights include patents, copyrights, trade secrets, trademarks and exclusive and non-exclusive licenses. We have been granted a U.S. patent dealing with FM Subcarrier Digital Voice Paging. Patents on this invention have also been granted in South Africa and Taiwan and are pending in 10 additional countries. We have also filed for patent protection in the United States and multiple foreign countries on a number of additional inventions. We cannot be certain that any patent applications will result in the issuance of a patent or that our patents will withstand any challenges by third parties.

Unauthorized Use of Our Intellectual Property and Trade Secrets May Affect our Market Share and Profitability

We rely on our patents, copyrights, trademarks, trade secrets, know how and continuing technological advancement to establish a competitive position in the marketplace. We attempt to protect our proprietary technology through an employee handbook and agreements with our employees. Other companies may independently develop or otherwise acquire similar technology or gain access to our proprietary technology. Despite our precautions, there can be no assurance that we will be able to adequately protect our technology from competitors in the future. The enforcement of patent rights often requires the institution of litigation against infringers. This litigation is often costly and time consuming.

We Face Risks of Infringement Claims

We may be subject to legal proceedings and claims from time to time relating to the intellectual property of others, even though we take steps to

assure that neither our employees nor our contractors knowingly incorporate unlicensed copyrights or trade secrets into our products. It is possible that third parties may claim that our current or future products may infringe upon their patent, copyright, trademark or trade secret rights. Any such claims, regardless of their merit, could be time consuming, expensive, cause delays in introducing new or improved products or services, require us to enter into royalty or licensing agreements or require us to stop using the challenged intellectual property. Successful infringement claims against us may materially disrupt the conduct of our business or affect profitability. There are currently no legal proceedings or claims for infringement of intellectual property rights pending against us.

ANALYSIS OF THE BUSINESS

The following discussion should be read in conjunction with the Company's consolidated financial statements appearing elsewhere in this report.

Bankruptcy Proceedings

On April 18, 2002, Clariti Telecommunications International, Ltd. filed a voluntary petition for reorganization under Chapter 11 of the United States Bankruptcy Code in the United States Bankruptcy Court for the Eastern District of Pennsylvania (case no. 02-15817(DWS)). At that time the Company reported

19

tangible assets with a book value of approximately \$700,000 and liabilities of approximately \$5,212,000. The Company continues to manage its properties and operate the business as "debtor-in-possession" under jurisdiction of the Bankruptcy Court and in accordance with applicable provisions of the Bankruptcy Code. As of October 15, 2002, the Company's Plan of Reorganization has been approved by the Bankruptcy Court with an effective date of October 30, 2002.

In addition, two of the Companies subsidiaries, Clariti Wireless Messaging, Inc. and RadioNet International, Inc., filed voluntary petitions for bankruptcy under Chapter 7 of the U.S. Bankruptcy Code in the U.S. Bankruptcy Court for the Eastern District of Pennsylvania on October 24, 2001 and May 3, 2002, respectively. Further information regarding these bankruptcy proceedings can be found in this Form 10-K under Item 3, Legal Proceedings.

On June 25, 2002, the Company filed its Chapter 11 Reorganization Plan with the Bankruptcy Court detailing the plans for settling claims of creditors and restructuring the interests of its equity holders. Following is a brief summary of the Reorganization Plan:

1. The Company owed Priority Unsecured Claims as of the filing date of approximately \$85,000. Included in these claims are four former employees who are owed wages, which accrued during the statutory priority period. Each of these four individuals has a priority claim in the amount of \$4,650. Additionally, the Company owed certain federal, state and local taxes, which totaled just in excess of \$67,000. The Reorganization Plan calls for all Priority Unsecured Claims to be paid at 100 cents on the dollar.
2. The Company owed Secured Creditors as of the filing date approximately \$1,345,000. Specifically, the Company owed \$858,000 to Anstead (its largest shareholder), \$250,000 to Pasubio Spa, an Italian joint venture partner, and \$237,000 to Eizen Fineburg & McCarthy, former corporate counsel. The Reorganization Plan calls for all three secured creditors to receive a convertible, non-interest bearing, unsecured promissory note for the face amount owed to them. The principal amount of the note payable to Anstead

Edgar Filing: CLARITI TELECOMMUNICATIONS INTERNATIONAL LTD - Form 10-K

and/or its affiliate will also include any amounts advanced to the Company during the bankruptcy case and thereafter until December 31, 2002. The notes payable will mature on December 31, 2005 if not converted earlier. The notes are convertible at the Company's discretion at the rate of \$2.00 per share (after the planned 100:1 reverse split) for Anstead, its affiliate and Pasubio, and at a rate of \$10.00 per share (after the planned 100:1 reverse split) for Eizen Fineburg & McCarthy.

3. The Company owed General Unsecured Creditors approximately \$3,782,000 as of the filing date. An affiliate of Anstead has agreed to fund the Reorganization Plan for \$300,000 to be used to pay the administrative costs, Priority Unsecured Claims and General Unsecured Claims, in that order. It is thus estimated that General Unsecured Claims will receive a total of approximately \$200,000.
4. Existing equity holders, including common stock option and warrant holders, will be subject to a 100:1 reverse split.

The Company's exclusive source of post-petition operating funds have been advanced by Anstead and/or its affiliate. The Company reached an agreement with them to continue to advance funds to permit the business to work further toward the final development of the ClariCAST(TM) technology. Since the inception of the bankruptcy, Anstead and/or its affiliate has advanced \$256,000 through October 4, 2002.

20

The Company believes this Reorganization Plan provides the most reasonable and realistic approach to satisfaction of the allowed claims in the most efficient manner. The Reorganization Plan provides for the repayment of the outstanding priority unsecured claims in cash upon the Reorganization Plan effective date and further provides for a small cash payment to unsecured creditors. While admittedly the payment to the unsecured creditors is not substantial as to individual claim amounts it does represent a substantial obligation by the Company and certainly provides a greater return than would be received by unsecured creditors under a Chapter 7 liquidation. Without the final development of our technology, the Company's assets all listed at book value are of minimal worth.

General Operations

The current focus of our business is the development and commercialization of ClariCAST(TM), our wireless technology that will support data and information services to a high-speed digital wireless device. Further description of the operations is included above under Item 1, Business.

Results of Operations

During the period from December 1998 to May 2001, several of our former subsidiaries were providers of wire-line telecommunication services through their interests in several businesses with operations in the United States, United Kingdom, Europe and Australia. We previously referred to these operations as our Telephony/Internet Services business segment. We have divested substantially all of our interests in the Telephony/Internet Services business segment, representing the disposal of a business segment under Accounting Principals Board Opinion No. 30. Accordingly, our financial statements have been restated to conform to discontinued operations treatment for all periods presented.

