(1)The currency impact is unfavorable, however, Sodexho subsidiaries' income and expenses are expressed in the same currency ; hence, contrary to exporting companies, currency variations carry no operating risk. Currency impact is calculated by applying the average exchange rate for the prior year to the current fiscal year figures

"The Group's first-half results are good, reflecting the expertise and commitment of our teams throughout the world as well as the breadth of our innovative quality of life services offer. This performance, achieved across all geographies, leads us to revise upwards the objectives for operating profit growth that we are targeting for the current fiscal year from the 10% growth that we had originally stated to around 12% growth, excluding currency impact," said Sodexho CEO, Michel Landel.

Press release

Acceleration in organic growth of + 8.2%

At 8.2%, at constant scope of consolidation and exchange rates, organic growth in revenues accelerated for the first-half of Fiscal 2007. This performance reflects the improvement in client retention achieved in Fiscal 2006, good new sales activity, particularly in the Rest of the World (Latin America, Asia-Australia and Remote Sites) and a strong acceleration in comparable unit sales. The Service Vouchers and Cards activity continued to show dynamic organic growth based on its innovative offers.

Revenues for the first-half of Fiscal 2007 were reported on April 4, 2007, and the related press release is available on the Group's website: www.sodexho.com.

Operating profit up : + 20.4% excluding currency impact

Operating profit rose by 15.6% to 364 million euro and by 20.4% excluding the currency impact. This increase is attributable to the continued progress achieved by Sodexho's teams across all geographies.

Food and Facilities Management services¹:

- In North America, operating profit reached 163 million euro, increasing 16.1%. The operating margin for the first half of Fiscal 2007 was 5.6%. Several factors contributed to the improved operating profit:
 - Good development in comparable unit sales in Education and Healthcare
 - Comparison with a Fiscal 2006 first-half that was negatively impacted by several elements (hurricanes, timing of certain expenditures) and losses during the winter months by Spirit Cruises prior to its divestiture at the end of Fiscal 2006.

Sodexho was able to successfully complete certain discussions that were long outstanding regarding its contract with the U.S. Marine Corps during the first half of Fiscal 2007.

Among recognitions received by Sodexho in North America during the first half of the year:

- £ Diversity Inc magazine recently ranked Sodexho #13 among the Top 50 Companies for Diversity in the U.S. for 2007. Sodexho also received special recognition as one of the Top 10 Companies for African Americans;
- £ In the U.S., Sodexho was named a winner of Profiles in Diversity Journal's International Innovation in Diversity Awards for Sodexho's Annual Diversity & Inclusion Report;

² Comparisons with the prior year are excluding currency impact.

Press release

£ For its commitment to Corporate Citizenship, Sodexho was awarded the prestigious Empresa Socialmente Responsable (ESR) Distinctive certification by the Mexican Philanthropy Center for the third consecutive year, the only facilities management company in Mexico to receive the award.

· In Continental Europe, operating profit totalled 115 million euro, an increase of nearly 11%. The operating margin increased from 4.9% to 5.1%, a result of two principal factors:

- Improved productivity and the continuing efforts of Sodexho's teams to reduce overhead costs;

- The effect of major contract start-ups in France which had weighed on operating profit during the first half of Fiscal 2006.

Sodexho teams in Continental Europe also earned recognitions:

£ In Germany, Sodexho was ranked as a leading company for its human resources management strategy and practices in the Geva-Institute's "top employers Germany 2007" study;

£ In Portugal, Sodexho became the first company to be certified for its foodservices "Integrated Management System" under ISO 9001:2000, ISO 14001:2004 and OHSAS 18001:1999.

· In the United Kingdom & Ireland, operating profit rose to 30 million euro. Operating margin was 4.2%, compared with 2.6% in first-half Fiscal 2006. This substantial increase in operating profit confirms the business recovery and reflects the effectiveness of:

- Productivity measures undertaken over the past several years, particularly the reinforcement of rigorous management on existing sites;

- Application of the "Right Client Right Terms" policy to new contracts.

Recognitions received in the UK & Ireland included:

£ In Scotland, Sodexho received Corporate Hospitality Assured accreditation for hospitality services across all contracts, the only supplier to be accredited in Scotland.

· In the Rest of the World (Latin America, Asia-Australia and Remote Sites), operating profit rose to 20 million euro, a strong increase compared with first-half Fiscal 2006. Operating margin was 2.7%, compared with 1.6% in first-half Fiscal 2006. This good performance reflects particularly the ongoing development in the Middle East and Asia and strong activity in the mining sector in Latin America and Australia.

Press release

In the Rest of the World, recognitions were received in several countries:

- £ Sodexho's health and safety practices for its North Sea operations were recognized for the sixth consecutive year by The Royal Society for the Prevention of Accidents' Occupational Health and Safety Awards and, for the eighth consecutive year, by the British Safety Council;
- £ Sodexho Brazil won "The Top Hospitalar 2006" award for the most recognized brand in foodservices for the Healthcare market;
- £ Sodexho Colombia was recognized for its performance in Industrial Safety, by its client Johnson & Johnson;
- £ Sodexho Chile received the "Award in Management of Human Resources" from its clients Antofagasta Minerals.

Service Vouchers and Cards:

Operating profit for Service Vouchers and Cards totalled 66 million euro, an increase of 29.7%, excluding currency effects. This reflects the strong growth in issue volume. As operating costs are largely fixed in this activity, the operating margin was 31.3%, or about 1.8% of issue volume.

Substantial rise in net income: + 24.2%

Group net income rose by 24.2%, or 29.2% excluding currency effects. This increase, stronger than that shown for operating profit, is attributable essentially to the improvement in the effective tax rate, from 38.8% to 35.5%, primarily as a result of refunds of withholding taxes under international tax treaties.

Confirmation of financial model's strength

Net cash provided by operating activities increased 118 million euro compared to the first half of Fiscal 2006, reflecting the strong improvement in operating profit and the change in working capital. Although the change in working capital generally weighs on net cash provided by operating activities in the first half as a cash outflow, this outflow was much less significant during the first half of Fiscal 2007 than for the same period of Fiscal 2006.

Cash flow provided by operating activities enabled the following:

- Capital expenditures and investments at client sites of 108 million euro, or 1.6% of revenues;
- Acquisitions totalling 8 million euro: notably, the acquisition of 100% of Off-Campus Dining Network LLC (OCDN) in the United States as part of the development of services offered to students on university campuses;
- Sodexho Alliance's February 12 dividend payment of 149 million euro;

www.sodexho.com 4/15

Press release

- The net acquisition of company shares for 33 million euro to be used for stock option plans and the liquidity contract,

As of February 28, 2007, net debt stood at 535 million euro and represented just 24.8% of shareholders' equity, compared with 31% at the end of the first-half of Fiscal 2006.

In order to extend the maturity of its existing debt and benefit from current interest rates, Sodexho refinanced part of its debt by issuing a 500 million euro benchmark bond on March 30, 2007 with a maturity of seven years and a coupon of 4.5%.

Upward revision of the Group's objectives for Fiscal 2007

With strong performance during the first half, in Food and Facilities Management services as well as in Service Vouchers and Cards, the Board of Directors has approved the upward revision of the Group's objectives. Based on current information, the Group targets the following objectives for Fiscal 2007:

- organic growth in excess of 7%,
- an increase in operating profit, excluding currency effects, of approximately 12%.²

²Versus Fiscal 2006 comparable underlying operating profit of 577 million euros, excluding the gain on disposition of Spirit Cruises and the US litigation provision release.
