joint media release

Indianapolis, Indiana, USA and Basel, Switzerland, April 1, 2009

Syngenta, Dow AgroSciences Agree to Cross License Corn Traits

Syngenta and Dow AgroSciences, a wholly owned subsidiary of The Dow Chemical Company, today announced an agreement to cross license their respective corn traits for commercialization within their branded seed businesses. The agreement will allow both companies to maximize the value of their technologies and to bring greater choice and flexibility to growers.

Under the terms of the agreement, Syngenta will receive global non-exclusive licenses, with stacking rights, to Dow AgroSciences' Herculex® I Insect Protection for broad lepidopteran control and to Herculex® RW for corn rootworm control.

Additionally, Dow AgroSciences will receive global non-exclusive licenses with stacking rights to Syngenta's Agrisure® GT trait for glyphosate tolerance, and to its insect control traits Agrisure® CB/LL for corn borer and Agrisure® RW for corn rootworm. The licenses also include access to Syngenta's Agrisure Viptera™ trait for broad lepidoptera and to a second generation trait for corn rootworm control.

Davor Pisk, Chief Operating Officer of Syngenta Seeds, said, "We are very pleased to have reached this agreement which significantly expands the options available to growers while further demonstrating the value of our proprietary technology. The combination of Herculex® Insect Protection traits with our Agrisure® portfolio represents a major advance in insect control. From 2011 we plan to offer our U.S. customers multiple modes of action targeting refuge

reduction and improved efficacy.”

Jerome Peribere, President and CEO of Dow AgroSciences, said, “With the combination of technologies, corn growers will benefit from increased flexibility through their preferred trait platforms, and we continue to be pleased that growers find the industry-leading Herculex® technology to be a valuable option to increase productivity due to improved pest protection.”

Financial terms of the agreement have not been disclosed.

## Syngenta Cautionary Statement Regarding Forward-Looking Statements

This document contains forward-looking statements, which can be identified by terminology such as 'expect', 'would', 'will', 'potential', 'plans', 'prospects', 'estimated', 'aiming', 'on track' and similar expressions. Such statements may be subject to risks and uncertainties that could cause the actual results to differ materially from these statements. We refer you to Syngenta's publicly available filings with the U.S. Securities and Exchange Commission for information about these and other risks and uncertainties. Syngenta assumes no obligation to update forward-looking statements to reflect actual results, changed assumptions or other factors. This document does not constitute, or form part of, any offer or invitation to sell or issue, or any solicitation of any offer, to purchase or subscribe for any ordinary shares in Syngenta AG, or Syngenta ADSs, nor shall it form the basis of, or be relied on in connection with, any contract therefor.

## The Dow Chemical Company Forward-Looking Statement

Note: The following statements contained in this document involve risks and uncertainties that may affect the Company's operations, markets, products, services, prices and other factors as discussed in filings with the Securities and Exchange Commission. These risks and uncertainties include, but are not limited to, economic, competitive, legal, governmental and technological factors. Accordingly, there is no assurance that the Company's expectations will be realized. The Company assumes no obligation to provide revisions to any forward-looking statements should circumstances change, except as otherwise required by securities and other applicable laws.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