Year Ended June 30, 2002 (Fiscal 2002)
vs. Year Ended June 30, 2001 (Fiscal 2001)

For Fiscal 2002, the Company incurred a net loss of \$3,646,000 (\$0.10 per share) on no revenue compared to a net loss of \$21,581,000 (\$0.60 per share) on no revenue for Fiscal 2001. Net loss from continuing operations was \$5,114,000 (\$0.14 per share) in Fiscal 2002 compared to a net loss from continuing operations of \$15,255,000 (\$0.43 per share) for Fiscal 2001. The \$10,141,000 reduction in loss from continuing operations was primarily due to a decrease in marketing, research and development, depreciation and amortization, and general and administrative expenses of approximately \$10,572,000. The Company was forced to substantially reduce its overhead due to the lack of capital in Fiscal 2002.

General and administrative expenses were \$4,713,000 in Fiscal 2002 as compared to \$9,471,000 in Fiscal, 2001, a decrease of \$4,758,000. This decrease was a result of the reduction in overhead expenses associated with decreasing headcount, consolidating offices and selling off its wireline subsidiaries during the end of Fiscal 2001. By the end of Fiscal 2001, the severe cash shortage forced the Company to lay off most of its Wireless network engineering, marketing and administrative staff and relocate the group headquarters from Fort Washington, Pennsylvania to Philadelphia.

21

Marketing expenses decreased from \$1,044,000 in Fiscal 2001 to \$0 in Fiscal 2002 as the Company was forced to relinquish marketing efforts due to the severe cash shortage in Fiscal 2002. Research and development expenses decreased by \$4,711,000 from Fiscal 2001 to \$0 in Fiscal 2002 primarily due to the severe cash shortage in Fiscal 2002 as mentioned above. The Company was unable to advance the projects on the Wireless Voicemail System and additional applications of our ClariCAST(TM) technology.

The Company's results of operations for Fiscal 2001 and 2000 reflect its former business segment, Telephony/Internet Services, as discontinued operations. In Fiscal 2001 when the Company divested a substantial portion of such businesses, it recognized a loss from discontinued operations of \$6,519,000 as compared to \$0 in Fiscal 2002. In Fiscal 2002, the Company filed for Chapter 7 voluntary liquidation for one of its wireless subsidiaries. The liquidation proceedings subsequently discharged all of their liabilities, and as a result the Company recognized a gain of \$1,568,000 on the discharge of such indebtedness in Fiscal 2002.

Year Ended June 30, 2001 (Fiscal 2001)
vs. Year Ended June 30, 2000 (Fiscal 2000)

For Fiscal 2001, the Company incurred a net loss of \$21,581,000 (\$0.60 per share) on no revenue compared to a net loss of \$4,872,000 (\$0.14 per share) on no revenue for Fiscal 2000. Excluding discontinued operations, the Company incurred a net loss of \$15,255,000 (\$0.43 per share) in Fiscal 2001 compared to a net loss of \$16,364,000 (\$0.49 per share) for Fiscal 2000. The \$1,109,000 reduction in loss from continuing operations was primarily due to lower general and administrative expenses partially offset by higher marketing and research and development expenses.

General and administrative expenses were \$9,471,000 in Fiscal 2001 as compared to \$12,146,000 in Fiscal, 2000, a decrease of \$2,675,000. This decrease resulted from a \$3,919,000 reduction in the fair market value of common stock warrants issued as compensation to various consultants for assisting the Company in its efforts to raise additional capital to fund the operations. Partially offsetting this decrease were higher staff levels and associated costs for back office operations and systems development incurred in the Wireless headquarters to support the launch of the Wireless Voicemail

System in Jacksonville, Florida and in the future, Milan, Italy. By the end of Fiscal 2001, the severe cash shortage forced the Company to lay off most of its Wireless network engineering, marketing and administrative staff and relocate its group headquarters from Fort Washington, Pennsylvania to Philadelphia.

Marketing expenses increased from \$247,000 in Fiscal 2000 to \$1,044,000 in Fiscal 2001 as the Company expanded its marketing staff and activities for the launch of the Wireless Voicemail service in Jacksonville, Florida and in the future, Milan, Italy. Research and development expenses increased \$550,000, from \$4,161,000 in Fiscal 2000 to \$4,711,000 in Fiscal 2001 primarily due to continued acceleration of development work on the Wireless Voicemail System and additional applications of our ClariCAST(TM) technology. Included in the Fiscal 2000 R&D expense amount is \$950,000 for the purchase from a third party engineering contractor of all the technology and related designs, schematics and know-how for one of the key components of the ClariCAST(TM) technology. By the end of Fiscal 2001, the Company reduced both marketing and R&D expenditure rates to minimal levels as a result of its severe cash shortage. See Capital Resources and Liquidity.

22

The Company's results of operations for Fiscal 2001 and 2000 reflect its former business segment, Telephony/Internet Services, as discontinued operations. In Fiscal 2001 when the Company divested a substantial portion of such businesses, it recognized a loss from discontinued operations of \$6,519,000 as compared to income of \$12,254,000 from discontinued operations in Fiscal 2000. As of June 30, 1999, the Company had written off all assets related to certain subsidiaries of the UK Telecommunications Group and had accrued for all of the estimated losses from operations up to October 11, 1999, the date these companies filed for voluntary liquidation. The liquidation proceedings subsequently discharged all of the liabilities, and as a result the Company recognized a gain of \$33,502,000 on the discharge of such indebtedness in Fiscal 2000. Partially offsetting this gain in Fiscal 2000 was a write-off of \$10,441,000 of goodwill related to the acquisition of MegaHertz-NKO, Inc. Excluding these unusual items, results of discontinued operations in Fiscal 2000 reflected a loss of \$10,807,000 as compared to a loss of \$6,519,000 in Fiscal 2001. The \$4,288,000 decline in the amount of such operating losses principally results from 12 months of operations in Fiscal 2000 as compared to 10 months or less of operations in Fiscal 2001. In Fiscal 2001, results of disposal of discontinued operations reflected an adjustment to goodwill of \$2,909,000 because 245,000 shares of our common stock previously considered issued and outstanding were retired as a result of the divestment of MegaHertz-NKO, Inc. This adjustment was partially offset by losses of \$1,054,000 and 1,185,000 on the divestments of certain of the UK operating net assets and a 91% interest in NKA Communications Pty. Ltd., respectively. In Fiscal 2000, the Company incurred a \$762,000 loss on the sale of certain assets of the UK operations remaining after the liquidation proceedings described above.

