Such placement agent agreement and the form of warrant are filed herewith as Exhibits 99.1 and 99.2, respectively.

The Company's prospectus supplement relating to the Offering, which has been filed with the Securities and Exchange Commission pursuant to Rule 424(b) under the Securities Act, contains the following disclosure (the term "our" refers to the Company):

Certain outstanding warrants to purchase shares of our common stock contain "weighted average" anti-dilution protection, pursuant to which the exercise price of the warrants is reduced upon our issuance of shares of common stock at a purchase price per share less than the applicable per share exercise price of each respective warrant and, in some cases, the number of shares issuable upon the exercise of the warrant is increased. The following table contains certain information regarding these warrants and the adjustments to the exercise price and, where applicable, the number of shares issuable upon exercise:
