This is because the issue price includes the selling agent's commission set forth above and also reflects certain hedging costs associated with the Notes. For additional information, see "Risk Factors — The issue price of the notes has certain built-in costs, including the selling agent's commission and our cost of hedging, both of which are expected to be reflected in secondary market prices" on page S-3 of the accompanying prospectus supplement. The issue price also does not include fees that you may be charged if you buy the Notes through your registered investment advisers for managed fee-based accounts.

(2) The Selling Agent may retain all or a portion of this commission or use all or a portion of this commission to pay selling concessions or fees to other dealers. See "Supplemental Plan of Distribution" on page S-26 of the accompanying prospectus supplement.