Liquidity and Capital Resources

As further described above under Bankruptcy Proceedings, the Company is currently operating as debtor-in-possession under jurisdiction of the Bankruptcy Court. Based on the Reorganization Plan submitted to the Bankruptcy Court, the Company expects that the vast majority of our liabilities will have been extinguished when it emerges from Chapter 11 proceedings, which is expected in the near future.

Anstead and/or its affiliate have agreed to fund the Company's working capital requirements through Chapter 11 and until December 31, 2002. Such working capital requirements are forecasted to be approximately \$50,000 per month, principally to cover the compensation and related costs of its two engineering

employees as well as limited general and administrative expenses. This funding is expected to be included in the convertible, non-interest bearing, unsecured promissory note(s) to be issued to Anstead and/or its affiliate pursuant to the Reorganization Plan. The Company has chosen to focus our future efforts on development and commercialization of its ClariCAST(TM) technology. Because the technology is still under development, the Company expects no revenues or positive operating cash flow in the near term.

The Company has no firm commitments for funding after December 31, 2002. The Company has historically relied principally on equity financing to meet its cash requirements. When the Company emerges from Chapter 11 on the effective date, it expects to find the process of raising equity capital extremely difficult. These matters raise substantial doubt about the ability to continue as a going concern. Significant additional funding will be required beyond Fiscal 2003 to meet expected negative operating cash flows. There can be no assurances that such funding will be generated or available, or if available, on terms acceptable to the Company.

23

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company's business does not bear significant exposures to the market risks described in Item 305 of Regulation S-K.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA.

The Consolidated Financial Statements of the Company, including the notes thereto, together with the report of independent certified public accountants thereon, are presented beginning at page F-1. Such consolidated financial statements are hereby incorporated by reference into this Item 8.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors and Stockholders of
Clariti Telecommunications International, Ltd.
(Debtor-in-Possession)
Philadelphia, Pennsylvania

We have audited the accompanying consolidated balance sheets of Clariti Telecommunications International, Ltd. and subsidiaries (Debtor-in-Possession) as of June 30, 2002 and 2001, and the related consolidated statements of operations, stockholders' equity (deficit), and cash flows for each of the three years in the period ended June 30, 2002. These consolidated financial statements are the responsibility of the company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Clariti Telecommunications International, Ltd. and subsidiaries (Debtor-in-Possession) as of June 30, 2002 and 2001, and the results of their consolidated operations and cash flows for each of the three years in the period ended June 30, 2002, in conformity with accounting principles generally accepted in the United States.

The accompanying consolidated financial statements have been prepared assuming the Company will continue as a going concern. As discussed in Note 3, the Company has incurred substantial recurring losses and has experienced liquidity issues resulting in the filing for reorganization under Chapter 11 of the Bankruptcy Code on April 18, 2002. These factors raise substantial doubt about the entity's ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 3. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

CLARITI TELECOMMUNICATIONS INTERNATIONAL, LTD. AND SUBSIDIARIES
 (Debtor-in-Possession as of April 18, 2002)

Edgar Filing: CLARITI TELECOMMUNICATIONS INTERNATIONAL LTD - Form 10-K

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FISCAL YEARS ENDED JUNE 30, 2002, 2001 AND 2000

NOTE 1 - HISTORY AND NATURE OF THE BUSINESS

Clariti Telecommunications International, Ltd. ("Clariti" or the "Company") is an international wireless communications technology company with proprietary technology for transmitting data, including digital voice messages, utilizing radio frequencies transmitted by FM radio stations.

The Company was originally formed in February 1988 as the successor to a music and recording studio business owned and operated by the Company's former CEO and President. In 1995, the Company began shifting its focus to development and commercialization of its wireless technology and no longer has a significant interest in the music and recording studio business.

During the period from December 1998 to May 2001, the Company was also a significant provider of wire-line telecommunication services through its interest in several businesses with operations in the United States, United Kingdom, Europe and Australia. During Fiscal 2001, the Company discontinued its wire-line telecommunication operations (see Note 4).

On April 18, 2002, Clariti Telecommunications International, Ltd. filed a voluntary petition for reorganization under Chapter 11 of the United States Bankruptcy Code in the United States Bankruptcy Court for the Eastern District of Pennsylvania (case no. 02-15817(DWS)). The Company is continuing to manage its properties and operate its business as "debtor-in-possession" under jurisdiction of the Bankruptcy Court and in accordance with applicable provisions of the Bankruptcy Code. As of October 15, 2002, the Company's Plan of Reorganization has been approved by the Bankruptcy Court with an effective date of October 30, 2002.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Fiscal Year End

The Company has a fiscal year ending on June 30. In these financial statements, the twelve month periods ended June 30, 2002, 2001 and 2000 are referred to as Fiscal 2002, Fiscal 2001 and Fiscal 2000, respectively.

Principles of Consolidation and Basis of Presentation

The consolidated financial statements include the accounts of the Company and all wholly-owned subsidiaries not deemed to be discontinued operations (see Note 4). All significant intercompany transactions have been eliminated in consolidation.

Cash Equivalents

The Company considers certificates of deposit, money market funds and all other highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

F-10

CLARITI TELECOMMUNICATIONS INTERNATIONAL, LTD. AND SUBSIDIARIES
(Debtor-in-Possession as of April 18, 2002)
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FISCAL YEARS ENDED JUNE 30, 2002, 2001 AND 2000

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Concentration of Credit Risk

Certain financial instruments potentially subject the Company to concentrations of credit risk. These financial instruments consist primarily of cash and equivalents. The Company places its temporary cash investments with high credit quality financial institutions to limit its credit exposure.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the use of estimates based on management's knowledge and experience. Accordingly actual results may differ from those estimates.

Fair Value of Financial Instruments

The Company's financial instruments consist primarily of cash and equivalents, accounts payable, accrued expenses, and short-term borrowings. These balances, as presented in the balance sheet as of June 30, 2002 and 2001, approximate their fair value because of their short maturities.

Inventory

Inventory is stated at the lower of cost or market determined on a first-in, first-out basis and consists of component parts for the Company's wireless technology currently in the final stages of development.

Property and Equipment

Property and equipment are recorded at cost, and are depreciated primarily using the declining balance and straight line methods over estimated useful lives of 5 years.

Intangible Assets

The Company's intangible assets consist principally of capitalized costs related to its patents and technology. The Company has filed patent applications for its wireless messaging technology (trademarked as ClariCAST(TM)) in the United States and numerous foreign countries. The capitalized patent and technology costs are amortized on a straight-line basis over a 5-year period. Amortization recognized was \$73,000, \$74,000 and \$86,000 in Fiscal 2002, 2001 and 2000, respectively. Accumulated amortization was \$375,000 and \$302,000 at June 30, 2002 and 2001, respectively.

Research and Development Expenses

Research and development expenditures, which are expensed as incurred, totaled \$0, \$4,711,000 and \$4,161,000 during Fiscal 2002, Fiscal 2001 and Fiscal 2000, respectively.

F-11

CLARITI TELECOMMUNICATIONS INTERNATIONAL, LTD. AND SUBSIDIARIES
(Debtor-in-Possession as of April 18, 2002)
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FISCAL YEARS ENDED JUNE 30, 2002, 2001 AND 2000

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Income Taxes

The Company has adopted FASB Statement No. 109, "Accounting for Income Taxes", which requires an asset and liability approach to financial accounting and reporting for income taxes. Deferred income tax assets and liabilities are computed annually for temporary differences between financial statement and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future based on enacted tax laws and rates applicable to the periods in which the differences are expected to be realized. Income tax expense is the tax payable or refundable for the period plus or minus the change during the period in deferred tax assets and liabilities.

Comprehensive Income (Loss)

The Company has adopted SFAS No. 130, "Reporting Comprehensive Income". This statement establishes rules for the reporting of comprehensive income (loss) and its components. The Company has no components of comprehensive income (loss), therefore comprehensive income (loss) is equal to net income (loss) for all years presented.

Net Loss Per Common Share

The Company has adopted FASB Statement 128, "Earnings Per Share," which establishes standards for computing and presenting earnings per share. Under FASB Statement 128, net loss per common share is based upon the weighted average number of common shares outstanding during the period. Net loss per common share after the assumed conversion of potential common shares (warrants, stock options and convertible debt) was not presented because the effect of such conversions would be antidilutive.

Accounting for Stock-Based Compensation

Compensation costs attributable to stock option and similar plans are recognized based on any difference between the quoted market price of the stock on the date of the grant over the amount the employee is required to pay to acquire the stock (the intrinsic value method under APB Opinion 25). Such amount, if any, is accrued over the related vesting period, as appropriate.

The Company has adopted FASB Statement 123, "Accounting for Stock-Based Compensation," which encourages employers to account for stock-based compensation awards based on their fair value on their date of grant. The fair value method was used to value common stock warrants issued in transactions with other than employees during the periods presented. Entities may choose not to apply the new accounting method for options issued to employees but instead, disclose in the notes to the financial statements the pro forma effects on net income and earnings per share as if the new method had been applied. The Company has adopted the disclosure-only approach to FASB Statement 123 for options issued to employees. See Note 11.

F-12

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Recent Accounting Pronouncements

In August 2001, FASB Statement 142, "Goodwill and Other Intangible Assets" was issued, which is effective for fiscal years beginning after December 15, 2001. Statement 142 addresses how intangible assets that are acquired individually or with a group of assets should be accounted for upon their acquisition and also addresses how goodwill and other intangible assets should be accounted for after they have been initially recognized in the financial statements. Also, for previously recognized non-goodwill intangible assets, the useful lives must be reassessed with remaining amortization periods adjusted accordingly, and reflected as a change in accounting principle. Based on the Company's policy for accounting for intangible assets, management does not anticipate the adoption of this standard will result in any significant impact on earnings or financial position of the Company.

In October 2001, the Financial Accounting Standards Board issued SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets" ("Statement 144"), effective in fiscal years beginning after December 15, 2001, with early adoption permitted, and in general are to be applied prospectively. Statement 144 establishes a single accounting model for the impairment or disposal of long-lived assets, including discontinued operations. Statement 144 superseded Statement No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of," and APB Opinion No. 30, "Reporting the Results of Operations - Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions." The Company presently expects that the adoption of Statement 144 will not have a material effect on its financial position or results of operations.

The following recently issued accounting pronouncements are currently not applicable to the Company.

In July 2001, the Financial Accounting Standards Board issued SFAS No. 141, "Business Combinations" ("Statement 141"), effective for all business combinations initiated after June 30, 2001. Statement 141 requires all business combinations to be accounted for under the purchase method. Statement 141 supersedes APB Opinion No. 16, "Business Combinations," and Statement No. 38, "Accounting for Preacquisition Contingencies of Purchased Enterprises."

In August 2001, the Financial Accounting Standards Board issued SFAS No. 143, "Accounting for Obligations Associated with the Retirement of Long-Lived Assets" (Statement 143), effective in fiscal years beginning after June 15, 2002, with early adoption permitted. Statement 143 establishes accounting standards for the recognition and measurement of an asset retirement obligation and its associated asset retirement cost. It also provides accounting guidance for legal obligations associated with the retirement of tangible long-lived assets.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

In April 2002, the Financial Accounting Standards Board issued SFAS No. 145, "Rescission of FASB Statements No. 4, 44 and 64, Amendment of FASB Statement No. 13, and Technical Corrections (Statement 145), effective in fiscal years

Edgar Filing: CLARITI TELECOMMUNICATIONS INTERNATIONAL LTD - Form 10-K

beginning after May 15, 2002.

NOTE 3 - MANAGEMENT'S PLANS FOR REORGANIZATION

The Company's consolidated financial statements have been presented on the basis that it is a going concern, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company has experienced recurring net losses of \$3,646,000, \$21,581,000 and \$4,872,000 in Fiscal 2002, 2001 and 2000, respectively, or a total of \$30,099,000 over the 3-year period.

The Company has historically relied on equity and debt financing to meet its cash requirements. However, adverse market conditions for telecommunications companies during Fiscal 2002 made it extremely difficult for the Company to raise additional financing. Therefore, On April 18, 2002, the Company filed a voluntary petition for reorganization under Chapter 11 of the United States Bankruptcy Code in the United States Bankruptcy Court for the Eastern District of Pennsylvania (case no. 02-15817(DWS)). The Company is continuing to manage its properties and operate its business as "debtor-in-possession" under jurisdiction of the Bankruptcy Court and in accordance with applicable provisions of the Bankruptcy Code. The Company plans to exit the Chapter 11 process on or about October 30, 2002 and continue to develop and utilize its wireless technology in several communications devices. However, these matters raise substantial doubt about the Company's ability to continue as a going concern.

On April 18, 2002, Clariti Telecommunications International, Ltd. filed a voluntary petition for reorganization under Chapter 11 of the United States Bankruptcy Code in the United States Bankruptcy Court for the Eastern District of Pennsylvania (case no. 02-15817(DWS)). At that time the Company reported tangible assets with a book value of approximately \$700,000 and liabilities of approximately \$5,212,000. The Company continues to manage its properties and operate the business as "debtor-in-possession" under jurisdiction of the Bankruptcy Court and in accordance with applicable provisions of the Bankruptcy Code.

In addition, two of the Companies subsidiaries, Clariti Wireless Messaging, Inc. and RadioNet International, Inc., filed voluntary petitions for bankruptcy under Chapter 7 of the U.S. Bankruptcy Code in the U.S. Bankruptcy Court for the Eastern District of Pennsylvania on October 24, 2001 and May 3, 2002, respectively.

On June 25, 2002, the Company filed its Chapter 11 Reorganization Plan with the Bankruptcy Court detailing the plans for settling claims of creditors and restructuring the interests of its equity holders. Following is a brief summary of the Reorganization Plan:

F-14

CLARITI TELECOMMUNICATIONS INTERNATIONAL, LTD. AND SUBSIDIARIES
(Debtor-in-Possession as of April 18, 2002)
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FISCAL YEARS ENDED JUNE 30, 2002, 2001 AND 2000

NOTE 3 - MANAGEMENT'S PLANS FOR REORGANIZATION (continued)

1. The Company owed Priority Unsecured Claims as of the filing date of approximately \$85,000. Included in these claims are four former employees who are owed wages, which accrued during the statutory priority period. Each of these four individuals has a priority claim in the amount of \$4,650. Additionally, the Company owed certain federal, state and local taxes, which

Edgar Filing: CLARITI TELECOMMUNICATIONS INTERNATIONAL LTD - Form 10-K

totaled just in excess of \$67,000. The Reorganization Plan calls for all Priority Unsecured Claims to be paid at 100 cents on the dollar.

2. The Company owed Secured Creditors as of the filing date approximately \$1,345,000. Specifically, the Company owed \$858,000 to Anstead (its largest shareholder), \$250,000 to Pasubio Spa, an Italian joint venture partner, and \$237,000 to Eizen Fineburg & McCarthy, former corporate counsel. The Reorganization Plan calls for all three secured creditors to receive a convertible, non-interest bearing, unsecured promissory note for the face amount owed to them. The principal amount of the note payable to Anstead and/or its affiliate will also include any amounts advanced to the Company during the bankruptcy case and thereafter until December 31, 2002. The notes payable will mature on December 31, 2005 if not converted earlier. The notes are convertible at the Company's discretion at the rate of \$2.00 per share (after the planned 100:1 reverse split) for Anstead, its affiliate and Pasubio, and at a rate of \$10.00 per share (after the planned 100:1 reverse split) for Eizen Fineburg & McCarthy.
3. The Company owed General Unsecured Creditors approximately \$3,782,000 as of the filing date. An affiliate of Anstead has agreed to fund the Reorganization Plan for \$300,000 to be used to pay the administrative costs, Priority Unsecured Claims and General Unsecured Claims, in that order. It is thus estimated that General Unsecured Claims will receive a total of approximately \$200,000.
4. Existing equity holders, including common stock option and warrant holders, will be subject to a 100:1 reverse split.

The Company's exclusive source of post-petition operating funds have been advanced by Anstead and/or its affiliate. The Company reached an agreement with them to continue to advance funds to permit the business to work further toward the final development of the ClariCAST(TM) technology. Since the inception of the bankruptcy, Anstead and/or its affiliate has advanced \$256,000 through October 4, 2002.

The Company believes this Reorganization Plan provides the most reasonable and realistic approach to satisfaction of the allowed claims in the most efficient manner. The Reorganization Plan provides for the repayment of the outstanding priority unsecured claims in cash upon the Reorganization Plan effective date and further provides for a small cash payment to unsecured creditors. While admittedly the payment to the unsecured creditors is not substantial as to individual claim amounts it does represent a substantial obligation by the Company and certainly provides a greater return than would be received by unsecured creditors under a Chapter 7 liquidation. Without the final development of our technology, the Company's assets all listed at book value are of minimal worth.

F-15

CLARITI TELECOMMUNICATIONS INTERNATIONAL, LTD. AND SUBSIDIARIES
(Debtor-in-Possession as of April 18, 2002)
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FISCAL YEARS ENDED JUNE 30, 2002, 2001 AND 2000

NOTE 3 - MANAGEMENT'S PLANS FOR REORGANIZATION (continued)

The Company has chosen to focus its future efforts on development and commercialization of its patented ClariCAST(TM) wireless messaging technology. Because the Company's technology is still under development, the Company expects no revenues or operating cash flows in the near term. Future cash expenditure requirements have been significantly reduced through major reductions in corporate overhead expenses.

Edgar Filing: CLARITI TELECOMMUNICATIONS INTERNATIONAL LTD - Form 10-K

The Company is actively pursuing opportunities to secure additional financing which, if obtained, is expected to be sufficient to develop and market its wireless technology.

There can be no assurances that such funding will be generated or available, or if available, on terms acceptable to the Company. Failure to secure additional financing will have a material adverse impact on the Company, which could include converting the bankruptcy to Chapter 7 proceedings, resulting in the liquidation of the company.

Clariti Wireless Messaging, Inc. and RadioNet International, Inc., both wholly owned subsidiaries of Clariti Telecommunications International, Ltd., each filed a voluntary petition for bankruptcy under Chapter 7 of the U.S. Bankruptcy Code in the U.S. Bankruptcy Court for the Eastern District of Pennsylvania on October 24, 2001 and May 3, 2002, respectively. Both companies' operations have ceased. Neither company held significant assets. The Bankruptcy Court closed the case on Clariti Wireless Messaging, Inc. in Fiscal 2002 and the Company recorded an extraordinary gain on discharge of indebtedness of approximately \$1,568,000. The Bankruptcy Court also closed the case on RadioNet International, Inc. on July 12, 2002.

The consolidated financial statements do not include any adjustments relating to the recoverability of recorded asset amounts or the amounts of liabilities that might be necessary should the Company be unable to continue as a going concern.

NOTE 4 - DISCONTINUED OPERATIONS

During the period from December 1998 to May 2001, the Company was a significant provider of wire-line telecommunication services through its interest in several businesses with operations in the United States, United Kingdom, Europe and Australia. The Company previously referred to these operations as the Telephony/Internet Services business segment. As further described below, the Company has divested substantially all of its interests in the Telephony/Internet Services business segment, representing the disposal of a business segment under Accounting Principals Board Opinion No. 30. These divestments consist of the following:

F-16

CLARITI TELECOMMUNICATIONS INTERNATIONAL, LTD. AND SUBSIDIARIES
(Debtor-in-Possession as of April 18, 2002)
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FISCAL YEARS ENDED JUNE 30, 2002, 2001 AND 2000

NOTE 4 - DISCONTINUED OPERATIONS (continued)

- In October 1999, the Company's wire-line operations in the United Kingdom and Europe (the "UK Telecommunications Group") filed for voluntary liquidation and ceased operation of its businesses. As a result, the Company recorded a write-off of goodwill of \$152,214,000 in Fiscal 1999. The liquidation proceedings discharged all liabilities of the UK Telecommunications Group. All losses from operations of the UK Telecommunications Group had been provided for as of June 30, 1999. Therefore, during Fiscal 2000 the Company recognized a gain of \$33,502,000 largely attributable to the excess of liabilities discharged

over the book value of assets of the UK Telecommunications Group as of the liquidation date. Through such liquidation proceedings, the Company received certain operating assets of the UK Telecommunications Group consisting principally of telephone switching equipment in the United Kingdom. In March 2001, the Company sold such operating assets in the United Kingdom for total consideration valued at \$623,000, consisting of \$227,000 cash, 71,301 shares of Clariti common stock valued at \$98,000 and the assumption by the buyer of net liabilities aggregating \$298,000.

- In January and March of 2001, the Company sold a total of 91% of its interest in NKA Communications Pty Ltd. ("NKA"), an Australian provider of telephony to corporate clients, in exchange for 277,210 shares of Clariti stock valued at approximately \$1,143,000. The estimated net realizable value of the remaining 9% of NKA still held by the Company is \$0.
- The Company acquired MegaHertz-NKO, Inc. ("M-NKO") in May 1999 and Tekbilt World Communications, Inc. ("TWC") in December 1999. Prior to their sale, the combined businesses of TWC and M-NKO operated as an Internet Service Provider and a facilities-based provider of IP and conventional switched telecommunications services in the United States. During Fiscal 2000, the Company terminated most of M-NKO's revenue-generating activities and consolidated those remaining operations into TWC, resulting in a write-off of \$10,441,000 of goodwill related to the acquisition of M-NKO. In May 2001, the Company sold all of the common stock of TWC for an unsecured note for \$250,000 (the "TWC Note") and in a separate transaction, the Company also sold all of the common stock of M-NKO for an unsecured note for \$250,000 (the "M-NKO Note") The TWC Note carries a fixed interest rate of 6% and is payable on May 9, 2003. The M-NKO Note carries a fixed interest rate of 6% and is payable on May 23, 2003. The estimated net realizable value of both notes is \$0.

The operating results from these discontinued operations are as follows (in thousands):

NOTE 7 - SHORT-TERM BORROWINGS FROM RELATED PARTY (continued)

all of the Company's assets. The amount shown on the Company's consolidated balance sheet as of June 30, 2002 includes \$73,000 of accrued interest. In connection with this loan, the Company granted to Anstead warrants to purchase 400,000 shares of the Company's common stock at an exercise price of \$0.95 per share. Such warrants expire on May 3, 2003.

On November 30, 2001, the Company and Anstead Investment, Ltd. executed a Forbearance and Amendment Agreement whereby extending the terms of the repayment of the \$750,000 loan amount to March 31, 2002. In addition, the Forbearance and Amendment Agreement allowed for Anstead to advance an additional \$20,500 to the Company for legal fees associated with the agreement. The additional \$20,500 also carries interest at the rate of 10% per annum and is due by March 31, 2002. On March 3, 2002, the Company borrowed an additional \$13,519 from Anstead Investment, Ltd. for certain expenses, carrying the same terms as the original note. The Company is in default of this loan.

Edgar Filing: CLARITI TELECOMMUNICATIONS INTERNATIONAL LTD - Form 10-K

Anstead and/or its affiliate have agreed to fund the Company's working capital requirements through Chapter 11 and until December 31, 2002. The amount funded as of June 30, 2002 was \$151,000. This funding is expected to be included in the convertible, non-interest bearing, unsecured promissory note(s) to be issued to Anstead and/or its affiliate pursuant to the Reorganization Plan.

NOTE 8 - CONVERTIBLE SHORT-TERM BORROWINGS

On June 28, 2001, the Company borrowed \$62,500 from a third party. The unsecured note was due on November 1, 2001 and carries interest at the rate of 8% per annum. The note is convertible into shares of the Company's common stock at the option of the lender at a conversion price of \$0.075 per share. The amount shown on the Company's consolidated balance sheet as of March 31, 2002 includes \$5,000 of accrued interest. In connection with this loan, the Company granted to the third party warrants to purchase a total of 125,000 shares of the Company's common stock, 62,500 of which are exercisable at \$0.25 per share and 62,500 of which are exercisable at \$0.50 per share. These warrants expired on June 28, 2002. The Company was unable to repay the loan by the November 1, 2001 due date, and is therefore in default of the loan agreement.

On July 2, 2001, the Company entered into a Funding Agreement with a third party pursuant to which Clariti borrowed \$250,000 (the "Outstanding Balance"). The Outstanding Balance is secured by a second position security interest in substantially the same assets as those securing the \$750,000 loan from Anstead (see Note 7). No interest is due on the Outstanding Balance. The Outstanding Balance was to be repaid on or before July 2, 2002. Therefore the Company is in default of the funding agreement. The third party may convert the Outstanding Balance into shares of the Company's common stock at a conversion price of \$0.50 per share. In connection with this Funding Agreement, the Company granted to the third party warrants to purchase a total of 1,000,000 shares of the Company's common stock exercisable at \$0.50 per share. These warrants expired on July 2, 2002.

(Debtor-in-Possession as of April 18, 2002)
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FISCAL YEARS ENDED JUNE 30, 2002, 2001 AND 2000

NOTE 9 - INCOME TAXES

There is no income tax benefit for operating losses for Fiscal 2002, Fiscal 2001 and Fiscal 2000 due to the following:

Current tax benefit - the operating losses cannot be carried back to earlier years.

Deferred tax benefit - the deferred tax assets were offset by a valuation allowance required by FASB Statement 109, "Accounting for Income Taxes." The valuation allowance is necessary because, according to criteria established by FASB Statement 109, it is more likely than not that the deferred tax asset will not be realized through future taxable income.

The reconciliation of the statutory federal rate to the Company's effective income tax rate is as follows (dollars in thousands):

Fiscal	Fiscal	Fiscal
2002	2001	2000

Edgar Filing: CLARITI TELECOMMUNICATIONS INTERNATIONAL LTD - Form 10-K

Statutory benefit provision	\$ (2,797)	\$ (21,078)	\$ (57,169)
Tax differentials on foreign loss	-	-	40
Increase in valuation allowance	2,797	21,078	57,129
	-----	-----	-----
	\$ -	\$ -	\$ -
	=====	=====	=====

Under FASB Statement 109, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates.

The components of the Company's deferred tax assets (liabilities) are as follows (dollars in thousands):

	June 30	June 30
	2002	2001
	-----	-----
Property and equipment	\$ (66)	\$ (120)
Net operating loss carryforwards	93,685	90,942
Valuation allowance	(93,619)	(90,822)
	-----	-----
	\$ -	\$ -
	=====	=====

Clariti Telecommunications International, Ltd. files a consolidated corporate income tax return in the United States and its foreign subsidiaries will be required to file income tax returns in their respective countries.

The use of net operating loss carryforwards for United States income tax purposes is limited when there has been a substantial change in ownership (as

NOTE 9 - INCOME TAXES (continued)

defined) during a three-year period. Because of the recent and contemplated changes in ownership of the Company's common stock, such a change may occur in the future. In this event, the use of net operating losses each year would be restricted to the value of the Company on the date of such change multiplied by the federal long-term rate ("annual limitation"); unused annual limitations may then be carried forward without this limitation.

At June 30, 2002 the Company had net operating loss carryforwards of approximately \$275,545,082 which if not used will expire primarily during the years 2004 through 2022.

NOTE 10 - COMMITMENTS AND CONTINGENCIES

Leases

Due to its severe cash shortage (see Note 3), the Company was unable to pay some of its lease obligations on a current basis. As a result, On October 17,

Edgar Filing: CLARITI TELECOMMUNICATIONS INTERNATIONAL LTD - Form 10-K

2001, Nine Penn Center Associates filed a complaint against the Company in the Court of Common Pleas of Montgomery County, Pennsylvania. Nine Penn Center Associates is the landlord and owner of real property known as the Mellon Bank Center, 1735 Market Street, Philadelphia, PA 19103, a former address of the Company's headquarters. Nine Penn Center Associates is seeking damages associated with the remainder of a lease agreement. On April 2, 2002, the Court entered a judgment by default in favor of Nine Penn Center Associates in the amount of \$1,203,493. This amount has been accrued and recorded in general and administrative expenses. However, this amount is based on the acceleration of the lease through 2006 and therefore is being disputed by the Company through the Bankruptcy Court.

Rent expense for operating leases in Fiscal 2002, Fiscal 2001 and Fiscal 2000 was \$1,299,000, \$666,000 and \$362,000, respectively. The Company is currently leasing facilities in Conshohocken, Pennsylvania for a term of one year for \$50,000 annually.

Employment Agreements

The Company currently does not maintain any employment agreements.

Legal Proceedings

France Telecom SA ("France Telecom") initiated a complaint against the Company on May 12, 2000 before the Tribunal de Commerce de Paris (Paris Commercial Court) in Paris, France. France Telecom's claim relates to a debt it claims it is owed by GlobalFirst Communications SA, a former French subsidiary of the Company, for long-distance telephone services. France Telecom seeks payment from Clariti of 20,000,000 French Francs (approximately \$2,700,000). France

(Debtor-in-Possession as of April 18, 2002)
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FISCAL YEARS ENDED JUNE 30, 2002, 2001 AND 2000

NOTE 10 - COMMITMENTS AND CONTINGENCIES (continued)

Telecom further claims unspecified damages corresponding to the loss of revenue resulting from the ceasing of commercial relations with GlobalFirst Communications SA. The Company has vigorously defended the claims asserted by France Telecom. Clariti believes that it did not verbally or in writing make a promise to pay any obligations of GlobalFirst Communications SA, and that it caused no damages to France Telecom because commercial relations with GlobalFirst Communications SA had ceased before Clariti held any negotiations with France Telecom. On April 10, 2002, The Tribunal de Commerce de Paris issued a decision in favor of the Company, denying France Telecom any damages.

On or about September 28, 2000, Michael P. McAndrews filed a Demand for Arbitration with the American Arbitration Association against the Company and Clariti Wireless concerning obligations arising under Mr. McAndrews' Employment Agreement. Mr. McAndrews has alleged that the Company had guaranteed and assumed the obligation due Mr. McAndrews pursuant to an Assignment and Guaranty Agreement. Mr. McAndrews claimed that as a result of a material change in his duties, he resigned from employment for "good reason" (as defined in the Employment Agreement), therefore entitling him to a severance package in an amount in excess of \$294,000. Additionally, Mr. McAndrews requested reasonable attorney fees and other costs and fees, together with interest thereon.

Edgar Filing: CLARITI TELECOMMUNICATIONS INTERNATIONAL LTD - Form 10-K

Clariti Wireless and the Company disputed Mr. McAndrews' allegations, asserting that Mr. McAndrews was not entitled to any payments and/or damages under the Employment Agreement. The Arbitrators held a hearing on June 14 and 15, 2001 regarding the matter. On October 18, 2001, the Arbitrators ruled that the Company and Clariti Wireless are jointly and severally liable to pay Mr. McAndrews \$290,500 plus reasonable attorney's fees and costs. On December 17, 2001, the Arbitrators awarded Mr. McAndrews \$83,219 for attorney's fees and costs, bringing the total award for Mr. McAndrews to \$401,000, including accrued interest. This amount is included as a general unsecured claim in the Company's Chapter 11 bankruptcy proceedings.

On June 12, 2001, M&T Bank filed an action against the Company in the Court of Common Pleas of Montgomery County, Pennsylvania. M&T Bank seeks to hold Clariti responsible under the terms of a guaranty agreement pursuant to which Clariti allegedly guaranteed certain obligations of its former subsidiary, Clariti Telecom, Inc. M&T Bank seeks damages in the amount of \$368,000.

On October 17, 2001, Nine Penn Center Associates filed a complaint against the Company in the Court of Common Pleas of Montgomery County, Pennsylvania. Nine Penn Center Associates is the landlord and owner of real property known as the Mellon Bank Center, 1735 Market Street, Philadelphia, PA 19103, a former address of the Company's headquarters. Nine Penn Center Associates is seeking damages associated with the remainder of a lease agreement. On April 2, 2002, the Court entered a judgment by default in favor of Nine Penn Center Associates in the amount of \$1,203,493. This amount has been accrued and recorded in general and administrative expenses. However, this amount is based on the acceleration of the lease through 2006 and therefore is being disputed by the Company through the Bankruptcy Court.

CLARITI TELECOMMUNICATIONS INTERNATIONAL, LTD. AND SUBSIDIARIES
(Debtor-in-Possession as of April 18, 2002)
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FISCAL YEARS ENDED JUNE 30, 2002, 2001 AND 2000

NOTE 10 - COMMITMENTS AND CONTINGENCIES (continued)

The Company is, from time to time, during the normal course of its business operations, subject to various other litigation claims and legal disputes. The Company expects none to have a material adverse impact on its operations; however, no assurance can be given that an adverse determination of any claim or dispute would not have an adverse impact on its operations during any given period.

NOTE 11 - STOCKHOLDERS' EQUITY

Common Stock -----

Effective as of July 3, 2000, the Company implemented a 1 for 4 reverse split of its common stock. All amounts of Clariti common stock presented in these financial statements and notes have been retroactively restated to give effect to this reverse split.

During Fiscal 2002 the Company sold 3,000,000 shares of Clariti common stock to A third party investor for proceeds, net of commissions, of \$135,000. In

Edgar Filing: CLARITI TELECOMMUNICATIONS INTERNATIONAL LTD - Form 10-K

addition, the Company issued 150,000 shares of its common stock to a third party for consulting services valued at \$10,500.

During Fiscal 2001, the Company issued approximately 222,000 shares of its common stock pursuant to its December 1999 agreement to acquire TWC. In addition, approximately 85,000 shares of Clariti common stock were returned to the Company pursuant to the terms of such agreement to acquire TWC. The Company has retired these returned shares. Also during Fiscal 2001, the Company received and retired approximately 348,000 shares of its common stock as consideration for the sale of the Company's UK operating assets and the sale of a 91% interest in NKA. The Company also retired 245,000 shares of its common stock as a result of the sale of M-NKO in May 2001.

Warrants

From time to time, the Board of Directors of the Company may authorize the issuance of warrants to purchase the Company's common stock to parties other than employees and directors. Warrants may be issued as a unit with shares of common stock, as an incentive to help the Company achieve its goals, or in consideration for cash, financing costs or services rendered to the Company, or a combination of the above, and generally expire within several months to 5 years from the date of issuance. The following table summarizes activity for common stock warrants outstanding during the 3-year period ended June 30, 2002:

NOTE 11 - STOCKHOLDERS' EQUITY (continued)

	Shares (000)	Exercise Price Per Share	Weighted Average Exercise Price Per Share
Warrants outstanding, 6/30/99	451	\$6.00 - \$14.00	\$ 9.04
Warrants issued	4,348	\$6.00 - \$20.00	\$12.03
Warrants canceled/expired	(110)	\$8.00 - \$20.00	\$17.27
Warrants outstanding, 6/30/00	4,689	\$6.00 - \$20.00	\$12.03
Warrants issued	1,470	\$0.25 - \$ 5.06	\$ 2.37
Warrants canceled/expired	(3,131)	\$8.00 - \$20.00	\$13.22
Warrants outstanding, 6/30/01	3,028	\$0.25 - \$16.00	\$ 6.65
Warrants issued	1,137	\$0.05 - \$ 0.50	\$ 0.46
Warrants canceled/expired	(1,162)	\$0.25 - \$12.00	\$ 6.96
Warrants outstanding, 6/30/02	3,003	\$0.05 - \$16.00	\$ 3.46

The Company has adopted FASB Statement 123, "Accounting for Stock-Based Compensation," which requires compensation cost associated with warrants issued to parties other than employees and directors to be valued based on the fair

Edgar Filing: CLARITI TELECOMMUNICATIONS INTERNATIONAL LTD - Form 10-K

value of the warrants. Such fair value was estimated using the Black-Scholes model with the following assumptions for Fiscal 2002: no dividend yield, expected volatility of 80%, and a risk-free interest rate of 6.5%. The Black-Scholes model valued the warrants issued or repriced during Fiscal 2002, Fiscal 2001 and Fiscal 2000 at \$69,841, \$1,590,000 and \$11,973,000, respectively.

Stock Option Plan

The Company, with stockholder approval, has adopted a Stock Option Plan (the "Plan") which provides for the granting of options to officers, key employees, certain consultants and others. Options to purchase the Company's common stock may be made for a term of up to ten years at the fair market value at the time of the grant. Incentive options granted to a ten percent or more stockholder may not be for less than 110% of fair market value nor for a term of more than five years.

The aggregate fair market value of the stock for which an employee may be granted incentive options which are first exercisable in any calendar year shall not exceed \$100 thousand. The Company has reserved a total of 1,250,000 shares for issuance under the Plan. No options have been granted under this plan through June 30, 1999. The Plan terminates in November 2001, unless terminated earlier by the Board of Directors.

FISCAL YEARS ENDED JUNE 30, 2002, 2001 AND 2000

NOTE 11 - STOCKHOLDERS' EQUITY (continued)

Stock Options

The Company's Board of Directors periodically authorizes the issuance of options to purchase the Company's common stock to employees and members of the Board of Directors. These options may generally be exercised at the fair market value of the common stock on the date of the grant and generally carry such other terms as are outlined in the Company's stock option plan. The following table summarizes activity for stock options during the 3-year period ended June 30, 2002:

	Shares (000)	Exercise Price Per Share	Weighted Average Exercise Price Per Share
Options outstanding, 6/30/99	2,848	\$4.25 - \$15.50	\$10.03
Options granted	672	\$7.50 - \$12.13	\$10.74
Options forfeited	(52)	\$8.75 - \$12.13	\$10.98
Options outstanding, 6/30/00	3,468	\$4.25 - \$15.50	\$10.15
Options granted	1,458	\$2.88 - \$ 8.38	\$ 4.57
Special options granted	414	\$0.001	\$ 0.001
Options forfeited	(1,965)	\$4.25 - \$13.50	\$10.28
Options outstanding, 6/30/01	3,375	\$0.001 - \$15.50	\$ 6.42
Options forfeited	(2,830)	\$0.001 - \$14.00	\$ 6.43
Options outstanding, 6/30/02	545	\$0.001 - \$11.88	\$ 6.41

The Company applies APB Opinion 25, "Accounting for Stock Issued to Employees," and related interpretations in accounting for the issuance of its stock options. Accordingly, no compensation cost was recognized for its stock options issued during Fiscal 2001 and Fiscal 2000. Compensation cost of \$99,000, as computed under APB Opinion 25, was recognized in Fiscal 2001 related to the Special Options. Had compensation cost for the Company's issuance of stock options been determined based on the fair value at grant dates for options consistent with the method of FASB Statement 123, the Company's results of operations would have been affected as indicated in the schedule of pro forma amounts shown below. Fair value amounts were estimated using the Black-Scholes model with the following assumptions for Fiscal 2001: no dividend yield, expected volatility of 80%, and a risk-free interest rate of 6.5% (in thousands of dollars, except per share amounts).

NOTE 12 - EMPLOYEE BENEFIT PLANS

The Company and its United States subsidiaries sponsor a defined contribution pension plan for their employees in the form of a 401(k) plan. The Company makes no contributions to such plan.

The Company does not currently pay for the cost of medical insurance for its United States employees. The Company provides no post-retirement medical

benefits.

NOTE 13 - SEGMENT INFORMATION

The Company has adopted FASB Statement No. 131, "Disclosures About Segments of an Enterprise and Related Information." The Company has determined that segment information is not required to be presented because the Company's former segment known as Telephony/Internet Services was discontinued during Fiscal 2001 (see Note 4). Substantially all of the Company's assets are located in the United States.
